# About 504HealthNet

504HealthNet is a network of healthcare providers across Orleans, Jefferson, Plaquemines and St. Bernard parishes. Our providers independently operate more than 50 service locations, ranging from primary care and behavioral health sites to medical mobile units. Together, we provide care for approximately 95,000 patients. Our health clinics provide care for the whole family, regardless of age or income. All of the medical centers listed in this guide and on our website accept public and private health insurance, or payments can be made on an income and family size-based sliding fee scale. It is quality health care everyone can afford.
