

CITY OF NEW ORLEANS

Gentilly Streetscape Project

Elysian Fields Ave. from Foy St. to St. Aloysius St. / Stephen Girard St.

Gentilly Blvd. from Pauger to Elysian Fields Ave.

Caton St. from Norman Meyer Ave. to Elysian Fields Ave.

A streetscape is a public improvement project that enhances the public area and triggers subsequent recovery and investment in surrounding neighborhoods. This development is designed to help create additional and continued private investment in the City's key recovery areas. There are a total of 24 streetscape projects currently underway or planned in the City of New Orleans.

The scope of work for this project includes:

- Reconstructing and improving existing sidewalks
- Installing Americans with Disabilities Act-compliant ramps
- Replacing driveways, curbs and pavement patching
- Improving existing green space with new sod

Construction is scheduled to begin in late September 2012 and is expected to last about four months. During construction, residents can expect to experience temporary construction inconveniences such as limited access to areas within the construction zone, movement of heavy equipment, safety signage, fences and sounds.

No major lane closure is anticipated and traffic flow will remain open at all times.

Total cost for this project is \$700,000 and is funded by Community Development Block Grants. The design contract was awarded to Three Fold Consultants, LLC. Construction will be completed by Three C's Properties, Inc.

Questions about this project may be directed to the Department of Public Works at 504-658-8046.
