

# City of New Orleans <br> Quality of Life STAT 

December 17, 2015
(Reporting Period: November 2015)
www.nola.gov/opa

## Agenda

- Introduction and Announcements
- Open and Effective Government
- Sustainable Communities
- Public Safety
- Children and Families

## Purpose and Scope

Purpose: The Landrieu Administration developed a strategic framework to map out the City's overall direction. The framework links services, programs, strategies, objectives, and goals to the City's mission, values, and vision, and incorporates performance measures to assess performance.

In QualityofLifeSTAT, City leaders and managers review key performance results related to citizens' quality of life. In order to improve results, City leaders and managers review and assess progress achieved, overall trend data, and the likelihood of meeting performance targets. For programs at risk of not meeting targets, leaders and managers identify prospects and tactics for performance improvement, and make adjustments to operational plans as needed. To account to citizens and Councilmembers for the spending of resources provided, QualityofLifeSTAT meetings are open to the public.

Scope: QualityofLifeSTAT focuses on Citywide topics that lead to a perception of neglect and are reported frequently to multiple sources (e.g. 311, Councilmembers, department heads, the NOPD, and at community meetings). QualityofLifeSTAT does not focus on performance managed in other STAT programs or initiatives, nor does it include in depth discussions of complaints about specific locations.

[^0]
## Action Items

| Assigned | Responsible | Action Item | Notes |
| :---: | :---: | :---: | :---: |
| 9/17/15 | C. Sylvain-Lear <br> E. Williams | Reduce illegal tire disposal through targeted enforcement actions against unlicensed tire shops. | - City to identify date for next sweep of non-compliant tire shops. <br> - Coordinated enforcement strategy may require change to ordinance or statute. |
| 11/19/15 | A. Norton <br> C. Harowski | Develop and implement strategy for enforcement of quality-of-life ordinances. | - Service and Innovation Team to develop strategy and oversee implementation along with City Attorney. |
| 11/19/15 | A. Norton <br> M. Jernigan | Develop and implement procurement strategy to reduce the backlog of abandoned vehicles requests. | - Discussions ongoing between SIT and DPW. |
| 11/19/15 | K. Davis | Introduce separate queue to distinguish potholes from major surface repairs. | - 311 to hire additional systems analyst. <br> - Rather than create separate intake queue, DPW could reclassify items after field observation. |
