

City Planning Commission Universal Amendment Proposals

1. Update facts and figures already adopted within the Master Plan using the same or equivalent sources.
2. Update time frames for implementation to start with 2016. Completed actions may be designated as “complete.”
3. As appropriate, carry any amendments proposed for one chapter across to other sections, chapter, or volumes with similar text for consistency.
4. Reconcile associated document text with final approved amendments.
5. Update names of organizations when such names have changed since the time of adoption, but the organization functions in essentially the same role.
6. Replace the names of specific private and non-profit organizations to more generic terms, so as to capture future partners in furthering Master Plan objectives.
7. Throughout multiple chapters, delete references to “district planners” and insert in lieu thereof “planners”. Delete “district councils” and insert in lieu thereof “civic organizations”.
8. Organize charts at the beginning of the chapters to give section numbers of strategies.
9. Re-order goals, strategies and action items - without changing the text - at the discretion of the City Planning Commission.
