# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.11

### TITLE: BODY ARMOR

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 1024**

---

#### PURPOSE

The purpose of this Chapter is to provide officers with guidelines for the proper use of body armor.

#### POLICY STATEMENT

1. It is the policy of the New Orleans Police Department to maximize officer safety through the use of body armor in combination with prescribed safety procedures.
2. While body armor provides a significant level of protection, it is not a substitute for the observance of officer safety procedures.

#### ISSUANCE OF BODY ARMOR

3. Body armor shall be issued to all officers.
4. The department issued body armor shall meet or exceed the **NIJ 0101.06 – Armor Protection Level standards of the National Institute of Justice (NIJ)** for threat protection Level IIA or higher.
5. Body armor shall be issued when an officer begins field service with the New Orleans Police Department.
6. Body armor shall be replaced in accordance with the manufacturer's recommended replacement schedule or when the body armor becomes worn or damaged to the point that its effectiveness or functionality has been compromised.

#### GENERAL INFORMATION ON LEVELS OF PROTECTION

7. The current existing Levels of Protection of NIJ 0101.06 rated body armor are:
  - (a) **Level IIA**—Tested to stop 9mm and .40 S&W ammunition fired from short barrel handguns. No rifle ammunition protection.
  - (b) **Level II**—Tested to stop 9mm and .357 Magnum ammunition fired from short barrel handguns. No rifle ammunition protection.
  - (c) **Level IIIA**—Tested to stop .357 SIG and .44 Magnum ammunition fired from

- longer barrel handguns. No rifle ammunition protection.
- (d) **Level III**—Tested to stop 7.62mm FMJ lead core rifle ammunition.
  - (e) **Level IV**—Tested to stop .30cal steel core armor piercing rifle ammunition.

### **USE OF BODY ARMOR**

- 8. Generally, the use of body armor is required subject to the following:
  - (a) Officers shall only wear department-approved body armor.
  - (b) Officers shall wear body armor anytime they are in a situation where they could reasonably be expected to take enforcement action.
  - (c) Body armor shall be worn when an officer is working a uniform assignment.
  - (d) Officers may be exempt from the requirement to wear body armor when they are functioning primarily in an administrative or support capacity and would not reasonably be expected to take enforcement action.
  - (e) An officer may be exempt from the requirement to wear body armor when:
    - He/she is involved in undercover or plainclothes work that his/her supervisor determines could be compromised by wearing body armor, or
    - When a supervisor determines that other circumstances make it inappropriate to mandate wearing body armor.
  - (f) Any officer exempt from wearing body armor due to administrative assignment must wear his/her body armor while conducting or participating in any raid, warrant execution, or other pre-planned, high-risk situation.
  - (g) Body armor, if not worn due to an approved exemption, must be readily available should the need arise.
  - (h) Specialized body armor, such as that worn over the clothes by the SOD Units (SWAT, VOWS, and Narcotics Division) while executing warrants, will be governed by rules promulgated by the respective commands and in accordance with best practice and NIJ standards.
  - (i) All regular duty body armor, issued by the Department, will be worn in a manner not to be visible to the public (e.g., under the uniform clothing).
  
- 9. The Superintendent of Police or his/her designee, may order the issued body armor to be worn by all officers or any specific unit, at any time.

### **INSPECTIONS OF BODY ARMOR**

- 10. Supervisors shall ensure that issued body armor is worn and maintained in accordance with this Chapter through routine observation and periodic, documented inspections.
- 11. Annual, unit level inspections of body armor shall be conducted by an authorized designee (inspector) for fit, cleanliness and signs of damage, abuse and wear.
- 12. The annual issued body armor inspections shall be documented in writing to the Division or District Commander by the designated inspector and maintained at the unit level.

### **CARE AND MAINTENANCE OF SOFT BODY ARMOR**

- 13. Officers shall not alter, modify, or insert any object into, or remove any portion of, the vest except as necessary and as prescribed by the manufacturer for routine care and maintenance.
- 14. Officers are responsible for reporting any damage or wear to the ballistic panels or cover to the Commander of the Education and Training Division.

15. Soft body armor should never be stored for any period of time in an area where environmental conditions (e.g., temperature, light, humidity) are not reasonably controlled (e.g., normal ambient room temperature/humidity conditions), such as in automobiles or automobile trunks.
16. Soft body armor should be cared for and cleaned pursuant to the manufacturer's care instructions provided with the soft body armor. The instructions can be found on labels located on the external surface of each ballistic panel. The carrier should also have a label that contains care instructions. Failure to follow these instructions may damage the ballistic performance capabilities of the armor. If care instructions for the soft body armor cannot be located, contact the manufacturer to request care instructions.
17. Soft body armor shall not be exposed to any cleaning agents or methods not specifically recommended by the manufacturer.

#### **REPLACEMENT OF SOFT BODY ARMOR**

18. Body armor damaged during normal use will be replaced by the Department.
19. Replacement for body armor damaged due to abuse or neglect must be paid for by the officer.
20. The Commander of the Education and Training Division or his/her designee shall make the determination when body armor shall be replaced.

#### **EDUCATION AND TRAINING DIVISION RESPONSIBILITIES**

21. The Commander of the Education and Training Division or his/her designee shall:
  - (a) Monitor professional sources (e.g., NIJ) for information about recalls of or identified problems with body armor issued to and used by department members.
  - (b) Assess weapons and ammunition currently in use by local law enforcement and criminals and the suitability of the currently approved body armor to protect against those threats.
  - (c) If the class weapons and ammunition assessed exceeds the rated capability of the departmental issued body armor, immediate recommendation for an upgrade to an adequate level of protection shall be made to the Superintendent.
  - (d) Provide training that educates officers about the department policy on the proper use, care and the safety benefits of wearing body armor.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.12

### TITLE: FIELD INTERVIEW CARDS

**EFFECTIVE: 04/28/2019**

**REVISED: 12/20/20**

---

#### PURPOSE

The New Orleans Police Department is committed to constitutional and bias-free policing. To ensure that the Department and its members adhere to these principles, Department members document stops and certain other discretionary interactions with the public in Field Interview Cards (FICs), and supervisors review FICs to support constitutional and bias-free policing.

#### POLICY STATEMENT

1. Officers shall use accurate and specific descriptive language and not rely solely on “boilerplate” or “pat” language in any reports documenting stops, detentions, or searches. Articulation of reasonable suspicion and probable cause shall be specific and clear.
2. The investigating officer of the primary unit on the scene shall document the following occurrences in a Departmental FIC whether or not a report, citation or summons is completed:
  - (a) Stopping a vehicle to issue a traffic citation (see **Chapter 1.2.4.1 – Stops, Chapter 1.2.4.3 – Vehicle Stops** and **Chapter 61.3 – Traffic Citations**).
  - (b) Stopping a vehicle to issue a verbal traffic warning (see **Chapter 1.2.4.1 – Stops, Chapter 1.2.4.3 – Vehicle Stops** and **Chapter 61.3 – Traffic Citations**).
  - (c) A self-initiated investigatory stop of a suspicious vehicle (see **Chapter 1.2.4.1 – Stops** and **Chapter 1.2.4.3 – Vehicle Stops**).
  - (d) A self-initiated investigatory stop of a suspicious person (see **Chapter 1.2.4.1 - Stops**).
  - (e) Any pat-down or search conducted without a search warrant, except **documented** searches incident to arrest and administrative/inventory searches (See **Chapter 1.2.4 – Search and Seizure**).
  - (f) The issuance of a Juvenile Warning Notice (see **Chapter 44.3 – Juvenile Warning Notice and Summons**).
  - (g) The use of a Naloxone kit on an individual with a suspected opiate/opioid overdose (Signal 24-N; see **Chapter 41.3.1 – Opioid Overdose – Use of Naloxone**).
  - (h) A Law Enforcement Assisted Diversion (L.E.A.D.) pursuant to **Chapter 1.2.6 – Alternatives to Arrest - Diversion**.
  - (i) Providing a public safety ride (see **Chapter 10.1 – Public Safety Rides**).

3. **Many arrests** (State, municipal, traffic) start as an “investigatory stop” and as such **need an FIC** even if other paperwork (EPR, Affidavit, summons, citation) is also completed. This does not, however, mean that all arrests must be documented in an FIC.
4. A motor vehicle crash, including crashes resulting in citations, does **not** require an FIC.
5. Unless it involves one of the categories in this Chapter that requires an FIC, a dispatched call for service (CFS) **does not automatically require an FIC**. Officers may document any legal actions or activity on their part in an FIC if they believe it is in the best interest of law enforcement and / or public safety, even if not specifically required by this Chapter.

## DEFINITIONS

**Public Safety Ride** – the voluntary transport of a person or persons from one location to another as a public service, for example, when giving a stranded tourist a ride or when transporting someone who has been involved in an investigative stop or Call For Service which has already been concluded for their safety. Public Safety rides are not part of a detention and may be refused for any reason.

**Field Interview Cards (FICs)**—The method the NOPD utilizes to document stops and other discretionary interactions between a member of the NOPD and individual members of the community.

**Investigatory Stop**—The temporary involuntary detention and questioning of a person and/or vehicle and its occupants to investigate potential criminal conduct. To conduct an investigatory stop, the officer must have reasonable suspicion that the individual or vehicle occupant has engaged, is engaging, or is about to engage in criminal conduct.

**Stop**—A brief, minimally intrusive detention of a subject, including pedestrians, bikers, and/or the occupants of a vehicle, during which a reasonable person in the subject’s position would not feel free to leave, as defined in *Terry v. Ohio*, 392 U.S. 1 (1968).

**Vehicle Stop**—The involuntary detention of a motor vehicle and its occupants. Vehicle stops may be conducted (1) where there is probable cause to believe that the driver has committed a traffic violation or (2) where there is reasonable suspicion that a vehicle occupant has engaged, is engaging, or is about to engage in criminal conduct.

**Supervisor Feedback Log (SFL)**—A web-based application utilized by Department supervisors to document close and effective supervision actions such as redirection, counseling, and support. SFL is available to supervisors, the Compliance Bureau, and the Public Integrity Bureau on NOPD Web Apps under Applications.

## GENERAL GUIDELINES

6. The investigating officer of the primary unit on the scene shall be responsible for completion of an FIC. Only one FIC entry should be made for each incident.
7. Supervisors shall review all FICs entered by members of their unit to ensure that officers are complying with Departmental regulations regarding legal stops and that the Field Interview Cards are completed using accurate and specific descriptive language.
8. All FICs shall be completed via Mobile Data Terminal (MDT), if available. If no MDT is available to the investigating officer, FICs may be entered via computer network terminals.

These computer network terminals are available at each district station, as well as other Departmental installations, and entries shall be made by the investigating officer.

9. All FIC entries shall be completed prior to the end of the officer's tour of duty.
10. FIC entries for incidents that occur outside of regular duty times (e.g., during police secondary employment) must be made no later than the officer's next regular tour of duty and shall contain the date and time of the incident, and the date and time of the entry.
11. The template for FIC entries made on Mobile or Computer Data Terminals is the same as the template for FIC entries made on computer network terminals. The date and time will automatically be entered by the computer based on the time of entry but should be changed, if necessary, to reflect the actual time of the stop or action, not the time of entry into the system.
12. The following information shall be required on all FICs:
  - (a) Date and time of the stop / incident.
  - (b) Location of the stop / incident.
  - (c) Duration of the stop / incident.
  - (d) Officer name, badge # and employee ID#.
  - (e) If a vehicle stop, presence and number of any passengers and the apparent race, ethnicity, gender, and age of each passenger. (See **Chapter 1.2.4.3 – Vehicle Stops**).
  - (f) If a vehicle stop, whether the driver or any passenger was required to exit the vehicle and the justification for that action.
  - (g) If a non-vehicle stop (e.g., pedestrian or bicycle), the number of individuals stopped and apparent race, ethnicity, gender, and age of each person. (See **Chapter 1.2.4.1 – Stops**).
  - (h) Reason for the stop, including a clear and specific articulation of the facts creating reasonable suspicion or probable cause.
  - (i) Whether any individual was asked to consent to a search and whether such consent was given. Consent to search documentation shall be completed prior to the search according to **Chapter 1.2.4 – Search and Seizure**.
  - (j) If a pat-down or frisk was performed on any individual, the officer shall document the specific facts creating articulable reasonable suspicion that the person was armed and dangerous, and a description of any items of contraband or weapons found (see **Chapter 1.2.4 – Search and Seizure**).
  - (k) If a probable cause search was performed on any individual, the officer shall document the facts creating probable cause and a brief description of any items of contraband or weapons found see **Chapter 1.2.4 – Search and Seizure**).
  - (l) If a strip search was requested, the officer who requested the search, and the supervisor who approved or disapproved the request to strip search and signed Form 353 – Strip Search Authorization. If the item number of the EPR documenting the incident and the strip search is different than the item number for the FIC, include it in the FIC. (See **Chapter 1.2.4 – Search and Seizure**).
  - (m) Disposition of the stop, including whether a citation or summons was issued to, or an arrest was made of, any individual, including all subsequent related NOPD item numbers (i.e., if an officer conducts a stop-and-frisk and does the FIC under one item number, closes that item number and obtains an additional item number for a subsequent arrest report related to the stop, both item numbers should be referenced).
  - (n) If a Public Safety Ride was offered, and a "Limited Consent Search" was performed on any individual, the reason the officer believed the individual may be armed. (See **Chapter 10.1 – Public Safety Rides**).

13. Each field on the Field Interview Card is labeled. Enter the appropriate, required information into each field. If a field does not apply, do not enter any information into that field. All fields that apply to the stop or incident shall be entered. The Field Interview Card shall be completed as completely as possible depending on the nature of the stop or incident or action taken.
14. The FIC manual is available on NOPD.org under Resources.

#### **SUPERVISORS SHALL APPROVE ALL FIC DOCUMENTATION**

25. After receiving a submitted FIC, a supervisor of the submitting officer's unit shall review the FIC to determine if each stop, frisk, or search was supported by documentation of reasonable suspicion or probable cause; whether it is consistent with NOPD regulations, policy, and federal and state law; and whether it showed a need for corrective action or review of agency policy, strategy, tactics, or training. Supervisors shall make every reasonable effort to complete this review within 12 hours of receiving the submitted FIC, and in all cases shall complete the review within 72 hours.
26. If a supervisor finds the FIC documentation to be inaccurate or insufficient, that supervisor shall require that the officer supplement the documentation before the end of that officer's present tour of duty and/or take corrective action according to the following paragraph.
27. If the actions reviewed appear not to be supported by the required reasonable suspicion or probable cause, or are not consistent with this Chapter, federal and state law, the supervisor, in consultation with the shift commander (if present), shall document and establish a strategy to remediate the situation. The supervisor shall document any corrective action in the Supervisor Feedback Log (see **35.1.7 – Non-Disciplinary Responses to Minor Violations**), by initiating a formal disciplinary investigation (see **52.1.1 – Misconduct Intake and Complaint Investigation**), or, as appropriate, shall recommend a review of agency policy, strategy, tactics, or training.

#### **RECORDS**

30. The NOPD Technology Section shall be responsible for the maintenance of the FIC database.
31. The records stored in the FIC database shall be maintained in the active files for five years from the date of entry.
32. After five years from the date of entry, the individual(s) personal identifying information will be purged. Only demographic and information relating to legal justification and circumstances (reasonable suspicion, probable cause, etc.) shall be maintained for statistical analysis and reporting.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.13

### TITLE: BIAS-FREE POLICING

**EFFECTIVE: 07/10/2016**

**REVISED:**

---

#### PURPOSE

The purpose of this Chapter is to ensure that members of the New Orleans Police Department discharge their duty to serve the community in a bias-free manner.

#### POLICY STATEMENT

1. NOPD strives to provide police services that are equitable, respectful, and bias-free in a way that helps promote broad-based community engagement and bolsters confidence in the Department. Actual or perceived race, color, ethnicity, national origin, religion, gender, gender identity, sexual orientation, economic status, age, cultural group, disability, housing status, or affiliation with any other similar identifiable group shall not be a motivating factor to any degree in any law enforcement decision, including the decision to take no action, or in the selection or rejection of particular tactics and strategies.
2. Bias-based policing is strictly prohibited. Bias-based policing degrades the public's confidence in the Department and is detrimental to effective law enforcement because it fosters distrust in the community and undermines the Department's ability to enforce the law.

#### DEFINITIONS:

Definitions relevant to this Chapter include:

**Bias-based policing**—An inappropriate reliance, to any degree on characteristics, whether actual or perceived, such as race, color, ethnicity, national origin, ancestry, creed, religion, gender, gender identity, sexual orientation, economic status, age, cultural group, disability, housing status, or affiliation with any other similar identifiable group as a factor in deciding whether to take law enforcement action or to provide any form or type of service. Inappropriate reliance includes selecting an individual for law enforcement contact or police action, including a stop, use of force, detention, search, issuance of citation, or arrest, based on any of the characteristics listed above as well as the selective enforcement or non-enforcement of the law, i.e. discriminatory policing or “profiling.”

Inappropriate reliance on the listed characteristics **does not** include using race, ethnicity, or any other status as part of a reliable and individual-specific description for purposes of identification.

**Explicit bias**—Bias that reflects a person’s consciously held belief or attitude. In contrast to implicit bias, an explicit bias is one that a person is or can be aware of.

**Gender**—Refers to the attitudes, feelings, and behaviors that a given culture associates with a person’s biological sex. Behaviors that are viewed as incompatible with these cultural associations may be considered gender non-conforming.

**Implicit bias**—Bias that results from an unconscious stereotype, association, feeling, perception, or attitude. Unlike explicit bias, an implicit bias may exist without a person’s awareness and can contradict that person’s stated beliefs.

**Pat-down search/frisk**—An external examination of the outer garments of an individual. It is limited to what is necessary to detect weapons and must be based on reasonable, articulable suspicion that the person is armed and dangerous. Pursuant to the “plain-feel doctrine,” police may seize contraband discovered in the course of a frisk, but only if the contraband’s identity is immediately apparent. An officer may not manipulate objects that are discovered under the clothing to determine whether they are contraband.

**Probable cause**—The facts and circumstances, known to the officer at the time, which would justify a reasonable person in believing the suspect committed or was committing an offense.

**Reasonable suspicion**—Specific, objective, articulable facts, within the totality of the circumstances, that, taken together with rational inferences, create a well-founded suspicion that there is a substantial possibility that a subject has engaged, is engaging, or is about to engage, in criminal conduct.

**Stop/Terry stop**—A brief, minimally intrusive detention of a subject, including the occupants of a vehicle, during which a reasonable person in the subject’s position would not feel free to leave, as defined in *Terry v. Ohio*, 392 U.S. 1. To justify a stop, the officer must have reasonable suspicion. For purposes of this Chapter, the terms “stop” and “Terry stop” are used interchangeably, and shall include detentions, investigatory stops, seizures, and field interviews. The stop must be based on what the officer knew before the stop. Information learned during a stop can lead to additional reasonable suspicion or probable cause that a crime has occurred, but it cannot provide the justification for the original stop.

## **BIAS-BASED POLICING PROHIBITED**

3. Bias-based policing is strictly prohibited. Law enforcement and investigative decisions must be based upon observable behavior or specific and reliable information.
4. Employees who engage in, ignore, or condone bias-based policing will be subject to discipline, up to and including termination.
  - (a) It is not a violation of this policy for an officer to consider factors such as actual or perceived race, color, ethnicity, national origin, religion, gender, gender identity, sexual orientation, economic status, age, cultural group, disability, housing status, or affiliation with any other similar identifiable group in combination with other legitimate factors (i.e., weight, age, height, dress, etc.) in reference to the description of a specific suspect, witness, person of interest or perpetrator of a crime for whom the officer is searching at that time.

- (b) Officers may only consider factors such as actual or perceived race, color, ethnicity, national origin, religion, gender, gender identity, sexual orientation, economic status, age, cultural group, disability, housing status, or affiliation with any other similar identifiable group if it forms part of a description that is:
- i. specific;
  - ii. from a reliable source;
  - iii. tied to a particular incident or event; and
  - iv. tied to the individual's known or suspected whereabouts or the time frame of the criminal activity.
5. Officers may never rely solely on generalized descriptions of an individual's actual or perceived race, color, ethnicity, national origin, religion, gender, gender identity, sexual orientation, economic status, age, cultural group, disability, housing status, or affiliation with any other similar identifiable group, even if such factors purport to represent a suspect description. Such factors may only be considered in combination with other legitimate factors that form a specific, reliable description that meets the criteria above.
6. Officers shall not record an individual's actual or perceived sexual orientation or gender identity in written reports. In providing descriptions of individuals for the purposes of identification, officers shall not include information about individuals' actual or perceived sexual orientation or gender identity. For example, officers shall not describe a person as "a gay man," "a lesbian," or "a transgender woman," or use similar terms to describe a person as a male, a man, a female, a woman, or as gender nonconforming. Officers are permitted to refer to an individual's actual or perceived sexual orientation or gender identity in the narrative portions of written reports when that information is reasonably relevant to the crime or incident about which the report is written, or when it is necessary to accurately reflect the statement of a witness, victim, or person interviewed about the crime or incident.
7. Laws shall not be selectively enforced, or not enforced, based to any degree on actual or perceived race, color, ethnicity, national origin, religion, gender, gender identity, sexual orientation, economic status, age, cultural group, disability, housing status, or affiliation with any other similar identifiable group.
8. Officers are prohibited from selecting or rejecting particular policing tactics, strategies, or locations based to any degree on actual or perceived race, color, ethnicity, national origin, religion, gender, gender identity, sexual orientation, economic status, age, cultural group, disability, housing status, or affiliation with any other similar identifiable group.

#### **AVOIDING THE PERCEPTION OF BIAS**

9. In an effort to prevent perceptions of bias, officers shall use the following measures whenever reasonably possible when conducting consensual contacts, investigative detentions, traffic stops, arrests, and searches and seizures of property:
- (a) Be professional and polite.
  - (b) Provide a self-introduction and explain to the subject the reason for the contact as soon as practical, unless providing this information will compromise the investigation or the safety of officers or other persons. In ordinary vehicle stops, this information shall be provided before asking for driver's license, vehicle registration, and proof of insurance or other identification.

- (c) Ensure that the length of the detention is no longer than reasonably necessary to take appropriate action for the known or suspected offense, as well as any offense which is legitimately discovered during the course of the investigation.
- (d) Ensure that the purpose of reasonable delays is explained to the person contacted.
- (e) Answer any questions the person contacted may have, including explaining options for the disposition of a traffic citation, if relevant.
- (f) Provide name and badge number when requested, verbally, in writing, or on a business card.
- (g) If the reasonable suspicion for the stop is dispelled or the stop was made in error, explain why the error was made and apologize for any inconvenience.

### STOPS AND SEARCHES

- 10. Officers detaining any person shall be prepared to articulate and document sufficient reasonable suspicion to justify any detention independent of the actual or perceived race, color, ethnicity, national origin, religion, gender, gender identity, sexual orientation, economic status, age, cultural group, disability, housing status, or affiliation with any other similar identifiable group.
- 11. Under no circumstances shall officers frisk or search any person solely for the purpose of determining that person's biological gender or to view or touch the person's genitals. At no time shall an officer refuse to search someone based on his/her actual or perceived gender identity or sexual orientation. (See Chapter 41.13.1, "Interactions with LGBTQ Persons.")
- 12. Officers shall adhere to the guidelines of **Chapter 1.2.4, Search and Seizure**. When same-gender searches are required by law, officers shall respect the gender identification expressed by the individual to be searched.

### MEMBER RESPONSIBILITIES

- 13. Every member of this Department shall perform his/her duties in a fair and objective manner and is responsible for promptly reporting any known instances of bias-based policing to a supervisor before the end of the shift during which they become aware of the incident.
- 14. Except as part of a reliable and specific description of an individual's identity, linking the individual to an event or location, an individual's actual or perceived race, color, ethnicity, national origin, religion, gender, gender identity, sexual orientation, economic status, age, cultural group, disability, housing status, or any combination thereof shall not be a factor in determining the reasonable suspicion for a stop, probable cause for an arrest, or asset seizure and forfeiture efforts.
- 15. If a violation of law has occurred, and the individual is not to be custodially arrested and booked, the officer shall complete the required citation, summons, or Field Interview Card (FIC) as quickly as possible and allow the individual to continue without unnecessary delay.
  - (a) Information pertaining to the individual's gender, race, and age shall be entered on all forms. If this information can be obtained from documentation on the individual's person, he/she will not be asked to provide it. If this information

can be obtained from the individual's appearance, it will be entered without asking the individual to provide it.

(b) If the officer completing the required paperwork cannot determine the gender, race, and/or age of the individual being detained, and the documentation submitted by the individual does not provide the necessary information, the officer may inquire as to the information needed to complete the required paperwork in a professional manner.

16. No person shall be discouraged from, intimidated from, or coerced into filing a complaint alleging profiling by any member (commissioned or civilian employee) of this Department. Officers, upon request, shall provide information about how to file a complaint (see Chapter 52.1.1, Misconduct Complaint Intake and Investigation).
17. If a person alleges bias-based policing, the officer shall call a supervisor to provide assistance with filing a misconduct complaint if requested (see Chapter 52.1.1, Misconduct Complaint Intake and Investigation). For purposes of this policy, an allegation of bias-based policing occurs whenever, from the perspective of a reasonable officer, a person complains that an officer treated him, her, or someone else differently because of actual or perceived race, color, ethnicity, national origin, religion, gender, gender identity, sexual orientation, economic status, age, cultural group, disability, housing status, or affiliation with any other similar identifiable group.

#### **SUPERVISOR RESPONSIBILITY**

18. Supervisors are responsible for monitoring those individuals in their command for any behavior that may conflict with the purpose of this Chapter and shall address any alleged or observed violation of this Chapter in accordance with **Chapter 52.1.1, Misconduct Complaint Intake and Investigation**. Supervisors shall discuss any issues with any involved officer and his/her supervisor in a timely manner.
19. Recordings that a supervisor believes capture a potential instance of bias-based policing shall be appropriately retained for administrative investigation purposes in accordance with NOPD's approved records retention schedule (see La. R.S. 14:411).
20. Supervisors shall ensure that no retaliatory action is taken against any member of this department who discloses information concerning bias-based policing.

#### **ADMINISTRATION**

21. The Deputy Superintendent of the Public Integrity Bureau shall annually assess and report on all NOPD programs, initiatives, and activities to ensure that no program, initiative, or activity is applied or administered in a manner that discriminates against individuals on the basis of actual or perceived race, color, ethnicity, national origin, religion, gender, disability, sexual orientation, gender identity, or housing status.
22. The assessment shall include but not be limited to whether there is discrimination with respect to the following:
  - (a) misconduct complaints involving discrimination;
  - (b) use of force;
  - (c) motor vehicle and pedestrian stops;
  - (e) arrests; and
  - (e) whether particular geographic deployment tactics or strategies may have been

selected or rejected based upon stereotypes or biases.

23. The assessment shall be based on accurate, complete and reliable data, including:
- (a) misconduct complaints and data contained in the Early Warning System;
  - (b) stop and detention data;
  - (c) use of force analysis;
  - (d) crime trend analysis in relation to population demographics;
  - (e) enforcement practices based on community concerns; and
  - (f) operations plans and after-action reports.

## **TRAINING**

24. Training on techniques to eliminate bias-based policing shall be conducted as directed by the Education, Training and Recruitment Division in Police Recruit Training and Annual In-service Training, including four hours of comprehensive training as well as four hours annually thereafter, based on developments in Louisiana or federal law and NOPD policy. This training shall address:
- (a) Methods and strategies for more effective policing that rely upon non-discriminatory factors;
  - (b) Police and community perspectives related to discriminatory policing;
  - (c) Constitutional and other legal requirements related to equal protection and unlawful discrimination;
  - (d) The protection of civil rights as a foundation of effective policing;
  - (e) The existence and impact of arbitrary classifications, stereotypes, and bias, including unconscious or implicit bias;
  - (f) Methods and strategies for identifying stereotypes and implicit bias in officer decision-making;
  - (g) Instruction in the collection of information required for standard reporting, citation, summons, affidavit, or Field Interview Card (FIC);
  - (h) Identification of key decision points at which discrimination can take effect; and
  - (i) Methods, strategies, and techniques to reduce misunderstanding, conflict, and complaints due to perceived discrimination or bias.
25. As part of, or in addition to, bias-based policing training, all officers shall view the video on racial/bias-based policing produced by the Department of Public Safety and Corrections (La. R.S. 32:398.10(F)).

## **HATE CRIMES**

26. State law creates penalty enhancements for identified crimes motivated because of actual or perceived race, age, gender, color, religion, creed, disability, national origin, sexual orientation or ancestry of the victim or victims or because of membership, service or employment with an organization (La. R.S. 14:107.2). Please refer to Chapter 42.12, Hate Crimes.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.13.1

### TITLE: INTERACTIONS WITH LESBIAN, GAY, BISEXUAL, TRANSGENDER, AND QUESTIONING PERSONS

**EFFECTIVE: 03/12/2017**

**REVISED: 04/15/2018**

---

#### PURPOSE

This policy governs police interactions with members of the Lesbian, Gay, Bisexual, Transgender, and Questioning (LGBTQ) community.

#### POLICY STATEMENT

1. Members shall respect and treat all individuals equally regardless of gender identity, gender expression, or sexual orientation.
2. Members shall recognize that gender identity, gender expression, and sexual orientation do not constitute reasonable suspicion or evidence that a person has engaged in any crime.
3. Members are advised that confiscating, citing, and invoicing condoms as evidence for any prostitution-related offenses may compromise public health by creating a disincentive to carry, distribute, share, receive, or keep condoms in order to engage in safer sex practices.
4. This policy should be read in conjunction with **Chapter 41.3 – Bias-Free Policing**.

#### DEFINITIONS:

Definitions relevant to this Chapter include:

**Chosen name, title, and pronoun**—The forms of address preferred by a transgender or gender non-conforming individual.

**Gender**—Refers to the attitudes, feelings, and behaviors that a given culture associates with a person's biological sex. Behaviors that are viewed as incompatible with these cultural associations may be considered gender non-conforming.

**Gender expression**—External manifestations of one's gender identity. Common examples include one's name, pronouns, clothing, haircut, behavior, voice, and body characteristics.

**Gender identity**—A person’s internal, deeply held sense of gender. This internal sense of gender may be different from the sex a person was assigned at birth or the person’s physiology or biological sex (i.e., a person may have been assigned the gender of male at birth but may have an internal, deeply held sense of being female). Gender identity may or may not be visible to others or expressed outwardly through a person’s chosen pronouns, clothing, haircut, behavior, voice, and body characteristics. Gender identity is an innate characteristic of each person’s personality.

**Gender non-conforming**—An umbrella term used to describe a wide range of variations in physical appearance, characteristics, behaviors, and internal, deeply held senses of gender that do not conform to traditional societal expectations of male or female. This includes non-binary gender identities, meaning an individual identifies as androgynous (both male and female), between male and female, neutral, or not having a gender identity. A gender non-conforming person may use gender neutral pronouns (i.e., they, them, and theirs.)

**Intersex**—An umbrella term used to describe a wide range of natural bodily variations. Intersex people are born with or develop characteristics that do not seem to fit the conventional definitions of male or female. These characteristics can include chromosomes, genitals, hormones, and more. People with intersex conditions should not be assumed to be transgender. Note that the term “hermaphrodite” is offensive and should not be used.

**LGBTQ**—An umbrella term meant to refer to individuals who self-identify as Lesbian (L), Gay (G), Bisexual (B), Transgender (T), or Questioning (Q) their sexual orientation.

**Pat-down search/frisk**—An external examination of the outer garments of an individual. It is limited to what is necessary to detect weapons and must be based on reasonable, articulable suspicion that the person is armed and dangerous. Pursuant to the “plain-feel doctrine,” police may seize contraband discovered in the course of a frisk, but only if the contraband’s identity is immediately apparent. An officer may not manipulate objects that are discovered under the clothing to determine whether they are contraband.

**Sex/biological sex/sex assigned at birth**—Refers to a person’s biological or anatomical status as male, female, or intersex. Indicators of biological sex include sex chromosomes, hormones, gonads, internal reproductive organs, and external genitalia.

**Sexual orientation**—An enduring emotional, romantic, or sexual attraction to other people. A person may be attracted to members of the same, opposite, or both sexes. Examples of sexual orientation include heterosexual, bisexual, gay, and lesbian.

**Stop/Terry stop**—A brief, minimally intrusive detention of a subject, including the occupants of a vehicle, during which a reasonable person in the subject’s position would not feel free to leave, as defined in *Terry v. Ohio*, 392 U.S. 1. To justify a stop, the officer must have reasonable suspicion. For purposes of this Chapter, the terms “stop” and “Terry stop” are used interchangeably, and shall include detentions, investigatory stops, seizures, and field interviews. The stop must be based on what the officer knew before the stop. Information learned during a stop can lead to additional reasonable suspicion or probable cause that a crime has occurred, but it cannot provide the justification for the original stop.

**Transgender or “trans”**—An umbrella term used to describe a person whose gender identity and/or gender expression is different from those typically associated with the sex they were assigned at birth. “Trans” is shorthand for “transgender.” Some transgender people may undergo surgery and/or take hormones to change their bodies, but not all transgender people can or will take those steps, and a transgender identity is not dependent on medical procedures. “Transitioning” is a term often used to describe the period when transgender individuals begin

publicly living and identifying as the gender consistent with their gender identity. The term “transgender” should only be used as an adjective—i.e., it is appropriate to say “a transgender individual” or “transgender people,” but saying “a transgender” or “some transgenders” would often be viewed as disrespectful.

**Transgender man**—A person who transitions from female to male, meaning a person who was assigned female at birth but identifies and lives as male or as a man. Unless the individual prefers different pronouns, a transgender man should be addressed using masculine pronouns (i.e., he, him, his).

**Transgender woman**—A person who transitions from male to female, meaning a person who was assigned male at birth but identifies and lives as female or a woman. Unless the individual prefers different pronouns, a transgender woman should be addressed using feminine pronouns (i.e., she, her, hers).

### **LGBTQ PERSONS-GENERAL PROVISIONS**

5. Members shall treat **ALL** persons with courtesy, professionalism and respect, regardless of gender, gender identity, gender expression, or sexual orientation.
6. Domestic calls involving LGBTQ persons shall be handled as per NOPD domestic violence policy (see **Chapter 42.4 – Domestic Violence**).
7. Officers are specifically prohibited from using demeaning, harassing, intimidating, or derogatory language regarding or toward LGBTQ individuals. In general, officers shall refrain from using language that references a person’s sexual orientation, gender identity, or gender expression (other than appropriate pronouns), except as provided in this policy.
8. Officers will accept an individual’s gender expression or self-expressed identity and interact with the individual in accordance with NOPD policy for the individual’s gender identification. For example, an individual who self-identifies as a female will be treated in accordance with the search and seizure policies as they apply to females. Respectful treatment includes:
  - (a) Officers are required to use a person’s chosen name, title, and pronoun, whether or not the individual’s chosen forms of address are consistent with the individual’s legal name or gender. Officers should note that legal name and gender changes can be difficult or impossible to obtain for some people due to their age, ability to pay, personal safety, barriers posed by government officials and regulations, or a variety of practical considerations. When the individual does not self-identify and his/her gender is not clear to a reasonable person, or the officer is uncertain, the officer may professionally and discreetly ask the subject what name and, if necessary, gender pronoun he or she uses.
  - (b) Officers should be aware that individuals’ names may change between one interaction and the next, and use the name currently preferred by the individual.
  - (c) When individuals self-identify as transgender or state his/her gender identity, officers shall not question this identity.
  - (d) Officers shall not demean or retaliate against anyone for clarifying the name or pronouns that he/she would prefer officers to use.
9. Officers shall not require proof (i.e. identification or certificate of a name change) of an individual’s identity to use that person’s chosen name, title, or pronoun.

10. Officers shall not request identification, or otherwise initiate a contact, with any person solely on the basis of actual or perceived sexual orientation or actual or perceived gender identity.
11. Officers shall not fail to respond to a call for service or complaint on the basis of the caller's or complainant's actual or perceived gender identity or sexual orientation.

## STOPS AND SEARCHES

12. When identification is requested, officers shall accept presentation of a photo identity document issued by a non-government organization or a verbal statement of the person's self-expressed identity or gender expression and shall use the preferred identity and/or pronoun while interacting with an LBGTQ individual.
13. Although not required as evidence of identity, an operator's or driver's license is required for operation of a motor vehicle (see La. R.S. 32:52 and La. R.S. 32:402). Officers may request the driver of a motor vehicle to produce a driver's license. The failure of a motor vehicle operator to produce a driver's license upon request after a moving violation or traffic stop may subject the operator to the appropriate charge (i.e. driving without a license).
14. Any individual being detained or arrested shall provide officers with his/her legal name. Officers shall not charge and/or arrest an individual for falsely identifying himself/herself when a subject advises the officer he/she wished to be referred to under a different pronoun and name from his/her legal name.
15. All paperwork (i.e., report, citations, GIST, etc.) shall be completed using a subject's legal name. If a person's chosen name, title, or pronoun differs from his or her legal name, that information shall be recorded as "name and pronoun used" on all reports or documents. Officers shall not use "aka" ("also known as") to indicate this distinction.
16. Under no circumstances shall officers frisk or search any person solely for the purpose of determining that person's biological sex or to view or touch the person's genitals. At no time shall an officer refuse to search someone based on his/her actual or perceived gender identity or sexual orientation.
17. Officers shall adhere to the guidelines of **Chapter 1.2.4 – Search and Seizure**. When same-gender searches are required by law, officers shall respect the gender identification expressed by the individual to be searched.
18. Absent exigent circumstances, two officers shall be present for strip searches of transgender individuals. The officers shall be of the same gender as the individual's self-identification (see **Chapter 1.2.4 – Search and Seizure**).
19. In accordance with **Chapter 1.2.4**, an officer (or officers) of the same gender as the self-expressed gender of a transgender individual shall conduct any search of that individual. However, when exigent circumstances do not exist and the person to be searched expresses a preference for an officer of a different gender to conduct the search, the officer shall make a reasonable effort to summon an officer of that gender to conduct the search in accordance with **Chapter 1.2.4**. Officers shall follow the following instructions:
  - (a) For *Terry* frisks, officers must take into account the reasonableness of any delay created by waiting for another officer. If an officer of the identified gender is not available within a reasonable amount of time, officers shall proceed with the search.
  - (b) When in doubt regarding any searches of a transgender individual, officers should consult a supervisor prior to searching.

- (c) Officers shall record any search of a transgender individual (other than a strip search) on body-worn camera in accordance with NOPD policy (see **Chapter 41.3.10 – Body-Worn Camera** and **Chapter 1.2.4 – Search and Seizure**).
20. Officers shall not refuse to search or frisk a transgender individual merely because the person identifies as transgender.
21. Officers shall not subject transgender persons to more invasive or more frequent frisk procedures due to actual or perceived gender identity.
22. Requests to remove items related to a person's appearance, such as prosthetics, wigs, and cosmetics, shall be consistent for non-transgender and transgender persons while subjects are in police custody.
23. Officers should be aware that a transgender person's possession of needles may be indicative of prescribed hormone treatment and/or therapy and is not necessarily indicative of illegal drug possession or use, or of possession of drug paraphernalia.
24. Officers are advised that mere possession of a condom or condoms does not establish reasonable suspicion or probable cause of a prostitution or sex-related offense. Accordingly:
- (a) Officers shall not cite or rely on the mere presence or possession of condoms to any degree as the sole basis for reasonable suspicion or probable cause to believe that an individual has engaged or intends to engage in any prostitution-related offense.
- (b) Members shall not seize unused condoms except where the items are evidence in a criminal investigation.
25. Nothing in this Chapter shall require any officer to document a contact that would not otherwise require reporting.

### **BATHROOM USE**

26. Individuals shall not be stopped, questioned, or arrested for using a gender-segregated restroom on the basis that officers believe the individual's gender expression does not match the gender designation of the gender-segregated restroom.
27. Individuals shall not be stopped, questioned, or arrested for using a single-sex public restroom, including in bus stations or in shelters, solely on the basis of gender identity or expression.
28. When safe and appropriate under the circumstances and while in NOPD custody, transgender, intersex and gender-nonconforming individuals shall be allowed to use the restroom in accordance with their gender identity. If, however, an individual has safety concerns with using the restroom, that individual may use the restroom he or she feels will be safest for that person.

### **ARREST PROTOCOL**

29. Information about an individual's transgender status should be kept on a need-to-know basis to ensure the privacy of the individual is respected. However, all information the arresting officer obtains (including pronoun preference and preferred name) concerning the arrested person should be discretely passed on to the transporting officers and backup or any officer who is interacting with the individual.

30. All prescription medications, including hormone medication, shall be turned over to Central Lock-Up when the subject is placed in its custody.

### **TRANSPORTATION OF TRANSGENDER ARRESTEES**

31. When transporting a transgender, intersex, and/or a gender nonconforming individual together with other individuals suspected or accused of committing separate crimes, officers shall transport the individual with other arrestees of the same gender identity and expression unless the individual has expressed a safety concern and wishes to be transported alone or with people of a different gender.

### **JUVENILES**

32. Officers shall respect the privacy of juveniles and shall not disclose information about their gender identity or sexual orientation to their parents or guardians. Officers should be aware that disclosing this information to parent or guardians may put the juvenile at increased risk for violence or rejection in the home.

### **MEDICAL TREATMENT**

33. Whenever an LGBTQ person expresses a need for medical attention, members shall handle the situation with the same urgency and respect as any other illness or injury, including for injuries sustained during an arrest.
34. When a request is made for medical attention for an illness or injury, including injuries or perceived injuries made during an arrest, officers shall contact Communication Services and request EMS or transport the subject, if under arrest, to a medical facility.

### **DISCRIMINATION COMPLAINTS**

35. If a person alleges bias-based or discriminatory policing, the officer shall call a supervisor to the scene to review the circumstances and determine an appropriate course of action. For purposes of this policy, an allegation of bias-based or discriminatory policing occurs whenever, from the perspective of a reasonable officer, a person complains that an officer treated him, her, or someone else differently because of gender, actual or perceived gender identity, or actual or perceived sexual orientation.
36. Officers shall attend yearly training on this policy and other matters related to the LGBTQ community in New Orleans, in accordance with best practices and using relevant information collected by community members. This training shall be incorporated into the Department's bias-free policing training (see **Chapter 41.13**). Training on LGBTQ issues shall also be incorporated into training on arrests, stops, searches, and seizures. In-service training should be supplemented by roll-call training, and bias-free policing shall be reinforced in operations orders for special events.
37. An NOPD LGBTQ liaison should solicit feedback from members of the LGBTQ community on relevant training materials on an annual basis.
38. Comments on, and review of, this Chapter shall be solicited from the relevant community partners and members of the LGBTQ community annually. An NOPD LGBTQ Liaison may solicit this feedback through meetings, surveys, email, or similar methods.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.21

### TITLE: MOUNTED PATROL

**EFFECTIVE: 04/15/2018**

**REVISED: 09/02/2018**

---

#### PURPOSE

The purpose of this Chapter is to establish guidelines for the use of mounted patrol officers. Mounted patrol officers provide police protection to the community, further community policing, and provide deterrence and high visibility.

#### POLICY STATEMENT

1. Police mounts can be used as a force tool either intentionally or unintentionally. In all cases, the Mounted Officers and the use of the mounts fall under the guidelines of **Chapter 1.3 – Use of Force** and **Chapter 1.3.6 – Reporting Use of Force**.
2. The guidelines for the use of force expressed in **Chapter 1.3 – Use of Force** shall be adhered to by supervisors and officers when planning and utilizing mounted patrol in crowd control situations to ensure adequate egress for disbursement of crowds.

#### DEFINITIONS

**Mounted Patrol Officer**—NOPD Officers who have successfully completed and maintained currency in the NOPD mounted certification course and are authorized to ride police horses.

**Mount**—A horse, owned or utilized, by the City of New Orleans.

**Inclement Weather**—A temperature reading of 32 degrees (or lower) or its equivalent considering wind chill factor; heavy rain or rain accompanied by lightning and high winds; or heat index of 100 degrees Fahrenheit or higher.

#### MOUNTED PATROL OFFICER DUTIES

3. Duties of Mounted Patrol Officers shall include, but are not limited to, the following:
  - (a) Patrolling areas of assignment throughout the city as directed through the chain of command;
  - (b) Taking appropriate action in all situations calling for police services;
  - (c) Crowd control during special events, demonstrations and/or protests;
  - (d) Conducting tours of the police stable for groups authorized by the Superintendent of Police or his/her designee; and
  - (e) Assisting Districts and divisions within the police department when required.

4. Mounted Patrol Officers shall be knowledgeable about his/her mount and equipment to include:
  - (a) Maintaining a well-groomed mount.
  - (b) Controlling his/her mount.
  - (c) Answering questions from the public concerning their respective mount.
5. Mounted Patrol Officers should keep in mind their community policing / public relations role when dealing with community members and tourists. Mounted Patrol Officers shall assist citizens and tourists in a professional and courteous manner at all times.
6. Officers assigned to mounted patrol duties shall adhere to the **Mounted Patrol Manual** with regard to care of horses and maintenance of equipment.
7. All members assigned to mounted patrol duties are allowed one hour at the beginning and end of his/her tour of duty to prepare and care for his/her mounts.

#### **POLICE STABLE STAFFING**

8. The NOPD Stables shall be staffed 24 hours a day, seven days a week.

#### **WEATHER RESTRICTIONS**

9. The commander of the Mounted Unit shall monitor the heat index during the summer months. If the heat index reaches or exceeds 100 degrees Fahrenheit, routine daytime mounted patrols will cease. During times of extreme heat, routine mounted patrol may only be conducted in the late afternoon or evening hours unless otherwise directed by the Deputy Chief of Field Operations Bureau or the Commander of the Eighth District.
10. If a mounted patrol assignment is cancelled due to inclement weather or hazardous conditions, mounted officers will be assigned marked vehicles for enforcement duties or given other special assignments as directed by the commander of the Mounted Unit.

#### **MOUNTED UNIT**

11. Supervisors and Mounted Instructors of the Mounted Unit shall conduct routine, periodic inspections of all mounted tack (saddles, saddle pads, bridles, bits, etc.) for continued serviceability.
12. The inspections shall be documented by the inspecting member and kept in a file maintained by the commander of the Mounted Unit until the individual item is discarded or replaced.

#### **RECORDS**

13. The principal Mounted Instructor shall maintain updated records of all bills (feed, hay, and shavings), farrier bills, purchase orders and equipment pertaining to the operation of the Mounted Patrol Unit.
14. Veterinary care records for each mount shall be maintained for one year after the mount is no longer in service.
15. The principal Mounted Instructor shall maintain training records, certifications and schedules for re-certification for every member trained, even if not assigned to the

Mounted Unit. These records shall be maintained for seven years after the member separates from service with the NOPD (for any reason).

## INJURIES

16. In the event an injury caused by an NOPD Mount is sustained by a community member or tourist, the following shall take place:
  - (a) The Mounted Patrol Officer shall be responsible for providing timely aid or assistance to the injured person(s).
  - (b) A supervisor, assigned to the Mounted Unit shall be notified by Communications Services immediately and respond to the scene.
  - (c) The Mounted Officer shall complete an incident report (EPR).
  - (d) The responding Mounted Unit supervisor shall ensure all necessary report forms are completed before the end of his/her tour of duty.
  - (e) The Mounted Unit supervisor shall notify the unit Commander, Deputy Chief of FOB, Deputy Chief of PIB and the Superintendent of Police of the incident by Departmental email as soon as possible.
17. In the event an injury is sustained by a mount, the mounted officer shall:
  - (a) Administer first aid to the mount.
  - (b) Contact the Mounted Unit principal instructor (on call 24/7) and brief him/her on the injury. The principal Mounted Unit instructor shall determine if the on call veterinarian is needed.
  - (c) Transport the injured mount to the police stables or veterinarian, if possible and instructed to do so by the principal Mounted Unit instructor and/or veterinarian.
  - (d) Contact his/her on duty supervisor who shall ensure all necessary report forms are completed before the end of his/her tour of duty.
  - (e) Complete an incident report (EPR) documenting the circumstances.

## RESTRICTIONS

18. The authorized leather riding crop shall only be used to control the mount and shall not be used on persons.
19. Mounted Unit officers are prohibited from allowing their mounts to enter buildings or businesses unless:
  - (a) The action is necessary in a life threatening situation, or
  - (b) He/she is ordered to do so by an on-scene supervisor.

## PART-TIME RIDER PROGRAM

20. The Mounted Unit - Part-Time Rider Program is comprised of NOPD officers who have successfully completed the mounted certification course but are not assigned to the 8<sup>th</sup> District - Mounted Unit.
21. Part-time riders may be assigned to supplement Mounted Unit officers during special events by the Deputy Chief of FOB or Superintendent of Police.
22. Officers who are participating in the part time rider program in the Districts but do not participate in the Annual Mounted Mardi Gras Training **must recertify annually**.
23. All mounted certified officers who wish to retain their certification and who are NOT assigned to the Mounted Unit must contact the Mounted Unit's lead instructor for a recertification date and time at least two months prior to his/her annual recertification training date.

24. The annual recertification shall consist of a written examination and a performance appraisal in the mounted certification course by the assigned Mounted Unit instructor.
25. All records of initial mounted training and all subsequent recertification of part-time riders shall be maintained in the same manner and for the same duration as mounted officers assigned to the Mounted Unit.

### **EQUIPMENT OPERATION**

26. Only officers assigned to the Mounted Unit or who have maintained mounted certification may operate vehicles and animal trailers assigned to the Mounted Unit unless specifically authorized by the commander of the Mounted Unit.
27. All members operating specialized vehicles (trucks, animal trailers, etc.) assigned to the Mounted Unit must receive skills training on the proper operation of the vehicles and demonstrate competence in the proper handling of the vehicles. The training and testing shall be documented and maintained in the member's training records at the Mounted Unit in the same manner and for the same duration as the mounted training records.

### **RECERTIFICATION**

28. All Mounted Unit and part-time rider officers are required to participate and successfully complete the mounted recertification training annually.
29. Mounted Unit and part-time rider officers that participate in the Annual Mounted Mardi Gras Training are re-certified for that calendar year.
30. All mounted certified officers who wish to retain his/her certification and who are NOT assigned to Mounted Unit must contact the mounted unit's lead instructor for a recertification date and time at least 2 months prior to his/her annual recertification training date.

### **MOUNTED POLICE SECONDARY EMPLOYMENT**

31. Only officers who have successfully completed the mounted certification course and have recertified within the current calendar year are authorized to work mounted patrol police secondary employment through the Office of Police Secondary Employment (OPSE).
32. All requests for officers to work mounted police secondary employment SHALL be referred to and are governed by the guidelines and policies of the Office of Police Secondary Employment. (See also: **Chapter 22.08 – Police Secondary Employment.**)

### **NOPD MOUNT BREEDING PROGRAM**

33. The mount breeding program will be maintained by the mounted unit instructors on a daily basis. This includes all training of the foals (handling, weaning, breaking, etc.), handling and scheduling the studs and broodmares for breeding purposes (live cover breeding, artificial insemination, and collection of semen), and storing semen for future breeding purposes. The mounted instructors will also handle the purchasing of additional studs and/or broodmares for breeding purposes.

**ACQUISITION AND RETIRING OF NOPD MOUNTS**

34. The acquisition of mounts, through purchase and/or donation shall be coordinated by the Mounted Unit instructors. The inspection (size, temperament, health, etc.) of a mount to be purchased or donated shall be conducted by one of the Mounted Unit instructors.
35. If the mount is deemed suitable, it will be accepted into the unit on a provisional basis. The mount will be tested for up to 90 days. If the mount proves to be a viable for the NOPD Mounted Unit, it will accepted into the unit on a full time basis.
36. The retiring of an NOPD mount requires the authorization of the Mounted Unit principal instructor with concurrent approval through the chain-of-command to the Superintendent of Police.
37. The decision to retire a mount shall be based on the mount's health, age, temperament and physical condition as well as the recommendation of the mount's assigned veterinarian.
38. If approved for retirement, a suitable retirement home will be located, evaluated, inspected and approved at the time of retirement by the Mounted Unit principal instructor.
39. The necessary title transfer and donation papers will be completed by the Mounted Unit commander, submitted to the Chief Administrative Officer of the City of New Orleans, and executed and approved as required by City regulation for public property.
40. All records of donation, sale, or transfer of ownership of any publically owned mount shall be maintained by the Mounted Unit for at least seven years after the mount is separated from service.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.22

### TITLE: CANINE

**EFFECTIVE: 08/23/2015**

**REVISED: 12/06/2015, 04/01/2018**

---

#### PURPOSE

The purpose of this Chapter is to regulate the use of NOPD canines. It sets out the duties and responsibilities of supervisors and canine handlers for use, approval, and deployment of Department canines. The use of canines requires adherence to procedures that control their use of force potential and that direct their specialized capabilities into legally acceptable crime detection, prevention, and control activities.

#### POLICY STATEMENT

1. A police canine is primarily a locating tool, using its extraordinary olfactory skills to find a concealed subject. The use of the canine as a force tool, that is to bite a suspect at the time the suspect is located, may or may not be necessary or justified.
2. When a canine is used in an attempt to apprehend a suspect, it is an instrumentality of force and shall only be used consistent with **Chapter 1.3 – Use of Force**, applicable laws, and current professional standards as set out in this Chapter. **Chapter 1.3 – Use of Force** requires that officers shall use the minimum amount of force that the objectively reasonable officer would use in light of the circumstances to effectively bring an incident or person under control, while protecting the lives of the member or others. As applied to canines, the reasonable-necessity standard means a dog bite is justifiable, lawful force **if and only if** the threat to officers or the public is serious—the need for force must be sufficient to justify the injury of a dog bite.
3. Canine teams will be trained and will demonstrate proficiency such that the handler has total control over the canine's actions.

#### DEFINITIONS

**Apprehension**—Apprehension shall mean the arrest, capture, or taking into custody of a person.

**Bite**—Physical contact between a canine's teeth and a person or animal. This physical contact does not need to result in broken or punctured skin to be a bite.

**Canine Apprehension**—Where articulated facts demonstrate that a canine played a clear role in the capture of a person. The mere presence of a canine at the scene of an arrest shall not count as a canine apprehension.

**Canine Bite Ratio**—The number of canine apprehensions that result in a bite, divided by the number of canine apprehensions. Accidental and/or unintentional bites shall be included in the numerator.

**Canine Deployment**—Any situation, except one involving an on-leash article search only, in which a canine is brought to the scene and used in an attempt to locate or apprehend a suspect, whether or not a suspect actually is located or apprehended. This includes all instances in which a canine is removed from the police car; or when a suspect gives up immediately after an announcement is made that if the suspect does not surrender, the canine will be released; or when a canine search is conducted in an effort to apprehend a suspect.

**Canine Handler**—A sworn member of the Department who has been certified by the Department's canine trainer as meeting all requirements of the Department's canine certification program.

**Canine Trainer**—A member of the Department who possesses a current Master K9 Trainer certification from a nationally recognized police canine trainer certification association.

**Contact**—For purposes of this Chapter, contact shall mean an actual physical touching of a person or a person's clothing by the canine during a Canine Deployment. This does not include controlled training, public exhibitions or casual touching by officers or members of the canine handler's family. A contact is considered a Level 3 use of force for reporting purposes.

**Crime of Violence**—A felony involving the infliction or threatened infliction of serious bodily injury or death.

**Non-Tactical Use of Canine**—The non-aggressive work of a canine when used to search for evidence or missing persons, to guard buildings or equipment, or to detect human remains.

**Serious Felony**—An offense that has, as an element, the use, attempted use, or threatened use of physical force against the person or property of another, and that, by its very nature, involves a substantial risk that physical force against the person or property of another may be used in the course of committing the offense or an offense that involves the possession or use of a dangerous weapon. See **R.S. 14:2 (B)** for list of crimes that would be a serious felony.

**Serious Use of Force**—Includes the following: **(a)** all uses of lethal force by an NOPD officer; **(b)** all critical firearm discharges by an NOPD officer; **(c)** all uses of force by an NOPD officer resulting in serious physical injury or requiring hospitalization; **(d)** all neck holds; **(e)** all uses of force by an NOPD officer resulting in a loss of consciousness; **(f)** all canine bites; **(g)** more than two applications of an CEW. on an individual during a single interaction, regardless of the mode or duration of the application, and whether the applications are by the same or different officers, or CEW application for longer than 15 seconds, whether continuous or consecutive, and; **(h)** any strike, blow, kick, CEW application or similar use of force against a handcuffed subject

**Tactical Deployment of Canine**—An on- or off-leash search for a suspect conducted by a canine team in an effort to apprehend a suspect. Off-leash searches for suspects may only be conducted when the suspect is wanted for a **crime of violence** or is reasonably suspected to be armed based upon individualized information specific to the subject, conducted by a canine team in an effort to apprehend a suspect.

## **GUIDELINES FOR THE USE OF CANINES**

4. A handler shall be available for call-out under conditions specified by the Canine Unit Commander.

5. Police canines are a multi-functional asset that may be used in appropriate circumstances to assist officers in the search for criminal suspects; the detection and location of narcotics and/or explosives; and the location of missing adults or juveniles. Because of their potential to bite, the use of canines by this Department requires adherence to procedures that properly control their use of force potential and that channel their specialized capabilities into legally acceptable activities.

### DEPLOYING A CANINE

6. Each deployment of a canine must be approved by the canine unit supervisor (sergeant or higher), a specially trained SOD supervisor or, if none of those supervisors are available, by a platoon commander prior to deployment. The only exception to the requirement that supervisor approval be obtained prior to a canine deployment is under exigent circumstances when the handler is unable to contact a supervisor and, using sound judgment, deems it necessary to deploy the canine to protect himself or herself, other police officers, or citizens, from an immediate threat of serious bodily injury. However, a supervisor shall be notified at the first practicable moment. In such circumstances, the handler will provide a detailed explanation of the exigency in his/her deployment report.
7. Off-leash canine deployments, searches, and other instances when there is an increased risk of a canine bite to a suspect shall be restricted to instances in which the suspect is wanted for a crime of violence and the suspect poses an imminent danger of death or serious bodily injury to the officer or to another person.
8. **Off-leash tactical canine deployments**, searches, and other instances in which there is an increased risk of a canine bite shall be used only in instances in which the suspect is wanted for a **crime of violence** as defined in this Chapter or is reasonably suspected to be armed based upon individualized information specific to the subject. Officers are not authorized to deploy a canine off leash in order to subdue a suspect who presents no imminent threat of death or serious injury. Off-leash tactical deployment of a canine is never authorized for the protection of property.
9. **On-leash tactical deployments** may be authorized:
  - (a) To locate, apprehend or control suspects in instances in which the suspect is wanted for a felony, e.g., a burglary where the suspect is concealed; OR
  - (b) When the behavior of the suspect who is fleeing otherwise involves conduct that presents a serious potential risk of physical injury to the officer or others.
10. For all tactical uses of a canine to locate a suspect, the canine shall be called off at the instant that a suspect no longer poses a threat.
11. Canines shall not be used to apprehend suspects known to be juveniles who also pose no immediate threat of serious injury to the officer or others.
12. Canines may be employed in **non-tactical**, non-aggressive work such as searching for:
  - (a) Missing persons;
  - (b) Evidence, narcotics, explosives or other contraband; or
  - (c) Human remains.

### ALLOWING A CANINE TO BITE

13. Canine handlers will only allow their canines to bite a suspect if:
  - (a) the suspect's actions pose a risk of imminent danger to the handler or others;
  - (b) the suspect's actions pose a risk of serious harm to the canine; or

- (c) the suspect is exhibiting aggressive resistance as defined in **Chapter 1.3 – Use of Force**. (Aggressive resistance does not include concealment and refusal to surrender without more);

**AND**

- (d) the handler is in visual and auditory range of a suspect, except when the suspect is hiding in a confined space (e.g., a crawl space) and refuses to surrender or is escaping.
14. Handlers will not allow their canine to engage a suspect by biting if a lower level of force could reasonably be expected to control the suspect or allow for the apprehension.

## **TACTICAL USE OF CANINE TEAMS**

### **TACTICAL USE - REQUESTS FOR USE OF CANINE**

15. Personnel within the Department are encouraged to freely request the use of the canines. When a canine team is requested, the on-scene officers shall:
- (a) Secure the perimeter of the area to be searched and clear the area of civilians;
  - (b) Request the canine unit through the dispatcher;
  - (c) Request his/her supervisor respond to the scene;
  - (d) Refrain from entering the area or any structure to be searched;
  - (e) Provide the canine handler with sufficient reasonable suspicion to lead him/her to believe a crime of violence or serious felony has been committed and the person being sought is the perpetrator, including:
    - i. The nature of the crime the subject is wanted for;
    - ii. A detailed description of the wanted subject including age, gender, race, physical characteristics, and clothing;
    - iii. Whether the suspect is armed or unarmed;
    - iv. Whether the suspect has displayed violent behavior; and
    - v. All other information known about the subject and the area to be searched.
  - (f) Keep radio traffic to a minimum during the canine search; and
  - (g) Refrain from excessive use of lights during a canine search to avoid exposing the canine team's position or placing the canine team in jeopardy.

### **TACTICAL USE - DEPLOYMENT AUTHORIZATION**

16. A canine handler shall have approval from a canine supervisor (sergeant or higher) or in the absence of a canine supervisor, an SOD supervisor who has received specialized training from the canine unit supervisor on deployment authorization criteria prior to deployment. If the handler is unable to contact a canine unit or SOD supervisor, the handler shall obtain approval from the district platoon commander before the canine can be deployed.
17. Upon receiving a request to approve a canine deployment, the approving supervisor shall respond to the scene and consult with the handler and other officers on the scene before making the decision to approve the deployment. Authorization can only be given after the supervisor has been briefed on all the available information needed to make such a decision. In making the decision to approve the deployment, including whether to authorize the deployment to be off-leash, the approving supervisor shall:
- (a) Make an assessment of the facts provided by the requesting officer and determine if there is reasonable suspicion or probable cause to believe a serious felony or crime of violence has been committed and the person being sought is the perpetrator;

- (b) Consider the severity of the crime, taking into account that off-leash deployment is prohibited except when the suspect is wanted for a crime of violence as defined in this Chapter or is reasonably suspected to be armed;
- (c) Consider the age of the suspect (the subject's perceived age shall be determined by gathering as much information as possible from officers and/or witnesses who observed the subject's physical characteristics, height, weight, etc.);
- (d) Determine whether the suspect is or may be armed;
- (e) Consider whether the suspect has displayed violent behavior, taking into account that off-leash deployment is prohibited except when the suspect is wanted for a crime of violence or is reasonably suspected to be armed.
- (f) Recognize that mere flight alone is insufficient under NOPD **Chapter 1.3** – Use of Force or this Chapter to allow canine deployment.
- (g) Ensure that the search area perimeter has been secured.
- (h) Assess the likelihood that innocent civilians are located within the secured area.
- (i) Consider the potential for injury to officers or the public caused by the suspect if the canine is not utilized.
- (j) Attempt to ascertain if the subject has Limited English Proficiency and, if necessary, obtain language assistance to give the “canine warning”.
- (k) Ensure the handler is thoroughly briefed on all known information.
- (l) If authorizing deployment, make clear whether the authorization is for an on- or off-leash deployment.

#### **TACTICAL USE - SCENE MANAGEMENT**

- 18. An NOPD supervisor shall be on scene when the canine unit starts a search on an apprehension call.
- 19. The approving supervisor must have Canine Authorization Training from the NOPD Canine Unit before he/she can approve a canine apprehension deployment.
- 20. If an outside law enforcement agency (not NOPD) is requesting the use of an NOPD canine unit within Orleans Parish and the Canine Unit supervisor is not available, an NOPD supervisor from the District where the search is taking place shall be responsible for on scene management within the guidelines of this Chapter and all required reports relating to use of force, if applicable. The search shall not commence without an NOPD supervisor on scene.
- 21. The requesting unit's supervisor shall:
  - (a) Ensure that the canine handler has been fully briefed;
  - (b) Ensure that a perimeter has been established around the area to be searched;
  - (c) Ensure that the area to be searched has been vacated by all uninvolved civilians and police personnel; and
  - (d) Attempt to determine if there are any animals present in the area to be searched.

#### **TACTICAL USE - CANINE HANDLER DEPLOYMENT RESPONSIBILITIES**

#### **TACTICAL USE - PRIOR APPROVAL NECESSARY**

- 22. Prior to any tactical deployment of a canine, the canine handler shall obtain approval from the canine supervisor, a trained SOD supervisor or, if neither is available, the platoon commander of the district wherein the deployment is requested. The canine handler will thoroughly brief the approving supervisor, providing all available information.

23. The canine handler shall, when the use of a canine is requested, activate his/her body worn camera and obtain a thorough briefing from the Department member requesting the canine deployment, to include but not limited to:
- (a) A description of the facts and circumstances that justify taking the wanted subject into custody;
  - (b) A detailed description of the wanted subject including age, gender, race, physical characteristics, and clothing;
  - (c) The subject's actual or perceived age (i.e. whether the subject is or may be a juvenile). The subject's perceived age shall be determined by gathering as much information as possible from officers and/or witnesses who observed the subject's physical characteristics height, weight, etc.);
  - (d) Whether the subject poses imminent threat or violence to others;
  - (e) The severity of the crime;
  - (f) Whether the subject is armed;
  - (g) Whether there is reason to believe the subject may not speak or understand English;
  - (h) Any potential danger to the public and/or other officers at the scene if the canine is released;
  - (i) The degree of resistance or threatened resistance communicated or shown by the subject;
  - (j) The potential for escape or flight if the canine is not utilized;
  - (k) Whether innocent civilians may be located in the search or apprehension area; and
  - (l) Whether the area perimeter is secure.

#### **TACTICAL USE - CANINE WARNING ANNOUNCEMENT**

24. Prior to all canine deployments, the handler shall:
- (a) Ensure his/her body-worn camera is activated before the warning is given and before deployment of the canine;
  - (b) Notify the Communications Section on the primary dispatch talk group for the District in which the deployment is taking place of the imminent deployment of the canine so that all officers in the area are aware of the deployment. The dispatcher shall announce the time over the radio. The unit and time of the announcement shall be documented by the dispatcher in the call history;
  - (c) Unless warnings impose an imminent threat of danger to the canine handler or other officers on scene, issue three (3) loud and clear warnings that a canine will be deployed and advise the suspect to surrender. For example: "Warning, a police canine will be used to search this (area to be searched), if you don't come out, I will release my dog. If approached by the dog, surrender and remain still";
  - (d) Obtain prior approval from a supervisor for any unannounced search, and document the reasons for not giving a warning and the name of the approving supervisor in his/her deployment report;
  - (e) Where there is reason to believe that a suspect may not speak or understand English, where practicable, obtain language assistance in giving the mandated canine warning. The handler shall announce the warning in English, Spanish and Vietnamese.
  - (f) Provide a reasonable amount of time for innocent civilians, other members, and the suspect to come out before commencing with the search.
  - (g) Whether or not there is an apprehension, document in the deployment report and any related incident report whether a verbal canine warning was given and, if none was given, the reasons why.

#### **TACTICAL USE - CONDUCT DURING DEPLOYMENT**

25. Whenever possible, two canine handlers should respond to any request for a canine. When two handlers respond to a request for a service, the primary handler shall search with his/her canine and the secondary handler shall act as backup without his/her canine. If a question arises as to which handler shall be primary, the approving supervisor shall designate the primary handler.
26. When the duration of the search, the size of the area or weather conditions dictate, canine teams may be rotated out as needed and determined by the handler(s) or the supervisor.
27. The canine handler should make every reasonable effort to communicate and coordinate with other involved personnel to minimize the risk of unintended injury.
28. The canine handler shall keep his/her canine within visual and auditory range during deployments at all times, except when the canine clears a threshold (e.g., rounding a corner, entering a room, ascending/descending a stairwell).
29. Canine handlers shall allow their canines to engage a suspect by biting only if:
  - (a) The suspect's actions pose a risk of imminent danger to the handler or others; the suspect's actions pose a risk of serious harm to the canine; or the suspect is exhibiting aggressive resistance as defined in NOPD **Chapter 1.3 – Use of Force**. (Aggressive resistance does not include concealment and refusal to surrender without more); and
  - (b) The handler is in visual and auditory range of a suspect, except when the suspect is hiding in a confined space (e.g., a crawl space) and refuses to surrender or is escaping.
  - (c) Handlers will not allow their canine to engage a suspect by biting if a lower level of force could reasonably be expected to control the suspect or allow for the apprehension.
30. When a canine apprehends a suspect by biting, the handler shall call the canine off at the first moment the canine can be safely released, considering that the average person will struggle if seized or confronted by a canine. The handler shall order the dog to release the bite immediately after it is determined that the suspect is unarmed, regardless of whether the suspect is struggling with the dog.
31. Once the individual has been located and no longer reasonably appears to represent a threat or risk of escape, the canine should be secured as soon as it becomes reasonably practical.

#### **TACTICAL USE - CANINE BITES – MEDICAL ATTENTION**

32. Whenever an individual sustains a canine bite, the handler or an on-scene officer shall immediately contact an NOPD dispatcher to request Emergency Medical Services response. If EMS determines that additional medical attention is required, the individual shall be transported to a medical facility for treatment.

#### **TACTICAL USE - REPORTING AND INVESTIGATING CANINE DEPLOYMENTS**

33. Whenever a canine request results in a deployment, the requesting officer shall ensure an incident report is prepared explaining the circumstances leading up to the request for the assistance of the canine, including a description of the actions of the wanted subject that constituted reasonable suspicion or probable cause to arrest the subject.

34. Whenever a canine is deployed, a canine handler will prepare a Deployment Report and/or Patrol Data Deployment Report and submit it to the canine unit supervisor before going off-duty. The item number of the report prepared by the requesting officer and the name of supervisor approving the deployment shall be documented in the report.
35. If the canine was used for tracking or searching for a suspect, that fact should be noted in the report. When a canine is involved or on the scene, apprehension may be described as:
  - (a) **With Contact** – when the canine physically made contact with the subject. (Contact is a Level 3 use of force for reporting purposes.)
  - (b) **Without Contact** – when the articulated facts demonstrate that the presence or use of the canine was instrumental in the apprehension or surrender of the subject but no contact was made.
36. In all apprehensions when there is canine contact, visible injury to a suspect or a complaint of injury, whether or not a bite occurred, the on-scene supervisor will immediately notify PIB/FIT. The requirements set out in **Chapter 1.3.6 – Reporting and Investigating Use of Force** shall be followed.
37. A canine deployment resulting in a bite is considered a serious use of force and a Level 4 reportable use of force. All serious use of force shall be investigated by PIB FIT.
38. A canine deployment resulting in an apprehension without contact is a Level 2 reportable use of force. In all deployments resulting in an apprehension, the supervisor will ensure a Use of Force Tracking number is obtained and entered on all related documents. The supervisor will conduct a use-of-force investigation in compliance with **Chapter 1.3.6**.
39. For each canine apprehension, the involved handler and all witness officers, which includes the officer requesting the use of the canine, shall complete a Force Statement before the end of shift. In addition to the information that must be included in all Force Statements, a canine handler's narrative documenting a canine apprehension shall include the following:
  - (a) The name of the approving supervisor;
  - (b) The item number assigned to the body-worn camera video and any other associated item numbers;
  - (c) Whether the deployment was on- or off-leash;
  - (d) Whether there was contact between the canine and the subject, including contact with the subject's clothing;
  - (e) Whether the canine was on or off leash at the time of apprehension;
  - (f) A description of where the subject was located;
  - (g) Documentation of the duration of the canine's contact with a subject;
  - (h) The approximate distance of the canine from the handler at time of apprehension;
  - (i) The description of any injuries received by the suspect;
  - (j) The description of the circumstances leading up to the decision to deploy the canine; and
  - (k) A description of the canine release and securing of the canine.
40. The supervisor of the Canine Unit, with input from the canine trainer, shall evaluate each canine deployment for compliance with this Chapter, state and federal law, and document this evaluation in a written report in accordance with this Chapter.
  - (a) The report shall be forwarded to the Commander of the Special Operations Division for review and approval. Any issues identified in the report and the recommended corrections, by either the reviewing supervisor of canine or by the Commander of SOD, shall be noted and addressed in an interoffice

correspondence and forwarded to the Deputy Chief of the Field Operation Bureau, within two weeks from the date of the deployment.

- (b) The supervisor of the Canine Unit will obtain, review and attach all documentation associated with the deployment, including, but not limited to, the:
- i. Deployment Report;
  - ii. Force Statement(s), if required;
  - iii. Offense Report(s); and
  - iv. Arrest Report(s).

41. In the event of an unintentional and/or accidental canine bite not in conjunction with a canine deployment, whether on or off duty, the canine handler shall summon his/her supervisor/commander to the scene, request immediate medical treatment, and forward a written report in accordance with this Chapter.
42. Canines controlled by police officers are exempt from regulatory action relating to bites. Canines used by law enforcement agencies are generally exempt from impoundment and reporting requirements to the animal control department. The canine unit trainer will liaise with the animal control department to ensure that information regarding canine bites is not retained by its office.
43. Canine Bite Ratios shall be calculated by the Commander of the Canine Unit and reported to PIB to be included as an element of the Early Warning System and the departments Use of Force Annual Report.

#### **NON-TACTICAL DEPLOYMENTS OF CANINES**

#### **NON-TACTICAL USE - NARCOTIC DETECTION CANINES**

44. NOPD may use a narcotic-detection trained canine in accordance with this Chapter, **Chapter 1.2.4 – Search & Seizure, Chapter 1.2.4.1 – Stops / Terry Stops**, and **Chapter 1.2.4.2 – Search Warrant Content, Forms and Reviews**, and current search and seizure laws under the following circumstances:
- (a) To assist in the search for narcotics during a search warrant service;
  - (b) Where reasonable suspicion exists, to use the detection canine in support of probable cause to obtain a search warrant; and
  - (c) To search vehicles, buildings, bags and any other articles as deemed necessary, when probable cause supports the search.
45. Using a narcotic detection-trained canine to search a person for narcotics is prohibited.

#### **NON-TACTICAL USE - BOMB/EXPLOSIVE DETECTION CANINES**

46. The use of a trained explosive detection canine team may be warranted due to the high risk of danger to the public and officers. NOPD may use a trained explosive detection canine team in accordance with NOPD search and seizure Chapters and current search and seizure laws under the following circumstances:
- (a) On all bomb/explosive detection requests, department Explosive Ordinance Disposal (EOD) personnel must be notified to respond to the scene prior to the canine explosive detection team conducting any sweeps to:
    1. Assist in the search of a building, structure, area, vehicle or article where an actual or suspected explosive device has been reported or located;
    2. Conduct preventive searches at locations such as special events, VIP visits, official buildings and other restricted areas as approved by the Field Operations Deputy Superintendent or the Superintendent of Police;
    3. Assist with searches at transportation facilities and vehicles (e.g., buses,

airplanes and trains) as approved by the Field Operations Deputy Superintendent or the Superintendent of Police; and

4. Assist in the search of scenes where an explosion has occurred for an explosive device or parts thereof, or search of area where a secondary explosive device is suspected.

- (b) At no time shall a detection canine be used to render a suspected device safe or clear.

### **NON-TACTICAL USE - GUIDELINES FOR NON-APPREHENSION/CONTRABAND DETECTION USE**

47. Because canines have senses far superior to those of humans, they may be effectively utilized to track or search for non-criminals (e.g., lost children, individuals who may be disoriented or in need of medical attention). Only canines trained specifically for this purpose (e.g., rescue dogs) shall be utilized in such circumstances.

### **CANINE UNIT SERGEANT RESPONSIBILITIES**

48. The sergeant who supervises the canine unit shall have significant knowledge and experience with police canine operations. He/she shall not be assigned as a handler.
49. The canine sergeant shall:
  - (a) Be available to the extent possible to respond to the scene and review requests for canine deployments, ensuring compliance with all requirements for deployment set out in this Chapter.
  - (b) Review all canine-related reports to ensure compliance with this Chapter and to identify training issues and other needs of the program;
  - (c) Closely review every canine apprehension that results in a bite for tactical and behavioral deficiencies, ensuring that closer supervision and remedial training are provided when needed;
  - (d) Liaise with administrative staff and functional supervisors;
  - (e) Ensure the canine teams are scheduled for continuous training to maximize the capabilities of the teams;
  - (f) Ensure that certified teams maintain performance standards as outlined in the New Orleans Police Department's canine unit's training manual;
  - (g) Conduct periodic inspection of canine handler's at-home kennels, yards and homes.
  - (h) Disseminate any and all canine equipment including kennels, and collecting same upon the handlers exit out of the unit;
  - (i) Oversee the procurement of needed equipment and services for the unit;
  - (j) Assist in the selection process of selective handlers; and
  - (k) Provide specialized training to all SOD supervisors and district watch commanders who are authorized to approve canine deployments in his absence.
    1. The training shall be conducted annually.
    2. A lesson plan shall be prepared and maintained on file at the Education and Training Division.
    3. Records of attendance at the training session shall be maintained by the Education and Training Division.

### **TRAINING**

#### **CANINE TEAM TRAINING**

50. This Chapter, the Canine Unit SOP and Training Manual are designed to ensure that the

handler and canine are trained to the point at which the handler can demonstrate total control over the canine's actions.

51. Canine teams shall be trained and certified in accordance with the training standards set forth by the New Orleans Police Department's Canine Unit, in addition to meeting current recognized national standards. Cross-trained canine teams or those canine teams trained exclusively for the detection of narcotics and/or explosives shall be trained and certified to meet a nationally recognized standards established for such detection canines. Canine teams may not be used outside the scope of their certification.
52. The canine unit trainer shall be responsible for scheduling periodic training for all Department personnel in order to familiarize them with how to conduct themselves in the presence of canines. This shall include training to District supervisors as to pre-deployment considerations for canine use as enumerated under this Chapter.

### **CANINE UNIT TRAINER RESPONSIBILITIES**

53. Trainer Selection and Qualifications
  - (a) The canine unit trainer shall be selected by the commander of the Special Operations Bureau with input from the supervisor of the canine unit.
  - (b) He/she shall possess a current certification as a canine instructor from a nationally recognized police canine training association.
54. The canine trainer is responsible for managing the canine training program, including, but not limited to:
  - (a) Reviewing all canine related reports for compliance with this Chapter and to identify training issues and other needs of the program;
  - (b) Closely reviewing every canine apprehension that results in a bite for handler tactical deficiencies and canine behavioral deficiencies, ensuring that remedial training is provided as necessary;
  - (c) Maintaining, recording, and tracking each canine handler's training records, certifications, health, and canine activities;
  - (d) Reviewing of all canine training logs;
  - (e) Ensuring that certified teams maintain performance standards as outlined in the New Orleans Police Department's Canine Unit SOP/ Training Manual;
  - (f) Training prospective canines and handlers to meet the performance standards and ensure that all teams are certified;
  - (g) Recommending and overseeing the procurement of needed equipment and services for the unit;
  - (h) Assisting in the scheduling canine-related activities;
  - (i) Assisting in the selection process of selective handlers;
  - (j) Testing and selecting prospective canines for use by the department;
  - (k) Training of new personnel and canines within the canine unit;
  - (l) Retraining of handlers and their canines;
  - (m) Taking inventory and safekeeping of all training equipment;
  - (n) Assisting in the selection process of selective handlers; and
  - (o) Maintaining custody and control of the controlled substances and explosive training aides as set forth in this Chapter.

### **CONTINUED TRAINING**

55. Each canine team shall be recertified to current nationally recognized standards on an annual basis. Additional training considerations are as follows:
  - (a) Canine handlers and supervisors shall receive annual training on **Chapter 1.3 – Use of Force** and this Chapter;

- (b) Canine teams shall receive annual training on current nationally recognized standards;
- (c) Canine teams shall participate in weekly training sessions provided by the unit's canine trainer and monitored by the canine unit supervisor; records of the exercises covered during each training session shall be maintained by the unit;
- (d) Canines and their handlers shall receive a minimum of 16 hours of training every four weeks;
- (e) Canine teams shall demonstrate, to the canine trainer, their compliance with the Unit's performance training standards on a quarterly basis;
- (f) Canine handlers, with approval of the canine unit trainer, are encouraged to engage in additional training;
- (g) To ensure that all training is consistent, no handler is authorized to train to a standard that is not reviewed and approved by the canine trainer;
  - 1. All canine training shall be conducted while on-duty unless otherwise approved by the canine unit trainer or Canine Unit Commander;
  - 2. SOD supervisors shall receive annual training to prepare them for making canine deployment decisions; this training shall be coordinated through the Education and Training Division and delivered by canine unit staff; and
  - 3. All NOPD supervisors shall receive training during the regular annual in-service training program on factors to consider when approving canine deployments.

#### **FAILURE TO SUCCESSFULLY COMPLETE TRAINING**

- 56. Any canine team failing to graduate or obtain certification shall not be deployed in the field for those tasks the team has not been certified to perform until the required graduation or certification is achieved. No canine team shall be deployed unless its certification is current.
- 57. The Canine Unit shall maintain a canine certification program that ensures:
  - (a) Canines and their handlers have demonstrated control and proficiency in specific, widely accepted obedience and criminal apprehension exercises.
  - (b) The trainer shall maintain detailed records of each canine team showing they have met specific control criteria for each control exercise, and the remedial training that was provided if a canine team was deficient in any area.
  - (c) The trainer shall report all training and certification deficiencies to the unit supervisor. The program shall ensure that canines are certified annually by a nationally recognized trainer or organization, and that a canine is not deployed unless its certification is current.

#### **TRAINING RECORDS**

- 58. Each canine handler shall maintain a daily training log consisting of canine activities (e.g., training, retraining, and in-service classes).
- 59. The Canine Unit Trainer shall:
  - (a) Record and track each canine team's training, certification, and health records, regardless of whether individual handlers also maintain records.
  - (b) Maintain records centrally within the administrative office of the Canine Unit;
  - (c) Periodically review handler training logs;
  - (d) Track canine deployments and canine apprehensions, calculate and track canine bite ratios on a monthly basis to assess its canine unit and individual canine teams and

(e) Report canine data and analysis to the Public Integrity Bureau. Canine deployment data shall be included in NOPD's Use of Force Annual Report.

60. The Canine Supervisor shall review the performance of all canine teams. Interventions shall be required for any team whose bite ratio exceeds requirements set forth per this Chapter or Canine Unit SOP/ Training Manual during a six-month period or the entire unit if the unit's bite ratio exceeds that threshold.

#### **CONTROLLED SUBSTANCE TRAINING AIDS**

61. Controlled substance training aids are required to effectively train and maintain drug detection canines. Controlled substances can also be an effective training aid during training sessions for law enforcement personnel and the public.
62. The Superintendent of Police or his/her authorized designee, at his/her discretion, may authorize an employee to seek a court order to obtain controlled substances from Central Evidence and Property Section and after testing, to be maintained in the employee's possession for training purposes consistent with the requirements set out in this Chapter. This applies to any duly authorized peace officer or civilian drug detection canine trainer working under the direction of a law enforcement agency provided that:
- (a) The controlled substances are no longer needed as criminal evidence, and
  - (b) The person receiving the controlled substances, if required by the Drug Enforcement Administration (DEA), possesses a current and valid DEA registration that specifically authorizes the recipient to possess controlled substances while providing substance abuse training to law enforcement or the community or while providing canine drug detection training.
63. As an alternative, the Superintendent of Police or the authorized designee may request narcotics training aids from the DEA by filling out the DEA-225 form at [www.deadiversion.usdoj.gov](http://www.deadiversion.usdoj.gov).

#### **CONTROLLED SUBSTANCE HANDLING PROCEDURES**

64. Due to the responsibilities and liabilities involved with possessing readily usable amounts of controlled substances and the ever-present danger of accidental ingestion of these controlled substances by the canine, the following procedures shall be strictly followed:
- (a) All necessary controlled substance training samples only shall be acquired, with the approval of the Superintendent of Police or his/her designee, from the New Orleans Police Department's Central Evidence and Property Section (CE&P) or from the DEA. All controlled substance training samples shall be weighed and tested prior to dispensing to the canine trainer. This shall be done by the NOPD Scientific Criminal Investigations Section (Crime Lab) and documented in an interoffice correspondence from the SCIS Drug Chemistry Unit supervisor to the commander of the canine unit;
  - (b) The weight and test results shall be recorded and maintained by this Department. This documentation shall be kept on file at the SCIS and the Canine Unit;
  - (c) The Canine trainer shall be responsible for receiving approved controlled substance training samples from CE&P or the DEA, and shall maintain custody and control of the controlled substances in the Department provided secure storage safe, and shall keep records regarding any loss of, or damage to, those controlled substances. The loss or damage of a controlled substance shall be documented in a Form 105 to the Commanding Officer of SOD, with a copy to PIB, before the end of the tour of duty in which the loss occurred or is

- discovered. Any discrepancies in weight shall be documented in the canine discrepancy report form maintained by the unit commander;
- (d) The commander of the canine unit shall ensure that all controlled substance training samples are inspected, weighed and tested quarterly by the SCIS Drug Chemistry Unit and documented in an interoffice correspondence from the SCIS Drug Chemistry Unit supervisor to the commander of the canine unit. This documentation shall be kept on file at the SCIS and the Canine Unit;
  - (e) All controlled substance training samples shall be inventoried and properly stored in accordance with best practices to avoid contamination, loss, or damage. They shall be stored in separate safes. Each safe shall require 2 different keys to gain entry. The commander of the canine unit shall have one key and the canine unit trainer shall have the second key. A logbook shall be kept for each safe noting the date, time, persons and items removed. It shall be signed by each person who opens the safe to remove items for training, testing or inventory;
  - (f) The canine unit trainer shall periodically inspect every controlled substance training sample for damage or tampering and take any appropriate action. Any discrepancies shall be documented in the canine discrepancy report form maintained by the unit commander;
  - (g) Any unusable controlled substance training samples shall be returned to Central Evidence and Property or to the dispensing agency for appropriate disposal along with an interoffice correspondence explaining the history and use of the returned item. This documentation shall be kept on file at the Central Evidence and Property Section and the Canine Unit;
  - (h) All narcotics training aids, when not in use, shall be properly stored in the safe provided at the canine unit appropriate for the type of materials they contain;
  - (i) The Commander of SOD, along with the Canine Unit Commander and the Canine Trainer shall conduct an annual inspection of the safes, logbooks, and all contents. Special note shall be made to ensure that all the documentation on the narcotics reflecting their weight and uses is present and that the recording system and camera(s) function properly. The results of this inspection shall be forwarded by the Commander of SOD through the chain of command to the Superintendent. A copy of the report shall be kept on file at the canine unit and SOD.

## **EXPLOSIVES TRAINING AIDS**

65. Explosives training aids designed specifically for canine teams should be used whenever feasible. Due to the safety concerns in the handling and transportation of explosives, inert or nonhazardous training aids should be employed whenever feasible. The use of explosives or destructive devices for training aids is subject to the following requirements:
- (a) All explosive training aids, when not in use, shall be properly stored in a secure facility appropriate for the type of materials they contain;
  - (b) An inventory ledger shall be maintained to document the type and quantity of explosives training aids held by the canine unit;
  - (c) The canine unit sergeant shall be responsible for verifying the explosives training aids on hand against the inventory ledger once each quarter;
  - (d) Only members of the canine unit shall have access to the explosives training aid storage facility; and
  - (e) A primary and secondary custodian shall be designated to minimize the possibility of loss of explosives training aids during and after the training. Generally, the handler will be designated as the primary custodian while the trainer or second person on-scene will be designated as the secondary custodian.

66. Any lost or damaged explosives training aids shall be immediately reported in writing to the canine unit supervisor and to the Commander of SOD, who will determine if any further action will be necessary. Any loss of explosives shall immediately be reported to the Deputy Secretary of the Department of Public Safety and the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) (R.S. 40:1472.7).

#### **REPORTING INJURIES TO CANINES**

67. In the event that a canine is injured, the injury shall be immediately reported to the Canine Unit Commander.
68. Depending on the severity of the injury, the canine shall either be treated by the designated veterinarian or transported to a designated emergency medical facility for treatment. If the canine has a serious medical emergency and the handler and canine are out of the area of the designated veterinary facilities, the handler may use the nearest available veterinarian. The handler shall notify the designated and contracted veterinary facility as soon as possible if this occurs, as well as notify the Canine Unit Commander.
69. In the event of serious injury or death of a Departmental Canine, all canine handlers and canine supervisory personnel shall comply with notification procedures set forth in the Canine Unit SOP/ Training Manual, ensuring that notifications are made to the Field Operations Deputy Superintendent, PIB Deputy Superintendent and the Superintendent of Police.
70. The Canine Supervisor shall document the incident via an Electronic Police Report Form (EPR) within twenty-four hours of the incident.

#### **ASSIGNMENT OF CANINES**

71. The canine teams shall be assigned to the Special Operations Division of the Field Operations Bureau and used to aid and assist all personnel of the New Orleans Police Department.
72. Canine teams should function primarily as support units. However, they may be assigned by the Canine Commander to other functions based on the needs of the watch at the time.
73. Canine teams should not be assigned to handle matters that will take them out of service for extended periods of time unless necessary and approved by the commander of the canine unit.

#### **REQUEST FOR ASSISTANCE FROM OTHER AGENCIES**

74. The Commander of the Special Operations Division must approve all requests for canine assistance from outside agencies subject to the following provisions:
  - (a) Canine teams shall not be used for any assignment that is not consistent with this Chapter;
  - (b) Canine teams shall not be called out while off-duty or used outside the jurisdiction of the New Orleans Police Department unless authorized; and
  - (c) It shall be the responsibility of the canine handler to coordinate with outside agency personnel in order to minimize the risk of unintended injury.
75. Unless directed by the Canine Commander, NOPD shall not request or use the services of any canine, whether owned by NOPD or any other jurisdiction, unless it first ensures

that the canine is controllable and meets the standards required by this Chapter. The Canine Unit Commander shall document, in any related reports, when a canine from another jurisdiction is used.

### **REQUESTS FOR PUBLIC DEMONSTRATIONS**

76. All canine demonstrations shall be subject to authorization from the Deputy Superintendent for the Field Operations Bureau or Superintendent of Police.
77. Canine demonstrations, when authorized, shall follow this Chapter and Canine Unit SOP/ Training Manual.
78. Handlers shall not demonstrate any apprehension work to the public unless specifically authorized to do so by the canine unit trainer.

### **SELECTION OF CANINE HANDLERS**

79. To meet the minimum qualifications for the assignment of canine handler, the handler shall:
  - (a) Be a New Orleans Police Department Officer with a minimum of 5 years' experience as a New Orleans Police Officer;
  - (b) Have a disciplinary history free of allegations of excessive force;
  - (c) Comply with use of sick and annual leave;
  - (d) Have maintained his/her physical fitness and meet the Canine Unit's physical agility standards as set out in their SOP;
  - (e) Have and maintain a single-family residence with a minimum 5 foot high fence, locking gates and sufficient space for the construction of a department provided and approved kennel;
  - (f) Successfully complete all phases of basic handler's course required by the Canine Unit;
  - (g) Live within reasonable travel time (as determined by the Commander of the Special Operations Division) from the New Orleans City limits, in accordance with the Department's current domicile regulations; and
  - (h) Agree to be assigned to the position for a minimum of three years (unless promoted).

### **CANINE HANDLER CANINE CARE AND EQUIPMENT RESPONSIBILITIES**

80. The handler shall ultimately be responsible for the health and welfare of the canine. The handler shall ensure the canine receives proper nutrition, grooming, training, medical care, affection and proper living conditions.
81. The handler's responsibilities include:
  - (a) The handler shall not expose the canine to any foreseeable and unreasonable risk of harm unless required by a particular application;
  - (b) The handler shall maintain all Department equipment under their control in a clean and serviceable condition;
  - (c) When a handler takes approved vacation or extended leave, and is not able to care for his/her canine, the assigned canine shall be housed/kenneled at the Canine Unit Compound; the assigned canine vehicle shall be maintained at the Department canine facility;
  - (d) Handlers shall permit the canine unit trainer to conduct spontaneous on-site inspections of affected areas of their residence, as well as the canine unit, to verify that conditions and equipment conform to this Chapter;

- (e) Any changes in the living status of the handler that may affect the lodging or environment of the canine shall be immediately reported to the canine unit trainer and the Commander of the Canine Unit;
- (f) When off duty, canines shall be maintained in kennels provided by the City at the homes of their handlers; when a canine is kenneled at the handler's home, the gate shall be secured with a lock; when off-duty, canines may be let out of their kennels while under the direct control of their handlers;
- (g) The canine should be permitted to socialize in the home with the handler's family for short periods of time and under the direct supervision of the handler;
- (h) Under no circumstances shall the canine be lodged at another location unless previously approved by the canine unit trainer or Canine Unit Commander;
- (i) When off duty, handlers shall not involve their canines in any activity or conduct unless approved, in advance, by the canine unit trainer or Canine Unit Commander;
- (j) As soon as practical the canine handler should advise the canine unit trainer or supervisor of any illness or injury involving his/her assigned canine;
- (k) Handlers shall muzzle their canines prior to entering the designated veterinary facility;
- (l) Handlers shall maintain a comfortable ambient temperature for current weather conditions anytime the canines are in their vehicles; when leaving a canine in the canine vehicle unattended, the handler shall ensure that the vehicle's heat sensor unit controls are placed in the proper operating positions; ensure vehicle is locked and secure; and shall make periodic checks on the canine, and provide breaks to the canine; and
- (m) Handlers shall maintain their physical fitness at all times.

### **MEDICAL CARE OF THE CANINE**

- 82. Non-emergency medical care of the canine shall be coordinated through the canine unit trainer.
- 83. All non-emergency medical attention for the canine shall be rendered by the designated canine veterinarian.
- 84. The handler shall report any indication that a canine is not in good physical condition to the canine unit trainer or the Canine Commander as soon as practicable.
- 85. The handler shall notify the canine unit trainer as soon as practicable when emergency medical care for the canine is required.
- 86. Depending on the severity of the illness or injury, the canine shall either be treated by the designated veterinarian or transported to a designated emergency medical facility for treatment. If the handler and canine are out of the area, the handler may use the nearest available veterinarian. The handler shall notify the designated and contracted veterinary facility as soon as possible if this occurs, as well as notify the Canine Unit Commander.

### **CANINES IN PUBLIC AREAS**

- 87. When not specifically deployed pursuant to this Chapter, all canines shall be kept on leashes when in areas that allow access to the public. Exceptions to this rule would include specific law enforcement operations for which the canines are trained or approved demonstrations.
- 88. Canines shall not be left unattended in any area to which the public may have access.

89. When the canine unit is left unattended in a vehicle, all windows and doors shall be secured in such a manner as to prevent unauthorized access to the canine. The handler shall also ensure that the unattended unit remains habitable for the canine.
90. Handlers shall maintain control over their canines that are in public areas at all times.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.23

### TITLE: MISSING PERSON REPORTING

**EFFECTIVE: 12/10/2017**

**REVISED: Replaces Policy 332**

---

#### PURPOSE

This Chapter describes the procedure for accepting, reporting, documenting and investigating missing persons. State laws, as well as federal law, specify certain requirements relating to missing persons (La. R.S. 14:403.3; La. R.S. 40:2521; La. R.S. 46:1431; La. R.S. 46:1844(P) and 42 USC 5779(a)).

#### DEFINITIONS:

**AMBER Alert** or a **Child Abduction Emergency**—A child abduction alert system. **AMBER** is officially a contrived acronym for **America's Missing: Broadcast Emergency Response**. The decision to declare an AMBER Alert is made by each police organization that investigates each of the abductions. Public information in an AMBER Alert usually consists of the name and description of the abductee, a description of the suspected abductor, and a description and license plate number of the abductor's vehicle, if available.

**Developmental Disability**—A severe chronic disability that can be cognitive or physical or both. Developmental disabilities appear before the age of 22 and are likely to be lifelong. Some developmental disabilities are largely physical issues, such as cerebral palsy or epilepsy. Some individuals may have a condition that includes a physical and intellectual disability, for example Down syndrome or fetal alcohol syndrome. Refer to La. R.S. 28:451.2(12) for the state definition.

**Missing Child**—Any individual under the age of eighteen years, whose temporary or permanent residence is in Louisiana, whose location has not been determined and who has been reported missing to a federal or state law enforcement agency (La. R.S. 46:1431).

**Missing Person**—Any Louisiana resident who has been reported missing to local or state law enforcement agencies.

**Missing Senior Citizen**—A person whose whereabouts are unknown, whose domicile at the time he/she is reported missing is in this state, who is 60 years of age or older and whose disappearance poses a credible threat to his/her safety and health.

**Silver Alert**—A public notification system to broadcast information about missing persons, especially seniors with Alzheimer's Disease, dementia, or other mental disabilities in order to aid in their return.

**REPORT ACCEPTANCE**

1. All members shall accept any report, including any telephone report, of a missing person, including runaways, without delay. A missing person report shall be accepted regardless of jurisdiction. The missing person report shall contain at a minimum:
  - (a) The name of the reporting person;
  - (b) The relationship of the reporting person to the missing person;
  - (c) The name, age, address and all identifying characteristics of the missing person;
  - (d) The length of time the person has been missing; and
  - (e) Other information deemed relevant.
2. For all reports involving a missing child, department members should request that a member of the family or next of kin authorize the release of the medical and dental records of the missing child for analysis by the Louisiana Repository for Unidentified and Missing Persons.
3. In all missing persons cases where foul play is suspected, the District Investigative Unit shall be notified through Communications Services.

**INITIAL RESPONSE AND INVESTIGATION**

4. Patrol members should handle the initial missing person report and conduct a preliminary investigation involving additional resources as necessary. Department members shall promptly assist any person who is attempting to make a report of a missing person or runaway.
5. The handling officer shall immediately contact such persons and, using interpretive services as reasonably necessary, make inquiries concerning the missing person and make an assessment of reasonable steps to be taken to locate the person. The initial investigation should include:
  - (a) Interviewing the persons who made the initial report, and if the person is a child, the child's parent or guardian.
  - (b) Determining when, where and by whom the missing person was last seen.
  - (c) Interviewing the individual who last had contact with the person.
  - (d) Obtaining a detailed description of the missing person, abductor, vehicles and other pertinent information.

**INVESTIGATIVE PROCEDURES AND DILIGENCE**

6. If an initial investigation reveals that a person appears to be missing, further actions may be necessary. The investigating officer should determine from the information available whether a physical search is appropriate. If it appears from the situation that the missing person's safety may be endangered or there are missing children, each of the following actions should be performed:
  - (a) If a search is warranted, conduct a search of the home, building or other area/location where the incident took place and conduct a search including all surrounding areas. Obtain consent or a search warrant if necessary.
  - (b) If a search is not warranted or does not locate the missing person, additional investigation may be required, including:
    - A neighborhood/vehicle canvas.
    - Identifying persons at the scene and conducting separate interviews.
    - Documenting actions, telephone communications and other activities.
    - Assigning an investigator or officers whose duties will include coordination of the investigation.

- Involvement of the media.
  - If the missing person is under 13 years of age or there is evidence the person is missing under suspicious circumstances, Communications Services shall broadcast over the radio or send a mobile computer "be-on-the-lookout" (**BOLO**) transmission without delay within this jurisdiction.
  - In all missing persons cases where foul play is suspected the District Investigative Unit shall be notified through Communications Services.
7. The agency having jurisdiction over the missing person's residence normally will handle the investigation after the initial report is taken. However, department members may assist other agencies, including federal agencies, in the investigation of any person who was last seen in this jurisdiction.
8. During missing person investigations, the handling investigator shall attempt to obtain the most recent color photograph available of the missing person. The photograph and all pertinent information concerning the missing person shall be forwarded to the Louisiana Repository for Unidentified and Missing Persons and the Orleans Parish Coroner's Office. These photographs may be used for public information bulletins without written authorization.

#### **INVESTIGATIVE RESOURCES AND SUPPORT**

9. Additional support, investigative and supervisory assistance should be requested as reasonably necessary. Members providing assistance should be properly briefed and updated on the investigation status.
10. The handling investigator is responsible for seeing that all appropriate law enforcement agencies in the state are promptly notified. If deemed appropriate, law enforcement agencies in adjacent states or jurisdictions should be provided with any information that may aid in the location and return of the missing or a person whose safety appears endangered. If necessary, use the International Justice and Public Safety Network (NLETS), the AMBER Alert network and the Silver Alert program to alert state, regional and federal law enforcement agencies.
11. Resources that should also be considered in the investigation of a missing person case include, but are not limited to:
- (a) Local FBI office
  - (b) Local Medical Examiner
  - (c) National Missing and Unidentified Persons System (NamUs), [www.namus.gov](http://www.namus.gov)
  - (d) Louisiana Clearinghouse for Missing and Exploited Children, 1-800-434-8007.
  - (e) National Center for Missing and Exploited Children, [www.missingkids.com](http://www.missingkids.com), 800-THE-LOST, including Project ALERT (America's Law Enforcement Retiree Team) and Team Adam
  - (f) Any other agencies and/or resources that may be available to assist in the investigation of the case.

#### **AMBER AND SILVER ALERT CRITERIA**

12. Criteria for Amber Alerts are:
- (a) Confirmation that an abduction has taken place;
  - (b) Child must be at risk of serious injury or death;
  - (c) Sufficient descriptive information of child, captor, or captor's vehicle; and
  - (d) The child must be 17 years old or younger.

13. Silver Alerts may be activated for individuals 60 years of age or older with a diagnosed mental impairment.

#### **INVESTIGATION OF MISSING SENIOR CITIZENS AND MISSING ADULTS WITH DEVELOPMENTAL DISABILITIES**

14. If it is determined the person is a missing senior citizen or a missing adult with developmental disabilities, the handling officer shall immediately:
  - (a) Ensure that identifying and descriptive information about the person and involved suspects and vehicles are broadcast regionally, statewide, and nationally. Activate protocols for working with the media including AMBER Alerts and Silver Alerts as appropriate. See **41.23.1 – Public Alerts** for information on initiating public alerts.
  - (b) Consult with the Louisiana State Police and request assistance as necessary.
  - (c) Secure the crime scene and/or last known position of the missing person and, if not already completed, attempt to identify and interview persons in the area at the time of the incident.
  - (d) Implement multijurisdictional coordination and mutual aid plans when necessary. Factors to consider include:
    - i. Inadequate department resources.
    - ii. The investigation crosses jurisdictional lines.
    - iii. Existence of pre-established task forces or investigative teams.
  - (e) Obtain and protect uncontaminated missing person scent articles for possible use by search canines.

#### **INVESTIGATION DUTY MISSING CHILD**

15. Upon receiving and verifying a report of a missing child, the New Orleans Police Department shall enter the information within two hours into the Louisiana Clearinghouse for Missing and Exploited Children (LACMEC)/National Crime Information Center (NCIC) missing person databases (42 USC 5780(3); RS 40:2521).
16. In conducting an investigation of a missing child, the New Orleans Police Department shall:
  - (a) Conduct a preliminary investigation and classify the cause of the disappearance of the child as runaway, abduction by parent, abduction by a stranger or cause of disappearance unknown and shall:
    - Immediately notify such persons and make such inquiries concerning the missing child as necessary.
    - Utilize a family liaison to maintain communication with the family of the missing child.
    - Fully comply with the requirements of the National Child Search Assistance Act of 1990, Title XXXVII of Public Law 101-647, 104 Stat. 4966.
    - Enter into the LACMEC/NCIC Missing Person File database, as miscellaneous information, any person reasonably believed to have unlawfully abducted or detained the missing child, or aided or abetted the unlawful abduction or detention.
    - Verify and update original LACMEC/NCIC entries with any additional information within 30-60 days of entry.
    - Enter into the LACCH/NCIC Wanted Person File any warrant information for the arrest of a person suspected in the child's disappearance or concealment, including identifying and descriptive

information concerning:

- The suspect.
  - As miscellaneous information, the missing child.
- Determine whether the circumstances regarding the missing child meet the criteria for AMBER Alert activation (see: **Chapter 41.23.1 – Public Alerts**).
- (b) Cross-reference and integrate all information into the LACMEC/NCIC Missing Person File.
- (c) The Department may notify, as soon as appropriate, the school in which the missing child is or was most recently enrolled or the parish school superintendent if the child was being instructed at home, that the child is the subject of a missing child report and that the child's school records are to be flagged in case the child reappears within the state.
- (d) The Department may contact the state registrar in the state of the child's birth to flag the child as missing on his/her birth certificate.
- (e) Inform family members of the missing child of the status of the investigation (La. R.S. 46:1844(P)).
- (f) When a missing child has not been located within 30 days after a report is filed, the assigned investigator shall:
- Confirm authorization for consent to obtain dental and medical records.
  - Send to the child's parent or guardian a request for certain identifying information regarding the child that the NCIC recommends to be provided.
  - Request the child's parent or guardian to provide such identifying information regarding the child.
  - Upon receipt of the medical or dental records, enter the information into the LACMEC and NCIC database.
- (g) Upon notice by a parent or guardian that a child reported as missing has been found or returned, an officer should conduct a recovery interview to verify that the child has returned and provide referrals to minimize the potential for reoccurrence. The Department shall enter the updated information into the LACMEC and NCIC database and shall inform any school that was notified that the minor is no longer a missing child.

## **CRIME SCENE INVESTIGATION/MANAGEMENT**

17. If a crime scene is identified, it should be secured and a command post or operation base placed into operation a reasonable distance from the crime scene. The supervisor designed as the Incident Commander shall ensure the following persons (if needed) are identified:
- (a) Public Information Officer
  - (b) Search coordinator
  - (c) Investigative Coordinator
  - (d) Support Unit Coordinator
18. The Incident Commander shall designate two liaison officers (one at the command post and one at the home of the missing person). The role of the liaison at the home will include facilitating support and advocacy for the family.
19. The investigator of the crime should consider various elements, including:
- (a) Establishing the ability to trap and trace all incoming calls. Consider setting up a separate telephone line or cellular telephone for Department use and follow up

on all leads.

- (b) Compilation of a list of known sex offenders in the region.
- (c) In cases of infant abduction, investigate claims of home births made in the area.
- (d) In cases involving children, obtain child protective agency records for reports of child abuse.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.23.1

### TITLE: PUBLIC ALERTS

**EFFECTIVE: 12/10/2017**

**REVISED: Replaces Policy 334**

---

#### PURPOSE

The purpose of this Chapter is to provide guidelines for alerting the public to important information and soliciting public aid when appropriate.

#### DEFINITIONS:

Definitions related to this Chapter include:

**AMBER Alert** or a **Child Abduction Emergency**—A child abduction alert system. **AMBER** is officially a contrived acronym for **America's Missing: Broadcast Emergency Response**. The decision to declare an AMBER Alert is made by each police organization that investigates each of the abductions. Public information in an AMBER Alert usually consists of the name and description of the abductee, a description of the suspected abductor, and a description and license plate number of the abductor's vehicle, if available.

**Emergency Alert System (EAS)**—A national public warning system that requires broadcasters, cable television systems, wireless cable systems, satellite digital audio radio service (SDARS) providers, and direct broadcast satellite (DBS) providers to provide the communications capability to the President to address the American public during a national emergency. The system also may be used by state and local authorities to deliver important emergency information, such as AMBER alerts and weather information targeted to specific areas. The EAS regulations and standards are governed by the Public Safety and Homeland Security Bureau of the FCC. EAS has become part of [Integrated Public Alert and Warning System](#) (IPAWS), a program of FEMA.

#### POLICY STATEMENT

1. Public alerts may be employed using the **Emergency Alert System (EAS)**, including but not limited to local radio, television and press organizations and other groups to notify the public of incidents, or enlist the aid of the public, when the exchange of information may enhance the safety of the community. Various types of alerts may be available based upon each situation and the alert system's individual criteria.
2. The department will make every reasonable effort to ensure the criteria for EAS activation exists prior to its use. The department acknowledges the potential harm and detriment that over utilization or false information could cause to the Emergency Alert

System. The department will take all necessary precautions to authenticate information and limit the number of interruptions of local radio and television broadcasts.

### **MEMBER RESPONSIBILITIES**

3. Members of the New Orleans Police Department should notify their supervisor or Platoon Commander as soon as practicable upon learning of a situation where public notification, a warning or enlisting the help of the media and public could assist in locating a missing person, apprehending a dangerous person or gathering information.

### **SUPERVISOR RESPONSIBILITIES**

4. A supervisor apprised of the need for a public alert is responsible to make the appropriate notifications through Communications Services based upon the circumstances of each situation. The supervisor shall ensure that Communications Services promptly notifies his/her Commander, Bureau Chief, Public Affairs Division on duty Public Information Officer and the Superintendent of Police when any public alert is generated.
5. The supervisor in charge of the investigation to which the alert relates is responsible for:
  - (a) Updating alerts by providing any new or changed information to the PIO.
  - (b) Canceling alerts by notifying PIO.
  - (c) Ensuring all appropriate reports are completed and approved in a timely manner.
  - (d) Preparing an after-action evaluation of the investigation to be forwarded to his/her Bureau Chief through the chain of command.

### **AMBER ALERTS**

6. The Louisiana AMBER Alert program coordinates the efforts of law enforcement, the media, and the public in an effort to safely recover abducted children.

### **CRITERIA FOR AN AMBER ALERT**

7. The activation criteria for a Louisiana AMBER Alert require that:
  - (a) A law enforcement officer / agency confirms a child under 17 years of age has been abducted.
  - (b) A law enforcement officer / agency believes the circumstances surrounding the abduction indicate that the child is in danger of serious bodily harm or death.
  - (c) There must be enough descriptive information about the child, abductor, and/or suspect's vehicle to believe an immediate broadcast alert will help the case when the missing child is under 17 years of age and thought to be in imminent danger and/or criminal activity must be suspected in the disappearance.

### **PROCEDURE FOR AMBER ALERT INITIATION**

8. The investigator's immediate supervisor must:
  - (a) Complete the Louisiana Amber Alert System Initial Reporting Form (available at <http://www.lsp.org/pdf/AmberAlert.pdf>), providing as much information as possible,
  - (b) Sign the document, and
  - (c) Electronically mail or fax the form with a photograph, if available, of the missing person to:
    - **Louisiana State Police (LSP), Troop F located in Monroe, LA.**
    - **TELEPHONE #: 318-345-0000**

- EMAIL: [amberalert@dps.state.la.us](mailto:amberalert@dps.state.la.us)

9. If a photograph is not sent with the Initial Reporting Form, one should be sent as soon as possible.

### LOUISIANA STATE POLICE ACTIONS

10. The LSP determines whether an AMBER Alert is authorized for outside Orleans Parish after considering the information contained on the form to ensure it meets the criteria for an AMBER Alert. The elements considered are:
  - (a) Is there reasonable belief by law enforcement that an abduction has occurred?
  - (b) Is the child under 17 years of age?
  - (c) Does the Department believe that the child is in imminent danger of serious bodily injury or death?
  - (d) Is there enough descriptive information about the victim and/or the abductor(s) to make the issuance of an AMBER Alert viable enough to assist in the recovery of the child?
  - (e) Has the Department entered the child's name and other vital data in National Crime Information Center (NCIC) using the Child Abduction code CA (using this code upon entry will automatically notify the National Center for Missing and Exploited Children (NCMEC))?
11. If the circumstances meet the criteria for an AMBER Alert to activate the statewide EAS, the alert process will be initiated.
12. Following an initial alert, an Amber Alert will be broadcast every 20 minutes, during the first three hours and every 30 minutes thereafter for the next two hours or until such time that an end of alert message is received from this department. The end of alert message will be further disseminated by the LSP.
13. Local and statewide broadcast stations will exercise their own independent discretion to repeat the broadcasts more frequently and determine the frequency in which the alert is re-broadcast following expiration of the above mentioned five hour period following the initial alert.
14. If the circumstances do not meet the criteria for an AMBER Alert to activate the statewide EAS, the LSP may offer an alternate form of mass notification, including:
  - (a) An email alerting news media and law enforcement of a child's disappearance which does not meet the criteria of an AMBER Alert EAS activation. The email will include a statement that this department is requesting distribution of the information although it does not meet the criteria for and AMBER Alert EAS activation.
  - (b) Requesting completion and submission of the Louisiana Level II Media Advisory Form (available at <http://www.lsp.org/pdf/AmberLevel2.pdf>).
15. Should information and evidence arise in an incident that does not initially meet the criteria for Amber Alert activation, the LSP should be immediately provided that information and asked to reconsider an Amber Alert activation of the EAS.

### MISSING CHILDREN

16. While investigating a possible missing child, (See also: **Chapter 41.23 – Missing Person Reporting**) District personnel shall consider the following elements as a possible Amber Alert case:
  - (a) The supported threat of imminent harm or death to the missing child.

- (b) The age of the child (under 17 years of age).
  - (c) The time of initial report or police response vs. time of the disappearance.
  - (d) Reliable witness information.
  - (e) Possible domestic or parental dispute involving the child.
  - (f) Other facts that indicate the child was abducted or is in danger of serious injury or death (i.e., witnessed kidnapping, witnessed abuse, or violence toward the child).
17. If the criteria for an Amber Alert are met, district personnel will notify the Child Abuse Unit or Communication Services requesting a Child Abuse detective contact the investigating officer either by telephone or radio.
18. The investigating officer will supply the Child Abuse detective with all pertinent information substantiating the need for an Amber Alert. If the Child Abuse detective concurs that the criteria for an Amber Alert are met, he/she shall:
- (a) Immediately notify the Commander of the Special Victims Section who shall in turn authorize an Amber Alert;
  - (b) Determine if the message should be regional or if various states should be included in the notification.
  - (c) Notify the PIO that an alert has been authorized, requesting he/she respond to the scene;
  - (d) Contact the Communications Services NOPD Liaison, supplying all information for the Amber Alert system initial reporting form; and
  - (e) Respond to the scene to take command of the investigation.
19. The Child Abuse detective will complete an **Amber Alert System Initial Reporting Form (Form #54)**, also referred to as a script. A copy of the report form will be forwarded to the Public Information Office prior to the Child Abuse detective completing his/her tour of duty.
20. Where speed is of the essence, the Child Abuse detective may contact the Public Information Office personnel by telephone or radio supplying the information on the **Amber Alert System Initial Reporting Form (Form #54)**. Public Information Office personnel will use the supplied information to initiate the local AMBER alert.
21. Upon receipt of the form from the Child Abuse detective, the Louisiana State Police will be responsible for sending the EAS signal.
22. Upon receipt of verification the child has been located, the Commander of the Special Victims Section will, at his/her discretion, instruct the PIO or a Child Abuse detective to issue an **end of alert message** to the media via the established Amber Alert e-mail list. The PIO will disseminate the information to all media outlets via the City News Channel.
23. Investigating officers shall consider the use of an NCIC information bulletin to notify other jurisdictions outside Louisiana of the missing individual in cases where a child may have been abducted. All possible information shall be included in the bulletin but not be limited to the following:
- (a) Physical description of the child, including clothing worn at the time abducted.
  - (b) Physical description of the individual suspected of the abduction, including a clothing description.
  - (c) All information as to the description of the vehicle used.
  - (d) Descriptions of accomplices.
  - (e) Direction of flight.
  - (f) The time of the offense.

**PUBLIC AFFAIRS DIVISION – PUBLIC INFORMATION OFFICER (PIO)**

24. The Public Affairs Division on-duty Public Information Officer shall have primary responsibility for sending the local Amber Alert message with information provided by the case investigator.
25. It shall be the responsibility of the individual sending the alert to broadcast alert tones, followed by a verbal notification of the abduction information over the City news channel and radio system. All television news stations currently monitor the channel, as does WWL Radio (the EAS Alert station for this area). This will notify all stations to be on the lookout for the information that will follow.
26. The PIO will e-mail the text of the script to the media which are on the established Amber Alert e-mail list, including any additional information and photographs of the missing child, if available.
27. Within five working days of an Amber Alert, the Communications Director shall request a meeting with the Special Victims Section Commander and representatives from the media to evaluate the operation of the Amber Alert, with the goal of improving future Amber Alerts.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.25

### TITLE: CRISIS INTERVENTION

**EFFECTIVE:** March 13, 2016

**REVISED:** 05/10/20

---

#### PURPOSE

1. This Chapter sets forth NOPD policy on handling and supervising situations involving individuals in crisis, including but not limited to 103M (crisis disturbance), 29ST (suicide threat), and 29SA (suicide attempt) events. This Chapter includes guidelines for the screening, training, organization, and duties of the Crisis Intervention Team (CIT) Program and NOPD officers.
2. It is NOPD's policy to ensure a high level of service is provided to all members of its service communities. NOPD recognizes the need to bring community resources together for the purpose of safety and to assist and resolve crises. Individuals in crisis will be treated with dignity and will be given access to the same law enforcement, government, and community services provided to all community members. The Department recognizes that many people experience crises and do not commit crimes.
3. During all encounters, NOPD members will consider whether the individual may be in crisis. The ideal resolution for a crisis incident is that the individual is diverted from the criminal justice system and connected with resources that can provide long-term stabilizing support.
4. Interactions with individuals in crisis carry the potential for violence and may require officers to make difficult judgments about the mental state and intent of the individual. This requires special police skills and training to effectively and legally interact with the individual in a productive manner and avoid unnecessary violence and potential liability. When an officer engages with an individual in crisis, the officer will attempt to de-escalate the situation.
5. As first responders, NOPD officers may encounter victims, witnesses, or suspects who are in crisis. They may be called upon to help people obtain psychiatric attention or other needed services. Helping people and their families obtain the services of mental health or substance abuse organizations, hospitals, clinics, and shelter care facilities is an important role for law enforcement. No single policy or procedure can address all of the situations in which officers, communications personnel, and other agency personnel may be required to provide assistance to persons in crisis. This policy is intended to address the most common types of interactions with people in crisis.

## DEFINITIONS

**29ST (Suicide Threat)**—Signal code used when a person in crisis has expressed a desire to end his/her life but has not acted in furtherance of that desire nor are they in a position or circumstance where they can immediately carry out the act. Neither EMS nor NOFD are dispatched with NOPD.

**29SA (Suicide Attempt)**—Signal code used when a person in crisis has expressed a desire to end his/her life and/or has taken an action in furtherance of that desire EMS and NOFD are dispatched with NOPD.

**Coroner's Emergency Certificate (CEC)**—A CEC is a commitment certificate signed by the Coroner and valid for 15 days from its issuance. When presented with a valid CEC, officers shall take the individual stated on the papers into custody and deliver the individual to the receiving facility indicated on the certificate.

**Crisis**—An incident in which someone is experiencing intense feelings of personal distress (e.g., anxiety, depression, fear, anger, panic, hopelessness), obvious changes in functioning (e.g., neglect of personal hygiene, unusual behavior), or catastrophic life events (e.g., disruptions in personal relationships, support systems, or living arrangements; loss of autonomy or parental rights; victimization; natural disasters), which may, but not necessarily, result in an upward trajectory or intensity culminating in thoughts or acts that are possibly dangerous to his or herself and/or others.

**Crisis intervention**—The attempt by a member to de-escalate an encounter with an individual in crisis and return the individual to a pre-crisis level or divert the person to other services when appropriate.

**Crisis Intervention Team (CIT)**—The Crisis Intervention Team is composed of certified officers who respond to persons in crisis, with the objective of diverting them from the criminal justice system and connecting them to appropriate mental health and substance use treatment services.

**CIT officer**—A commissioned member of the NOPD who has volunteered, been selected, received 40 hours of specialized training for crisis-related calls for service, and been certified as a Crisis Intervention Team officer. In addition to their regular duties, CIT officers are specifically assigned as primary responders to crisis disturbance calls. CIT officers are assigned to each NOPD district and maintain their standard patrol duties except when called to respond to potential crisis events. CIT officers work in cooperation with community partner mental health facilities and organizations.

**CIT Planning Committee**—The CIT Planning Committee is comprised of NOPD command leadership, City-contracted mental health professionals, civilian leadership of CTS, local municipal government, the New Orleans Metropolitan Human Services District, community mental health professionals, professionals from emergency health care receiving facilities, members of the local judiciary, the Orleans Parish Criminal Sheriff's Office, homeless services agencies, mental health professionals and advocates, and relevant community partners. The CIT Planning Committee shall direct the development and implementation of the CIT program. The Superintendent is responsible for appointing and removing members and determining their tenure.

**Crisis Transportation Service (CTS)**—The Crisis Transportation Service is an emergency transportation van staffed by civilian volunteer personnel (CTS Technicians). The Crisis Transportation Service is authorized by the Superintendent to assist patrol units in processing and transporting individuals in crisis who are not under arrest. The Crisis Transportation Service

will generally be available seven days a week from 10:00 A.M. until midnight. Refer to **Chapter 41.26 – Crisis Transportation Service** for more information.

**Dangerous to others**—The condition of a person whose behavior or significant threats support a reasonable expectation that there is a substantial risk that he or she will inflict physical harm upon another person in the near future (La. R.S. 28:2(3), ChC. Art 1404(3)).

**Dangerous to self**—The condition of a person whose behavior, significant threats, or inaction supports a reasonable expectation that there is a substantial risk that he or she will inflict physical or severe emotional harm upon his or her own person (La. R.S. 28:2(4), ChC. Art 1404(4)).

**Detention**—A restriction of movement or freedom to move. It may be of any duration.

**Developmental disability**—Severe chronic disabilities that can be cognitive or physical or both. The disabilities appear before the age of 22 and are likely to be lifelong. Some developmental disabilities are largely physical issues, such as cerebral palsy or epilepsy. Some individuals may have a condition that includes a physical and intellectual disability, for example Down syndrome or fetal alcohol syndrome. Refer to La. R.S. 28:451.2(12) for the state definition.

**Gravely disabled**—The condition of a person who is unable to provide for his/her own basic physical needs, such as essential food, clothing, medical care, and shelter, as a result of serious mental illness or substance abuse and is unable to survive safely in freedom or protect himself/herself from serious harm; the term also includes incapacitation by alcohol and/or drugs, which means the condition of a person who, as a result of the use of alcohol and/or drugs, is unconscious or whose judgment is otherwise so impaired that he/she is incapable of realizing and making a rational decision with respect to his/her need for treatment (La. R.S. 28:2(10), ChC. Art 1404(11)).

**Individual in crisis**—An individual in a state of crisis (see **Crisis** under **Definitions**). The individual in crisis is referred to as the “consumer” on the Crisis Intervention Form.

**Intellectual disability**—A disability characterized by significant limitations in both intellectual functioning and adaptive behavior that covers many everyday social and practical skills. Limitations in intellectual functioning involve the person’s difficulty processing information and making decisions. Limitations in adaptive behavior include problems communicating effectively and carrying out practical everyday living skills. Many people with intellectual disability are mildly affected, making the disability difficult to recognize. This disability generally originates before the age of 18.

**Mental Illness**—A mental illness is a condition that impacts a person's thinking, feeling or mood and may affect his or her ability to relate to others and function on a daily basis. Refer to La. R.S. 28:2(20) and ChC. Art 1404(17) for state definitions.

**Order for Protective Custody (OPC)**—An OPC is a commitment certificate signed by the Coroner or a judge from a court of competent jurisdiction. The certificate is valid for 72 hours from its issuance. When presented with a valid OPC, officers shall take the individual stated on the papers into custody and deliver the individual to the receiving facility indicated on the certificate.

**Physician's Emergency Certificate (PEC)**—A PEC is a commitment certificate signed by a licensed physician. The certificate is valid for 72 hours from its issuance. When presented with a valid PEC, officers shall take the individual stated on the papers into custody and deliver the individual to the receiving facility indicated on the certificate.

**Receiving facility**—For the purposes of this Chapter, receiving facility refers to any screening and treatment facility that can provide a mental health examination.

**Substance abuse**—The harmful or hazardous use of psychoactive substances, including alcohol and illicit drugs.

### **CIT PLANNING COMMITTEE**

6. The purpose of the CIT Planning Committee is to build an effective crisis incident response based on best practices, innovation, and experience. The CIT Planning Committee shall direct the development and implementation of the CIT Program. The CIT Planning Committee shall work collaboratively with NOPD to:
  - (a) Analyze outcome data, critical incidents, and other pertinent information to recommend appropriate changes to relevant chapters and training methods regarding police contact with individuals in crisis with the goal of de-escalating the potential for violent encounters and diverting appropriate individuals from jail;
  - (b) Reevaluate NOPD's overall CIT program, study national models, and make recommendations on modifications to the design of the CIT program;
  - (c) Review and approve the NOPD CIT training;
  - (d) Develop policies and procedures for the disposition or referral of individuals to jails, receiving facilities, and local mental health agencies that clearly describe the roles and responsibilities of those entities and of the NOPD; and
  - (e) Enhance community connections with advocates and mental health professionals and provide a seamless system of care for people in crisis.

### **CIT COORDINATOR**

7. The CIT Coordinator shall be responsible for the following:
  - (a) Maintaining a database of CIT calls for service via Crisis Intervention Forms;
  - (b) Working with the Education and Training Division to develop CIT training;
  - (c) Acting as the NOPD's liaison with other agencies involved in the mental health community;
  - (d) Maintaining a current roster of all CIT officers;
  - (e) Overseeing the development and implementation of a selection process for CIT officers;
  - (f) Annually evaluating the performance of all CIT officers and forwarding the evaluations to the supervisors of the CIT officers. If the CIT Coordinator determines an officer is unsuitable for the program, he/she shall discuss dismissal from the program with the Deputy Chief of Field Operations Bureau and document the dismissal and its justification in writing;
  - (g) Annually reviewing this Chapter and revising as needed;
  - (h) Seeking relevant outcome indicators from partner agencies;
  - (i) Reviewing outcome data to:
    - i. Recognize officers deserving commendation;
    - ii. Develop new response strategies for repeat calls for service;
    - iii. Identify training needs;
    - iv. Make CIT curriculum changes; and
    - v. Identify and address other issues that hinder NOPD's crisis response.
  - (j) Publicly reporting aggregated and anonymized CIT outcome data; provided, NOPD shall not disclose Protected Health Information and medical diagnoses that are protected by HIPAA regulations.

### **CIT OFFICER SELECTION**

8. Officers must volunteer for the advanced training. The CIT Coordinator shall screen all

new CIT officer volunteers. Selection criteria include:

- (a) Supervisory recommendations;
- (b) PIB records and other disciplinary history;
- (c) Insight employee summary report; and
- (d) Interviews.

9. Preference shall be given to officers with at least three years of field experience.

#### **CIT PIN**

10. Only trained and active CIT officers are authorized to wear a CIT pin.

#### **COMMUNICATIONS SERVICES RESPONSIBILITIES**

11. The quality of information gathered by call takers can affect the way officers respond to and resolve a call for service. Gathering information is critical at all stages in assessing the situation but is particularly critical at the beginning.
12. When a call is received about the actions or behavior of a person potentially in crisis, it is essential that call takers try to collect information to prepare the responding officers, including:
- (a) The nature of the problem behavior;
  - (b) Name of the individual potentially in crisis;
  - (c) Events that may have triggered the person's behavior;
  - (d) History of treatment for mental illness; and
  - (e) The presence of weapons.
13. The party calling about a person in need may be able to provide additional information such as:
- (a) Past occurrences of this or other abnormal behaviors;
  - (b) Past incidents involving injury or harm to the individual or others;
  - (c) Previous suicide threats;
  - (d) Reliance on medication or failure to take medication;
  - (e) Names of and contact information for relatives, friends, or neighbors available to assist officers; and
  - (f) Names of and contact information for physicians or mental health professionals or peer supporters available to assist officers.
14. In the case of calls relating to 103M, suicide threats (29ST) and suicide attempts (29SA), Communications Services shall:
- (a) Follow the OPCD protocols for determining the nature of the crisis and the correct danger level and capability of the person in crisis;
  - (b) Appropriately classify the event (103M, 29ST, 29SA) and assign the necessary resources (NOPD, NOFD, NOEMS);
  - (c) Dispatch the nearest available CIT officer and backup unit from the district of occurrence; or
  - (d) If there are no available CIT officers clear to respond in reasonable proximity to the call location, determine if a CIT officer handling a lower priority call in the district of occurrence can be reassigned to the call; or
  - (e) If unsuccessful at dispatching a CIT officer in the district of occurrence, Communications may attempt to dispatch the nearest available CIT officer from another district; or
  - (f) If no CIT officers are available to respond, the assigned officers shall handle the call in accordance with training and the guidelines provided in this Chapter.

15. Communications Services shall notify an NOPD supervisor whenever a CIT officer is requested but not available.
16. In exigent circumstances, Communications Services may immediately dispatch the nearest available non-CIT officer.
17. Communications Services dispatchers shall relay as much information as possible to all units responding to a call for service involving individuals in crisis.
18. CIT calls for service shall be assigned and responded to by a minimum of two officers. The first officer on the scene shall, if circumstances permit, wait until backup arrives before handling the call.
19. If requested by responding officers or when circumstances dictate, a supervisor and additional units shall be assigned.
20. All assigned units shall continue to the location until the primary unit has signaled a "Code 4" when it has determined additional backup is not necessary. The supervisor, however, shall respond to the scene if enroute.
21. Communications Services shall dispatch the Crisis Transportation Service (CTS) to the scene if available. CTS shall not respond directly to the scene until an officer has secured the scene. CTS shall wait at a safe location close to the scene until summoned by a responding officer or supervisor who has secured the scene.

#### **FIRST RESPONDING OFFICER**

22. The first responding officer, if not a CIT officer, should perform the following:
  - (a) Secure the scene, especially with regard to the safety of the officer, the subject, and any bystanders;
  - (b) Determine if the circumstances require the continued response of a CIT officer and inform Communications Services of the status. Beware of a premature Code 4; and
  - (c) Gather all available information to brief the CIT member upon his/her arrival. Information sources should include but are not limited to the following:
    - i. Observations of the subject's actions, demeanor, etc.;
    - ii. The name(s) of individual(s) involved; and
    - iii. Interviews of family/friends on scene.
23. If a CIT officer is not available to respond to the scene, the first responding officer(s) should follow the instructions below on how to handle the situation.

#### **CIT OFFICER RESPONSE**

24. The CIT officer has control of the scene interaction involving an individual in crisis and has the discretion to determine strategies for resolving the event, unless expressly relieved by an on-scene supervisor or in exigent circumstances (for example, if a CIT officer is injured or involved in a use of force). This Chapter does not apply in unusual or emergency situations (e.g. barricaded subjects per **Chapter 46.1 – Hostage, Barricaded Subjects and Sniper Incidents** and SWAT rolls per **Chapter 46.7 – Crisis Response Unit**) when other, specialized teams are required by necessity and regulation to resolve the incident.
25. The primary goal of CIT officers is to establish, develop, and implement safe, proactive,

and preventive methods of containing emotionally explosive situations that could lead to violence.

26. When responding to calls involving individuals in crisis, CIT officers should obtain as much information as possible to assess and stabilize the situation (see **First Responding Officer** above).
27. Officers are not expected to diagnose a mental illness or developmental disability but are expected to decide on an appropriate response to the individual and the situation. Officers shall perform a rapid assessment and respond based on that assessment. Recognizing symptoms that may indicate mental illness or developmental disability will help in deciding on an appropriate response.
28. To properly address the situation, CIT officers will attempt to determine:
  - (a) The severity of the behavior;
  - (b) The potential for rapid change in behavior; and
  - (c) The potential for physical danger presented by the person in distress to himself/herself or others.

### **RESPONSE TO CRISIS AND DISPOSITION DECISION**

29. Once sufficient information has been collected about the nature of the situation and the scene has been stabilized, the officer has several options to consider when selecting an appropriate disposition for the call for service. The officer frequently has the discretion to not arrest. Exercising the discretion to not arrest is particularly appropriate in situations in which the person's behavior is related to a person's mental illness or developmental disability. Officers' discretion should be guided by the goal of diverting individuals with mental illness or developmental disability from criminal justice involvement, following these guidelines when appropriate, given the nature and seriousness of the incident:
  - (a) Harmless behavior which appears to be related to an illness, disorder, or disability
    - i. Non-criminal: Provide a print-out with contact information for obtaining community-based services (refer to Crisis Intervention Resources in the Resources folder on [www.nopd.org](http://www.nopd.org)).
    - ii. Criminal: Verbal warning and provide contact information for obtaining community-based services.
  - (b) Indication of mental health needs
    - i. Non-criminal: Refer the individual to appropriate services.
    - ii. Criminal: Refer the individual to appropriate services, document crime on the Crisis Intervention Form, and issue verbal warning.
  - (c) Indication of urgent mental health needs
    - i. Non-criminal: Transport to voluntary services, if possible, preferably using the Crisis Transportation Service.
    - ii. Criminal: Transport to voluntary services, if possible, preferably using Crisis Transportation Service, document crime on the Crisis Intervention Form, and issue verbal warning.
  - (d) Imminent risk of serious harm to self or others
    - i. Non-criminal: Protective custody and involuntary transport to hospital, preferably using Crisis Transportation Service.
    - ii. Criminal: Protective custody, involuntary transport to hospital, preferably using Crisis Transportation Service, document crime on the Crisis Intervention Form if classed as a 103M or 29ST, and issue verbal warning.
    - iii. If classed as a 29SA, request EMS, complete an EPR and a CIT Form.
  - (e) Escalation of harmful symptomatic behavior
    - i. Non-criminal: Protective custody and involuntary transport to hospital,

- preferably using Crisis Transportation Service; coordinate with appropriate services as possible.
  - ii. Criminal: Arrest and booking.
  - (f) Escalated risk of serious harm to self or others, resistant to all other interventions
    - i. Non-criminal: Protective custody and involuntary transport to hospital, preferably using Crisis Transportation Service; coordinate with appropriate services as possible.
    - ii. Criminal: Arrest and booking.
30. The officer shall inform Communications Services when it is safe for the Crisis Transportation Service to come to the scene to assist with the de-escalation and disposition of the incident.
31. EMS may be summoned in the following instances:
  - (a) For an individual who has a medical emergency and requires ambulance transport to an emergency department.
  - (b) For an individual who is unable to walk or extremely obese or has other unique circumstances and therefore is unable to be transported by NOPD.
32. If the individual has capacity and refuses emergency medical treatment and transport by EMS, the responding officer must transport the individual to the closest receiving facility if an involuntary examination is going to take place. EMS will have the final authority to determine whether an individual is capable of refusing medical treatment and transport by EMS.
33. An officer can arrest an individual in crisis only when the officer has probable cause to believe the individual has committed a crime. Having a mental illness or developmental disability is not a crime, and no person should be arrested for behavioral manifestations that are not criminal in nature.
34. Officers shall contact their supervisor as soon as practicable when arresting a person who exhibits mental illness or developmental disability.
35. The officer shall inform Central Lock-Up of the perceived mental illness of any person charged with a crime and whom NOPD transports to Central Lock-Up.
36. If the person has injuries or a non-psychiatric medical condition, the person shall be taken directly to a hospital for initial medical treatment with the approval of a supervisor. After medical clearance is received at a hospital emergency department, NOPD shall transport the person to Central Lock-Up for booking.

#### **AUTHORITY OF AN OFFICER TO ENACT INVOLUNTARY EXAMINATION**

37. An officer may take a person into protective custody and transport him/her to a treatment facility for a medical evaluation when, as a result of the officer's **personal observation**, the officer has reasonable grounds to believe the person is a proper subject for involuntary admission to a treatment facility because the person is acting in a manner dangerous to himself or dangerous to others, is gravely disabled, and is in need of immediate hospitalization to protect such a person or others from physical harm.
38. For involuntary examinations, *if there is no apparent medical emergency*, the officer should contact the Crisis Transportation Service (CTS) to assist on scene and provide transport to the nearest receiving facility. Officers **must accompany** CTS when CTS is transporting an individual. If CTS is not available, officers shall transport the individual to the nearest receiving facility provided they have secured permission from their

supervisor. Officers may only transport in a vehicle with a safety screen, and a minimum of two officers must accompany the person being transported in a patrol unit.

39. Officers shall contact an NOPD supervisor as soon as practical when taking an individual into protective custody and prior to transporting.
40. An officer may involuntarily commit a person, in accordance with Paragraph 36, who has violated a provision of law that warrants a physical arrest. Officers shall consult with their supervisor to determine if the person shall be incarcerated rather than committed when criminal charges lie.
41. Officers shall not state to any person that involuntary admission may result if such person does not voluntarily admit himself/herself unless the officer is prepared to execute a certificate of committal (La. R.S. 28:52(D)).
42. Officers should use reasonable and necessary precautions to avoid a violent encounter with the person being taken into temporary protective custody (La. R.S. 28:53.2(C) (5)).
43. Officers shall take persons into custody under any of the following circumstances (La. R.S. 28:53):
  - (a) There is an original Physician's Emergency Certificate (PEC) signed by a licensed physician. A PEC shall be valid for 72 hours from its issuance;
  - (b) There is an original Order for Protective Custody (OPC) signed by the Coroner or judge from a court of competent jurisdiction. An OPC shall be valid for 72 hours from its issuance; or
  - (c) There is an original Coroner's Emergency Certificate (CEC) signed by the Coroner. A CEC shall be valid for 15 days from its issuance.
44. Officers may contact the Coroner's office at 658-9660 to confirm the validity of commitment papers.
45. The officer shall deliver any commitment papers received by him/her to the receiving facility as indicated on the commitment papers.
46. Officers are not required to complete any applications nor should they alter any commitment certificates in any way.
47. The officer shall provide an oral summary to a receiving facility staff member regarding the circumstances leading to the involuntary detention. The receiving facility will receive a written summary of the incident when the officer submits a Crisis Intervention Form and selects the appropriate receiving facility.

#### **DETENTION IN CIVIL COMMITMENTS**

48. The detention of a person pursuant to La. R.S. 28:53(L) does not constitute an arrest but rather a civil commitment and protective custody.
49. In taking a person into protective civil custody, officers may take reasonable steps to protect themselves (La. R.S. 28:53(L) (3)). All provisions for the use of force shall follow the requirements of **Chapter 1.3 – Use of Force**.

#### **ORDER OF PROTECTIVE CUSTODY AND COURT ORDER FOR FORCED ENTRY**

50. When the Coroner has granted an OPC and has credible information that the subject of the OPC will not comply and will refuse or obstruct admittance to the Coroner or officers assisting the Coroner in attempting to take the subject into protective custody, the

Coroner may apply for, and be granted a Court Order pursuant to R.S. 28:53.2 (G). The signed Court Order allows for the Coroner and those officers assisting to utilize “forced entry” to execute the OPC. **No search warrant is required**. The requirements for this action are:

- (a) A signed, valid OPC.
  - (b) A signed Court Order, requested by the Coroner, under R.S. 28:53 authorizing “forced entry”.
  - (c) The Coroner or his/her representative **MUST** be on-scene and the police are present only to “assist” in serving the OPC.
51. The NOPD Special Operations Division shall be contacted as soon as NOPD has been made aware that the Coroner has asked for a Court Order to allow forced entry under R.S. 28:53.2 (G). This will allow for SOD to prepare and plan.
  52. The NOPD officers on scene to assist the Coroner in the execution of the OPC and Court order remain under the direction and control of their respective NOPD supervisors at all times. The ranking supervisory officer, or SOD supervisor if on-scene, retain final authority to determine threat and risk assessment, tactics of deployment, method of entry and allocation of resources.
  53. Once the OPC and Order have been executed, the subsequent transport of the subject shall be the responsibility of the District, EMS (if necessary) and/or the CTS, not SOD.
  54. All subsequent police reports (UOF, EPR, etc.) shall be governed by existing Departmental regulations and SOD Standard Operating Guidelines.

## RESTRAINTS

55. Where necessary to protect an officer, the individual, or others, the officer may use restraints consistent with **Chapter 1.3.1.1 - Handcuffing and Restraint Devices**.
56. Crisis Transportation Service members may also use approved restraints consistent with **Chapter 1.3.1.1 - Handcuffing and Restraint Devices** and as limited by **Chapter 41.26 – Crisis Transportation Service**.

## RECEIVING FACILITIES

57. A PEC, OPC, or CEC will direct the destination for the individual. In the absence of commitment papers for involuntary commitments, officers shall transport the individual to the nearest emergency department or, if preferable, an alternative receiving facility listed in **Appendix A**. Emergency departments must accept all patients according to Emergency Medical Treatment Active Labor Act (EMTALA) of 1986 unless on full diversion of all medical disabilities.

## TRANSPORTATION

58. Officers shall search the individual before transporting in accordance with **Chapter 71.1 – Prisoner Transportation and Guarding**.
59. When transporting any individual in custody for a mental illness evaluation, the handling officer shall direct Communications Services to notify the receiving facility of the estimated time of arrival, the level of cooperation of the individual, and any special care needs of the individual that are reasonably known to the officer.
60. Officers have three transportation options:

- (a) EMS, when there is a medical emergency;
  - (b) CTS, in non-arrest situations. **Officers must accompany or follow CTS**; and
  - (c) A marked police unit with a safety screen, in criminal or non-criminal situations.
- Two officers must accompany an individual in crisis transported in a police unit.

61. Violent individuals may be transported by EMS in cases of *medical emergencies*. An officer must accompany EMS to the receiving facility and may restrain the individual prior to transport in accordance with **Chapter 1.3.1.1 - Handcuffing and Restraint Devices**.
62. Upon arrival at the treatment facility and presentation of the individual for intake, the officer shall be relieved of any further responsibility, and the person shall be immediately examined by the receiving facility (La. R.S. 28:53(L) (2)). Officers shall remain with the individual at the treatment facility until the facility has completed the initial triage and intake processing and assumed responsibility for the individual. At the direction of the District Commander, officers may remain for up to 45 minutes past the intake/triage as a "courtesy" to allow the facility to provide a bed or room for the person/patient.

### **CRISIS TRANSPORTATION SERVICE**

63. Officers **must accompany** CTS when CTS is transporting the individual.
64. It should be noted that CTS members are not police officers and are not armed. Officers responding to calls with CTS shall remember that the CTS members are responding in an assistance capacity and are not equipped to effectively deal with situations requiring specialized training in police techniques.
65. For more information on the use of CTS, refer to **Chapter 41.26 – Crisis Transportation Service**.

### **SAFEKEEPING OF FIREARMS AND WEAPONS**

66. Whenever a person has been detained or taken into custody for evaluation pursuant to La. R.S. 28:53(L) only and is found to have in his/her possession or under his/her immediate control any firearm or other deadly weapon, or contraband, not involved in a criminal offense or illegally possessed, the handling officer shall:
- (a) Confiscate the firearm or weapon for safekeeping;
  - (b) Issue a property receipt to the owner/possessor;
  - (c) Place the firearm or other deadly weapon or contraband into Central Evidence and Property as Property under the owner/possessor's name until further processing and release; and
  - (d) Document the confiscation in an electronic police report.
67. Any weapons or contraband not in the individual's immediate possession or control are governed by **Chapter 1.2.4 – Searches and Seizure**.

### **SECURING OFFICER WEAPONS**

68. If a receiving facility prohibits officers' carrying duty weapons or if an extraordinary event occurs in the treatment facility and officers determine a need to secure their firearms, the firearm shall be secured in the appropriate gun locker at the facility or in accordance with **Chapter 1.4 – Authorized Firearms**.

### **CRISIS INTERVENTION FORM AND INCIDENT DOCUMENTATION**

69. Upon completion of a crisis intervention incident involving a 103M, 29ST or 29SA, or any

other signal in which a CIT officer is specifically dispatched for crisis intervention purposes, the CIT officer or responding officer shall complete and submit the electronic Crisis Intervention Form (Form #348). Officers do not need to complete a Crisis intervention Form on gone on arrival (GOA) calls. An FIC is only required if the CIT encounter stems from a self-initiated stop or other presumptive criminal investigation. (See: **Chapter 41.12 – Field Interview Cards**).

70. A Use of Force Report shall be completed if required pursuant to **Chapter 1.3.6 – Reporting Use of Force**.
71. An Incident Report (EPR) shall be generated if there is an allegation of a crime, an incident is a 29SA or where the officer or supervisor deems prudent.
72. Protected Health Information (PHI) contained on CIT Forms and databases are restricted to the CIT Program Coordinator. PHI shall not be shared internally or externally except as authorized by law or a court order.

### **CALL DISPOSITIONS**

73. Classifications of calls for service involving 103M, 29ST, 29SA, or any other signal in which a CIT officer is specifically dispatched for crisis intervention purposes must be handled according to the guidelines of **Chapter 82.4 – Complaint Signals – Changing of Item Signals and Dispositions**.

### **BODY WORN CAMERA**

74. Officers shall utilize body worn cameras in accordance with **Chapter 41.3.10 – Body Worn Cameras** to document the entirety of the event, from arrival up to and including the transfer of the individual to Central Lock-Up or a receiving facility.

### **TRAINING**

75. The Commander of the Education and Training Division or his/her designee shall develop a plan for training officers who respond to crisis intervention calls in accordance with this Chapter and Department policy. Training will reflect changes in policy, law, and developments in best practices over time.
76. All CIT supervisor and officer candidates must complete the 40-hour CIT training prior to being assigned CIT duties. This training based on Memphis CIT model should include volunteer local area professionals and advocates to the greatest extent possible. This training shall include not only lecture-based instruction, but also on-site visitation and exposure to mental health providers, intensive interaction with individuals with mental illness, and scenario-based de-escalation skills training.
77. All CIT supervisors and officers shall complete eight hours of CIT in-service training annually.
78. All recruits shall receive at least 16 hours of crisis intervention training.
79. All supervisors and officers shall attend four hours of in-service training on this Chapter and responding to crisis intervention calls for service on an annual basis.
80. NOPD shall offer crisis intervention training to all current dispatchers and new dispatchers within 90 days of their start date to enable dispatchers to identify calls for

service that involve individuals in crisis. NOPD will also offer annual in-service training to dispatchers.

81. Crisis intervention training shall emphasize mental health-related topics, developmental disability topics, crisis resolution skills, de-escalation training, and access to community-based services.

**APPENDIX A – INVOLUNTARY COMMITMENT RECEIVING FACILITIES**

In involuntary commitments, the officer may transport the individual in crisis to one of the following, preferably using the Crisis Transportation Service:

- (a) A community mental health center;
- (b) A public or private general hospital;
- (c) A public or private mental hospital;
- (d) A detoxification center;
- (e) A substance abuse clinic; or
- (f) A substance abuse in-patient facility (La. R.S. 28:53(L), ChC. Art. 1433).

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.25.1

### TITLE: CRISIS INTERVENTION – MOBILE CRISIS RESPONSE SERVICES

**EFFECTIVE: 8/27/2023**

**REVISED: New Policy**

---

#### PURPOSE

1. Calls for service regarding persons experiencing mental health emergencies should receive service that is aligned with best practices while not elevating risks to first responders, the subject of the emergency, and the public. The goal is to provide the most appropriate care.
2. The New Orleans Police Department (NOPD) shall support the City of New Orleans in providing mobile crisis response services to residents and visitors experiencing a mental health emergency. Through a professional services contract managed by the New Orleans Health Department, Resources for Human Development (RHD) will provide 24/7 mobile crisis triage and response to calls for service that meet the established contract criteria.
3. During all encounters, NOPD members will consider whether the individual may be in crisis. The ideal resolution for a person in crisis incident is that the individual is diverted from the criminal justice system and connected with resources that can provide long-term stabilizing support. (See: **Chapter 41.25 – Crisis Intervention**)

#### DEFINITIONS

**Crisis**—An incident in which someone is experiencing intense feelings of personal distress (e.g., anxiety, depression, fear, anger, panic, hopelessness), obvious changes in functioning (e.g., neglect of personal hygiene, unusual behavior), or catastrophic life events (e.g., disruptions in personal relationships, support systems, or living arrangements; loss of autonomy or parental rights; victimization; natural disasters), which may, but not necessarily, result in an upward trajectory or intensity culminating in thoughts or acts that are possibly dangerous to his or herself and/or others.

**Crisis intervention**—The attempt by a member to de-escalate an encounter with an individual in crisis and return the individual to a pre-crisis level or divert the person to other services when appropriate.

**Crisis Intervention Team (CIT)**—The Crisis Intervention Team is composed of certified officers who respond to persons in crisis, with the objective of diverting them from the criminal

justice system and connecting them to appropriate mental health and substance use treatment services.

**CIT officer**—A commissioned member of the NOPD who has volunteered, been selected, received 40 hours of specialized training for crisis-related calls for service, and been certified as a Crisis Intervention Team officer. In addition to their regular duties, CIT officers are specifically assigned as primary responders to crisis disturbance calls. CIT officers are assigned to each NOPD district and maintain their standard patrol duties except when called to respond to potential crisis events. CIT officers work in cooperation with community partner mental health facilities and organizations.

**Dangerous to others**—The condition of a person whose behavior or significant threats supports a reasonable expectation that there is a substantial risk that he or she will inflict physical harm upon another person in the near future (La. R.S. 28:2(3), ChC. Art 1404(3)).

**Dangerous to self**—The condition of a person whose behavior, significant threats, or inaction supports a reasonable expectation that there is a substantial risk that he or she will inflict physical or severe emotional harm upon his or her own person (La. R.S. 28:2(4), ChC. Art 1404(4)).

**Individual in crisis**—An individual in a state of crisis (see **Crisis** under **Definitions**). The individual in crisis is referred to as the “consumer” on the Crisis Intervention Form.

**Mental Illness**—A mental illness is a condition that impacts a person's thinking, feeling or mood and may affect his or her ability to relate to others and function on a daily basis. Refer to La.R.S. 28:2(20) and ChC. Art 1404(17) for state definitions.

**MOBILE CRISIS RESPONSE UNIT (MCRU)** - a team of mental health care professionals employed by Resources for Human Development (RHD) working under contract for the City of New Orleans who are tasked with responding to calls involving persons suffering from a mental health crisis. This unit is authorized to provide mental health services to citizens in need of care under an existing contract with the City of New Orleans Health Department.

**Receiving facility**—For the purposes of this Chapter, receiving facility refers to any screening and treatment facility that can provide a mental health examination.

#### **GUIDELINES FOR MOBILE CRISIS RESPONSE UNIT (MCRU)**

4. The mobile crisis response program is administered using the following guidelines:
  - a) All calls for service shall be created and managed in the computer-aided dispatch (CAD) system by OPCD.
  - b) Resources for Human Development (RHD) shall have access to the computer-aided dispatch system to receive pertinent information about the call for service.
  - c) To ensure responder safety, OPCD and RHD staff shall ensure the movement and status of their responding units is documented in the computer-aided dispatch system.
  - d) OPCD shall make the data related to calls for service available to the management team of all stakeholder agencies.

#### **COMMUNICATIONS SERVICES RESPONSIBILITIES**

5. Calls for service relative to mental health emergencies may be received from various mechanisms to include 9-1-1 calls, non-emergency calls, and requests from first responders in the field.
6. **Responders on scene** from the New Orleans Police Department, New Orleans Fire Department or New Orleans Emergency Medical Services **may request the Mobile Crisis Response Unit (MCRU) to their location** should they determine

- that is the more appropriate care on scene. MCRU shall make the final assessment on the appropriateness or suitability of their response.
7. NOPD members requesting a mobile crisis team response shall do so using their mobile radio to OPCD on the primary dispatch channel of the District in which they are operating.
  8. Upon receiving a call for service from OPCD or a request from NOPD unit(s) on the scene, the Mobile Crisis Response Unit will conduct a more detailed assessment to determine if they are the appropriate entity to respond. If it is determined by MCRU that the call for service does not meet the criteria for their response, or there is a more immediate threat and the most appropriate response is to dispatch NOPD, NOEMS and/or NOFD, they will notify OPCD immediately and the appropriate incidents shall be created in the computer-aided dispatch system.
  9. The quality of information gathered by officers on the scene can affect the way MCRU responds to and resolves a request from field units to respond. Gathering information is critical at all stages in assessing the situation but is particularly critical at the beginning.
  10. The Table below provides guidance and information on how OPCD and MCRU classifies response responsibilities by agency for dispatch.

**Incident Types in Computer Aided Dispatch System  
(Who will be dispatched by OPCD)**

Incident Type	Description	NOPD	NOEMS	NOFD	RHD/MCRU
SUIA (29SA)	Suicide Attempt	X	X	X	
SUIT (29ST)	Suicide Threat	X			
MENTAL	Violent Mental Person	X			
CIT	Non-Violent Mental Person	X			
MCR	Mobile Crisis Response Unit				X

11. Prior to requesting MCRU for an on-scene “hand-off” and to properly address the situation, officers will attempt to determine:
  - a) The severity of the behavior;
  - b) The potential for rapid change in behavior;
  - c) The potential for physical danger presented by the person in distress to himself/herself or others;
  - d) Harmless behavior which appears to be related to an illness, disorder, or disability; and
  - e) Indication of urgent mental health needs.
12. Once the on-scene assessment is done and officers have determined that the individual is not an immediate threat to themselves or others and relatively stable, they may request MCRU for an on-scene “hand-off” if they are available. This will be done through the OPCD Dispatcher on the District talk group.
13. MCRU will only accept “hand-offs” from NOPD officers on the scene in those cases where it is safe for them to do so. The MCRU is the final determinant of the viability for an on-scene “hand-off”.

14. If the “hand-off” is accepted by MCRU, NOPD officers can clear from the scene and mark their efforts as REF (“Referred to other agency”) with the OPCD Dispatcher and provide the MCR Unit number (i.e., REF with MCU11). No documentation (CIT Form, FIC, EPR, etc.) needs to be completed by NOPD for calls handed off to MCRU.

### **CRISIS INTERVENTION FORM AND INCIDENT DOCUMENTATION**

15. Upon completion of a crisis intervention incident involving a 103M, 29ST or 29SA, or any other signal in which a CIT officer is specifically dispatched for crisis intervention purposes, the CIT officer or responding officer shall complete and submit the electronic Crisis Intervention Form (Form #348). Officers do not need to complete a Crisis intervention Form on gone on arrival (GOA) calls. An FIC is only required if the CIT encounter stems from a self-initiated stop or other presumptive criminal investigation. (See: **Chapter 41.12 – Field Interview Cards**).
16. Protected Health Information (PHI) contained on CIT Forms and databases are restricted to the CIT Program Coordinator. PHI shall not be shared internally or externally except as authorized by law or a court order.

### **CALL DISPOSITIONS**

17. Classifications of calls for service involving 103M, 29ST, 29SA, or any other signal in which a CIT officer is specifically dispatched for crisis intervention purposes must be marked up according to the guidelines of **Chapter 82.4 – Complaint Signals – Changing of Item Signals and Dispositions** when they cannot be referred to MCRU.

### **BODY WORN CAMERA**

18. Officers shall utilize body worn cameras in accordance with **Chapter 41.3.10 – Body Worn Cameras** to document the entirety of the event, from arrival up to and including the transfer of the individual to Central Lock-Up or a receiving facility.

### **TRAINING**

19. The Captain of the Education and Training Division or his/her designee shall develop a plan for training officers who respond to crisis intervention calls which are handled by MCRU in accordance with this Chapter and Department policy. Training will reflect changes in policy, law, and developments in best practices over time.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.26

### TITLE: CRISIS TRANSPORTATION SERVICE

**EFFECTIVE: 03/16/2016**

**REVISED:**

---

#### PURPOSE

The purpose of this Chapter is to define the responsibilities of the Crisis Transportation Service (CTS) in assisting officers in responding to crisis intervention calls.

#### POLICY STATEMENT

1. Individuals in crisis will be treated with dignity and will be given access to the same law enforcement, government, and community service provided to all members of the public. The Department recognizes that many people experience crises and do not commit crimes.
2. The primary objectives in processing crisis intervention calls shall be to restore order and to protect all parties from injury. NOPD recognizes the need to bring community resources together for the purpose of safety and to assist and resolve crises. Individuals in crisis shall be handled in a manner that is consistent with **Chapter 41.25 – Crisis Intervention**.

#### DEFINITIONS

**Authorized Restraining Device**—Restraining devices that have been specifically authorized by the CTS program director. The following restraints are approved for use by CTS: (a) Humane Restraint Locking Polyurethane Ambulatory Restraints MNDL-101-POLY or equivalent; and (b) Humane Restraint Polyurethane Ankle Hobble AD-305-POLY or equivalent.

**Crisis**—An incident in which someone is experiencing intense feelings of personal distress (e.g., anxiety, depression, fear, anger, panic, hopelessness), obvious changes in functioning (e.g., neglect of personal hygiene, unusual behavior), or catastrophic life events (e.g., disruptions in personal relationships, support systems, or living arrangements; loss of autonomy or parental rights; victimization; natural disasters), which may, but not necessarily, result in an upward trajectory or intensity culminating in thoughts or acts that are possibly dangerous to his or herself and/or others.

**Crisis Intervention Team (CIT)**—The Crisis Intervention Team is composed of certified officers who respond to persons in crisis, with the objective of diverting them from the criminal justice system and connecting them to appropriate mental health and substance use treatment services.

**CIT officer**—A commissioned member of the NOPD who has volunteered, been selected, received 40 hours of specialized training for crisis-related calls for service, and been certified as a Crisis Intervention Team officer. In addition to their regular duties, CIT officers are specifically assigned as primary responders to crisis disturbance calls. CIT officers are assigned to each NOPD district and maintain their standard patrol duties except when called to respond to potential crisis events. CIT officers work in cooperation with community partner mental health facilities and organizations. Refer to **Chapter 41.25 – Crisis Intervention** for more information.

**Crisis Transportation Service (CTS)**—The Crisis Transportation Service is an emergency transportation van staffed by civilian volunteer personnel (CTS Technicians). The Crisis Transportation Service is authorized by the Superintendent to assist patrol units in processing and transporting individuals in crisis who are not under arrest. The Crisis Transportation Service will generally be available seven days a week from 10:00 A.M. until midnight.

**CTS technicians**—Civilian volunteers who assist Crisis Intervention Team (CIT) officers or other commissioned members in processing and transporting individuals in crisis.

**Individual in crisis**—An individual in a state of crisis (see **Crisis** under **Definitions**). The individual in crisis is referred to as the "consumer" on the Crisis Intervention Form.

### PROGRAM OVERVIEW

3. The CTS is staffed by civilian volunteer personnel (CTS technicians). CTS shall be managed by a program director who may be a commissioned or civilian member of the NOPD.
4. The CTS assists CIT officers or other commissioned members in processing and transporting individuals in crisis who do not have criminal charges pending.
5. Dependent upon volunteer staffing availability, CTS will be available seven days a week from 10:00 A.M. until 12:00 (midnight).

### OFFICER INSTRUCTIONS

6. Officers may utilize the CTS to transport persons who are not under arrest, do not have a medical condition requiring treatment, and are not injured or complaining of injury (see **Chapter 41.25 – Crisis Intervention**).
7. CTS technicians are not commissioned members and are not armed. CTS technicians respond to requests from officers in an **assistance capacity only** and are not equipped to deal with situations requiring training in police techniques.
8. Officers **must accompany** CTS when CTS is transporting the individual.
9. Individuals in crisis should be restrained only when necessary to protect the individual or others from harm. Where restraints are necessary, only authorized restraining devices may be used.
10. Officers and CTS technicians shall remain with the individual(s) at the treatment facility until the facility has assumed responsibility for the individual(s).
11. Officers shall document the use of CTS on a Crisis Intervention Form (Form #348) and in all other Department reports required due to the nature of the incident.

**CTS UNIT INSTRUCTIONS**

12. The CTS unit shall advise Communications Services that it is in service at the beginning of its tour of duty. The CTS unit shall advise the dispatcher of any special assignments that may exist.
13. The CTS unit shall monitor and be based on the working dispatch group assigned by Communication Services at the beginning of its tour of duty. Once dispatched, the CTS unit shall notify Communications Services that it is changing talk groups to the appropriate group for the District of the location of the call for service.
14. The CTS unit shall proceed to the location of the call for service to assist district units when requested. The CTS unit shall keep the Communications Services dispatcher for the location of occurrence advised of its status upon arrival, transport, and completion of assignment.
15. CTS shall not respond directly to the scene until an officer has secured the scene (Code 4). CTS shall wait at a safe location close to the scene until a Code 4 has been broadcast.
16. The CTS units will respond and transport only on a Code 1 basis, obeying all traffic laws.
17. All individuals transported by CTS must be secured with the vehicle's seatbelt prior to transportation.
18. Restrained individuals shall not be left unattended. An officer or CTS technician shall remain in the presence of the restrained individual at all times.
19. CTS technicians shall use only restraining devices that have been specifically authorized by the CTS program director. The following restraints are approved for use by CTS:
  - (a) Humane Restraint Locking Polyurethane Ambulatory Restraints MNDL-101-POLY or equivalent; and
  - (b) Humane Restraint Polyurethane Ankle Hobble AD-305-POLY or equivalent.
20. CTS personnel shall be trained in the use of all authorized restraining devices.
21. CTS shall not transport individuals who are under arrest, have a medical condition requiring treatment, or are injured or complain of injury (see **Chapter 41.25 – Crisis Intervention**).
22. CTS shall complete a CTS activity sheet that shall be reviewed and filed by the CTS program director.
23. CTS shall return to the working dispatch group assigned by Communications Services at the beginning of its tour of duty upon completion of the call for service.

**CTS UNIT INSTRUCTIONS WHEN ONLY ONE INDIVIDUAL IS OPERATING THE VAN**

24. The CTS is generally staffed by two crisis transportation technicians. When personnel shortages occur, CTS may be staffed by one crisis technician.
25. If transport is determined to be necessary, the officer shall:
  - (a) Transport the individual in accordance with **Chapter 41.25 – Crisis Intervention**

- in the police unit to the receiving facility, where the CTS technician shall assist officers in transferring custody to the receiving facility; **or**  
(b) Ride with CTS to deliver the individual to the receiving facility.

26. Under no circumstances will a CTS van staffed by a single person transport an individual without an officer present.

### **COMMUNICATIONS**

27. Communications Services shall notify the CTS unit of any calls for service involving an individual in crisis or when requested by an officer on the scene of an incident involving an individual in crisis.
28. Communications Services shall notify the CTS unit on the working dispatch group assigned by Communication Services at the beginning of its tour of duty and advise it to change channels to the working dispatch group for the location of occurrence.
29. Communications will inform an NOPD supervisor for the request of CTS and the supervisor will respond to the incident location if requested by an officer (per **Chapter 41.25 – Crisis Intervention**).

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.29

### TITLE: RIDE-ALONG PROGRAM / CIVILIAN OBSERVER

EFFECTIVE: 10/22/2017

REVISED: 12/20/20

---

#### PURPOSE

This Chapter sets guidelines for the application and authorization of civilian ride along observers or to further the interest of the Department.

*NOTE: Nothing in this policy shall be construed as negating the City of New Orleans' policy on the use of city vehicles under CAO Policy Memorandum No. 5(R).*

#### ELIGIBILITY FOR RIDE-ALONG AND CIVILIAN OBSERVERS

1. The NOPD ride-along/civilian observer program is offered to residents, students, news media representatives and those employed within the City.
2. Reasonable efforts should be made to accommodate any qualifying interested persons.
3. Participants must complete a NOPD **Request to Ride-Along Form (Form 352)** in order to participate in the Ride-Along/Civilian Observe program.
4. Any applicant may be disqualified from participating in the program. This program will be administered without discrimination on the basis of race, color, ethnicity, national origin, religion, gender, disability, sexual orientation, or gender identity. Factors that may be considered in disqualifying an applicant include, but are not limited to:
  - (a) Prior criminal history.
  - (b) Pending criminal action.
  - (c) Pending lawsuit against the Department or City.
  - (d) Denial by the Superintendent of Police, the City Attorney's Office or any police supervisor before or during a ride-along.

#### PROCEDURE TO REQUEST A RIDE-ALONG

5. Ride-along requests will be scheduled by the Office of the Superintendent through the Public Affairs Office.
6. Individual requests for a ride along for special circumstances shall be submitted to the

Office of the Superintendent by the requesting individual at least thirty (30) days prior to the proposed date stating the special circumstance. Written requests shall be approved by the Superintendent of Police and the City Attorney's Office as deemed acceptable.

7. Authorization for this activity cannot be granted by any other authorities.
8. After obtaining written permission from the Superintendent of Police and the City Attorney's Office, the ride-along participant shall deliver the written permission to the Public Affairs Office.
9. The Public Affairs Office shall notify the division or District Captain of the date and time the participant will arrive to participate in the ride along.
10. The participant shall complete and sign the **Indemnity, Defense, and Hold-Harmless Agreement (Form #279)** prior to the start of the ride along. If the participant is under 18 years of age, a parent/guardian must be present to complete the form.
11. The participant must deliver the completed form to the Platoon Commander where he/she is directed to report. The original shall be filed in the Public Affairs Office, with a copy to be filed by the Platoon Commander where the individual participates as in the ride-along.
12. If the ride-along is denied after the request has been made, a representative of the Department will contact the applicant and advise him/her of the denial.

#### **PROGRAM REQUIREMENTS**

13. Once approved, participants will be allowed to ride no more than once every six months. An exception would apply to the following:
  - (a) NOPD Police Explorers,
  - (b) Community volunteers working with the NOPD,
  - (c) Police Chaplains,
  - (d) Police Reserves,
  - (e) Police Auxiliary, and
  - (f) Police Recruit or civilian applicants with approval of the Superintendent of Police.
14. An effort will be made to ensure that no more than one person will participate in a ride-along with an individual officer during any given time period. Normally, no more than one participant will be allowed in the officer's vehicle at a given time.

#### **SUITABLE ATTIRE**

15. Any person approved to ride-along is required to be suitably dressed in a collared shirt, blouse or jacket, slacks and shoes. Sandals, T-shirts, tank tops, shorts and ripped or torn blue jeans are not permitted.
16. Hats and ball caps will not be worn in the police vehicle.
17. The Platoon Commander or field supervisor may refuse a ride-along to anyone not properly dressed.

#### **PEACE OFFICER RIDE-ALONGS**

18. Off-duty members of this department or any other law enforcement agency will not be permitted to ride-along with on-duty officers without the express consent of the Platoon

Commander.

19. In the event that such a ride-along is permitted, the off-duty employee shall not be considered on-duty and shall not represent him/herself as a peace officer or participate in any law enforcement activity except as emergency circumstances may require.

#### **RIDE-ALONG CRIMINAL HISTORY CHECK**

20. All ride-along applicants are subject to a criminal history check. The criminal history check may include a local, Louisiana Computerized Criminal History (LACCH) and National Crime Information Center (NCIC) criminal history check prior to approval as a ride-along participant (provided that the participant is not already a member of the NOPD).

#### **OFFICER'S RESPONSIBILITIES**

21. The officer shall advise the OPCD dispatcher that a ride-along participant is present in the vehicle before going into service. Officers shall consider the safety of the participant at all times.
22. Officers should use sound discretion when encountering a potentially dangerous situation, such as gunfire or a high-speed pursuit. If practicable, the participant should be let out of the vehicle in a safe, well-lit place. The dispatcher will be advised of the situation and the location the participant is let out and as soon as practicable have another police unit respond to pick up the participant at that location. The ride along may be continued or terminated at this time.
23. Conduct by a person participating in a ride along that results in termination of the ride or is otherwise inappropriate should be immediately reported in writing, documented in an inter-office correspondence, to the Superintendent of Police through the chain of command and forwarded to the City Attorney's Office and the Public Affairs Office.
24. The Public Affairs Office is responsible for maintaining and scheduling ride alongs.

#### **CONTROL OF RIDE-ALONG**

25. The officer shall maintain control over the participant at all times and instruct him/her in the conditions that necessarily limit participation. These instructions should include the following:
  - (a) The participant will follow the directions of the officer.
  - (b) The participant shall not be armed with any type of weapon.
  - (c) The participant will not become involved in any investigation, handling of evidence, discussions with victims or suspects, or handling any police equipment.
  - (d) The participant may terminate the ride at any time and the officer may return the observer to his/her home, the place of the ride origin or to the station if the participant interferes with the performance of the officer's duties.
  - (e) Ride-along participants may be allowed to continue riding during the transportation and booking process, provided this does not jeopardize his/her safety.
  - (f) Officers will not allow any participant to be present in any residence or situation that would jeopardize his/her safety or cause undue stress or embarrassment to a victim or any other person.
  - (g) A civilian participant shall not be permitted to enter a private residence with an officer without the express consent of the resident or other authorized person.

**NEWS MEDIA**

26. Requests received from the news media for ride-alongs to gather information concerning the department or its employees shall follow the requirements of this policy. Upon approval, these requests shall be coordinated with the Public Affairs Office.
27. All requests for information or interviews received by a member from a media representative shall be routed to the Public Affairs Office for processing and approval.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.31

### TITLE: DAMAGE TO PUBLIC PROPERTY

**EFFECTIVE: 08/05/2018**

**REVISED: Replaces Policy 472**

---

#### PURPOSE

The purpose of this Chapter is to establish guidelines for the documentation of damage to public property that is not in the immediate control of the New Orleans Police Department.

#### DEFINITIONS

**Public Property**—Any item owned by, or in the immediate control of, a governmental entity or agency, to include city, state, or federal governing bodies or any subdivision thereof. For the purpose of this Chapter, the term property will also include any database or software where records are stored or generated, including the computer programming causing the mechanism to function properly.

#### INSTRUCTIONS/DOCUMENTATION

1. All calls for service being investigated by the New Orleans Police Department, where public property has been damaged, either through accident or criminal intent, shall be documented using an NOPD Incident Report (EPR) or Motor Vehicle Crash Report.
2. The governmental authority and agency in immediate custody or control of the public property shall be listed as the "victim/owner" within the report (examples: State of Louisiana, Department of Public Welfare, City of New Orleans, Streets Department).
3. The damaged public property will be described as accurately as possible, including the color, model, make, serial numbers, property tag numbers, or any other alpha/numeric identifiers utilized for identification purposes.
4. Should the damaged public property not include alpha/numeric identifiers, the description shall be as complete as possible (example: A building on publically owned property not bearing a municipal address should be described as follows: A one story brick building color red within the boundaries of City Park visible from the intersection of Marconi and Harrison Ave.).
5. Damage to the public property shall be specifically outlined to include any obviously missing components or materials.
6. A copy of the approved report shall be forwarded to the appropriate governmental

agency responsible for the property. A copy attached to a departmental email is preferred to mailing a hard copy.

7. If the damaged public property is in the control of the City of New Orleans, an additional copy of the report shall be forwarded to the City Attorney's Office. A copy attached to a departmental email is preferred to mailing a hard copy.

#### **NOTIFICATIONS**

8. The investigating officer shall notify the governmental agency responsible for the damaged public property prior to concluding the report and investigation. The notification shall be documented within the report to include the date, time, method used and the name of the individual notified.

#### **SCIENTIFIC CRIMINAL INVESTIGATIONS SECTION (CRIME LAB)**

9. Nothing in this Chapter shall prevent an officer from requesting Crime Lab to photograph and process the scene in criminal investigations involving public property damage or in instances of excessive public property damage where additional documentation is desired.

#### **SECURING DAMAGED PROPERTY**

10. Investigating officers will take all reasonable steps to secure the public property from further damage during the course of the investigation. If the public property is impounded as property or evidence, it shall be secured and logged to the Central Evidence and Property Division.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.33

### TITLE: DEATH INVESTIGATIONS

**EFFECTIVE: 04/15/2018**

**REVISED: Replaces Policy/Procedure 360**

---

#### PURPOSE

The thoroughness of death investigations to include evidence gathering and witness identification is paramount. This Chapter provides guidelines on death investigations.

#### POLICY STATEMENT

1. The investigation of cases involving a death includes those ranging from natural causes to homicide. Some causes of death may not be readily apparent, and some cases differ substantially from what they appear to be initially.
2. All incidents involving a death shall be documented in an incident report (EPR).
3. In cases of a duty related death of an NOPD member, a death from an officer's use of force or an in-custody death, PIB shall be contacted immediately and **Chapter 1.3.2 – Force Investigation Team** applies.

#### DEFINITIONS

**Coroner's Office**—The medical examiner for the State of Louisiana whose role includes (R.S. 13:5717) retention of decedent's personal effects; moving or disturbing the body of a deceased person; prohibitions including: it shall be unlawful for any person without specific authorization from the coroner or his designee, other than law enforcement or medical personnel, to touch, move, or disturb the body of a deceased person or remove any personal effects or disturb the immediate area where the body is or has been found, if the deceased person's death occurred under any circumstances which reasonably suggest that the person's death, either directly or indirectly, occurred as a result of a violation of law or a coroner's case as defined by law. However, the body may be moved if it is necessary for the preservation of the body, or if necessary to protect public safety or welfare.

#### DEATH INVESTIGATION CONSIDERATIONS

4. Death investigation cases require certain actions be taken. Emergency Medical Services shall be called in all suspect cause death cases, unless the cause of death is obvious (e.g., the person has been decapitated).
5. Investigators are not authorized to "pronounce death." An investigating member shall

notify his/her supervisor in all death investigations. The District investigating officer's supervisor shall respond to the scene when notified.

### REQUEST FOR MEDICAL EXAMINER / CORONER

6. The office of the Medical Examiner (Coroner's Office) shall be notified through Communications Services and provided with known facts concerning the time, place, manner and circumstances of the death involving **any** of the following circumstances (**R.S. 13:5712; C. Cr. P. 101**):
  - (a) Violent death by homicide, suicide or accident.
  - (b) Death from thermal, chemical, electrical or radiation injury.
  - (c) Death from criminal abortion, including any situation where such abortion may have been self-induced.
  - (d) Death from a disease which may be hazardous or contagious or may constitute a threat to the health of the general public or when a person dies.
  - (e) When the death was sudden and happened to a person who was in apparent good health.
  - (f) Where no physician, chiropractor or accredited Christian Science practitioner is in attendance within the 36-hour period immediately preceding death.
  - (g) While in the **custody of law enforcement officials** or while incarcerated in a public institution. (See also: **Chapter 1.3.2 – Force Investigation Team**).
  - (h) Death from external violence or unexplained cause or under suspicious circumstances.
  - (i) When a death occurs outside a licensed health care facility and a member of the NOPD is the first official to learn of the death.

### SEARCHING DEAD BODIES

7. The Coroner, Assistant Medical Examiner, or authorized Coroner's Investigator are generally the only persons that should move, handle or search a body. These Coroner's Office representatives may take property, objects or articles found on the deceased or in the deceased's immediate vicinity that may be necessary for conducting an investigation to determine the identity of the deceased or the cause or manner of death. The Coroner's Office shall inventory the body on scene.
8. Should exigent circumstances indicate to an investigating officer that a search of a dead body is warranted **prior** to the arrival of the Coroner's Office representative, the investigating officer should, when reasonably possible, first obtain verbal consent from the Coroner's Office.
9. Whenever reasonably possible, a witness (preferably a relative of the deceased or a member of the household) should be requested to remain near the scene and available to the investigating officer pending the arrival of the Coroner's Office representative. The name and address of this person shall be included in the narrative portion of the incident report (EPR).

### DEATH NOTIFICATION

10. When reasonably possible, and if not handled by the Coroner's Office, notification to the next-of-kin of the deceased person shall be made, in person, by the officer assigned to the incident and a supervisor (**R.S. 13.5714**).
11. If the next-of-kin lives in another jurisdiction, a law enforcement official from that jurisdiction shall be requested through Communications Services to make the personal notification.

12. If the relative lives outside of the United States, the Coroner's Office shall be requested to make the notification.
13. In the event a representative of NOPD has made the notification, the Coroner's Office shall be notified that the notification has been made.
14. If a deceased person has been identified as a missing person, this department shall attempt to locate family members and inform them of the death and location of the deceased missing person's remains. All efforts to locate and notify family members shall be recorded in appropriate reports and properly retained. (See also: **Chapter 41.23 – Missing Person Reporting**).

#### **UNIDENTIFIED BODIES – DATA ENTRY**

15. As soon as reasonably possible, but no later than 30 working days after the date a death is reported to the Department, all available identifying features of the unidentified body, including dental records, fingerprints, any unusual physical characteristics and a description of clothing or personal belongings found on or with the body, should be forwarded to the LSU FACES Laboratory in Baton Rouge by the investigating officer for entry into the Louisiana state database and the National Crime Information Center (NCIC) file. The FACES Lab can be contacted at [faces@lsu.edu](mailto:faces@lsu.edu) or 225-578-4761.

#### **SUSPECTED HOMICIDES**

16. If the initially assigned officer suspects that the death involves a homicide or other suspicious circumstances surround the cause of death exist, the officer shall take all necessary steps to protect the scene and isolate possible witnesses.
17. The officer shall notify the ISB - Homicide Section through Communications Services to request that a Homicide investigator respond to the scene for further investigation.
18. The officer shall notify his/her supervisor and request additional officers, units, equipment or support services as appropriate. The District investigating officer's supervisor shall respond to the scene when notified.
19. The assigned officer or detective investigating a homicide or a death under suspicious circumstances shall request the Coroner through Communications Services and document the request in the incident report (EPR).

#### **EMPLOYMENT RELATED DEATH OR INJURY**

20. Any member of this department who responds to a call and determines that a death, serious illness or serious injury has occurred as a result of an accident at or in connection with the victim's employment shall document the incident in a report (EPR) and ensure that the regional Occupational Safety and Health Administration (OSHA) office is notified by telephone or teletype with all pertinent information.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.34

### TITLE: ANIMAL CONTROL

**EFFECTIVE: 12/10/2017**

**REVISED: Replaces Policy 820**

---

#### PURPOSE

The purpose of this Chapter is to establish guidelines for New Orleans Police Department personnel in dealing with calls related to animal control and to set forth procedures regarding animal control services, the handling of injured animals, and the abatement of animal nuisances.

#### POLICY STATEMENT

1. The Louisiana Society for the Prevention of Cruelty to Animals (SPCA) is responsible for impoundment of animals in violation of city ordinances.
2. Requests for assistance by the SPCA shall be acknowledged and responded to promptly by officers.

#### OFFICER RESPONSIBILITIES

3. Animal-related calls for service will be handled by the appropriate District patrol officer until responded to by the SPCA.
4. Officers may be dispatched to animal-related calls and should take appropriate actions to control the situation until the arrival of the SPCA.
5. Due to the hazards of handling animals without proper equipment, responding officers should not attempt to capture and/or pick up any animal without the SPCA when possible.
6. An officer may consider acting before the arrival of the SPCA when:
  - (a) There is a threat to public safety.
  - (b) An animal has bitten someone (Officers should take measures to confine the animal and prevent further injury).
  - (c) An animal is creating a traffic hazard.
  - (d) The owner/handler has been arrested, and there is no other alternative placement for the animal.
  - (e) An animal is gravely injured.

**ANIMAL CRUELTY COMPLAINTS**

7. Officers shall conduct a preliminary investigation on all reports of animal cruelty and immediately forward the information on legitimate animal cruelty complaints to the SPCA for investigation.
8. Officers shall take any immediate and reasonable actions necessary to prevent the perpetration of any act of cruelty to animals in his/her presence.

**STRAY ANIMALS**

9. The decision to impound an animal shall be made by the representative of the SPCA on the scene. If a violation of a city ordinance has occurred, the investigating officer shall be responsible for conferring with the SPCA representative to ensure a summons is issued.
10. If an animal has a license/tag or can otherwise be identified, the SPCA is responsible for making reasonable attempt(s) to contact the owner and releasing the animal to the owner's custody.

**ANIMAL BITES TO HUMANS**

11. In handling complaints where humans have been bitten by an animal, officers shall obtain as much information from the victim/witnesses, including name and address, and complete an incident report for forwarding to the SPCA for follow-up.
12. Where the owner of an animal injuring an individual is known, the name, address and date of birth of the owner shall be contained in the incident report. The name of the owner of the animal shall be given to the victim by the investigating officer.
13. Officers shall instruct an owner of a biting animal, if contacted, to keep the animal confined on the property until contacted by the SPCA.
14. If the biting animal is a stray, officers shall contact Communication Services, who shall notify the SPCA. Officers shall remain on the scene until the SPCA arrives.
15. Unless equipped with appropriate expertise and safety equipment, members responding to incidents involving vicious or rabid animals should remain at a safe distance and request the assistance of the SPCA.

**PUBLIC NUISANCE CALLS RELATING TO ANIMALS**

16. The public nuisance complaint call relating to an animal shall be handled by the APR Unit or referred to "311" by APR if appropriate.
17. District patrol officers on the scene of a public nuisance call relating to an animal shall obtain and forward to the SPCA as much information as possible regarding the nature of the complaint, the complaining person, owner information (if possible) and location of the problem.
18. Officers shall document any actions on an FIC card if no incident report is required.
19. All item numbers for incident reports involving public nuisance calls relating to animals shall be forwarded by email to the SPCA by the reviewing / approving supervisor.

**ANIMAL REMAINS ON PUBLIC PROPERTY**

20. Officers on the scene of incidents of dead animals on public property shall request removal of the animal remains by the Department of Sanitation through Communication Services.
21. Calls to Communications Services involving incidents of dead animals on public property shall refer the caller or the request for removal of the animal remains by the Department of Sanitation to the Call 311 center or to the Department of Sanitation directly.

**INJURED ANIMALS**

22. When any injured domesticated animal is brought to the attention of a member of the department, all reasonable attempts shall be made to contact the owner or responsible handler. When the owner or responsible handler cannot be located and the animal is not an immediate danger to the community, the SPCA shall be notified. If a veterinary hospital is near, the officer(s) may relocate the animal to the veterinary hospital with the hospital's/veterinarian's permission.
  - (a) Injured or deceased wildlife (not pets or domesticated animals) should be referred to the Louisiana Department of Wildlife and Fisheries (LDWF).
  - (b) When handling deceased or injured animals, department employees shall attempt to identify and notify the owner of the disposition of the animal.
  - (c) Each incident shall be documented, at minimum, to include the name of the reporting party and veterinary hospital and/or person to whom the animal is released. If the SPCA is unavailable, the information will be forwarded for follow-up.

**CITATIONS**

23. If a violation of a city ordinance has occurred involving an animal, the investigating officer shall confer with the SPCA representative to ensure that a summons is issued or appropriate action is taken. Officers issuing citations for cruelty or dangerous/vicious animals shall contact the SPCA.

**POST-ARREST PROCEDURES**

24. The arresting officer should make a reasonable effort to ensure that animals or pets under a person's care will be provided with adequate care when that person is arrested. This is only required when there is no person to provide care and the arrestee may be in custody for a time period longer than would reasonably allow him/her to properly care for the animals. In all other circumstances, the SPCA shall be contacted to pick up the animal and the owner advised.
25. Relatives or neighbors may be contacted, with the owner's consent, to care for the animals. If no persons can be found or the owner does not consent, the appropriate animal control authority should be notified.

**SEARCH WARRANTS**

26. When officers of the department are serving a search warrant at a location where animals are known to be present, the officers should contact the SPCA and request assistance with the service of the search warrant.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.36

### TITLE: INTERACTING WITH HOMELESS PERSONS

**EFFECTIVE: 03/26/2017**

**REVISED: Replaces Policy/Procedure 475**

---

#### PURPOSE

The purpose of this Chapter is to ensure that all criminal laws and municipal ordinances are enforced equally regardless of housing status. Individuals commonly referred to as “homeless” are entitled to equal protection of all federal, state and local laws and ordinances.

#### POLICY STATEMENT

1. It is the policy of this Department to be sensitive to the needs and rights of homeless persons and provide appropriate law enforcement services to the entire community while protecting the rights, dignity and personal property of the homeless population.

#### DEFINITIONS:

Definitions relevant to this Chapter include:

**Homeless person**—An individual who lacks a fixed, stable, and adequate residence. This includes a primary nighttime residence that is:

- (a) A publicly or privately operated shelter designed to provide temporary living accommodations;
- (b) An institution that provides a temporary residence for individuals intended to be institutionalized and the person does not have a permanent residence to return to upon discharge; or
- (c) A private place not designed for, or ordinarily used as a regular sleeping accommodation for human beings.

#### GENERAL PROVISIONS

2. Individuals have the right to choose not to live in a fixed residence. Although homelessness can result from a wide range of reasons and may be accompanied by physical or mental illness, it is not illegal to be homeless. Accordingly, an individual's status as homeless is not, alone, cause for law enforcement action. Conversely, an individual's status as homeless does not exempt them from complying with applicable laws.
3. Violations affecting the public health and safety of individuals such as exposing oneself, urinating, or defecating in public shall be enforced. Intoxicated individuals, and those

under the influence of drugs, shall be processed as per current departmental policy on arrests and summons.

4. Actions (non-criminal) committed by individuals that lead an officer to question the mental state of an individual, and to reasonably believe the individual is a danger to himself or others, shall be processed in accordance with the Department's policies regarding persons believed to be suffering from mental illness (See **Chapter 41.25—Crisis Intervention**).
5. Officers encountering individuals who may or may not be mentally unstable, whose appearance and/or actions indicate the individual is unable to care for himself or herself, but who does not appear to be a danger to himself/herself or others shall contact one of the social services agencies listed in this Chapter for assistance.
6. Officers may transport such individuals to the nearest shelter. If a homeless person refuses an officer's offer of assistance, the officer shall not force the individual to enter the shelter, subject to the provisions of the policy governing persons believed to be suffering from mental illness (See **Chapter 41.25—Crisis Intervention**). Officers shall not threaten individuals experiencing homelessness with arrest or citation as an inducement to accept assistance.
7. When the city initiates a freeze alert or an inclement weather alert, officers encountering homeless persons shall inform the homeless person(s) of the location of the nearest shelter(s). If the individual is unable to get to shelter and the officers' duties permit, officers may transport the person. If the individual refuses shelter, the officer shall follow **Chapter 41.25—Crisis Intervention** to determine whether the individual may require an involuntary commitment and medical evaluation.
8. When documenting a Terry Stop of a homeless person in accordance with **Chapter 1.2.4.1—Stops/Terry Stops**, the word "Homeless" or "HL" shall appear in the address block of the card.

#### **PERSONAL PROPERTY OF HOMELESS PERSONS**

9. The personal property rights of homeless persons will be respected. Officers may allow homeless persons to take a limited amount of personal items, such as bedding, pillows, medications, medical devices, and clothing, with them when arrested on a criminal matter. If necessary for an officer to collect such items when a criminal arrest is made, consideration must be given to officer safety in handling the items as well as the health and safety of those who may come into contact with those items at Central Lock-up or when placed with the Central Evidence and Property Section. If necessary to dispose of personal property that has been contaminated, or presents a health and safety hazard (i.e., wet or damp items or items soiled with urine or fecal matter, etc.), a notation will be made in the Incident Report describing why such property was not retained. Such items may include perishables (food and open bottles, glasses, or cans), bed rolls, blankets, and pillows. All property of the arrested person shall be handled according to the Department's policy governing evidence (see **Policy 804 – Evidence and Property**).
10. Pets in the possession of, or belonging to, homeless persons cannot be taken to Central Evidence and Property. Officers shall contact the Louisiana Society for the Prevention of Cruelty to Animals at (504) 368-5191 when a homeless person with a pet or pets is arrested; the SPCA shall take custody of the animal(s).

**ILLEGAL CAMP SITES OR HOMELESS ENCAMPMENTS**

11. The removal of illegal encampments of homeless persons is the responsibility of the owner of the property, whether it is public or private. Generally, this is not a law enforcement issue (exceptions may include trespassing, illegal dumping, criminal investigations, etc. when enforcement action may be taken). When requested, officers may stand by to keep the peace but shall not participate in the removal and/or destruction of personal items from such encampments or prevent homeless persons from retrieving belongings from the area without a legitimate reason. Whenever possible, officers should encourage property owners to give posted notice of the pending activity prior to the clean-up.
12. All City of New Orleans government initiated clean-up activities relating to illegal camp sites on public property shall be coordinated through the respective District Commander and the participating City agencies. NOPD member participation shall be limited to providing site security and traffic control under direct NOPD supervision.

**HOMELESS ASSISTANCE UNIT**

13. The NOPD Homeless Assistance Unit (sponsored by Crescent City Outreach) provides police officers and the community at large with a resource to address homeless issues in any of the 8 police districts in New Orleans. The Unit responds to calls to assist homeless individuals by providing:
- (a) Information regarding available services to solve immediate as well as long-term needs, and
  - (b) Transportation to those services when appropriate.
14. The Homeless Assistance Unit collaborates with City agencies and various homeless service providers on a regular basis to assist with programs targeted to address the homeless population on a group level. Two important weekly commitments are the birth certificate and state ID programs. Also significant are the collaborations when the City activates the Freeze Plan, the Hurricane Shelter-in-place and Evacuation Plans.

**EMERGENCY SHELTERS, DAY PROGRAMS AND OUTREACH PROGRAMS**

15. Listed below are emergency shelters, day programs, and outreach programs presently available in New Orleans for homeless persons:

<b>ACC - Crescent House</b> <b>(Confidential Location)</b> (504) 865-0057, 866-7481 FAX (504) 865-0050 Capacity - 47 <i>Serving - unaccompanied women, single parent families - domestic violence victims free of substance abuse.</i>	<b>Baronne Street Housing</b> 2407 Baronne Street (504) 269-9311 Fax (504) 269-4986 Capacity - 48 <i>Serving - families with children, working at least 30 hours a week (unless disabled)</i>	<b>Bridge House Corporation</b> 4150 Earhart Boulevard (504) 522-4475 or 522-2124 ext. 14 Fax (504) 522-0342 Capacity - 75 <i>Serving - men ages 18 or older with an alcohol or drug problem.</i>

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.37

### TITLE: NOTIFICATIONS

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 476**

---

#### PURPOSE

The purpose of this policy is to establish a process for first responder notifications in emergency situations.

#### GENERAL

1. The first responsibility of officers upon arrival at any scene is to protect the life and safety of citizens.
2. If, upon arrival, officers find an individual that is in need of immediate medical attention or requests medical attention, he/she should notify his/her talk group dispatcher immediately. The talk group dispatcher has the responsibility of notifying EMS and/or NOFD, as appropriate.
3. If, upon arrival, officers find a hazard which needs attention of the fire department, the officer shall notify his/her talk group dispatcher immediately. The talk group dispatcher shall notify the NOFD dispatcher of the need for NOFD services.
4. If, upon arrival, officers discover a hazard or problem relating to streets or highways, the officer shall notify the talk group dispatcher. The talk group dispatcher shall be responsible for ensuring that the appropriate agency be notified.
5. If officers discover a hazard or problem relating to public utilities, i.e., downed power lines, the officer shall notify the talk group dispatcher. The talk group dispatcher shall have the responsibility to ensure that the appropriate agency be notified.
6. In cases where the news media responds to scenes, officers shall follow the guidelines of **Chapter 54.1 – Media Relations and Public Affairs Office**.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 41.39

### TITLE: IDENTITY THEFT

**EFFECTIVE: 12/10/2017**

**REVISED: Replaces policy 362**

---

#### PURPOSE

Identity theft is a growing law enforcement concern that frequently involves other related crimes in multiple jurisdictions. This Chapter is intended to provide guidelines for the reporting and investigation of such crimes.

#### DEFINITIONS

**Domicile**—For a natural person, is the place of his habitual residence. (CC 38) A natural person may reside in several places but may not have more than one domicile. In the absence of habitual residence, any place of residence may be considered one's domicile at the option of persons whose interests are affected. (CC39)

**Identity Theft**—The intentional use or possession or transfer or attempted use with fraudulent intent by any person of any personal identifying information of another person to obtain, possess, or transfer, whether contemporaneously or not, credit, money, goods, services, or anything else of value without the authorization or consent of the other person (R.S. 14:67.16.B).

**Personal identifying information**—Includes, but is not limited to, an individual's:

- (a) Social security number
- (b) Driver's license number
- (c) Checking account number
- (d) Savings account number
- (e) Credit card number
- (f) Debit card number
- (g) Electronic identification number
- (h) Digital signatures
- (i) Birth certificate
- (j) Date of birth
- (k) Mother's maiden name
- (l) Armed forces identification number
- (m) Government issued identification number
- (n) Financial institution account number

#### REPORTING

1. Jurisdiction for the investigations and prosecution for the crime of Identity Theft may lie outside the parish of Orleans.
2. Victims of Identity theft may file police reports with:
  - (a) The Louisiana Department of Justice, Office of Attorney General;
  - (b) The municipality or parish in which the victim is domiciled; or
  - (c) Any law enforcement agency requested to conduct an investigation.
3. To maintain uniformity in reporting complaints of identity theft (in the parish of occurrence or the parish in which the victim is domiciled or both), the initial officers investigating the complaint shall establish the domicile of the victim (R.S. 9:3568).
4. If the victim resides in Orleans Parish, a report shall be authored by the initial responding officer or the officer first receiving the complaint, whether the actual fraudulent transactions occurred in Orleans Parish or not.
5. If the actual theft of the identity occurred in Orleans Parish but the transactions are occurring in another jurisdiction(s), the District Investigations Unit (DIU) will coordinate with other law enforcement agencies during the investigation in order to identify suspect(s).
6. In circumstances where the victim resides outside Orleans Parish and is not available in person to file the report but wishes to report identity theft wherein the fraudulent transactions are believed to be occurring in Orleans Parish, the first officer to receive the complaint shall:
  - (a) Request that the victim attempt to obtain a Miscellaneous Complaint report from their local police department where domiciled (to establish and verify their identity).
  - (b) Have the victim inform that police department that the New Orleans Police Department will be able to conduct a follow-up investigation once their agency report is completed and transferred to the New Orleans Police Department – ISB White Collar Crimes Unit.
  - (c) The White Collar Crimes Unit will review the report(s) and determine if the case is investigated by the Unit or assigned to a particular DIU for investigative follow-up.
  - (d) The assignment of the case and the reasons for assignment shall be communicated in an email to the District DIU commander, the Commander of ISB Property Crimes Investigation Section, the ISB Deputy Chief, and the FOB Deputy Chief along with all relevant reports.
7. In reports of Identity Theft, the reporting or investigating officers should include all known incidents of fraudulent activity (e.g., credit card number applied for in victim's name when the victim has never made an application), including all documentation provided by the victim and all fraudulent dates of application.
8. Investigating officers should also cross-reference all known reports made by the victim (e.g., U.S. Secret Service, credit reporting bureaus, U.S. Postal Service and Department of Motor Vehicles) with all known report numbers.
9. Investigating Officers should document all actions and statements from the victim as well as names of suspects, investigators, or others the victim has contacted during his/her fact finding personal investigation.
10. Officers shall not use the victim's Social Security Number in the initial report. The initial incident report is considered a public record. The follow-up investigator can obtain the

victim's Social Security Number from the victim, if necessary.

11. Following supervisory review and processing, the initial report should be forwarded to the appropriate investigator or agency for follow-up investigation, coordination with other agencies and prosecution as circumstances dictate.

### **PREVENTIVE MEASURES**

12. Victims of identity theft should be advised to:
  - (a) File a Fraud Alert or Credit Freeze on his/her credit consumer report with the three major credit bureaus.
  - (b) Keep a log of all fraudulent activities as it pertains to their complaint.
  - (c) Access <http://rev.louisiana.gov/forms/Fraud/IdentityTheftChecklist.pdf>.
  - (d) File an identity theft complaint with the Louisiana Office of the Attorney General, Consumer Protection Section at 225-326-6465

### **INFORMATION**

13. The identity theft victim should be encouraged to contact the Federal Trade Commission (FTC), which is responsible for receiving and processing complaints under the Identity Theft and Assumption Deterrence Act. The victim can contact the FTC at 877-ID Theft (877-438-4338). Additional information may be found at the U.S. Department of Justice website, <http://www.usdoj.gov>, or a regional FBI division website.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.2

### TITLE: SEXUAL ASSAULT

**EFFECTIVE: 11/15/2015**

**REVISED: 05/27/2018**

---

#### PURPOSE

The purpose of this policy is to establish requirements and procedures for NOPD members to follow when responding to reports of sexual assault. Sex Crimes Unit detectives shall investigate sexually related incidents with victims 17 years of age and older at the time the incident is reported, including signals:

- 24-K (unreported sexual assault kit);
- 42 (first-degree rape);
- 42-M (first-degree rape, male victim);
- 42-U (first-degree rape, unfounded);
- 43 (second-degree rape);
- 43-M (second-degree rape, male victim);
- 43-U (second-degree rape, unfounded);
- 81S (sexting);
- 89 (crime against nature);
- 283 (video voyeurism); and
- 27 (attempted crime) related to any of the above signals.

If a Sex Crimes detective is not available to respond to an incident, a Special Victims Section supervisor shall direct a Child Abuse detective to respond to the incident. All detectives shall handle sexual assault investigations according to the **Sex Crimes Unit Standard Operating Guidelines**.

District officers shall handle all misdemeanor sexual batteries (Signal 43-MB) with victims 17 years of age and older at the time the incident is reported according to **Chapter 42.2.1 – Misdemeanor Sexual Battery**.

The Child Abuse Unit shall investigate sexual incidents involving victims under the age of 17 at the time the incident is reported according to **Chapter 42.19 – Child Abuse**.

#### DEFINITIONS

**24-K**—The signal for an unreported sexual assault where an examination by a SANE was conducted and a Sexual Assault Kit was utilized and packaged for collection by police.

**Developmental disability**—Severe chronic disabilities that can be cognitive or physical or both. The disabilities appear before the age of 22 and are likely to be lifelong. Some developmental disabilities are largely physical issues, such as cerebral palsy or epilepsy. Some individuals may have a condition that includes a physical and intellectual disability, for example, Down syndrome or fetal alcohol syndrome. Refer to La. R.S. 28:451.2(11) for the State definition.

**Misdemeanor sexual battery**—The intentional touching of the breasts or buttocks of the victim by the offender using any instrumentality or any part of the body of the offender, directly or through clothing, or the intentional touching of the breasts or buttocks of the offender by the victim using any instrumentality or any part of the body of the victim, directly or through clothing, when the offender acts without the consent of the victim (La. R.S. 14:43.1.1). Misdemeanor sexual batteries are classified under Signal 43-MB for reporting purposes and handled according to **Chapter 42.2.1 – Misdemeanor Sexual Battery**.

**Third-party reporter**—Any person who on behalf of a victim seeks to report a crime or obtain information to assist a victim in obtaining victim services.

**Victim advocate**—This generic term may apply to a wide range of service providers, rape crisis counselors, social workers, and crime victim advocates.

## **POLICY STATEMENT**

1. The trauma experienced by a victim of sexual assault can inflict serious and lasting emotional and psychological harm on the victim and impair the victim's ability to participate in the investigation. Officers and detectives play a significant role in the victim's ability to cope with the emotional and psychological after-effects of the crime and willingness to participate in the investigation. It is imperative that officers responding to a sexual assault incident recognize, understand, and manage these effects for the benefit of the victim and the criminal investigation.
2. The trauma experienced by a sexual assault victim may be so overwhelming that a victim cannot function well enough to assist in the investigation at certain stages of the case. Trauma also affects memory and the ability to explain events in a narrative form. Trauma from crime victimization complicates a victim's participation in the investigation. It is important that sexual assault cases be handled from a nonjudgmental perspective so as not to communicate in any way to a victim that the victim is to blame for the crime. All members shall initiate investigations without the presumption that the victim is lying and shall not express cynicism or blame to the victim.
3. NOPD prioritizes encouraging victims of sexual assault to feel safe reporting these crimes to the police and conducting thorough investigations of reported sexual assaults over prosecuting victims who come forward.
4. Victims of sexual assault shall not be charged for non-violent misdemeanors uncovered during the investigation of the sexual assault or related to the sexual assault. Facts related to the victim's potential non-violent misdemeanor(s) shall be documented in the investigative report and addressed by the investigator or the A-Case Officer with the screening District Attorney during the case presentation. The Screening District Attorney's determination as to the filing and prosecution of the charges will determine if any follow-up investigation is required by the NOPD.
5. The rights of sex workers shall be protected to the same extent as any other victim of sexual assault.

**COMMUNICATIONS SERVICES RESPONSIBILITIES**

6. Communications Services shall dispatch a Sex Crimes detective to all sexual assault calls for service, except for 43-MB calls for service (see **Chapter 42.2.1 – Misdemeanor Sexual Battery**).
7. Communications Services shall dispatch a platoon officer on all Code 2 sexual assault calls. Communications Services shall **not** dispatch platoon officers on Code 1 sexual assault calls for service unless requested by a detective.

**ROLE OF THE PLATOON OFFICER**

8. In sexual assault cases, the platoon officer's role is to:
  - (a) Provide an emergency response, including attending to medical needs;
  - (b) Express empathy (e.g. by saying, "I know this must be very difficult");
  - (c) Assure the victim he/she will not be judged (e.g. by saying, "This is not your fault");
  - (d) Put the victim at ease by explaining the investigative process (e.g. by saying, "I am going to ask you a few questions and wait with you until a detective arrives");
  - (e) Inquire about the identity and location of the perpetrator;
  - (f) Contact family support if possible;
  - (g) Preserve evidence; and
  - (h) Communicate observations to the Sex Crimes detective.

**INITIAL RESPONSE**

9. As part of the initial response, officers shall:
  - (a) Make contact with the victim or third-party reporter as soon as possible to address safety concerns and summon emergency medical assistance if needed;
  - (b) Evaluate the scene for people, vehicles, or objects involved as well as possible threats;
  - (c) Relay all vital information to responding officers, supervisors, and detectives, including any possible language barriers; and
  - (d) When appropriate and necessary, platoon officers shall begin a search for the suspect and temporarily detain or arrest the suspect as appropriate based on evidence of probable cause. If the suspect is detained, wait for the Sex Crimes detective. Patrol officers shall not interrogate the suspect.

**MAJOR CRIME SCENE OFFICER STATEMENT**

10. Officers shall complete the Major Crime Scene Officer's Statement (Form 188) and provide it to the investigating detectives.
11. The statement should include a written narrative of all observations, including observations of the crime scene and any statements volunteered by the victim, perpetrator, witnesses, or reporting persons. Officers shall as accurately as possible use the victim's own words. Officers shall record observations of the crime scene, including the demeanors of the suspect and victim and document any injuries or disheveled clothing.
12. Under no circumstances should officers complete a report in the Electronic Police Reporting System. If an officer responds to a non-sexual assault signal and encounters elements of a sexual assault, he/she should not reference the sexual assault in an EPR report in any way.

**VICTIM STATEMENTS**

13. Victims have the legal right to have a victim advocate present during interactions with law enforcement. If a victim requests a victim advocate, the officer shall work with the assigned detective to obtain access to a victim advocates when reasonably possible.
14. The officer shall clearly explain his or her role to the victim. After an officer has completed the duties detailed in the **Role Of The Platoon Officer** section of this Chapter and explained his or her limited role in the investigation, the officer shall not urge the victim to tell his or her story but also should not prevent the victim from doing so. If the victim chooses to tell his or her story, the officer shall avoid interrupting, express sympathy, ask only open-ended questions, limit follow-up questions unless required by the situation, and document these statements in the Major Crime Scene Officer's Statement (Form 188).
15. Responding officers shall not ask the victim if he/she wants the assailant prosecuted. In the immediate aftermath of a sexual assault, a victim shall not be expected or encouraged to make decisions regarding the investigation or charges related to the offense.

**CHARGING VICTIMS**

16. When determining whether to charge a victim of the reported sexual assault with a violent misdemeanor or felony offense uncovered during the investigation or related to the sexual assault, officers shall weigh, at a minimum, the following factors:
  - (a) The public safety benefits of encouraging reporting of sexual assault by making victims feel safe coming forward;
  - (b) The importance to the investigation of victims providing candid and complete information and not withholding information relevant to the investigation (such as drug use or prostitution) out of fear of prosecution;
  - (c) The potential chilling effect that charging the victim will have on future reporting;
  - (d) The impact a victim's conviction would have on the defendant;
  - (e) Whether the victim was chosen, groomed or extorted by the perpetrator of the sexual assault in order to trap the victim into a vulnerable position where if the victim reported the sexual assault, he/she would be charged with a crime,
  - (f) The nature and severity of the victim's offense;
  - (g) The harm caused by the victim's offense; and
  - (h) The risk to the public of not charging the victim with the offense.
17. Prior to charging the victim of sexual assault with a violent misdemeanor or felony uncovered during the investigation or related to the sexual assault, the officer shall obtain supervisory approval for the arrest and concurrence in the charge and document this in the investigative report.
18. If the officer and supervisor determine a violent misdemeanor or felony charge against a sexual assault victim is appropriate and **both** the victim and the perpetrator of the sexual assault participated in the commission of the offense, the officer and supervisor shall consider whether to charge the sexual assault perpetrator with the additional count as well and document this in the investigative report.
19. In the event that the officer chooses to charge the sexual assault victim and not the sexual assault perpetrator with the offense in which they both participated, the officer shall document the decision not to charge the sexual assault perpetrator and the justifications for the decision. The officer shall obtain supervisory approval and concurrence for this decision and document this in the investigative report.

**SUSPECT INTERVIEWS**

20. Suspects should only be interviewed by the detective but can be detained by the responding officer.

**SIGNS OF DRUG-FACILITATED SEXUAL ASSAULT**

21. Officers should be aware that the signs of drug-facilitated sexual assault could include:
  - (a) The victim reports being under the influence of a drug during the sexual assault;
  - (b) The victim experiences vaginal soreness or other signs of sexual activities and cannot remember a part or the entirety of the incident;
  - (c) The victim reports becoming heavily intoxicated very rapidly;
  - (d) The victim reports symptoms of amnesia; and
  - (e) The victim may exhibit symptoms of intoxication if still under the influence of rape-facilitating drugs.

**PRESERVING EVIDENCE**

22. Officers shall protect the integrity of evidence and request assistance or direction from a Sex Crimes detective regarding the collection or preservation of evidence. Officers should secure the crime scene to ensure that evidence is not lost, changed, or contaminated.
23. Evidence should be handled by as few people as possible.
24. Encourage the victim not to change clothing, smoke, eat, drink, shower, urinate, or defecate by explaining that those activities could destroy evidence. If the victim decides to do any of these activities, contact a Sex Crimes detective for instructions on preservation of evidence and chain of custody. Clothing or other items that may contain DNA should be placed in a paper, not plastic, bag. Detectives shall carry receptacles for the collection of urine samples.
25. If a drug-facilitated sexual assault is suspected, officers shall preserve drinks to allow a crime lab to test for the presence of drugs. Additionally, in consultation with the assigned Sex Crimes detective, officers shall expedite a forensic exam to collect the victim's urine before any drugs leave the victim's system, if the victim agrees to the exam.

**SEXUAL ASSAULT FORENSIC EXAM**

26. Officers shall be aware of the process and benefit of a sexual assault forensic medical examination and, if asked, explain its importance to investigative efforts as well as the victim's well-being. Officers shall not pressure victims to receive a forensic exam. Participating in a forensic exam does not obligate the victim to pursue a criminal complaint.
27. If the victim wants a forensic exam and there is a danger of loss of evidence by waiting for the arrival of a detective, the platoon officer shall contact the dispatched Sex Crimes detective or supervisor for instructions.
28. University Medical Center is the designated site for forensic exams.

**VICTIM ASSISTANCE**

29. Officers shall:
- (a) Commend the victim for coming forward to the police;
  - (b) and
  - (c) Show understanding, patience, and respect for the victim's dignity and attempt to establish trust and rapport.

**VICTIM CONFIDENTIALITY**

30. Throughout the investigation of the case, officers and detectives shall protect the confidentiality of the victim's information to the maximum extent possible by law and policy. Officers shall not publicly disclose the name, address, or identity of victims of sex offenses (La. R.S. 46:1844).
31. Officers shall **not**:
- (a) Use a victim's address or name on the radio, whenever feasible. If an officer's car does not have an MDT, phone contact between the communications desk and responding officers or detectives is preferred to contact over the radio.
  - (b) Disseminate or publish in an initial police report the name of any victim of a sex crime (La. R.S. 46:1844(W)). Responding officers shall document their response fully on a Major Crime Scene Officer's Statement (Form 188).

**BODY WORN CAMERAS**

32. Officers shall use body cameras in accordance with **Chapter 41.3.10 – Body Worn Cameras**. Per Chapter 41.3.10:

There may be limited circumstances when the respect for an individual's privacy or dignity outweighs the need to record an event (e.g. – a victim traumatized following a violent assault). When an officer believes such circumstances exist, or that use of a BWC would impede or limit the cooperation of a victim or witness during an investigative contact, an officer may deactivate the BWC after receiving authorization from a supervisor.

33. NOPD shall not publically release footage of sexual assault cases (La. R.S. 46:1844).

**CHANGING THE SIGNAL AND DISPOSITION**

34. Platoon officers and supervisors **shall not** change the signal of sexual assault calls for service. Only the Sex Crimes Unit may change the signal in accordance with the **Sex Crimes Unit Operating Guidelines**.
35. Platoon officers and supervisors may give dispositions only to GOA sexual assault calls for service. Platoon officers and supervisors shall not give dispositions for other sexual assault calls for service.
36. Only Sex Crimes detectives may use the 24-K signal.

**TRANSFERRING THE CASE TO A DETECTIVE**

37. The officer shall be aware that a victim of sexual assault may bond with the first responding officer. To help the victim become comfortable speaking with other members, the officer shall explain the role of the different members of the sexual assault response team and help with transitions through introductions.

**PLATOON SUPERVISOR**

38. Platoon supervisors shall respond to the scene if requested by the responding officers.
39. Supervisors should be careful not to intervene in the responding officer's interactions with the victim or ask the victim to recount the incident again unless necessary.
40. Sex Crimes supervisors will communicate to platoon supervisors regarding any training needs for officers under their supervision.
41. Platoon supervisors shall include training on responding to sexual assault in roll call.

**INCIDENTS INVOLVING CHILDREN, ADOLESCENTS, OR DEVELOPMENTALLY DISABLED INDIVIDUALS**

42. Officers shall handle all sexual incidents involving a victim under the age of 17 at the time the incident is reported in accordance with **Chapter 42.19 – Child Abuse**.
43. Officers may also choose to handle cases involving developmentally disabled victims according to **Chapter 42.19 – Child Abuse**.

**TRAINING**

44. The Education and Training Division shall provide annual sexual assault training to officers. The Training Division shall document this training.
45. Any additional training supervisors receive, i.e. information bulletins, updates to policies, etc., shall be shared with officers during roll call.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.2.1

### TITLE: MISDEMEANOR SEXUAL BATTERY

**EFFECTIVE: 05/27/2018**

**REVISED:**

---

#### PURPOSE

The purpose of this Chapter is to establish requirements and procedures for NOPD members to follow when responding to reports of misdemeanor sexual battery. District officers shall handle all misdemeanor sexual batteries (Signal 43-MB) according to this Chapter. Members shall handle all other sexual assaults according to **Chapter 42.2 – Sexual Assault**.

**Chapter 42.19 – Child Abuse** covers sexual incidents involving victims under the age of 17 at the time the incident is reported, including misdemeanor sexual battery.

District officers may choose to handle cases of misdemeanor sexual battery involving developmentally disabled victims according to **Chapter 42.19 – Child Abuse**.

#### DEFINITIONS

**Misdemeanor sexual battery**—The intentional touching of the breasts or buttocks of the victim by the offender using any instrumentality or any part of the body of the offender, directly or through clothing, or the intentional touching of the breasts or buttocks of the offender by the victim using any instrumentality or any part of the body of the victim, directly or through clothing, when the offender acts without the consent of the victim (**La. R.S. 14:43.1.1**). Misdemeanor sexual batteries are classified under Signal 43-MB for reporting purposes.

#### POLICY STATEMENT

1. It is important that sexual assault cases be handled from a nonjudgmental perspective so as not to communicate in any way to a victim that the victim is to blame for the crime. All members shall initiate investigations without the presumption that the victim is lying and shall not express cynicism or blame to the victim.

#### COMMUNICATIONS SERVICES RESPONSIBILITIES

2. Communications Services shall dispatch a district platoon officer to all 43-MB calls for service.
3. Communications Services **shall not dispatch** a Sex Crimes detective to a 43-MB scene unless requested by a district platoon officer or supervisor.

**OFFICER RESPONSE**

4. District officers shall handle 43-MB calls for service in their entirety.
5. If the officer determines the incident is a type of sexual assault that has been misclassified as a 43-MB, the officer shall request that a Sex Crimes detective be dispatched to the scene. The officer shall remain on scene until the Sex Crimes detective arrives. The officer shall not change the signal or give a disposition to the call.
6. If the officer determines the incident is not a sexual assault and is misclassified as a 43-MB, the officer shall handle the call as appropriate and request supervisory approval to mark the 43-MB item as unfounded and generate a new item number under the correct NOPD signal code.
7. Platoon officers shall give the final dispositions to 43-MB calls for service. Platoon officers must receive supervisor approval before marking a 43-MB call for service unfounded.
8. If the officer checks the suspect's name in law enforcement databases and finds any history of sexual offenses, the officer shall notify Sex Crimes prior to the final determination of charges.
9. Forensic medical exams are not required for misdemeanor sexual batteries.

**VICTIM ASSISTANCE**

10. Officers shall commend the victim for notifying the police. Show understanding, patience, and respect for the victim's dignity and attempt to establish trust and rapport.
11. NOPD prioritizes encouraging victims of sexual assault to feel safe reporting these crimes to the police and conducting thorough investigations of reported sexual assaults over prosecuting victims who come forward. See **Charging Victims in Chapter 42.2 – Sexual Assault** for additional guidance. ;
12. Victims of sexual assault shall not be charged for non-violent misdemeanors uncovered during the investigation of the sexual assault or related to the sexual assault. Facts related to the victim's potential non-violent misdemeanor(s) shall be documented in the investigative report and addressed by the investigator or the A-Case Officer with the screening District Attorney during the case presentation. The Screening District Attorney's determination as to the filing and prosecution of the charges will determine if any follow-up investigation is required by the NOPD.
13. Responding officers shall not ask the victim if he/she wants the assailant prosecuted. In the immediate aftermath of a sexual assault, a victim shall not be expected or encouraged to make decisions regarding the investigation or charges related to the offense.

**VICTIM CONFIDENTIALITY**

14. Throughout the investigation of the incident, officers and detectives shall protect the confidentiality of the victim's information to the maximum extent possible by law and policy. Officers shall not publicly disclose the name, address, or identity of crime victims who are victims of sex offenses (La. R.S. 46:1844).

15. Officers shall not use a victim's address or name on the radio, whenever feasible. If an officer's car does not have an MDT, phone contact between the communications desk and responding officers or detectives is preferred to contact over the radio.

#### **PUBLIC RECORDS REQUESTS**

16. NOPD shall not publically release footage of sexual assault cases (La. R.S. 46:1844).
17. The Records Room shall redact all materials for public records requests in accordance with La. R.S. 46:1844(W)).

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.2.10

### TITLE: AUTO THEFT INVESTIGATIONS

**EFFECTIVE: 01/07/2018**

**REVISED: (Conversion Replaces P/PR611)**

---

#### PURPOSE

The purpose of this Chapter is to establish guidelines for the investigation of auto thefts and recoveries.

#### AUTO THEFT AFFIDAVIT

1. Anyone alleging a motor vehicle was stolen shall sign an affidavit affirming the vehicle was stolen. Filing a false stolen vehicle report and signing an affidavit affirming a vehicle was stolen is a felony (La. R.S. 14:67.26 B (1)).
2. If the affidavit is not taken in person by a law enforcement officer, the individual alleging an auto theft shall download a copy of the affidavit at NOPD.org or at a district station. The affidavit shall be signed, notarized and delivered or mailed to the NOPD Record Room within seven days of receipt (La. R.S. 14:67 26B(2)).

#### REPORTING STOLEN VEHICLES

3. Officers investigating a complaint of an auto theft and/or lost or stolen license plate are responsible for:
  - (a) Completing electronic police report (EPR).
  - (b) Presenting the Auto Theft Affidavit (Form #208) and item number (Form 26) to the complainant for his/her review and signature before a notary or authorized supervisor.
  - (c) Contacting NOPD – NCIC Unit for the computer entry and access number for inclusion in the narrative.
4. The complainant shall attest to the theft by sworn affidavit (Auto Theft Affidavit - Form #208) before an ex-officio notary/police supervisor and two persons as witnesses. Witnesses shall include at least one officer and a second person of 18 years of age or older. Once the complainant has signed the Auto Theft Affidavit, this form shall be made part of the report.
5. If the complainant refuses to sign but indicates a desire for further review, the affidavit will be left with the complainant to sign, notarize, and return to the agency in seven days. The auto theft report shall indicate the complainant did not sign the affidavit and was advised of the proper procedure for completing the affidavit.

6. If the complainant refuses to sign the affidavit, the officer shall write refused across the affidavit, conduct the investigation and submit an Electronic Policy Report (EPR) report for follow up review.

### **REPORTING STOLEN VEHICLE - OUTSIDE ORLEANS PARISH**

7. A complaint outside of Orleans Parish reporting an auto theft occurring in New Orleans shall be investigated by an officer in the district of occurrence. The officer shall advise the complainant of the item number and the location(s) where affidavit forms may be obtained. If the complainant is unable to obtain an affidavit form in a timely manner, the investigating officer's supervisor shall instruct the investigating officer to mail the affidavit to a complainant through the NOPD Mail Room or have the complainant obtain the affidavit via the internet (nopd.org).

### **RECOVERIES IN ORLEANS PARISH**

8. Reports of vehicles stolen from another jurisdiction and recovered in Orleans Parish shall be written by an on-scene investigating officer as a signal (21R, out of parish recovery) on a green incident report form or EPR. Actions relating to these recoveries include the following:
  - (a) Include any missing parts or damage in the report.
  - (b) Make all effort to notify the owner of the location of the recovered vehicle.
  - (c) Remain on the scene until the arrival of the owner and/or towing and remain on scene until the towing company collects the vehicle.
  - (d) Contact a member of NOPD – NCIC Unit giving all recovery information.
  - (e) Secure recovery access number from NOPD – NCIC Unit.
  - (f) Contact a member of the NOPD - NCIC Unit and provide all recovery information.
  - (g) The officer shall make every attempt to contact the owner of the vehicle to inform him/her of the vehicle's location and or storage information.
  - (h) Remain on the scene until the arrival of the owner and/or the vehicle is secured by the towing company.
  - (i) If the recovering officer cannot contact the owner, a member of the NOPD - NCIC Unit will make additional attempts to contact the owner of a recovered vehicle.
  - (j) If unsuccessful, a member of the NOPD - NCIC Unit will then start the process of notifying the owner by certified mail.
  - (k) If the owner cannot be contacted or he/she cannot arrange towing within sixty minutes, the officer shall:
    - i. Contact the Towing Allocation Operator (TAO).
    - ii. Inform the TAO of the vehicle's location and condition.
    - iii. Remain on the scene until the arrival of the owner and/or towing company until the vehicle is secured by the towing company.
  - (l) Write a supplemental report/EPR if there is an arrest and/or the vehicle was involved in additional crimes.
9. When the owner cannot be contacted by the investigating officer, a member of the NOPD - NCIC Unit is responsible for contacting the victim and/or reporting agency (if stolen out of parish). After 24 hours a member of the NOPD - NCIC Unit shall send a recovery letter to the victim's last known address via certified mail.

### **AUTO THEFT ARRESTS**

10. The investigating officer shall request his/her platoon supervisor to come to the scene of any auto theft investigation involving an arrest and/or if the preliminary investigation indicates the complainant is giving inaccurate or fraudulent information.

11. Information/disposition changes to a filed NCIC entry shall be corrected by contacting the NOPD NCIC Unit. The NOPD - NCIC Unit is responsible for all NCIC entry changes once notified that changes are to be made.

#### **AUTO THEFT COMPLAINTS – OTHER**

12. Auto theft complaints involving other offenses, wanted subjects and/or rental/lease vehicles require an on-scene investigation. The investigating officer shall use the more serious signal and follow the guidelines as appropriate to the incident.

#### **THEFT AND RECOVERY**

13. Auto theft complaints involving both the theft and recovery of a stolen vehicle shall be documented in EPR and affidavit with the NCIC access number.

#### **AFFIDAVIT OF PHYSICAL INSPECTION FOR VEHICLE IDENTITY VERIFICATION (DPSSP FORM 3515)**

14. The affidavit of physical inspection for vehicle identity verification form (Department of Public Safety State Police Form 3515) verifies vehicles previously wrecked or stripped have been restored to a condition which would make them safe to operate on state and local roadways. It also verifies that all parts used in the reconstruction of the vehicle which bears VIN numbers have been checked and have not been reported stolen. This regulation limits the powers given by the state to only certain commissioned employees of the police department.
15. Only commissioned members of the New Orleans Police Department who have successfully completed the physical inspection training shall have the authority to complete DPSSP Form 3515. Officers receiving requests to complete DPSSP Form 3515 that they are not certified to perform shall refer the individual(s) to a member of his/her unit that is certified or the Auto Theft Unit, 715 South Broad Street, Police HQ Third Floor.

#### **AUTO THEFT TASK FORCE UNIT RESPONSIBILITIES**

16. The Department of Public Safety certified inspecting officer shall complete the DPSSP Form 3515 in its entirety in accordance with La. R.S. 32:706.2 and distribute the form:
  - (a) White Copy to the Office of Motor Vehicles.
  - (b) Pink Copy retained by the NOPD Auto Theft Unit.
  - (c) Yellow Copy to the requesting person named in the form.
17. The inspecting officer must have an inspection certification number issued by the State Police before he/she is allowed to complete DPSSP 3515 form. The officer will sign and date the form. New Orleans Police will be entered in the section for department name.
18. Original DPSSP form 3515 is in triplicate and sequential numbered book of fifty affidavits. The pink copy shall remain in the book, and upon completion, the old books shall be archived by the auto theft unit. The state shall not accept Xerox copies of the form or forms that have been modified. If the officer completing the form makes a mistake, the form shall have **VOIDED** written across and the white and yellow copies destroyed.
19. No NOPD report need be written for an inspection unless unusual circumstances or a supervisor indicate otherwise.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.3

### TITLE: TASK FORCES

**EFFECTIVE: 12/17/2017**

**REVISED: Replaces policy 390**

---

#### PURPOSE

The purpose of this Chapter is to set forth guidelines with respect to multi-agency task forces and task forces comprised solely of New Orleans Police Department personnel.

#### DEFINITIONS:

Definitions related to this Chapter include:

**Multi-Agency Task Force**—A task force comprised of members of the New Orleans Police Department and members of other local, state, or federal agency or agencies.

**Citywide Task Force**—A task force comprised solely of members of the New Orleans Police Department which are responsible for activities which are not confined to one police district or to a certain area, even if specialized.

**District Task Force**—A task force comprised solely of members of the New Orleans Police Department which are responsible for activities within one police district, even if specialized. Also referred to as General Assignments.

#### MULTI-AGENCY TASK FORCES

1. Multi-agency task forces may be created between the New Orleans Police Department and one or more outside agencies.
2. The creation of multi-agency task forces will be governed by a particular need which would be best attended to with a multi-agency task force.
3. Prior to the start of any multi-agency task force operation, a written agreement (MOU or CEA) must be entered into by the New Orleans Police Department and any other agencies involved (see: **Chapter 1.1 – Law Enforcement Authority**).
4. This agreement may be drafted by the New Orleans Police Department, by the participating agency, or in a cooperative effort between the participating agencies.
5. This agreement shall include, at a minimum, the following:
  - (a) Specific mention, and agreement, that members of the task force are subject to

the regulations of his/her department at all times, even when operating outside his/her normal jurisdiction.

- (b) The specific law enforcement authorization, authority, limitations, and liability exposure conferred to each member of the task force by every participating agency;
  - (c) Delineation of supervision responsibilities for and by each participating agency;
  - (d) Identification of the specific purpose of the task force;
  - (e) Estimated duration of the task force;
  - (f) The authority and responsibility of participating agencies or the member's positions within the task force;
  - (g) The method of accountability (both within the task force and with the participating agencies);
  - (h) Identification of available resources;
  - (i) The method to be used for evaluating results (i.e., tracking the effectiveness of the task force, etc.) and the continued necessity of the multi-agency task force;
  - (j) The manner in which task force reporting, both internally and externally, will be handled, including media statements and releases; and
  - (k) Statement that the multi-agency task force shall be terminated when the mission for creating the task force has been completed or for purposes of the NOPD, when directed by the Superintendent of Police.
6. The agreement will be negotiated between the Superintendent of Police or his/her designee and the proper authority associated with the participating outside agencies.

#### **DISTRICT TASK FORCES**

7. The mission, assignment of staffing, working hours are at the discretion of the District Commander or his/her authorized designee.
8. District Task Force members shall conform to uniform, vehicle, BWC, ICC and reporting requirements of the Department unless specifically authorized by the Superintendent of Police or the Deputy Chief of FOB.

#### **CITYWIDE TASK FORCE**

9. The mission, assignment of staffing, working hours are at the discretion of the Superintendent of Police, Bureau Chief of the members assigned or their authorized designee.
10. Absent special circumstances and an exception by the Superintendent of Police, Citywide Task Forces shall operate under an approved written directive or special operation plan.
11. Citywide Task Forces are generally mission specific and of limited duration.
12. Citywide Task Forces shall follow the principles of Unity of Command and have a clearly defined supervisory chain of command and designated commander.
13. Citywide Task Force members shall conform to uniform, vehicle, Body Worn Camera (BWC), In Car Camera (ICC) and reporting requirements of the Department unless specifically authorized in the approved written directive or special operations plan or specifically authorized by the Superintendent of Police or the Deputy Chief of FOB.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.4

### TITLE: DOMESTIC VIOLENCE

**EFFECTIVE: 04/05/2014**

**REVISED: 07/08/2018; 01/31/21**

---

#### PURPOSE

The purpose of this chapter is to provide the guidelines necessary to deter, prevent and reduce domestic violence through vigorous enforcement, addressing domestic violence as a serious crime against society. This chapter outlines the respective duties of District platoon officers and supervisors in responding to and supervising all cases that meet the definition of domestic violence as contained herein. Officers shall respond to domestic disturbance incidents (103-D), as defined in this chapter, according to **Chapter 42.4.1 – Domestic Disturbances**.

**NOTE:** The Communications Services and Domestic Violence Unit Standard Operating Guidelines are in the Resource Folder on [nopd.org](http://nopd.org).

#### POLICY STATEMENT

1. The New Orleans Police Department's response to incidents of domestic violence and violations of domestic violence related court orders shall stress enforcement of the law to protect the victim and hold accountable criminal offenders.
2. It is the policy of this department to facilitate victims' access to appropriate civil remedies and community resources whenever feasible and to prioritize victim safety and protection at each stage of the Department's response to a report of domestic violence.
3. The Department's commitment to an interagency response to domestic violence crimes is largely dependent on the platoon officer's initial response to each case. The platoon officer report lays the foundation for each subsequent intervener, and its attention to specific details helps each practitioner maximize victim safety and offender accountability.
4. This chapter emphasizes the importance of accumulating information over time and incidents to understand and appropriately respond to the level of danger and risk posed by offenders in a crime that is often complex and difficult to prosecute. When officers treat each call as part of an ongoing case, patterns may emerge, and the safety needs of victims become more evident.
5. Domestic Violence/Dating Violence Offenders are to be charged with "State Charges Only" and that the use of summons or Municipal Charges are strictly **prohibited**.

**DEFINITIONS**

**Aggravated Assault upon a Dating Partner**—An assault with a dangerous weapon committed by one dating partner upon another dating partner (R.S. 14:34.9.1).

**Battering**—An ongoing pattern of coercion, intimidation, and emotional abuse, reinforced by the use and/or threat of physical or sexual violence. Battering can include a range of tactics including:

- (a) Cyberstalking (La. R.S. 14:40.3)
- (b) Bodily injury or threat of bodily injury, including, but not limited to domestic abuse aggravated assault (La. R.S. 14:37.7) and domestic abuse battery (La. R.S. 14:35.3).
- (c) Harassing telephone calls (La. R.S. 14:285).
- (d) Sexual abuse or assault
- (e) Property crime directed against the victim (La. R.S. 14:56)
- (f) Stalking (La. R.S. 14:40.2(A))
- (g) Strangulation (La. R.S. 14:35.3 B(7))
- (h) Violation of a court order of protection or similar injunction (La. R.S. 14:79)
- (i) Death threats or death (including a third party)

**Battery of a Dating Partner**—The intentional use of force or violence committed by one dating partner upon the person of another dating partner (RS 14:34.9).

**Court Order**—All forms of court orders related to domestic violence, both civil and criminal, whether issued by a court of this state or another and regardless of whether service has been made.

**Cyberstalking**—The action of any person to accomplish any of the following (R.S. 14:40.3):

- (a) Use in electronic mail or electronic communication of any words or language threatening to inflict bodily harm to any person or to a person's family member or physical injury to the property of any person, or for the purpose of extorting money or other things of value from any person.
- (b) Electronically mail or electronically communicate to another repeatedly, whether conversation ensues, for the purpose of threatening, terrifying or harassing any person.

**Dating Partner**—Any person who is involved or has been involved in a sexual or intimate relationship with the offender characterized by the expectation of affectionate involvement independent of financial considerations, regardless of whether the person presently lives or formerly lived in the same residence with the offender.

**NOTE:** This definition relates specifically to charges of aggravated assault upon a dating partner and battery of a dating partner. See the Domestic Violence definition for other relationships covered by this policy.

**Domestic Abuse Aggravated Assault**—An assault with a dangerous weapon committed by one household member upon another household member (R.S. 14:37.7).

**Domestic Abuse Battery**—The intentional use of force or violence committed by one household member upon another household member (R.S. 14:35.3).

**Domestic Disturbance (103-D)**—A call for service involving individuals with a domestic relationship that does not involve a crime.

**Domestic Relationship**—Any relationship involving the following, including same sex relationships:

- (a) Current or former spouses;

- (b) Parents and adult/minor children;
- (c) Stepparents and adult/minor stepchildren;
- (d) Foster parents and adult/minor foster children; or
- (e) Current or former dating partners, living together or not.

**Domestic Violence**—Used to refer to battering, a crime of violence, or property damage between individuals with a domestic relationship (R.S. 46:2151, M.C.S.17271 54-525).

**Electronic Communication**—The transfer of signs, signals, writing, images, sounds, data or intelligence of any nature, transmitted in whole or in part by wire, radio, computer, electromagnetic, photo electronic or photo-optical system.

**Harassing Telephone Calls**—The use of a telephone call, conversation or conference with another person, anonymously or otherwise, and therein use obscene, profane, vulgar, lewd, lascivious or indecent language; making any suggestion or proposal of an obscene nature; threatening any illegal or immoral act with the intent to coerce, intimidate or harass another person; making repeated telephone communications anonymously or otherwise in a manner that is reasonably expected to annoy, abuse, torment, harass, embarrass or offend another, person, whether or not conversation ensues (R.S. 14:285).

**Household member**—A household member is (R.S. 14:35.3 B (5):

- (a) A person who is presently living with the offender and who is involved or has been involved in a sexual or intimate relationship with the offender.
- (b) A person who formerly lived with the offender and who is involved or has been involved in a sexual or intimate relationship with the offender.
- (c) A child who presently lives with the offender, or has lived with the offender, or
- (d) Any child of the offender, regardless of where the child resides.

This definition relates specifically to charges of domestic abuse battery and domestic abuse aggravated assault. See the Domestic Violence definition for other relationships covered by this policy.

**Predominant Aggressor**—The person who poses the most serious ongoing threat.

**Protective Order**—See **Chapter 74.3.2 – Protective Order**. Any civil or criminal restraining order, injunction, bail or release order, probation condition and all other orders for protection issued to protect victims of domestic violence, sexual assault, dating violence or stalking or to deter offenders from further violence or abuse [. . .including] protections contained in support, child custody, and visitation orders and protective directives in other court orders. 18 U.S.C. § 2266(5). Emergency, ex parte, temporary, and final orders are subject to full faith and credit under VAWA.

**Public Figure**—An elected official, sports figure, television or radio personality, celebrity, or other well-known person.

**Self-Defense**—The use of force or violence in defense when it is:

- (a) Apparently necessary to prevent a forcible offense or trespass against property in that person's lawful possession; and
- (b) Reasonable (La. R.S. 14:19).

If force has been legally used in self- defense, there is an absolution of guilt or culpability. Officers shall apply laws regarding self- defense (La. R.S.14:19).

**Stalking**—The intentional and repeated following or harassing of another person that would cause a reasonable person to feel alarmed or to suffer emotional distress. Stalking shall include

but not be limited to (R.S. 14:40.2(A)) the intentional and repeated uninvited presence of the perpetrator at a person's home, workplace, school or any place that would cause a reasonable person to be alarmed or to suffer emotional distress as a result of verbal or behaviorally implied threats of:

- (a) Death.
- (b) Bodily injury.
- (c) Sexual assault.
- (d) Kidnapping.
- (e) Any other statutorily criminal act to him/herself or any member of his/her family or any person with whom he/she is acquainted.

**Strangulation**—Intentionally impeding the normal breathing or circulation of the blood by applying pressure on the throat or neck or by blocking the nose or mouth of the victim (R.S. 14:35.3 B(7) and Dating Violence Strangulation - R.S. 14:34.9(b)5).

**Violation of Protection Order**—Violation of a protective order is the willful disobedience of a preliminary or permanent injunction issued after a contradictory court hearing, or any ex parte protective order if the defendant has been given notice of the order through a contradictory hearing or service of process (La. R.S. 14:79).

## DOMESTIC VIOLENCE DYNAMICS

6. Officers shall be aware that a single incident of domestic violence is usually part of a patterned use of coercion, intimidation and the use or threat of violence – namely battering. Officers shall respond to domestic violence incidents in a manner that confronts any pattern of ongoing abuse and violence. Officers shall:
  - (a) Minimize the victim's need to confront the offender whenever possible.
  - (b) Advise the victim that the officer will not share information obtained with the suspect.
  - (c) Treat each interaction with the victim as an opportunity to build trust, rapport, and collaboration to strengthen NOPD's ability to keep the victim safe.
  - (d) Be mindful of the complex and often dangerous implications of a victim's cooperation with the legal system.
  - (e) Use communication strategies that break down and counteract the psychological and emotional control tactics that domestic violence aggressors often use. For example, officer should listen with empathy, validate the victim's perspective where possible, and communicate that the victim's experience and safety is important to the officer and NOPD. .

## OFFICER RESPONSE

7. All domestic violence calls assigned a code 2 priority response will be answered with two officers and, whenever possible, a supervisor. Domestic violence calls assigned a code 1C priority response may be answered by one officer. Refer to **Chapter 41.4.1 - Officer Response to Calls**.
7. Single officer response to any domestic violence complaint is strongly discouraged and is only to be used when no backup unit is available. A single officer responding to a domestic violence call shall request the presence of a supervisor.

## INVESTIGATIONS

8. Officers shall incorporate the following into their investigations:
  - (a) Attempt to determine and arrest the predominant aggressor.
  - (b) Officers shall not arrest a person who acted in self-defense as defined by

- State statute (La. R.S. 14:19).
- (c) Take appropriate action for violation of protection orders.
  - (d) Prioritize safety and protection for adult and child victims of domestic violence.
  - (e) Provide victims or witnesses of domestic violence with support and assistance by providing NOFJC reference materials.

### **APPROACH THE SCENE**

- 9. Officers shall respond to domestic violence calls, directly and without delay, utilizing a tactical approach as appropriate to the circumstances of the call to maximize safety for all involved.

### **SECURE THE SCENE**

- 10. Officers shall secure the scene and, as safety permits, separate all parties.
- 11. To ensure officer safety, responding officers shall:
  - (a) Identify and secure weapons that might pose a threat during the investigation or that might be potential evidence.
  - (b) Identify all people or witnesses on the premises/scene.
  - (c) Determine the whereabouts and identities of all people on the premises/scene, including children.
  - (d) Separate occupants and witnesses from the victim and accused, keeping them out of sight and hearing range of one another, as safety permits.
  - (e) Restrain and/or remove the suspect if necessary.
  - (f) Assess for injuries and request medical services as necessary. Ask the parties about injuries, including those that may be hidden by clothing or otherwise not readily apparent. An officer of the same sex as the injured party may be needed as further visual investigation continues and photographs of these areas are taken.
  - (g) Inquire about strangulation and internal injuries.
    - i. If injuries appear life-threatening or if the victim is impaired through injury or intoxication and unable to make the decision, request medical services regardless of the victim's preference.
    - ii. If the victim requests medical attention, EMS shall be summoned whether the officer believes medical attention is necessary or not.
    - iii. If it appears strangulation has occurred, EMS shall be summoned.

### **CONDUCT INVESTIGATION**

- 12. Officers shall obtain a comprehensive account of events by interviewing or talking with each party or witness and gathering and documenting evidence.

### **INITIAL OBSERVATIONS**

- 13. Officers shall observe and note spontaneous statements by those at the scene, including:
  - (a) Spontaneous statements made by the victim, suspect or witnesses.
  - (b) Observations of the scene (furniture tipped over, broken phones, doors, other damaged property; torn clothing; blood; no sign of physical altercation, etc.)
  - (c) Emotional state of parties at the scene.
  - (d) Physical appearance of parties (disheveled clothing or hair, torn clothing, obvious injury, flushed face, etc.).
  - (e) Indications of drug or alcohol use by persons at the scene and the apparent level of intoxication or impairment (specifically, are they coherent in responding to

- questions?).
- (f) Photograph victim and crime scene using a tool other than BWC.
- (g) Determine if a weapon was involved and secure it.
- (h) Determine if any children were, and still are present.
- (i) Check for the existence of a protective order through the Louisiana Protective Order Registry, or by other means available.

### **INTERVIEW THE PARTIES AND WITNESSES**

14. Officers shall:
  - (a) Interview all parties and witnesses away from sight and hearing of other parties as safety permits.
  - (b) Arrange for an interpreter when necessary. Do not utilize either party as an interpreter.
  - (c) Interview children in a manner appropriate to their age. Document any signs of trauma and any apparent wounds or healing of wounds on the children and take appropriate action, in accordance with state law, to prevent imminent harm to the children.
  
15. Officers shall obtain a comprehensive account of events by interviewing each person involved or witness to the incident. For each person interviewed, officers shall obtain the requisite information for the EPR and document:
  - i. The suspect's address and phone number(s), if known. Only include information from the victim that can safely be included in the police report.
  - (a) Account of events:
    - i. Specific nature of any threats
    - ii. Indications of witness tampering or whether the suspect has threatened the victim if he/she seeks help from law enforcement
    - iii. Manner in which weapons were used
    - iv. Indications of stalking
    - v. Details about claims of strangulation
    - vi. Indications of self-defense
  - (b) Other information:
    - i. Relationship to other parties involved, including witnesses
    - ii. Obtain secondary emergency contact for victim including phone number and address of victim's family member or friend that can be contacted in the event victim is unavailable. Inform the victim that this should be a safe contact as the suspect will have access to this information in the police report.
    - iii. Presence and type of firearms and other weapons in the home, regardless of whether a weapon was used in the current incident.
    - iv. Whether a protective order is in place and, if one is said to exist, whether the victim possesses a copy.
    - v. If witnesses provide information about prior incidents, document the information to establish a pattern.

### **CONDUCT RISK ASSESSMENT**

16. The risk assessment questions shall be asked when any party alleges force, violence, threats, or criminal damage to property occurred against them. Officers shall ask the **Five Risk Questions**:
  - (a) Do you think he/she will seriously injure or kill you, your children or someone else close to you?
    - i. What makes you think so?
    - ii. What makes you think not?

- (b) How frequently does he/she intimidate, threaten, or assault you?
  - i. Is it changing?
  - ii. Getting worse?
  - iii. Getting better?
- (c) Describe the time you were the most frightened or injured by him/her.
- (d) Have you ever been threatened or intimidated by the other party/parties for seeking help or attempting to seek help from law enforcement, the courts or others? If so,
  - i. Who threatened you?
  - ii. When was the threat made?
  - iii. Describe the nature of the threat.
  - iv. Was a weapon used?
- (e) Does he/she possess or have access to firearms?
  - i. Has he/she used firearms to threaten or control you or other people?
  - ii. What is the type, description, and location of any firearms?

## COLLECT EVIDENCE

- 17. Officers shall collect, preserve and document all relevant physical evidence including evidence substantiating the victim's injuries and the attack (weapons, torn clothing, phone cords, etc.), the suspect's injuries, as well as evidence recording the crime scene, in accordance with departmental procedure and policy on evidence collection (Refer to **Chapter 83.1 - Collection and Preservation of Evidence**).
- 18. Officers shall pay particular attention to evidence specific to sexual abuse, stalking and strangulation.
- 19. Officers shall:
  - (a) Inform the victim in advance of actions to be taken and, if necessary, obtain consent to search (See: **Chapter 1.2.4 – Search & Seizure**) the scene or obtain a warrant.
  - (b) Document and photograph **all injuries**, regardless of severity, taking care to preserve the victim's personal privacy. Where practicable, photographs shall be taken by a person of the same sex. Victims whose injuries are not visible at the time of the incident, or whose injuries change in appearance warranting additional photographs, shall be asked to contact the Domestic Violence Unit in the event that the injuries later become visible. Contact information for the Domestic Violence Unit shall be provided by the officer.
  - (c) Collect and secure evidence related to the probable cause determination, regardless of whether the suspect has been arrested.
  - (d) Photograph disarray at the scene, damaged property, including all evidence seized as well as broken windows and doors, damage to vehicles, damaged telephones and similar evidence associated with the incident.
  - (e) Photograph and, if necessary, collect damaged property such as broken phones and bloody or torn clothing. (NOTE: Do not seize a functioning telephone, cell phone, or other communications device if it is the only working phone available to the victim.)
  - (f) Photograph and collect electronic evidence such as text messages, email, voicemail, and similar evidence. Refer to **Chapter 83.2 - Computers and Digital Evidence**.
  - (g) Document any previous domestic violence convictions and if the predominant aggressor is currently on probation or parole.

## STRANGULATION

20. Be alert to the signs and symptoms of strangulation, such as scratches along the neck or chest, while being aware that strangulation does not always result in visible or immediate symptoms. If the victim has any symptoms of strangulation, immediately request EMS. Officers shall conduct an initial interview with the victim regarding the method of strangulation and its effects. Officers shall note:
- (a) Information regarding the offender's intention while strangling the victim ("What did the person say before, during and after strangling you? What did he/she do immediately prior to attacking you? What was his/her demeanor, facial expressions?")
  - (b) Evidence that normal breathing or circulation of the blood was impeded (including: raspy or hoarse voice, coughing; loss of voice, difficulty talking, wheezing, shortness of breath, difficulty breathing, hyperventilation, difficulty swallowing or pain in throat, swelling of the tongue, nausea or vomiting, or dizziness).
  - (c) Injuries including: scratches, abrasions, marks to the neck or face, impressions of hand or fingers in the skin, impression in the skin which might indicate the use of a cord or other ligature, jewelry, or other object, apparent swelling in the neck, ruptured capillaries in the eyes, under the eyelids or on the neck or fingernail marks on the victim's face, neck, or chest.
  - (d) Information regarding how the pressure was applied on the throat or neck or the blockage of the nose or mouth of the victim. (For example: "Did the person who hurt you use one hand or both hands? Use his/her arms, knees, or another body part on your throat or head area? Block your nose or mouth? Did he/she use any objects, e.g., cords, ropes, against your neck/throat? Where exactly were his/her hands or the object that was used on your neck/throat? Can you demonstrate how you were strangled?")
21. Officers shall document all evidence of strangulation in the written report, using the term "strangulation" rather than "choking," unless quoting the party interviewed.

### **STALKING, CYBERSTALKING & HARASSING PHONE CALLS**

22. Be alert to the possibility that any single report of domestic abuse could be part of a pattern of stalking behavior. Be aware of the possibility that actions that would not otherwise be illegal or might not cause alarm in another context could be examples of stalking behavior. Pay particular attention to repeated violations of protection orders and stay away orders. Ask questions of the victim to determine if the current incident is an isolated event or part of a pattern of behavior.
23. Officers shall document all information regarding stalking behavior provided by the victim, such as:
- (a) Driving by or appearing at the victim's residence, workplace or school;
  - (b) Entering victim's home;
  - (c) Delivering items, such as flowers, letters, gifts, etc.;
  - (d) Annoying or threatening hang up phone calls, emails, or text messages;
  - (e) Disabling or tapping the victim's phone;
  - (f) Audio or videotaping the victim without the victim's knowledge;
  - (g) Photographing the victim or the victim's acquaintances;
  - (h) Intercepting mail;
  - (i) Ordering products or subscriptions in the victim's name;
  - (j) Attempting to obtain information about the victim from others; and
  - (k) Spreading false rumors or allegations about the victim.

When the electronic device or medium cannot be processed through forensics,

officers shall document and attempt to photograph all text messages, emails, social media, and web content transmitted between the two parties.

### USE OF RISK ASSESSMENT

24. Before making a probable cause determination, officers shall ask any party who **alleges a domestic violence crime was committed against him/her or his/her property** the Five Risk Questions (conduct risk assessment above) regarding history/patterns & severity of violence used.
25. Answers to risk questions shall be utilized in the following circumstances:
- (a) When there is probable cause that a misdemeanor has been committed, the risk questions should be used to help an officer determine whether there is impending danger. "Impending danger" is not an assessment based on a single incident, but rather on the history of violence, patterns of physical, sexual, and emotional abuse and the severity of any violence used.
  - (b) When there are conflicting accounts of the incident, allegations that both parties committed a crime, or when both parties allege either force, violence, threats, or criminal damage was committed against them or their property, and there is the **possibility** of a dual arrest, officers shall refer to the N.O.P.D. Domestic Violence Arrest Decision Matrix. The officer shall conduct a predominant aggressor assessment, document the self-defense assessment for each party involved and state in the report narrative the officer's conclusion as to whether the amount of force used by each party was:
    - i. Reasonable and proportionate, and
    - ii. Necessary to prevent a forcible offense or trespass against property.

**NOTE:** Under Louisiana Law there is no duty to retreat, in a self-defense situation.

### ARREST DECISION: OFFICER RECEIVES ADMISSION THAT ONLY ONE PERSON COMMITTED AN ILLEGAL ACT

26. If the officer receives an admission that only one person committed an illegal act and verifies the accuracy of this admission, thereby establishing probable cause for arrest, the officer shall conduct an arrest. However, if the officer finds probable cause that a person committed a misdemeanor, and that person is a victim of previous battering who poses no risk of impending danger, the officer may choose not to arrest. **The officer shall obtain supervisor approval of a decision not to arrest and document the decision in the report.**

### ARREST DECISION: CONFLICTING ACCOUNTS OR ALLEGATIONS THAT BOTH PARTIES COMMITTED A CRIME

27. If the officer receives conflicting accounts of the incident or if the officer receives allegations that a crime was committed against both parties, the officer shall follow these steps in this order: **A) Self-defense determination; B) Predominant aggressor assessment, if required; and C) Arrest decision:**

**A. Self-Defense Determination.** The officer shall **first** assess for self-defense.

**DO NOT** arrest or charge a party who the officer has determined has an affirmative defense or has acted in self-defense for that crime.

**B. Predominant aggressor assessment.** If the officer determines that both parties used illegal force or took illegal action, and neither party acted in self-defense, the officer shall

conduct a **predominant aggressor assessment**.

In making a predominant aggressor determination, the officer shall look for the **person who, by his or her actions in this incident and through history and previous actions, has caused the most physical harm, fear and intimidation against the other**, considering all of the evidence, including:

- (a) What each party's purpose is in using violence
- (b) Evidence from complainants and witnesses
- (c) Extent of personal injuries
- (d) Threat of future injury
- (e) Prior incidents of domestic violence (see answers to 5 risk questions and prior incidents based on dispatch history)
- (f) Future welfare of any minors
- (g) Who uses the highest level of violence in the relationship

**C. Arrest Decision.** If there is a predominant aggressor, the officer:

- (a) Shall arrest the predominant aggressor if there is probable cause that the predominant aggressor committed a domestic violence felony or misdemeanor.
- (b) Shall arrest both parties if there is probable cause to believe both parties committed a felony and the supervisor concurs with the decision. **Dual arrests are strongly discouraged, and officers must obtain supervisor approval before making a dual arrest.** If a dual arrest is made, the circumstances and the supervisory review and approval of the arrest decision must be documented in the investigative report.
- (c) If probable cause exists that the victim of battering committed a domestic violence misdemeanor on the batterer, an arrest of the victim of previous battering is permitted only if both parties pose a risk of impending danger. **Officers must obtain supervisor approval before making a dual arrest and document the investigation in the report.**

28. If there is no predominant aggressor, officers shall arrest when there is probable cause to believe one or more of the parties committed a misdemeanor or a felony. As set forth below in the **Dual Arrests** section, **dual arrests are strongly discouraged**. Officers must obtain supervisor approval before making a dual arrest and document the investigation in the report.

## **DUAL ARRESTS**

29. Officers shall obtain his/her supervisor's approval before making a dual arrest.
30. The department discourages dual arrests. The only circumstances in which an officer shall make a dual arrest are:
- (a) Both parties committed a felony; or
  - (b) Both parties committed a misdemeanor, and both pose a risk of impending danger.
31. A dual arrest **shall not** be made if one of the parties acted in self-defense.
32. The arresting officer shall use the same item number for both arrests. The report shall include a detailed explanation of the probable cause for each arrest.

## **WHEN NO PROBABLE CAUSE EXISTS TO ARREST**

33. When an arrest cannot be made due to a lack of probable cause that a crime has been

committed, the officer shall do the following:

- (a) Explain to the victim why an arrest is not being made.
  - (b) Advise the victim of his or her rights .
  - (c) Encourage any victim of domestic violence to contact the New Orleans Family Justice Center and provide information about the availability of Civil Protective Orders.
  - (d) Address a victim's need for medical care and transport to a safe place.
  - (e) Encourage any victim to call 911 if he/she is in danger.
34. Officers shall notify their supervisor and provide a detailed explanation as to why an arrest was not made prior to leaving the scene and giving a disposition for the call.

### **PROTECTIVE ORDERS**

35. Refer to **Chapter 74.3.2 – Protective Orders** for guidance on handling protective orders. If the Protective Order involves domestic/dating violence, the investigating officer(s) shall ask the Risk Assessment Questions and document the responses as required by this Chapter.

### **RESPONDING WHEN A SUSPECT IS NOT ON SCENE**

36. Officers shall obtain the following information when the suspect has left the scene prior to officers' arrival:
- (a) Suspect's name, date of birth and physical description, including clothing.
  - (b) Suspect's direction and mode of travel upon leaving the premises.
  - (c) Description of the suspect's vehicle, if applicable.
  - (d) Where the suspect might have gone.
  - (e) Where the suspect stays when not with the victim.
  - (f) Whether the suspect has ever interfered with the victim's attempts to seek help, especially from law enforcement.
37. Officers shall take the following actions when the suspect has left the scene prior to officers' arrival:
- (a) Search for the suspect in the immediate area and the direction and area where the suspect might have fled if the incident recently occurred or there is reason to believe the suspect may be in the area.
  - (b) Check with the victim or others at the scene for the suspect's phone number. If the suspect's number is available, call the suspect in an attempt to locate, request a meeting place or obtain the suspect's account of the incident over the phone. Interviewing the suspect in person is preferred.
  - (c) Encourage the victim to call 911 if the suspect returns.
  - (d) Offer to transport the victim or arrange for transport to shelter or another safe place if needed.
  - (e) Provide whatever assistance is reasonable to help the victim to secure broken doors or windows.
  - (f) Collect and process evidence in the same manner as when an arrest has taken place.
  - (g) After leaving the scene, when possible, drive by the residence over the next few hours and return to look for the suspect.
  - (h) Prepare an arrest warrant when probable cause exists.

### **COLLECTING AND DOCUMENTING RISK INFORMATION IN FELONY CASES**

38. Once an officer has conducted a felony arrest or determined there is probable cause to process a felony arrest warrant, the officer shall obtain (if not already obtained during

investigation) and document the following risk information from the victim :

- (a) Substance abuse
- (b) Gun ownership
- (c) Record of violence
- (d) Employment status of the perpetrator
- (e) Prior threats with a dangerous weapon
- (f) Threats to kill
- (g) Forced sex
- (h) Choking
- (i) Control of daily activities
- (j) Threats of suicide
- (k) Threats to harm children

39. It is necessary for officers to document this information in the report, as this risk information must be considered by judges in setting bail for felony domestic violence cases.

### **VICTIM DYNAMICS AND ASSISTANCE**

40. Officers shall work in collaboration with victims and provide specific support and attention to safety in responding to domestic violence calls.
41. Officers **shall not**:
- (a) Make any statements that would discourage a victim from reporting an act of domestic violence.
  - (b) Ask the victim if he/she wants the suspect arrested.
  - (c) Ask the victim if he/she will testify in court.
  - (d) Tell the perpetrator what the victim has told the officers.
  - (e) Threaten, suggest, or otherwise indicate the possible arrest of all parties to discourage future requests for intervention by law enforcement personnel.
42. It is likely that a victim's need for law enforcement assistance will continue beyond the individual incident the officer is responding to. An officer's reaction can define whether the victim sees law enforcement as a resource for ending the violence in the future. For this reason, it is important that officers use appropriate victim interview skills. The most important rule is: In the victim's own words, at the victim's own pace. That means that officers should:
- (a) Avoid interrupting the victim with questions
  - (b) Ask open-ended questions
    - i. "Tell me about. . ."
    - ii. "And then what happened?"
43. It is very common for a DV victim to feel angry, and some of that anger may be misdirected towards police officers. Even if officers are experiencing misdirected anger, it is important that officers:
- (a) Remain patient and calm in the face of hostility.
  - (b) Reassure the victim that he or she can continue to call law enforcement if necessary. This is especially true for victims who seem hostile or angry.
  - (c) Reassure the victim that the violence is not her or his fault and that she or he did the right thing by calling law enforcement.
  - (d) Provide the victim with privacy and dignity. This includes allowing her or him to change clothes if needed, shielded from on-lookers.
44. Victims are most likely to disclose abuse to the responding officer immediately following an assault. Most of the information on lethality and risk will be disclosed at this point in

time.

45. By following the above information, officers can both get the most complete information about the crime that was committed and encourage victims to continue to turn to law enforcement for assistance.
46. Officers shall take the following actions to provide victim assistance:
  - (a) Remain at the scene until the likelihood of further imminent violence has passed.
  - (b) When possible, obtain a phone number of someone who will always know how to reach the victim. Check with the victim to make sure the number is safe to include in the report.
  - (c) Provide victim with:
    - i. The Official Notice to Adult Victims of Family Violence form (Form #45); and
    - ii. The Rights of Crime Victims and Witnesses brochure (see Policy/PR 336, Victim Witness Assistance).
    - iii. The Louisiana Victim Notice and Registration (LAVNS) form. Tell the victim that the hotline numbers and community assistance listed on the Official Notice to Adult Victims of Family Violence (Form #45) are available to provide support 24 hours a day.
  - (d) Provide transportation to or arrange transportation for the victim to a safe location if the victim expresses a concern for his/her safety or if the officer determines that a need exists.
  - (e) Assist the victim in obtaining medical treatment.
  - (f) Notify the victim of his/her right to apply for a protective order and that assistance with this process can be obtained through the New Orleans Family Justice Center.
  - (g) Refer all victims to the New Orleans Family Justice Center.
47. Refer to **Chapter 55.1 - Victim and Witness Assistance** for general guidelines on providing victim assistance.

#### **CHECKING ON THE WELFARE OF AND INTERVIEWING CHILDREN**

48. Officers shall check on the welfare of each child at the scene.
49. Officers shall attempt to talk with each child at the scene and explain that the officers are there to help and to make sure everyone is safe. Do so immediately, and privately, if possible.
50. Be aware of how the child is responding to the situation and try to reduce the child's anxiety and fear.
51. Be alert to and document any spontaneous and relevant statements made by a child witness.
52. Officers shall not interview a child when the officer believes that the interview might be traumatic or harmful to the child. Document the reasons for not interviewing the child or children in the report. Consider the following in determining whether to interview children:
  - (a) Child's physical, emotional, or psychological ability to give a statement.
  - (b) Child's age and ability to understand questions and formulate responses.
  - (c) Non-offending parent/guardian's preferences as to whether and how to talk with the child or children.
53. When possible, officers shall document:
  - (a) In general, what the child heard and determine if the child has been injured or

directly harmed.

- (b) Names and dates of birth of any children present.
- (c) Presence and location of any children at the incident.
- (d) Physical and emotional condition of any children present.
- (e) Child or children's involvement in the incident, if any.

54. Officers shall call for medical assistance or transport the child to the nearest hospital for treatment as appropriate to the level of care needed if a child has been injured.

#### **AVOID ARREST IN FRONT OF CHILDREN**

55. Officers shall avoid subduing or arresting a party in front of children whenever possible. If a child witnesses the arrest, talk with the child to provide reassurance that the arrested person will be alright, the child did nothing wrong, the arrest is not his or her fault, law enforcement is there to help keep everyone safe for the night and that law enforcement, not the non-offending parent, is making the arrest decision.

#### **PROTECTIVE CUSTODY OF CHILDREN**

56. When the actions of the officer result in a situation where no responsible adult will be present in the home to care for the children (e.g., dual arrest or a single arrest and the other parent/adult must seek medical treatment), the officer shall inquire of the custodial parent if there is someone who can be contacted to care for the children. When required by law (Louisiana Children's Code, Art. 601, et. Seq.), or when actions taken by the officer will result in a situation where no responsible adult can be located to care for the children, officers shall contact Juvenile Services (**Chapter 44.1.4 - Temporary Custody of Juveniles**).

#### **INCIDENT INVOLVING DEPARTMENT EMPLOYEES**

57. When responding to a domestic violence call involving a department employee, officers shall:
- (a) Secure the scene and address the safety needs of those present.
  - (b) Request their supervisor be dispatched to the scene to oversee the investigation.

#### **RESPONDING TO INCIDENTS INVOLVING A LAW ENFORCEMENT OFFICER**

58. Upon arrival on the scene of a domestic violence call involving a law enforcement officer, the responding officer shall:
- (a) Immediately notify Communication Services and request a supervisor report to the scene, regardless of the involved officer's jurisdiction.
  - (b) Be aware of the heightened risk that the suspect will likely possess firearms, other weapons, physical combat training or all three.
  - (c) Secure the scene and all weapons.
  - (d) Be aware that the suspect might attempt to make emotional appeals to fellow officers.

#### **INCIDENTS INVOLVING PUBLIC FIGURES**

59. When responding to a domestic violence call involving a public figure, officers shall:
- (a) Secure the scene and address the safety needs of those present.
  - (b) Request their supervisor be dispatched to the scene.
  - (c) Conduct an investigation at the direction of their supervisor.
  - (d) Make an arrest decision in accordance with department regulations.
  - (e) Advise Communication Services NOPD Command Desk to make the necessary

notifications.

- (f) When possible, take precautions to protect the victim's confidentiality, such as not using the victim's name or incident address over radio.

## REPORTS

- 60. Officers shall provide case dispositions to domestic violence calls for service according to the guidance below:
  - (a) **RTF** (report to follow) *regardless of whether an arrest was made* if there has been **any contact** with any involved party, witness, or complainant either in person or by phone.
  - (b) **NAT** (necessary action taken) **cannot** be used for domestic violence incidents.
  - (c) **GOA** (gone on arrival) can only be used if there has been **no contact** with any involved party, witness, or complainant either in person or by phone.
  - (d) **UNF** (unfounded) can only be used if there is clearly no substantive domestic violence issue present or the incident occurred out of parish. A supervisor must approve any disposition of unfounded.
- 61. Reports shall include victim statements and disposition of the case (La. R.S. 46:2141; Ch. C. 1574).
- 62. The "D" signal code designator shall be used on all domestic violence incidents.
- 63. When responding to a **domestic violence call**, the officer shall complete all domestic violence forms in their entirety, including the NOPD Domestic Violence Patrol Report Checklist (Form #46) and injury documentation on the Domestic Violence Supplemental page.
- 64. Officers shall utilize the NOPD Domestic Violence Patrol Report Checklist (Form #46) when investigating a **domestic violence call** for service. This checklist is used as a guideline, which contains important questions that need to be asked and answered for a complete investigation, ensuring the officer is receiving the necessary information on the scene. The officer shall document the responses within the narrative of the report. Officers shall complete a predominant aggressor assessment to include the **5 Risk Questions** listed in the checklist. **The responses to the 5 Risk Questions shall be documented in the report narrative. The responses shall also be included in an arrest warrant or gist when applicable.**
- 65. **The checklist shall be attached to the police report as a document.**

## CHANGING THE SIGNAL

- 66. Should the officer believe the parties do not meet the domestic relationship criteria defined in this chapter, the officer shall contact his/her supervisor for approval to proceed with the investigation as a non-domestic incident. The officer shall explain the reasons / circumstances that justify the signal change and record the explanation on his/her BWC.
- 67. Should the officer believe the parties do meet the domestic relationship criteria defined in this chapter, but the incident has not been classified with a "D" signal code, the officer shall notify dispatch to change the signal code to a domestic incident.
- 68. **Only a supervisor may change the signal of a domestic violence call to a domestic disturbance or non-domestic signal by notifying Communication Services on the primary dispatch channel** for that District or, if the signal change is to

occur after the item has been marked up, by a Request for Signal/Disposition Change form (Form #226). A call for service shall not be reclassified as non-domestic when the involved parties are in a domestic relationship as defined by this Chapter.

69. The supervisor shall specifically inquire whether the relationship of the parties meets the guidelines of this Chapter before changing the signal. If the officer states there is no domestic relationship, the supervisor shall require an explanation as to why there is no domestic relationship before changing the signal. The supervisor shall conduct these communications on scene or over the District Talk Group. Any signal changes shall be communicated on the primary dispatch channel.
70. The Compliance Bureau reviews signal changes for items that change from a domestic signal to a non-domestic signal. This review includes EPR and BWC recordings on the event/item.

**NOTE: Both the supervisor and officer should be aware that omitting material facts that could affect the justification for a signal change is considered a violation of Rule 2 – Moral Conduct, paragraph 3 – Honesty and Truthfulness.**

#### **DISTRICT INVESTIGATIVE UNIT DETECTIVES**

71. Any district detective conducting a supplemental investigation of a domestic violence case shall abide by the **Domestic Violence Unit Standard Operating Guidelines located in the Resource folder in NOPD.org.**

#### **DOMESTIC VIOLENCE UNIT STANDARD OPERATING GUIDELINES**

72. The Domestic Violence Unit supervisor shall be responsible for returning incomplete reports to the appropriate platoon supervisor or District Commander for review and a supplement, when necessary.
73. The Domestic Violence Unit will be responsible for follow-up investigations of felonies, certain misdemeanors, and certain cases where the offender is not arrested on the scene.

#### **DISTRICT PLATOON SUPERVISOR**

74. Platoon supervisors shall relay the department's priorities and expectations, thereby reinforcing the interagency response and the platoon officer's key role. This is accomplished by the supervisors' attending domestic violence calls at the scene when required by department regulations; reviewing reports to maintain the department's report-writing standards; and reinforcing the importance of thorough reports to victim safety and offender accountability.

#### **SUPERVISOR SCENE OVERSIGHT**

75. Supervisors shall be responsible for monitoring any domestic violence calls dispatched to the officers under their direct supervision.
76. Whenever possible, platoon supervisors shall respond to the scene for Code 2 domestic violence calls for the purpose of providing additional safety, monitoring officers' on-scene activities and compliance with policy and offering assistance and advice. Refer to **Chapter 41.4.1 - Officer Response to Calls.**

**SUPERVISOR REPORT REVIEW**

77. Platoon supervisors shall:
- (a) Conduct reviews of platoon officers' reports to ensure compliance with this Chapter.
  - (b) Refer to the Supervisor's *Domestic Violence Report Review Checklist (Form 341)*, located in the Resource Folder on nopd.org, to verify the necessary domestic violence reporting elements are present in each platoon officer's report.
  - (c) Return incomplete reports to the officer for corrections and meet with officers to discuss ongoing problems with report writing.

**SUPERVISOR APPROVAL OF DECISIONS NOT TO ARREST AND DUAL ARRESTS**

78. Supervisors are responsible for approving or disapproving an officer's decision to make a dual arrest consistent with this chapter.
79. When notified of an officer's determination of insufficient probable cause to make an arrest, supervisors shall review all relevant information concerning the incident and either:
- (a) Advise the officer to make an arrest based on the information provided; or
  - (b) Advise the officer to document the reason for not making an arrest.

**SUPERVISOR RESPONSIBILITIES IN INCIDENTS INVOLVING NOPD MEMBERS**

80. Supervisors shall:
- (a) Respond to scene of all department employee-involved domestic violence incidents.
  - (b) Notify the Public Integrity Bureau and follow department regulations.
  - (c) Ensure the scene is secured, including weapons, and oversee the scene until PIB investigators arrive on scene.
  - (d) Ensure the victim is given the required information about victims' rights and is given the Official Notice to Adult Victims of Family Violence form (Form #45).

**SUPERVISOR RESPONSIBILITIES IN INCIDENTS INVOLVING PUBLIC FIGURES**

81. Supervisors shall:
- (a) Respond to scene of all domestic violence incidents involving public figures.
  - (b) Notify the Communication Services - to make notifications.
  - (c) Ensure the victim is given the required information about victims' rights and is given the Official Notice to Adult Victims of Family Violence form (Form #45).

**PUBLIC INTEGRITY BUREAU SUPERVISOR**

82. A Public Integrity Bureau Investigator shall conduct any investigation involving a member of the department involved in a domestic violence incident.

**TRAINING**

83. The Commander of the Education and Training Division or his/her designee shall develop a lesson plan for training officers who respond to domestic violence calls in accordance with department policy. Training will reflect changes in policy, law, and developments in best practices.
84. All officers shall receive, at least annually, comprehensive mandatory instruction on this Chapter and responding to domestic violence calls.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.4.1

### TITLE: DOMESTIC DISTURBANCE (103-D)

**EFFECTIVE: 07/08/2018**

**REVISED:**

---

#### PURPOSE

The purpose of this Chapter is to provide the guidelines for responding to domestic disturbance incidents. Domestic disturbances are incidents involving individuals with a domestic relationship that do not involve a crime.

#### POLICY STATEMENT

1. The New Orleans Police Department's response to domestic disturbance incidents shall emphasize the importance of accumulating information over time in order to understand and appropriately respond to the level of danger and risk posed by individuals involved in domestic disturbances.
2. Members shall respond to all instances of domestic violence according to **Chapter 42.2 – Domestic Violence**.
3. Whenever there is any doubt as to whether an incident shall be classified as a domestic disturbance or domestic violence, the member shall respond according to **Chapter 42.2 – Domestic Violence**.
4. Officers shall respond to domestic disturbance incidents with the same empathetic approach detailed in **Chapter 42.2 – Domestic Violence**.
5. Officers shall handle protective orders according to **Chapter 74.3.2 – Protective Orders**.

#### DEFINITIONS

**Dating Partner**—Any person who is involved or has been involved in a sexual or intimate relationship with the offender characterized by the expectation of affectionate involvement independent of financial considerations, regardless of whether the person presently lives or formerly lived in the same residence with the offender.

**Domestic Disturbance (103-D)**—A call for service involving individuals with a domestic relationship that does not involve a crime.

**Domestic Relationship**—Any relationship involving the following, including same sex

relationships:

- (a) Current or former spouses;
- (b) Parents and adult children;
- (c) Stepparents and adult stepchildren;
- (d) Foster parents and adult foster children; or
- (e) Current or former dating partners, living together or not.

**Domestic Violence**—Used to refer to battering, a crime of violence, or property damage between individuals with a domestic relationship (R.S. 46:2151, M.C.S.17271 54-525).

### OFFICER RESPONSE

6. All domestic disturbance calls assigned a code 2 priority response shall be answered with two officers and, whenever possible, a supervisor. Domestic disturbance calls assigned a code 1C priority response may be answered by one officer. Refer to **Chapter 41.4.1 - Officer Response to Calls**.
7. Officers shall secure the scene and, if necessary and as safety permits, separate all parties.
8. Officers shall obtain a comprehensive account of events by:
  - (a) Interviewing or talking with each party or witness away from sight and hearing of other parties as safety permits.
    - i. Arrange for an interpreter when necessary. Do not utilize either party as an interpreter.
    - ii. Interview children in a manner appropriate to their age.
  - (b) Observing the emotional and physical states of parties at the scene, including intoxication.
  - (c) Checking each party for criminal history and for the existence of a protective order through the Louisiana Protective Order Registry, or by other means available.

### WHEN PROBABLE CAUSE EXISTS TO ARREST

9. Follow **Chapter 42.4 – Domestic Violence** to make the arrest decision.

### WHEN NO PROBABLE CAUSE EXISTS TO ARREST

10. When an arrest cannot be made due to a lack of probable cause that a crime has been committed, the officer shall do the following:
  - (a) Explain to the parties why an arrest is not being made.
  - (b) Advise the parties of their rights.
  - (c) Encourage the parties to contact the New Orleans Family Justice Center regarding support services.
  - (d) Encourage any party to call 911 if he/she is in danger.

### REPORTS

11. Officers shall provide case dispositions to domestic violence calls for service according to the guidance below:
  - (a) **RTF** (report to follow) *regardless of whether or not an arrest was made* if there has been **any contact** with any involved party, witness, or complainant either in person or by phone.
  - (b) **NAT** (necessary action taken) **cannot** be used for domestic violence incidents.
  - (c) **GOA** (gone on arrival) can only be used if there has been **no contact** with any

involved party, witness, or complainant either in person or by phone.

- (d) **UNF** (unfounded) can only be used if there is clearly no substantive domestic violence issue present or the incident occurred out of parish. A supervisor must approve any disposition of unfounded.

12. The “D” signal code designator shall be used on all domestic incidents.
13. Officers are **not required** to complete the Domestic Violence Patrol Report Checklist (Form #46) for domestic disturbances. Officers shall upgrade domestic disturbance calls to domestic violence calls as appropriate and follow the associated reporting requirements set forth in **Chapter 42.4 – Domestic Violence**.

### **CHANGING THE SIGNAL**

14. Should the officer believe the parties do not meet the domestic relationship criteria defined in this Chapter, the officer shall contact his/her supervisor for approval to proceed with the investigation as a non-domestic incident. The officer shall explain the reasons / circumstances that justify the signal change and record the explanation on his/her BWC.
15. Should the officer believe the parties do meet the domestic relationship criteria defined in this chapter, but the incident has not been classified with a “D” signal code, the officer shall notify dispatch to change the signal code to a domestic incident.
16. ***Only a supervisor may change the signal of a domestic disturbance (103-D) call to a non-domestic call by notifying Communication Services on the primary dispatch channel*** for that District or, if the signal change is to occur after the item has been marked up, by a Request for Signal/Disposition Change form (Form #226). A call for service shall not be reclassified as non-domestic when the involved parties are in a domestic relationship as defined by this Chapter.
17. The supervisor shall specifically inquire whether the relationship of the parties meets the guidelines of this Chapter before changing the signal. If the officer states there is no domestic relationship, the supervisor shall require an explanation as to why there is no domestic relationship before changing the signal. The supervisor shall conduct these communications on scene or over the District Talk Group. Any signal changes shall be communicated on the primary dispatch channel.
18. The Compliance Bureau reviews signal changes for items that change from a domestic signal to a non-domestic signal. This review includes EPR and BWC recordings on the event/item.

**NOTE: Both the supervisor and officer should be aware that omitting material facts that could affect the justification for a signal change is considered a violation of Rule 2 – Moral Conduct, paragraph 3 – Honesty and Truthfulness.**

### **SUPERVISOR REPORT REVIEW**

19. Platoon supervisors shall review domestic disturbance reports to ensure proper response and classification.
20. Supervisors shall return incomplete reports to the officer for corrections and meet with officers to discuss ongoing problems with report writing.

## NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

### CHAPTER: 42.5

## TITLE: COMPUTER VOICE STRESS ANALYZER (CVSA), POLYGRAPH TESTING AND PSYCHOLOGICAL STRESS EVALUATOR (PSE)

**EFFECTIVE: 04/15/2018**

**REVISED: Replaces Policy 840**

---

### PURPOSE

The purpose of this Chapter is to regulate the administration of the Computer Voice Stress Analyzer (CVSA), the Psychological Stress Evaluator (PSE), and Polygraph examinations in connection with pre-employment, criminal, and internal investigations conducted by the New Orleans Police Department. Additionally, this Chapter provides investigative officers with a general knowledge of procedures and use of the equipment.

### DEFINITIONS

**Certified Stress Analyst and Psychological Stress Evaluator**—Any person who is state certified to be able to detect deception or verify truth of statements through the use of emotional stress detectors or instrumentation.

**Emotional Stress Detector**—An instrument or apparatus for permanently and visually recording the physiological reactions of stress in an individual.

**Emotional Stress Instrumentation**—The minimum required instrumentation which may be used by a stress analyst.

**Polygraphist**—Any person who is state certified to be able to detect deception or verify truth of statements through the use of polygraph equipment.

**Polygraph machine**—An instrument that records certain physiological changes in a person undergoing questioning in an effort to establish truth or deception.

**Overt Interviews**—Live interviews by the CVSA examiner with a suspect, victim, witness or complainant. These interviews are conducted with prior knowledge and permission that certain questions will be recorded live and captured by the CVSA or PSE for analysis. Additionally, all or portions of the interviews will be recorded on audio and/or video tape.

**Covert Interviews**—Audio tape analysis by the CVSA or PSE examiner where investigators have obtained voluntary tape interviews from a suspect, victim, witness, or complainant. The interviews are designed to capture a yes or no response to pre-formatted questions. This taped interview will then be analyzed by the CVSA or PSE.

**Audio Tape Analysis**—CVSA or PSE examiner's analysis of the recorded responses of taped interviews wherein the individual has responded with yes or no answers to a pre-formatted questionnaire.

### **GENERAL INFORMATION**

1. Upon order of the Superintendent of Police, any Department member shall be required to submit to a CVSA, PSE and/or Polygraph examination to clarify any matter concerning an internal administrative investigation.
2. Other than when a member is ordered to submit to testing, voluntary written consent shall be obtained from all individuals prior to testing, except as otherwise provided for in this Chapter.
3. Any member refusing an order to submit to a CVSA, PSE, and/or Polygraph examination in an administrative investigation will be subject to disciplinary action.
4. Polygraph, PSE and CVSA testing shall not be used as a single determinant for gaining employment or final determinant factor in investigations. The tests shall not be used to circumvent good investigative procedures.
5. The CVSA and PSE are used for truth verification. Therefore, these tests should be viewed as a means to protect the integrity of the interviewee.
6. Polygraph examinations are conducted as an aid to criminal, internal, and applicant investigations conducted by this department. Polygraph examinations shall be used in conjunction with established investigative techniques.

### **USE OF CVSA, PSE AND POLYGRAPH EXAMINATIONS FOR EMPLOYMENT PURPOSES**

7. CVSA, PSE and/or Polygraph examinations shall be used in the selection process for pre-employment. Applicants will be provided with a list of areas from which CVSA, PSE, and Polygraph questions shall be drawn at the time of their formal application.
8. The polygraph examiner shall review all relevant applicant screening reports and applicant personal history summaries before conducting the examination.
9. CVSA, PSE and/or Polygraph tests will be administered to both commissioned and civilian applicants for the following purposes:
  - (a) Verify accuracy and completeness of the information on the application;
  - (b) Resolve questions or conflicts arising during background investigation;
  - (c) Document history of criminal or other disqualifying behavior; and
  - (d) Deter those seeking to penetrate law enforcement departments for improper purposes.
10. Questions to be asked will be provided to the applicant at the test location just prior to testing so applicants can have sufficient time to review and ask the examiner clarification questions.
11. CVSA, PSE and Polygraph tests shall not be the single determinant of employment. Admissions made before, during, or after the examination may be used to determine suitability for employment.
12. Investigators should attempt to conduct additional investigation when possible deception

is indicated in the examination.

### **USE OF CVSA, PSE AND POLYGRAPH EXAMINATIONS FOR CRIMINAL INVESTIGATIVE PURPOSES**

13. CVSA, PSE and Polygraph examinations may be utilized in conjunction with investigative leads and interviews of suspects, victims, and witnesses.
14. When practical, both the victim and the accuser should be tested in order to add validity to the examination results.
15. CVSA, PSE, or Polygraph examinations may only be conducted on a complainant, victim, or witness:
  - (a) After he/she has given a complete and formal interview statement.
  - (b) When there is little physical evidence or there are disinterested witnesses, and
  - (c) Only as a method of verifying the person's statement.
16. The use of CVSA, PSE, or Polygraph examinations for investigative purposes shall be strictly voluntary on the part of the complainant, victim, or witness.
17. The results are not to be used for arrest or legal action but are designed for developing leads, validity, and obtaining case direction.
18. Whenever practical during the use of CVSA/PSE, audio tape analysis should be followed up with a live interview and examination.
19. An examiner shall not conduct an examination upon a subject if it is believed, for any reason that an unbiased examination cannot be given.
20. The examiner shall read Miranda rights to the subject and explain the voluntary nature of the test.
21. The examiner shall obtain a signed consent prior to administering the examination.
22. Examinations shall cease immediately if requested by the person being tested.
23. Prior to any examination, the examiner shall explain the procedure to the person being tested and provide sufficient time for the individual to prepare.

### **USE OF CVSA, PSE AND POLYGRAPH EXAMINATIONS FOR ADMINISTRATIVE INVESTIGATIVE PURPOSES**

24. In internal disciplinary investigations, a CVSA exam may be administered to a member, complainant, or witness only after approval for such an exam has been obtained from the Superintendent of Police.
25. Approval must be obtained in writing from the Superintendent of Police prior to the administering of a CVSA exam to any department member.

### **WHO MAY BE TESTED**

26. Any person who can distinguish right from wrong may be tested. Generally, children who recognize right from wrong are testable. However, children will only be tested at the examiner's discretion and with the written consent of a parent or legal guardian after an advisement of all rights. (See: **Chapter 1.9.1 – Miranda** regarding the additional rights of

a juvenile).

### **WHO MAY NOT BE TESTED**

27. Children under six years of age will not be tested.
28. Individuals under the age of 18 must have the consent of a parent or legal guardian prior to testing. The consent must be in writing and in the possession of the examiner prior to the examination. (See: **Chapter 1.9.1 – Miranda**).
29. Except for administrative investigations of members who have been ordered, any person who has been forced or coerced into taking the examination (except as provided for in this regulation) will not be tested.
30. Any suspect who has been charged with a crime shall not be tested unless there is an agreement and stipulation signed by the person to be examined, his/her defense attorney and the prosecutor.
31. CVSA, PSE or Polygraph examinations shall not be conducted on anyone who is not sufficiently relaxed. A cooling off period will be required for anyone following an interrogation or intense interview or who is extremely angry, upset or distraught.
32. Anyone who is severely mentally handicapped or impaired by alcohol or drugs will not be tested.

### **RESPONSIBILITIES OF CVSA, PSA AND POLYGRAPH EXAMINERS**

33. The CVSA, PSE or Polygraph examiner shall review the available information pertaining to the case in question prior to administering an examination.
34. The CVSA, PSE or Polygraph examiner shall have the approval of his/her supervisor prior to conducting a tape analysis unless it is accompanied by a voluntarily signed consent.
35. Any covert use of the CVSA or PSE must be authorized by the examiner's Division/Section Commander.
36. Individuals shall not be examined at the request of another agency without prior written approval of the Superintendent of Police.
37. Requests for examinations directed to the Public Integrity Bureau will be approved by the Deputy Chief of the Public Integrity Bureau and the Superintendent of Police.
38. All CVSA PSE and Polygraph operators will submit a monthly log of all requested examinations and tests administered to his/her respective Division/Section Commanders.
39. The CVSA or PSE examiner will obtain a second opinion from another certified examiner on all cases.
40. The CVSA, PSE or Polygraph examiner shall not conduct examinations that may compromise the examiner's integrity (e.g., tests on close friends, relatives, and persons the examiner has a relationship with).
41. CVSA, PSE or Polygraph examiners are not obligated to:

- (a) Accept an order from a superior or governing authority that would cause him/her to violate professional standards (standards taught by the certified examiner's course);
  - (b) Obey illegal orders; and
  - (c) Conduct an examination on a subject that is not suitable for testing.
42. The examiner is the final authority on testing matters.
43. Examiners refusing to obey orders relative to PSE, CSVSA or Polygraph professional standards shall document same through an NOPD form 105 (interoffice correspondence) through their chain of command to the Superintendent of Police.
44. In the event the examiner declines to administer an examination and the decision/reason is questioned, a second opinion from another CSVSA or PSE examiner will be obtained.
45. The polygraph examiner shall independently interpret the chart tracings and render an opinion on findings such as, but not limited to: **No Deception, Deception Indicated or Inconclusive.**

#### **RESPONSIBILITIES OF OFFICER / INVESTIGATOR REQUESTING A CSVSA, PSE OR POLYGRAPH EXAMINATION**

46. The investigator should adequately complete an investigation or consult with the examiner during the investigation prior to an examination being scheduled.
47. The investigator will be responsible for notifying the subject of the date and time of the scheduled appointment and ensure the subject has transportation to the location of the examination.
48. The investigator will remain available at the test location until completion of the examination unless otherwise agreed to by the examiner and investigator.
49. The investigator will notify the CSVSA, PSE, or Polygraph examiner immediately if the subject cancels an examination appointment.
50. A CSVSA, PSE or Polygraph test should be utilized during investigations in which truthfulness is an issue.

#### **CSVSA, PSE AND POLYGRAPH EXAMINATION RECORDS**

51. CSVSA, PSE and Polygraph records will include, depending on the circumstances, a waiver of rights form, a voluntary submission form, a subject information sheet, any CSVSA or PSE graphs, any polygraph charts and statements of results. Video records of examinations and interviews shall be noted on all required reports.
52. CSVSA, PSE and Polygraph records will be maintained for that period of time as specified by the Department's record retention schedule and/or until any litigation is concluded. CSVSA, PSE and Polygraph records will be maintained in a secure area within their respective originating unit accessible only to the examiner.

#### **PUBLIC INTEGRITY BUREAU**

53. CSVSA, PSE and Polygraph examinations **shall not** be administered during criminal investigations involving employees of the New Orleans Police Department without a signed **NOPD Form 153 – Rights of an Arrestee or Suspect** indicating the individual

has waived his/her rights. Additionally, a **Voluntary Submission Form** must be signed by the individual indicating he/she is freely submitting to the CVSA, PSE and/or Polygraph test.

54. Public complainants and witnesses (not NOPD members) may be tested by use of the CVSA, PSE and/or Polygraph tests if a question of truthfulness arises during the investigation of their complaint or allegation.
55. These interviews shall only be conducted after a **Voluntary Test Waiver form** has been signed.
56. In the case of a CVSA or PSE covert interview (audio tape analysis), the operator shall receive prior, written authorization from the Superintendent of Police should the individual be a member of the Department.

### **CVSA/POLYGRAPH EXAMINERS**

57. Members certified as CVSA, PSE or Polygraph examiners, whose certification and training has been supplied or paid for by the City of New Orleans and whose normal duties and responsibilities do not normally cover CVSA, PSE or Polygraph testing, may be called upon to administer examinations as the need arises.
58. Members certified as CVSA, PSE or Polygraph examiners must keep their certifications up to date or refrain from any testing until all requirements for certification are current.
59. Members whose certification and training has been supplied or paid for by the City of New Orleans must obtain written permission for any testing done outside of his/her NOPD duties (including police secondary employment).
60. Members certified as CVSA, PSE or Polygraph examiners must receive training on legal requirements of interrogation techniques and updates and changes to the law, if any, with respect to the use of these devices in criminal investigations. This may be accomplished through annual in-service training and/or periodic re-certification on the devices used.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.8

### TITLE: EYEWITNESS IDENTIFICATION

**EFFECTIVE: 04/15/2018**

**REVISED: 11/01/20**

---

#### PURPOSE

This Chapter sets forth guidelines to be used when members of this department employ witness identification techniques other than photographic line-ups.

#### POLICY STATEMENT

1. This department will use witness identification techniques, when appropriate, to enhance the investigative process and will emphasize identifying those persons responsible for crime and exonerating the innocent.
2. NOPD members shall conduct photographic line-ups according to **42.8.1 – Eyewitness Identification – Photographic Line-Ups**.

#### DEFINITIONS

**Confirmation Photograph**—A single photograph displayed to a witness in an effort to confirm the identity of a suspect. This method is limited to situations in which the suspect is previously known to the witness by name.

**Eyewitness Identification Process**—Any field identification, live lineup or photographic identification.

**Field Identification/Show-Up**—A live presentation of a single individual to a witness shortly following the commission of a criminal offense for the purpose of identifying or eliminating the person as the suspect.

**Physical Lineup**—The live presentation of a number of people to an eyewitness for the purpose of identifying or eliminating an individual as the suspect. A lineup differs from a field identification/show up in that it is conducted in a controlled setting, such as a police facility, a known suspect is in the mix, and the participants are aware that an identification procedure is being conducted.

**Photographic Lineup**—Presentation of photographs to a witness for the purpose of identifying or eliminating an individual as the suspect.

**Sequential Lineups**—A set of photographs of individuals presented to an eyewitness

consisting of one suspect among a number of fillers with like characteristics, shown one at a time and in random order.

### EYEWITNESS IDENTIFICATION GENERAL

3. Due process requires that identifications be conducted in a fair, objective, and nonsuggestive manner.
4. Due process is violated when identification procedures arranged and/or conducted by the police are unnecessarily suggestive and conducive to irreparable mistaken identification.
5. Prior to conducting an identification procedure, investigators should take a full description of the suspect from the witness and document that description.
6. The officer should record the critical parts of what a witness has said verbatim as to how confident or certain he or she is of the identification made.
7. Officers should avoid any words or actions that suggest to the witness that a positive identification is expected, who they expect the witness to identify, or congratulating the witness on an identification.
8. Every show-up, photo array, line-up or voice identification procedure, whether an identification is made or not, shall be documented in a report (EPR). The report shall include a summary of the procedure, the persons who were present for it, instructions given to the witness by the officer (this is accomplished by submitting the appropriate witness instruction form as part of the report), any statement or reaction by the witness, and any comments made by the witness regarding the identification procedure.
9. Officers shall not, in any way, influence a witness as to whether any subject presented in a lineup is in any way connected to the case. Officers shall avoid mentioning that:
  - (a) The individual was apprehended near the crime scene.
  - (b) The evidence points to the individual as the suspect.
  - (c) Other witnesses have identified, or failed to identify, the individual as the suspect.
10. In order to avoid undue influence, witnesses shall view suspects or a lineup individually and outside the presence of other witnesses. Witnesses shall be instructed to avoid discussing details of the incident or of the identification process with other witnesses.
11. Each witness shall be admonished that he/she is not required to make an identification of any person shown during an eyewitness identification process and **that the suspect may or may not be present in the lineup.**
12. The eyewitness identification procedure shall be audio and/or video recorded and the recording shall be retained according to current evidence procedures.

### WITNESSES WITH LIMITED ENGLISH PROFICIENCY

13. If a witness to a criminal offense does not fluently speak the English language or otherwise has difficulty communicating (e.g. hearing impaired), officers shall ensure an interpreter or an interpretive device is present and available before proceeding with eyewitness identification (refer to **Chapter 55.5.1 - Communication with persons who are deaf or hearing impaired** or **Chapter 55.4 - Limited English Proficiency Services**).

14. Before the interpreter is permitted to discuss any matter with the witness, the investigating officer shall explain the identification process to the interpreter. Once it is determined that the interpreter comprehends the process and can explain it to the witness, the eyewitness identification may proceed as provided for within this Chapter.

### **FIELD IDENTIFICATION CONSIDERATIONS**

15. Field identifications, also known as field show-ups or one-on-one identifications, may be helpful in certain cases where exigent circumstances make it impracticable to conduct photo or physical lineup identifications.
16. A field elimination or show-up identification should not be used when independent probable cause exists to arrest a suspect. In such cases a physical or photo lineup is the preferred course of action if eyewitness identification is contemplated.

### **DOCUMENTATION**

17. A thorough description of the eyewitness identification process, to include the display procedure, and the results of any eyewitness identification shall be documented in the investigative report. All witness statements and/or comments shall be documented in the report. (i.e., comments of how certain the witness is of the identification or non-identification, etc.).
18. The identities of all individuals present during the identification procedure shall be documented in the case report.

### **PHYSICAL LINEUPS**

19. A physical line-up shall only be conducted after consultation with the investigating officer's supervisor and the Orleans parish District Attorney's Office. When it is determined that a physical lineup will be necessary, the investigating officer shall contact the District Attorney's Office and request a lineup be scheduled. Officers shall request the presence of an Assistant District Attorney at the time a lineup is held; however, his/her presence is not required for the lineup. The investigating officer will follow the detailed instructions provided by the assigned Assistant District Attorney in conducting the physical lineup and documenting the same. As a general guideline, the person who conducts the physical lineup should have no knowledge of the investigation, and persons with the same general physical characteristics should be used as "fillers."

### **IDENTIFICATION OF SUSPECTS**

20. Fairness in the identification procedure as well as in the actual confrontation between the suspect and victim/witness shall be required.
21. Officers shall refrain from making any suggestive movements or statements at the time of the identification process. If the witness or victim is hesitant in identifying the suspect, the officers shall include that fact in the report.
22. When initiating a field identification, the officer shall observe the following guidelines:
  - (a) Obtain a complete description of the suspect from the witness.
  - (b) Assess whether a witness should be included in a field identification process by considering:
    - i. The length of time the witness observed the suspect.
    - ii. The distance between the witness and the suspect.
    - iii. Whether the witness could view the suspect's face.

- iv. The quality of the lighting when the suspect was observed by the witness.
  - v. Whether there were distracting noises or activity during the observation.
  - vi. Any other circumstances affecting the witness's opportunity to observe the suspect.
  - vii. The length of time that has elapsed since the witness observed the suspect.
- (c) If safe and practicable, the person who is the subject of the show-up should not be handcuffed or in a patrol vehicle.
  - (d) When feasible, officers should bring the witness to the location of the suspect, rather than bring the suspect to the witness.
  - (e) A person should not be shown to the same witness more than once.
  - (f) In cases involving multiple suspects, witnesses should only be permitted to view the suspects one at a time.
  - (g) A person in a field identification should not be required to put on clothing worn by the suspect, to speak words uttered by the suspect or to perform other actions mimicking those of the suspect.
23. If a witness positively identifies an individual as the perpetrator, officers should not conduct any further field identifications with other witnesses for that suspect. In such instances, officers should document the contact information for any additional witnesses for follow-up. Any physical items the suspect may have in his possession which can be identified by the victim/witness, such as clothing, stolen items, etc., and which may be used in the prosecution of the subject, shall be confiscated by the officer.

#### **CONFIRMATION PHOTOGRAPHS**

24. If a victim or witness identifies an individual suspect by a name, even a street name, and he/she indicates that he/she knew the subject prior to the incident in question, officers may use a confirmation photograph, if available, to verify that the identity of the suspect.
25. To utilize a confirmation photograph, the officer shall:
- (a) Relocate the victim or witness to the District station if the witness consents;
  - (b) Interview the victim or witness utilizing the interview/interrogation room and record the entire confirmation process on video;
  - (c) Document on video and in the EPR the information provided by the victim or witness that allows the usage of a confirmation photo;
  - (d) Present the photograph to the victim or witness and ask if this is a photograph of the suspect the victim or witness previously identified by name;
  - (e) Document the identification process in the EPR and specifically note the degree of certainty of the results of the identification;
  - (f) On the back of the photograph, note the date and time of the presentation and have the victim or witness sign the back of the photograph used;
  - (g) A copy of the photograph may be used in the investigative report or file, but the original dated and signed photograph shall be placed on the evidence books at Central Property and Evidence under the investigation's item number by the officer conducting the confirmation photo process within 24 hours of the presentation.
26. The investigating officer shall enter all required information into the Photographic Line-Up Log immediately after the administration of the confirmation photo.
27. **Only one confirmation photograph process shall be used in any case to identify a known suspect.**

**DRAWINGS, SKETCHES AND IDENTI-KIT COMPOSITES**

28. An artist's sketch, computerized drawing, composite, or other depiction can sometimes aid an investigation, but are most effective when a witness has a good recollection of the offender's facial features. However:
  - (a) Research has shown that a person selected based on resemblance to composite is **more likely to be mistakenly identified**.
  - (b) Additionally, building a composite has been shown to **lower a witness's accuracy** for identifying the original face.
29. Prior to attempting a sketch or composite, officers should take a full description of the offender from the witness and document the description in his/her report.
30. A sketch prepared by a trained artist is preferred over a composite.
31. Sketches and composites should not be attempted prior to the showing of a photo array or line-up.
32. Once the sketch or composite has been completed, the witness should be asked to state in his/her own words how accurately the composite reflects how the suspect appeared during the crime and a report should be prepared regarding the sketch or composite procedure.
33. The fact that a suspect resembles a sketch or composite is not, without more evidence, probable cause to believe that the suspect is the offender.
34. The use of mug books, mug shots and hypnotically aided identification is prohibited.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.8.1

### TITLE: EYEWITNESS IDENTIFICATION – PHOTOGRAPHIC LINE-UP

**EFFECTIVE: 3/12/2017**

**REVISED: Replaces Policy and Procedure 610**

---

#### PURPOSE

1. This Chapter establishes requirements for administering photographic line-up eyewitness identification methods for the purpose of identifying persons responsible for crime and exonerating the innocent.

#### POLICY STATEMENT

2. This Department will strive to use eyewitness identification techniques, when appropriate, to enhance the investigative process and will emphasize identifying persons responsible for crime and exonerating the innocent. There are several eyewitness identification processes such as, field identification, composite sketch, live lineup, and photographic line-up identification.

#### DEFINITIONS

Definitions related to this Chapter include:

**Confirmation photograph**—A single photograph displayed to a witness in an effort to confirm the identity of a suspect. This method is limited to situations in which the suspect is previously known to the witness by name.

**“Double-blind” procedure/use of a blind administrator**—A “double-blind” lineup is one in which neither the line-up administrator nor the eyewitness knows who the suspect is. This prevents the administrator of the lineup from providing inadvertent or intentional verbal or nonverbal cues to influence the eyewitness to pick the suspect.

**Eyewitness identification process**—Any field identification, composite sketch, live lineup, or photographic identification.

**Fillers**—Photographs or images of individuals who are not suspects but resemble the victim’s or witness’ description of the suspect in significant features (i.e. face, weight, build, skin tone).

**Photographic line-up**—The double-blind, sequential presentation of six individual photographs to a victim or witness of a crime for the purpose of identifying or eliminating an individual as the suspect. For purposes of this Chapter, “photo array” and “six-pack” are synonymous with

photographic line-up.

**Photo number**—The sequential position within a group indicating the numerical order placement of a particular photograph within a photographic line-up. (For instance, if the photograph is the sixth photo shown to the witness, the photograph's photo number is "6." Photo numbers shall be marked on the lower right hand section on the back of all photographs included in line-ups.

**Redact/redaction**—The censoring, removing, or obscuring of part of an image or photograph in a manner to make it clear that it has been altered, sometimes referred to "blacking out." The redaction is made to a part of the image or photo to eliminate an element or elements that cause the image to be different from the other images or photos used in the photographic line-up to a degree that might render it too "suggestive" or "different."

### GENERAL

3. Due process requires that identifications be conducted in a fair, objective, and non-suggestive manner.
4. Due process is violated when identification procedures arranged and/or conducted by the police are unnecessarily suggestive and conducive to irreparable mistaken identification.
5. Confirmation photographs are not considered photographic line-ups.
6. Prior to conducting an identification procedure, investigators should take a full description of the suspect from the witness and document that description.
7. The officer should record the critical parts of what a witness has said verbatim as to how confident or certain he or she is of the identification made.
8. Officers should avoid any words or actions that suggest to the witness that a positive identification is expected, who they expect the witness to identify, or congratulating the witness on an identification.
9. Every show-up, photo array, line-up or voice identification procedure, whether an identification is made or not, shall be documented in a report (EPR). The report shall include a summary of the procedure, the persons who were present for it, instructions given to the witness by the officer (this is accomplished by submitting the appropriate witness instruction form as part of the report), any statement or reaction by the witness, and any comments made by the witness regarding the identification procedure.

### UTILIZING PHOTOGRAPHIC LINE-UPS

10. Members shall employ photographic line-ups in all felony cases when the identity of the suspect is not known and / or when confirmation of the identity of the suspect is desired.
11. At no time prior to, during, or after the presentation of a photographic line-up shall it be suggested to a witness that any person depicted in the line-up is a suspect or was in any way connected to the offense.

### CREATING A PHOTOGRAPHIC LINE-UP

12. The investigator should compose the line-up in such a manner that the suspect does not unduly stand out.

13. When creating a photographic line-up, investigators shall use the suspect's photograph and five filler photographs that do not depict the suspect.
14. Each photographic line-up shall include only one suspect in each identification procedure.
15. To create the photographic line-up, investigators may request a line-up from the Louisiana State Police Fusion Center or create a line-up from archival photographs stored in the ThinkStream database or Cop Link.
16. If alternative sources of photographs must be used, such as school identification photographs for a juvenile with no photographs on file, the suspect's and all filler photographs must come from the same source database. If any alternative sources of photographs, other than those commonly used by law enforcement, are used, the investigator compiling the photographic line-up must consult with his/her supervisor and obtain approval of both the source(s) used and the final compilation of the photographic line-up.
17. The filler photos in a line-up must generally fit the witness's description of the perpetrator. If the investigator has more than one photograph of the suspect, he/she should select the photograph that best resembles the suspect's description provided by the victim or witness being shown the photo line-up or appearance at the time of the incident. When there is a limited or inadequate description of the perpetrator provided by the witnesses or when the description of the perpetrator differs significantly from the appearance of the suspect, fillers shall resemble the suspect's photograph in significant features, such as:
  - (a) Hair color, style, and length;
  - (b) Facial hair color, style, and length;
  - (c) Eye color;
  - (d) Facial expressions (for example, some photographs should not include smiling individuals while other photographs in the line-up do not);
  - (e) Markings, piercings, or tattoos that make the individual stand out;
  - (f) Obvious age differences;
  - (g) Obvious differences in skin color; and
  - (h) Distinct accessories such as earrings or head gear.
18. If significant differences between the suspect's photograph and the filler photographs are unavoidable, the officer must redact aspects of all photos to eliminate the significant differences. For example, if one individual is wearing earrings and the others are not, an investigator should place a black dot / square over the bottom of the ears of all individuals depicted in the line-up to eliminate the significant difference in appearance.
19. The investigating officer shall print the photographs to be used in the line-up in high-quality color.
20. Before administering the line-up, the investigating officer shall randomly determine the order in which the photographs will be displayed to the witness. The investigator shall number the back of each photograph in the line-up, documenting the order in which the photos are to be shown (for example, the third photo to be shown shall be marked "3" on the back).
21. The number shall be placed on the lower right hand section on the back of all photographs used in the line-up. The investigator shall document on Form 277b and confirm that the numbers on the photos and those listed on the Form 277b match and

are shown in the order indicated.

22. Only soft-point pens (sharpie type) shall be used to mark the photographs to prevent indentations in the photographs that would be visible on the front side of the photograph.
23. The photo number and identifying information such as SID# (State Identification, or criminal record number assigned to a particular criminal history record) for each photograph included in the line-up shall be documented on the Individual/Photo Sequence Form (Form #277b).
24. Should there be more than one suspect, a separate photographic lineup shall be conducted for each suspect. Separate Individual/Photo Sequence Forms (Form #277b) and Eyewitness Identification Forms (Form 277) shall be completed for each line-up.
25. Should there be more than one suspect and the suspects are similar in general appearance, a separate photographic lineup shall be conducted for each suspect using different filler photographs in each photographic line-up. Separate Individual/Photo Sequence Forms (Form #277b) and Eyewitness Identification Forms (Form 277) shall be completed for each line-up.
26. Should there be more than one witness, the suspect's photo and filler photos shall be placed in a different random order for each witness. Separate Individual/Photo Sequence Forms (Form #277b) and Eyewitness Identification Forms (Form 277) shall be completed for each line-up.

#### **THE PHOTOGRAPHIC LINE-UP ADMINISTRATOR**

27. Any members involved in the case / investigation shall not participate in the administration of the photographic line-up.
28. Line-up administrators are selected by the case investigator or the investigator's supervisor.
29. The line-up administrator shall **not**:
  - (a) Be involved in the creation of the line-up;
  - (b) Have any knowledge of the investigation;
  - (c) Have any knowledge as to which photograph depicts the suspect in the investigation; or
  - (d) Have already participated in administering a line-up in the same case.

#### **ADMINISTERING A PHOTOGRAPHIC LINE-UP**

30. The line-up administrator shall audio and/or video record the administration of the entire photographic line-up. The recording shall be retained according to current evidence procedures for video / audio recordings.
31. Absent extenuating circumstances, which must be articulated in the investigative / case report, all photographic line-ups shall be conducted in the investigating officer's Division Interview / Interrogation (L3) Room. If the investigating officer's Interview / Interrogation Room is not available, another Division's may be used.
32. The line-up administrator shall read aloud to the witness the top section of the Eyewitness Identification Form (Form 277), which is preceded by "*Read the following section aloud to the witness.*" This section includes an admonishment to the witness

that the witness is not required to make a selection and the perpetrator may not be included in the line-up.

33. The line-up administrator shall present the photographs one at a time, in the order documented on Form 277b and which match the numbers on the photographs.
34. Officers **shall not** indicate in any way to the witness whether a photo presented in a line-up is connected to the case. Officers shall avoid mentioning that:
  - (a) The individual was apprehended near the crime scene;
  - (b) The evidence points to the individual as the suspect; or
  - (c) Other witnesses have identified, or failed to identify, the individual as the suspect.
35. In order to avoid undue influence, witnesses should view a lineup individually and outside the presence of other witnesses. Witnesses shall be instructed to avoid discussing details of the incident or of the identification process with other witnesses.
36. If the witness identifies a photograph as that of the suspect, the line-up administrator shall continue with the photographic line-up and display any remaining photographs in the line-up.
37. If the witness identifies a photograph as that of the suspect, the witness shall sign and date the back side of the photograph of the identified individual.
38. The witness shall initial and date the back side of all photographs which are not identified as that of the suspect.
39. All photographs in a photographic line-up shall be marked by the witness, either with a signature and date for an identified photograph or initials and date for photographs not resulting in an identification.
40. Witnesses should use soft-point (Sharpie type) pens to mark the photographs to prevent indentations in the photographs that would be clearly visible on the front side of the photograph.
41. During the course of the photographic line-up, the line-up administrator shall complete Form 277 as detailed in **Documenting a Photographic Line-Up (below)**.

#### **ADMINISTERING A PHOTOGRAPHIC LINE-UP WITH AN OUT-OF-TOWN WITNESS**

42. If the victim/witness is not available to participate in a photographic line-up conducted by the NOPD investigator in person and does not live within Orleans Parish or a contiguous parish, the investigator's supervisor shall determine if an NOPD officer will travel to the witness to perform the photographic line-up or if the line-up should be conducted via email or mail, according to the following procedures. The investigator may use either method.

#### **ADMINISTERING A PHOTOGRAPHIC LINE-UP THROUGH EMAIL**

43. If the investigator decides to administer the out-of-town line-up through email, the investigator shall follow these procedures:
  - (a) Contact the victim/witness by phone, advise the individual of the procedure to be used, and confirm willingness to participate in the photographic line-up.
  - (b) Obtain an email address from which the victim/witness can receive the photographs/images and forms. The victim/witness will need access to a printer to print the photographs.

- (c) Schedule a time to conduct the photographic line-up processes over the phone.
- (d) Compile the photographs to be used in the same manner that would be used for an in-person photographic line-up. This will include separate image files for each photograph or separate images on each page of a single file. Ensure that the file labels or images do not indicate or identify the subjects or suspect in any way.
- (e) Send the photographic line-up images to the previously identified email address with instructions not to open or view the attached images until instructed to do so by the line-up administrator.
- (f) At the scheduled time, call the phone number provided by the victim/witness so that instructions can be provided on the procedure to be utilized. The entire process shall be audio or video recorded in the same manner as an in-person photographic line-up.
- (g) The photographic line-up administrator shall provide step-by-step instructions to the victim/witness on conducting the line-up, including reading the required forms while the victim/witness views the forms in the email attachments.
- (h) At the appropriate time in the process, the administrator will instruct the victim/witness to view the images one at a time in the order indicated.
- (i) The victim/witness will print Form 277 and the individual photographs in color and complete the form and mark the photographs as instructed by the administering officer.
- (j) The results of the line-up shall be documented in the same manner as an in-person line-up.
- (k) The victim/witness shall mail the documents via USPS, UPS, or FedEx (the method is the option of the victim/witness) to the NOPD work address provided by the investigator in care of the investigator.
- (l) The NOPD investigator and his/her supervisor shall review all materials and recordings to ensure that NOPD procedures were followed, the administration of the photographic line-up was legal and chain-of-evidence was and is maintained.
- (m) The returned photographic line-up and recording shall be copied for the case file. The originals shall be placed in Central Evidence and Property within 24 hours of receipt by the NOPD investigator.
- (n) The investigator shall memorialize the administration of the line-up as outlined above in a supplemental report. Any concerns, issues, or relevant observations concerning the out-of-town photographic line-up shall be noted in the report.
- (o) The investigator shall place a copy of the CE&P receipt, all documentation, and the supplemental report memorializing the line-up process in the case file.

#### **ADMINISTERING A PHOTOGRAPHIC LINE-UP THROUGH THE MAIL**

44. If the decision is to conduct the out-of-town line-up through the mail, the investigator shall follow these procedures:
- (a) Contact the victim/witness by phone, advise the individual of the procedure to be used, and confirm willingness to participate in the photographic line-up.
  - (b) Obtain a mailing address from which the victim/witness can receive the photographs/images and forms.
  - (c) Schedule a time to conduct the photographic line-up processes over the phone.
  - (d) Instruct the victim/witness to not to open the envelope until instructed.
  - (e) Compile the photographs to be used in the same manner that would be used for an in-person photographic line-up. Ensure that the images or photographs do not indicate or identify the subjects or suspect in any way.
  - (f) Include the following in the packet for the victim/witness: Form 277, photographs, and a postage paid, Certified Mail return envelope addressed to the investigator at his/her NOPD address.
  - (g) Send the photographic line-up, Form 277, and return envelope to the previously identified address.

- (h) Choose a line-up administrator to conduct the line-up by phone.
- (i) The entire process from this point forward shall be audio and/or video recorded in the same manner as an in-person photographic line-up.
- (j) At the scheduled time, call the phone number provided by the victim/witness and introduce the person who will be the line-up administrator. The line-up administrator will then provide instructions on the procedure to be utilized.
- (k) The photographic line-up administrator will provide step-by-step instructions to the victim/witness on conducting the line-up, including reading the required forms while the victim/witness views the forms.
- (l) At the appropriate time in the process, the administrator will instruct the victim/witness to view the images/photos in the order indicated.
- (m) The results of the line-up shall be documented in the same manner as an in-person photographic line-up.
- (n) The victim/witness shall complete Form 277 and mark the photographs as instructed by the photographic line-up administrator and mail all photographs and the completed documents to the NOPD in the return envelope provided (Certified Mail only).
- (o) When the photographic line-up and documents are received by the investigator, they will be opened in the presence of the investigator, line-up administrator, and supervisor and verified. Any forms requiring completion and/or signatures shall be completed by the appropriate party at that time and in the presence of the other two.
- (p) The NOPD investigator and his/her supervisor will review all materials and recordings to ensure that NOPD procedures were followed, the administration of the photographic line-up was legal and chain-of-evidence was and is maintained.
- (q) The returned photographic line-up and recording shall be copied for the case file. The originals shall be placed in Central Evidence and Property within 24 hours of receipt by the NOPD investigator.
- (r) The investigator shall memorialize the administration of the line-up as outlined above in a supplemental report. Any concerns, issues, or relevant observations concerning the out-of-town photographic line-up shall be noted in the report.
- (s) The investigator shall place a copy of the CE&P receipt, all documentation, and the supplemental report memorializing the line-up process in the case file.

#### **ADMINISTERING A PHOTOGRAPHIC LINE-UP FOR ANOTHER LAW ENFORCEMENT AGENCY**

- 45. If requested by another law enforcement agency, NOPD investigators may conduct a photographic line-up for that agency once the request is approved by his/her NOPD supervisor.
- 46. NOPD investigators performing photographic line-ups for another law enforcement agency shall follow the guidelines and instructions provided by that agency to conduct of the photographic line-up unless they believe the line-up violates due process. (Due process requires that identifications be conducted in a fair, objective, and non-suggestive manner.)
- 47. NOPD investigators performing photographic line-ups for another law enforcement agency shall advise his/her supervisor of any concerns raised by the photographs used or the guidelines to be followed prior to the commencement of the line-up.
- 48. If no guidelines are provided by the requesting investigator or agency, the provisions of this Chapter shall be followed.

**DOCUMENTING A PHOTOGRAPHIC LINE-UP**

49. The investigating officer shall enter all required information into the Photographic Line-Up Log immediately after the administration of the line-up for each photographic line-up and receiving the evidence from the line-up administrator.
50. The photographic line-up administrator shall document the administration and results of the photographic line-up on the Eyewitness Identification Form (Form 277). The administering officer shall complete all sections of Form 277, documenting the following:
- (a) The item number for the investigation;
  - (b) The date, time, and location of the photographic line-up;
  - (c) The name of the officer administering the identification procedure;
  - (d) The name of the witness (i.e., viewing person);
  - (e) Whether or not the witness identified a photograph as the perpetrator and, if there was an identification, the photo number of the selected photograph;
  - (f) Record the critical parts of what the witness said verbatim;
  - (g) The names of all of the individuals present during the line-up or an indication that no witnesses were present;
  - (h) A signature from the administering officer to confirm that the photographic line-up was conducted according to this Chapter and the process outlined on Form 277;
  - (i) A signature from the witness acknowledging that he/she understood the identification procedures and instructions; and
  - (j) A signature from the reviewing supervisor, confirming that the line-up was conducted according to this Chapter and the process outlined on Form 277.
51. The investigating officer shall complete all sections of Form 277b, documenting the following:
- (a) The numbers on the photos and those listed on the Form 277b match and are shown in the order indicated. The number shall be placed on the lower right hand section on the back of all photographs used in the line-up.
  - (b) The photo number and identifying information such as SID# (State Identification, or criminal record number assigned to a particular criminal history record) for each photograph included in the line-up shall be documented on the Individual/Photo Sequence Form (Form #277b).
53. The scanned (electronic) file of the photographic line-up shall be labeled:
- (a) "Item # - Photo Line-Up" (example: "A-12345-16 Photo Line-Up");
  - (b) If you have a second photo line-up use a sequential number (example: "A-12345-16 Photo Line-Up #2").
  - (c) The file should be saved in the investigator's electronic case file, in a backed-up drive, labeled under the item number.
54. If the witness identifies the suspect, the investigating officer shall file the photographs used in the line-up, Form 277, and Form 277b into evidence at Central Evidence & Property until the final disposition of the case, at which time it shall become a part of the permanent case file.
52. The investigating officer shall document the photographic line-up results in the investigative report.

**WITNESSES WITH LIMITED ENGLISH PROFICIENCY, HEARING IMPAIRMENT OR DEAFNESS**

55. If a witness in a criminal case / investigation does not speak English as his/her primary language (LEP) and has a limited ability to read, write, speak, or understand English or

otherwise has difficulty communicating (e.g. hearing impaired), officers shall arrange for a qualified interpreter or transliterator, such as one available through ELSA, NOT an NOPD authorized interpreter (NOPDAI), before proceeding with the photographic line-up (see: **Chapter 55.5 – Communications with the Hearing Impaired, Deaf, or Persons with Disabilities** or **Chapter 55.4 - Limited English Proficiency Services**).

56. Before the interpreter is permitted to discuss any matter with the witness, the investigating officer shall explain the identification process to the interpreter. Once it is determined that the interpreter comprehends the process and can explain it to the witness, the photographic line-up process may proceed as provided for by this Chapter.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.9

### TITLE: CONFIDENTIAL INFORMANT USE AND PROCESSES

**EFFECTIVE: 08/26/2018**

**REVISED: Replaces policy 608**

---

#### PURPOSE

This Chapter provides protocols for the use and control of confidential informants in criminal intelligence and investigations.

#### POLICY STATEMENT

1. In many instances, a successful investigation cannot be conducted without the use of confidential informants.
2. While the use of confidential informants can be an effective tool in investigations, investigations can be undermined by misconduct of the confidential informant or improper handling by the officer using the informant.
3. To protect the integrity of the New Orleans Police Department and the officers using confidential informants, it shall be the policy of this Department to take appropriate precautions by developing sound informant policies.

#### DEFINITIONS

**Confidential informant/informer (CI)**—An individual who, in an arrangement with law enforcement authorities, agrees to serve in a clandestine capacity, in order to insulate the informant from retribution by those involved in crime, to gather information for those authorities on suspected criminal activity or known criminal operatives in exchange for compensation or consideration.

**Civilian informant/informers**—A confidential informant who provides useful investigative information and who will not be receiving special consideration or monetary gain for services rendered.

**Paid informant/informers**—A confidential informant who provides useful investigative information to the Department in return for monetary gain.

**Consideration informant/informers**—A confidential informant who provides useful investigative information to the Department in return for special consideration other than money.

**INFORMANT FILE SYSTEM**

4. The Superintendent shall designate a member of his/her staff to be responsible for maintaining confidential informant files. A separate file shall be maintained on each confidential informant.

**FILE SYSTEM PROCEDURE**

5. Each CI file shall be coded with an assigned **Informant Control Number**. A confidential informant personal history shall be prepared by the officer initiating/requesting the use of the informant for each informant file and shall include, at a minimum, the following information:
  - (a) Informant's legal name and all known "street" names or aliases;
  - (b) Date of birth and gender;
  - (c) Physical description: height, weight, hair color(s), eye color, race, sex, scars, tattoos, piercings, body art or other distinguishing features;
  - (d) Current home address, residence addresses for the last five years, and all known telephone numbers;
  - (e) Current employer, job position, address and telephone numbers;
  - (f) Affiliation with legitimate businesses and illegal or suspicious enterprises (including gang affiliations);
  - (g) Relationship between the potential CI and the target of an investigation;
  - (h) The CI's motivation in providing information;
  - (i) Risk that the CI might adversely affect an existing or future investigation;
  - (j) Extent to which the provided information can be corroborated;
  - (k) If the CI is the subject of an ongoing or pending investigation;
  - (l) If the CI is under arrest or has been charged;
  - (m) CI's prior history as a witness;
  - (n) Whether the CI is a risk to the public or a flight risk;
  - (o) Whether the CI is a substance abuser;
  - (p) Whether the CI is related to anyone in law enforcement;
  - (q) Potential risk of harm to the CI or his/her family for cooperating;
  - (r) Prior history as a CI for any law enforcement agency;
  - (s) Current Informant's photograph;
  - (t) Print copy or evidence that a criminal history check has been made, updated and current;
  - (u) A fingerprint card on the informant;
  - (v) Name of the officer initiating/requesting the registration and use of the informant;
  - (w) A current signed and dated informant agreement; and
  - (x) Update on active or inactive status of the informant.
6. The informant files shall be maintained in an access controlled, secure area by the Superintendent's designee. These files shall be used to provide a source of background information about the informant, enable supervisory review and evaluation of information given by the informant, and minimize the potential for incidents that could be used to question the integrity of members of New Orleans Police Department or the reliability of the confidential informant or compromise criminal investigations and prosecutions.
7. Access to the informant files shall be restricted to the Superintendent of Police, the staff member responsible for the informant files and any person specifically authorized by the Superintendent.
8. Access to the informant files and information shall be through the Superintendent's staff member responsible for the informant files.

9. The Superintendent's staff member responsible for the informant files shall be responsible for maintaining a written log to record the identity of any authorized individual accessing an informant file, as well as the date, time and reason any file is accessed. **ALL FILE OR INFORMATION ACCESS SHALL BE RECORDED IN THE LOG.**

#### **USE OF PAID OR CONSIDERATION INFORMANTS**

10. Any commissioned member of the Department may develop a confidential informer (CI). The member shall compile sufficient information through a background investigation to determine the reliability, credibility and suitability of the individual, including age, maturity and risk of physical harm.
11. Prior to the commissioned member requesting the use and registering of paid or consideration informers, the potential informer must:
  - (a) Be interviewed by the developing member's supervisor;
  - (b) Complete an NOPD Cooperating Individual Information Form (**Form #142**);
  - (c) Be fingerprinted;
  - (d) Be photographed; and
  - (e) Complete and sign the NOPD Cooperating Individual Agreement Form (**Form #139**).
12. This does not apply to community members who provide information and who do not ask for money or special consideration.
13. If it is known or suspected that the individual providing information is involved in criminal activity, then this individual shall be processed as a consideration informer.
14. Any potential confidential informer must be questioned as to whether they are providing information for any other member of this Department or for members of other law enforcement agencies (this includes state and federal agencies).
15. All information, personal, background and relating to possible criminal investigations, shall be corroborated and/or vetted whenever reasonably possible prior to use.
16. An assessment of the credibility of the information provided should be added to the file as information becomes available so that determinations about future use of that informant can be made.

#### **USE OF CIVILIAN INFORMANT**

17. Any civilian informant who develops into a paid or consideration informer shall be processed as stated above.
18. Any civilian informant who is providing information shall be questioned as to his/her identity, reason for providing information and if he/she desires to remain confidential or if he/she is willing to provide testimony in court if necessary.
19. If the civilian informant desires to remain confidential, he/she will be processed in the same manner as a paid confidential informant except for the compensation elements.

#### **CONSIDERATION INFORMERS**

20. Prior to seeking special consideration for an informer as to pending criminal charges, the

member must make a written application to his/her Deputy Chief.

21. The application shall contain a complete criminal history of the informer, including his/her "Triple III" which is obtained from the NOPD - National Crime Information Center (NCIC) Unit and all information on his/her involvement or suspected involvement in felonious or violent activities.
22. The member's Deputy Chief shall submit, in writing, his/her recommendation, along with the application and informer history, to the Superintendent for consideration and approval. If approved by the Superintendent, the submitted information and signed approval shall be conveyed to the Office of the Orleans Parish District Attorney – First Assistant District Attorney. The grant of special consideration is entirely within the discretion of the prosecutor's office.
23. **No action will be taken on behalf of the informant until written approval has been received from the Superintendent.**
24. A copy of the approval/disapproval shall become part of the informant's file.
25. Department members are prohibited from seeking the release of an informant who is a prisoner (ROR or other form), a reduction of bond or sentence, suspended sentence, reduction of charges, or have a case refused except as outlined in this Chapter.
26. Nothing in this policy shall prohibit a department member from seeking a legal and proper release of an immediate family member.
27. Nothing in this policy shall prohibit a department member from seeking a legal and proper release of an individual who has, through investigation, been found to be innocent of the charges filed. The member must document the facts in a supplemental report under the original investigation's item number, submit the report for expedited supervisory approval and immediately notify the Office of the Orleans Parish District Attorney so that appropriate action can be taken by the prosecutor to have the case re-screened and, if appropriate, the charges refused and the subject released.
28. Members of this Department shall not intimidate or coerce any individual, or grant any individual the right to commit a criminal offense.

## **PROBATION AND PAROLE**

29. In all instances where an individual under the supervision of the Probation and Parole Department wishes to be a paid/consideration informer for this Department, the requesting officer shall obtain the written permission from the individual's probation and parole officer prior to using the individual as a paid informer or consideration informer.

## **JUVENILE INFORMANTS**

30. Individuals under the age of eighteen years of age shall not be used as paid informers or consideration informers without the prior written approval of the Superintendent of Police and the parent/legal guardian of the juvenile.
31. A cooperating juvenile who assists the Department, with the approval of his/her parent/legal guardian, in enforcement activities involving alcohol or tobacco retail sales to minors is not considered an informant for purposes of this policy.

**GUIDELINES FOR HANDLING PAID/CONSIDERATION INFORMERS**

32. All confidential informants are required to sign and abide by the provisions of the Department Cooperating Individual Agreement Form (Form 139). The officer requesting the use and registering the confidential informant shall discuss each of the provisions of the agreement with the confidential informant.
33. Details of the agreement are to be approved in writing by the unit supervisor before being finalized with the confidential informant.

**DEACTIVATING OR TERMINATING A CONFIDENTIAL INFORMANT**

34. A confidential informant will be deactivated when:
  - (a) The confidential informant no longer has the potential to furnish information or services that could lead to prosecution or the interdiction of criminal behavior; or
  - (b) The confidential informant is no longer willing to cooperate.
35. The services of a confidential informant shall be terminated when the confidential informant has provided intentionally false information or has displayed unsatisfactory or criminal behavior or misconduct. Once the services of a confidential informant has been terminated, he/she may not be reactivated.
36. An interoffice correspondence (105) shall be prepared by the officer maintaining the confidential informant or his/her supervisor in all cases recommending deactivation or termination. The 105 will follow the same approval / notification chain as the original approval process and maintained in the confidential informants file.
37. If a confidential informer violates the provisions of the Cooperating Individual Agreement by becoming involved in criminal activity or a member becomes aware of any other information that may negatively impact the CI's credibility or suitability, the officer maintaining the confidential informer shall notify the original witnessing supervisor and the Superintendent's office staff member responsible for the informant files.
38. The confidential informer shall be immediately removed from active status in cases of deactivation or termination. Should the original witnessing supervisor no longer be available, the officer maintaining the informer shall notify his current supervisor.
39. An individual deactivated as confidential informer through violation of provisions of the Cooperating Individual Agreement but not subject to termination of services may be re-established as a confidential informer with the approval of the current witnessing supervisor. The supervisor must weigh the potential usefulness of the CI against the liability of his/her criminal activity affecting potential cases. The procedure shall be the same as establishing a new confidential informer.
40. Once an individual is accepted as a Paid or Consideration informer, he/she shall be assigned an **Informant Control Number** by the staff member responsible for the informant files in the Office of the Superintendent of Police.
41. Once approved and active, all references and documentation involving a paid/consideration informer shall be accomplished using the informer's code number.

**SEARCH WARRANTS BASED ON INFORMANT SUPPLIED INFORMATION**

42. The affiant will confirm information supplied by informants used in the drafting of all warrants. Information obtained from informants must be thoroughly examined and

documented in order to be used in and successfully sustain the probable cause for the warrant and future court challenge. Sworn personnel shall include as much information as possible in the probable cause section of the affidavit.

43. Affiants must observe the exact location (e.g., house, apartment, floor) where correct entry will be made for the service of all search warrants.
44. Supervisors will confirm that affiants have personal knowledge of the location before approving plans for the service of all search warrants.
45. Affiants and their supervisors must direct and control others that help with the service of all search warrants.
46. When the probable cause contained in an affidavit for a search warrant is based on the use of information from a confidential informant, a copy of the affidavit and search warrant shall be hand-delivered in a sealed envelope to the Superintendent's Office the next working day after the warrant has been approved or disapproved.

### **INFORMATION GATHERING**

47. All interactions from the initial contact between investigators and informants shall be documented in order to establish and maintain the integrity of the information and protect the identity of the informant.
48. When information is collected from an informant and can be used by other investigators of the Department or outside law enforcement agencies to initiate or further an ongoing investigation, the appropriate unit or outside agency shall be notified and the notification documented.
49. Information sought by investigators from their informants will not be limited to the geographic boundaries or specific interests of the investigator's unit.
50. Investigating officers will debrief their confidential informants fully and accurately on all targets of interests. When it becomes necessary to brief confidential informants on significant targets, that information which was provided to the confidential informant will be noted in the informant's file by the officer making the disclosure. Information noted shall include the date and the name of the person the information was disclosed to.
51. Any information which could adversely reflect upon the integrity or conduct of an employee of the Department or concerning police corruption will be reported immediately to PIB.

### **CONTROLLED PURCHASES USING INFORMANTS**

52. The payment of Departmental funds to any confidential informant must be done in a manner respecting public opinion and scrutiny. To maintain a good accounting of such funds requires a strict procedure for disbursements.
53. All payments made to a paid informer shall be made with the approval of the ISB Narcotics Section Commander, or his/her designee.
54. All reference and documentation involving a Paid/Consideration informer shall be accomplished using the informer's **Informant Control Number**.
55. Confidential informants shall be instructed that they are not permitted to use their own

personal funds to purchase any goods or contraband for a police investigation.

56. The serial number of all U.S. currency that is utilized in a controlled purchase shall be photocopied, prior to providing the currency to a confidential informant.
57. Immediately before providing buy money to a confidential informant, the confidential informant shall be thoroughly searched by the officer providing the buy money and witnessed by at least one (1) other officer. Whenever feasible, the search of a confidential informant shall also be witnessed by a supervisor and in accordance with **Chapter 1.2.4 – Search and Seizure**.
58. The name and payroll number of the officer conducting the search of the informant before “buy money” is provided and after the buy is completed shall be recorded on the EPR. Also, the name and payroll number of any witnessing supervisor, if present, shall also be recorded.
59. Whenever feasible, the confidential informant shall be kept under constant surveillance from the time he/she is thoroughly searched, until the time he/she returns to the same officer who conducted the pre-purchase search after the completion of the controlled purchase.
60. The confidential informant shall be thoroughly searched at the completion of the controlled purchase by the same officer who conducted the pre-purchase search and shall be witnessed by at least one (1) other officer. Whenever feasible, a supervisor shall also witness this post purchase search of a confidential informant.
61. Controlled purchase payments to a confidential informant shall be witnessed by at least one (1) other officer, in addition to the officer conducting the payment. Whenever feasible, a supervisor shall also witness controlled purchase payments to a confidential informant.
62. In instances where a confidential informant receives multiple payments for the purpose of purchasing goods or contraband during an investigation, the exchange of payments shall always be conducted by the same officer, unless exigent circumstances exist. Exigent circumstances will be documented on the NOPD Cooperating Individual Contact Sheet (**Form #140**).
63. The investigating officer shall thoroughly debrief confidential informants at the completion of a controlled purchase. This debriefing will ensure a complete description of the target suspect; the events that occurred during the controlled purchase; and any other facts of importance. This information may be used in paperwork, including the affidavit of Probable Cause.
64. At end of the tour of duty, all U.S. currency used for controlled purchases shall be accounted for, and all unused U.S. currency shall be returned to the appropriate supervisor to be secured in the unit safe.

#### **CONTACT WITH INFORMER DOCUMENTATION**

65. All contact between Department members and informers shall be documented on an NOPD Cooperating Individual Contact Sheet (**Form #140**), which will be maintained in the member's unit file.
66. This Form #140 information shall be turned in no later than the end of the member's tour of duty or within the first hour of the member's next tour of duty if the contact was made

while the employee was off duty.

67. Exceptions to the contact requirement and documentation may only be given on an individual, case by case basis, by the member's Deputy Chief.

### **SECURITY OF INFORMATION**

68. The security of the informer's identity and the information received is of the utmost importance. All information shall be kept in a restricted access secure area, under lock and key, and accessible only to those members already privy to the information.
69. Any electronic or computer files containing information relative to paid/consideration informants shall be password protected and accessible only to those individuals already privy to the information.

### **CONSIDERATION/PAID INFORMERS ACTIVITY STATUS**

70. Consideration/Paid informers will remain in an active status for a period of six months whether information has been received from the CI, even if the CI has not received funds from the Department.
71. Officers will maintain contact sheets when such information is received and maintain them as provided in the provisions of this Chapter.
72. The officer shall forward copies to the Superintendent's office staff member responsible for the informant files with the payment packet.
73. Contact sheets not resulting in immediate payments to CI's need not be forwarded immediately upon receipt of the information but must be forwarded to the Superintendent's office staff member responsible for the informant files within two weeks of the contact.
74. The Commander of the ISB Narcotics Section shall be responsible for ensuring a database is maintained consisting solely of the CI's Code Number and last date paid (exclusive of CI payments in bound book).
75. Inactive cooperating individuals will not be paid until they have been reactivated through the Superintendent's office staff member responsible for the informant files. Individuals wishing to be reactivated shall be processed as a new informer as outlined in this policy.

### **RELATIONSHIPS WITH CONFIDENTIAL INFORMANTS**

76. No member of the New Orleans Police Department shall knowingly maintain a business, personal, or social relationship with a confidential informant while off-duty or become romantically or intimately involved with a confidential informant.
77. Members of the New Orleans Police Department shall neither solicit nor accept gratuities or engage in any private business transaction with a confidential informant.
78. To maintain officer/informant integrity, the following requirements shall be met:
  - (a) Officers shall not withhold the identity of an informant from the Superintendent of Police, his/her designee or the Commander of ISB Narcotics Section;
  - (b) Except as directed herein, identities of informants, juvenile or otherwise, shall be kept confidential;
  - (c) Criminal activity by informants shall not be condoned;

- (d) Informants shall be told they are not acting as police officers, employees, members or agents of the New Orleans Police Department and that they shall not represent themselves as such. This agreement shall be memorialized in writing;
- (e) The relationship between officers and informants shall always be ethical and professional;
- (f) Social contact shall be avoided unless it is necessary to conduct an official investigation, and only with prior approval of the ISB Narcotics Section Commander;
- (g) Officers shall not meet with informants in a private or public place unless accompanied by at least one additional officer or with prior approval of the ISB Narcotics Section Commander.
- (h) When contacting informants for the purpose of making payments, officers shall arrange for the presence of another officer promptly; and
- (i) In all instances when department funds are paid to informants, a voucher shall be completed in advance, itemizing the expenses.
- (j) Officers must notify the appropriate prosecutor of their intentions, prior to making an appearance on behalf of an informant in a criminal case or administrative proceeding.
- (k) Officers shall not appear on behalf of an informant in any court or administrative proceeding without the prior written authorization of their Bureau Chief.

#### **PAYMENT PROCEDURE**

- 79. The amount of funds to be paid to any confidential informant will be evaluated against the following criteria:
  - (a) The extent of the informant's personal involvement in the case.
  - (b) The significance, value or effect of the use or information on crime.
  - (c) The amount of assets seized.
  - (d) The quantity of the drugs / contraband seized.
  - (e) The informant's previous criminal activity.
  - (f) The level of risk taken by the informant.
  - (g) Other factors that may motivate the informant.
- 80. Payments shall be documented on an NOPD Cooperating Individual Payment Receipt (**Form #143**) which will be signed by the member making the payment, the informer receiving the payment using his **Informant Control Number**, and the member's supervisor, who must witness the payment.
- 81. Officers shall complete the in-house Narcotics Funds Withdrawal form, complete with all required supervisory signatures, prior to accepting funds for informer payment.

#### **CASH DISBURSEMENT POLICY**

- 82. No informant shall be told in advance or given an exact amount for services rendered.
- 83. When both assets and drugs have been seized by officers based on information provided by the CI, the confidential informant shall receive payment based upon overall value and the purchase price of the drugs seized, not to exceed a maximum of \$6,000 without the prior approval of the Superintendent of Police.
- 84. The Commander of the ISB Narcotics Section or the specific Grant Program Director shall be responsible for compliance with any audit requirements associated with grant fund provisions and applicable state and federal law.

**PAYMENT PROCESS**

85. The cash amount will be paid to the case agent. The case number shall be recorded justifying the payment. The disbursement of money shall be handled in accordance with established state law and City policies, ordinances and protocols. The Commander of the ISB Narcotics Section, or his/her designee, will be required to sign the voucher for all payments. Any payment in excess of \$1,000 must be approved by the Commander of the ISB Narcotics Section.
86. The Narcotics Unit confidential informant payment fund is a cash fund managed by the Commander of the ISB Narcotics Section or his/her designee in compliance with the Cash Handling Security and Management Policy. These funds shall be maintained in a locked cash box that is secured in a locked cabinet, desk or drawer in the Commander of the ISB Narcotics Section office, or the Office of the Confidential Informant Payment Coordinator. This office will be secured whenever it is unoccupied.
87. At least two members shall be present when paying confidential informants. To complete the transaction with the confidential informant, the case agent shall have the confidential informant initial the cash transfer form. The confidential informant will sign the form indicating the amount received, the date and that the confidential informant is receiving funds in payment for information voluntarily rendered in the case. The New Orleans Police Department case number shall be recorded on the cash transfer form. A copy of the form will be kept in the confidential informants file.
88. The Commander of the ISB Narcotics Section shall maintain a bound book which records all transaction numbers for each payment. This book shall be kept in a secured location (e.g., locked desk, file cabinet or drawer). The following shall be recorded:
  - (a) Date of payment.
  - (b) Location of incident.
  - (c) Contraband seized.
  - (d) Number of arrests.
  - (e) Name and signature of officer.
  - (f) Amount paid.
  - (g) Remaining balance in payment account.

**SUPERINTENDENT'S OFFICE**

89. A packet consisting of the following shall be forwarded to the Superintendent's staff member responsible for the informant files within seven days of receipt of the payment funds:
  - (a) NOPD Cooperating Individual Payment Receipt.
  - (b) Narcotics Fund Withdrawal form.
  - (c) A copy of arrest report, if applicable.
90. The Superintendent's staff member responsible for the informant files shall stamp the packet received and return a copy to the officer. This copy shall then be returned to the ISB Narcotics Section. All documentation must be received by the ISB Narcotics Section within seven days of the receipt of funds. Exceptions may be requested on an individual basis through a 105 from the member with signature approval from his/her supervisor, to the ISB Narcotics Section Commander or his/her designee, with a copy forwarded to the Superintendent's staff member responsible for the informant files.
91. The original NOPD Cooperating Individual Payment Receipt form, bearing the signature of the cooperating individual, shall be maintained by the Superintendent's staff member responsible for the informant files. The signature on the original form shall be concealed

during copying to protect the individual's identity. This copy shall then be returned to the ISB Narcotics Section.

### **REPORTING OF PAYMENTS**

92. Each confidential informant receiving a cash payment shall be informed of his/her responsibility to report the cash to the Internal Revenue Service (IRS) as income. If funds distributed exceed \$600 in any reporting year, the confidential informant shall be provided IRS Form 1099 (26 CFR 1.6041-1). If such documentation or reporting may reveal the identity of the confidential informant and by doing so jeopardize any investigation, the safety of peace officers or the safety of the confidential informant (26 CFR 1.0641-3), then IRS Form 1099 should not be issued.
93. In cases where the IRS Form 1099 is not issued, the confidential informant shall be provided a letter signed by the Commander of ISB Narcotics Section identifying the amount the informant must report on tax returns as "other income."
94. The informant shall be required to provide a signed acknowledgement of receipt of the letter. The completed acknowledgement form and a copy of the letter shall be retained in the confidential informant's file. It shall be the responsibility of the case officer using the informant to issue the Form 1099 or letter to the informant.

### **AUDIT OF PAYMENTS**

95. At least once every six months the Superintendent of Police, Superintendent's staff member responsible for the informant files or an authorized designee shall conduct a thorough audit of all informant funds for the purpose of accountability and security of the funds. Petty cash records, transfer forms, invoices, receipts and logs will assist with the audit process.

### **CASE FILINGS AND DISCLOSURE OF INFORMANTS**

96. All of the facts related to the actions of the informant must be known by the prosecutor in order to properly evaluate the provability of the case and the likelihood of being able to protect the identity of the informant.
97. At the time the case is presented for filing, the prosecutor must be notified if an officer wishes to protect the true identity of an informant in any judicial setting. This disclosure will assist the prosecutor in making filing determinations.
98. If an informant participated at any stage in the planning or commission of the crime being charged, thereby becoming a witness to the crime, including, but not limited to, taking defendant to the scene of the crime, acting as a lookout, or driving the getaway car, the officer must notify the District Attorney at the time the case is presented for filing. Prosecuting such a case will likely require disclosure of the informant.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.10

### TITLE: INTERVIEWS

**EFFECTIVE: 04/15/2018**

**REVISED:**

---

#### PURPOSE

This Chapter provides members with legally sound procedures for conducting formal interviews.

#### POLICY STATEMENT

1. Interviews of victims, witnesses and persons who may have information about a crime under investigation or of a suspect are vitally important in the investigation of criminal cases. Statements obtained by interviews must be given freely and voluntarily.
2. This Chapter requires all officers to observe due process rights which may apply and to guard against any charges of coercion or intimidation during an interview.
3. Suspects who are in custody and subjected to an interrogation shall be governed by **Chapter 42.11 – Custodial Interrogations**.
4. Officers shall not use physical violence or make threats to carry out harm to the individual, the individual's family, or anyone else during an interview.
5. Officers may advise a person to be interviewed of the rights afforded by **Miranda** and may even utilize **Form 153 – Rights of an Arrestee or Suspect**, but it is not required as the person is not a suspect, not in custody and not being interrogated.
6. All portions of any formal interview, including any recitation or advisement of **Miranda Rights**, should be audio and video recorded in their entirety. All portions of any formal interview with a juvenile shall be video and audio recorded in an approved NOPD interview / interrogation room.

#### DEFINITIONS:

**Custody/Custodial Situation**—A custodial situation exists when an officer tells a suspect that he/she is under arrest. A functionally equivalent situation exists when a “reasonable person” in the suspect’s position would feel that his/her freedom of action has been restricted to the same degree as a formal arrest.

**Formal Interview**—An interview that is conducted in a Departmental Interview / Interrogation Room to formalize the victim, witness or other person’s knowledge about critical aspects of the

investigation of a crime. A formal interview may follow after a previous account or interview conducted in the field or over the phone.

**Interrogation**—Direct questioning of a suspect about a crime or suspected crime, as well as any words, statements, or actions by officers that the officers should know are reasonably likely to elicit an incriminating response from the suspect.

**Interview**—A fact-finding interaction or conversation between a law enforcement officer and a subject. An interview may be with a witness, victim or others thought to have information about an incident or a crime. Interviews may evolve into an interrogation at which point the provisions of custodial interrogations apply.

**Subject**—Used to identify a person when no connection to criminal activity is intended or inference is desired.

**Suspect**—An individual who is reasonably believed to have a connection to criminal activity.

## RECORDING INTERVIEWS

7. All interviews should be memorialized by the officer to whom the information is presented. The degree of memorialization used depends on the criticality of the information to the investigation of the crime. The more critical, the greater the degree of documentation utilized. Memorialization can include:
  - (a) Notes taken in the field and included in the investigative report.
  - (b) Body Worn Camera footage of an interview in the field.
  - (c) A signed, written statement by the subject in his/her own words to be attached to the report.
  - (d) A formal interview conducted and recorded in one of the Departmental Interview and Interrogation Rooms and logged in the Interview and Interrogation Log.
8. Any formal interview should be video and audio recorded in its entirety, including any advisement of Miranda Rights if given. The video and audio recording shall capture the subject to be interviewed entering and exiting the interview room. All portions of any formal interview with a juvenile shall be video and audio recorded in an approved NOPD interview / interrogation room.
9. Formal interviews shall be conducted in one of the Department's authorized Interview and Interrogation Rooms unless articulable exigent circumstances exist. The exigent circumstances shall be documented in the investigative case file and/or incident report.
10. At no time shall recording equipment be turned off unless the subject states that he/she does not want the interview to be recorded. Should the subject request that the interview not be recorded, the officer conducting the interview shall ensure this request has been audio and video recorded in addition to documenting the request in the investigative report.
11. If the interview occurs outside of an NOPD facility Interview and Interrogation Room, every reasonable effort shall be made to secure audio / video recording of the interview.
12. Officers should also consider audio / video recording any investigative interview, for any offense, when the officer reasonably believes it would be appropriate and beneficial to the investigation and is otherwise allowed by law. Should the person being interviewed become a suspect during the course of the interview, the officer must **immediately** follow all procedures for custodial interrogation.

**MIRANDA ADVISEMENTS NOT REQUIRED**

13. Miranda warnings are not required for interviews but, if utilized, shall be read by officers from **Form 153 – Rights of Arrestee or Suspect** to all persons subjected to custodial interrogation. Freelancing, recitation from memory or paraphrasing the warnings is prohibited as it precludes officers from testifying in court as to the precise wording used.
14. The following are examples of situations that are not “custodial” and do not require the advisement of Miranda warnings:
  - (a) Investigatory stop and frisk (see **Chapter 1.2.4.1 – Terry Stops Investigatory Stops**).
  - (b) Questioning during a routine traffic stop or for a minor violation, to include driving while intoxicated (DWI) stops until a custodial interrogation begins.
  - (c) During routine questioning at the scene of an incident or crime when the questions are not intended to elicit incriminating responses.
  - (d) During voluntary appearances at a police facility.
  - (e) When information or statements are made spontaneously, voluntarily, and without prompting by police (Note: Follow-up questions of suspects that exceed simple requests for clarification of initial statements may require Miranda warnings).

**DOCUMENTING FORMAL INTERVIEWS**

15. All formal interviews shall be documented in the Custodial Interrogations and Interview Log for the officer’s district or unit.
16. Officers shall maintain in the case file his/her notes taken during any interviews involving that case.

**DOCUMENTING ALL INTERVIEWS**

17. The circumstances surrounding the conduct of interviews shall be fully documented in the related investigative report. This includes but is not necessarily limited to:
  - (a) Location, date, time of day, and duration of the interview;
  - (b) The identities of officers or others present;
  - (c) If Miranda warnings were given, suspect responses, and waivers provided, if any; and
  - (d) The nature and duration of breaks in questioning, whether for food, drink, use of lavatories, or for other purposes.

**CONDUCTING INTERVIEWS WITH LIMITED ENGLISH PROFICIENCY INDIVIDUALS**

18. Officers interviewing Limited English Proficiency (LEP) subjects shall notify their immediate supervisor and make arrangements to procure the assistance of an authorized interpreter or interpretation device in accordance with this agency’s policy and state and federal law (see **Chapter 55.4 – Limited English Proficiency Services**).
19. An NOPD member acting in the role of authorized interpreter for an interview shall identify him/herself as an employee of the Department and state that he/she is an authorized interpreter.
20. If Miranda warnings are provided, they shall be provided by the authorized interpreter to the individual in the individual’s primary language.

**CONDUCTING INTERVIEWS WITH HEARING IMPAIRED INDIVIDUALS**

Officers interviewing deaf or hearing impaired suspects shall notify their immediate supervisor and make arrangements to procure the assistance of an authorized interpreter in accordance with this agency's policy and state and federal law (see **Chapter 55.5 – Communications with the Hearing Impaired, Deaf, or Persons with Disabilities**).

**INTERVIEW/INTERROGATION ROOM RECORDING EQUIPMENT FAILURES**

21. If the investigating officer encounters recording equipment failures or malfunctions, the investigating officer shall relocate to an NOPD facility with an Interview / Interrogation Room with functioning equipment and conduct the interview at that facility. In exigent circumstances, the investigating officer may record the interview by means of a Body Worn Camera. The exigent circumstances shall be noted in the case report.
22. Any equipment failure shall be:
  - (a) Immediately reported to [NOPDTECH@nola.gov](mailto:NOPDTECH@nola.gov).
  - (b) Explained and documented in the incident/supplemental or case report.
  - (c) Documented and forwarded to the investigating officer's Deputy Superintendent via the officer's chain of command in the form of a Form 105 (interoffice Correspondence) or e-mail.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.11

### TITLE: CUSTODIAL INTERROGATIONS

**EFFECTIVE: 12/11/2016**

**REVISED: 07/14/2019**

---

#### PURPOSE

This Chapter provides members with legally sound procedures for conducting custodial interrogations.

#### POLICY STATEMENT

1. Custodial interrogations of suspects and the statements and confessions that may be elicited are vitally important in the investigation of criminal cases. However, to be admissible as evidence, statements and confessions must be given freely and voluntarily and with due consideration for the suspect's right to silence and right to counsel.
2. This Chapter requires all officers to observe due process rights of suspects and to guard against any charges of coercion or intimidation during interrogation.
3. Suspects who are in custody and subjected to an interrogation shall be read their Miranda rights unless an exception applies (see **Chapter 1.9.1 – Miranda Rights**).
4. Officers shall not use physical violence or make threats to carry out harm to the individual, the individual's family, or anyone else during custodial interrogations.
5. Officers shall not conduct pre-interviews or pre-interrogations off camera. Officers shall not ask a suspect any questions about the incident before or after the recorded interrogation.
6. All portions of any custodial interrogation, including the recitation or advisement of the suspect's Miranda Rights, shall be audio and video recorded in their entirety.

#### DEFINITIONS

**Custody / Custodial situation**—A person is in custody when an officer tells the person that he/she is under arrest or when a “reasonable person” in the person's position would feel that his/her freedom of action has been restricted in any significant way. This can include a suspect who is handcuffed, in prison clothing, secured in the rear of a police unit or otherwise not free to leave.

**Interrogation**—Direct questioning of a suspect about a crime or suspected crime, or any words,

statements, or actions by officers that the officers know or should know are reasonably likely to elicit an incriminating response from the suspect.

**NOPD authorized interpreter (NOPDAI)**—A bilingual NOPD employee who has been assessed, tested, and demonstrated their competency in English and a second language using the terminology, phrases, vocabulary, and phrases needed. Once an interpreter establishes competence and receives training on ethical and professional conduct as interpreters, the member will be certified and NOPD may authorize him or her to interpret for others in certain situations, such as interviews, interrogations, or talking and responding to citizen complaints.

**Suspect**—An individual who is reasonably believed to have a connection to criminal activity.

## RECORDING CUSTODIAL INTERROGATIONS

7. Any custodial interrogation shall be video and audio recorded in its entirety, including the advisement of the suspect's Miranda Rights. The video and audio recording shall capture the suspect to be interrogated entering and exiting the interrogation room.
8. Custodial interrogations shall be conducted in one of the Department's authorized Interrogation / Interview Rooms unless articulable exigent circumstances exist. The exigent circumstances shall be documented in the investigative case file and/or incident report.
9. Officers shall not conduct pre-interviews or pre-interrogations off camera. Officers shall not ask a suspect any questions about the incident, or say or do anything that is likely to illicit an incriminating response, before or after the recorded interrogation.
10. At no time shall recording equipment be turned off unless the suspect states that he/she does not want the interrogation to be recorded. Should the suspect request that the interrogation not be recorded, the officer conducting the interrogation shall ensure this request has been audio and video recorded in addition to documenting the request in the investigative report.
11. If the interrogation occurs outside of an NOPD facility, every reasonable effort shall be made to secure audio / video recording of the custodial interrogation.
12. Officers should also consider audio / video recording any investigative interview, for any offense, when the officer reasonably believes it would be appropriate and beneficial to the investigation and is otherwise allowed by law. Should the person being interviewed become a suspect during the course of the interview, the officer must **immediately** follow all procedures for custodial interrogation.

## MIRANDA ADVISEMENTS

13. Officers shall read Miranda warnings from **Form 153 – Rights of Arrestee or Suspect** to all persons subjected to custodial interrogation. Freelancing, recitation from memory or paraphrasing the warnings is prohibited as it precludes officers from testifying in court as to the precise wording used.
14. The following are examples of situations that are not "custodial" and do not require the advisement of Miranda warnings:
  - (a) Investigatory stop and frisk (see **Chapter 1.2.4.1 – Terry Stops Investigatory Stops**).
  - (b) Questioning during a routine traffic stop or for a minor violation, to include driving while intoxicated (DWI) stops until a custodial interrogation begins.

- (c) During routine questioning at the scene of an incident or crime when the questions are not intended to elicit incriminating responses.
- (d) During voluntary appearances at a police facility.
- (e) When information or statements are made spontaneously, voluntarily, and without prompting by police (Note: Follow-up questions that exceed simple requests for clarification of initial statements may require Miranda warnings).

### **MIRANDA WAIVERS AND THE RIGHT TO SILENCE AND RIGHT TO AN ATTORNEY**

15. When a suspect invokes his/her right to silence, all interrogation shall cease immediately (see **Chapter 1.9.1 – Miranda Rights**). The suspect may not again be interrogated about the crime for which he/she is charged, other crimes, or by other officers (from this or other agencies) unless:
  - (a) The officers wait a significant amount of time to re-approach the suspect; and
  - (b) Miranda Rights are re-administered and a waiver obtained before any questioning may take place. Officers shall also document the significant amount of time that lapsed between the initial invocation of right to silence and the subsequent re-administration of Miranda Rights and waiver.
16. When a suspect invokes his/her right to counsel, all interrogation shall cease immediately (see **Chapter 1.9.1 – Miranda Rights**). The suspect may not again be interrogated about the crime for which he/she is charged, other crimes, or by other officers (from this or other agencies) unless:
  - (a) The suspect has requested an attorney and the attorney is present at the questioning; or
  - (b) The suspect initiates new contact with the police. In this latter case, Miranda Rights must again be administered and a waiver obtained before any questioning may take place. Officers shall also document and, if possible, obtain written verification that the suspect initiated the communication.
17. Officers shall cooperate in any reasonable way with efforts by a suspect's attorney to contact or meet with the suspect in custody.
18. If a suspect waives his/her, right to counsel, a waiver shall be obtained prior to questioning. When a suspect refers to counsel but his/her intentions are unclear, officers may question the suspect further only to clarify his/her intentions.
19. Oral waivers are often sufficient but written waivers, particularly in felony cases, are preferred and should be obtained whenever possible.

### **DOCUMENTING CUSTODIAL INTERROGATIONS**

20. All custodial interrogations shall be documented in the Custodial Interrogations Log for the officer's district or unit.
21. Officers shall maintain in the case file his/her notes taken during any custodial interrogations involving that case.
22. The circumstances surrounding the conduct of interrogations and recording of confessions shall be fully documented in the related investigative report. This includes but is not necessarily limited to:
  - (a) Location, date, time of day, and duration of interrogation;
  - (b) The identities of officers or others present;
  - (c) Miranda warnings given, suspect responses, and waivers provided, if any; and

- (d) The nature and duration of breaks in questioning, whether for food, drink, use of lavatories, or for other purposes.

### **CONDUCTING CUSTODIAL INTERROGATIONS WITH LIMITED ENGLISH PROFICIENCY INDIVIDUALS**

23. Officers arresting Limited English Proficiency (LEP) suspects shall notify their immediate supervisor and arrange to procure the assistance of an authorized interpreter in accordance with this agency's policy and state and federal law (see **Chapter 55.4 – Limited English Proficiency**).
24. A certified interpreter shall be used for any interrogation or taking of a formal statement when the suspect's or witness's legal rights could be adversely impacted. When possible, consideration should be given to using an independent in-person interpretation service during an interrogation. Because of the dual role, a NOPDAI may have when conducting interrogations and acting as an interpreter, all NOPDAI interrogations shall be video and/or audio-recorded (see **Chapter 55.4 – Limited English Proficiency**).
25. NOPDAIs shall identify themselves as members of the Department before conducting an interrogation.
26. The authorized interpreter shall provide Miranda warnings to the individual in the individual's primary language (see **Chapter 55.4 – Limited English Proficiency**).

### **CONDUCTING CUSTODIAL INTERROGATIONS WITH HEARING IMPAIRED INDIVIDUALS**

27. Officers arresting deaf or hearing-impaired suspects shall notify their immediate supervisor and arrange to procure the assistance of an authorized interpreter in accordance with **Chapter 55.5.1 – Communication with Persons Who are Deaf or Hard of Hearing**, state and federal law.

### **INTERVIEW/INTERROGATION ROOM RECORDING EQUIPMENT FAILURES**

28. If the investigating officer encounters recording equipment failures or malfunctions, the investigating officer shall relocate to an NOPD facility with an Interview / Interrogation Room with functioning equipment and conduct the interrogation at that facility. In exigent circumstances, the investigating officer may record the interrogation by means of a Body Worn Camera. The exigent circumstances shall be noted in the case report.
29. Any equipment failure shall be:
- (a) Immediately reported to [NOPDTECH@nola.gov](mailto:NOPDTECH@nola.gov).
  - (b) Explained and documented in the incident/supplemental or case report.
  - (c) Documented and forwarded to the investigating officer's Deputy Superintendent via the officer's chain of command in the form of a Form 105 (interoffice Correspondence) or e-mail.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.12

### TITLE: HATE CRIMES

**EFFECTIVE: 05/07/2017**

**REVISED: Replaces Policy 338**

---

#### PURPOSE

The purpose of this policy is to provide members of this Department with guidelines for identifying, preparing for, investigating, responding to, and preventing crimes committed against persons or their property that are motivated by an offender's hatred of a person based on the person's actual or perceived race, age, gender, religion, color, creed, disability, sexual orientation, gender identity, national origin, ethnicity or ancestry; the person's actual or perceived membership or service in, or employment with, an organization; or the person's actual or perceived employment as a law enforcement officer, firefighter, or emergency medical services personnel.

#### POLICY STATEMENT

1. The Department recognizes the particular impact hate crimes have including the fears and distress typically suffered by victims, the potential for reprisal and escalation of violence, and the far-reaching negative consequences of these crimes on members of the targeted group and on the entire community. The Department shall be mindful of and respectful of the confidentiality, safety and privacy concerns of victims and their families.
2. This Department will give high priority to any acts or threats of violence, property damage, harassment, intimidation, or other crimes motivated by an offender's hatred of a person based on the person's actual or perceived race, age, gender, religion, color, creed, disability, sexual orientation, gender identity, national origin, ethnicity or ancestry; the person's actual or perceived membership or service in, or employment with, an organization; or the person's actual or perceived employment as a law enforcement officer, firefighter, or emergency medical services personnel.
3. This Department shall employ all necessary resources to identify, investigate, respond to, and prevent hate crimes.
4. Members shall be mindful that hate itself is not a crime and that they have a duty to protect the freedom of speech and other civil liberties.
5. The Department's and officers' response to hate crimes is especially important to the community because it reassures vulnerable groups that they will be protected by the NOPD, which can in turn encourage reporting and thus make the community safer.

## DEFINITIONS

Definitions relevant to this Chapter include:

**Bias / hate**—A preformed negative opinion or attitude toward a group of persons based on their actual or perceived race, age, gender, religion, color, creed, disability, sexual orientation, gender identity, national origin, ethnicity or ancestry; their actual or perceived membership or service in, or employment with, an organization; or their actual or perceived employment as a law enforcement officer, firefighter, or emergency medical services personnel. Hate itself is not a crime.

**Gender**— Refers to the attitudes, feelings, and behaviors that a given culture associates with a person's biological sex. Behaviors that are viewed as incompatible with these cultural associations may be considered gender non-conforming.

**Gender identity**—A person's internal, deeply held sense of gender. This internal sense of gender may be different from the sex a person was assigned at birth or the person's physiology or biological sex (i.e., a person may have been assigned the gender of male at birth but may have an internal, deeply held sense of being female). Gender identity may or may not be visible to others or expressed outwardly through a person's chosen pronouns, clothing, haircut, behavior, voice, and body characteristics. Gender identity is an innate characteristic of each person's personality.

**Hate crime**—Any unlawful action designed to frighten, harm, injure, intimidate, or harass an individual because it is motivated, in whole or in part, by the person's actual or perceived race, age, gender, religion, color, creed, disability, sexual orientation, gender identity, national origin, ethnicity or ancestry; the person's actual or perceived membership or service in, or employment with, an organization; or the person's actual or perceived employment as a law enforcement officer, firefighter, or emergency medical services personnel.

**Hate group**—An organization whose ideology is primarily or substantially based on antipathy, hostility, or hatred toward persons of a different race, age, gender, religion, color, creed, disability, sexual orientation, gender identity, national origin, ethnicity or ancestry.

**Hate incidents** - actions that are directed at a particular person or group or people because of their actual or perceived membership in a protected class that do not rise to the level of a crime. While hate incidents may be offensive or hurtful to the targeted person and group, they are not illegal and may be specifically protected by the First Amendment.

## FEDERAL JURISDICTION

6. Federal law prohibits discrimination-based crimes. The U.S. Department of Justice (DOJ) **may** obtain jurisdiction over crimes of violence in which the perpetrator has selected the victim because of the person's actual or perceived race, color, religion, national origin, gender, sexual orientation, gender identity or disability (18 U.S.C § 245; 18 U.S.C. § 249 the Matthew Shepard and James Byrd, Jr. Hate Crimes Prevention Act of 2009).

## LOUISIANA CRIMINAL STATUTES

7. State law creates penalty enhancements for identified crimes (including many violent crimes and sex offenses) motivated because of actual or perceived race, age, gender, color, religion, creed, disability, sexual orientation, national origin, or ancestry of the victim or victims or because of actual or perceived membership, service or employment with an organization, or actual or perceived employment as a law enforcement officer, firefighter, or emergency medical services personnel (La. R.S. 14:107.2). In addition,

other State statutes target specific crimes which qualify as hate crimes (such as La. R.S. 14:40.4, Burning Cross on Property of Another or Public Place; Intent to Intimidate).

## MUNICIPAL OFFENSES

8. The Code of Ordinances, City of New Orleans, Article VI, Offenses Affecting the Public Generally, Section 54-380 – Hate Crimes specifically identifies a hate crime and directs that any offense of a city ordinance that constitutes a hate crime should be treated, investigated and reported as such. It identifies specifically the following provisions of the municipal code as possible hate crimes:
  - (a) Section 54-378 – Institutional vandalism
  - (b) Section 54-379 – Intimidation
9. The protected classes identified by municipal ordinance Section 54-380 – Hate Crimes, are the actual or perceived race, age, religion, color, creed, disability, gender, sexual orientation, national origin, or ancestry of that person or the owner or occupant of that property. Section 54-379 also includes gender identification.
10. Section 54-380 – Hate Crimes requires the Department to maintain statistical information on violations of municipal ordinances classed as a “hate crime” and report on them, at least quarterly, to The New Orleans Human Relations Commission, the Commission of Criminal Justice, the Criminal Justice Coordination Office and the City Council. It also requires the Department to provide both initial and ongoing training to employees in cultural sensitivity and in relation to the proper classification of any crimes classed as “hate crimes”.

## IDENTIFYING HATE CRIMES

11. When identifying hate crimes, it is important to note that not all threats or actions motivated by hate or bias constitute hate crimes. The critical distinction is the lawfulness of the underlying behavior. **Hate crimes** are *unlawful* actions directed at a particular person or group or people because of their actual or perceived membership in a protected class. By contrast, **hate incidents** are actions that are directed at a particular person or group or people because of their actual or perceived membership in a protected class that do not rise to the level of a crime. While hate incidents may be offensive or hurtful to the targeted person and group, they are not illegal and may be specifically protected by the First Amendment.
12. The key criterion in determining whether a crime may be classified as a hate crime is the suspect’s motivation behind the act. A common-sense approach must be used to make this determination, however, the following factors should be considered when identifying a potential hate crime. The presence of any of these factors does not confirm that the incident was a hate crime, but may indicate the need to further investigate the motive:
  - Are the motives of the alleged suspect(s) known?
  - Was the incident known to have been motivated by hate?
  - Does the suspect perceive the victim to belong to a different group than he/she does?
  - Did the victim perceive the action or the suspect to be motivated by hate?
  - Did witnesses perceive the action or the suspect to be motivated by hate?
  - Were any remarks related to race, age, color, creed, religion, national origin, ancestry, ethnic background, gender, gender identity, disability or sexual orientation made by the perpetrator?
  - Do those remarks indicate the perpetrator’s motivation behind the act, or were

they unrelated to the act? For example, a perpetrator under the influence of alcohol runs his car into a building and is charged with criminal damage to property. The perpetrator's disparaging remarks about police officers during arrest or booking likely do not indicate that the perpetrator was motivated by hatred against police officers when he committed the property damage.

- Were any symbols, words, or acts known to be used by an identified hate group, or indicative of evidence of hatred of the victim or group present?
- Is there a history of similar incidents in the same area or against the same victim/group?
- Has the offender previously been involved in a hate group or in similar incidents?
- Did the crime coincide with a date or event of significance?
- Did the victim engage in activities promoting his/her membership in a protected class?

### **PROACTIVE STEPS TO PREVENT AND PREPARE FOR HATE CRIMES**

13. While it is recognized that not all crime can be prevented, this department is committed to taking a proactive approach to preventing and preparing for likely hate crimes by:
  - (a) Making an affirmative effort to establish contact with persons and groups within the community who are likely targets of hate crimes in order to form, and cooperate with, prevention and response networks;
  - (b) Providing victim assistance and follow-up, including community-based follow-up;
  - (c) Educating community and civic groups about hate crime laws; and
  - (d) Implementing appropriate training, including becoming familiar with the symbols and tactics used by hate groups, as described below.

### **INVESTIGATOR'S RESPONSIBILITIES**

14. Investigators of the Investigations and Support Bureau/Specialized Investigations Division shall make every effort to become familiar with organized hate groups operating within the community. However, they shall keep in mind that membership in an organization or group identified as a hate group, by itself, is not a crime.
15. The initial identification and investigation of a crime as a hate crime is the responsibility of the investigating/responding officer. The investigating officer shall be sensitive to the victim and to members of the community during his/her investigation. Officers must rely on their investigative judgment, as well as probable cause standards, to assist them in determining whether a specific incident constitutes a hate crime.
16. The trauma experienced by a victim of a hate crime can inflict serious and lasting emotional and psychological harm on the victim and impair the victim's ability to participate in the investigation. Officers and detectives play a significant role in the victim's ability to cope with the emotional and psychological after-effects of the crime and willingness to participate in the investigation. It is imperative that officers responding to a potential hate crime are able to recognize, understand, and manage these effects for the benefit of the victim and the criminal investigation.
17. The investigating officer investigating a potential hate crime shall:
  - (a) Secure the scene, request medical assistance if needed and, if necessary, request additional assistance from investigators or other resources to further the investigation or protect witnesses and victims;
  - (b) Request the assistance of a translator, if necessary;
  - (c) Interview available witnesses, victims and others to determine what

circumstances, if any, indicate that the situation may involve a hate crime. (Witnesses and victims who are not charged with a crime under state law shall not be detained exclusively because of a suspected immigration violation. See **Chapter 41.6.1—Profiling-Immigration Status.**);

- (d) Once an officer determines that an incident constitutes a hate crime, he/she shall contact his/her immediate supervisor;
  - (e) Preserve and document all available evidence indicating the likelihood of a hate crime in the relevant reports, including objects used by hate groups, such as swastikas or crosses. All related reports will be clearly marked as "Hate Crime" by checking the appropriate box on the M.O. page and will be completed and submitted by the assigned officer before the end of their tour of duty;
  - (f) Record any statements made by suspects as reported by victims and witnesses precisely (The exact words used and the context are critical to the investigation.);
  - (g) Identify any prior hate crimes or hate incidents in the immediate area or against the same victim;
  - (h) Obtain all information necessary to complete federal and state hate-crime data collection requirements (offense type and its respective motivation; the location of the incident; the number, age and type of victims; the number of known offenders; the known offender's race and ethnicity, age, and gender at the time of the incident);
  - (i) Make reasonable efforts to assist the victim by providing available information on local assistance programs and organizations as required by **Chapter 55.1—Victim and Witness Assistance**; and
  - (j) Take reasonable steps to ensure that all victims are receiving appropriate assistance and to ensure that any such situation does not escalate further and provide information to the victim regarding legal aid (e.g., a possible Temporary Protective Order through the courts or District Attorney or City Attorney).
  - (k) Protect the confidentiality of victims to the maximum extent allowed by law and departmental policy.
18. The assigned officer and approving supervisor are responsible for notifying the Homeland Security Unit via Communications Services and providing that unit with a copy of the approved report(s) documenting a Hate Crime investigation within three working days after the report is approved by the supervisor.

## **SUPERVISOR RESPONSIBILITIES**

19. A supervisor involved in the on-scene investigation and/or reviewing the incident report will verify the crime is properly classified as a Hate Crime. Supervisors shall:
- (a) Respond to the scene;
  - (b) Ensure the crime scene is protected, properly processed, and all relevant evidence is gathered and processed;
  - (c) Ensure that all physical evidence or materials (e.g. fliers, posters) are documented and removed after the scene has been processed. If the physical evidence cannot be removed immediately (e.g. painted hate symbol on wall), impress upon the building owner the need for removal as soon as possible;
  - (d) Request additional resources from the federal government as necessary and available, pursuant to the Matthew Shepard and James Byrd, Jr. Hate Crimes Prevention Act of 2009 (28 U.S.C. § 249);
  - (e) Notify the Public Information Office and communicate with concerned community organizations or civic groups and religious institutions concerning the suspected hate crime;

- (f) Advise the victim of individuals or agencies that may provide support and assistance, such as family members, clergy, and community service agencies; and
- (g) When reviewing the report, ensure the report contains all necessary information, including a record of all relevant facts and a clear indication of the incident as a hate crime, a full description of the materials used (e.g. painted hate symbol, literature, written or recorded messages), the method of removal of the material, and the disposition of the evidence.

### **FOLLOW-UP RESPONSIBILITIES**

- 20. The District Investigative Unit or another appropriate unit assigned by the investigating officer's Bureau Chief will conduct a follow-up investigation.
- 21. A copy of the report(s) documenting a Hate Crime investigation will be delivered to the Homeland Security Unit within three working days after the report is approved by a supervisor.

### **HOMELAND SECURITY UNIT**

- 22. The Homeland Security Unit shall review the incident report(s) identified as hate crimes, and determine if the incident meets the Federal Uniform Crime Report standards to classify the incident as a Hate Crime for UCR purposes.
- 23. The Homeland Security Unit shall forward to the appropriate federal agency the required data on hate crimes. The periodic dates for submission are set by the federal agency responsible for the collection of the data (usually biannually).

### **FEDERAL AND STATE HATE CRIME REPORTING**

- 24. Under the Hate Crime Statistics Act of 1990 (28 U.S.C. § 534) the FBI's Uniform Crime Reporting Program now collects and reports statistics on hate crimes directed at individuals because of race, religion, disability, sexual orientation, ethnicity, gender, or gender identity—as well as hate crimes committed by and directed against juveniles.
- 25. The Records Manager shall include Hate Crime data reporting within the National Incident Based Reporting System (NIBRS), Uniform Crime Report and Summary Reporting System reports pursuant to Records and Identification Section procedures and in compliance with 28 U.S.C. § 534(a) and the Louisiana Uniform Crime Reporting System as required under RS 15:1204.3 and 1204.4. The required forms under RS 15:1204.2 should include any additional information needed by federal agencies to develop national statistics.

### **EDUCATION AND TRAINING RESPONSIBILITIES**

- 26. The Commander of the Education and Training Division shall ensure that all officers of this Department receive training on hate crime recognition and investigation and shall attend annual training that incorporates a hate crime training component, to include:
  - Definitions of hate crimes, hate incidents and protected characteristics;
  - Free speech protected by the First Amendment;
  - Classification of hate crimes;
  - The unique impact hate crimes, as opposed to other crimes, have on victims;
  - Information on patterns of recent hate crimes in the area;
  - An orientation on communities of specifically targeted victims;
  - Identification of hate symbols used by known local hate groups;

- The role of all department personnel as they relate to NOPD response to hate crimes;
- Law enforcement procedures for data collection/documentation and mandated reporting requirements;
- Techniques for communicating with victims by officers during the investigation;
- Changing case law (legal updates);
- Investigative techniques particular to hate crime;
- The Department's outreach to the community; and
- Community relations and media relations.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.15

### TITLE: ARREST CASE MANAGEMENT AND DISTRICT ATTORNEY SCREENING

**EFFECTIVE: 10/01/2017**

**REVISED: 06/27/2021**

---

#### PURPOSE

The purpose of this Chapter is to outline the responsibilities for the delivery of arrest reports, and consulting with the Orleans Parish District Attorney's Office in adult arrest cases which involve a violation of the Revised Statute(s) of the State of Louisiana.

#### POLICY

1. The New Orleans Police Department shall strive to present the best and most complete investigations possible in a timely manner for review by the Orleans Parish District Attorney's Office so an accurate and timely assessment can be made as to the correctness and appropriateness of the criminal charges filed, so sufficient evidence exists to establish probable cause for the charges, and so the subject(s) arrested are afforded due process and held responsible.

#### DEFINITIONS

**701** – The status of a case indicating a defendant has been or will be released from incarceration or relieved of a bail obligation because the prosecution has not been instituted within the time limits set by article 701 of the Code of Criminal Procedure.

**A-Case**—Adult state criminal charge arrest case.

**A-Case Officer**—A commissioned member of the NOPD assigned to a District or Division of the Field Operations Bureau who is responsible for ensuring that a complete investigative case file is compiled and presented for all adult State arrests made by officers assigned to that District / Division.

**Buck Sheet / Buck Slip**—Form used by an A-Case officer and the Orleans Parish District Attorney's Office to document the status of a case through the screening process.

**Case File** – the singular repository of all reports and associated attachments and documentation related to a criminal case. It includes, but is not limited to, all items listed on the Case File Index Sheet (see: **Appendix "B"**) that pertain to that case. It includes the completed and signed Orleans Parish District Attorney's Office Case File Certification Form. (see: **Appendix "A"**).

**Incident Report** – A thorough and comprehensive written report detailing the facts and circumstances surrounding an incident or event, or the commission or discovery of a crime which gives rise to criminal charges.

**Supplemental Report** – A thorough and comprehensive written report detailing all events and investigative activity transpiring since the filing of the incident report. It may include the arrest of the defendant or a description of any investigative procedures, the recovery of any evidence, or the interview of any witness to an event,

**Arrest Report** – A thorough and comprehensive written report detailing the circumstances surrounding the arrest of a person accused of a crime. It may be a contemporaneous incident report or a supplemental report of a follow up investigation which describes the arrest and booking of a criminal defendant for a crime. It shall include: (1) if the defendant was adequately advised of his constitutional rights (and by whom); (2) any statements made by the defendant at the time of arrest; (3) any evidence recovered at the time of arrest and by whom it was recovered; and (4) the current disposition of that evidence.

**Gist** – A sworn statement of probable cause by the arresting officer, submitted upon arrest of a person accused of a crime at booking. It is not an incident report, supplemental report, or arrest report.

**Principal Case Investigator, Lead Investigator or Case Agent** – terms used to describe the primary individual (commissioned member generally) who is responsible for the preparation, conduct, administration and completion of a criminal investigation, usually as part of a team of investigators or working with support units.

**Screening Action Form (SAF)** —The form the Orleans Parish District Attorney's Office uses to track the process of case screening for a prosecutorial determination of suitability of charges.

**Screening division**—The section of the Orleans Parish District Attorney's Office responsible for reviewing arrest case reports presented by NOPD officers for prosecution.

## **DUTIES AND RESPONSIBILITIES**

### **Arresting Officer(s)**

2. It is the responsibility of the officer(s) who makes an adult state arrest to complete the arrest report and submit it to his/her supervisor prior to the conclusion of the officer's tour of duty. (Refer to **Chapter 1.9 – Arrest** and **Chapter 82.1 – Incident Report/Field Report Writing Manual**).
3. If the arrest report is disapproved and returned for correction, the officer shall complete and correct the noted deficiencies and submit the corrected report to the reviewing supervisor prior to the conclusion of the officer's tour of duty.
4. For purposes of this Chapter, arresting officers include all on duty commissioned members who make an arrest, as well as any officer working a police secondary employment assignment when an incident occurs that requires a police report to be written.

### **Patrol Supervisor(s)**

5. The arresting officers' supervisors shall review and approve or disapprove each arrest

report made by officers under their command, within 12 hours of submission (Refer to **Chapter 1.9 – Arrest**).

6. If the arrest report is disapproved, the reviewing supervisor must ensure the officer completes and corrects the noted deficiencies and submits the corrected report to the supervisor prior to the conclusion of the officer's next tour of duty.
7. Once the supervisor approves the arrest report, he/she shall immediately forward the report to the District / Division A-Case Officer for processing.

#### **A-Case Officer(s)**

8. The District / Division A-Case Officer shall create a case file for each state arrest. The case file shall include:
  - (a) A Case File Index Sheet.
  - (b) A tracking sheet to document the delivery and receipt of the arrest report from the platoon level, to the Arrest Case Officer, to the District Attorney's Office.
  - (c) The dates and times for all actions the District A-Case officer takes in presenting the case file to the District Attorney's Office.
  - (d) All relevant reports, including incident reports, supplemental reports, arrest reports and all attachments including but not limited to:
    - i. All warrants (including the application, affidavit, order and return) whether approved or not, whether executed or not;
    - ii. Crime Lab reports;
    - iii. NIK test reports,
    - iv. Crime Scene tech reports (including digital photographs),
    - v. Scientific analysis reports,
    - vi. CE&P receipts,
    - vii. Incident recalls,
    - viii. 911 recordings,
    - ix. copies of photographic line ups,
    - x. recorded statements, or outside video evidence retrieved from any source. (See Appendix A of Chapter 1.2)
  - (e) Additionally, the police reports and case files should clearly delineate the location of BWC, In-Car Camera, or RTCC footage relevant to the case.
  - (f) The completed Investigative File Certification form. (See Appendix "A" attached).
9. A separate buck sheet shall be generated for each A-Case.
10. The completed case file, including the completed Case File Index Sheet and all ~~existing~~ supplemental reports and required documentation, shall be submitted to the District Attorney's Office within seven (7) days from the date of arrest, excluding weekends and holidays, with the buck sheet attached.
  - (a) In the event that the A-Case Officer is aware that the case file is deficient in any regard, the A-Case Officer shall submit a written supplemental report identifying any deficiencies in the case file and detailing all efforts to collect and submit the required attachments to the District Attorney's Office with the case file.
  - (b) The A-Case Officer shall submit to the District Attorney's Office additional supplemental reports detailing efforts to correct deficiencies of the case file as

required by Paragraph 8(b) above **every 7 days** until the deficiencies are resolved.

- (c) Within 7 days of the submission of a completed case file to the District Attorney's Office, the Assistant District Attorney reviewing that file will notify the A-Case Officer of either the disposition of the charges or the need for additional investigative efforts by the NOPD.
  - (d) Within 7 days of being notified of the need for additional investigative efforts, the A-Case Officer shall submit to the District Attorney's Office a supplemental report addressing all deficiencies identified by the Assistant District Attorney.
  - (e) With the presentation of additional reports or addressed deficiencies at each stage of the screening process, the District Attorney's Office shall provide a written acknowledgement of the materials delivered. Upon presentation of a completed case file, the District Attorney's Office will issue a receipt for the completed case file submitted.
  - (f) Upon a screening disposition being entered, the District Attorney's Office will issue a buck slip for the case file submitted.
11. When the District Attorney's Office completes and signs the buck sheet form, the A-Case Officer should obtain the buck sheet and retain it in the case file.
  12. When the District Attorney's Office completes and signs the receipt, the A-Case Officer shall place the complete case receipt from the District Attorney's Office in the case file along with the Buck Sheet.
  13. A copy of the receipt and Buck Sheet shall be forwarded to the A-Case Officer's District / Division Commander for the NOPD case disposition classification.
  14. Once the A-Case Officer's Commander completes the NOPD case disposition classification of the case file, a copy of the case receipt and Buck Sheet shall be forwarded to the A-Case Officer and retained in the case file.
  15. The A-Case Officer is required to collect the Screening Action Form (SAF) from the District Attorney's Office and maintain it in the case file. If the SAF for an A-Case cannot be located within the District Attorney's Office, the A-Case Officer shall notify the Chief of Screening in writing of this fact. A copy of this notifying correspondence shall be placed in the case file. Once the SAF is obtained it shall be placed in the case file. (See also: **Chapter 1.2 – Disclosure Obligations.**)
  16. In the case of either suppression of evidence or declination of prosecution based on an NOPD officer's alleged misconduct, a constitutional violation, or credibility, the A-Case Officer or member who learns of the ruling shall notify his/her Captain or PIB. The informed Captain shall initiate a formal disciplinary investigation (see **52.1.1 – Misconduct Intake and Complaint Investigation**) if not already initiated.
  17. Upon a refusal of a case due to a Law Enforcement issue, the District Attorney will alert NOPD PSAB, the A-Case Officer, the Arresting Officer, the Arresting Officer's rank, the District Commander, the First Assistant, the Chief of Case Management, and the designated Department of Justice Officer via email with the pertinent information regarding the refusal. The Assistant District Attorney who screened the case will be available to discuss the case with the NOPD upon request.

**NARCOTICS CASES AND SCIS (CRIME LAB)**

18. All suspected narcotic evidence submitted to CE&P shall be forwarded to the Crime Lab for scientific analysis when requested.
19. The Crime Lab shall test the suspected drugs upon request by the District Attorney's office.
20. The A-Case Officer shall include all Crime Lab reports in the case file.

**ISB AND SPECIALIZED INVESTIGATIONS**

21. All arrest cases made by the Investigations and Support Bureau (ISB) and specialized investigations cases (i.e. homicide, sex crimes, child abuse, etc.) shall be presented for screening with the District Attorney's Office by the principal case investigator.
22. The principal case investigator shall submit a completed case file within 28 days of arrest to the District Attorney's Office. Thereafter, they shall follow the guidelines set forth in paragraph 10 above.

Case Investigators are required to follow the guidelines of **Chapter 1.2 – Disclosure Obligations**.

**DELINQUENT CASES**

23. If an arrest case has not been completed and receipted by the District Attorney's Office within (30) days of the arrest, the principal case investigator or A-Case Officer shall notify his District / Division Commander and Bureau Chief by departmental email or interoffice correspondence (105) no less than (15) days prior to the case's 701 date. (See: **La. C. Cr. P. Art. 701**).
24. The District Attorney's Office will notify PSAB and PIB via email when a complete case file is not received within 28 days of an arrest.

**Appendix "A" -**

**Orleans Parish District Attorney's Office Investigative File Certification Form –**

**INVESTIGATIVE FILE CERTIFICATION**

Defendant: \_\_\_\_\_ Item Number: \_\_\_\_\_

I HEREBY CERTIFY that I am the "lead investigator" or "case agent" with regard to the referenced matter and that I have reviewed this case prior to presentation to the Office of the District Attorney.

I further certify that the files, reports, and other materials which I am this date submitting to the Office of the District Attorney for prosecution represent all of the materials disclosed, discovered, and/or generated by the law enforcement agency which I represent and/or any other agency which was involved in the investigation of the incidents upon which this matter is premised. Furthermore, I certify that I do not have any knowledge of any other investigative data, except for possible crime lab reports and/or autopsy reports which remain outstanding and/or other forensic analysis which may not have been completed.

I acknowledge my duties to disclose the existence of all evidence or information which is exculpatory or favorable to the accused, either tends to negate the guilt of the accused, or which mitigates the severity of the offense(s) which is/are the subject of this matter. As such, I specifically certify that all such information is contained within the investigative materials this date being submitted to the Office of the District Attorney.

I certify that present in the case file is all information known to my agency relative witnesses, including law enforcement officers, which may undermine the credibility of those witnesses. This includes information which undermines the credibility of the witness or individual themselves or information which may be inconsistent with statements made by those witness.

I acknowledge that the failure to submit a complete investigative file may have an adverse effect on the outcome of this case and may result in prosecution being declined.

**Investigator (Print/Sign)**

**Date**

--	--

**A-Case Officer (Print/Sign)**

**Date**

--	--

**Notes:**

It is the responsibility of NOPD (the investigator and A-Case Officer) to present a complete case file that substantiates the charges to the Office of the District Attorney for screening and review for the OPDA to perform their functions under the law. There is no obligation or duty on the part of the OPDA to assist in the investigation or the compilation of the case file. They shall base their screening decision on the case file, as presented by the NOPD. If the case file is incomplete or lacks critical information, the OPDA shall refuse the case based on the inadequacy of the investigation presented.

The case file and reports must indicate exactly where relevant information, contained in other sources may be found. For example, all officers on the scene shall be listed along with all BWC information noting the officer's name, item number of cases, date, time, location, video label name and exact time marker where the noted information is found. The OPDA is not required and will not search for information. If the source (Evidence.com, BWC, L3, ICC, etc.) files are available to the OPDA, the reference to exactly where it can be found, stated in the police report, will be enough rather than burning a copy of the video file.

It is the NOPDs obligation to ensure the OPDA has access to any referenced data in electronic form if it is to be referenced rather than provided a copy (i.e. G Drives, BWC, ICC, L3, CEW discharge recordings, RTCC, etc.).

The OPDA will not "look" request items from outside sources if part of the investigation (i.e. 911 audio recordings, incident recall from OPCD), it must be part of the case file.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.16

### TITLE: PRELIMINARY FORENSIC DRUG TESTING

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 615**

---

#### PURPOSE

This Chapter establishes guidelines for preliminary drug testing of suspected Controlled Dangerous Substances.

#### POLICY STATEMENT

When an officer encounters a compound believed to be a controlled dangerous substance, it is collected for evidentiary purposes. A preliminary drug test kit shall be used to confirm the presence of the suspected substance if a test kit for that suspected substance is available **UNLESS** the officer is only charging under **Sec. 54-505 – Simple Possession of Marijuana and/or Synthetic Cannabinoids** in which case officers shall not field test suspected contraband when charging under the municipal ordinance.

#### DEFINITIONS

**Preliminary Drug Test Kits**—Department approved kits or pouches containing reagent(s) which will change color to indicate the presence of a certain class of controlled dangerous substance when mixed with a representative sample of a suspected controlled dangerous substance.

**False Positive Preliminary Drug Test** —When a preliminary drug test indicates the presence of a controlled dangerous substance, but a subsequent forensic analysis by a lab finds the compound is NOT a controlled dangerous substance.

**False Negative Preliminary Drug Test**—When a preliminary drug test indicates the compound is not positive for the presence of a controlled dangerous substance, but a subsequent forensic analysis by a lab finds the compound DOES contain a controlled dangerous substance.

**Inaccurate Preliminary Drug Test**—When a preliminary drug test indicates the presence of a controlled dangerous substance, but a subsequent forensic analysis by a lab finds the compound to be a different controlled dangerous substance than originally suspected.

#### DRUG TESTING KIT HANDLING AND PROCEDURES

1. Any preliminary drug testing kit that has been used shall be sealed and safely discarded

in a manner consistent with the instructions provided by the manufacturer for that kit to prevent exposure of the contents to the officer(s) and the public. The used kit will not be placed into evidence.

2. Officers conducting preliminary drug tests shall use the kits as instructed by the manufacturer. Many of the reagents contained in the kits are toxic or corrosive. The kits shall be handled and disposed of carefully to prevent the spillage or loss of the contents. Protective equipment such as gloves or eye protection is recommended. In the event the contents of a kit are spilled on someone, medical attention should be sought, and a supervisor notified immediately. If an officer is injured, a First Report of Injury will be completed.
3. Only one sample of any given substance will be tested with any given kit. If an additional test(s) is required, a new kit will be used for each subsequent test.
4. Test kits shall be stored and maintained as per the manufacturer's instructions. Damaged, contaminated or compromised kits shall not be used and shall be discarded in accordance with this Chapter and the manufacturer's instructions.
5. The department approved test kits are **NIK Brand** (Armour Forensics) and **Scott Company Drug Testing**. The types of tests currently available are:
  - (a) Marquis Reagent (Opiates, Heroin and Amphetamine compounds, including Ecstasy)
  - (b) Duquenois-Levine Reagent (Marijuana, Hashish, hash oil, THC)
  - (c) Scott Reagent (Cocaine Salts and Cocaine Base)
  - (d) MDMA (Ecstasy only)
6. Any other suspected controlled dangerous substances for which a listed preliminary drug test kit is not available should be submitted to Central Evidence and Property for forensic testing by the NOPD – Scientific Criminal Investigations Section (SCIS or Crime Lab) – Drug Chemistry Unit.

## TESTING

7. Representative samples of suspected drugs shall be obtained with the tool or spatula provided in the kit. Only a very small sample of suspect substance is required for testing. The test should not consume the entire sample. If the amount is too small to test without consuming the entire amount, the substance should be seized as evidence and processed through Scientific Criminal Investigation Section (SCIS) for forensic testing. Officers are encouraged to call the SCIS Drug Chemistry Unit or an SCIS training officer with any questions regarding the use of a particular preliminary drug test kit before testing a substance.
8. Officers performing a preliminary drug test shall follow the written instructions provided by the manufacturer of the test kit, regardless of the brand used. The Preliminary Drug Test Form (Form #148) provided in this Chapter will be filled out by the officer performing a test. Forms are provided for both **NIK** and **Scott** brand test kits.
9. The Commander of SCIS is responsible for the storage and distribution of preliminary drug test kits. Supplies of the kits will be monitored and restocked by the Department's Scientific Criminal Investigation Section. Members shall take care to avoid prolonged exposure of the kits to high heat (in trunks of vehicles) or intense sunlight (left out in the interior of the unit).
10. The officer arresting a suspect and utilizing a preliminary drug test kit to test a possible

CDS shall summon a supervisor to the scene to witness the test and provide required signatures on the forms. Once the results of the test are obtained, the officer shall confer with his/her supervisor and decide if the arrest is to be confirmed or the suspect released. (See also: **Chapter 1.9 – Arrests**).

11. Any substance believed to be a Controlled Dangerous Substance and observed in possession of a victim, witness, or at a crime scene, shall be preliminary drug tested by the investigating officer if the required kit is available.

### **SUPERVISOR'S RESPONSIBILITIES**

12. Usage of preliminary drug test kits shall:
  - (a) Be witnessed by a supervisor, and
  - (b) The supervisor will affix his/her signature to the checklist for each test conducted.

### **PRELIMINARY DRUG TEST KIT RESULTS**

13. A negative test result does not preclude the collection of the substance tested as evidence and subsequent request for a forensic analysis. A false negative test result, while remote, can occur. Substances strongly suspected by the investigating officer of being a controlled dangerous narcotic but test negatively should still be collected and submitted for forensic analysis. The decision to arrest in the face of a negative preliminary drug test result for a controlled dangerous substance will remain with the investigating officer(s) and supervisor(s). Consideration of all facts surrounding the incident, including additional criminal violation(s), should be weighed into the decision. Subsequent issuance of an arrest warrant after a positive forensic analysis remains possible and should always be considered in the determination to arrest at the time of a negative preliminary drug test result.
14. The colorimetric change(s) in the preliminary drug tests, achieved as the result of positive indications of a controlled dangerous substance, are generally immediate and distinct. Colorimetric changes which are indistinct or slow to achieve are either negative or inconclusive. The officer should consider if the compound may contain a different controlled dangerous substance and use a preliminary drug test kit for that particular substance. If more than one test is performed, each test will require a Preliminary Drug Test Form (Form #148), and all forms will be made part of the completed incident report (EPR).

### **EVIDENCE PROCESSING AND CASE REPORTING**

15. After the sample substance tests positive by using the preliminary drug test kit, the main quantity (core evidence) from which the testing sample was drawn shall be submitted to Central Evidence and Property for storage and subsequent analysis by the Scientific Criminal Investigation Section – Drug Chemistry Unit.
16. The arresting officer(s) has 72 hours to submit the approved arrest report to the Orleans Parish District Attorney's Office for screening. (See also: **Chapter 42.15 – Arrest Case Management and District Attorney Screening**).
17. Upon completion of a test, the **Preliminary Drug Test Form** (Form #148) shall be completed and the original form attached as a numbered page of the incident report (EPR) by the reporting officer. **The incident report is incomplete without the inclusion of this form.**

18. A copy of the Preliminary Drug Test Form (Form #148) shall be attached to the evidence package submitted to Central Evidence & Property for SCIS examination and quality control.
19. The incident report shall indicate:
  - (a) The type of preliminary drug test kit used;
  - (b) The name of the officer(s) conducting the test; and
  - (c) The name of any officer/supervisor witnessing the test.
20. Other information related to the specific test shall be included on the Preliminary Drug Test Form (Form #148) attached to the incident report and is not required to be written in the Narrative of the incident report.
21. The use of the preliminary drug test kit and the result will be included in the Gist of any arrest made for possession and/or distribution of a controlled dangerous substance. The Preliminary Drug Test Form (Form #148) need not accompany the Gist.
22. While using boilerplate language in reports is prohibited, an example of the suggested manner of documentation follows, using cocaine as the suspected controlled dangerous substance:
  - (a) A representative sample of the suspected substance was mixed with an approved preliminary test kit by Officer Jones in accordance with the manufacturer's instructions. The representative sample displayed an immediate and unambiguous colorimetric response suggesting the presence of cocaine.
  - (b) The following information shall be documented in the Narrative section of the incident report:
    - The use of a preliminary drug test kit, noting the type of kit used;
    - Who conducted and/or witnessed the test;
    - The statement that the test was conducted in compliance with the manufacturer's instructions;
    - The statement that the appropriate color changes to indicate a positive result occurred; and
    - A statement if the changes were immediate and unambiguous.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.18

### TITLE: ADULT ABUSE

**EFFECTIVE: 12/10/2017**

**REVISED: Replaces Policy 326**

---

#### PURPOSE

The purpose of this Chapter is to provide members of this department with direction and understanding of their role in the prevention, detection and intervention in incidents of adults who cannot physically or mentally protect themselves and who are harmed or threatened with harm through action or inaction by themselves or by the individuals responsible for their care or by other parties.

#### POLICY STATEMENT

1. It is the policy of the New Orleans Police Department to treat reports involving at-risk adults as a high priority criminal activity that is to be fully investigated regardless of the relationship between the victim and the suspect (**R.S. 15:1501** et seq.).
2. The first responding officer is the initial source of information for the remainder of the investigative team and makes decisions that can deeply affect the investigation and the victim, setting the tone for the entirety of a case. This policy is intended to guide responding officers when responding to reports of adult abuse, neglect, maltreatment, and sexual-related incidents that are not handled by Sex Crimes. (See also: **Chapter 42.2 – Sexual Assault**).

#### DEFINITIONS

Definitions relevant to this Chapter include:

**Abandonment**—The desertion or willful forsaking of an adult by anyone having care or custody of that person under circumstances in which a reasonable person would continue to provide care and custody (**R.S.1503 (1)**).

**Abuse**—The infliction of physical or mental injury, or actions which may reasonably be expected to inflict physical injury, on an adult by other parties, including but not limited to such means as sexual abuse, abandonment, isolation, exploitation, or extortion of funds or other things of value (**R.S.1503 (2)**).

**Adult**—Any individual eighteen years of age or older, or an emancipated minor who, due to a physical, mental, or developmental disability or the infirmities of aging, is unable to manage his own resources, carry out the activities of daily living, or protect himself from abuse, neglect, or

exploitation (**R.S.1503 (3)**).

**Exploitation**—The illegal or improper use or management of an aged person's or disabled adult's funds, assets, or property, or the use of an aged person's or disabled adult's power of attorney or guardianship for one's own profit or advantage (**R.S.1503 (7)**).

**Extortion**—The acquisition of a thing of value from an unwilling or reluctant adult by physical force, intimidation, or abuse of legal or official authority (**R.S.1503 (8)**).

**Isolation**—Intentional acts, including physical or chemical restraints or to restrict, place or confine an adult in a restricted area for the purpose of social deprivation, committed for the purpose of preventing, and which do serve to prevent, an adult from having contact with family, friends, visitors, concerned persons or from receiving mail or telephone calls. This shall not be construed to affect a legal restraining order or medical isolation prescribed by a licensed physician caring for the adult (**R.S.1503 (9)**).

**Neglect**—The failure, by a caregiver responsible for an adult's care or by other parties, to provide the proper or necessary support or medical, surgical, or any other care necessary for his/her well-being. No adult who is being provided treatment in accordance with a recognized religious method of healing in lieu of medical treatment shall for that reason alone be considered to be neglected or abused (**R.S.1503 (10)**).

**Sexual Abuse**—When the adult is forced, threatened, or otherwise coerced by a person into sexual activity or contact, or the adult is involuntarily exposed to sexually explicit material, sexually explicit language, sexual activity or contact, or the adult lacks the capacity to consent, and a person engages in sexual activity or contact with that adult (**R.S.1503 (13)**).

#### **MANDATORY REPORTING REQUIREMENTS**

3. Members of the New Orleans Police Department are considered mandatory reporters. If during the course of an investigation, an officer has reasonable cause to believe that an adult's physical or mental health or welfare has been or may be further adversely affected by abuse, neglect or exploitation, the officer shall take a report as soon as reasonably practicable (**R.S. 15:1504(A)**).
4. Upon receipt of an adult abuse report from an adult protection agency, the officer shall initiate an investigation, document it in an incident report and notify the referring adult protection agency of the disposition of the report (**R.S. 15:1506(C)**).
5. Any person who is required to report the abuse or neglect of an adult and who knowingly and willfully fails to report, obstructs the investigation, provides false information or who retaliates against a person who reports abuse may be guilty of a crime (**R.S. 14:403.2**).

#### **DOMESTIC VIOLENCE UNIT RESPONSIBILITIES**

6. The ISB – CID – SVS – Domestic Violence Unit is responsible for the following:
  - (a) Referring and providing a copy of the abuse report to the appropriate adult protection agency or as required by state law (**R.S. 15:1506(A)**).
  - (b) Retaining the original adult abuse report with the initial case file.

#### **RESPONSIBILITY OF THE PATROL OFFICER**

7. All calls for service or incidents involving actual or suspected adult abuse or neglect shall be responded to immediately, fully investigated and appropriately documented.

8. The patrol officer's responsibility is to:
  - (a) Provide an emergency response, including attending to medical needs;
  - (b) Inquire about the identity and location of the suspect;
  - (c) Preserve evidence;
  - (d) Request Communication Services contact a Domestic Violence detective if one is not already on scene; and
  - (e) Communicate observations and consult with the Domestic Violence detective who shall have the discretion to respond to the scene after hours.
9. Officers may be called upon to effect a forced entry as the first responder to the scene of suspected adult abuse or neglect. Entry should be immediate when it appears reasonably necessary to protect life or property. When the need for an emergency entry is not evident, officers should seek supervisory approval.

### INITIAL RESPONSE

10. Officers must quickly assess the situation to ensure the immediate safety of all persons. As part of the initial response, patrol officers shall:
  - (a) Make contact with the reporting person as soon as possible to address safety concerns and summon emergency medical assistance if needed;
  - (b) Evaluate the scene for people, vehicles, or objects involved as well as possible threats;
  - (c) Relay all vital information to responding officers, supervisors, and detectives, including any possible language barriers; and
  - (d) When appropriate and necessary, patrol officers shall begin a search for the suspect and temporarily detain or arrest the suspect as appropriate based on evidence of probable cause.
11. Officers investigating instances classified as adult abuse shall notify Communications Services to contact members of the Domestic Violence Unit. Domestic Violence Unit personnel shall consult and assist responding officers in cases involving neglect and abuse of the elderly. It shall be at the discretion of the Domestic Violence Unit Commander if the Domestic Violence Unit will be called out after hours to assist district officers with cases involving adult abuse and neglect.

### NOTIFICATION

12. The responding / reporting / investigating officer shall notify the appropriate adult protection agency as soon as possible and make information regarding the investigation available if the Domestic Violence Unit member does not assume the investigation. **(R.S. 15:1506(A))**.
13. The Department of Health and Hospitals and Adult Protective Services shall be notified through Communications Services immediately when an incident occurs regarding Adult Abuse. (800-898-4910 or 225-342-9069).
14. The Domestic Violence Unit shall be notified in cases of adult abuse. Immediate response will be at the discretion of the Domestic Violence Unit detective. The following persons should be considered for notification, via Communications Services, if it appears an in-depth investigation is required and the Domestic Violence Unit member is not yet on scene or if it will be handled by the responding officer:
  - (a) District Patrol supervisor
  - (b) District Investigations Unit personnel
  - (c) Parish or State Adult Protective Services Agency personnel

(d) Victim advocate

15. Reporting / responding officers shall notify and forward all arrest and non-arrest cases of adult abuse and neglect to the Domestic Violence Unit via email to [Domestic\\_Violence\\_GRP@nola.gov](mailto:Domestic_Violence_GRP@nola.gov). It shall be the Domestic Violence Unit's responsibility to conduct any necessary follow-up investigation and consultation with the District Attorney's Office in arrest and non-arrest instances regarding cases involving adult abuse and neglect.

### COURT ORDERS

16. In any situation where an officer has reasonable cause to believe that an adult is at immediate and present risk of substantial harm or deterioration from abuse, neglect, or self-neglect, and the adult lacks the capacity to consent, or with the consent of an adult who has capacity, the handling officer shall contact the Department of Health and Hospitals and Adult Protective Services to petition the court to obtain an order to provide emergency protective services (**R.S. 15:1511(A)**).
17. If the Department of Health and Hospitals and Adult Protective Services is unwilling or unable to obtain a court order of protection, the Domestic Violence Unit member should attempt to obtain the court order on the victim's behalf when possible. Action taken by the DVU investigator shall be documented in any related report.
18. The officer may advise relatives, family members or friends to contact the Department of Health and Hospitals and Adult Protective Services or the District Attorney to file a petition to have a court hearing regarding the abused adult (**R.S. 15:1508(A)**).
19. A parent or grandparent who is being abused by an adult child or adult grandchild may file a petition in the district court seeking a court protective order (**R.S. 9:575**).

### ADULT ABUSE REPORTING

20. Every allegation of adult abuse shall be documented in an incident report. When documenting adult abuse cases, include, at minimum (**R.S. 15:1505(B)**):
- (a) The name, address and approximate age of the adult.
  - (b) The name and address of the person responsible for his/her care, if there is one.
  - (c) The name and address, if available, of the person who is alleged to have abused, neglected or exploited the adult.
  - (d) The nature and extent of the alleged abuse, neglect or exploitation.
  - (e) Any evidence of previous injuries.
  - (f) The basis of the reporting officer's belief that the adult has been abused neglected or exploited.
  - (g) The time and date the Department of Health and Hospitals and Adult Protective Services was notified.
  - (h) Whether the victim was removed from the location.
  - (i) Any other information that would assist in the investigation of the report.
21. Reporting cases of adult abuse is confidential and will only be released as per the Security and Release of Records Policy (**R.S. 14:403.2(B)**).

### ADULT ABUSE IN A CARE FACILITY

22. Officers shall investigate and report all allegations relating to the abuse, neglect or exploitation of an adult in a care facility or under the care of a facility to the Department of Health and Hospitals and Adult Protective Services.

**DHH ADULT PROTECTIVE SERVICES CONTACT INFORMATION**

23. To report adult or adult abuse, employees or the public may call the APS Statewide Hotline at 1-800-259-4990 (**for ages 60 and over**) or 1-800-898-4910 (**for ages 18-59**) or contact a regional APS office.
24. For questions or information, the public may call the Department of Health and Hospitals and Adult Protective Services at 800-898-4910 or 225-342-9069. Additional information may be found on the Internet at: <http://new.dhh.louisiana.gov/>.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 42.19

### TITLE: CHILD ABUSE

**EFFECTIVE: 3/12/2017**

**REVISED: Replaces Policy and Procedure 330**

---

#### PURPOSE

The purpose of this policy is to establish requirements for NOPD members who respond to reports of child abuse and neglect. The Child Abuse Unit shall investigate all abuse and sexually related incidents involving victims under the age of 17 years at the time the incident is reported, including the following signals:

- 29 (death);
- 30 (homicide) at the behest of the Criminal Investigations Division Commander;
- 42 (first-degree rape);
- 42-B (oral sexual battery);
- 42-M (first-degree rape, male victim);
- 42-U (unfounded first-degree rape);
- 43 (second-degree rape);
- 43-B (sexual battery);
- 43-M (second degree rape, male victim);
- 43-MB (misdemeanor sexual battery);
- 43-U (unfounded second-degree rape);
- 46-C (Trafficking of Children for Sexual Purposes);
- 80 (carnal knowledge of a juvenile);
- 81 (indecent behavior);
- 81-S (sexting);
- 89 (crime against nature);
- 92 (contributing to the delinquency of a juvenile);
- 93 (cruelty to a juvenile);
- 283 (video voyeurism); and
- 27 (attempted crime) related to any of the above signals.

Absent exigent circumstances, officers **shall not** interview the child victim or child witnesses. See **Interviewing Children** for more information.

If a Child Abuse detective is not available to respond to the incident, a Special Victims Section supervisor shall direct a Sex Crimes detective to respond to the incident. All detectives shall handle child abuse investigations according to the **Child Abuse Unit Standard Operating Guidelines**.

Officers may utilize the procedures outlined within this chapter when responding to cases of

abuse, neglect, maltreatment, or sexually related incidents involving developmentally disabled victims 17 years of age and older according to the procedures outlined in this Chapter.

Refer to **Chapter 42.2 – Sexual Assault** for guidance on handling sexual incidents involving victims 17 years of age and older at the time the incident is reported.

## DEFINITIONS

Definitions relevant to this Chapter include:

**Abuse**—Any one of the following acts that seriously endanger the physical, mental, or emotional health and safety of a child:

- (a) The infliction of physical or mental injury upon a child by any person;
- (b) The attempted infliction of physical or mental injury upon a child by any person;
- (c) Allowing, as a result of inadequate supervision, the affliction or attempted infliction of physical or mental injury upon a child by any person;
- (d) The exploitation or overwork of a child by any person; or
- (e) The involvement of a child in any sexual activity constituting a crime under the laws of this state.

**Child**—A person under 17 years of age who, prior to juvenile proceedings, has not been judicially emancipated or emancipated by marriage (La. Ch.C. art.728; definition changed from 18 to 17 years for purposes of this Chapter).

**Commercial Sexual Exploitation of Children (CSEC), also known as Domestic Minor Sex Trafficking (DMST)**—To recruit, harbor, transport, provide, sell, purchase, receive, isolate, entice, obtain, or maintain the use of a person under the age of eighteen years for the purpose of engaging in commercial sexual activity. Commercial sex act means any sexual act performed or conducted when any thing of value has been given, promised, or received by any person. Refer to La. R.S. 14:46.3.

**Developmental disability**—A severe chronic disability that can be cognitive or physical or both. Developmental disabilities appear before the age of 22 and are likely to be lifelong. Some developmental disabilities are largely physical issues, such as cerebral palsy or epilepsy. Some individuals may have a condition that includes a physical and intellectual disability, for example Down syndrome or fetal alcohol syndrome. Refer to La. R.S. 28:451.2(12) for the state definition.

**Misdemeanor sexual battery**—The intentional touching of the breasts or buttocks of the victim by the offender using any instrumentality or any part of the body of the offender, directly or through clothing, or the intentional touching of the breasts or buttocks of the offender by the victim using any instrumentality or any part of the body of the victim, directly or through clothing, when the offender acts without the consent of the victim (La. R.S. 14:43.1.1). Misdemeanor sexual batteries are classified under Signal 43-MB.

**Neglect**—The refusal or unreasonable failure of a parent or caretaker to supply a child with necessary food, clothing, shelter, care, treatment, or counseling for any injury, illness, or condition of the child. Neglect includes prenatal neglect.

**Protective custody**—Taking a child into custody without a court order based on reasonable grounds to believe that the child's surroundings are such as to endanger the child's welfare and immediate removal appears to be necessary for the child's protection (La. Ch.C. art. 621).

## POLICY STATEMENT

1. The first responding officer is the initial source of information for the remainder of the

investigative team and makes decisions that can deeply affect the investigation and the victim, setting the tone for the entirety of a case. This policy is intended to guide responding officers when responding to reports of child abuse, child neglect, maltreatment, and sexual-related incidents, including the commercial sexual exploitation of children.

### **COMMUNICATIONS SERVICES RESPONSIBILITIES**

2. Communications Services shall dispatch a Child Abuse detective, or a Sex Crimes detective at the direction of a Special Victims Section supervisor, to the location of the victim.
3. For child abuse calls as defined in this Chapter, Communications Services shall dispatch a patrol officer for Code 2 calls for service. Communications Services shall not dispatch a patrol officer to a Code 1 call for service unless otherwise requested by the detective.
4. When a complainant reports child abuse, communications personnel shall follow standard emergency response that includes evaluating and properly prioritizing the call, securing medical assistance, inquiring about a suspect's current location, and obtaining detailed information to identify the suspect. Information about the child's relationship with the victim, weapon use, and history of violence also shall be obtained.
5. To ensure critical evidence is not lost, Communications Services personnel shall:
  - (a) Ask whether the victim has bathed, douched, urinated, or made other physical changes and advise against doing so;
  - (b) Ask the reporting person to use a clean jar to collect urine should the victim have to urinate;
  - (c) Let the reporting person know that other evidence may still be identified and recovered so the crime should still be reported if the victim has bathed or made other physical changes;
  - (d) Preserve the communications tape and printout for the investigation; and
  - (e) Explain to the reporting person that these questions will not delay an officer's response to the caller's location.

### **RESPONSIBILITY OF THE PATROL OFFICER**

6. The patrol officer's responsibility is to:
  - (a) Provide an emergency response, including attending to medical needs;
  - (b) Inquire about the identity and location of the suspect;
  - (c) Preserve evidence;
  - (d) Request a Child Abuse detective if one is not already on scene; and
  - (e) Communicate observations to the responding detective.
7. If an officer responds to a scene that may involve child abuse but was not dispatched under a child abuse signal and no Child Abuse Unit detective is on scene, the officer shall immediately notify the Child Abuse Unit.
8. The following sections of this chapter provide greater detail on the officer's responsibilities when responding to a child abuse incident.

### **INITIAL RESPONSE**

9. As part of the initial response, patrol officers shall:

- (a) Make contact with the reporting person as soon as possible to address safety concerns and summon emergency medical assistance if needed;
- (b) Evaluate the scene for people, vehicles, or objects involved as well as possible threats;
- (c) Relay all vital information to responding officers, supervisors, and detectives, including any possible language barriers; and
- (d) When appropriate and necessary, patrol officers shall begin a search for the suspect and temporarily detain or arrest the suspect as appropriate based on evidence of probable cause. If the suspect is detained, wait for the Child Abuse detective to interrogate the suspect. Patrol officers shall not interrogate the suspect.

### MANDATORY NOTIFICATIONS

10. Members who believe that a child's physical or mental health or welfare is endangered as a result of abuse or neglect or that abuse or neglect was a contributing factor in a child's death shall notify the Child Abuse Unit (La. Ch.C. arts. 609-610).

### MAJOR CRIME SCENE OFFICER STATEMENT

11. All officers and supervisors on scene shall complete a Major Crime Scene Officer Statement (Form 188) and provide it to investigating detectives.
12. The statement should include a written narrative of all observations, including observations of the crime scene and any statements taken from individuals interviewed at the scene. As accurately as possible, officers shall use the interviewee's own words. Officers shall record observations of the crime scene, including the suspect's demeanor and the victim's demeanor, and document any injuries or disheveled clothing.
13. **For privacy reasons, under no circumstances should officers complete a report in the Electronic Police Reporting System for a possible child abuse incident.** If an officer responds to a call with a non-child abuse signal and encounters elements of child abuse, he/she should not reference the alleged child abuse in an EPR report in any way. See **Victim Confidentiality** for more information.

### INTERVIEWING CHILDREN

14. The officer **shall not** interview the child victim or child witnesses. In exigent circumstances after consulting a Special Victims Section supervisor, only the minimum information necessary to stabilize the situation and secure evidence may be obtained from a child.
15. If the victim chooses to tell his or her story, express sympathy and document the statements in the Major Crime Scene Officer Statement.

### INTERVIEWING ADULTS

16. Officers shall inquire with adults on scene as to the location and identity of the suspect.
17. Absent exigent circumstances, officers shall not interview adult suspects and witnesses. If a detective requests that an officer interview adult suspects or witnesses under exigent circumstances, the officer shall document the statements in a Major Crime Scene Officer Statement, and the detective shall document the exigent circumstance in a supplemental report.

18. Officers shall ensure that the child victim is not present and cannot hear the interview with the adult.
19. When interviewing adults, officers should address:
  - (a) **The allegation:** "Please tell me **exactly** what the child said to you, what you saw, and how you found out about this. What else do you know or think about this?"
  - (b) **First disclosure:** "Who did the child tell first? What were the circumstances?"
  - (c) **Corroboration:** "Do you know of any children or adults who might know something about this?"
  - (d) **Suspect's history:** "Do you know if anything like this has ever happened before with the alleged perpetrator?"
  - (e) **Need for a medical exam:** If the incident may have happened in the last 72 hours or the child is currently injured, the child may need immediate medical evaluation. See **Addressing Medical Needs**.

### **SUSPECT INTERVIEWS**

20. Suspects should be interviewed only by the detective but can be detained by the responding officer.
21. If a suspect discloses any information, that information shall be documented in the Major Crime Scene Officer Statement and communicated to the detective.

### **ADDRESSING MEDICAL NEEDS**

22. Obtain medical care in emergency cases or at the direction of the detective.
23. A case is considered an emergency if the victim is injured, complaining of injury, or if there has been physical contact with the alleged perpetrator in the past 72 hours.
24. Consult with the detective about addressing medical needs other than in emergency situations.

### **SIGNS OF DRUG-FACILITATED SEXUAL ASSAULT**

25. Officers should be aware that the signs of drug-facilitated sexual assault could include:
  - (a) The victim reports being under the influence of a drug during the abuse;
  - (b) The victim experiences vaginal soreness or other signs of abuse and cannot remember a part or the entirety of the incident;
  - (c) The victim reports becoming heavily intoxicated very rapidly;
  - (d) The victim reports symptoms of amnesia; and/or
  - (e) The victim may exhibit symptoms of intoxication if still under the influence of rape-facilitating drugs.

### **SIGNS OF COMMERCIAL SEXUAL EXPLOITATION OF CHILDREN**

26. Officers should immediately notify the Child Abuse Unit if they suspect a child could be a victim of commercial sexual exploitation. Officers should be aware that the signs of commercial sexual exploitation of children could include:
  - (a) Child has run away from home;

- (b) Inappropriate dress, including overtly sexual clothing or oversized clothing;
  - (c) Child has unexplained bruises or injuries;
  - (d) Child is in possession of large amounts of money, more than one cell phone, hotel keys;
  - (e) Child has an older boyfriend, girlfriend, friend or relative more than 5 years older than the child;
  - (f) The child is not enrolled in school or is missing large amounts of school;
  - (g) The child has fake identification or someone else is in control of their identification; or
  - (h) The child was arrested or spotted in an area known for prostitution, such as an adult entertainment venue, strip club, massage parlor, x-rated video shop, known area of town and/or hotel.
27. In accordance with La. R.S. 14:46.3, no victim of Trafficking shall be prosecuted for unlawful acts committed as a direct result of being trafficked. Consent of a minor is not a defense and shall not be relevant to the investigation. No victim of trafficking shall be arrested, investigated, or referenced in terms of La. R.S. 14:82 Prostitution.

### **PRESERVING EVIDENCE**

28. Officers shall protect the integrity of evidence and request assistance or direction from a Child Abuse detective regarding the collection or preservation of evidence. Officers should secure the crime scene to ensure that evidence is not lost, changed, or contaminated.
29. Evidence should be handled by as few people as possible.
30. Absent exigent circumstances, officers and detectives shall not collect evidence. Crime Scene Technicians shall collect evidence under the direction of a Child Abuse Unit detective.
31. If anyone reports the presence of possible physical evidence, make sure that it is collected. Examples of physical evidence include but are not limited to clothing worn by the victim, drawings, writings, tape recordings, videos, e-mails, or text messages made by the victim regarding the allegation, bed sheets, used condoms, or evidence collected by an emergency department professional.
32. If a drug-facilitated sexual assault is suspected, officers shall preserve drinks to allow a crime lab to test for the presence of drugs and, in consultation with the assigned Child Abuse detective, expedite the forensic exam before any drugs leave the victim's system, if the victim's custodians agree to the exam.

### **PROTECTIVE CUSTODY**

33. An officer may take a child into temporary protective custody without a court order if there are reasonable grounds to believe that the child's surroundings endanger his/her welfare and immediate removal appears necessary (La. Ch.C. art. 621).
34. Whenever feasible, officers shall consult with the Child Abuse Unit prior to taking a child into protective custody in a child abuse related case. If prior notification is not feasible, officers shall contact the Child Abuse Unit promptly after taking a child into protective custody.
35. Prior to taking a child into temporary protective custody, the officer should take reasonable steps to deliver the child to another parent or legal guardian who is not

involved in the actions which precipitated taking the child into temporary protective custody. The detective **shall** receive permission from a Special Victims Section supervisor and DCFS before delivering the child to another parent or legal guardian.

36. The officer must complete a separate face sheet in the EPR system with the Signal 78 - Protective Custody. The original signal of the call shall not be changed to Signal 78 - Protective Custody. The officer shall contact the detective to determine the appropriate destination for the individual.

#### **OFFICER RESPONSIBILITIES FOR DRUG-ENDANGERED CHILDREN**

37. Officers responding to a drug lab or other narcotics crime scene where a child is present or where a child resides should:
- (a) Document the environmental, medical, social, and other conditions of the child using photography as appropriate, and
  - (b) Notify a Special Victims Section supervisor.

#### **SUPPORTING THE CHILD VICTIM**

38. If the officer encounters the child, the officer should state, "What happened is not your fault. I'm sorry this happened to you, and none of this is your fault. I'm going to call a special team to help you."
39. Officers shall demonstrate support in all interactions with the victim and encourage adults on scene to:
- (a) Support the victim and the investigation;
  - (b) Avoid discussing the incident in front of the victim;
  - (c) If the child brings up the incident, listen without questioning and document exactly what the child says; and
  - (d) Not blame the child or make the child feel guilty with questions such as "why didn't you tell when it happened."

#### **VICTIM CONFIDENTIALITY**

40. Throughout the investigation of the case, officers and detectives shall protect the confidentiality of the victim's information to the maximum extent possible by law and policy. Officers shall not publicly disclose the name, address, or identity of child abuse victims.
41. Strategies to protect victim confidentiality include:
- (a) Not using a victim's address or name on police radio, whenever feasible. If an officer's unit does not have an MDT, phone contact between Communications Services and responding officers or detectives is preferred to contact over police radio.
  - (b) Responding officers shall document their response fully on a Major Crime Scene Officer's Statement Form (Form 188). The name of any child abuse victim shall not be disseminated or published in an initial police report.

#### **BODY WORN CAMERAS**

42. Officers shall use body cameras in accordance with **Chapter 41.3.10 – Body Worn Cameras**.

43. NOPD shall not publicly release footage of child sexual assault cases (La. R.S. 46:1844).

#### **CHANGING THE SIGNAL AND DISPOSITION**

44. Responding officers **shall not** change the signal or give a disposition for any call for service with a signal covered by this Chapter. Only the Special Victims Section may change the signal or give a disposition in accordance with the **Child Abuse Unit Standard Operating Guidelines**.

#### **TRANSFERRING THE CASE TO A DETECTIVE**

45. A victim of child abuse may bond with the first officer with whom he or she comes into contact after the incident. To help the child victim become comfortable speaking with other members, the officer shall explain the role of the different members of the child abuse response team and help with transitions through introductions to other members involved in the investigation.

#### **PATROL SUPERVISOR**

46. Patrol supervisors shall respond to the scene if requested.
47. Patrol supervisors **shall not** change the signal or give a disposition for any call for service with a signal covered by this Chapter. Only the Special Victims Section may change the signal or give a disposition in accordance with the **Child Abuse Unit Standard Operating Guidelines**.
48. Special Victims Section supervisors will communicate to patrol supervisors regarding any training needs for officers under their supervision.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 43.1

### TITLE: ASSET FORFEITURE

**EFFECTIVE: 12/17/2017**

**REVISED: Replaces Policy Procedure 606**

---

#### PURPOSE

This Chapter describes the authority and procedure for the seizure, forfeiture and liquidation of property associated with designated offenses.

#### POLICY STATEMENT

1. The New Orleans Police Department recognizes that appropriately applied forfeiture laws are helpful to enforce the law, deter crime and reduce the economic incentive of crime.
2. The potential for revenue shall not be allowed to jeopardize the effective investigation and prosecution of criminal offenses, officer safety, the integrity of ongoing investigations or any person's due process rights (LAC 22:III.7103(A)).

#### DEFINITIONS:

Definitions related to this Chapter include:

**Asset forfeiture detective/investigator**—The commissioned member of the Investigation and Support Bureau – Specialized Investigation Division – Narcotics Section – Asset Forfeiture Unit assigned to be responsible for reviewing forfeiture cases and for acting as the liaison between the Department and the assigned prosecuting attorney.

**Forfeiture**—The process by which legal ownership of an asset (property) is transferred to a government or another authority.

**Property**—Anything of value, including movables and immovables, including the whole of any lot or tract of land, and corporeal and incorporeal movable property, including currency, instruments or securities, or any other kind of privilege, claim or right, and includes any interest therein (R.S. 40:2601(4)).

**Seizure**—The act of law enforcement officials taking property, cash or assets that have been used in connection with or acquired by specified illegal activities.

**ASSET SEIZURE**

3. Property may be seized for forfeiture as provided in this Chapter, State and Federal law.

**PROPERTY SUBJECT TO SEIZURE**

4. If the conduct or crime gives rise to forfeiture under the law, then the following may be seized upon review and approval of a supervisor and in coordination with the forfeiture investigator (R.S. 40:2603):
  - (a) The property is subject to seizure and forfeiture as contraband, derivative contraband or property related to contraband under the provision of Section 4, Article 1 of the Louisiana Constitution (R.S. 40:2604).
  - (b) The property is seized incident to a lawful arrest, search or inspection when the officer has probable cause to believe the property is subject to forfeiture and will be lost or destroyed if not seized.
5. A large amount of money alone is insufficient to establish the probable cause required to make a seizure.

**PROCESSING FOR FORFEITURE PROCEEDINGS**

6. When an officer believes that the incident or case he/she is investigating may involve property or cash subject to seizure under this Chapter, the officer making the seizure shall ensure compliance with the following:
  - (a) The investigating officer's immediate supervisor shall be notified and concur in the decision to contact the on-duty NOPD ISB – Special Investigations Division – Narcotics Section – Asset Forfeiture Unit investigator through Communications Services.
  - (b) The Asset Forfeiture Unit investigator shall determine if the seizure will take place and instruct the investigating officer on any actions he/she needs to take while the Asset Forfeiture member handles all aspects of the seizure. Options include:
    - If asset detective makes the scene, he/she may seize the currency and place it on the books at CE&P.
    - The asset detective may seize the currency but instruct the officer to place the currency on the books at CE&P.
    - If decision is NOT to seize, and the items are evidence, they will be processed by the officer as such and placed on the books at CE&P.
    - If decision is NOT to seize and the items are NOT evidence, they will be returned to the owner, possessor or his/her designee.
  - (c) The investigating officer shall complete a police incident report documenting his/her actions taken in the investigation.
  - (d) The officer shall complete an inventory of the property or evidence seized and submit the property or evidence seized to Central Evidence and Property before the end of the shift. All documentation of evidence / property seizure shall be submitted to the officer's supervisor by the end of his/her shift.
  - (e) The officer will book seized items as evidence with a detailed, complete inventory and an estimated value of the property in the comment section of the property form, "Seized Subject to Forfeiture."
  - (f) Property seized subject to forfeiture should be booked on a separate property form. No other evidence from the case should be booked on this form (R.S. 40:2607(C)).
  - (g) When completed, immediately forward original seizure forms and a copy of the related incident report to the Asset Forfeiture Unit, attention of the member contacted.

- (h) Photographs should be taken of items seized, particularly cash, jewelry and other valuable items if possible.
- (i) Officers who suspect property may be subject to seizure but are not able to seize the property (e.g., the property is located elsewhere, the whereabouts of the property is unknown, or the property is real estate, bank accounts or non-tangible assets) should document the information in an incident report and forward a copy of the approved incident report to the Asset Forfeiture Unit.

### **ASSET FORFEITURE UNIT**

- 7. The responsibilities of the Asset Forfeiture Unit commander include the following:
  - (a) Ensure review of each seizure-related request and determine whether state or federal seizure attempts should be made. Contact federal authorities when pursuing federal seizure, as appropriate.
  - (b) Serve as the liaison between the Department and the District Attorney or Attorney General.
  - (c) Review each asset forfeiture case to ensure the asset seizure guidelines have been followed.
  - (d) Periodically review and update the required asset seizure guidelines, this Chapter and any related policies or procedures to reflect current federal and state statutes and case law (LAC 22:III.7103(E)).

### **GENERAL INFORMATION**

- 8. The items which most often give rise to forfeiture are U.S. currency and property. Property includes real property, jewelry, and conveyances (i.e., automobiles, water-craft, airplanes, motorcycles, etc.). In order for conveyances to be acceptable for forfeiture, they must meet the following criteria:
  - (a) Generally be in good condition.
  - (b) Be approved for seizure by the Commander of the ISB – SID – Narcotics Section or his/her designee.
  - (c) Not susceptible to a substantial lien which renders the asset unsuitable for seizure.

### **INSTRUCTIONS AND RESPONSIBILITIES - UNITS OTHER THAN ASSET FORFEITURE**

- 9. Any officer investigating any narcotics related incident whereby currency or property is located and deemed potentially suitable for confiscation, with a value in excess of \$1,000.00, shall immediately notify his/her supervisor and advise the supervisor of the facts surrounding the potential seizure.
- 10. If the supervisor agrees upon the suitability for potential seizure of the currency or property, the supervisor or his/her designee shall contact the Asset Forfeiture Unit on-duty / callout member through Communications Services.
- 11. An Asset Forfeiture member shall contact the investigating case officer and provide assistance to the investigating case officer with processing the seizure portion of the investigator's case. At his/her discretion, the Asset Forfeiture Investigator may elect to meet the investigating case officer on the scene to assist with the on-site interview of subjects, determine assets suitable for seizure, etc.
- 12. The investigating case officer remains responsible for all aspects of the seizure portion of the case, unless specifically relieved of handling the seizure by the consulting Asset Forfeiture member.

13. The investigating case officer is responsible for maintaining the separation of assets directly connected to individuals under investigation from other property. Assets not directly connected to individuals are also to be kept separated. Under no circumstances are assets from differing individuals or differing sources to be mixed together.
14. Any assets not specifically connected to an individual should be left in place, pending the arrival of the Asset Forfeiture member. These assets should not be moved, unless exigent circumstances force the investigating case officer to do so. If moved, assets should retain their identification integrity.
15. In those cases where the Asset Forfeiture member elects not to meet the investigating case officer on the scene, it shall be the responsibility of the investigating case officer to interview suspects, witnesses, and other non-law enforcement personnel on the scene. These interviews should achieve the following goals:
  - (a) Determine ownership of the property considered for confiscation.
  - (b) Determine suitability for confiscation under L.R.S. 40:2601 et. seq. This determination should be made in consultation with the Asset Forfeiture member.
  - (c) Process all property to be confiscated under the guidelines outlined in this policy.
16. The investigating officer must notify the Asset Forfeiture member consulted of the completion of the investigation by departmental email within 24 hours of the initial incident so he/she may proceed with the seizure portion of the investigation, maintaining awareness of the time restrictions placed on seizures under L.R.S. 40:2601 et. seq. This includes, but is not limited to, obtaining a Seizure Warrant (if applicable) within 72 hours of constructive seizure and notification of the District Attorney's office within ten (10) days of the seizure by delivery of the completed incident report.
17. The Asset Forfeiture member must complete Asset Forfeiture Checklist.

#### **INSTRUCTIONS AND RESPONSIBILITIES - ASSET FORFEITURE SECTION**

18. The Asset Forfeiture Unit will be responsible for handling all non-arrest seizure incidents, reported as a Signal 21-S (Seizure). On Asset Seizure (Signal 21-S) cases, all assets are to be listed as "evidence" on the property receipt form, with the notation "Hold for Asset Forfeiture" boldly written on the slip.
19. In all cases involving an arrest, the investigating case officer is responsible for the arrest portion of the investigation. However, the Asset Forfeiture Section will be responsible for handling the seizure portion of all arrest & seizure incidents.
20. The Asset Forfeiture Unit shall assist and facilitate training requests through the Education & Training Division for District Investigative Units and any other unit upon request. This training shall be designed to facilitate investigating case officers in the handling of the seizure portion of their investigations.
21. The Asset Forfeiture Unit shall assume responsibility in all cases where the complexity of a case goes beyond a normal seizure investigation. Determination for adoption of a case under these guidelines to be determined by the investigating case officer, the Asset Forfeiture Unit investigator assigned to assist on the case, and the Commander of the Asset Forfeiture Unit.

#### **CONFISCATED CURRENCY AND/OR PROPERTY**

22. Whenever currency is confiscated by an investigating case officer or Asset Forfeiture member, the currency shall be counted by the investigating case officer and the Asset

- Forfeiture Unit investigator in a secure location.
23. In cases where no Asset Forfeiture Unit investigator is on the scene, the investigating case officer and a supervisor will count the currency in a secure location.
  24. The investigating case officer, Asset Forfeiture Unit investigator and/or supervisor shall use an alternate location if the scene cannot be secured for counting. Every effort shall be made to count the seized or confiscated currency in the presence of the possessing party.
  25. The Asset Forfeiture Unit investigator or seizing officer shall determine the amount of currency, complete a receipt for the currency, and note the amount on the receipt in the following manner - "Currency counted as \$xx.xx amount." The Asset Forfeiture Unit investigator seizing shall sign the receipt, acknowledging the amount of confiscated currency. (Receipt Books can be obtained from the Supply Shop at Police HQ.)
  26. If circumstances permit, the possessing party shall also be asked to sign the receipt. If the possessing party refuses to sign the receipt, the Asset Forfeiture Unit investigator seizing shall note on the receipt "Refused to Sign".
  27. A copy of the completed receipt should be included in the report. The possessing party, whether or not he/she claims ownership of the property, should receive a copy of the receipt.
  28. An Asset Forfeiture Unit - Confiscated Property Questionnaire should be completed by:
    - (a) The investigating officer for seizures under \$10,000.00.
    - (b) The Asset Forfeiture Unit investigator for seizures over \$10,000.00.
  29. This form assists in the identification of the owner if on-scene ownership is denied. It also precludes later claims of ownership. It simplifies notifications of impending forfeiture which need to be made to anyone having an interest in the property involved. This questionnaire should be made a part of the incident report.
  30. In cases where property is confiscated, the Asset Forfeiture Unit investigator seizing shall complete a receipt for the property, including a description. The Asset Forfeiture Unit seizing officer shall sign the receipt, acknowledging the confiscated property.
  31. If circumstances permit, the possessing party shall also be asked to sign the receipt. If the possessing party refuses to sign the receipt, the Asset Forfeiture Unit investigator seizing shall note on the receipt "Refused to Sign."
  32. A copy of the completed receipt should be included in every report. If the possessing party claims ownership of the property, the possessing party shall also be supplied with a copy of the receipt.

### **CONFISCATED / IMPOUND OF VEHICLES FOR SEIZURE**

33. The confiscation of vehicles, motorcycles or other conveyances to be seized for possible forfeiture are to be considered on a case by case basis. Under no circumstance is a vehicle or conveyance to be confiscated, impounded, or otherwise seized without prior contact with an Asset Forfeiture Unit investigator and his/her approval. Suitability for seizure must be established prior to constructive seizure. **This policy does not supersede an officers ability to impounding a vehicle for evidentiary/search warrant purposes.**

34. Once determination to seize has been approved, the Asset Forfeiture Unit investigator will advise the investigating case officer where to have the vehicle brought. At a determined meeting location the Asset Forfeiture Unit investigator will take possession of the vehicle for safekeeping. Seized vehicles will be kept in a secured location, inaccessible to unauthorized personnel.
35. Any property not to be seized and inventoried should be cleared from the seized vehicle prior to departing the seizure scene. For any vehicle to be impounded, it shall be the responsibility of the investigating case officer to inventory the vehicle and ensure all inventoried property is conveyed to Central Evidence & Property in accordance with Departmental policy.
36. Any vehicle, motorcycle, or conveyance to be seized for possible forfeiture and relocated to any location without prior authorization from the Asset Forfeiture Unit investigator assigned to assist with the case shall nullify the seizure of the vehicle, motorcycle, or conveyance under L.R.S. 40:2601 et. seq. The impoundment of the vehicle will be considered an evidentiary impound only.
37. Under no circumstance shall a vehicle being seized for possible forfeiture be towed to any City of New Orleans impound location. Vehicles to be seized are not to be impounded in one of the secured Central Evidence & Property / Crime Lab vehicle stalls without prior authorization from a C.E & P. Supervisor.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 43.3

### TITLE: USE OF SURVEILLANCE AND UNDERCOVER EQUIPMENT

EFFECTIVE: 12/10/2017

REVISED: 10/2/2022

---

#### PURPOSE

This Chapter shall serve as a system of controls for the use of Department-owned surveillance equipment. It is the intent of this Chapter to prevent damage to or loss of surveillance equipment and to regulate use to prevent unauthorized use.

#### POLICY STATEMENT

1. All electronic or mechanical surveillance equipment which may be used by commissioned members of the Department shall either be owned/leased by the City of New Orleans or on loan to the Department from another law enforcement agency.
2. If specialized training is required for the proper use of any surveillance equipment, the member requesting its use must provide documentation of required training or shall be trained prior to using the equipment.
3. Prior to the use of surveillance equipment, the member shall be thoroughly briefed on all state and federal guidelines governing the equipment's use by a supervisor of the unit responsible for storing and maintaining the equipment or the training officer responsible for member training on the proper use of the equipment.
4. Video surveillance of areas open to public view needs no special authorization. No video equipment shall be installed to view any areas which would otherwise have required and officer to obtain a warrant to enter.

#### DEFINITIONS

**Surveillance technology** - any electronic surveillance device, hardware, or software that is capable of collecting, capturing, recording, retaining, processing, intercepting, analyzing, monitoring, or sharing audio, visual, digital, location, thermal, biometric, behavioral, or similar information or communications specifically associated with, or capable of being associated with, any identifiable individual or group. "Surveillance technology" includes but is not limited to face surveillance systems, cell-site simulators, and characteristic tracking systems.

**Cellular communications interception technology / cell site simulator** - any device that intercepts mobile telephony calling information or content, including an international

mobile subscriber identity catcher or other virtual base transceiver station that masquerades as a cellular station and logs mobile telephony calling information.

**Surveillance** - the act of observing or analyzing the movements, behavior, or actions of identifiable individuals.

**Crime of violence** – a felony involving the infliction or threatened infliction of serious bodily injury or death.

**GPS tracking device** - A device that uses the Global Positioning System to determine the precise location of a vehicle to which it is attached and to record the position. The recorded location data can be stored within the tracking unit, or it may be transmitted to a central database or internet-connected computer using various transmission options. This allows the location to be displayed on a map either in real time or from an historical movement perspective.

## GENERAL

5. When requesting use of surveillance equipment from another section of the department, a member shall:
  - (a) Write an interoffice correspondence (Form 105) through the chain of command specifically stating the equipment needed, the time frame, and the investigation.
  - (b) The member's Commander shall check with the Deputy Chiefs of FOB, ISB and PIB to ensure the surveillance will not interfere with a current ongoing investigation.
6. If approved, surveillance equipment shall only be issued by supervisory personnel to the supervisor responsible for the member assigned to the unit requesting the use of the equipment.
7. The supervisor receiving the equipment shall complete all forms required by the issuing unit to track the equipment's use.
8. All surveillance equipment will be returned to the issuing unit upon completion of the investigation.
9. The equipment will be returned by supervisory personnel, and a receipt will be obtained.
10. A copy of the receipt shall be maintained by both the commanding officer of the unit who requested its use and the commanding officer of the issuing unit.
11. Whenever surveillance equipment is used, tapes, photographs, printouts, and audio or video recordings will be recorded in a format capable of being processed as evidence.
12. Any audio and video recording to be logged as evidence will be copied. The original will be placed into evidence, and the copy will remain in the case file held by the investigator.
13. Any officer aware of or discovering the unauthorized use of surveillance equipment shall report it to the unit issuing the equipment and PIB. A disciplinary investigation shall be conducted. PIB may conduct the investigation or refer it to the supervisor monitoring the investigation to determine the extent of misuse.
14. Any lost, stolen, or damaged surveillance equipment will be documented in an incident report (EPR) and a copy shall be delivered to the equipment's issuing unit. Damage caused by negligence may subject the member to disciplinary action.

15. A supervisor from the unit requesting the equipment shall closely monitor the surveillance and investigation.

#### **USE OF CELL SITE SIMULATOR TECHNOLOGY**

16. The use of **cellular communications interception technology / cell site simulators** is only authorized in the following situations:
  - a. for locating a known suspect of a crime of violence for which an arrest warrant has been issued, and only when the use of such technology is pursuant to a search warrant signed by a neutral and detached judge or magistrate commissioner, or;
  - b. To assist in locating a missing individual when there is a reasonable belief that the missing individual is in imminent danger of death or serious bodily injury (as defined in Louisiana Revised Statute 14:2(C)).
17. The authorization to utilize this equipment must be granted by a State or Federal Judge. The simulator will only provide and/or retain information on the target cell number or associated IMEI number. All other surrounding cell numbers and device information remains anonymous to the simulator.
18. The use of cell-site simulator technology must be requested by form 360 from SOD. A copy of the request shall be sent to ISD – intelligence as well as the Professional Standards Section.
19. When requesting use of cell site simulator equipment for investigative purposes, a member shall:
  - a. Write an interoffice correspondence (Form 105), approved by their supervisor, detailing the probable cause for the use of the equipment and that the use of the equipment meets the requirements of this policy and New Orleans Municipal Code Chapter 147.
  - b. Forward that request to the NOPD Special Operations Division and the Professional Standards Section
20. Only authorized members of the NOPD Special Operations Division will be allowed to utilize cell site simulator technology to assist with an investigation and only after the request is approved by a Special Operations Division Supervisor.
21. Within 30 days of the request, investigators requesting the use of the equipment must provide information in writing to the supervisor responsible for providing the equipment and the Professional Standards Section a brief description of how the equipment was used and whether the use of the equipment successfully assisted with their investigation.

#### **USE OF GPS TRACKING DEVICES**

22. All GPS tracking devices owned by NOPD will be secured by the Special Operations Division or the Investigative Services Division and only deployed in accordance with this policy.
23. The Special Operations Division shall maintain a log that contains the current status of all devices owned by NOPD is updated, maintained, and accessible to those employees

- authorized to view it.
24. The use of GPS tracking devices shall be authorized only for felony crimes of violence or felony narcotic investigations (i.e., Distribution, manufacturing, drug trafficking).
  25. The authorization to utilize GPS tracking devices for criminal investigative purposes must be granted by a State or Federal Judge.
  26. Officer shall be aware the placement of any tracking device on a vehicle or other mobile vehicle for the purposes of obtaining information constitutes a search and may only be conducted in accordance with all applicable laws and the regulations of this department (**See Chapter 1.2.4.2 – Search Warrants**).
  27. When requesting use of a GPS tracking device from another section of the department, a member shall:
    - a. Write an interoffice correspondence (Form 105) through the chain of command detailing the probable cause for the use of the equipment, the length of time monitoring is needed, and why traditional surveillance is not preferable or has failed.
    - b. The member's Commander shall check with the Deputy Chiefs of FOB, ISB and PIB to ensure the surveillance will not interfere with a current ongoing investigation.
    - c. Forward that request to the NOPD Special Operations Division and the Professional Standards Section
    - d. Attach the written request to their investigative report to be maintained with the case file.
  28. The length of the time monitoring is needed shall not exceed 30 days. Additional time may be sought by reapplying for authorization from a State or Federal Judge.
  29. All Supervisors overseeing an investigation which utilizes a GPS tracking device shall ensure that:
    - a. Devices are only deployed in accordance with the procedures established in this chapter
    - b. Devices are removed prior to the expiration date of all issued court orders
  30. Investigators utilizing a GPS tracking device shall document the reasons for the request, the dates of the use of the device, and all information obtained from the use of the device in an investigative report.
  31. Within 30 days of the request, investigators requesting the use of the equipment must provide information in writing to the supervisor responsible for providing the equipment and the Professional Standards Section a brief description of how the equipment was used and whether the use of the equipment successfully assisted with their investigation.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 43.6

### TITLE: CRIMINAL STREET GANGS AND MULTI- AGENCY GANG UNIT

**EFFECTIVE: 05/13/2018**

**REVISED: 11/04/2018**

---

#### PURPOSE

The purpose of this Chapter is to establish a process for identifying criminal street gangs, participants of criminal street gangs, associates of street gangs and patterns of criminal or delinquent activity (La. R.S. 15:1402), in an effort to combat violence related to gang activity. Additionally, the intent of this policy is to establish a process that will be used to develop and maintain information used for enhancing criminal prosecution of criminal street gang participants. (See also: **Chapter 44.2 – Juveniles.**)

#### POLICY STATEMENT

1. The reduction of criminal street gang activity is the responsibility of every member of this Department. It shall be the policy of this Department to maintain an aggressive and proactive enforcement effort to suppress criminal street gang activities.
2. Gang intelligence is a subset of the broader class of criminal intelligence and is governed by the same rules under **Chapter 51.1 – Criminal Intelligence** for retention and destruction of records.

#### DEFINITIONS

**Actionable intelligence**—Information gleaned from a range of sources that enables decision makers—from agency leaders to field commanders—to take appropriate and timely action when faced with a security threat like an imminent terrorist attack or the shipment of weapons of mass destruction. The collection of critical information related to the targeted criminality that provides substantive insight into crime threats and identifies individuals for whom there is a reasonable suspicion of relationship to a crime. Actionable intelligence aims to find out what criminals are doing now and when and where they plan to do it.

**Call-In Session**—Written invitation to identified criminal gang members to attend a briefing by law enforcement officials, social service providers and community members to deliver a focused deterrence message.

**City Wide Gang Coordinator**—The supervisor in command of the Multi-Agency Gang Unit.

**Criminal street gang**—Any ongoing organization, association or group of three or more persons, whether formal or informal (See La. R.S. 15:1404(A)) that:

- (a) Has as one of its primary activities the commission of one or more criminal acts defined by state law as criminal street gang predicate crimes, or
- (b) Has a common name or common identifying sign or symbols, whose members individually or collectively engage in or have engaged in a pattern of criminal gang activity.

**Documentation**—For purposes of this Chapter, this means an individual is entered into the City-Wide Gang Database by the City-Wide Gang Coordinator, or his/her designee.

**Field identification**—When a law enforcement officer completes a Field Interview Card on an individual who meets the gang member/associate criteria.

**Gang crime**—A reported incident or crime that occurs and is committed for the benefit of, at the direction of, or in association with a criminal street gang.

**Gang intelligence**—Information related to gang membership, association, activity, planned or spontaneous responses to gang activity, statistical data related to gangs, and all other data related to gangs

**Gang member**—Any person belonging to or having membership status in a criminal street gang. For policy purposes, an individual is considered a gang member only when his/her name has been entered in the City-Wide Gang Database.

**Gang Faction**—A subgroup of a criminal street gang that may operate, at times, independently of the other members or leaders of the criminal street gang and has its own name but that still retains an identifiable association with the main criminal street gang of which it is a component.

**Link analysis**—A data-analysis technique used to evaluate connections or relationships between organizations, people, and transactions. It can be used in the investigation of criminal activity for fraud detection, counterterrorism, and intelligence.

**Mid-Term Investigations**—Investigations that are not exhaustive, do not cross state lines or multiple jurisdictions, and do not have as many historical cases (cases that have already happened as opposed to current investigations).

**Long-Term Investigations**—Investigations that are exhaustive, cross state lines or multiple jurisdictions, and have historical cases (cases that have already happened as opposed to current investigations).

**Pattern of Criminal Gang Activity**—Means the commission or attempted commission of two or more of the following offenses, by members of a criminal street gang, provided that the offenses occurred within a three-year period, and the offenses are committed on separate occasions or jointly by two or more persons:

- (a) Aggravated battery or second degree battery as defined in La. R.S. 14:34 and R.S. 14:34.1.
- (b) Armed robbery as defined in La. R.S. 14:64.
- (c) First or second degree murder or manslaughter, as defined in La. R.S. 14:30, 30.1, and 31.
- (d) The sale, possession for sale, transportation, manufacture, offer for sale, or offer to manufacture controlled substances, as defined in La. R.S. 40:961 et seq.
- (e) Illegal use of weapons or dangerous instrumentalities, as defined in La. R.S. 14:94.
- (f) Aggravated arson as defined in R.S. 14:51.

- (g) Intimidating, impeding, or injuring witnesses; or injuring officers, as defined in La. R.S. 14:129.1.
- (h) Theft, as defined in La. R.S. 14:67, of any vehicle, trailer, or vessel.
- (i) Assault by drive-by shooting as defined in La. R.S. 14:37.1.
- (j) Rioting or inciting to riot as defined in La. R.S. 14:329.1 and 329.2.
- (k) Aggravated criminal damage to property as defined in La. R.S. 14:55.
- (l) Simple burglary as defined in La. R.S. 14:62.
- (m) Looting as defined in La. R.S. 14:62.5.

### **IDENTIFICATION OF CRIMINAL STREET GANGS/PARTICIPANTS**

3. An individual shall be considered a “confirmed” gang member when he/she achieves ten or more points from the listed criteria:
  - (a) 1 point - wearing of gang colors, clothing, and/or paraphernalia in such a way that indicates gang affiliation;
  - (b) 1 point - possession of commercial, gang-related publications;
  - (c) 1 point - known contact with confirmed gang members;
  - (d) 2 points - consistent observed contact with confirmed gang members;
  - (e) 2 points – appearing voluntarily in a photo with a confirmed gang member;
  - (f) 3 points - use of hand signs, possession/use of symbols, logos, and graffiti that clearly indicates gang affiliation;
  - (g) 3 points - possession of gang documents (roster, procedures, by-laws, etc.);
  - (h) 3 points - sending/receiving correspondence to/from confirmed gang members;
  - (i) 5 points - outside jurisdiction information/documentation;
  - (j) 5 points - the subject's victims or targets of crime are members of a rival gang;
  - (k) 8 Points – gang tattoos/brands;
  - (l) 8 points – participation in gang publications (submitting articles, illustrations, etc.);
  - (m) 8 points – named a gang member in correspondence;
  - (n) 8 points – subject identified as a gang member by another gang member;
  - (o) 8 points – subject's name appears on a gang roster, hit list, or gang related graffiti;
  - (p) 9 points – self admission;
  - (q) 9 points – subject identified as a gang member by a reliable informant;
  - (r) 10 points – status as a confirmed gang member is reported through outside agency gang unit.

### **GANG VIOLENCE REDUCTION STRATEGY**

4. The cornerstone of the Gang Violence Reduction Strategy is the Gang Audit. The Gang Audit is designed to quantify the following intelligence from each district:
  - (a) Gang name;
  - (b) Gang faction name;
  - (c) Territorial borders;
  - (d) Faction size;
  - (e) Rivals
  - (f) Alliances;
  - (g) Conflicts;
  - (h) Organizational level; and
  - (i) Propensity for violence.
5. The Gang Audit is the foundation of gang intelligence in each District. Each District Commander shall perform a Gang Audit at least once a year (or more, if necessary). Each Commander or his/her designee shall review and update the Audit as necessary.

The following Department members shall participate in performing the District's Gang Audit:

- (a) District Commander;
  - (b) District members selected by the District Commander based on their knowledge of gang activity in their districts;
  - (c) Representatives from the Specialized Investigations Division / Intelligence Section, and Major Case Narcotics Section;
  - (d) Representative from the Gang Unit (GU); and
  - (e) A member from the Multi-Agency Gang Unit.
6. Department members performing the Gang Audit shall:
- (a) Be presented with a large map of the district by the District Commander;
  - (b) Working together, discuss and draw the outline of the individual gang factions;
  - (c) Complete the Gang Audit information based on the best intelligence regarding:
    - i. Gang name;
    - ii. Gang faction name;
    - iii. Territorial borders;
    - iv. Faction size;
    - v. Rivals;
    - vi. Alliances;
    - vii. Conflicts;
    - viii. Organizational level; and
    - ix. Propensity for violence.
  - (d) Identify the most active or influential individuals for each Gang and/or Gang factions; and
  - (e) Prepare an intelligence and faction associate list.
7. District Commanders shall forward the results of the Gang Audit to the Commander of the MAG Unit for final review for any necessary editing and dissemination.

### **MULTI-AGENCY GANG (MAG) UNIT RESPONSIBILITIES**

8. The Multi-Agency Gang Unit is part of the ISB-Specialized Investigations Division and under the command of the SID Commander. The Section's responsibilities include, but are not limited to:
- (a) Compiling the gang audit from each District;
  - (b) Editing and finalizing the Gang Audit Map, Gang Faction Associate List and other documents confirming faction and membership information;
  - (c) Running the finalized Associate List to identify those members that are on parole or probation, or wanted on investigative alerts or warrants; and
  - (d) Posting the final complete Gang Audit on the secure Department intranet application (NOPD.org).
9. The Multi-Agency Gang (MAG) Unit conducts complete mid-term and long-term investigations targeting hierarchal criminal gang organizations and gang leaders. Additionally, the MAG Unit coordinates gang related murder investigations with the appropriate Homicide Section investigators. MAG is composed of personnel from multiple agencies. NOPD is the lead agency for MAG. Whenever MAG conducts operations on behalf of NOPD, NOPD directives govern MAG's actions.
10. The Commander of the MAG Unit shall liaise with the following agencies to combat gang violence:
- (a) Orleans Parish District Attorney's Office;
  - (b) Louisiana State Police;
  - (c) Louisiana Office of Probation and Parole;

- (d) The Orleans Parish Sheriff's Office;
  - (e) FBI;
  - (f) ATF;
  - (g) DEA;
  - (h) Contiguous Parish law enforcement agencies; and
  - (i) The United States Marshall's Office.
11. The MAG Unit will ascertain if there is any information from confidential sources related to murders and shootings which may be of assistance in determining the parties involved; make inquiries relative to retaliation; and disseminate this information to districts with a high level of violence associated with gangs.
- (a) MAG members will coordinate with ISB-Criminal Intelligence Division (CID), Field Operations Bureau (FOB) and the Gang Unit, by providing intelligence and technical support to assist in identifying the catalyst for the violence; targeting gang members with a high propensity for violence; and initiating investigations into gang members suspected to be the catalyst for reoccurring gang violence.
  - (b) MAG Unit members working with the Orleans Parish Sheriff's Office will assist CID, FOB and SID by forwarding actionable intelligence (information that is sufficiently detailed and particularized) related to shootings and murders attributed to gang violence and by providing assistance to outside units in gathering intelligence on violence and information on retaliatory acts of violence, such as arranging interviews with inmates, monitoring inmate phone calls, and providing information on the hierarchies established based on interviews with the Orleans Parish Jail.

#### **SPECIALIZED INVESTIGATIONS DIVISION RESPONSIBILITIES**

12. The Commander of Specialized Investigations Division (SID) shall ensure all MAG Unit members collaborate with the District Attorney's Office and the United States Attorney's Office in the charging and prosecution of RICO Act violators, consistent with the gang violence reduction strategies outlined in this Chapter.
13. The Commander of the ISB-SID through the Major Case Narcotics Section shall ensure the following programs are used to combat gang violence:
- (a) Street corner narcotics distribution and sales conspiracy missions;
  - (b) Narcotics-associated violence;
  - (c) Buy/Bust operations;
  - (d) Covert surveillance; and
  - (e) Street Prostitution Enforcement
14. The Commander of the Major Narcotics Section shall coordinate and confer with the District Commanders to identify gang-related "open air" (public) drug markets and ensure that the appropriate enforcement initiatives are implemented.
15. Once a narcotics distribution or sales issue has been addressed thru enforcement, District Commanders shall ensure that a specific, comprehensive strategy is in place to prevent such issues from reoccurring at those designed locations.
16. The Commander of the Gang Unit (GU) shall ensure the following programs are used to combat gang violence:
- (a) Gang Mission - conducting aggressive patrol and violence suppression missions in areas where gang conflicts exist.
  - (b) Knock & Talks - Gang Unit (GU) along with Probation and Parole Agents will conduct knock and talk checks on recent parolees associated with violent street gangs.

- (c) Joint Missions - conducting joint missions with outside agencies, including Louisiana State Police, the United States Marshall Service and other local law enforcement agencies to target offenders wanted for gang related offenses.
- (d) Intelligence Gathering - provide real-time intelligence to the Multi-Agency Gang (MAG) Unit.
- (e) Retaliatory Violence Associated with Gang Funerals - will partner with District Task Force officers to cover high-risk, gang related funerals that involve active gang investigations, high ranking gang leaders, or present a high probability of retaliation.

### **CRIMINAL INVESTIGATIONS DIVISION RESPONSIBILITIES**

17. The Commander of the Criminal Investigations Division will ensure the appropriate homicide personnel will liaison with the Field Operations Bureau and the MAG Unit providing intelligence and technical support to assist in identifying homicides that either involve gang members or are gang motivated.

### **DISTRICT COMMANDER RESPONSIBILITIES**

18. District Commanders shall:
- (a) Identify and prioritize the gang factions within their districts with the highest propensity for violence;
  - (b) Ensure the prioritized list of gang factions is distributed to all officers under their command;
  - (c) Coordinate deployment strategies with internal and external resources based on the prioritized list;
  - (d) Ensure district resources continuously focus enforcement activities on the most violent gang factions identified on the list;
  - (e) Review, select and update the prioritized list on an ongoing basis; and
  - (f) Appoint a member to serve as the District Intelligence Officer.

### **DISTRICT INTELLIGENCE OFFICER RESPONSIBILITIES**

19. The District Intelligence Officer shall:
- (a) Report directly to the District Investigative Unit (DIU) Commander.
  - (b) Gather and update gang and general intelligence as dictated by the DIU Commander for all district personnel.
  - (c) Forward newly updated information directly to Specialized Investigations Division, Multi-Agency Gang (MAG) Unit via department e-mail.
  - (d) Receive gang intelligence from the Multi-Agency Gang (MAG) Unit regarding gang conflicts, potential gang retaliations, and any other relevant information.

### **DISTRICT INTELLIGENCE REPORTS**

20. District Intelligence Reports produced by each district contain criminal intelligence that is specific to each district. The reports should be generated monthly and uploaded to the District Intelligence Report folder on the secured department intranet (NOPD.org) by the District Commander or his/her designee. District Intelligence Reports are accessible on the Department intranet (NOPD.org).

### **LINK ANALYSIS**

21. The link analysis, done by the MAG Unit Crime Analyst, is based on the concept of "two degrees of separation": the associates of a shooting victim will be linked and their

associates will then also be linked.

22. These associates, along with ballistics evidence, shall be linked to other shootings and murders.
23. A visual aid will be created by the MAG Unit Crime Analyst that can be used to determine the best deployment of Department resources to predict and prevent retaliatory violence.

### **FOCUSED DETERRENCE**

24. The Department's focused deterrence approach is based on the finding that a significant percentage of violent incidents are closely associated with groups of high-rate repeat offenders (gang members and associates).
25. Focused deterrence involves a partnership between law enforcement officials, social service providers and community members.
26. The goal of focused deterrence is to change the behavior of both individual gangs and the local network of gangs.
27. Focused deterrence proceeds as follows:
  - (a) Violent gangs, the individuals within those groups, and the relationships between the groups are identified;
  - (b) "Call-in sessions" with representatives of the gangs are convened to deliver the focused deterrence message to the group. Individuals on probation or under parole supervision can be legally mandated to attend call-in sessions;
  - (c) The general message conveyed is, "We will help you if you will let us, but we will stop you if we are compelled to by your actions." There will be a clear message that the gang will be dismantled if it does not comply;
  - (d) Additional messages are designed so that gang members perceive they have a face-saving exit from a violent lifestyle if they so choose;
  - (e) During the call-in sessions, a clear and consistent message of nonviolence is delivered by law enforcement officials, social service providers and community members;
  - (f) Law enforcement personnel will inform gang members of focused scrutiny on violent incidents. The next violent incident will result in swift, targeted enforcement (using any legal means available) of the entire group that is affiliated with the individual responsible for the violence. Only the offender will be held accountable for the violent incident itself. But any and all criminal activities of other group members such as probation and parole violations, drug dealing, open cases, and warrants will receive increased scrutiny by law enforcement;
  - (g) Social service providers shall present alternatives to violence by offering job referrals as well as educational and social services to those individuals who want them;
  - (h) Community members shall demand an end to the violence, articulating the damage it produces and invalidating any excuses for the violent behavior;
  - (i) Following the first law enforcement action focused on a violent group, the call-in session will be reconvened;
  - (j) The success of focused deterrence rests on the relentless delivery of the focused deterrence message made during the call-in sessions;
  - (k) Law enforcement personnel shall respond swiftly to subsequent violent incidents and intelligence is organized to aid in this effort;
  - (l) Social service providers shall meet the individualized needs of those who choose to transition to a life of nonviolence and intake processes are streamlined to

- facilitate this process; and
- (m) Community members shall continue to deliver the message of nonviolence subsequent to the call-in, presenting a united front with law enforcement personnel.

**MAX**

28. District MAX data shall be used to measure the impact and effectiveness of gang violence reduction strategies involving MAG and SGU.
29. The MAX process shall allow district commanders to identify their gang violence programs, initiate District plans to counteract the violence and provide accountability for their actions in their areas of responsibilities.
30. Undercover operations conducted by MAG and SGU are not discussed in the MAX open forums.
31. The MAG Unit will present on the following activities during MAX:
- (a) Any protests handled during the period or review as well as any upcoming protests.
  - (b) Any gang related shooting incidents that occurred in the Districts and how the MAG and SGU addressed from the unit perspective, including changes in deployments.
  - (c) Any NOLA For Life Custom Notifications that were conducted during the period under review and any planned Notifications.
  - (d) General Unit statistics on cases, indictments, arrests and convictions which may have implications on criminal activity / gang activity in the Districts.

**RESPONSE FOR SUSPECTED GANG RELATED SHOOTINGS**

32. Upon being assigned to a shooting, responding officers arriving on the scene shall, in addition to his/her other response duties, determine if the shooting may be gang related.
33. If the shooting is believed to be gang related, the investigator(s) assigned to conduct the follow-up response shall submit an Incident or Supplemental Report (EPR) outlining the information gathered on a possible retaliation and what steps were taken to prevent the retaliation by the end of his/her tour of duty.
34. NOTE: At the discretion of the District Commander, the response plan to prevent retaliation may be carried over and assigned to on-coming watch personnel if the information gathered warrants further investigation. Each officer assigned to conduct a follow-up investigation regarding a gang-related shooting shall submit an Incident or Supplemental Report (EPR) documenting the actions taken to prevent retaliation.
35. The District Supervisors shall:
- (a) Ensure the District Intelligence Officer is notified of any gang related information and request a gang profile is completed for the victim, offender, associates and location (if applicable);
  - (b) Request Communications Services – NOPD Liaison contact the Specialized Investigation Division, MAG Unit on all gang related shootings;
  - (c) Provide Communications Services with the following:
    - i. The victim's name and date of birth, if known.
    - ii. The victim's gang affiliation, if any.
    - iii. Any information known of the offender such as name, gang affiliation, and/or associates.

- iv. Any gang conflicts occurring at or near the location of the shooting.
- v. The name and radio call number of the district supervisor assigned to the shooting.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 43.7

### TITLE: VICE, NARCOTICS AND ORGANIZED CRIME INVESTIGATIONS

**EFFECTIVE: 12/10/2017**

**REVISED: Replaces Policy 617**

---

#### PURPOSE

The purpose of this Chapter is to outline general guidelines for vice, narcotic, and organized crime investigations. This policy will encompass the administrative process, reporting/records and the use of department funds for undercover operations.

#### POLICY STATEMENT

1. Public complaints (CFS) concerning vice, narcotic and organized crimes received through Communications Services shall be dispatched to the appropriate police district for investigation. Appropriate disposition for the call for service (CFS) will be given by the investigating officer.
2. Complex investigations or investigations requiring extensive resources not available to the District platoon officers shall be turned over to the District Investigative Unit for follow-up investigation.
3. It shall be the responsibility of the Commander of the District Investigative Unit to coordinate the investigation with the Vice Crimes Section, Intelligence Section, Gang Unit or the Narcotics Section to prevent duplication, interference or an overlap of investigation.

#### DEFINITIONS:

Definitions relevant to this Chapter include:

**Narcotics**—Technically, drugs which dull the senses. Also a popular generic term for drugs which cannot be legally possessed, sold, or transported except for medicinal uses for which a physician or dentist's prescription is required.

**Organized Crime**—A category of transnational, national, or local groupings of highly centralized enterprises run by criminals who intend to engage in illegal activity, most commonly for money and profit. Some **criminal** organizations, such as terrorist groups, are politically motivated.

**Vice/Vice Crimes**—Criminal offences related to prostitution, pornography, drugs, alcohol, and gambling.

**COMPLAINTS FROM AGENCIES DURING NORMAL BUSINESS HOURS**

4. Complaints/information received from outside law enforcement agencies relative to vice, narcotic, and organized crime intelligence during normal business (Monday thru Friday, 9am-4pm) hours shall be directed as follows:
  - (a) Information relative to vice shall be directed to the ISB Vice Crimes Section.
  - (b) Information relative to narcotic intelligence shall be directed to the ISB Narcotics Section.
  - (c) Information relative to organized crime shall be directed to the ISB Intelligence Section.

**COMPLAINTS FROM AGENCIES OUTSIDE NORMAL BUSINESS HOURS**

5. The Vice Crimes Section, Intelligence Section and the Narcotics Section shall supply Communications Services with a list of contact persons to receive complaints/information received from outside law enforcement agencies relative to vice, narcotics, and organized crime intelligence outside normal business hours.
6. The list will contain the contact person's name(s) and telephone number(s).
7. The list will also contain the times and dates each individual is scheduled to received such calls.

**INFORMATION SHARING**

8. Units in possession of information relative to vice, narcotic, and organized crime which may be of interest to other jurisdictions shall forward such information to the appropriate jurisdiction directly once approved by his/her supervisor.
9. In the case of narcotics information, a copy of the information shall be forwarded to the ISB Narcotics Section.
10. In the case of vice or organized crime information, a copy of the information shall be forwarded to either the ISB Vice Crimes Section or the ISB Intelligence Section.

**RECORDS/REPORTS**

11. Commanders of the Narcotics Section and the Intelligence Section shall maintain a record of all intelligence received from or given to outside law enforcement agencies.
12. This information shall be secured from unauthorized individuals and maintained for a period of time not less than the guidelines of the Public Records Act.
13. Units assigned the responsibility of investigating vice, narcotic, and organized crime investigations shall maintain all such related reports and records separate and secure from the central files. Access to these files shall be limited to ISB authorized persons only. All records of active investigations shall be under the control of supervisory personnel assigned to monitor those particular investigations.

**FUNDING AND ACCOUNTING PROCESS**

14. An investigation by members not assigned to the ISB Vice Crimes Section, Intelligence Section or the Narcotics Section who are in need of funds for an operation shall be conducted as follows:

- (a) Investigations involving the purchase of illegal narcotics (buy money) shall be coordinated through the Commanders of the ISB Narcotics Section, District Investigative Unit and the Asset Forfeiture Unit.
  - i. The Asset Forfeiture Unit will ensure proper accounting methods are in place.
  - ii. Units receiving funds from the Asset Forfeiture Section shall complete all forms necessary prior to receiving funding.
- (b) Investigations involving confidential informants in which funds are required to pay for an informant's information shall be coordinated through the Commander of the District Investigative Unit and the Commander of the Narcotics Section.
  - i. The Narcotics Section will ensure proper accounting methods are in place.
  - ii. Units receiving funds from the Narcotics Section shall complete all forms necessary prior to receiving funding.
- (c) Investigations involving vice or organized crime investigations, in which funds are required for vice or organized crime activity shall be coordinated through the Commander of the District Investigative Unit and the Commander of the Vice Crimes Section and the Intelligence Section.
  - i. The Vice Crimes Section and the Intelligence Section shall ensure proper accounting methods are in place.
  - ii. Units receiving funds from the Vice Crimes Section or the Intelligence Section shall complete all forms necessary, prior to receiving funding.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 43.8

### TITLE: REGISTERED OFFENDER INFORMATION

**EFFECTIVE: 12/10/2017**

**REVISED: Replaces Policy 356**

---

#### PURPOSE

This policy establishes guidelines by which the New Orleans Police Department will address the requirements associated with sex offenders, sexually violent predators and child predators who are residing, working or going to school in the City of New Orleans and how the Department will disseminate information and respond to public inquiries for information about sex offenders, sexually violent predators and child predators.

#### POLICY STATEMENT

1. It is the policy of the New Orleans Police Department to register, identify and monitor registered offenders living within this jurisdiction and to take reasonable steps to address the risks those persons may pose (R.S. 15:540).

#### DEFINITIONS:

Definitions relevant to this Chapter include:

**Child Predator**—A person who has been convicted of a criminal offense against a victim who is a minor or a conviction for the perpetration or attempted perpetration of or conspiracy to commit any of the following offenses:

- (a) A violation of R.S. 14:44, 44.1, 44.2, 45, 45.1, 46, or 46.1 when the victim is under eighteen years of age and the defendant is not the parent of the victim.
- (b) A violation of any of the following provisions when the victim is under eighteen years of age: R.S. 14:84(1), (3), (5), or (6), or 86, or R.S. 23:251(A)(4).
- (c) A violation of R.S. 14:46.2 when the victim is under twenty-one years of age.
- (d) A violation of R.S. 14:83, 83.1, 83.2, or 282 when the prostitution involves persons under the age of eighteen years.
- (e) A felony violation of R.S. 14:40.2, punishable by imprisonment at hard labor, when the victim is under the age of eighteen, unless either of the following are applicable:
  - i. The defendant is the parent of the victim.
  - ii. The defendant is not more than four years older than the victim and is convicted under Subparagraph R.S. 14:40.2(B) (1) (b).
- (f) Any conviction for an offense under the laws of another state, or military, territorial, foreign, tribal, or federal law which is equivalent to the offenses listed in Subparagraphs (a) through (e) of this paragraph.

**Child Sexual Predator**—A person who has been convicted of a sex offense as defined in R.S. 15:541 and who is likely to engage in additional sex offenses against children, because he has a mental abnormality or condition which can be verified by a physician or psychologist, or because he has a history of committing crimes, wrongs, or acts involving sexually assaultive behavior or acts which indicate a lustful disposition toward children, as determined by the court upon receipt and review of relevant information including the recommendation by the sex offender assessment panel as provided for by law.

**Residence**—A dwelling where an offender regularly resides, regardless of the number of days or nights spent there. For those offenders who lack a fixed abode or dwelling, "residence" shall include the area or place where the offender habitually lives, including but not limited to a rural area with no address or a shelter.

**Sexually Violent Predator**—A person who has been convicted of a sex offense as defined in RS 15:541, Paragraph 24, and who has a mental abnormality or anti-social personality disorder that makes the person likely to engage in predatory sexually violent offenses as determined by the sentencing court upon receipt and review of relevant information including the recommendation of the sexual predator commission.

## REGISTRATION

2. The New Orleans Police Department shall register sex offenders and child predators in accordance with R.S. 15:542 and ensure compliance with all community notifications, as indicated in R.S. 15:542.1.
3. In addition to the registration and notifications, the New Orleans Police Department shall be responsible for updating the state registry regarding a sex offender or child predator's in-person periodic renewal of registration (annual, semi-annual or quarterly, as dictated by R.S. 15:542.1.1).
4. The New Orleans Police Department shall also be responsible for updating registry information pertaining to changes in residence, employment, school, volunteer work, e-mail addresses, telephone numbers, vehicles or any other information previously provided via registration (R.S. 15:542.1.2).
5. The New Orleans Police Department shall register sex offenders and child predators for the registration period as established in R.S. 15:544 for Louisiana sex offense convictions, or the period established in accordance to R.S. 15:542.1.3 for out-of-state sex offense convictions. The registration periods are as follows (R.S. 15:541):
  - (a) Tier I sex offenders register for 15 years.
  - (b) Tier II sex offenders register for 25 years.
  - (c) Tier III sex offenders must register for life.
6. Upon conclusion of the registration process, the registration information shall be electronically forwarded to the Louisiana State Police Bureau of Criminal Identification and Information in accordance with state law (R.S. 15:542(E)).
7. The failure to comply with the sex offender registration requirements as provided above or the falsifying of registration information shall require the Special Victims Section commander to initiate a criminal investigation for failure to register (R.S. 15:542.1.4).

## REGISTRATION, SPECIAL VICTIMS SECTION

8. The New Orleans Police Department's Special Victims Section shall establish a process to reasonably accommodate registration of sex offenders and child predators.

9. The Special Victims Section commander shall also ensure that all Sex Offender and Child Predator Registration Protocols set forth by the Louisiana State Police regarding the proper registering and entering of information into the state registry is adhered to.
10. If it is reasonable to do so, an investigator assigned to related investigations should conduct the registration in order to best evaluate any threat the person may pose to the community.
11. Employees assigned to register offenders should receive appropriate training regarding the registration process.

#### **MONITORING OF REGISTERED OFFENDERS**

12. The Special Victims Section commander should establish a system to periodically, and at least once annually, physically verify that a sex offender registrant remains in compliance with his/her registration requirements after the initial registration by conducting compliance checks at the offender's last registered address.
13. Efforts to confirm residence should include a compliance check at the offender's last registered address without prior notice to the offender.
14. Additional efforts may include contact with a registrant's parole or probation officer, Internet searches, criminal history searches or any other computerized search available to the New Orleans Police Department.
15. Any discrepancies should be reported to the Special Victims Section, Sex Offender Registration Office.

#### **DISSEMINATION OF PUBLIC INFORMATION**

16. Employees will not unilaterally make a public notification advising the community of a particular registrant's presence in the community.
17. Employees who identify a significant risk or other public safety issue associated with a registrant should promptly advise their supervisor.
18. The supervisor should evaluate the request and forward the information to his/her Deputy Chief if warranted.
19. A determination will be made by the Deputy Chief, with the assistance of legal counsel from the City Attorney's Office as necessary, whether such a public alert should be made.
20. Members of the public requesting information on registrants shall be directed to and provided the Louisiana State Police Website ([www.lsp.org](http://www.lsp.org)) and the National Sex Offender Public Website ([www.nsopw.gov](http://www.nsopw.gov)).

#### **MANDATORY DISSEMINATION**

21. The Department shall release relevant and necessary information regarding sex offenders, child predators and sexually violent predators to the public when the release of the information is necessary for public protection (R.S. 15:546(A)).

**DISCRETIONARY DISSEMINATIONS**

22. The Department may order that the notice provided by certain offenders be published in a newspaper and disseminated to the public (R.S. 15:542.1(A) (2) (c)).
23. Dissemination of information contained in criminal records shall be in accordance with state law (R.S. 15:548).

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 44.1

### TITLE: CHILD AND DEPENDENT ADULT SAFETY

**EFFECTIVE: 04/02/2017**

**REVISED: Replaces policy/Procedure 380**

---

#### PURPOSE

This Chapter provides guidelines to ensure that children (ages 17 and under) and dependent adults are not left without appropriate care in the event their parent, caregiver or guardian is arrested or otherwise prevented from providing care due to actions taken by members of this department. Traumatic childhood experiences such as observing a parent's arrest can have both physical and psychological impacts and produce long-term behavioral issues. This Chapter provides guidelines to help minimize trauma and support a child's or dependent adult's physical safety and well-being following an arrest.

This Chapter does not address the actions to be taken during the course of a child abuse or dependent adult investigation. These are covered in **Chapter 42.19 - Child Abuse** and **Chapter 42.18 - Adult Abuse**.

#### POLICY STATEMENT

1. It is the policy of this department to mitigate, to the extent reasonably possible, the stressful experience individuals may have when a parent or caregiver is arrested.
2. The New Orleans Police Department will endeavor to create strong cooperative relationships with local community-based social services to ensure an effective, collaborative response that addresses the needs of those affected.

#### DEFINITIONS:

Definitions relevant to this Chapter include:

**Adult with disability**—An individual who is twenty-one to sixty-four years of age and disabled according to Medicaid standards or the Social Security Administration's disability criteria.

**Child / Minor Child**—A person under the age of eighteen years who has not been judicially emancipated or emancipated by marriage as provided by law (CHC Art. 502).

**Dependent Adult**—Any individual eighteen years of age or older, or an emancipated minor who, due to a physical, mental, or developmental disability or the infirmities of aging is unable to manage his/her own resources, carry out the activities of daily living, or protect him/herself from abuse, neglect, or exploitation.

**Caregiver**—Any person or persons, either temporarily or permanently, responsible for the care of a child or a person who is aged or an adult with a physical or mental disability. "Caregiver" includes but is not limited to adult children, parents, relatives, neighbors, daycare personnel, adult foster home sponsors, personnel of public and private institutions and facilities, adult congregate living facilities, and nursing homes which have voluntarily assumed the care of a person who is aged or an adult with a disability, have assumed voluntary residence with a person who is aged or an adult with a disability, or have assumed voluntary use or tutelage of the assets, funds, or property of a person who is aged or a person with a disability, and specifically shall include city, parish, or state law enforcement agencies.

**Elderly or elder**—An individual who is sixty-five years of age or older.

**Guardian**—A person appointed by a court to make decisions regarding the support, care, education, health, or welfare of a person.

### **PRE-ARREST PLANNING**

3. Call takers at the OPCD - PSAP (Communication Services) should ask callers if a child or dependent adult is present at the scene.
4. If Communication Services determines that a child or dependent adult is present at the scene of a reported incident, responding officers shall be notified.
5. When service of an arrest or search warrant is planned:
  - (a) When possible, officers shall determine whether any child is likely to be present at the location.
  - (b) When reasonably possible, officers may delay an arrest until the child is not likely to be present (e.g., at school or daycare), or consider another time and place for making the arrest. If delay is not possible, arrangements should be made in advance to have representatives from an appropriate partner organization at the scene or on call.
  - (c) When reasonably possible, officers shall determine if the arrestee and other family members are English-language proficient. If not, arrangements should be made to provide a translator. Absent exigent circumstances, a parent should not be allowed to interpret for a child and a child should not be allowed to interpret for a parent.

### **PROCEDURES DURING AN ARREST**

6. When encountering an arrest situation, officers should make reasonable attempts to determine if the arrestee is responsible for minor dependent children or dependent adults. In some cases this is obvious, such as when children or dependent adults are present. However, officers should inquire if the person has any other dependent minor children or adults who are without appropriate supervision. The following steps should be taken:
  - (a) Inquire about and confirm the location of any children or dependent adults.
  - (b) Look for evidence of children and dependent adults. Officers should be mindful that some arrestees may conceal the fact that they have dependents for fear the individual may be taken from them.
  - (c) Inquire of witnesses, neighbors, friends and relatives of the arrestee as to whether the person is responsible for a dependent child or adult.
7. Whenever reasonably possible, officers should take reasonable steps to accomplish the arrest of a parent, guardian or caregiver out of the presence of his/her child or dependent adult. Removing children or dependent adults from the scene in advance of

the arrest will generally ensure the best outcome for the individual. In order to separate a child or dependent adult from a caregiver, the officer may say one of the following:

- (a) "I need to talk to your mom/dad/caregiver alone."
  - (b) "Ma'am/Sir, I need to talk with you alone. Is there some place your child/children can safely wait or someone that you trust who can watch your child/children while we talk?"
  - (c) "I'm sorry I need to ask you not to discuss this matter in front of your child/children because we do not want to upset them."
8. Whenever it is safe to do so, officers should allow the parent or caregiver to assure children or dependent adults that they will be provided care. If this is not safe or if the demeanor of the parent or caregiver suggests this conversation would be nonproductive, the officer at the scene should explain the reason for the arrest in age-appropriate language and offer reassurance to the dependent child or adult that he/she will receive appropriate care.
  9. Make the arrest, whenever reasonable and prudent, including handcuffing and questioning, in a location away from the child's sight and hearing.

#### **AFTER AN ARREST**

10. Whenever an arrest is made, the officer should take all reasonable steps to ensure the safety of the arrestee's disclosed or discovered minor children or dependent adults. Some examples of language that can convey what is happening is:
  - (a) "Your parent broke the law. It's like a grown-up rule for keeping us safe like following the speed limit or wearing your seatbelt. We need to take your mom/dad to the police station to learn more about what happened; he/she will be okay. Is there someone you would feel safe/comfortable staying with for a little while? Let me check with your parent to see if that would be okay.
  - (b) "I have to take your parent to the police station to talk about some things. We'll let you know when you can see your parent. In the meantime, who do you want me to call to be with you?"
11. Officers should allow the arrestee reasonable time to arrange for care of minor children and dependent adults. Temporary placement with family or friends may be appropriate. However, any decision should give priority to a care solution that is in the best interest of the child or dependent adult. The following guidelines should be followed:
  - (a) Allow the person reasonable time to arrange for the care of minor children and dependent adults with a responsible party, as appropriate.
    1. Unless there is evidence to the contrary (e.g., signs of abuse, drug use, unsafe environment), officers should respect the parent or caregiver's judgment regarding arrangements for care. It is generally best if the child or dependent adult remains with relatives or family friends that he/she knows and trusts. Consideration regarding familiarity with the surroundings, comfort, emotional state and safety should be paramount.
    2. Except when a court order exists limiting contact, the officer should attempt to locate and place dependent children or adults with a non-arrested parent or guardian.
  - (b) Provide for the immediate supervision of minor children or a dependent adult until an appropriate caregiver arrives.
  - (c) Notify the Louisiana Department of Children and Family Services as appropriate.
  - (d) Notify his/her immediate supervisor or Platoon Commander of the disposition of minor children or dependent adults and include the disposition in the incident report.

12. If children or dependent adults are at school or a known location outside the household at the time of arrest, the arresting officer should attempt to contact the school or other known location and inform the principal or appropriate responsible adult of the caregiver's arrest and of the arrangements being made for the care of the arrestee's dependents. The result of such actions should be included in the associated report.
13. Officer(s) shall remain at the scene of the arrest until the child or dependent adult is in the care of a caregiver.
14. A preliminary NCIC check shall be conducted on the caregiver chosen by the parent as soon as reasonably possible. Any arrest for child abuse, sexual crimes, domestic violence, elder abuse, recent arrests for drug offenses, or other violent felonies shall disqualify the individual from taking custody of the child or dependent adult.
15. If the parent is unable to provide reassurance to the child or dependent adult, the officer shall provide an explanation, in an age- and developmentally-appropriate manner. It should be emphasized that the child or dependent adult has done nothing wrong and will be safe.
16. When reasonably possible, the officer shall ask the parent or guardian about items or objects that provide particular comfort to the child, such as toys, clothing, blankets, photographs or food that can be taken with the child.
17. The officer shall ask the parent or guardian about any medical, behavioral, or psychological conditions and/or required treatments of the child or dependent adult that would become the responsibility of a caregiver.

## REPORTING

18. Reporting should meet these minimum requirements:
  - (a) For all arrests where children are present or living in the household, the reporting member will document the following information about the children:
    1. Names;
    2. Sex;
    3. Age;
    4. How, where and with whom or which agency the child was placed;
    5. Which school the child attends;
    6. Any of the child's special needs such as medical or mental health conditions, physical impairments or limitations, allergies, or developmental disorders
    7. The identities, addresses, and contact information for any actual or potential caregivers;
    8. Names and contact information of any representatives from partner organizations involved;
    9. Names and contact information of any adult contacted for notification purposes, such as school officials; and
    10. Any information or observations that suggest the need for further investigation into the child's living conditions and general well-being, such as any indications of a household in crisis.
  - (b) For all arrests where dependent adults are present or living in the household, the reporting member should document the following information about the dependent adult:
    1. Identity;
    2. Whether he/she reasonably appears able to care for him/herself;

3. Disposition or placement information if he/she is unable to care for him/herself;
4. Any of the dependent adult's special needs such as medical or mental health conditions, physical impairments or limitations, allergies, or developmental disorders;
5. The identities, addresses, and contact information for any actual or potential caregivers;
6. Names and contact information of any representatives from partner organizations involved;
7. Names and contact information of any persons contacted for notification purposes; and
8. Any information or observations that suggest the need for further investigation into the dependent adult's living conditions and general well-being, such as any indications of a household in crisis.

### **DEPENDENT WELFARE SERVICES**

19. Whenever an arrestee is unwilling or incapable of arranging for the appropriate care of any dependent minor children or adults, the handling officer should consider taking the children or dependent adults into protective custody and placing them with the appropriate welfare service or other department-approved social service.
20. Under no circumstances should a child or dependent adult be left unattended or without appropriate adult supervision or care.

### **SAFE HAVEN RELINQUISHMENT**

21. The Safe Haven Law, enacted April 2000, is intended to encourage a parent who is otherwise tempted to abandon or discard a child, to instead, ensure that the infant will be provided medical care and shelter and ultimately be adopted by others. The law gives parents a mechanism to safely and anonymously relinquish the care of their newborn to the state without fear of prosecution. The law provides the relinquishing parent an affirmative defense against criminal abandonment if the circumstances meet the criteria for "safe haven" relinquishments.
22. An officer may take physical custody of an infant who is not more than 60 days old under the following circumstances (**Louisiana Children's Code Chapter 13 Article 1149 - 1160**):
  - (a) The parent voluntarily relinquishes custody and says he/she will not return for the child and intends to forgo all parental responsibilities or states they wish to utilize the **Safe Haven Law**;
  - (b) The parent voluntarily delivers the child safely to the officer; and
  - (c) The child has not been abused or neglected by the parent prior to the voluntary delivery.
23. The parent may do this anonymously (they do not have to provide their name or any other information); however, the child must be handed to the officer (or employee at an emergency care facility, police station or fire department).
24. The Child Abuse Unit shall be contacted **immediately** and arrange for the immediate transportation of the child to the nearest hospital.

### **ELDER ASSISTANCE**

25. If it is determined that an arrested person is a caregiver who provides assistance to a

dependent elder, the dependent elder may require placement with protective services.

26. An officer who learns of the need for the placement of a dependent elder into protective custody should notify the Child Abuse Unit. The Child Abuse Unit shall contact the Louisiana Office of Aging and Adult Services 800-898-4910 to obtain assistance. In an emergency situation with an elderly person who does not have capacity, an Order for Protective Custody (OPC) can be obtained.

#### **TYPES OF ELDER ASSISTANCE**

27. Various types and levels of assistance may be available for elders in need of assistance. These include:
  - (a) Mental health assistance - When a caregiver is unable to provide care due to arrest, persons who suffer from a mental disorder will have to be taken into protective custody. After notification by the Communication Services, a representative from Adult / Elderly Protective Services will respond to the scene. If there is a mental or developmental disability requiring placement, the Metropolitan Human Services District (MHSD) will need to be contacted at (504) 568-3130 or <http://www.mhsdla.org/home>.
  - (b) Additional services for assistance - Additional services may be available by contacting the Office of Aging and Adult Services at 1-800-898-4910 for ages 18-59 and 1-800-259-4990 for age 60+. The website is [www.doa.la.gov](http://www.doa.la.gov).

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 44.1.4

### TITLE: TEMPORARY CUSTODY OF JUVENILES

**EFFECTIVE: 08/26/2018**

**REVISED: 12/20/20**

---

#### PURPOSE

This Chapter provides guidelines and requirements consistent with the Juvenile Justice and Delinquency Prevention Act for juvenile offenders taken into custody by members of the New Orleans Police Department (42 USC § 5633). Respect for the rights of juveniles who are the subject of police investigations requires special procedures to ensure that any evidence gathered is reliable and legally obtained.

#### DEFINITIONS

**Caretaker**—Any person legally obligated to provide or secure adequate care for a child, including a parent, tutor, guardian, legal custodian, foster home parent, an employee of a public or private day care center, or other person providing a residence for a child (Louisiana Children's Code Art. 603).

**Curfew**—The municipal ordinance restricting persons less than 17 years of age, who are not fully emancipated pursuant to Louisiana civil law, from being in a public place or certain establishments during the hours specified in the ordinance.

**Delinquent Act**—An act committed by a child of ten years of age or older which if committed by an adult is designated an offense under the statutes or ordinances of this state, or of another state if the offense occurred there, or under federal law, except traffic violations. (See: CHC Art. 804). "Delinquent act" shall not include a violation of R.S. 14:82, 83.3, 83.4, 89, or 89.2 for a child who, during the time of the alleged commission of the offense, was a victim of trafficking of children for sexual purposes pursuant to R.S. 14:46.3(E)).

**In Loco Parentis**—A legal doctrine describing a relationship similar to that of a parent to a child. It refers to an individual who assumes parental status and responsibilities for another individual, usually a young person, without formally adopting that person. For example, legal guardians are said to stand in loco parentis with respect to their wards. The most common usage of in loco parentis relates to teachers and students.

**Juvenile**— A person under the age of **18** years who has not been judicially emancipated or emancipated by marriage as provided by law.

**Juvenile Offender**—A person under the age of 19 years, who is alleged to have committed an offense that would subject an adult to arrest (a non-status offense), i.e., a Delinquent Act, or who is alleged to have illegal possession of a handgun by a juvenile (R.S. 14:95.8), to have

sexted (R.S. 14:81.1.1A (2)), or have committed a direct contempt of court.

**Juvenile Non-Offender**—An abused, neglected, or dependent juvenile who may legally be held for his/her own safety or welfare.

**Non-Secure Custody**—The status of a juvenile who is in the presence of an officer or other custodial employee at all times, and who is under direct personal supervision through visual monitoring and audio two-way communication, but who is not restrained or placed in a locked room. Direct visual monitoring may occur through a transparent barrier as long as two-way communication is still possible. Juveniles in non-secure custody may be handcuffed but not to a stationary or secure object.

**Secure Custody**—The status of a juvenile offender who is held in a locked room, set of rooms or a cell, or being cuffed to a stationary object.

**Sight and Sound Separation**—Located or arranged to prevent physical, visual, or auditory contact.

**Status Offender**—A juvenile suspected of committing a status offense.

**Status Offense**—Those acts that would not be a violation if not for the age of the offender (e.g., running away, underage drinking, curfew violation, truancy).

**Truancy**—The repeated or habitual unauthorized absence or tardiness from school by a child who is subject to the compulsory attendance laws of this state (Louisiana Children's Code Art. 728).

**Ungovernable**— A child's behavior where he/she habitually disregards the lawful and reasonable demands of his/her caretaker(s), and the child is beyond their control (Louisiana Children's Code Art. 728).

## **POLICY STATEMENT**

1. NOPD shall investigate any incident involving a juvenile as defined in this Chapter, whether the juvenile is the victim of a crime or the perpetrator of a delinquent act.
2. NOPD is committed to releasing juvenile offenders from temporary custody as soon as reasonably practicable and keeping them safe while they are in temporary custody. (See also: **Chapter 44.3 – Juvenile Warning Notice**).
3. All officers shall utilize the least coercive action among reasonable alternatives, consistent with NOPD regulations, when dealing with juvenile offenders. (See also: **Chapter 44.3 – Juvenile Warning Notice**).
4. Any juvenile offender taken into custody shall be immediately transported directly to the Juvenile Intake Unit for processing, unless promptly released to the juvenile's caretaker, or taken to a medical or mental health treatment facility.
5. When releasing a juvenile offender from its custody, NOPD shall only release a juvenile to the Juvenile Intake Unit, medical or mental health treatment facility, or the juvenile's caretaker, as defined above.
6. NOPD is committed to the use of standardized and valid risk assessment tools, such as the New Orleans Juvenile Detention Alternatives Initiative's "Risk Assessment Instrument" (RAI) to determine whether a juvenile offender should be released or held in custody after being apprehended by police.

7. The NOPD Juvenile Intake Unit will not accept or process ANY child under the age of 10 years charged with ANY felony or misdemeanor offense. Those who have not reached the age of 10 years are exempt from criminal responsibility (see: RS 14:13 – Culpability and **Chapter 42.19 – Child Abuse**).

#### **NON-DETAINABLE JUVENILES**

8. If a juvenile offender exhibits any of the following conditions, members shall not hold the juvenile in custody at the Juvenile Intake Unit unless or until they have been evaluated by a qualified medical and/or mental health professional (see: **Chapter 44.2 – Juveniles**):
  - (a) Unconsciousness;
  - (b) Serious injury;
  - (c) A known suicide risk or obviously severely emotionally disturbed;
  - (d) Intoxication; or
  - (e) Extremely violent or continuously violent behavior.
9. In-custody juvenile offenders who exhibit the above-listed conditions shall be immediately brought to an appropriate medical facility for treatment and/or evaluation. Depending on the seriousness of the condition/injuries/illness, juveniles can be transported in a police vehicle or ambulance. However, the officer who has custody of the juvenile offender shall accompany or follow the juvenile to the medical facility and remain with the juvenile until they are treated and released, or the officer is relieved by their supervisor (see: **Chapter 71.1 – Prisoner Transportation and Guarding**.)
10. If the officer taking custody of the juvenile believes the juvenile may be a suicide risk, the juvenile shall remain under constant supervision until evaluation, release, or a transfer is completed.
11. In the event of an emergency medical situation for a juvenile in NOPD custody, the involved NOPD officer on the scene shall summon an ambulance immediately. NOPD shall notify the juvenile's caretaker as soon as possible in the event that a juvenile requires any medical attention.

#### **CUSTODY OF JUVENILES - TRANSPORT**

12. Officers shall transport juveniles consistent with the requirements of **Chapter 71.1 - Prisoner Transportation and Guarding, Chapter 44.2 – Juveniles** and this Chapter. Whenever an NOPD officer transports any juvenile, the officer shall announce to dispatch the starting time, odometer mileage, and location before beginning the transportation, and the officer shall announce to dispatch the ending time, odometer mileage, and location for each destination. Transporting officers shall proceed directly to the destination.

#### **CUSTODY OF JUVENILE NON-OFFENDERS**

13. Juvenile non-offenders taken into protective custody in compliance with **Chapter 42.19 – Child Abuse** should, absent extenuating circumstances and only with permission of the member's supervisor, not be held at an NOPD facility. Specific circumstances must be thoroughly investigated. With the exception of a subject being from out of state, Orleans Parish DCFS (Social Services) must be called to the scene to take custody of the juvenile subject. If DCFS recommends the juvenile subject needs to be housed at Youth Study Center (YSC) until a parent or caretaker arrives, the Juvenile Section will

make the necessary arraignments with the Youth Study Center to temporarily house the subject. If the subject is from out of state, the subject will be held for Court.

14. Custodial arrangements shall be made for juvenile non-offenders as soon as reasonably possible. Parents and caretakers should be directed to check with the NOPD Juvenile Intake.
15. **Juvenile non-offenders may not be held in secure custody.**

#### **WARNING OF JUVENILE STATUS OFFENDERS**

16. Upon an officer's finding of probable cause, a juvenile shall not be taken into custody for a status offense, and instead shall be issued a Juvenile Warning Notice and released as appropriate, including to his school, parent, guardian, or to the appropriate intervention center. (See: **Chapter 44.3 – Juvenile Warning Notice**).

#### **CUSTODY OF JUVENILE OFFENDERS OTHER THAN FOR A JUVENILE WARNING NOTICE**

17. Juvenile offenders may be taken into custody under the following circumstances (Ch. C. 812):
  - (a) When the juvenile is the subject of an order of the court requiring detention; or
  - (b) When an officer has probable cause to believe that a juvenile qualifies as a juvenile offender and has committed a felony-grade offense or a state misdemeanor and the arrest would comply with **Chapter 44.3 – Juvenile Warning Notice**.
18. Officers shall not consider of any of the following characteristics of the juvenile and his/her family in discretionary decision-making:
  - (a) Race and ethnicity;
  - (b) Gender, gender identity, and sexual orientation; or
  - (c) Economic status (absent a clear affirmative duty to act or report instances of neglect).
19. Juvenile offenders should be held in non-secure custody unless another form of custody is authorized by this Chapter or is necessary due to exigent circumstances.
20. An officer who takes a juvenile offender into custody other than for a Juvenile Warning Notice (See also: **Chapter 44.3 – Juvenile Warning Notice**) shall immediately submit a sworn written statement (GIST) justifying the custody to the juvenile court. It is first submitted to the officer's immediate supervisor for form and content concurrence and approval. It is then submitted to Juvenile Intake Unit at the time of the juvenile's intake.
21. Juvenile Intake members should take immediate steps to advise the juvenile's attorney or an informed caretaker or other adult interested the juvenile's welfare that the juvenile is in custody and the location of the juvenile (Ch. C. 813; Ch. C. 814).
22. An officer who takes a juvenile offender into custody for a felony or state misdemeanor offense shall promptly prepare a report of the custody (EPR) and submit the report to the Juvenile Intake Unit and the District Attorney or the officer designated by the court to receive such reports. The report should contain the following (Ch. C. 814):
  - (a) The name, address, date of birth, sex and race of the juvenile.
  - (b) The name and address of the parents, caretaker, or spouse, if any, of the juvenile.

- (c) A plain and concise statement of the facts and circumstances of the officer's reasons for taking the juvenile into custody.
  - (d) A plain and concise statement of facts and circumstances showing probable cause that the juvenile committed a delinquent act.
  - (e) A statement describing the disposition of the juvenile, such as indicating whether the juvenile was released to a parent or caretaker, escorted to a juvenile detention facility (YSC), or placed in a shelter care facility.
23. Persons, regardless of age, who are arrested **solely** on a juvenile court warrant shall never be transported to the Orleans Parish Prison for a “courtesy hold” and shall never be held in custody at the Orleans Parish Prison. Such persons are subject to the exclusive jurisdiction of the juvenile court and are juveniles under the law.
24. If there is any doubt about whether a person who is taken into custody is a juvenile or adult, NOPD shall undertake all reasonable efforts to confirm the person’s age and shall never transport a person to Orleans Parish Prison where there is any credible reason to believe that the person is a juvenile.

#### **ADVISEMENTS OF MIRANDA RIGHTS**

25. In any case where a juvenile is taken into custody, the officer should advise the juvenile of his/her constitutional (see: **Chapter 1.9.1 – Miranda Rights; Chapter 44.2 – Juveniles**).

#### **NO-CONTACT REQUIREMENTS**

26. There shall be sight and sound separation between each juvenile and adults in custody (42 USC § 5633). There should also be sight and sound separation between non-offenders and juvenile and status offenders.
27. If inadvertent or accidental contact does occur or when separation is not possible, reasonable efforts shall be taken to minimize contact (e.g., when the juvenile is being fingerprinted or photographed). In situations where brief or accidental contact may occur, a member of the New Orleans Police Department shall maintain a constant, side-by-side presence with the juvenile or the adult to prevent sustained contact.

#### **TEMPORARY CUSTODY REQUIREMENTS**

28. A Juvenile Intake Unit member of the same gender as the juvenile shall supervise the personal hygiene activities and care, such as changing clothes or using the restroom.
29. A juvenile offender should remain in the temporary custody of the NOPD no longer than four hours. If the parent or caretaker makes notification of a protracted delay, DCFS will be notified by Juvenile Intake members and arraignments will be made with the YSC for bedding and lodging of the juvenile.
30. Visual checks of juveniles in custody and significant incidents or activities involving the juveniles in custody shall be noted on the juvenile intake log.
31. There shall be no viewing devices, such as peep holes or mirrors, of which the juvenile is not aware. A Juvenile Intake Unit member should inform a juvenile under his/her care that the juvenile will be monitored at all times, except when using the toilet. This does not apply to surreptitious and legally obtained recorded interrogations.

32. Juveniles shall have reasonable access to toilets and wash basins.
33. Juveniles shall have reasonable access to a drinking fountain or water and to food, if the juvenile is in need of nourishment.
34. Juveniles shall have reasonable opportunities to stand and stretch, particularly if handcuffed or restrained in any way.
35. Juveniles shall have reasonable access to a telephone.
36. Juveniles should have privacy during visits with caretaker or lawyer.
37. Blankets and clothing should be provided as reasonably necessary to ensure the comfort of a juvenile. For example, clothing should be provided if the juvenile's clothing is taken as evidence or is otherwise unsuitable or inadequate for continued wear while in custody.
38. Adequate shelter, heat, light and ventilation should be provided without compromising security or enabling escape.
39. Juveniles shall have adequate furnishings, including suitable chairs or benches.
40. No form of discipline may be administered to any juvenile. Juveniles shall not be subjected to corporal or unusual punishment, humiliation, or mental abuse.

#### **USE OF RESTRAINT DEVICES**

41. The use of restraints, other than handcuffs, is an extreme measure and generally should not be used for juveniles in temporary custody at the New Orleans Police Department, unless the juvenile presents a heightened risk, and it is only a temporary measure pending transportation to another facility or until other custodial arrangements can be made.
42. Restraints, other than handcuffs, shall only be used after less restrictive measures have failed and with the approval of the supervisor. Any restraints shall only be used so long as it reasonably appears necessary for the juvenile's protection or the protection of others.
43. Juveniles who are handcuffed and/or restrained must be isolated to protect them from abuse and shall be directly observed by an NOPD officer at least once every 15 minutes to ensure the safety and well-being of the juvenile.
44. When handcuffing and/or restraining is permitted by this Chapter, it must be done in accordance with **Chapter 1.3.1.1 – Handcuffing and Restraint Devices**.

#### **PERSONAL PROPERTY OF JUVENILE OFFENDERS**

45. The officer taking custody of a juvenile at the Juvenile Intake Unit shall ensure a thorough search of the juvenile's property is made and all property is removed from the juvenile, especially those items that could compromise safety, such as pens, pencils and belts.
46. The personal property of a juvenile should be placed in a property bag. The property shall be inventoried in the juvenile's presence and sealed into the bag. The property

should be kept in a monitored or secure location until the juvenile is released from the custody of the New Orleans Police Department.

### **SECURE CUSTODY**

47. NOPD shall not use secure custody for children under 10 years of age.
48. Members of this department shall not use secure custody for convenience when non-secure custody is, or becomes, a reasonable option.
49. NOPD may hold a juvenile in secure custody if necessary for safety and/or to prevent flight, in consideration of the following criteria:
  - (a) The juvenile's physical and emotional age, maturity, and history of delinquency;
  - (b) The juvenile's behavior; and
  - (c) Availability of staff to adequately supervise the juvenile.
50. Officers shall follow Juvenile Intake facility procedures for inspection of any secure custody locations.

### **CONTACTING JUVENILE SUSPECTS**

51. Officers may not interview or interrogate a juvenile suspect except in the presence of the parent, caretaker or attorney (see: **Chapter 42.11 – Custodial Interrogations; Chapter 44.2 – Juveniles**).
52. As long as the juvenile is in NOPD custody (booking & processing), Juvenile Intake remains the main point of contact for parents and caretakers. Once the juvenile is remanded, the juvenile becomes the responsibility of Orleans Parish Juvenile Court to disseminate information on status, cases and court dates.

### **RESTRICTION ON FINGERPRINTING AND PHOTOGRAPHING**

53. A juvenile offender may be photographed or fingerprinted in connection with being taken into custody. The fingerprints and photographs of juveniles will be maintained and indexed separately from those of adults (Ch. C. 818).

### **STRIP SEARCHES AND BODY CAVITY SEARCHES OF JUVENILES**

54. All searches of a juvenile offender shall conform to the requirements of **Chapter 1.2.4 – Search and Seizure**. A juvenile shall only be subjected to a strip search or physical body cavity search (any search that would reveal his/her underclothing, breasts, buttocks, anus, or vagina) upon the authority of a search warrant requested by the arresting officer. A copy of any search warrant and the result of the strip search or physical body cavity search shall be included with the related reports and made available, upon request, to the juvenile's caretaker or attorney (see: **Chapter 1.2.4 – Search and Seizure**).
55. A body cavity search **shall only** be conducted at a medical facility by authorized medical personnel.
56. Completed documentation should be placed in the juvenile's file. A copy of the search warrant shall be retained and made available to the juvenile or other authorized representative upon request.
57. All contraband and weapons should be processed in accordance with the department's

current evidence procedures.

58. The Juvenile Intake Unit member requesting the search shall complete an incident or supplemental report.

### **INSTRUCTIONS - JUVENILE ARRESTS**

59. When probable cause for an arrest of a juvenile is established, the investigating officer shall make the arrest within the guidelines of **Chapter 44.3 – Juvenile Warning Notice**.
60. If the juvenile cannot be located, the officer shall obtain an arrest warrant in accordance with current procedure. (See also: **Chapter 1.9.2 – Arrest Warrants and Wanted Subjects**).
61. Juvenile arrest warrants may be signed by a CDC - Magistrate Judge or a Juvenile Court Judge. **Officers shall make every effort to obtain a Juvenile Judge's signature on a juvenile arrest warrant before resorting to a Magistrate Judge.**
62. In cases where an arrest warrant is necessary, the investigating officer's unit shall be responsible for forwarding a copy of the completed and approved incident report and warrant to the NOPD – NCIC Unit and the Juvenile Intake Unit.
63. Custodial arrests of a juvenile offender shall be made in all felony cases, as well as misdemeanor cases within the guidelines of **Chapter 44.3 – Juvenile Warning Notice**. **Under no circumstance shall an arrested juvenile offender be transported to a district station without prior approval of the officer's supervisor and notification of the Juvenile Intake Unit.** (See: **Chapter 44.2 – Juveniles**).
64. Should transport be delayed due to investigative reasons, the arresting/investigating officer shall notify his/her supervisor.
65. The Juvenile Intake Unit shall inform the arrested juvenile offender's parent or caretaker of the facts of the investigation, the location where the juvenile offender is being held, and the officer conducting the investigation if the is in police custody but not at the Juvenile Intake Unit.
66. Basic questions may be asked relative to the juvenile offender's name, address, age, date of birth, identity of a caretaker, etc., without the presence of a caretaker or attorney.
67. If the offense is one in which the juvenile offender can be charged as an adult, he/she will still be processed as a juvenile offender according to this Chapter.
68. Photographs of arrested juvenile offenders in detention shall be taken for:  
(a) All felony arrests;  
(b) All misdemeanor arrests involving weapons;  
(c) All arrests involving drugs; and  
(d) Orders of the Juvenile Court.

### **TRAFFIC-RELATED ARRESTS INVOLVING JUVENILES**

69. If a juvenile is arrested for violation of R.S. 14 article 98, relative to driving while intoxicated, the juvenile offender shall be physically arrested and transported directly to the hospital prior to transport to the Juvenile Intake Unit.
70. All juvenile traffic violations and subsequent citations shall be handled in the same manner as adult violations, including the offenses that require custodial arrest and

transport to Juvenile Intake (see: **Chapter 61.3 – Traffic Citations**); however, NOPD members must comply with this Chapter and **Chapter 44.2 – Juveniles** for any offenses that require custodial arrest and transport to Juvenile Intake.

71. The original copies of all citations issued to juveniles shall be turned in at the officer's place of assignment and forwarded to the Ticket Processor unless a custodial arrest was made, in which case the citation shall be turned in to Juvenile Intake with any related arrest documentation.

#### **ARRESTS INVOLVING JUVENILES WITH ELECTRONIC MONITORING**

72. Officers arresting a juvenile offender under a signal 21-E (Electronic Monitor Violation) shall transport the juvenile offender to the Juvenile Intake Unit for processing.
73. The incident shall be documented in an incident report (EPR) as an arrest for a Violation of Electronic Monitoring (RS 14:000).

#### **TRUANCY ARRESTS**

74. Officers detaining truant juveniles shall follow the guidelines of **Chapter 44.3 – Juvenile Warning Notice**.

#### **CURFEW ARRESTS**

75. If an officer suspects a violation of the city's curfew ordinance, the officer shall follow the guidelines of **Chapter 44.3 - Juvenile Warning Notice**.

#### **INCIDENT REPORTS**

76. Arresting officers shall complete his/her original incident report, if required, and supply a copy of the report to the Juvenile Intake Unit prior to transferring custody of the arrested juvenile offender. All juvenile reports, including incomplete reports, shall contain a Gist page covering the probable cause for arrest. When the complexity of a particular investigation renders the immediate generation of an incident report inappropriate, (i.e. Homicide or Rape cases) the on-duty Juvenile Intake Unit supervisor shall be consulted. After reviewing the circumstances, the Juvenile Intake Unit's supervisor may grant the investigating officer permission to forward a completed and approved copy of the offense report to the Juvenile Intake Unit at a later date.
77. In all cases, parents and caretakers are provided with a brief explanation surrounding a juvenile offender's arrest by Juvenile Intake staff. In those cases, involving felonies or capital offenses, the parents and caretakers of juvenile offender arrested subjects are normally briefed on the details by the case investigator prior to the juvenile offender's arrest.
78. In certain misdemeanor offenses covered in **Chapter 44.3 - Juvenile Warning Notice**, no EPR is required. But, if required, the original offense report may consist of a single face sheet and a gist page, provided the information required for prosecutorial review and acceptance is contained in the document. Single face sheet and gist page reports shall only be generated with the approval of the on duty Juvenile Intake Unit supervisor.
79. **All required offense reports (EPR) submitted to the Juvenile Intake Unit, in conjunction with a custodial arrest, shall be reviewed for form and content and approved by the investigating officer's supervisor prior to the Juvenile Intake Unit accepting custody of the offender unless the Juvenile Intake Unit supervisor**

**grants and documents an exception.**

80. It is the responsibility of the arresting officer's supervisor to forward a copy of any approved supplemental report involving the custodial arrest of a juvenile offender to the Juvenile Intake Unit as soon as possible after supervisory approval. This can be done by informing the Juvenile Intake supervisor of the supplemental by an email with a delivery and read receipt.

**JUVENILE WARNING NOTICE**

81. When utilizing a Juvenile Warning Notice, the investigating officer shall follow the guidelines of **Chapter 44.3 - Juvenile Warning Notice.**

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 44.2

### TITLE: JUVENILES

**EFFECTIVE: 08/26/2018**

**REVISED: 12/20/20**

---

#### PURPOSE

The purpose of this Chapter is to establish guidelines for incidents where police officers are handling situations involving juveniles. These situations include juveniles as victims or suspects, ill or injured juveniles, detention hearings relative to juvenile cases, situations where individuals who are adult offenders attempt to escape the jurisdiction of the criminal court by posing as juvenile offenders, and those arrested juvenile offenders attempting to escape the jurisdiction of the juvenile court by posing as adult offenders.

#### POLICY STATEMENT

1. When an officer can lawfully take a juvenile into custody, based upon the officer's finding of probable cause or pursuant to an order of the court, the officer should, whenever possible, rely on the least restrictive and most reasonable alternative consistent with preserving public safety, order, and individual liberty. See **Chapter 44.3 – Juvenile Warning Notice**.
2. The NOPD Juvenile Intake Unit will not accept or process ANY child under the age of 10 years charged with ANY felony or misdemeanor offense. Those who have not reached the age of 10 years are exempt from criminal responsibility (see: **RS 14:13 – Culpability**).
3. Investigating officers and supervisors shall properly document the incident involving a child under the age of 10 as the perpetrator and consult the Orleans Parish District Attorney's Office for further action.

#### DEFINITIONS

**Delinquent Act**—An act committed by a child of ten years of age or older which if committed by an adult is designated an offense under the statutes or ordinances of this state, or of another state if the offense occurred there, or under federal law, except traffic violations. (See: CHC Art. 804). "Delinquent act" shall not include a violation of R.S. 14:82, 83.3, 83.4, 89, or 89.2 for a child who, during the time of the alleged commission of the offense, was a victim of trafficking of children for sexual purposes pursuant to R.S. 14:46.3(E)).

**Habitual**—A runaway or truant shall be considered habitual when the condition continues to exist after all reasonable efforts by any school personnel, truancy officer, or other law

enforcement personnel have failed to correct the condition after the fifth unexcused absence or fifth unexcused occurrence of being runaway or tardy within a 12-week period.

**Juvenile**— A person under the age of 18 years who has not been judicially emancipated or emancipated by marriage as provided by law.

**Juvenile Offender**—A person under the age of 18 years, who is alleged to have committed an offense that would subject an adult to arrest (a non-status offense), i.e., a Delinquent Act, or who is alleged to have illegal possession of a handgun by a juvenile (R.S. 14:95.8), to have sexted (R.S. 14:81.1.1A (2)), or have committed a direct contempt of court.

**Runaway**—The continued absence of the juvenile (under age 18) from the home of his caretaker without the caretaker's consent (CCH Art. 728).

**Secure Detention Facility**—A facility that provides a physically restricting environment for the temporary care of children in accordance with the Minimum Standards for Licensure of the Louisiana Detention Association (CCH Art. 116).

**Status Offense**—Those acts that would not be a violation if not for the age of the offender (e.g., running away, underage drinking, curfew violation, truancy).

**Truant**—The repeated or habitual unauthorized absence from school by a child who is subject to the compulsory attendance laws of this state. Municipal ordinance further defines truant as any child, below the age of seventeen, who remains in any public place or establishment during the truancy hours, as defined by city ordinance, on any day which said child is required to be in school (Article 728 of the Louisiana Children's Code).

**Incarcerated Juvenile Offender**—Any arrested juvenile being detained after the initial investigation and processing, who has not been released to the custody of a parent or guardian, pending further Juvenile Court action.

**Detention Hearing**—A legal proceeding held in a section of Juvenile Court, presided over by a Juvenile Court Judge, where testimony pertaining to probable cause is given by an arresting officer or officer obtaining an arrest warrant for an arrested juvenile offender or where a determination will be made to release the incarcerated juvenile to the custody of his/her parent or guardian or continue incarceration pending further action by the Juvenile Court.

## **JUVENILES AS VICTIMS RUNAWAY / MISSING CLASSIFICATION**

4. The District where a missing juvenile is reported shall be responsible for the investigation of all such cases. The district platoon supervisor shall be consulted on all cases of missing juveniles and shall be responsible for classification of the juvenile as missing, lost, or runaway. The Juvenile Intake platoon commander can be consulted for assistance, if requested, but members of the Juvenile Intake Unit do not make scenes. (See also: **Chapter 41.23 – Missing Person Reporting**).

## **RUNAWAY JUVENILES**

5. A juvenile can be “missing” unless other information is available to the officer to indicate the juvenile ran away. The juvenile shall be presumed to be runaway if:
  - (a) The individual is under the age of 18;
  - (b) The juvenile has a prior history as a habitual runaway;
  - (c) There is evidence of a planned or intentional departure; and/or
  - (d) Information provided by the parent/guardian is sufficient to determine the juvenile has left on his/her own accord and is not the victim of foul play.

6. When a juvenile has been classified as a runaway, the initial investigation, report and bulletin shall be the responsibility of the district officer. The reporting officer shall use the **Form 7 – Affidavit to Missing Person Report** and indicate in all blanks where “Missing Person” is used that it is a “**Runaway Juvenile**.” On the narrative page of the incident report, the investigating officer shall have the reporting person print his/her name and affix his/her signature to indicate he/she is reporting the juvenile missing.
7. If a person refuses to sign, the officer shall note that fact in the narrative and process the report.
8. Bulletins shall include pertinent information, including the name, address and telephone number of a parent or guardian. The NCIC Unit shall enter the runaway information into NCIC upon receipt of the bulletin.
9. Investigating officers shall send a bulletin on return of missing or runaway juvenile who are delivered to the Juvenile Intake Unit for processing.
10. Officers encountering juveniles where it is suspected that the juvenile is a runaway shall make every effort to verify his/her suspicion. Once it is determined the juvenile is in fact a runaway, the investigating officer shall make every effort to notify a parent or guardian. If, after all reasonable efforts of locating the parents or guardian are exhausted and the parent or guardian is unable to be located, the officer shall transport the juvenile to the Juvenile Intake Unit.
11. When the investigation fails to substantiate that a juvenile has run away, the absent juvenile shall be classified as a missing person. When a juvenile is classified as missing, the District Investigative Unit shall assign an investigator to respond to the scene and assume responsibility for the investigation and original offense report.
12. In the event a juvenile is reported lost, or a lost juvenile is turned over to the custody of an officer, the officer shall generate an initial incident report (EPR). The officer shall take the juvenile into protective custody and notify Communications Services to contact the Department of Child and Family Services (DCFS) and the ISB – Special Victims Section – Child Abuse Unit. The officer and juvenile shall remain on the scene until DCFS arrives and assumes custody of the Juvenile.
13. Juveniles are considered dependent if they have no apparent means of supervision, either through the arrest of the parent/guardian or some other condition rendering the parent/guardian incapable of caring for the juvenile. Lost/runaway juveniles or juveniles in protective custody who are **UNDER THE AGE OF 10** are not brought to the Juvenile Intake Unit. The officer must contact the ISB – Special Victims Section – Child Abuse Unit to come to the scene and take custody.
14. Out-of-state runaways have a high probability of involvement in Human Trafficking or the sex trade. The Homeland Security Task Force and the ISB – Sex Crimes – Child Abuse Unit shall be contacted through Communications Services and requested to the scene of any investigation involving an out of state runaway. All out-of-state and out-of-parish runaways must be taken to Juvenile Intake for processing, per the Interstate Compact.
15. No out-of-state runaway will be accepted at the Juvenile Intake Unit without a medical clearance or a forensic interview (see: **Chapter 42.19 – Child Abuse**).

**JUVENILE INVESTIGATIONS**

16. The investigation and original offense report of simple kidnappings shall be the responsibility of the District Investigative Units. The District Investigative Units (DIU) shall be responsible for the scene and/or follow-up investigations of all state felony and misdemeanor offenses, including narcotics, involving juvenile offenders, unless otherwise directed by the Deputy Chief of the Field Operations Bureau.
17. In cases where a juvenile is kidnapped by a parent/guardian in association with a custody dispute (parental/custodial kidnapping cases), the district officer's primary responsibility shall be to stabilize any on-scene conflicts, to protect the safety of the juvenile when present and to insure there is no attempt by a parent/guardian to flee the jurisdiction of the court with the juvenile.
18. Once the immediate situation is stabilized, the district officer shall contact the District investigative Unit (DIU) to assume the investigation.
19. District Investigative Units shall have the responsibility for investigating all juvenile involved kidnappings, except aggravated kidnappings which will be handled by ISB – Specialized Investigation Section – Narcotics Unit. The Juvenile Intake Unit's supervisors and members shall serve as an information resource to district investigators and officers.
20. The following offenses involving juveniles shall be investigated as listed below:
  - (a) Police Shootings—PIB/Force Investigation team
  - (b) Child Abuse Cases—ISB/Special Victims Section/Child Abuse Unit
  - (c) Sex Offenses—ISB/Special Victims Section/Child Abuse Unit
  - (d) Aggravated kidnapping— ISB/Specialized Investigation Section/Narcotics Unit

**JUVENILE INTERVIEWS AND INTERROGATIONS**

21. Conditions of Interviews and Interrogations:
  - (a) Officers who have taken a juvenile into custody and who desire to conduct an interview or interrogation of the juvenile in one of the Department's authorized Interrogation / Interview Rooms shall first contact his/her immediate supervisor and obtain permission to transport the juvenile to the location and use the Interrogation / Interview Room. The request and authorizing supervisor shall be documented in all subsequent reports.
  - (b) All the requirements of a custodial interrogation in **Chapter 42.11 – Custodial Interrogations** shall be met when conducting an interrogation of a juvenile. Custodial interrogations shall be conducted in one of the Department's authorized Interrogation / Interview Rooms unless articulable exigent circumstances exist. The exigent circumstances shall be documented in the investigative case file and/or incident report.
  - (c) An interview or interrogation of a juvenile shall not be coercive in nature. This means, among other things:
    - i. Prior to commencing an interview/interrogation, and throughout the interview/interrogation, the questioning officers shall ensure that the following amenities are available to juveniles:
      1. Reasonable access to toilets and washing facilities.
      2. Reasonable access to drinking water or another beverage.
      3. Food if the juvenile has not eaten within four hours.
      4. Privacy during visits with parent/legal guardian and lawyer.
      5. Reasonable access to a telephone to contact parent/legal guardian and lawyer.
    - ii. A juvenile shall not be interviewed/interrogated by more than two officers simultaneously. The officers shall not be armed during a custodial interrogation.

- iii. Normally, the interview/interrogation of a juvenile should not go beyond a two-hour session, and frequent breaks should be taken. The investigator should obtain supervisory approval for extending any interview/interrogation and note the reason for the extension in the investigative report along with the supervisor's name.
  - iv. Juveniles shall not be shackled or otherwise restrained during interrogations/interviews unless the juvenile is engaging in behavior likely to cause injury to themselves or others.
22. All provisions of this Chapter, **Chapters 42.11 – Custodial Interrogations** and **Chapter 42.10 - Interviews** concerning the questioning of juveniles apply to alleged school misbehavior and school-based investigations. NOPD members shall not ask school officials or other non-NOPD members to question a student in an effort to circumvent these protections.
23. Consent and Presence of a Caretaker During Interrogation:
- (a) Caretaker Notification:
    - i. The officer who intends to conduct an interrogation or interview of a juvenile must take immediate steps to notify the juvenile's caretaker/parent/guardian immediately after arriving at the NOPD facility where the interrogation is to be conducted.
    - ii. Notification to the caretaker may be made by telephone, in person, or by going to the juvenile's home.
    - iii. When a caretaker is contacted, he/she shall be notified of the following:
      - 1. the juvenile is in custody,
      - 2. the juvenile's location;
      - 3. the reason the juvenile is in custody or to be interviewed;
      - 4. that the officer intends to advise the juvenile of his/her *Miranda* rights;
      - 5. that the juvenile has a right to consult with the caretaker prior to and during any questioning; and
      - 6. that questioning cannot proceed in the absence of a caretaker.
    - iv. Prior to commencing any questioning of a juvenile who is in custody, and prior to advising the juvenile of his/her rights, the officer(s) conducting the custodial interrogation shall obtain the consent of the juvenile's caretaker or attorney. Officers shall not interrogate a juvenile outside the presence of the juvenile's caretaker or attorney.
  - (b) The caretaker and the juvenile must be afforded an adequate opportunity to consult, in confidence and outside of the presence or the hearing of any law enforcement officer, in advance of any interview/interrogation.
24. Advice of Rights Prior to Custodial Interrogation
- (a) Whatever advice of rights has previously occurred, the officer(s) conducting a custodial interrogation of a juvenile must advise the juvenile and the juvenile's caretaker of the juvenile's *Miranda* rights in a manner consistent with the requirements of **Chapter 1.9.1 – Miranda Rights**, and secure a valid waiver from the juvenile and the interested adult present, prior to beginning the custodial interrogation. This advice of rights must be audio-video recorded. (See: **Chapter 1.9.1 – Miranda Rights**).
  - (b) Procedure for Administering Miranda Rights:
    - i. The officer shall provide the juvenile and the caretaker with a copy of the *Miranda* Rights Form:
      - 1. The officer shall give the juvenile the opportunity to read the form to his or herself.
      - 2. The officer shall then read the entire form to the juvenile.

3. After reading each right to the juvenile, the officer shall ask the juvenile to explain, in his or her own words, what that right means.
  - (c) The following language or similar language that attempts to convey the underlying meaning of Miranda, or a translation of the following language if an LEP situation exists, into the language understood by the juvenile, should be used when advising a juvenile of his or her *Miranda* rights:
    - i. You have the right to remain silent. That means you do not have to say anything to me.
    - ii. Anything you say can be used against you in court. That means anything you tell me could be used to try to show that you are guilty.
    - iii. You have the right to get help from a lawyer right now. If you ask for a lawyer, I have to stop this interview until you talk to a lawyer.
    - iv. If you can't pay a lawyer, the court will get you one for free.
    - v. You have the right to stop this interview at any time.
    - vi. Do you want to have a lawyer help you decide if you want to talk to me?
    - vii. Do you want to talk to me?
25. Juveniles can often misunderstand questions. They also often tell adults whatever the adults want to hear. So, when interviewing/interrogating juveniles the following techniques may be useful in avoiding misunderstandings between the interviewer/interrogator and the juvenile:
- (a) Use open-ended, free-recall questions that ask the child to produce a narrative: "What did you do last night?"
  - (b) Use targeted but open-ended questions to get additional information: "You said you were at home last night. Tell me about that."
  - (c) If officers suspect the juvenile is not being truthful, officers should use probing questions that are truthful and in no way deceptive, and avoid outright accusations: "Can you help me understand why there is a Facebook picture that shows you with your friends at a party?"
  - (d) Avoid leading questions, and instead use questions beginning with "who," "what," "where," "when," and "how" to get more information about specific parts of the juvenile's story: "Where was the victim standing?"
  - (e) Officers shall not provide deceptive or misleading information to the juvenile.
  - (f) Avoid offering the juvenile a limited set of options: "Was the victim standing by the couch or by the door?"

## JUVENILE CONSENT SEARCHES

26. Prior to seeking consent from a juvenile to conduct any sort of search of the juvenile's person or property, or any vehicle or premises under the juvenile's control, the officer must receive supervisory approval.
27. If the officer obtains supervisory approval and the juvenile's consent to search, the officer must follow the guidelines of **Chapter 1.2.4 – Search and Seizure** concerning consent to search requirements including his/her right to refuse and to revoke consent at any time.
28. In order to meet the burden of proving the consent is valid, the member seeking consent should use informative language targeted to the juvenile's age, understanding, and cognitive abilities. NOPD members should recognize that in many instances, juveniles may not have the capacity to provide valid consent to search.
29. In making this determination the officer shall consider:
  - (a) The juvenile's age,
  - (b) Education,

- (c) Mental capacity,
  - (d) Background,
  - (e) Prior experience with the juvenile or criminal justice systems,
  - (f) Whether the juvenile is distraught or mentally agitated,
  - (g) Whether the juvenile is under the influence of any mind-altering substances and
  - (h) the nature or circumstances of the search.
30. The search of a juvenile's person shall be conducted by an officer of the gender requested by the juvenile.
31. NOPD members shall not ask school officials or other non-NOPD members to search a student or a student's property student in an effort to circumvent these protections.

### JUVENILE IDENTIFICATIONS

32. Field identifications/Show-Ups, photographic lineups and physical lineups involving juvenile suspects shall follow the same guidelines as for adults. (See: **Chapter 42.8 – Eyewitness Identification**).

### ILLNESS OR INJURIES SUSTAINED BY THE ARRESTED JUVENILE

33. Arrested juveniles who are ill or injured shall be immediately brought to an appropriate medical facility for treatment. Depending on the seriousness of the injuries/illness, juveniles can be transported in a police vehicle or ambulance. However, the arresting officer shall accompany or follow the juvenile to the medical facility and remain with the juvenile until they are treated and released (see: **Chapter 71.1 – Prisoner Transportation and Guarding**).
34. If the arrested juvenile is refused by the Juvenile Intake Unit for medical reasons / treatment and later returns for processing and booking, the juvenile detective on-duty will notify the parent or guardian of the juvenile's medical condition and status within the first hour of his/her arrival at the Juvenile Intake Unit.
35. Arrested juveniles shall not be left unattended at a medical facility when in custody of the Department. The arresting officer or an officer assigned to guard duty shall remain at the medical facility until a custodial release is obtained, if the incident for which the juvenile is accused permits such release.
36. In the event an arrested juvenile is to be admitted to a medical facility, the arresting officer shall immediately notify his/her immediate supervisor. The arresting officer's supervisor shall be responsible for establishing the guard detail. If the guard detail is cancelled by a supervisor, the supervisor cancelling the guard detail shall insure that a warrant is issued for the juvenile's arrest upon release of the juvenile from the medical facility. Once in custody, the juvenile shall be transported to the Juvenile Intake Unit for processing.

### JUVENILE DETENTION HEARINGS

37. If the offense took place when the arrested subject was under 18 years of age, and the arrested subject is, at the time of arrest 18 or older, arresting officers shall contact the Juvenile Intake Unit to determine the appropriate recommended charges and if the arrested subject is to be brought to Central Lockup for intake or booking.
38. Juvenile Court intake personnel (not NOPD Juvenile Intake Unit members) will assess the arrested juvenile and assigns a Risk Assessment Instrument (RAI Score) score to the subject to determine if the juvenile is held for detention or released. The outcome of the assessment shall be relayed to the NOPD Juvenile Intake Unit.

39. Anytime an arrested juvenile is detained in the Youth Study Center (YSC), the arresting officer's appearance at the scheduled detention hearing shall be mandatory.

40. Juvenile offenders held in the Youth Study Center (YSC) shall be brought to a detention hearing the day following his/her arrest, weekends and holidays excluded, in Juvenile Court.

### **YOUTH STUDY CENTER (YSC)**

41. When an arrested juvenile is to be detained, the Juvenile Intake Unit's assigned investigator shall inform the arresting officer(s) of the date, time and section of Juvenile Court where the hearing will be held. Arresting officers shall document this notification by recording the time, date, and court section of the scheduled hearing, along with the name of the Juvenile Intake detective providing this information, in their original offense report.
42. If the arrested juvenile is assigned a detention hearing the next day, the arresting officer must sign the Notification Detention Log, located in the Juvenile Intake Unit, upon completion of the incident report and related paperwork.
43. In arrests involving arrest warrants, the original investigator who issued the arrest warrant shall attend the detention hearing. The Juvenile Intake platoon commander shall contact a supervisor from the officer's unit and request he/she make every effort to notify the issuing officer of the pending detention hearing and the mandatory appearance.
44. If the officer obtaining the arrest warrant cannot be notified, the Juvenile Intake platoon commander shall contact the officer affecting the arrest, who shall be required to appear at the detention hearing.
45. Only one arresting officer, or one officer who obtained the arrest warrant, need attend the detention hearing. However, the officer who attends the hearing must have sufficient knowledge of the incident to provide probable cause for the arrest.

### **STATUS OFFENSES**

#### **TRUANCY**

46. Refer to **Chapter 44.3 – Juvenile Warning Notice** for more information.
47. When an officer observes a person between 7 and 17 years of age, off school property during periods of time when school is in session, the person will be questioned to ascertain the reason for his/her absence from school.
48. There is an exception if the person has already graduated from high school prior to age 17.
49. If there is no valid reason for the absence from school and no criminal charges are involved, the officer shall:
  - (a) Advise Communication Services of the location and nature of the stop.
  - (b) Transport the juvenile to his/her school or the Youth Opportunity Center (1331 Kerlerrec Street) as appropriate (see below).
  - (c) Complete an electronic Field Interview Card.
  - (d) Complete a Juvenile Warning Notice.
  - (e) Convey the Juvenile Warning Notice to the Youth Opportunity Center (with or without the juvenile as appropriate).
50. When a school absentee is not involved in a criminal offense, the officer shall transport the school absentee to:
  - (a) The school if it is in the district of occurrence, or

- (b) The school if it is in an adjacent district and the officer's supervisor authorizes the transport, or
- (c) The Youth Opportunity Center when the absentee's school is outside the District of occurrence and a supervisor has not authorized the direct transport to the school.

51. If the school absentee (truant) is being investigated in relation to a criminal offense, he/she is to be handled and processed according to the provisions of this Chapter, **Chapter 44.3 – Juvenile Warning Notice**, and **Chapter 44.1.4 – Temporary Custody of Juveniles**.

### **CURFEW**

52. If an officer suspects a violation of the city's curfew ordinance (**MCS 54-414**), the officer shall immediately detain and interview the suspected offender.
53. If the suspect is 16 years of age or younger, and is not engaged in one of the exempted activities defined in the municipal ordinance, the officer shall issue a Juvenile Warning Notice and release as appropriate. (See: **Chapter 44.3 – Juvenile Warning Notice**).
54. Exempted activities include any minor who is:
- (a) Accompanied by the minor's custodian (*Custodian* means a parent as defined in Louisiana Children's Code, Article 116 or a person with legal custody as defined in Louisiana Children's Code, Article 116 to whom the care or supervision of the child has been temporarily and lawfully delegated or assigned.);
  - (b) On a reasonable errand (*Reasonable errand* means the activity of a minor pursuant to a custodian's direction in a public place or establishment in order to accomplish an emergency mission or a legitimate family function in a normal and customary fashion considering the time of day, or going to or returning home from such an activity without any detour or stop.);
  - (c) In a motor vehicle involved in interstate travel;
  - (d) Engaged in an employment activity pursuant to the minor's custodian's direction, or going to or returning home from such an employment activity without any detour or stop;
  - (e) Involved in an emergency (*Emergency* means an unforeseen circumstance or the resulting state that demands for immediate action including, but not limited to, a fire, a natural disaster, an automobile accident, or any situation requiring immediate action to prevent serious bodily injury or loss of life.);
  - (f) On the sidewalk abutting the minor's residence or abutting the residence of a next-door neighbor, with the next-door neighbor's consent; or
  - (g) Attending an official school, religious, or other recreational activity supervised by adults or sponsored by the city or another public body, a civic organization, or other similar entity that takes responsibility for the minor; or going to or returning home from such an activity, without any detour or stop; or exercising First Amendment rights protected by the United State Constitution, such as the free exercise of religion, freedom of speech, and the right of assembly.

### **CURFEW ENFORCEMENT ACTIONS**

55. A juvenile shall not be taken into custody for a status offense. The officer shall issue a **Juvenile Warning Notice** (see: **Code of the City of New Orleans, Section 102-1**) and release the juvenile to the school, parent, guardian or appropriate intervention center as appropriate. See **Chapter 44.3 – Juvenile Warning Notice**.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 44.3

### TITLE: JUVENILE WARNING NOTICE AND SUMMONS

**EFFECTIVE: 8/26/2018**

**REVISED: 10/07/18, 11/18/18, 12/20/20**

---

#### PURPOSE

The purpose of this Chapter is to provide officers of the New Orleans Police Department with guidelines regarding when to take juveniles into custody and when to issue a Juvenile Warning Notice or Juvenile Summons only.

#### POLICY STATEMENT

1. When an officer can lawfully take a juvenile into custody, based upon the officer's finding of probable cause or pursuant to an order of the court, the officer should, whenever possible, rely on the least restrictive and most reasonable alternative consistent with preserving public safety, order, and individual liberty.
2. Juveniles may only be charged with State criminal charges, whether by summons or in an EPR for custodial arrest and booking, not the municipal equivalent.

#### DEFINITIONS

**Delinquent Act**—An act committed by a child of ten years of age or older which, if committed by an adult, is designated an offense under the statutes or ordinances of this state, or of another state if the offense occurred there, or under federal law, except traffic violations. (See: CHC Art. 804). "Delinquent act" shall not include a violation of R.S. 14:82, 83.3, 83.4, 89, or 89.2 for a child who, during the time of the alleged commission of the offense, was a victim of trafficking of children for sexual purposes pursuant to R.S. 14:46.3(E).

**Juvenile**—A person under the age of 18 years who has not been judicially emancipated or emancipated by marriage as provided by law.

**Juvenile Warning Notice**—An oral notice issued to a juvenile, following an officer's finding of probable cause, in lieu of taking the juvenile into custody and referring the juvenile for prosecution.

**Juvenile Summons**—An instrument used to counsel and release a juvenile to the care of his/her parent or guardian upon his/her parent's or guardian's written promise to bring the juvenile to court at such time as may be fixed by the court, pursuant to La. Ch. Code article 814(B)(1).

**Juvenile Habitual Offender**—A juvenile with a criminal history of two or more felony convictions or five or more felony or misdemeanor arrests for any offense. (See: **Section 102-1 of the Code of the City of New Orleans.**)

**Juvenile Offender**—A person under the age of 19 years, who is alleged to have committed an offense that would subject an adult to arrest (a non-status offense), i.e., a Delinquent Act, or who is alleged to have illegal possession of a handgun by a juvenile (R.S. 14:95.8), to have sexted (R.S. 14:81.1.1A (2)), or have committed a direct contempt of court.

**Protective Custody**—Taking a child into custody without a court order based on reasonable grounds to believe that the child's surroundings are such as to endanger the child's welfare and immediate removal appears to be necessary for the child's protection (La. Ch.C. art. 621).

**Status Offense**—Those offenses that would not be a criminal violation if not for the age of the offender (e.g., running away, underage drinking, curfew violation, truancy).

### STATUS OFFENSE

3. A juvenile shall not be taken into custody for a status offense, alone. The officer shall issue a **Juvenile Warning Notice** (see: **Code of the City of New Orleans, Section 102-1**) and release the juvenile as appropriate, including to the:
  - (a) Juvenile's school administrator if during school hours;
  - (b) Juvenile's parent or guardian; or
  - (c) The appropriate intervention center such as the Youth Opportunity Center during working hours.

### DELINQUENT ACTS

4. A juvenile who has not been previously arrested or received a Juvenile Warning Notice for a delinquent act in the prior 365 days shall be issued a Juvenile Warning Notice when an officer finds probable cause for any of the following misdemeanor-grade delinquent acts, or attempts thereof, and shall be released as appropriate, including to the juvenile's school administrator if during school hours, parent, guardian, or appropriate intervention center:
  - (a) Criminal mischief;
  - (b) Criminal trespass;
  - (c) Disturbing the peace;
  - (d) Misdemeanor illegal possession of stolen things;
  - (e) Misdemeanor obstruction of justice;
  - (f) Misdemeanor theft or theft of goods;
  - (g) Obstruction of public passages;
  - (h) Simple assault;
  - (i) Simple battery; or
  - (j) Simple possession of marijuana.
5. A juvenile who does not meet the guidelines above for a Juvenile Warning Notice for a simple assault or simple battery offense, or attempts thereof, [(4(h) and 4(i) cannot be issued a summons and released. He/she shall be custodially arrested, booked, and processed at the Juvenile Section under an affidavit for the offense as DNA sampling and testing may be required. (see: RS 15:603(10) and RS 15:609).

### JUVENILE WARNING NOTICE

6. When issuing a Juvenile Warning Notice, the investigating officer shall:
  - (a) Obtain an Item Number from Communications Services for an appropriate police

signal and supply a disposition of “**N.A.T., one juvenile warning notice**” when completed.

- (b) Document the stop and Juvenile Warning Notice in an FIC. (See: **Chapter 1.2.4.1 – Stops / Terry Stops**).
  - (c) Instruct the juvenile to immediately advise his/her parent or guardian of the Juvenile Warning Notice.
  - (d) Release the juvenile as appropriate, including to the juvenile’s school administrator if during school hours, parent, guardian, or appropriate intervention center.
7. When an officer finds probable cause for any of the enumerated offenses listed in this Chapter and the juvenile has previously been arrested or already received a Juvenile Warning Notice for any delinquent act in the prior 365 days, unless otherwise restricted by this Chapter, the officer may exercise his/her discretion to issue a Juvenile Warning Notice or Juvenile Summons in lieu of a custodial arrest, in all cases, the officer should rely on the least restrictive and most reasonable alternative consistent with preserving public safety, order, and individual liberty.
8. Prior Juvenile Warning Notices can be found in the Departmental FIC database.

### JUVENILE SUMMONS AND RELEASE

9. Juvenile Summonses shall be issued when the juvenile is:
- (a) Engaged in misdemeanor grade delinquent act not listed in this Chapter for **Juvenile Warning Notice**;
  - (b) Engaged in misdemeanor grade offenses that are listed herein for **Juvenile Warning Notice** when the juvenile has previously been arrested or already received a Juvenile Warning Notice for any delinquent act in the prior 365 days and the circumstances warrant that the officer exercise his discretion to issue a summons; or
  - (c) Has an outstanding warrant for misdemeanor grade delinquent act or for “Failure to Appear” unless a judge has ordered that the juvenile be detained.
10. When citing a juvenile solely for one of the violations enumerated herein for summons and release, an officer shall issue a Juvenile Summons and may not make a custodial arrest, except when one of the following circumstances exists:
- (a) The juvenile’s parent or guardian cannot be located after reasonable efforts have been made;
  - (b) The juvenile’s parent or guardian does not possess identification issued by municipal, state, territorial, federal, or other governmental authority;
  - (c) The juvenile’s parent or guardian makes a statement that indicates an intent to disregard the Juvenile Summons, or his/her parent or guardian refuses to sign the Juvenile Summons;
  - (d) The juvenile acts in a violent or destructive manner or makes a statement indicating that he/she intends to inflict injury to self or another or damage to property;
  - (e) The juvenile is a Juvenile Habitual Offender;
  - (f) The offense for which the officer stopped the juvenile is one involving simple battery or simple assault pursuant to R.S. 14:35 or R.S. 14:38.
  - (g) The offense for which the officer stopped the juvenile is one involving weapons;
  - (h) The offense for which the officer stopped the juvenile is one involving domestic violence pursuant to R.S. 14:35.3, and the officer deems that the child poses a threat to another household member or family member (see: **Chapter 42.4 – Domestic Violence**); or
  - (i) Based on the circumstances, the officer determines that it is **absolutely**

necessary to make a custodial arrest and the arrest decision is concurred by the officer's supervisor.

11. If one of the circumstances listed immediately above (other than 10(i)) does exist, the officer may still use discretion to issue a Juvenile Summons instead of making a custodial arrest.
12. Notwithstanding the provisions of the prior paragraphs regarding Juvenile Summons and release, above, an officer may use his/her discretion to take a juvenile into lawful, protective custody, instead of issuing a Juvenile Summons if:
  - (a) The juvenile has no identification and refuses to cooperate in locating a parent or guardian, but the officer will first make an independent reasonable effort to locate a parent or guardian before taking the juvenile into custody;
  - (b) The juvenile requires medical examination or medical care, or if he or she is unable to care for his/her own safety (including self-harm); however, the officer shall ensure the juvenile is examined by a medical professional and provided treatment before taking the juvenile into custody; or
  - (c) The juvenile is so intoxicated that he/she could be a danger to himself/herself or to others.
13. If the officer exercises discretion as outlined above in taking a juvenile into protective custody, rather than issuing a Juvenile Summons, the officer must document the reason(s) for the exercise of discretion in the FIC, affidavit or EPR. The officer shall notify Communications Services to contact the Department of Child and Family Services (DCFS) if such a custody occurs and immediately transport the juvenile to Juvenile Intake Unit unless medical attention is required. The Juvenile Intake Unit member will contact DCFS for follow-up as well.
14. Members who believe that a child's physical or mental health or welfare is endangered as a result of abuse or neglect or that abuse or neglect was a contributing factor in a child's death shall notify the Child Abuse Unit (La. Ch.C. arts. 609-610). (See also: **Chapter 42.19 – Child Abuse** for protective custody requirements).
15. For purposes of notification of a parent or guardian and obtaining the required signature for a Juvenile Summons, officers may:
  - (a) Wait on the scene for a reasonable amount of time, including the time necessary to have the juvenile call his/her parent or guardian, have the officer call the parent or guardian, have the officer transport the juvenile to the residence to contact the parent or guardian to obtain the required signature or request another police unit to go to the residence to contact the parent or guardian to obtain the required signature;
  - (b) Transport the juvenile to his/her parent or guardian if he/she is within a reasonable travel distance to obtain the signature; or
  - (c) Transport the juvenile to Juvenile Intake if the officer cannot obtain the necessary signature within the guidelines of (a) or (b) above.
16. Juvenile Intake will accept the juvenile and continue to attempt to contact the parent or guardian after the juvenile is turned over to Juvenile Intake.
17. In cases where a Juvenile Summons or Affidavit is issued as covered in this Chapter, an EPR by the original officer(s) **is required** and must contain the details of the attempts by the officer(s) to contact the parent or guardian if a signature was not obtained.
18. The required EPR, the signed summons, and all required paperwork and documents, along with all supervisory approvals and signatures, shall be completed and submitted

to the Juvenile Section prior to the issuing and reporting officer's ETOD. In addition, the officer shall notify a member of the on-duty Juvenile Section at 504-658-5265 whenever a juvenile summons is issued.

### SUMMONS REQUIREMENTS FOR JUVENILES

19. Any Juvenile Summons issued **shall** (see: C. Cr. P. 208; C. Cr. P. 211.1) meet the requirements of **Chapter 41.8 – Affidavits and Summons** and must be signed by the parent or guardian.
20. After determining that a Juvenile Summons may be issued in lieu of custodial arrest, officers shall ensure that the parent or guardian acknowledges that his/her signature is his/her written promise to appear with the juvenile on the date, time and place specified by Juvenile Court for appearance.
21. Cases involving felony and misdemeanor charges will not be separated into different cases. If a misdemeanor charge is part of a felony arrest, the misdemeanor will be charged as a state law violation. (Example: If a juvenile is arrested for armed robbery (a felony) and is in possession of a small amount of marijuana (misdemeanor), the officer shall book with RS14:64 and RS40:966.)
22. All summonses that are issued to a juvenile as a “stand alone” **misdemeanor charge** (no felony charges) shall also be documented in an electronic Field Interview Card (FIC). (Refer to **Chapter 1.2.4.1 – Stops / Terry Stops** for completion of documentation.)
23. Juvenile Summons (summons and release) cases shall be set by Juvenile Court. The eCitation system will indicate “To Be Set” on the form; the issuing officer does not need to determine or set a date.
24. The electronic version (eCitation) and any hard copy paper Summon shall be conveyed to the Juvenile Section, along with all related ERPs, by the issuing and reporting member prior to the member's ETOD. All required documents must be approved / signed by the member's supervisor prior to the member's ETOD.
25. The Juvenile Section is responsible for the processing of the Summons, Affidavits, and related paperwork (EPR) with the Orleans Parish District Attorney's Office – Juvenile Division for screening.

### JUVENILE ARREST CASES FOR MISDEMEANOR OFFENSES

26. Officers shall handle juvenile custodial arrests on misdemeanor charges pursuant to **Chapter 44.1.4 – Temporary Custody of Juveniles**.

The required EPR, the affidavit (eCitation or hard copy), and all related paperwork and documents, along with all required supervisory approvals and signatures shall be conveyed to the Juvenile Section when the juvenile is delivered for booking and processing.

### REPORTING

27. The issuing officer shall record the issuance of the Juvenile Warning Notice, Juvenile Summons, or Juvenile Affidavit in an FIC. (See also: **Chapter 41.12 – Field Interview Card**). The juvenile offender information, along with the offense for which it was issued, shall be recorded and retained in the Departmental FIC database in such a fashion as to be accessible to officers in the future.

28. When an officer issues a Juvenile Summons, the officer must document and report details of the incident in accordance with La. Ch. Code article 814(E) and (F). The officer must also secure a written promise from the juvenile's parent or guardian to bring the child to court, pursuant to La. Ch. Code article 814(B)(1). At a minimum, the summons must contain the following information:
- (a) The name, address, date of birth, sex, and race of the juvenile.
  - (b) The name and address of the parent or guardian, or spouse, if any, of the juvenile.
  - (c) A plain and concise statement of the facts and circumstances of the officer's taking the juvenile into custody or issuing the Juvenile Summons.
  - (d) A plain and concise statement of facts and circumstances showing probable cause that the juvenile committed a delinquent act.
  - (e) A statement indicating whether the juvenile was released or placed in a shelter care facility (YOC).
  - (f) An explanation of the reasons whenever an officer exercises discretion for issuing a Juvenile Summons in lieu of issuing a Juvenile Warning Notice or making a custodial arrest as allowed above.
29. When an officer effectuates a custodial arrest of a juvenile, the officer shall appropriately document all information, including specifying the circumstances justifying the custodial arrest in an EPR for all charges as appropriate pursuant to **Chapter 44.1.4 – Temporary Custody of Juveniles**.
30. In all cases involving domestic violence, including those where the juvenile is issued a summons in lieu of custodial arrest, an EPR shall be written. (See **Chapter 42.4 – Domestic Violence**.)
31. NOPD shall prepare and submit quarterly reports to the Criminal Justice Committee of the City Council. Such reports shall include the following data from the preceding quarter:
- (a) The number of juvenile custodial arrests and reasons for those arrests;
  - (b) The number of unique juveniles under custodial arrest;
  - (c) The number of Juvenile Warning Notices and reasons for those notices;
  - (d) The number of unique juveniles issued a Juvenile Warning Notice;
  - (e) The number of Juvenile Summonses and reasons for those Juvenile Summonses;
  - (f) The number of unique juveniles issued a Juvenile Summons;
  - (g) The number of juvenile custodial arrests made in instances where the juvenile was eligible to receive a Juvenile Warning Notice and the reasons for those custodial arrests;
  - (h) The number of Juvenile Summonses issued in instances where the juvenile was eligible to receive a Juvenile Warning Notice and the reasons for those Juvenile Summonses;
  - (i) The number of Juvenile Summonses issued where the juvenile was eligible for a custodial arrest;
  - (j) The number of juvenile custodial arrests made in instances where the juvenile was eligible to receive a Juvenile Summons and the reasons for those custodial arrests; and
  - (k) The number of juveniles under custodial arrest who previously received a Juvenile Warning Notice or Juvenile Summons.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 45.2

### TITLE: EMERGENCY UTILITY NOTIFICATION

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy430**

---

#### PURPOSE

The City of New Orleans has personnel available to handle emergency calls not related to law enforcement issues 24 hours a day, seven days a week. Non law enforcement calls for service during non-business hours for other City departments are frequently directed to the New Orleans Police Department. This Chapter provides guidelines for handling non law enforcement related calls for service normally involving other City agencies that do not provide emergency response after normal working hours.

#### POLICY

1. The New Orleans Police Department may respond to emergency utility calls on a Code 1 basis when no other law enforcement related calls are pending except as otherwise noted in this Chapter.

#### BROKEN WATER LINES

2. The City's responsibility ends at the water meter. Any break or malfunction in the water system from the water meter to a residence or business is the customer's responsibility. The Sewerage and Water Board can only turn off the valve at the meter. The citizen can normally accomplish this.
3. Upon observing a damaged water line, the officer shall advise Communications Services of the location. Communications Services shall make the necessary notification to the proper maintenance agency.
4. If a break occurs on the City side of the meter, emergency personnel should be called as soon as practicable by Communications Services. Emergencies can also be reported directly to the New Orleans Sewerage & Water Board via 24-7 helpline (504) 529-2837 or online at [http://www.swbno.org/form\\_reportaleak.asp](http://www.swbno.org/form_reportaleak.asp).

#### ELECTRICAL LINES

5. The City of New Orleans does not maintain electrical lines to street light poles. When a power line poses a hazard, an officer should be dispatched in order to protect against injury or property damage that might be caused by power lines. The electric company

or the Department of Public Works should be promptly notified, as appropriate.

6. Upon observing a downed power line, the officer shall advise Communications Services of the location. Communications Services shall make the necessary notification to the proper maintenance agency. Electrical service in New Orleans is provided by Entergy New Orleans, Inc. Citizens can report emergencies directly via 9-1-1 or by calling 1-800-ENTERGY (1-800-368-3749).

#### **NATURAL GAS LEAK**

7. Natural gas services in New Orleans are provided by Entergy New Orleans, Inc. Entergy Gas Service Representatives are available 24 hours a day, 7 days a week. In the event of a natural gas emergency, an officer shall advise Communications Services of the location. Communications Services shall make the necessary notification to the proper maintenance agency. Emergency contact gas control numbers are:
  - (a) 1-504-670-3544 (Local) or
  - (b) 1-800-648-7411 (toll free)

#### **TRAFFIC SIGNAL MAINTENANCE**

8. The City of New Orleans is responsible for maintenance for all traffic signals within the City, other than those maintained by the Louisiana Department of Transportation and Development.
9. Upon observing a damaged or malfunctioning signal, the officer will advise Communications Services of the location and problem with the signal. Communications Services shall make the necessary notification to the proper maintenance agency.

#### **EMERGENCY NUMBERS**

10. A current list of emergency personnel who are to be notified or call out for any municipal utility emergencies will be maintained by Communications Services.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 46.1

### TITLE: HOSTAGE, BARRICADE AND SNIPER INCIDENTS

**EFFECTIVE: 11/26/2017**

**REVISED: Replaces Policy/Procedure 414**

---

#### PURPOSE

The purpose of this Chapter is to provide guidelines for situations where a person refuses to submit to the lawful requests of the officers by barricading themselves in a structure or vehicle, creating a sniper situation and/or by taking a hostage.

#### POLICY STATEMENT

1. It is the policy of the New Orleans Police Department to address snipers, hostage and barricade situations with due regard for the preservation of life and balancing the risk of injury, while obtaining the safe release of hostages, apprehending offenders and securing available evidence.
2. The scope of this Chapter is not intended to address all variables that officers encounter during their initial response or when a sniper, hostage or barricade situation has developed nor does it require or purport to recommend specific strategies or tactics for resolution as each incident is a dynamic and rapidly evolving event.

#### DEFINITIONS:

Definitions relevant to this Chapter include:

**Hostage Situation**—An incident where it is reasonable to believe a person is unlawfully held by a hostage-taker as security so that specified terms or conditions will be met.

**Barricade Situation**—An incident where a person maintains a position of cover or concealment and ignores or resists law enforcement personnel, and it is reasonable to believe the subject is armed with a dangerous or deadly weapon.

**Sniper Situation**—An incident where an individual is armed and has announced intentions or apparently intends to harm life or property, and such report has been confirmed. An incident where shots have been or are being fired placing lives and or property in danger, and responding officers through their assessment have reason to believe that the perpetrator is still on the scene.

#### COMMUNICATION WITH SUBJECTS ON SCENE

3. Responding officers shall not bargain with, negotiate with or entertain any requests made by persons holding hostages nor allow them to leave the area except as authorized by the Special Operations Division (SOD) Tactical Commander. Officers should only attempt to identify any additional subjects, inquire about victims and injuries and gather intelligence information.
4. When available, Crisis Negotiation Team (CNT) members shall respond to the scene as soon as practicable and take over communication responsibilities, at the direction of the SOD and Incident Commander. CNT members are permitted to exercise flexibility in each situation based upon their training, the circumstances presented, suspect actions or demands and the available resources. (See: **Chapter 46.7 – Crisis Response Unit**).

### **FIRST RESPONDING OFFICER'S RESPONSIBILITIES**

5. First responding officers should promptly and carefully evaluate all available information to determine whether an incident involves, or may later develop into, a hostage or barricade situation.
6. In those incidents where the suspect is obviously on the scene in a fixed or static location, the first unit(s) on the scene shall contain the situation by forming a perimeter around the scene. Officers should not be in direct line of fire but should be situated in such a way that no suspect(s) can escape.
7. During sniper situations, officers should determine areas vulnerable to the suspect shooter's field of fire. Officers should attempt to determine the number, type, and range of the suspect's weapons. If possible, officers should determine the probable location of the suspect and safe access routes for responding support units.
8. The first responding officer should immediately request a supervisor respond to the scene as soon as he/she has determined that a hostage or barricade situation exists.
9. The first responding officer shall assume the duties of the Incident Commander until relieved by a supervisor or a more qualified responder. The officer shall continually evaluate the situation, including the level of risk to other officers, to the persons involved, to bystanders, and the resources currently available.
10. The Incident Commander should brief the arriving supervisor of the incident, including information about suspects and victims, the extent of any injuries, additional resources or equipment that may be needed and current perimeters and evacuation areas.
11. All transfers of command shall be broadcast to Communications Services on air and specifically identify the ranking members involved and the specific time of transfer.

### **BARRICADE SITUATION**

12. Unless circumstances require otherwise, officers handling a barricade situation should attempt to avoid a forceful confrontation in favor of controlling the incident in anticipation of the arrival of specialized personnel and trained negotiators. Based upon the level of risk, while waiting for the Crisis Response Unit, District personnel should, if safe, practicable and if sufficient resources exist:
  - (a) Establish an inner and outer perimeter.
  - (b) Establish a command post outside of the inner perimeter but inside the outer perimeter.
  - (c) Establish a patrol emergency/arrest response team prior to SWAT arrival. The

team actions may include:

- Securing any subject or suspect who may surrender.
- Taking action to mitigate a lethal threat or behavior.
- Evacuate any injured persons or citizens in the zone of danger if it can be done without placing them at risk.
- Attempt to establish preliminary communications with the suspect.

**(NOTE: Once the CRU has arrived, all negotiations should generally be halted to allow the negotiators and SWAT team time to set up.)**

- (d) Be prepared to brief the SOD Commander on the situation.
- (e) Plan for and stage anticipated resources.

13. If necessary and available, establish a tactical or exclusive radio frequency for the incident through Communications Services. Have Communications Services broadcast the location of the incident on all channels to let other officers know to avoid the area.

### HOSTAGE SITUATION

14. Unless circumstances require otherwise, officers handling a hostage situation should attempt to avoid a forceful confrontation in favor of controlling the incident in anticipation of the arrival of specialized personnel and trained hostage negotiators. However, it is understood that hostage situations are dynamic and can require that officers react quickly to developing or changing threats. Based upon the level of risk, the following options, while not all-inclusive or in any particular order, should be considered:
- (a) Ensure injured persons are evacuated from the immediate threat area if it is reasonably safe to do so. Request medical assistance.
  - (b) Assign personnel to a contact team to control the suspect should he/she attempt to exit the building, structure or vehicle, and attack, use deadly force, attempt to escape or surrender prior to additional resources arriving.
  - (c) Establish a patrol emergency/arrest response team in the event it becomes necessary to enter a building, structure or vehicle, such as when the suspect is using deadly force against any hostages. (See: **Chapter 46.14 – Active Shooter.**)
  - (d) Assist hostages or potential hostages to escape if it is reasonably safe to do so.
  - (e) Request additional personnel, resources and equipment as needed (canine team, aircraft support).
  - (f) Provide responding emergency personnel with a safe arrival route to the location.
  - (g) Evacuate non-injured persons in the immediate threat area if it is reasonably safe to do so.
  - (h) Coordinate pursuit or surveillance vehicles and control of travel routes.
  - (i) Gather as much information about the suspect as possible, including any weapons, victims and their injuries, additional hazards, other involved parties and any other relevant intelligence information.
  - (j) Establish an inner and outer perimeter as resources and circumstances permit to prevent unauthorized access.
  - (k) Evacuate bystanders. Check for injuries, the presence of other involved subjects, witnesses, evidence or additional information.
  - (l) Determine the need for and notify the appropriate persons within and outside the Department, such as command officers and the Public Information Officer.
  - (m) If necessary and available, establish a tactical or exclusive radio frequency for the incident through Communications Services.
15. In those instances where the hostage situation is mobile in nature (by way of foot, automobile, train, airplane, boat, etc.) or a shooting situation is of a mobile or continually moving nature, the first unit in contact shall maintain surveillance and make notifications

to Communications Services and a District supervisor.

16. Supervisory personnel shall maintain control of the incident (traffic routes, responding units and accessibility) as they would for a foot or vehicle pursuit. (See: **Chapter 41.4 – Foot Pursuits and Chapter 41.5 – Vehicle Pursuits**).

### **SUPERVISOR RESPONSIBILITIES**

17. Upon being notified that a hostage or barricade situation exists, the District supervisor should immediately respond to the scene, assess the risk level of the situation, establish a proper chain of command and assume the role of Incident Commander once briefed and until properly relieved. This includes requesting a Special Weapons and Tactics (SWAT) response if appropriate and apprising the SWAT Commander of the circumstances. In addition, the following options, listed here in no particular order, should be considered:
  - (a) Ensure injured persons are evacuated and treated by medical personnel.
  - (b) Ensure the completion of necessary first responder responsibilities or assignments.
  - (c) Request crisis negotiators, specialized units, additional personnel, resources or equipment as appropriate.
  - (d) Establish a command post location as resources and circumstances permit.
  - (e) Designate assistants who can help with intelligence information and documentation of the incident.
  - (f) If it is practicable to do so, arrange for video documentation of the operation.
  - (g) Consider contacting utility and communication providers when restricting such services (e.g., restricting electric power, gas, and telephone service).
  - (h) Ensure adequate law enforcement coverage for the remainder of the District / City during the incident. The supervisor should direct non-essential personnel away from the scene unless they have been summoned by the supervisor or Communications Services.
  - (i) Identify a media staging area outside the outer perimeter and have the department Public Information Officer or a designated temporary media representative provide media access in accordance with department policy.
  - (j) Identify the need for mutual aid and the transition or relief of personnel for incidents of extended duration.
  - (k) Debrief personnel and review documentation as appropriate.

### **SWAT RESPONSIBILITIES**

18. The highest ranking officer on the scene should assume the role of Incident Commander once briefed by the on scene IC and will utilize available on duty officers to maintain effective inner and outer perimeters until the arrival of the Special Operations Division Commander or his/her designee who shall assume tactical responsibility.
19. The Incident Commander will be responsible for setting up a Command Post, an outer perimeter utilizing on-duty District personnel unless or until sufficient Special Operations Division personnel or officers from other specialized assignments (i.e., SOD Traffic) are available for outer perimeter control.
20. The SOD Commander will be responsible for field related tactical measures from which to assure containment, control and handling of the incident.
21. The Incident Commander will provide for the evacuation of all other persons that might be in danger from actions of the police and/or perpetrator. These activities should be carried out without confronting the perpetrator or endangering police personnel. The

Incident Commander shall be responsible for control of all police personnel and the monitoring of police officer safety.

### **MEDIA COORDINATION**

22. All media activities will be coordinated under the guidance of the department's Public Information Officer. The Public Information Officer is directed to contact the Incident Command Post on arrival at the scene of the incident. Media releases will be made in accordance with department policy and only with the acknowledgment and permission of the Commander of the Special Operations Division.

### **REPORTING**

23. The first responding officer from the district of occurrence shall be responsible for the completion of the initial incident report (EPR).
24. District officers, assigned by the Incident Commander, shall be responsible for obtaining warrants and/or Order of Protective Custody (OPC) papers that are necessary.
25. Once they have assumed command of the scene the Special Operations Division shall complete a Supplemental Report, to the initial report written by the first responding officer from the district of occurrence.
26. The Special Operations Division shall complete reports of its deployments required by **Chapter 46.7 – Crisis Response Unit - SWAT**. A copy of SOD's reports shall be forwarded to the unit or division conducting the original investigation.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 46.02.1

### TITLE: FIRST AMENDMENT ASSEMBLIES, MASS DEMONSTRATIONS, AND CIVIL DISTURBANCES

EFFECTIVE: 10/18/2020

REVISED: 8/13/2023

---

#### PURPOSE

The guidelines in this policy (**with chapter 1.3 - Use of Force and Chapter 1.3.6 - Reporting Use of Force**) are to ensure that this department is prepared to respond effectively and efficiently in accordance with applicable law to any unlawful conduct occurring in the context of First Amendment assemblies, demonstrations, rallies, marches, picket lines, or other similar gatherings conducted by persons expressing their political, social, or religious views.

#### POLICY STATEMENT

1. This Chapter established general policy and shall serve as the framework for all standard operating procedures for members in dealing with all demonstrations, rallies, marches, picket lines, or other similar gatherings conducted for the purpose of persons expressing their political, social, or religious views. This Chapter may exceed constitutional requirements and attempts to satisfy heightened requirements of statutory law and best practices.
2. The Chapter recognizes the concept of operational flexibility within the requirements of the National Incident Management System (NIMS). It is impossible to devise specific standard procedures for handling all possible situations, for each has its own characteristics and problems. The overarching philosophy is one of moderation, flexibility, and controlled response. Since each situation is unique, commanders and supervisors must plan to respond according to the nature and size of the crowd. The tactical procedures established within this Chapter are a guide, and not a substitute for

the exercise of sound judgment and proper command, control, and supervision within the context of general departmental policy.

3. It is imperative that members of the New Orleans Police Department understand their role during mass demonstrations and major disturbances in our city and how the department prepares itself to fulfill this role.
4. The New Orleans Police Department recognizes that persons and groups have a right to organize and participate in peaceful First Amendment assemblies on the streets, sidewalks, other public ways, and in the parks of the City of New Orleans. To engage in First Amendment assembly near the object of their protest so they may be seen and heard, subject to reasonable restrictions designed to protect public safety, persons, property, and to accommodate the interest of persons not participating in the assemblies to use the streets, sidewalks, and other public ways to travel to their intended destinations, and use the parks for recreational purposes.
5. It is the statutory responsibility of the New Orleans Police Department to preserve the public peace, to prevent crime, arrest offenders, and to protect the rights of persons and of property. As part of this responsibility, the department provides trained personnel to respond to the scene of First Amendment assemblies in our city to preserve peace while protecting the constitutional and statutory rights of people to assemble peacefully and exercise free speech. In fulfilling these responsibilities, the department will make reasonable efforts to employ methods of crowd management that do not involve custodial arrests as the primary means of maintaining order. Should such methods prove unsuccessful, custodial arrests shall be made of individuals for specific violations of the law. To the extent possible under the circumstances, arrests shall be made in an organized manner by units at the direction of the Superintendent of Police or his/her designee.

## **DEFINITIONS**

Definitions related to this Chapter include:

### **Civil Disturbance—**

A generic term for all forms of civil disobedience, demonstration, protest, march, or riot.

**Civil Disobedience** - the refusal to obey civil laws to affect change in government.

**Civil Disorder** - Group acts of violence and disorder prejudicial to public law and order.

**Civil Protest/Demonstration—**A person or persons who overtly take a public action to physically demonstrate their/his/her views concerning the support, contradiction or other statement or issue involving politics, government, law enforcement, etc.

**Crowd Management** - the monitoring and peaceful response to a civil disturbance to ensure public safety and the de-escalation of any agitators BEFORE an event becomes non-peaceful, as a means of ensuring the protection of First Amendment rights with minimal interference, while ensuring public safety for everyone.

**Crowd Control** the tactical response to civil disorder by law enforcement.

**Event** – a happening that was planned or anticipated in advance.

**Incident** – a happening that was not anticipated or expected.

**Incident Action Plan (IAP)** – An oral or written plan containing a general objective reflecting the overall strategy for managing an incident (time permitting, the IAP should be a written document). It shall include the identification of operational resources and assignments, as well as plans and contingencies for the demobilization of resources at the conclusion of the operation. It may also include attachments that provide direction and important information for management of the incident during one or more operational periods. (see: ICS Form 202).

**Incident Commander (IC)** – The individual responsible for all incident activities, including the development of strategies and tactics and the ordering and release of resources. The IC has overall authority and responsibility for conducting incident operations and is responsible for the management of all operations at the incident site. Responsibilities of the IC begins with the officer handling the original call to the chief of the department and any additional qualified officers, depending on the size, scope and complexity of the incident or event.

**Kettling** - confinement by police of a group of demonstrators or protesters in a small area, as a method of crowd control.

**Mobil Field Force (MFF)** – a selected group of commissioned members, both officers and supervisors, who provide a pool of trained and equipped officers to respond to civil protests / demonstrations and civil disturbances under an incident command structure or Operations Plan.

**Operations security (OPSEC)** - a process that identifies **critical information** to determine if planned actions or assessments by law enforcement can be observed or inferred by civil disturbance leaders, to determine if information obtained by protestors/demonstrators could be interpreted to be useful to them or propagandized, and then execute selected measures that eliminate or reduce the exploitation of friendly critical information.

**Protest** – an organized public demonstration of disapproval, complaint, objection or display of unwillingness, usually to an idea or course of action.

**March** - an event in which many people walk through a public place to express their support for something, or their disagreement with or disapproval of something.

**Riot** - A riot is defined by state law as a public disturbance involving an assemblage of three or more persons acting together or in concert which by tumultuous and violent conduct, or the imminent threat or tumultuous and violent conduct, results in injury or damage to persons or property or creates a clear and present danger or injure or damage to persons or property (LA R.S. 14:329.1).

**Riot control agents / chemical agents** - (sometimes referred to as “tear gas”) are **chemical compounds** that temporarily make people unable to function by causing irritation to the eyes, mouth, throat, lungs, and skin.

**Rules of Engagement (ROE)** - are the internal rules or directives within an Operations Order or Incident Action Plan that define the circumstances, conditions, degree, and manner in which actions, which might be construed as provocative, may be applied. They provide authorization for and/or limits on, among other things, the use of force and the employment of certain specific

capabilities. ROE are lawful commands. Rules of Engagement do not normally dictate how a result is to be achieved, but will indicate what measures may be unacceptable.

**Uniformed Extraction Team (UET)** – A group of police officers that are assembled to enter the crowd when directed and remove any protesters that are determined to be unruly, rescue injured people or isolated officers. .

**Specialized Weapons** - weapons which require specialized training, certification, and authorization prior to use, such as chemical agents, 40mm launchers, stinger rounds and grenades, flashbangs, LRAD systems, etc. (see: **Chapter 46.2.3 – CRU SWAT Equipment and Storage.**)

**Specialty Impact Munitions** - Refers to extended range impact munitions. These munitions may include impact rounds containing chemical agents.

**Terrorism**—The unlawful use of force or violence against persons or property to intimidate or coerce a government, the civilian population, or any segment thereof in furtherance of political or social objectives.

**Unlawful Assembly-** A “compelling or clear evidence” of an intent to use or incite violence. However, acts of violence by a small number of participants do not render a whole assembly violent or an unlawful assembly. If there is violence and property damage and danger around the circumstances, that might impact whether the announcement to disperse will be given.

## **ORGANIZATIONAL AUTHORITY**

6. The Superintendent of Police, or specific individual designated by him/her in the chain of command, or by virtue of deployment of personnel pursuant to an Operations Plan / Incident Action Plan will be the Incident Commander at scenes of First Amendment assemblies.
7. Incident Command responsibility, once established, does not pass from one officer or official to another simply by virtue of the appearance or arrival at the scene of a First Amendment assembly of an official senior in rank to the officer or official operating as the Incident Commander. Incident Command responsibility passes in such instances **only upon acceptance and overt acknowledgement of that responsibility** by the senior official. Any change in Incident Commander shall be disseminated to all members participating in the incident.
8. Each civil disturbance situation is unique, and commanders and supervisors must, therefore, plan and respond according to the nature and size of the disturbance. The policies and procedures presented in this chapter are based upon the concept of operational flexibility, and it is expected that officials will exercise sound judgment and proper command, control, and supervisory responsibility in the control of a civil disturbance.
9. NOPD recognizes the following general principals and guidelines regarding First Amendment Assemblies, Crowd Control, or Civil Unrest:

- a. First, all members of a crowd of demonstrators are not the same and even when some members of a crowd engage in violence or destruction of property, other members of the crowd are not participating in those acts.
- b. Second, once members of a crowd become violent, the situation often turns chaotic, and individuals in the crowd who do not want to participate in the violent or destructive acts may be blocked from leaving the scene because the crowd is so large or because they are afraid they will move into a position of heightened danger.
- c. Third, this does not mean Law Enforcement Officers cannot take enforcement action against elements or individual members of the crowd as permitted by legal standards, training, and policy, but NOPD should seek to minimize the risk that force and arrests may affect or be directed at innocent persons.

### **ETHICAL POLICING IS COURAGEOUS (EPIC)**

10. The officers are required to exercise the skills they learned from EPIC which is the NOPD peer to peer intervention program. Officers are not only expected to practice peer to peer intervention, they are required to, especially in protest situations.
11. An EPIC briefing shall be conducted prior to each planned response to a protest where the officers and supervisors are reminded to monitor each other, "tap out" when they feel they are losing control and submit to an intervention. Supervisors are instructed to pay close attention to the officers on the front line to ensure they are not getting agitated and if so, to intervene immediately to avoid a confrontation.

### **PLANNED/PERMITTED FIRST AMENDMENT ASSEMBLIES**

12. Planned events are those that the department are aware of in advance, either through the submission of a permit request or other means that allow for the advance planning of resources and response.
13. When large-scale planned/permited First Amendment assemblies are anticipated, the Superintendent of Police, or specific individual designated by him/her in the chain of command shall serve as the Incident Commander(s) at various sites to manage events.
14. During First Amendment protected demonstrations, Incident Command responsibility, once established, does not pass from one officer to another simply by virtue of the arrival of a member of higher rank. **Incident Command responsibility passes in such instances only upon acceptance and overt acknowledgement of that responsibility by the senior official.** Any change in Incident Commander shall be disseminated to all members participating in the incident.
15. The Deputy Chief of the Field Operations Bureau (FOB), under the direction of the Superintendent of Police, is responsible for preparing the Event / Operation Plans or Incident Action Plan and any required tactical response plans for events that are scheduled to occur within the City of New Orleans. In this capacity they shall:
  - a. Coordinate all aspects of the plan with the affected elements, units, and personnel;
  - b. Coordinate activities with other law enforcement and federal agencies, as

- necessary; and
  - c. Designate liaison officers to deal with demonstration leaders before, during, and after the demonstration.
  - d. Ensure consideration is given to venue security, sanitation, crisis management, transportation, traffic, legal issues, and media relations.
16. The Investigation and Support Bureau (ISB) – Investigation Support Division (ISD) - Intelligence Unit will conduct an analysis of all known / planned protest events in advance and will provide a written "Threat Assessment." This threat assessment is an internal document and shall be deemed **CONFIDENTIAL or OPSEC**. It shall include the following information:
- a. The expected size of the crowd,
  - b. The goal/objectives of the gathering (i.e., occupying locations, blocking traffic, removal of statues/monuments, calls for action),
  - c. The potential for counter protesters,
  - d. The potential for crowd mobility,
  - e. The potential for escalation to a civil disorder (i.e. does the group have a history of violence, do counter-protesters have a history of violence).

## **THREAT LEVELS**

17. The following threat levels provide a relative guide to facilitate clear communication between members when evaluating and assessing the hazards associated with and possible resource needs of incidents relating to crowds, events, and gatherings.
- (a) **LOW LEVEL:**
    - i. The threat is vague and indirect;
    - ii. Information within the threat is inconsistent, implausible or lacks detail;
    - iii. Threat lacks realism; and
    - iv. Content suggests group / person is unlikely to carry it out.
  - (b) **MEDIUM LEVEL:**
    - i. Threat is more direct and more concrete than a LOW - LEVEL threat;
    - ii. Wording suggests threatening group / person has given some thought to how the act will be carried out;
    - iii. General indication of a possible place and time (but not a detailed plan); and
    - iv. Strong indication the threatening group / person has taken preparatory steps, although there may be some veiled reference or ambiguous or inconclusive evidence pointing to that possibility.
  - (c) **HIGH LEVEL:**
    - i. The threat is direct, specific, and plausible;
    - ii. Threat suggests concrete steps have been taken toward carrying it out.

## **THREAT TYPES**

18. The following threat types provide a relative guide to facilitate clear communication between members when classifying the hazards associated with and possible resource

needs of incidents relating to crowds, events, and gatherings:

- (a) **DIRECT THREAT** – Identifies a specific act against a specific target and is delivered in a straightforward, clean, and explicit manner.
  - (b) **INDIRECT THREAT** – Has a tendency to be vague, unclear, or ambiguous.
  - (c) **VEILED THREAT** – Strongly implies but does not explicitly threaten violence.
  - (d) **CONDITIONAL THREAT** – Warns that a violent act will happen unless certain demands or terms are met.
19. The Threat Assessment will be distributed to the following individuals only and not circulated outside of the distribution group (see: **OPSEC**):
- a. Superintendent of Police,
  - b. Deputy Chief of the Investigations and Support Bureau (ISB),
  - c. Deputy Chief of the Field Operations Bureau,
  - d. Captain of the ISB – Investigation Support Division
  - e. Affected District Captain(s), and
  - f. The Special Operations Division Captain.

### **UNPLANNED EVENTS (INCIDENTS)**

20. Unplanned events/incidents are ones of which the Department has no prior knowledge. Such events/incidents may consist of spontaneous gatherings and/or large- scale demonstrations. Unplanned events/incidents are often peaceful and pose little problem for law enforcement; however, peaceful gatherings can turn violent, so contingency plans must be in place to provide guidance and direction for members to respond as necessary to safeguard life and property.
21. Unplanned civil disturbances may arise from several causes such as, political grievances, economic conflicts, community unrest, or in response to police action taking place in neighborhoods, or in the midst of a crowded street, park, or public place. Civil disturbance participants may come from all walks of life and cover the entire political spectrum.
22. Whenever an unplanned First Amendment assembly arises, the first officer on the scene will serve as the initial Incident Commander. That member will be responsible for assessing the scene, notifying Communication Services and the District platoon commander of the situation, and requesting assistance from the Special Operations Division if necessary.

### **Response to Un-permitted (Unplanned) First Amendment Assemblies**

23. The first officer(s) to arrive on the scene of a First Amendment Assembly is/are responsible for the following actions:
- a. Observe the situation to determine if the gathering is peaceful or has the potential/likelihood to turn violent. District patrol officers may encounter gatherings of people, including but not limited to:
    - i. Civil protest / demonstrations,
    - ii. Civil disturbances, and
    - iii. Un-permitted parades (those not granted permit in advance by the City thru

Special Events Section of FOB).

- b. Notify Communication Services (OPCD) of the nature and size of the assembly and request the assistance of a supervisor.
  - c. If peaceful, attempt to identify and make contact with the group organizers or leaders to determine the duration of the event, the number of persons expected to attend and if civil unrest is anticipated or planned.
  - d. If criminal activity has already occurred, attempt to identify those individuals who were involved. Absent exigent circumstances involving life safety, District patrol officers shall request the presence of a supervisor on scene, brief the supervisor of conversations and actions already taken and obtain supervisory approval before taking enforcement action.
24. In larger gatherings the SOD Captain or on-duty SOD supervisor shall be requested to respond to the scene. If an SOD supervisor is unavailable, the District Platoon Commander shall respond to the scene and assume command of the event/incident as the Incident Commander (IC) until relieved. All Incident Commander Responsibilities outlined below apply regardless of rank and should be implemented as soon as possible.

#### **INCIDENT COMMANDER RESPONSIBILITIES**

25. The primary responsibility of the IC is the rapid assembly of sufficient staffing and resources to provide a safe environment for the gathering and ensure disruptions to the area are minimized. The IC should immediately:
- a. Assess the situation for disruption and its potential for escalation. If the assembly is peaceful and adequate resources are available, efforts should be made to allow for the protest action to continue, by redirecting vehicular and pedestrian traffic around the incident.
  - b. Ensure that the following information about the incident is continuously provided to the OPCD:
    - i. Location of the event/incident,
    - ii. Number of participants,
    - iii. Activities of the participants (i.e., blocking traffic, destruction of property),
    - iv. Direction of movement of participants (if mobile),
    - v. The presence of any weapons, and
    - vi. Ingress/Egress routes for emergency vehicles.
26. If a peaceful assembly escalates to a civil disturbance beyond the capacity of on-site personnel to effectively control the situation, the Incident Commander shall:
- a. Evaluate whether additional staffing is required to control the situation,
  - b. Notify Communication Services (OPCD) of the change in the situation,
  - c. Determine, and recommend if a partial or full activation of Mobile Field Force personnel will be necessary,
  - d. Determine and recommend if a recall of off-duty personnel or a hold-over of shift personnel may be necessary.
  - e. Determine and recommend the level of personal protection equipment (PPE) to be utilized and the tactics employed in response.

## COMMUNICATION WITH ORGANIZERS

27. The Planning Section Chief (PSC) or their designee, will reach out to the event organizer(s), if known, and discuss the objective and goals of the peaceful protest. The PSC is responsible for identifying what resources may be required (vehicles, number of officers, barricades, etc.). The PSC will obtain all available contact information on the event organizers (phone number and/or email address). This contact information shall be shared with the Operations Section Chief and Incident Commander.
28. The Operations Section Chief and/or the Incident Commander shall reach out to the event organizer or their representative. They shall discuss the objective and goals of the protest, determine if it will be stationary, or if a march will be included. If a march is a part of the protest, they shall attempt to ascertain what the destination is and what routes are planned or likely.

## VIOLENT CIVIL DISTURBANCES

**NOTE: Once the peaceful civil protest or demonstration becomes civil disorder and a portion of the crowd agitates or incites violence, the below protocol goes into effect.**

29. The Incident Commander, at the direction of the Superintendent of Police, will determine when chemical agents and any Specialized Weapons will be deployed. The deployment of chemical agents and any Specialized Weapons will only be authorized by the Superintendent when there is an immediate threat of death or serious bodily injury. The decision to deploy chemical agents and any Specialized Weapons will be made in accordance with **Appendix D**, the Pre- Crowd Dispersal Checklist. Each element of the Checklist shall be specifically addressed and noted as part of the After-Action report along with the date and time when specific Available Munitions listed in **Appendix E** are authorized.
30. The Incident Commander, in coordination with the Operations Section Chief, and Tactical Branch Director, has the responsibility to determine the Rules of Engagement and how the rules of engagement will be implemented when a peaceful protest transitions to civil disorder and a portion of the crowd violates the law or disregards lawful orders.
31. In a violent Civil Disturbance, the primary objectives of the Incident Commander will be to:
  - a. Protect persons (life safety), including non-participants and participants alike.
  - b. Disperse disorderly or threatening crowds to eliminate the immediate risks of escalation and further violence.
  - c. Deploy personnel to isolate and contain the individuals within a crowd who are acting unlawfully and effect the arrest, based on probable cause of those individuals.  
Protect property at risk unless doing so places persons at unreasonable risk.
32. The Incident Commander will establish a Field Command Post (Incident Command Post) at a safe location near the event or disturbance, from which he/she will control and coordinate police tactical operations. A Staging Area, under the Staging Area Manager,

will also be established as the assembly point for all responding emergency personnel and equipment prior to deployment. Deployment of the personnel and equipment from the Staging Area will be at the express direction of the Incident Commander or the Operations Section Chief. The Staging Area Manager need not be a member of NOPD.

33. The Incident Commander or his/her designee shall coordinate with New Orleans Emergency Medical Services (EMS) to ensure medical personnel are available to respond in the event of injuries to participants, non-participants, or emergency personnel. EMS personnel and equipment shall report to the Staging Area. EMS deployment shall be directed by the IC or the Operations Section Chief (or designee).
34. The Operations Section Chief will direct all field response to the incident or event and coordinate with the Tactical Branch Director (SOD Captain) to ensure the Rules of Engagement, including the type and use of chemical agents and other specialized weapons, will be decided based on direct, first-hand field observations.
35. The Tactical Branch Director (SOD Captain) will be the responsible party for determining how best to implement the Rules of Engagement regarding the deployment of chemical agents and other specialized weapons, in coordination with intelligence obtained from the Operation Section Chief. The actual deployment, based on those recommendations, can only be authorized by the IC at the direction of the Superintendent of Police.

#### **ISSUANCE OF WARNINGS (SEE APPENDIX C)**

36. When the intensity level of a crowd escalates and unlawful disruption (violations of law), either through violent or passive means, is occurring to the extent that the Incident Commander determines there is a need to take police action, the IC will instruct the affected Mobile Field Force Supervisors to issue Official Warnings (**Appendix C**) to the crowd to disperse.
37. The warnings found in "**Appendix C**" SHALL be made using the LRAD (Long Range Acoustic Device) system or a similar sound amplification device, if the situation allows, at least 3 times, with a minimum of a 30 second interval between warnings, if possible. This provides participants ample time to hear and respond to the warnings and instructions prior to the deployment of any chemical agents or specialized weapons.
38. If the individuals are cooperating with instructions / warnings, allow them to continue to comply with the instructions and delay deployment. The warnings and subsequent response shall be recorded on BWC by the supervisors issuing the warnings.

NOTE: The deployment of any CHEMICAL AGENTS OR SPECIALIZED WEAPONS FOR CROWD CONTROL AND DISPERSAL SHOULD ONLY BE USED AS A **LAST RESORT** WHERE THE IMMINENT THREAT OF DEATH OR SERIOUS BODILY INJURY EXISTS.

39. Once the warnings have been issued and cooperation is not forthcoming, the first tactic will be to custodially arrest those individuals who break the police cordon by using the Uniformed Extraction Team (UET) to make the arrest. This will allow for the least intrusive method to take protestors into custody who cross the police cordon.

40. Cordon line officers are not to take direct enforcement/arrest actions without the express approval of a supervisor except for life safety emergency situations. If possible, the supervisor will advise the Operation Section Chief and/or Incident Commander in advance and receive permission to do so. The supervisor should forward the relevant information needed to the Incident Command Post so the IC can make an informed decision.

#### **Authorization of Personal Protective Equipment**

41. The Incident Commander may authorize the wearing of hard personal protection equipment (such as helmets, gloves, chest protectors, shin guards. etc.) and tactical dress uniform (TDU) only when there is a foreseeable, imminent risk of violence.
42. Following any deployment of officers in personal protective equipment and TDU, the Incident Commander shall make a written report of the assessed need and objective reasons for deployment to the Superintendent of Police within 3 days of the conclusion of the incident, unless directed sooner by the Superintendent.

#### **Mobilization of Personnel**

43. Upon being informed of a civil disturbance and the need for the mobilization of the Mobile Field Force (MFF), the Superintendent of Police or the Incident Commander if designated by the Superintendent, shall review and evaluate all information pertaining to the civil disorder and make a determination as to which level of mobilization shall be implemented.
44. Upon being notified that the Department has authorized the Mobile Field Force deployment, each Deputy Chief and Bureau/District Captain shall ensure that all supervisors under his/her command are notified and carry out their duties and responsibilities as required.
45. The New Orleans Police Department is the primary law enforcement authority during an unlawful assembly, civil disorder or riot situation in the City of New Orleans. Assistance may be requested from partner agencies or jurisdictions and from law enforcement mutual aid and military assistance agreements as necessary.

#### **Providing Security for Fire/EMS and Other Responders**

46. The Incident Commander shall ensure that all necessary police protective security will be provided to New Orleans Fire (NOFD) and Emergency Medical Services (EMS) Department personnel, as well as to other clearly identified medical and public utility responders, to ensure their safety within the disorder area while performing emergency tasks.

#### **ORGANIZATION OF MOBILE FIELD FORCE**

47. The organizational structure of the Mobile Field Force (MFF) is designed to facilitate command, control, and communication. Additionally, the structure allows for clear lines

of authority and accountability and will follow the National Incident Management System (NIMS).

48. The following outlines the elements of the selection, training and equipping of the MFF:
  - a. Prospective members are selected by each District/Division Captain keeping in mind that supervision ratios must be maintained. Maturity and restraint are key qualities in selection and Captains shall review a member's personnel jacket and PIB history before selection. Any sustained complaints of excessive force or open investigations of excessive force complaints are cause for the members immediate removal from the MFF.
  - b. Selected members shall attend special training at the E&TD on tactics of crowd management and control, proper wearing, use and maintenance of issued PPE, and working with Mounted Units. The E&TD shall maintain records of all members trained and provide the names and dates to SOD upon completion of initial and annual re-certification training.
  - c. Upon successful completion of training, the members shall be issued related PPE to include:
    - i. Helmets
    - ii. Face shields
    - iii. Elbow, knee, and chest protectors
    - iv. Batons
    - v. "Riot" shields
    - vi. Gas mask / respirator.
49. Each District/Division will ensure the required number of trained MFF officers and supervisors are assigned to an event in accordance with the Incident Action Plan or as requested / directed by the Incident Commander for quickly evolving incidents.
50. Notification procedures for "activation" or call-out of the MFF shall be made from a Master List of MFF members found on the NOPD web applications. The list shall be maintained by SOD and include the member's name, rank, email address and contact phone number. The list shall be kept in alphabetical order.
51. Once the IC has determined that the MFF may be needed, a determination as to activation of **on-duty members only** or **all members** shall be made.
52. For on-duty activation, the IC will contact Communications Section – Supervisor Desk for a general broadcast that on-duty MFF members have been activated and provide the Staging Area location for assembly and the communications channel used for the incident. Each District shall ensure that the on-duty members are notified to report immediately to the designated Staging Area (reference the active MMF list posted on the NOPD web applications page).
53. For an all members activation, the IC will contact Communications Section – Supervisor Desk for automated notification (**Rave Notify**) of all MFF members and provide the Staging Area location and the communications channel used for the incident.

54. MFF trained officers should always have issued PPE and TDU available and ready for use in their vehicles. MFF members will only deploy in the TDU when activated. All issued PPE shall be inspected at least quarterly by qualified members of SOD. This inspection shall be noted, and records retained by SOD. Any deficiencies shall be noted in an SFL entry and corrective action taken, including repair or replacement of equipment. ~~This should include shields, batons, and gas masks.~~
55. All officers, including MFF officers and rank working the demonstration/protest shall be equipped with a fully charged Body Worn Camera (BWC). The BWC shall be mounted on the exterior of their TDU or protective gear (chest protector). The placement of the BWC shall be verified by a supervisor at roll call. If an officer does not have a BWC, they should be issued a BWC on the day of the demonstration by the Performance Standards and Accountability Bureau (PSAB) – Information Systems Section – BWC Unit, in the event of a planned event. The issuing of BWCs shall also apply to all supervisors, including Majors, Captains and Lieutenants designated to work any demonstrations/protests. Any officer who has any contact with demonstrators shall have their BWC activated.

## COMMAND ASSIGNMENTS AND RESPONSIBILITIES

56. For planned events or once activated and on scene the following shall be designated:
  - a. **Incident Commander** – Chief Deputy Superintendent of the Field Operations Bureau. The Incident Commander will be responsible for directing the overall response to the incident and all instructions involving officers' actions (ROE) unless there are exigent circumstances that dictate that immediate action and intervention is necessary to protect lives and prevent violent criminal behavior. The decision to activate the **Tactical Operations Plan** rests with the Superintendent of Police or the Incident Commander.
  - b. **Operations Section Chief** – Field Operations Bureau Captain, as designated by the Incident Commander (Chief Deputy Superintendent) – will be responsible for the following:
    - i. Ensuring the rules of engagement, including the use of chemical agents and Specialized Weapons are adhered to and decided based on direct observation during all forms of protests and civil disturbances/riots (“eyes on the ground”).
    - ii. The response of officers assigned to the Mobile Field Forces, who are not assigned to the Special Operations Division (SOD) or the Investigation Support Division (ISD).
    - iii. One motorcycle platoon, assigned from the Traffic Section, will report on motorcycles, and provide traffic control and/or divert traffic, at the direction of the Operations Section Chief. Motorcycle Officers will escort, and parallel movements made by protestors and provide updated locations for the Incident Commander. Vehicular traffic will be diverted away from moving protests.

- c. **Intelligence Branch Director** – Captain of Investigation Support Division – will be responsible for the following:
  - i. For planned events the Intelligence Branch Director will be responsible for ensuring the completion and updating of a “Threat Assessment.”
  - ii. For unplanned events the Intelligence Branch Director or his/her designee will be responsible for coordinating the response of personnel for intelligence gathering and identification purposes.
  
- d. **Tactical Operations Branch Director** – Captain of the Special Operations Division – will be responsible for the following:
  - i. Determining how to implement the rules of engagement regarding the deployment of chemical agents and specialized weapons, in coordination with the intelligence obtained from the Operation Section Chief, who has direct observation of events on the front line.
  - ii. Mounted Units will assist at the direction of the Operations Section Chief. The Incident Action Plan will determine the number of Mounted Units needed for the event.
  - iii. Tactical Platoon(s) will be on standby and shall be ready to respond as directed by the Tactical Operations Branch Director or his designee. The Tactical Platoon will be responsible for executing all gas and munitions deployments. They will make determinations on the removal of protestor distraction devices. If it is determined that it is not safe to remove the device, because it is flammable or consistent with bomb making material the SOD/EOD and the Tactical Commander will determine how to disengage or deactivate the device. The Tactical Platoon will be staged at SOD headquarters.
  - iv. SOD/EOD will be responsible for the investigation of suspicious devices, packages or items. They will also assist the Tactical Platoon when removing protestor distraction devices. They will respond to all bomb threat calls.
  - v. SOD/Armory will be responsible for the issuance of gas and munition packages, the delivery and retrieval of the Mobile Command Post, and the delivery of the Bear and Bearcat when needed
  - vi. The Tactical Operations Branch Director or his/her designee will designate officers to act as the Uniformed Extraction Team (UET), consisting of 2 Sergeants and 10 Officers. The UET role will be assembled to enter the crowd when directed and remove any protesters that are determined to be unruly, rescue injured people or isolated officers..
  
- e. **Planning Section Chief** – The supervisor or designee from the Special Events Section of FOB.
  - i. The Planning Section Chief will be responsible for attempting to communicate with event organizers for planned events and ensuring the preparation and/or documentation of the Incident Action Plan or Operations Plan.

- f. **Logistic Section Chief** – Deputy Superintendent of the Management Services Bureau – will be responsible for the following:
  - i. Ensuring 2 truckloads of metal barricades are always available for deployment.
  - ii. Assigning sufficient personnel to deliver and erect barricades at any locations designated by the Incident Commander or Operations section Chief.

## **MOBILIZATION OF PERSONNEL IN SUPPORT OF EVENTS**

- 57. When a full mobilization of personnel is necessary to support large events or First Amendment assemblies the following units shall provide support as enumerated:
  - a. The Public Integrity Bureau shall monitor, assess, and investigate allegations or instances of misconduct and/or use of force through the **Force Investigation Team (FIT)** of the Public Integrity Bureau (PIB). The FIT shall investigate all incidents involving uses of force arising from a First Amendment Assembly.
  - b. A ranking member of the Field Operations Bureau, shall be assigned by the Incident Commander (Deputy Chief of FOB) to the **Office of Emergency Preparedness**, located at City Hall, and act as a liaison between the NOPD field units and the Office of Emergency Preparedness.
  - c. One member of the New Orleans Police Department **Joint Terrorism Task Force**, as assigned by the Incident Commander, shall respond to the Incident Command Post and act as a liaison between the field units and the Federal Bureau of Investigations.

## **New Orleans Emergency Medical Services (EMS) and New Orleans Fire Department (NOFD)**

- 58. When it has been determined that a civil disturbance of major proportions is contemplated or underway, The Incident Commander shall request the New Orleans Fire Department and New Orleans Emergency Medical Service to provide the necessary units and assistance, staged for response to medical or emergency requests. (See: Staging Area Manager above.)
- 59. Whenever medical treatment is required for protesters or police officers because of a civil disturbance, a written and photographic record shall be made by NOFD or EMS of all injuries to police officers or protesters. See: NOPD Chapter 1.3.6 – Reporting Use of Force for guidance.) The FIT shall also be notified of each occurrence through Communications (OPCD).

## **GENERAL GUIDELINES FOR RULES OF ENGAGEMENT**

- 60. A fundamental set of tactics which is incorporated in all possible police confrontations is De-escalation. De-escalation guidelines shall always be the first tactic used, when

possible. The guidelines are –

- a. When it is consistent with protecting the safety of the officer, the subject, or the public, officers shall use de-escalation techniques to avoid or reduce the need for the use of force.
  - b. These techniques include:
    - i. gathering information about the incident,
    - ii. assessing the risks,
    - iii. assembling resources,
    - iv. attempting to slow momentum, and
    - v. communicating and coordinating a response.
  - c. In their interaction with subjects, officers should use advisements, warnings, verbal persuasion, and other tactics and alternatives to higher levels of force.
  - d. Officers should recognize that they may withdraw to a position that is tactically more secure or allows them greater distance to consider or deploy a greater variety of force options.
61. The Rules of Engagement for each type event or incident should address:
- a. The first priority shall be preservation of life.
  - b. Channels of communication will be established so that situations can be de-escalated if necessary.
  - c. Police will provide public information that makes it clear who is making decisions and the process for deciding when police response will be escalated.
  - d. Every attempt should be made to communicate with participants to reach common sense agreements based on these protocols both ahead of time and at the scene.
  - e. Clear standards of professionalism and sound community friendly policing will be maintained and adhered to at all times.
  - f. Police will wear only the attire minimally required for their safety. Specialized “riot” gear will be avoided except as a last resort.
  - g. Crowd control equipment such as armored vehicles, rubber bullets, rifles and chemical agents will not be used except as a last resort.
  - h. Police or other government authorities will not interfere with the free flow of information through tactics such as limiting cell or internet access, interception of cell or other mobile conversations or un-warranted wiretaps.
  - i. Every attempt will be made to pinpoint arrests so that only individual lawbreakers will be arrested. “Kettling” and mass arrests will not be used.
  - j. Media, legal observers and medics shall not be considered participants in civil disturbances and shall be allowed to perform their duties safely.
  - k. Every attempt will be made to provide alternate routes or other means for non-involved persons to get to work, home or meet other necessities and directing crowds away from dangerous traffic.
  - l. Officers will be instructed to be tolerant of minor lawbreaking before deciding to escalate the use of force.
  - m. Officers and supervisors will be instructed to provide latitude to allow for free assembly, movement to final locations for gathering and expression, treating participants as citizens and not “enemy combatants”.
  - n. Intimidation of participants will not be tolerated. Pretextual pedestrian or traffic stops, pre-emptive arrests or detention of leaders is not condoned.
  - o. Medical care will be liberally made available and attorneys will be able to travel to and meet with clients without impediments.

## **GENERAL OPERATIONAL GUIDELINES FOR MASS DEMONSTRATIONS**

62. Mass demonstrations and circumstances or events surrounding them do, on occasion, give rise to situations in which substantial numbers of persons engage in unlawful conduct jointly or simultaneously within proximity of one another.
63. It is the policy of the New Orleans Police Department to ensure individuals may enjoy free and open expression in this city with confidence that their constitutional rights will be respected.
64. It is the policy of the New Orleans Police Department to avoid making arrests of substantial numbers of persons in response to such incidents, when arrest avoidance is reasonably possible in the interests of safety and security.
65. Each MFF supervisor shall be designated a specific staging area, from which the operations of that unit can be coordinated.

### **Crowd Management**

66. Where the threat of violence is expected, a minimum number of personnel shall be positioned for crowd management as "crowd managers". These members shall be dressed in the uniform of the day and shall be positioned, where possible, in such arrangements that direct physical contact with the crowd can be kept to a minimum.
67. Each member of the MFF should assess the mood of the crowd and respond to changes in crowd behavior as directed by the Operations Section Chief or Incident Commander. Accordingly, it is important that supervisors are aware of the type of crowd that is being managed; and that prior to deployment, members are reminded at the staging site on what to expect from the participants and what types of alternative responses the members may anticipate. Absent exigent circumstances, the Incident Commander will determine the type of response deemed necessary; thereby causing the unit to act in concert following his/her direction.
68. Members of the MFF shall not engage in demonstration-related discussion with participants. They shall conduct themselves to display an attitude of neutrality. However, members shall be courteous and helpful, mindful that expressions of friendliness are a valuable tool in maintaining peace. Communication is an essential tool in crowd management. It ensures unity of action among police officers, and that police officials and crowd leaders understand one another. Communications must be constant, clear, and immediate, and on many occasions, can serve to defuse threatening situations.
69. Supervisors shall constantly observe and speak with members under their charge to ensure that they are complying with orders, that they are completely aware of probable responses to crowd attitude change, and that members who are showing strain are provided temporary relief.

70. MFF supervisors shall establish communication with demonstration leaders as soon as possible, and maintain the same as a sign of cooperation, as a means of obtaining first-hand knowledge of crowd mood, and as a tool to facilitate negotiations and maintain the peace.

### **Verbal Persuasion**

71. As a first means of dispersing a crowd under static conditions, the unit commander shall attempt to verbally persuade the crowd to disperse of its own accord by announced available exit routes.

### **Arrest**

72. An assembly of persons will not be arrested simply because the group does not possess a permit. Such an arrest may only occur after an order to disperse (See: **Appendix C – Warning Format**) has been authorized and clearly communicated in a manner that is reasonably calculated to be heard by each of the persons in the group and a reasonable opportunity to disperse has been afforded, but not utilized by members of the assembly.
73. Each arrest of any individual person must be supported by probable cause. An issuing official shall not recommend the arrest of any person unless probable cause to support the arrest of that person exists. The Incident Commander shall not order the arrest of any person for whom he or she has not verified the existence of probable cause to arrest.
74. It is the policy of the New Orleans Police Department to avoid mass arrests.
75. The number of warnings given, the method used, and the time intervals between warnings, shall be recorded on the issuing supervisor's log. The procedures shall be recording on BWC. The documentation of procedures must reflect the availability and location of exit routes available to the crowd, and of any persons who leave the area.

### **Commander's Mass Demonstration Event Log**

76. The Incident Commander and Unit level supervisors (Platoon Lieutenants) shall designate one member of his/her unit to serve as the unit recorder for the purpose of entering all significant events associated with the operation of the unit on the Commander's Mass Demonstration Event Log. (**Appendix B**). Entries into the log will be made at the direction of the unit level supervisor or Incident Commander. When it becomes necessary for subordinate supervisory officials to initiate any independent action or engage in or observe events that could be considered significant, they shall, as soon as possible, advise the unit commander for inclusion into the commander's log. Examples of events warranting entry into the log would be:
  - a. Occasions requiring the use of force. Entries shall include the circumstances, type of force used, duration, and effect.
  - b. Tactical orders issued to personnel.
  - c. Orders received from higher authority.
  - d. Significant acts on the part of the demonstrators.
  - e. Incidents involving any arrests.
  - f. Complaints alleging serious police misconduct.

- g. Issuance of warnings.

### **Termination of Mass Demonstrations Assignments**

- 77. When conditions have subsided, the Incident Commander shall personally survey the affected areas and determine whether additional police personnel are still needed at a particular location. If it is determined by the Incident Commander that no further enhanced police presence / action is required, other than normal patrol, the assignment shall be terminated.

### **Accountability of Equipment and Personnel**

- 78. All police supervisors shall be responsible for accounting for all personnel under their command at the conclusion of incident event cycle and the conclusion of police operations or participation. In the event NOPD members are not immediately located, the supervisor will then notify the Incident Commander through the incident chain of command. The Incident Commander, in turn, will assign responsibility for the formulation of a search plan for the missing member(s).
- 79. Prior to relieving members of their command, unit supervisors shall ensure all items of equipment that were issued by the SOD Armory are accounted for and returned to that unit within the required due date and time. Receipts from SOD Armory are required. This is to include coordination with the SOD/CDU Storeroom to return any rented vehicles.
- 80. Section Chiefs and their designees shall prepare an After-Action Report and submit it to the Chief Deputy Superintendent, within five calendar days of the return to normal operations.
- 81. The Section Chiefs' After-Action Reports shall contain a list of all actions and events that occurred in chronological order, to include:
  - h. The date and time that each event occurred.
  - i. Brief description of the event.
  - j. Unit action(s) taken.
  - k. Outcomes of actions taken, such as number of persons arrested.
  - l. A complete and detailed report of:
    - 1. Problem areas encountered.
    - 2. Highlights of significant events and unsatisfactory conditions.
    - 3. Losses of equipment due to "hostile" action.
    - 4. Injury to officers indicating degree of injury and cause.
    - 5. Any recommendations for improvement.
    - 6. Negative reports are required.
- 82. The Incident Commander shall prepare an After-Action Report to the Superintendent, Assistant Superintendents, and the Office of Emergency Preparedness within (7) seven days of the conclusion of NOPD participation in the incident containing:
  - (a) Incident item number, location, date, and time of incident;
  - (b) Duration of the incident;
  - (c) Incident command staff;
  - (d) Specialized units involved;
  - (e) Inventory of all department equipment utilized;

- (f) All agencies involved;
- (g) All personnel used;
- (h) Synopsis of the incident;
- (i) Weather conditions;
- (j) If any public resources were affected,
- (k) Any injuries, deaths, or arrests;
- (l) Problems encountered; and
- (m) Recommendations.
- (n) Use of Force Occurrences
- (o) Munitions Dispensed

## **APPENDIX A**

### **PUBLIC INFORMATION OFFICE**

The Public Information Office (PIO) handles all activities relating to the press and the release of information related to Civil Protests / Demonstrations and other large scale public events. The PIO will arrange all press conferences, staff and organize areas for staging of the press and or news media under the direction of the Incident Commander. The PIO will prepare press releases prior to scheduled events informing the public of any expected street closures, alternative traffic routes, demonstrator activity and other non-sensitive noteworthy information likely to impact the visitors and residents of the City of New Orleans.

In keeping with Department policy, the New Orleans Police Department (NOPD) shall allow media representatives' reasonable access to all areas where a First Amendment assembly is occurring. At a minimum, the NOPD shall allow media representatives the same access enjoyed by members of the general public and, consistent with public safety considerations, shall allow media representatives access to promote public knowledge of the assembly.

The NOPD personnel located in or near an area where a First Amendment assembly is ongoing shall recognize and honor media credentials issued by or officially recognized by the NOPD.

The NOPD shall make reasonable accommodations to allow media representatives effective use of photographic, video, or other equipment relating to their reporting of a First Amendment assembly.

All confrontations with, or reports of media misconduct shall be immediately forwarded to the PIO. This information shall include the name, press affiliation, and a synopsis of the incident as well as the necessary contact information for the member witnessing the activity including if the incident was recorded on BWC. In instances of confrontations with, or reports of media misconduct, the observing member shall notify an NOPD Official who shall immediately report the incident to the PIO office at 658-5858.

## APPENDIX C

### WARNING FORMAT

#### Warning Format

This is the New Orleans Police Department. We are here to protect your 1st Amendment right to peacefully protest.

1. **“Please stop** (state the actions that should be stopped such as attempting to advance on the Interstate, attempting to cross a police line, etc.). **If you do not stop**, (state the actions that should be stopped), **this demonstration/protest/march you may be subject to arrest, gas or other less lethal methods.**”
  
2. **“This is your second warning; “Please stop** (state the actions that should be stopped such as attempting to advance on the Interstate, attempting to cross a police line, etc.). **If you do not stop**, (state the actions that should be stopped), **this demonstration/protest/march you may be subject to arrest, gas or other less lethal methods.**”
  
3. **“This is your third and final warning; “Please stop** (state the actions that should be stopped such as attempting to advance on the Interstate, attempting to cross a police line, etc.). **If you do not stop**, (state the actions that should be stopped), **this demonstration/protest/march you may be subject to arrest, gas or other less lethal methods.**”

## APPENDIX D

### PRE-CROWD DISPERSAL CHECKLIST

Has the Official recommending dispersal articulated justification on these basis?

What actions, by the persons to be arrested, require the proposed mass arrest?

Has anyone been injured?

Who/What was the cause of the injury?

Has property been damaged?

What was the cause of the damage?

Will an effort to disperse likely cause more injuries than alternative police action?

Will an effort to disperse likely cause more property damage than alternative police action?

Will an effort to disperse likely cause greater disruption of traffic flow (or potentially block evacuation routes) than alternative police action?

What are the offenses committed/that could be charged?

If the offense is traversing a police cordon, unlawful assembly, obstructing public passages, and/or failure to obey a police order:

How many orders to disperse were given? How were the orders communicated?

When was each given?

Who gave each order to disperse?

Were audio and/or video recordings made of the warnings?

Is there another way to gain control of the situation?

Is there a viable alternative to a dispersal?

Is dispersal of the crowd and arrest of a smaller number of persons as the group disperses reasonable?

Is extraction of a limited number of offenders reasonable (snatch)?

Has the IC [Incident Commander] confirmed (or have you independently determined) that there are sufficient resources available to safely take action?

## APPENDIX E

### AVAILABLE MUNITIONS

MK – 9 Magnum First Defense Aerosol Pepper Projector

O.C. or “Pepper” Spray is NOT authorized for general use by the New Orleans Police Department. An exception to the general prohibition is made for SOD/SWAT use only; under highly specific circumstances including riots and violent demonstrations when a command level decision has been made to deploy same. The operator who deploys this less lethal option must be trained and certified to discharge these ordnates

Direct Impact LE Extend Range – CS/Chemical agent Operational Range (10 – 70 meters)  
Warning! DO NOT use this round at a distance at a distance closer than 10 meters (33 feet) as it could cause serious injury or death.

NO. 2 CS. CS Irritant Smoke Continuous Discharge

CS (chemical agent) is NOT authorized for general use by the New Orleans Police Department. An exception to the general prohibition is made for SOD/SWAT use only; under highly specific circumstances including riots and violent demonstrations, when a command level decision has been made to deploy same. The operator who deploys this less lethal option must be trained and certified to discharge these ordnates.

Triple Chaser Outdoor CS Canister (chemical agent)- breaks into three separate pieces, all dispersing chemical agent. Deployed by hand.

Flameless Tri-Chamber- can be used on crowds (mainly used in houses on SWAT Rolls) but No. 2 CS Irritant Smoke Canister, Triple Chaser Outdoor CS and Aerosol OC/CS are preferred choices. Deployed by hand.

Aerosol OC/CS canister (chemical agent)- has a residue from OC that will stick to skin, clothing.

60 Cal. Stingers/40MM Smokeless Powder Rubber Balls

Rubber balls are NOT authorized for general use by the New Orleans Police Department. An exception to the general prohibition is made for SOD/SWAT use only; under highly specific circumstances including riots and violent demonstrations, when a command level decision has been made to deploy same. The operator deploying this less lethal option must be trained and certified to discharge these ordnates.

Grenade Stinger- Rubber Balls/chemical agent, disperses several rubber balls for pain compliance and CS (chemical agent) upon deployment. Deployed by hand.

Impact Weapon

Impact Weapon – Any solid or semi-solid object used by an officer as a method of gaining control of a subject. Absent exigent circumstances, officers shall not use non-traditional

weapons/hard objects, such as firearms or radios, as impact weapons. Impact weapons shall be used as a last resort in a riot situation.

Direct Impact (Green)- Impact/marketing only, used as pain compliance and leaves a green florescent mark on objects, clothes, and skin. Deployed with 40mm launcher.

Direct Impact (Blue)- Impact only, used as pain compliance. Deployed with 40mm launcher.

ER Direct Impact (Blue)-Impact/chemical agent, extended range, used as pain compliance and disperse CS (chemical agent) upon impact. Deployed with 40mm launcher

Aerial 25 (Bang)- emits a loud bang above the crowd usually as a warning before a chemical agent.

Aerial CS (a chemical agent)- emits a loud bang and disperses a chemical agent which forms an aerosol and filters down on the crowd.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 46.2

### TITLE: EMERGENCY OPERATIONS PLAN

**EFFECTIVE: 12/17/2017**

**REVISED: 11/15/19, 06/05/2020**

---

#### PURPOSE

As part of the City of New Orleans overall Emergency Operations Plan, the New Orleans Police Department has prepared a department specific Emergency Operations Plan for use by all employees in the event of a major disaster, civil disturbance, mass arrest or other emergency event.

#### DEFINITIONS:

**Essential Employee**—A certain employee or class of employee deemed by the Appointing Authority (Superintendent of Police) as absolutely essential to the efficient and effective operation of the organization (NOPD) because of special skills or abilities. All commissioned members of the NOPD are classed as “essential employees” during the activation of the New Orleans Police Department Emergency Operations Plan.

**Incident Command System (ICS)**—A standard, on-scene, all-hazards incident management system. The ICS has been established by the National Incident Management (NIMS) as the standardized incident organizational structure for the management of all incidents.

**National Incident Management System (NIMS)**—A comprehensive national approach to domestic incident management, applicable at all jurisdictional levels and across all functional disciplines. The NIMS represents a core set of doctrine, principles, terminology, and organizational processes to enable effective, efficient and collaborative incident management at all levels. To provide the framework for interoperability and compatibility, the NIMS is based on a balance between flexibility and standardization.

**Underpass** - a crossing of a highway and another way (such as a road or railroad) at different levels. The lower level of such a crossing.

**NOPD** – New Orleans Police Department

**NOFD** – New Orleans Fire Department

**EMS** – New Orleans Emergency Medical Service

**NOHSEP** – New Orleans Office of Homeland Security and Emergency Preparedness.

**POLICY STATEMENT**

1. The New Orleans Police Department follows the principles of Incident Command (IC) and the structures and guidelines of the National Incident Management System (NIMS).
2. The New Orleans Police Department Emergency Operations Plan provides for a strategic response by all employees and assigns specific responsibilities in the event the plan is activated.
3. The City of New Orleans Emergency Operations Plan, including the department's-specific Emergency Operations Plan, shall comply with the State of Louisiana Emergency Operations Plan (**La. R.S. 29:722 (A) (3)**; Exec. Order BJ 08-32).
4. The City of New Orleans Emergency Operations Plan and the department's specific Emergency Operations Plan provide guidance for emergency operations within the City of New Orleans and outside as may be required.
5. When the Mayor of New Orleans declares an official emergency and orders that only "essential" employees report to work and that all "non-essential" employees remain away from work, such non-essential employees will be granted official emergency leave.
6. All members of the New Orleans Police Department, in any grade or classification, are required to familiarize themselves with the City of New Orleans Emergency Operations Plan, including the department's-specific Emergency Operations Plan.
7. Each Commander shall notify every member, in any grade or classification, under his/her command of the member's status as "essential employee" within the meaning of this Chapter and the member's duties under the Plans.

**ACTIVATING THE EMERGENCY OPERATIONS PLAN**

8. The City of New Orleans Emergency Operations Plan can be activated in a number of ways:
  - (a) The Superintendent of Police or his designee can request activation of the City of New Orleans Emergency Operations Plan through the New Orleans Office of Homeland Security and Emergency Preparedness (NOHSEP) in response to a major emergency.
  - (b) The New Orleans Office of Homeland Security and Emergency Preparedness can activate the City of New Orleans Emergency Operations Plan in response to a major emergency/event.
9. Upon activation of the City of New Orleans Emergency Operations Plan or the department's specific Emergency Operations Plan, the Superintendent of Police, or his/her authorized designee, shall contact the New Orleans Office of Homeland Security and Emergency Preparedness to assist with mutual aid response from local, state and federal law enforcement agencies with providing requested resources to this department.

**RECALL OF POLICE DEPARTMENT ESSENTIAL EMPLOYEES**

10. In the event that the plan is activated:
  - (a) **Essential employees** of the New Orleans Police Department are subject to immediate recall.
  - (b) All annual leave for essential employees will be terminated.
11. Employees are also subject to recall during “extraordinary circumstances” as deemed necessary by the Superintendent of Police, or his/her authorized designee. Extraordinary circumstances shall include, but are not limited to:
  - (a) The formation of a tropical storm or hurricane within the Gulf of Mexico.
  - (b) Natural disasters (flood, tornado, wildfires, etc.).
  - (c) Man-made disasters (HazMat spill, conflagration, etc.).
  - (d) Terrorist activity or suspected terrorist activity (mass casualty, bomb, active shooters, etc.).
  - (e) Civil disturbances (riot, large scale demonstration, etc.).
  - (f) Any other event declared to be an emergency by the Superintendent of Police or his/her designee.
12. Failure of an essential employee to promptly respond to an order to report for duty during a plan activation shall result in disciplinary action, up to and including dismissal.
13. Only the Superintendent of Police can grant annual leave to an essential employee once the Emergency Operations Plan has been activated or a recall during extraordinary circumstances has been ordered by the Superintendent.

**MEMBER RESPONSIBILITY**

14. Once a member is informed by any supervisor or made aware of an alert through the media or any other source, he/she shall immediately contact his/her unit for instructions.
15. If a member is an essential employee as defined in the Chapter or designated as such by an existing Plan or supervisor and cannot contact his/her unit or supervisor, the member shall report for duty at one of the following:
  - (a) His/her normal place of assignment.
  - (b) Any of the Major Field Command Posts listed in the Emergency Operations Plan.
16. If a member is an essential employee as defined in the Chapter or designated as such by an existing Plan or supervisor and cannot return to the City due to a physical impossibility such as road closures, flooding, etc., the member shall report for duty at one of the following:
  - (a) The Major Field Command Post located outside the City of New Orleans (see the Emergency Operations Plan for the location).
  - (b) The closest Louisiana State Police Troop and request assistance in returning to the City of New Orleans.

**THE EMERGENCY OPERATIONS PLAN**

17. A copy of the current City of New Orleans Emergency Operations plan is available in the New Orleans Office of Homeland Security and Emergency Preparedness.

18. A copy of the New Orleans Police Department Emergency Operations plan is available in the Professional Standards and Accountability Bureau - Policy Standards Section and on the department's website ([NOPD.org](http://NOPD.org) under the [Resources](#) folder / [Hurricane Plans](#)). All supervisors should familiarize themselves with the NOPD Emergency Operations Plan and the roles his/her members will play when the plan is implemented, as well as the City's plan.

### UPDATING THE PLAN

19. The Professional Standards and Accountability Bureau - Policy Standards Section is responsible for updating the NOPD Emergency Operations Plan on an annual basis and to ensure the plan conforms to any revisions made by the Governor's Office of Homeland Security and Emergency Preparedness or the National Incident Management System (NIMS).

### TRAINING AND BRIEFING

20. Each Bureau Chief and their Commanders shall have a briefing on the New Orleans Police Department Emergency Operations Plan and his/her Bureau's responsibilities under the plan within one month of the annual plan's release by the Compliance Bureau – Policy Standards Section. Commanders will be responsible for having briefings for all essential employees in his/her command after the Bureau briefing.
21. All supervisors should familiarize themselves with the department's Emergency Operations Plan and the roles his/her subordinates and/or essential employees will play when the plan is activated.
22. All members of the Department shall receive training in NIMS and IC commensurate with his/her individual responsibilities and duties within the organization and under the City and NOPD Emergency Operations Plans. (**See Appendix A – Incident Command / NIMS** Courses for access to training links.)
23. The following Incident Command / NIMS course requirements and deadlines apply to all commissioned members and all essential employees as defined in this Chapter:
  - (a) All commissioned members and essential employees must show satisfactory completion of IS 100 and IS 700 within 60 days of the effective date of this Chapter or prior to the conclusion of Phase 2 of the FTO Training Program for new hires.
  - (b) All commissioned supervisors and supervisory essential employees must show satisfactory completion of IS 200 and IS 800 within 120 days of the effective date of this Chapter or within 60 days of promotion to a supervisory position or classification.
  - (c) All Captains, Majors, Deputy Chiefs or any member (including civilians) who operates at the ICS level of Branch Director or above must show satisfactory completion of IS 300 and IS 400 within 1 year of the effective date of this Chapter or within 1 year of promotion to one of these positions or classifications.

### OPERATION UNDERPASS

24. Historically flood prone areas that pose a threat to public safety have been identified as priority locations for the pre-positioning of barricades to warn citizens of driving hazards when such locations are experiencing flooding from heavy rain or tropical activity. In order to minimize the threats of drowning, accidents and stalled vehicles, the following guidelines will be followed when Operation Underpass is

- implemented. Operation Underpass shall be deemed an Alert Level 0 (Zero) operation.
25. Because the nature of flooding issues within the City of New Orleans can be predicted or happen without warning, the authority to activate this procedure rests with the New Orleans Office of Homeland Security and Emergency Preparedness (NOHSEP), the Orleans Parish Communications District (OPCD), the New Orleans Fire Department (NOFD), New Orleans Emergency Medical Service (EMS) and or the NOPD. Whichever agency initiates Operation Underpass shall notify OPCD of such implementation.
  26. When a pre identified location is reported to be flooding to the OPCD by a civilian or city agency, OPCD will create an incident identifier and dispatch units from the NOFD and NOPD, as available, to the location(s) identified to move prepositioned Type 3 barricades into place to prevent unauthorized access, to both vehicular and pedestrian traffic.
  27. If the first arriving unit to the location is an NOFD unit, they will remain on scene after deploying the barricade(s) until relieved by NOPD unit(s), unless an emergency dictates they leave after placing the barricades. The NOPD Unit will relieve the NOFD unit, assume responsibility for traffic and pedestrian safety and control and remain on the scene until relieved by another NOPD unit or the emergency has been concluded and the item closed. Supervisors shall be cognizant of such situations where NOPD officers are needed to relieve the NOFD from any barricaded location and prioritize that relief as soon as possible.
  28. Once deployed, the barricades shall remain in place until the flood waters have receded to a safe level, the location has been inspected by a ranking member of the NOPD and the officers have received permission to remove the barricades and "open" the street(s) at that location.
  29. The approving supervisor has the responsibility to determine if an officer shall remain on the scene after the street is opened to traffic to monitor traffic, weather and road conditions or all officers may be cleared. Should the weather or flooded roadway conditions return, the location should be re-secured and monitored.
  30. Each District Commander shall be responsible for the allocation of resources, as needed, to each location to ensure that unauthorized access is controlled and safety maintained. This means, at a minimum, one officer for each direction of traffic flow at a closed location.
  31. Supervisors shall routinely check on the condition of the officers at each location, provide for relief if necessary and to confirm the local conditions. Updates shall be communicated to OPCD as they occur.
  32. If an emergency rescue is required at any flooded location, it shall be immediately reported to OPCD and any other first responder agency or unit (NOFD, EMS, SOD) with the training and equipment required to safely respond. Officers are cautioned to NOT endanger themselves beyond their personal or professional capabilities in attempting a rescue.
  33. This policy shall in no way inhibit an officer from positioning barricades when needed before being dispatched if the officer sees the need to do so. That officer shall notify OPCD and their supervisor of any such closures.

34. The pre-identified underpass locations are as follows:

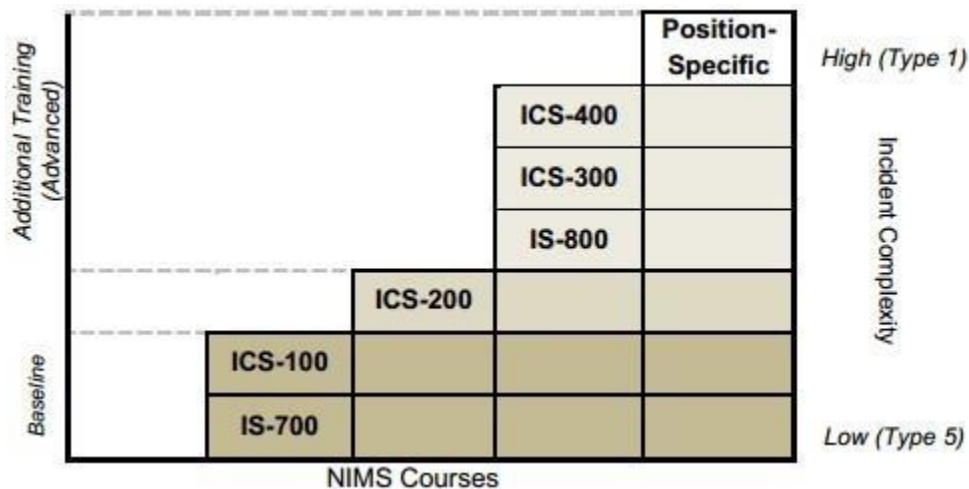

<u>Name</u>	<u>Intersection</u>
Carrollton Ave	N Carrollton Ave/I-10
Metairie Rd	City Park Ave/I-10
Canal Blvd	Canal Blvd/Pontalba St
Marconi	Marconi Dr/I-610
St Bernard Ave	St Bernard Ave/Florida Ave
Paris Ave	Paris Ave/I-610
Gentilly	Gentilly Blvd/I-610
Board St	Broad St/Florida Ave
Franklin Ave	Franklin Ave/I-10
Gentilly Blvd	Gentilly Blvd/Chef Menteur Hwy
SUNO/Leon C Simon	Press Dr/Leon C Simon Dr
Downman Rd	Downman Rd/Lake Shore Dr
Woodland Dr	General De Gaulle Dr/Woodland Dr
Westbank Expressway	General De Gaulle Dr/Westbank Expy
City Park (Golf Drive/610)	610 Underpass

## Appendix A – Incident Command / NIMS Courses

The course listed below are introductory courses that may be taken online from ANY computer with internet access. The member will have to create a student identification number / registration (which is outlined in every course link). Once successfully completed, the member can print a certificate and have it entered into INSIGHT / PowerDMS training records.

### Training Program

As illustrated below, the National Incident Management System (NIMS) Training Program identifies those courses critical to train personnel capable of implementing all functions of emergency management. This program establishes the NIMS core curriculum to ensure it adequately trains emergency and incident response personnel to all concepts and principles of each NIMS component. [Click on this link to access the NIMS Training Program document.](#)

### Baseline Courses

- **IS-700 NIMS, an Introduction:** This independent study course introduces the NIMS concept. NIMS provides a consistent nationwide template to enable all government, private-sector, and nongovernmental organizations to work together during domestic incidents.
- **ICS-100 Introduction to the Incident Command System:** This independent study course introduces ICS and provides the foundation for higher level ICS training. It describes the history, features and principles, and organizational structure of the system. This course also explains the relationship between ICS and NIMS.

### Additional Courses

- **ICS-200 ICS for Single Resources and Initial Action Incidents:** This independent study course is designed to enable personnel to operate efficiently during an incident or event within the ICS. ICS-200 provides

training and resources for personnel who are likely to assume a supervisory position within the ICS.

- **IS-800 National Response Framework (NRF), an Introduction**: The course introduces participants to the concepts and principles of the NRF.

The below courses cannot be taken online but are available free to the agency. They are required for higher level ICS functions and Departmental decision makers (Captain, Major, and Deputy Chief) or anyone who operates at the ICS level of Branch Director or above.

- **ICS-300 Intermediate ICS for Expanding Incidents**: ICS-300 provides training and resources for personnel who require advanced knowledge and application of the ICS. This course expands upon information covered in the ICS-100 and ICS-200 courses.
- **ICS-400 Advanced ICS**: This course provides training and resources for personnel who require advanced application of ICS. This course expands upon information covered in ICS-100 through ICS-300.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 46.3

### TITLE: RESPONSE TO BOMB CALLS

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 416**

---

#### PURPOSE

This Chapter will assist officers in their initial response to incidents involving explosives, explosive devices, suspected explosive devices, suspicious packages or explosion/bombing incidents.

#### POLICY STATEMENT

1. Under no circumstances should these guidelines be interpreted as compromising the safety of first responders or the public.
2. When confronted with an incident involving explosives, safety shall always be the primary consideration.
3. All calls received of a bomb threat, explosive, explosion, or incendiary device are assigned a code two priority response and a district unit and supervisor shall be dispatched to the location.
4. Communications Services shall notify the Commander of Special Operations Division during regular working hours, or consult the call out roster when notified by responding units that extensive building search and/or evacuation is required.

#### DEFINITIONS

**Bomb / Explosive Device**—Any chemical compound, mixture or device, the primary purpose of which is to function by explosion.

**Bomb Threat**—The expression of an intention to detonate an explosive device.

#### FOUND EXPLOSIVES / SUSPECT DEVICES

5. When receiving a call of a suspected explosive device, the following guidelines shall be followed:
  - (a) Communications Services shall dispatch a district unit and supervisor on all suspected explosive devices, even when the accuracy of the call information is in doubt.
  - (b) Communications Services shall notify the New Orleans Police Department

- Special Operations Division Bomb Squad on all suspected explosive devices.
- (c) No known or suspected explosive item should be considered safe regardless of its size or apparent packaging.
  - (d) The New Orleans Police Department Special Operations Division Bomb Squad should be notified once district response units confirm the possibility of a suspected explosive device even when in doubt.
  - (e) A minimum perimeter of 300 feet should be established around the location of the device. An access point should be provided for support personnel.
  - (f) As much initial information as possible should be promptly relayed to the District Platoon Commander by Communications Services or responding units, including:
    - The stated threat.
    - Exact comments.
    - Time of discovery.
    - Exact location of the device.
    - Full description (e.g., size, shape, markings, construction).
  - (g) The device should not be touched or moved except by qualified bomb squad personnel.
  - (h) Responding personnel should not transmit on any equipment that is capable of producing radio frequency energy within 300 feet of the suspected device. This includes police radios, cell phones and any other personal communication devices.
  - (i) Consideration should be given to evacuating any buildings near the device.
  - (j) An incident report (EPR) shall be generated by the responding officer and a copy sent to the SOD Bomb Squad for tracking.

#### **BOMB THREATS RECEIVED AT A POLICE FACILITY**

- 6. Members receiving a bomb threat at a police facility should gather as much information from the notifying individual, including the type, placement and alleged detonation time of the device.
- 7. If the bomb threat is received at a police facility on a recorded line, steps should be taken to ensure that the recording is preserved in accordance with Department evidence procedures.
- 8. If the call is made to Communication Services, the Bomb Threat Call Checklist should be followed.
- 9. The member receiving the bomb threat shall ensure that the Platoon Commander is immediately advised and fully informed of the details. The Platoon Commander will then direct and assign officers as required for coordinating a general building search or evacuation as he/she deems appropriate.
- 10. An incident report shall be generated and forwarded to the bomb squad for tracking by the member receiving the call.

#### **BOMB THREATS AT PUBLIC OR PRIVATE FACILITY**

- 11. This procedure shall be followed should a bomb threat occur at a private facility or another public facility and the Department is informed of the threat. The decision to allow personnel back into the public or private facility will be the responsibility of the person or persons in charge of the building when such facility is deemed safe to enter.

12. Members informed of a bomb threat at a private facility or another public facility should obtain as much information as reasonably possible from the notifying individual, including:
  - (a) Whether the individual is requesting law enforcement assistance at the facility,
  - (b) The location of the facility,
  - (c) The type of facility,
  - (d) Has the facility received threats in the past (HazMat),
  - (e) The nature of the threat received,
  - (f) The alleged type and detonation time of the device, and
  - (g) Whether the facility is occupied, and if so, the number of occupants currently on scene.
13. The member receiving the bomb threat information should also ensure that the District Platoon Commander is immediately notified so that he/she can communicate with the person in charge of the facility.
14. The responding officer shall complete an incident report (EPR) and forward a copy of the report to the SOD Bomb Squad.

#### **BOMB THREATS AT A FEDERAL BUILDING OR PROPERTY**

15. Communications Services shall dispatch appropriate District repose units to a bomb threat incident at a federal building or property and shall report the call to the Federal Protective Service (FPS) (877-437-7411). The FPS may provide a uniformed police response, which may include use of its Explosive Detector Dog Teams.
16. Any devices or suspected devices will only be rendered safe by the SOD Bomb Squad according to established Bomb Squad Standard Operating Procedures/logic tree unless special circumstances deem otherwise.

#### **EVACUATION OR SEARCH ASSISTANCE**

17. If the person in charge of the facility makes a request for law enforcement assistance, the on scene supervisor or District Platoon Commander will determine the level of assistance the Department will provide as well as make a determination of the following:
  - (a) The plan for assistance,
  - (b) Whether to evacuate and/or search,
  - (c) The appropriate support personnel necessary (e.g. fire and EMS),
  - (d) An Incident Report (EPR) shall be generated and a copy forwarded to the SOD bomb Squad upon its completion.
18. Considerations regarding the involvement of facility staff in searching and evacuating is important as a search or evacuation can be difficult without a working familiarity of the facility. The risks associated with a search and evacuation should be explained to the person in charge of the facility by the on scene supervisor or District Platoon Commander. The warning provided by the on scene supervisor or District Platoon Commander should include the possibility of injury to facility staff and/or damage to the facility as a result of a search.

#### **BOMB SQUAD/TECHNICIAN**

19. The Commander of SOD Bomb Squad shall contact the military ordnance disposal

team when their assistance is needed.

20. A secure perimeter of 300 ft. will be established.
21. Once the area is evaluated as safe to enter to begin an investigation, the department's Bomb Technician will enter the area to canvass for any other possible explosive devices.
22. The Bomb Technician shall utilize all safety measures to ensure no other devices are present in the area. Explosive detecting dogs should be utilized in the canvassing of the area.
23. The SOD bomb technician will be the sole decision maker on the scene relative to the removal or safe rendering of a discovered device.
24. The SOD bomb technician shall summon any other support technicians and equipment he/she deems needed for the safe removal of a device. Once the device is rendered safe by the bomb technician, the device will be submitted for evidence per current department policies/procedures pertaining to hazardous materials.
25. If no other explosive devices are discovered, the SOD Bomb Technician will assist the Crime Scene Technicians in collecting additional evidence.
26. The SOD Bomb Squad will make the necessary notifications to the Federal Bureau of Investigation (FBI) based on the incident.
27. The SOD bomb technician will complete an After Action Report concluding the rendering safe procedures and any additional technical follow-up.

#### **EXPLOSION / BOMBING INCIDENT RESPONDER RESPONSIBILITIES**

28. When an explosion has occurred, there are multiple considerations that may confront a responding officer. As in other catastrophic incidents, a rapid response will help to minimize such things as further injury to victims, contamination of the scene by gathering crowds, additional damage from resulting fires or unstable structures.
29. Once an explosion has occurred, the response guidelines of **Chapter 46.16 – Weapons of Mass Destruction** shall be followed.
30. In all instances, the New Orleans Police Department shall use the National Incident Management System/Unified and Incident Command System.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 46.3.4

### TITLE: HAZARDOUS MATERIALS EXPOSURE AND RESPONSE

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 412**

---

#### PURPOSE

Hazardous materials present a potential harm to department members, the public and the environment as a result of their public presence and uncontrolled exposure. This Chapter provides general guidelines for departmental members who may come into contact with a suspected hazardous material so they may take certain steps to protect themselves and the public.

#### POLICY

1. The New Orleans Fire Department (NOFD) is the lead agency in all non-criminal HazMat incidents.

#### DEFINITIONS

**Hazardous Material (HazMat)**—Any gaseous, liquid, or solid material which because of its quantity, concentration, or physical, chemical, or biological composition poses a substantial present or potential hazard to human health, the environment, or property when transported in commerce, or which material is identified or designated as being hazardous by rules and regulations adopted and promulgated by the secretary of the Department of Public Safety and Corrections (La R.S. 32:1502(5)).

#### SAFETY AND RESPONSE GUIDELINES

2. Employees may encounter situations involving suspected hazardous materials, such as at the scene of a traffic collision, chemical spill or fire. When employees come into contact with a suspected hazardous material, they should take steps to protect themselves and other persons.
3. The following steps should be considered at any scene involving suspected hazardous materials:
  - (a) Make the initial assessment of a potential hazardous material from a safe distance.
  - (b) Remain upwind, uphill and at a safe distance, maintaining awareness of weather and environmental conditions, until the material is identified and a process for

- handling has been determined.
- (c) Notify the New Orleans Fire Department and New Orleans Emergency Medical Service (NOEMS). Provide weather conditions, wind direction, a suggested safe approach route and any other information pertinent to responder safety.
  - (d) Wear personal protective gear if available, being cognizant that some hazardous material may quickly volatilize into a form which is readily inhaled.
  - (e) Begin evacuation of the immediate and surrounding areas as precaution even if the material is unknown using the **Emergency Response Guidebook** until properly trained members of the New Orleans Fire Department determine otherwise.
  - (f) Attempt to identify the type of hazardous material from a safe distance using optical aids (binoculars/spotting scopes) if they are available. Identification can be determined by:
    - Placards and use of the Emergency Response Guidebook.
    - Driver's statements or shipping documents from the person transporting the material.
    - Information obtained from any involved person with knowledge regarding the hazardous material.
  - (g) Obtain information from any involved party who has knowledge regarding the hazardous material. Information should include:
    - The identity of the material.
    - How to secure and contain the material.
    - Any other information to protect the safety of those present, the community and the environment.
  - (h) Provide first aid to injured parties if it can be done safely and without contamination.
  - (i) Make reasonable efforts to secure the scene to prevent access from unauthorized personnel.
4. A responder entering the area of a hazardous material event may require decontamination before he/she is allowed to depart the scene and should be evaluated by appropriate technicians and medical professionals for signs of exposure.
5. The New Orleans Fire Department is the agency trained and equipped to properly respond and mitigate most hazardous materials.
6. Hazardous materials shall not be transported by a department member or stored in the Central Evidence & Property Section.
7. Acids, and flammable substances shall only be processed and transported by HazMat Technicians or other governmental agencies utilizing the appropriate vehicle and transportation technique to be determined by the qualified technician and considered safe.

#### **SAMPLING OF POSSIBLE HAZARDOUS MATERIALS**

8. HazMat Technicians shall determine if a sampling of the explosive compound or chemical agent can be safely extracted for evidentiary processing.
9. Acids, flammable substances, and hazardous materials shall not be processed, transported, or stored as property. Scenes where these compounds pose a hazard to the public shall be processed by the appropriate Federal or State agency or competent independent contractor governing disposal of hazardous waste.

10. If a sampling of the substance can be safely retrieved for forensic processing, it shall be the HazMat Technician's or other governmental agency's responsibility to transport same to the appropriate facility for processing.
11. Substances whereby samples cannot be safely extracted shall be disposed of in a manner considered safe by the HazMat Technician or other governmental agency and in accordance with Federal and State Law governing disposal of hazardous material. The process of disposal shall be documented in writing and photographed by the assigned District officer. The photographs shall be deposited as evidence in the Central Evidence and Property Section.

### **REPORTING EXPOSURE**

12. Department members who believe they have been exposed to a hazardous material shall immediately report the exposure to a supervisor.
13. Injury or illness caused or believed to be caused from exposure to hazardous materials shall be reported the same as any other on-duty injury or illness, in addition to the incident report.

### **SUPERVISOR RESPONSIBILITIES**

14. When a supervisor has been informed that an employee has been exposed to a hazardous material on duty, he/she shall ensure that immediate medical treatment is obtained and appropriate action is taken to treat the exposure.
15. The supervisor shall take all necessary steps to ensure that all persons, clothing and equipment (including vehicles) which may have been contaminated is identified, isolated and contained pending decontamination and inspection by a qualified HazMat technician.
16. To ensure the safety of employees, safety equipment may be available through supervisory personnel. Safety items not maintained by the Department will be obtained through the (NOFD).

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 46.5

### TITLE: SECURITY OF VISITING DIGNITARIES

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 477**

---

#### PURPOSE

The purpose of this Chapter is to provide for the planning and command structure in those instances where resources of the New Orleans Police Department are required to assist other governmental agencies in providing security for visiting dignitaries.

#### DEFINITIONS

**Dignitary**—An individual of high authority or rank usually within a political structure or other individuals, as deemed appropriate by the Superintendent of Police, in need of security or special transportation requirements while visiting the City of New Orleans.

**S.A.R.G.E System**—The United States Secret Service issues temporary lapel pins to individuals who will be near or around the president or other protected VIPs. The lapel letters designate the assigned position and access. It is not an acronym.

#### GENERAL INFORMATION

1. All requests for Department support involving visiting dignitaries will be coordinated through the Field Operations Bureau Special Events Section.
2. Special Events shall be responsible for the coordination, planning and deployment of Department members associated with dignitary visits or events.
3. Special Events Section is responsible for the overall site plan and if sufficient departmental resources are required, developing a Special Event Operations Plan.
4. Upon the request of the security services for a visiting dignitary, and once authorized by the Superintendent of Police, Special Events shall be assigned to coordinate the security assignment with other governmental agencies involved.
5. The assigned Special Events member shall contact all concerned agencies associated with the security detail furnishing them with his/her name, rank and telephone number where they may be contacted. The Special Events member shall obtain all pertinent details relative to the visit and determine to what extent resources of the Department are needed.

6. The Special Events member assigned to coordinate will meet with an assigned SOD supervisor and, if needed, an assigned member of the ISB Intelligence Section to assign responsibilities and coordinate activities.

#### **SPECIAL OPERATIONS DIVISION**

7. The Special Operations Division, when requested, will provide operational support for the security of visiting dignitaries.
8. A supervisory member of SOD shall be responsible for the operational planning and deployment of SOD members associated with dignitary visits or events under the overall coordination of the Special Events Section.
9. Specific equipment needs will be met by the inventory of the Special Operations Division to include, but is not limited to body armor, vehicles, and special weapons.
10. Special equipment needs will be based on the particular security assignment's threat level. The SOD supervisor in charge of the operational support of the assignment will identify the special equipment needs for the detail.
11. The SOD supervisor and/or the Intelligence Section member if assigned shall be responsible for surveying all locations where the dignitary may visit for threat level assessment. All avenues of travel shall be evaluated and alternate travel routes shall be preplanned and made part of the overall security operation.

#### **SPECIAL OPERATIONS DIVISION - TRAFFIC**

12. All motorcade movement involved in security efforts will be coordinated by the Special Operations Division's Traffic Section. The Traffic Section supervisor, in coordination with the Special Events Section, shall develop and provide a safe and efficient movement plan that is coordinated with the site security operation.
13. Motorcade teams shall travel the route of the dignitary prior to his/her departure and take appropriate action to remove any obstacles and or difficulties.

#### **SITE PLAN / SPECIAL EVENT OPERATIONS PLAN**

14. Security plan formulation shall include the identification of a nearby medical facility for emergency care.
15. Communication among department members assigned to the security function will utilize the departmental surveillance radio kit, comprised of a push to talk button and ear microphone. An additional radio talk group may be authorized by the Special Events coordinator.
16. Dignitary visit sites outside the original hosting jurisdiction shall be coordinated with a representative from the site agency. Movement plans from the hosting jurisdiction into other jurisdictions shall be made part of the overall security operation.
17. The Special Event Section member or an assigned SOD or Intelligence Unit member / supervisor shall accompany the dignitary to the visiting jurisdiction site and deploy crisis management as needed to ensure the successful return of the dignitary.
18. Site teams shall ensure all entrances, exits, walkways, and avenues of threat are monitored and secured. All entrances and exits will be secured and access to

unauthorized individuals and personnel disallowed.

19. Visits of foreign heads of state, President, or Vice President of the United States may require the detail to utilize support elements from other Bureaus and all police districts. These elements will be deployed as outlined in the Special Event Operations Plan and along the motorcade route preventing any interference with the motorcade.

#### **UNITED STATES SECRET SERVICE**

20. All security assignments associated with the United States Secret Service as part of the protective detail require the display of the S.A.R.G.E. system identification lapel pin. These pins shall be supplied by the Secret Service to those department members who are involved in the protective detail.
21. Assignments not directly associated with the protective detail or supported by the Secret Service shall require the display of the NOPD tie tack identification pins for all assigned plain clothes officers. The SOD or Intelligence Unit supervisor shall instruct the involved plain clothes NOPD members to utilize the tie tack affixed to the left lapel.

#### **SECURITY ASSIGNMENTS AND THE UNITED STATES SECRET SERVICE**

22. Requests for Department support of the United States Secret Service shall be staffed by members of the Special Operations Division and or the Intelligence Section. Large or multiple site visits may require the utilization of additional personnel from the Field Operations Bureau.
23. One department member shall be assigned to each Secret Service identification team, motorcade team, and site team. This ensures complete operational communications with all agencies.
24. Identification teams responding to suspicious activities observed by the Secret Service shall support the effort by enforcing all state laws and city ordinances as appropriate to the circumstances encountered. The NOPD officer shall also provide radio communication access for the Secret Service.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 46.7

### TITLE: CRISIS RESPONSE UNIT - SWAT

**EFFECTIVE: 11/26/2017**

**REVISED: Replaces Policy/Procedure 408**

---

#### PURPOSE

The Crisis Response Unit (CRU) is comprised of two specialized teams: the Crisis Negotiation Team (CNT) and the Special Weapons and Tactics team (SWAT). The unit has been established to provide specialized support in handling critical field operations where intense negotiations and/or special tactical deployment methods beyond the capacity of field officers appears to be necessary.

#### POLICY STATEMENT

1. The mission of the Special Operations Division's SWAT Team shall be limited to providing a specialized response to critical situations where a tactical response is required, such as hostage rescue, barricaded subjects, high-risk warrant service, high-risk apprehension, and terrorism response.
2. SWAT team tactics and equipment shall be prohibited from deployment or use for routine or proactive patrol functions, crime prevention, or for the service of non-high-risk warrants, unless approved in writing by a Deputy Chief.
3. Nothing in this Chapter prohibits SWAT Team members from providing uniformed policing services.
4. Barring emergency circumstances, the SWAT Team shall have the primary responsibility for execution of any high-risk warrant utilizing SWAT team officers equipped with special equipment, training, and weapons.
5. It is the policy of this department to maintain a SWAT team and to provide the equipment, manpower and training necessary to maintain a SWAT team. The SWAT team shall develop sufficient resources to perform three basic operational functions:
  - (a) Command and control
  - (b) Containment
  - (c) Entry/apprehension/rescue
6. The New Orleans Police Department maintains a **Level III SWAT Team**.

## DEFINITIONS

Definitions relevant to this Chapter include:

**SWAT Team**—A designated unit of law enforcement officers, , including a multijurisdictional team, which is specifically trained and equipped to work as a coordinated team to resolve critical incidents that are so hazardous, complex or unusual that they may exceed the capabilities of first responders or investigative units. This includes, but is not limited to, hostage taking, barricaded suspects, snipers, terrorist acts and other high-risk incidents.

**Level III SWAT Team**—An advanced level SWAT team whose personnel function as a unit. Generally, 25 percent of their on duty time is devoted to training and maintaining certifications. Level III teams operate in accordance with contemporary best practices. Such units possess both skills and equipment to utilize tactics beyond the capabilities of Level I and Level II teams.

## OPERATIONAL AND ADMINISTRATIVE POLICY

7. The sections of this Chapter pertaining to the Crisis Response Unit (CRU) are divided into Administrative and Operational sections. The situations that necessitate the need for specialized a law enforcement response vary greatly from incident to incident, and such events often demand on scene evaluation.
8. The Operational section outlined in this Chapter serves as a guideline to Department personnel, allowing for appropriate on scene decision making. The Administrative section, however, is more restrictive and few exceptions should be taken.
9. It is difficult to categorize specific capabilities for critical incidents. Training needs may vary based on the experience level of the team personnel, team administrators and potential incident commanders. Nothing in this Chapter shall prohibit individual teams from responding to a situation that exceeds their training levels due to the exigency of the circumstances. The preservation of innocent human life is paramount.
10. The SOD Commander, or his/her authorized designee, shall conduct an annual assessment to determine the type and extent of SWAT missions and operations that are appropriate to this department. The assessment shall consider the team's capabilities and limitations and review its training. This assessment shall be reported, in writing, to the Deputy Chief of the Field Operations Bureau no later than March 1<sup>st</sup> of each year.

## ORGANIZATIONAL PROCEDURES

11. The Commander of the Special Operations Division and the Deputy Chief of Field Operations shall jointly develop organizational procedures that should address, at a minimum, the following:
  - (a) Locally identified specific missions the team is capable of performing
  - (b) Team organization and function
  - (c) Personnel selection and retention criteria
  - (d) Training and required competencies
  - (e) Procedures for activation and deployment
  - (f) Command and control issues, including a clearly defined command structure
  - (g) Multiagency response
  - (h) Multi-Jurisdictional response
  - (i) Specialized functions and supporting resources

## OPERATIONAL PROCEDURES

12. The Commander of the Special Operations Division and the Deputy Chief of Field Operations shall jointly develop operational procedures, in accordance with SOD's level

of capability, using sound risk reduction practices. The operational procedures should be patterned after the ***National Tactical Officers Association's Suggested SWAT Best Practices***.

13. Operational Procedures are specific to CRU members and will outline tactical and officer safety issues, they are **CLASSIFIED** as **Confidential Security Data** and are not included within this Chapter. The operational procedures shall include, at a minimum, the following elements:
- (a) Personnel responsible for developing an operational or tactical plan should be designated prior to, and/or during SWAT operations (time permitting).
  - (b) All SWAT team members should have an understanding of operational planning.
  - (c) SWAT team training should consider planning for both spontaneous and planned events.
  - (d) SWAT teams should incorporate medical emergency contingency planning as part of the SWAT operational plan.
  - (e) Plans for mission briefings should be conducted prior to an operation, unless circumstances require immediate deployment.
  - (f) When reasonably possible, briefings should include the specialized units and supporting resources.
  - (g) Protocols for a sustained operation should be developed. These may include relief, rotation of personnel and augmentation of resources.
  - (h) A generic checklist to be worked through prior to initiating a tactical action should be developed. This will provide a means of conducting a threat assessment to determine the appropriate response and resources necessary, including the use of SWAT.
  - (i) The appropriate role for a trained negotiator should be defined.
  - (j) A standard method of determining whether a warrant should be regarded as high risk should be developed.
  - (k) A method for deciding how best to serve a high risk warrant should be developed, with all reasonably foreseeable alternatives being reviewed in accordance with risk/benefit criteria prior to selecting the method of response.
  - (l) The elements of post incident scene management should include:
  - (m) Documentation of the incident should be prepared by the Negotiation Team.
  - (n) Transition to investigations and/or other units.
  - (o) Debriefing after every deployment of the SWAT team.
  - (p) After action team debriefing provides evaluation and analysis of critical incidents and affords the opportunity for individual and team assessments. It also helps to identify training needs and reinforces sound risk management practices.
  - (q) Debriefing should not be conducted until involved officers have had the opportunity to individually complete the necessary reports or provide formal statements.
  - (r) To maintain candor and a meaningful exchange, debriefing will generally not be recorded.
  - (s) When appropriate, debriefing should include specialized units and all personnel present during the incident.
  - (t) Sound risk management analysis should be included.
  - (u) Standardization of equipment should be addressed.

## INITIAL TRAINING

14. SWAT team officers and SWAT supervisors/team leaders should not be deployed until successful completion of the **NOPD 4 Week Basic SWAT Course**. To avoid unnecessary or redundant training, previous training completed by members may be considered equivalent after evaluation by the SOD Training Officer.
15. Required team training for the specialized SWAT functions and other supporting resources shall be completed prior to full deployment of the team.

16. SWAT team officers and SWAT supervisors/team leaders shall complete a two week update or refresher training course every 24 months.

### **SUPERVISION AND MANAGEMENT TRAINING**

17. Command and executive personnel in the chain of command for SWAT are encouraged to attend training for managing the SWAT function at the organizational level. This ensures that the personnel who provide active oversight at the scene of SWAT operations understand the purpose and capabilities of the team.
18. Command personnel who may assume incident command responsibilities during a SWAT team deployment shall attend a SWAT or critical incident commander course or its equivalent. SWAT command personnel shall attend a SWAT commander or tactical commander course or its equivalent that has been approved by the department.

### **SWAT ONGOING TRAINING**

19. Training exercises shall include a review and critique of personnel and their performance in the exercise, in addition to the specialized training. Training shall consist of the following:
  - (a) Each SWAT member shall perform a physical fitness test twice each year. The physical fitness test is outlined within the SOD Standard Operating Guidelines and is a Pass / Fail test and must be successfully completed by each team member.
  - (b) Any SWAT team member failing to attain the minimum physical fitness qualification score will be notified of the requirement to retest within 30 days of the previous physical fitness test date and shall report to a team supervisor and complete the entire physical fitness test. Failure to qualify after a second attempt may result in dismissal from the team.
  - (c) Those members who are on leave, sick or are on limited duty status with a medical provider's notation of illness and treatment on the test date shall be responsible for reporting to a team supervisor and taking the test within 30 days of their return to regular duty. Any member who fails to arrange for and perform the physical fitness test within the 30 day period shall be considered as having failed to attain a qualifying score for that test period.
  - (d) Quarterly each SWAT team member shall perform the mandatory SWAT handgun qualification course. The qualification course shall consist of the SWAT basic drill for the handgun. Failure to qualify will require the officer to seek remedial training from a Range Master approved by the SOD Commander. Team members who fail to qualify will not be used in SWAT operations until qualified. Team members who fail to qualify must retest within 30 days. Failure to qualify within 30 days with or without remedial training may result in dismissal from the team.
  - (e) Quarterly each SWAT team member shall perform a mandatory SWAT qualification course for any specialty weapon issued to or used by the officer during SWAT operations. Failure to qualify will require the officer to seek remedial training from a Range Master approved by the SOD Commander. Team members who fail to qualify on their specialty weapon may not utilize the specialty weapon on SWAT operations until qualified. Team members who fail to qualify must retest within 30 days. Failure to qualify with specialty weapons within 30 days may result in the team member being removed from the team or permanently disqualified from use of that particular specialty weapon.

**SCENERIO BASED TRAINING / TRAINING SAFETY**

20. SWAT teams shall participate in scenario based training that simulates the tactical operational environment. Such training is an established method of improving performance during an actual deployment.
21. Use of a designated safety officer shall be employed for all tactical training. (Reference **Chapter 1.4.3 – Scenario Based Firearms Training** for general safety officer guidelines.)

**TRAINING DOCUMENTATION**

22. Individual and team training shall be documented and records maintained by the SOD Training Officer and Administrative staff. Such documentation shall be maintained in each member's individual training file. A separate SWAT training file shall be maintained with documentation and records of all team training.

**UNIFORMS**

23. SWAT team officers shall wear uniforms that clearly identify team members as law enforcement officers unless certain tactical conditions require covert movement. Attire appropriate to the specific mission shall be determined by the Commander of SOD.

**EQUIPMENT**

24. SWAT teams shall be adequately equipped to meet the specific missions identified by the Department and SOD Operational Procedures. (See: **Chapter 46.2.3 – CRU / SWAT Equipment.**)

**FIREARMS**

25. Weapons and equipment used by SWAT, the specialized units and the supporting resources shall be department issued, including any modifications, additions or attachments. **No personal weapons are authorized for SWAT officers other than the duty handgun.**

**OPERATIONAL READINESS INSPECTION**

26. The Commander of SOD shall appoint a CRU supervisor to perform an operational readiness inspection of all unit equipment at least quarterly. The result of the inspection will be forwarded to the SOD Commander. The inspection will include all equipment issued to members of the unit as well as special use equipment maintained for periodic or occasional use in the SWAT vehicles.

**MANAGEMENT / SUPERVISION OF CRISIS RESPONSE UNIT**

27. The commander of SOD shall be selected by the Superintendent of Police. The Commander of SOD shall select the commander of the CRU with the Superintendent's approval.

**TEAM SUPERVISORS**

28. The Crisis Negotiation Team (CNT) and each SWAT team will be supervised by a Team Leader who has been appointed by the SOD Commander.

29. The Team Leaders shall be selected by the Superintendent of Police upon specific recommendation by the SOD Commander.
30. The CNT supervisor's primary responsibility is to supervise the operations of the team, to include deployment, training, first line participation and other duties as directed by the SOD Commander.
31. The SWAT team supervisor's primary responsibility is to supervise the operations of the team, which will include deployment, training, active incident participation and other duties as directed by the SOD Commander.

### **CRISIS NEGOTIATION TEAM (CNT) ADMINISTRATIVE PROCEDURES**

32. The CNT provides skilled, verbal communicators who may be utilized to deescalate and affect the suspects' surrender in critical situations where suspects have taken hostages, barricaded themselves or have suicidal tendencies.

### **SELECTION OF PERSONNEL FOR CNT**

33. NOPD commissioned members, who are not on probation as a PO1 and have served 2 years, shall submit a request for training as a CNT member to their appropriate Division Commander. A copy of the request shall be forwarded to the SOD Commander and the CNT Team Leader.
34. Qualified applicants will then be invited to an oral interview. The oral interview board will consist of the SOD Commander, the CNT sergeant and a third person to be selected by the two. Applicants shall be evaluated on the following criteria:
  - (a) Recognized competence and ability as evidenced by performance as a police officer.
  - (b) Demonstrated good judgment and an understanding of the critical role of a negotiator and the negotiation process.
  - (c) Effective oral communication skills to ensure success as a negotiator.
  - (d) Special skills, training or appropriate education that may pertain to the assignment.
  - (e) Commitment to the unit's goals, understanding that the assignment may necessitate unusual working hours, conditions and training obligations.
35. The oral interview board shall submit a ranked list of successful applicants to the Field Operations Bureau Commander for final selection.

### **TRAINING OF NEGOTIATORS**

36. Those officers selected as members of the CNT shall attend a department approved, 40 hour basic negotiator's course prior to deployment in an actual crisis situation. Untrained officers may be used in a support or training capacity only. Additional training will be coordinated by the team supervisor.
37. A minimum of one training day per quarter, and an additional 40 hour annual training shall be required to maintain proper skills and certification. This will be coordinated by the team supervisor.
38. Continual and ongoing evaluation of a CNT team member's performance and efficiency as it relates to the positive operation of the team shall be conducted by the team supervisor as part of every After Action Report. Performance and efficiency levels established by the team supervisor must be met and maintained by all team members.

Any of the CNT who performs or functions at a less than satisfactory level shall be subject to dismissal from the CNT.

## **SWAT TEAM ADMINISTRATIVE PROCEDURES**

### **SELECTION OF PERSONNEL FOR SWAT**

39. NOPD commissioned members, who are not on probation as a PO1 and have served 2 years as a platoon officer, shall submit a request for training as a SWAT member to their appropriate Division Commander. A copy of the request shall be forwarded to the SOD Commander and the SWAT Team Leader.
40. Qualified applicants will then be invited to participate in the testing process. The order of the tests will be given at the discretion of the SOD Commander. The testing process will consist of an oral board, physical agility test and a SWAT basic handgun and team evaluation.
41. The oral interview board will consist of personnel selected by the SOD Commander. Applicants will be evaluated on the following criteria:
  - (a) Recognized competence and ability as evidenced by performance as a police officer.
  - (b) Demonstrated good judgment and an understanding of the critical role of a SWAT team member.
  - (c) Special skills, training or appropriate education that may pertain to the assignment.
  - (d) Commitment to the unit's goals, understanding that the assignment may necessitate unusual working hours, conditions and training obligations.
42. The physical agility test will determine the physical capabilities of the applicant as they relate to performance of SWAT related duties. The test and scoring procedure will be established by the SOD Commander. A passing score shall be attained by the applicant to be considered for the position.
43. Selected applicants will be invited to shoot the SWAT basic drill for the handgun to assess his/her skill level.
44. Current SWAT team members will individually evaluate each candidate on field tactical skills, teamwork, ability to work under stress, communication skills, judgment and any special skills the applicant possesses that could benefit the team.
45. A ranked list of successful applicants shall be submitted to the Deputy Chief of Field Operations Bureau by the SOD Commander for final selection.

### **TEAM EVALUATION**

46. Continual and ongoing evaluation of a SWAT team member's performance and efficiency as it relates to the positive operation of the team shall be conducted by the team supervisor as part of each After Action Report. Performance and efficiency levels established by the team supervisor must be met and maintained by all team members. Any member of the SWAT team who performs or functions at a less than satisfactory level shall be subject to dismissal from SWAT.

### **OPERATIONAL GUIDELINES FOR CRISIS RESPONSE UNIT**

47. The following procedures serve as guidelines for the operational deployment of the

Crisis Response Unit. Generally, the SWAT team and the CNT will be activated together. A SWAT team may be used in a situation not requiring the physical presence of the CNT, such as high risk warrant service operations at the discretion of the SOD Commander.

### **ON SCENE DETERMINATION**

48. The on scene supervisor in charge at the scene of a particular event will contact Communications Services to notify the SOD Commander, or his designee, and advise him/her of the circumstances. The SOD Commander or designee shall determine if the Crisis Response Unit should respond and advise the on scene supervisor.

### **APPROPRIATE SITUATIONS FOR USE OF A CRISIS RESPONSE UNIT**

49. The following are examples of incidents that may result in the activation of the Crisis Response Unit:
  - (a) Barricaded suspects who refuse an order to surrender.
  - (b) Incidents where hostages have been taken.
  - (c) Cases of suicide threats.
  - (d) Arrests of persons reasonably believed to be dangerous that qualify as high-risk.
  - (e) Any situation in which CRU or CNT deployment could enhance the ability to preserve life, maintain social order and ensure the protection of property.
  - (f) Special consideration should be given to structures requiring forced entry. These structures require specialized equipment to safely execute entry and may pose a significant threat to uniformed personnel.

### **OUTSIDE AGENCY REQUESTS**

50. Requests for assistance from outside agency crisis units must be approved by the Superintendent of Police, or his designee. Deployment of the New Orleans Police Department Crisis Response Unit in response to requests by other agencies must be authorized by Superintendent of Police, or his designee.

### **MULTI-JURISDICTIONAL SWAT OPERATIONS**

51. The NOPD SWAT team, including specialized units and supporting resources, shall develop protocols, cooperative endeavor agreements (CEA), and memorandums of understanding (MOU), as well as working relationships to support multi-jurisdictional or regional responses.
52. If it is anticipated that multi-jurisdictional SWAT operations will regularly be conducted, SWAT multiagency and multidisciplinary joint training exercises should be conducted.
53. Members of the New Orleans Police Department SWAT team shall only operate under the policies, procedures, supervision and command of the New Orleans Police Department when working in a multiagency situation.
54. Outside agency SWAT Teams requested by NOPD and deployed in the City of New Orleans shall be under the command of NOPD SOD supervisors. The only exception, absent a specific MOU or CEA, is the Louisiana State Police SWAT Team when called to handle a secondary location deployment where they operate independent of direct NOPD supervision. LSP has concurrent jurisdiction in Orleans Parish.

**MOBILIZATION OF CRISIS RESPONSE UNIT**

55. The on scene supervisor shall make a request to the District Platoon Commander for the Crisis Response Unit to respond. The District Platoon Commander shall then notify Communications Services and request the SOD Commander. If unavailable, a CRU team supervisor shall be notified. An up to date mobilization list shall be maintained in the SOD and CRU Platoon Commander's office by the SOD Commander. The Platoon Commander will then notify the Field Operations Bureau Deputy Chief as soon as practicable after activation of CRU.
56. The District Platoon Commander shall brief the SOD Commander with the following information if available:
- (a) The number of suspects, known weapons and resources.
  - (b) If the suspect is in control of hostages.
  - (c) If the suspect is barricaded.
  - (d) The type of crime involved.
  - (e) If the suspect has threatened or attempted suicide.
  - (f) The location and safe approach to the command post.
  - (g) The extent of any perimeter and the number of officers involved or engaged on the scene.
  - (h) Whether the suspect has refused an order to surrender.
  - (i) Any other important facts critical to the immediate situation.
57. The SOD Commander shall call selected SOD / CRU / SWAT officers to respond based on his/her assessment of the tactical situation and resource needs.

**FIELD UNIT RESPONSIBILITIES**

58. While waiting for the Crisis Response Unit, District personnel should, if safe, practicable and if sufficient resources exist:
- (a) Establish an inner and outer perimeter.
  - (b) Establish a command post outside of the inner perimeter.
  - (c) Establish a patrol emergency/arrest response team prior to SWAT arrival. The team actions may include:
    - Securing any subject or suspect who may surrender.
    - Taking action to mitigate a lethal threat or behavior.
    - Evacuate any injured persons or citizens in the zone of danger if it can be done without placing them at risk.
    - Attempt to establish preliminary communications with the suspect.**(NOTE: Once the CRU has arrived, all negotiations should generally be halted to allow the negotiators and SWAT team time to set up.)**
  - (d) Be prepared to brief the SOD Commander on the situation.
  - (e) Plan for and stage anticipated resources.

**ON SCENE COMMAND RESPONSIBILITIES**

59. Upon arrival of the Crisis Response Unit at the scene, the Incident Commander shall brief the SOD Commander and team supervisors. Upon review, it will be the decision, of the SOD Commander, whether to deploy the Crisis Response Unit.
60. Once the Incident Commander authorizes deployment, the SOD Commander will be responsible for the tactical portion of the operation. The Incident Commander shall continue supervision of the command post operation, outer perimeter security and support for the Crisis Response Unit. The Incident Commander and the SOD Commander or the authorized designee shall maintain communications at all times.

**COMMUNICATION WITH CRISIS RESPONSE UNIT PERSONNEL**

61. All persons who are non-Crisis Response Unit personnel should refrain from any non-emergency contact or from interference with any member of the unit during active negotiations. Operations require the utmost in concentration by involved personnel. No one should interrupt or communicate with CRU personnel directly. All non-emergency communications shall be channeled through the CNT sergeant or his/her authorized designee.

**REVIEW AND REPORTING**

62. Supervisory review of CRU / SWAT Team deployments shall be conducted by an uninvolved, command level supervisor possessing the requisite knowledge and expertise to analyze and critique specialized response protocols, and shall identify any policy, training, equipment or tactical concerns raised by the action. Command staff shall identify areas of concern or particular successes, and shall implement the appropriate response, including modifications to policy, training, or tactics.
63. The SOD Commander or his/her designee will track and analyze the number of CRU / SWAT Team deployments. The analysis shall include the reason for each activation, the legal authority, type of warrant (if applicable), and the result of each deployment, including:
- (a) The location,
  - (b) The number of arrests,
  - (c) The type of evidence or property seized,
  - (d) Whether a forcible entry was required,
  - (e) Whether a weapon was discharged by SWAT Team member, and
  - (f) Whether a person or domestic animal was injured or killed.
64. Supervisory review of CRU / SWAT Team deployments shall be maintained in a database that is accessible through INSIGHT and included in the NOPD's annual Use of Force Report.
65. In addition to any Use of Force Reports, the CRU / SWAT Team shall document its activities, in detail, including preparing written operational plans in consistent formats, and written after-action reports subsequent to call-outs and deployments to critical situations, such as hostage rescue, barricaded subjects, high-risk warrant service, high-risk apprehension, and terrorism response. After-action reports shall address any areas of concern related to policy, training, equipment, or tactics.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 46.9

### TITLE: MARINE SEARCH & RESCUE

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 831**

---

#### PURPOSE

The Marine, Search and Rescue Unit is established for the purpose of recovering evidence, searching for lost or missing boaters, recovering bodies from area lakes and bayous, as well as retrieving submerged vehicles, evidence or other assignments as directed by the Superintendent of Police or his/her designee.

#### POLICY STATEMENT

1. Louisiana Department of Wildlife and Fisheries is the lead agency on all maritime accidents occurring on state waterways. NOPD will coordinate with the Department of Wildlife and Fisheries to provide assistance as requested.
2. The Special Operations Division Marine Search and Rescue Unit is available on a 24 hour basis. The Special Operations Division Commander will provide a monthly roster of available call-out personnel to Communications Services.
3. Due to the hazardous nature of underwater operations, the SOD Commander shall determine if operations will be conducted in a particular body of water.
4. Command of Marine Search and Rescue Unit personnel on the scene of a dive will be the responsibility of the Team supervisor or the on scene SOD Commander.
5. Communications Services shall contact the Marine Search and Rescue Unit duty supervisor with the facts surrounding the request for service. The Marine Search and Rescue Unit supervisor will make a determination whether or not to initiate underwater, water born, or land based search/rescue operation.

#### OFFICER'S RESPONSIBILITIES

6. The officer on the scene shall contact his/her supervisor once it has been determined the assistance of the Marine Search and Rescue Unit is desired / needed.

#### SUPERVISOR'S RESPONSIBILITIES

7. The requesting officer's supervisor shall proceed to the scene and obtain all pertinent

information from the officer prior to requesting the Marine Search and Rescue Unit.

**OTHER REQUIREMENTS**

8. All reporting requirements, evidence transport and logging and scene documentation shall be the responsibility of the requesting officer and other Departmental support units (SCIS, CE&P, etc.).

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 46.14

### TITLE: ACTIVE SHOOTER

**EFFECTIVE: 04/15/2018**

**REVISED: Replaces Policy/Procedure 409**

---

#### PURPOSE

The purpose of this Chapter is to provide protocols for assessing the threat and performing rapid intervention tactics to limit serious injury or loss of life during active shooter situations. While the term “active shooter” is used throughout, this policy applies to all situations where there is an active, ongoing deadly threat, to include those from firearms, explosives, knives, and other instrumentalities.

#### POLICY

In situations where ongoing deadly force is being employed by a suspect and delay in taking police action could result in injury or death, the rapid intervention of officers at the scene is authorized to prevent further injuries or loss of life.

#### DEFINITIONS

**Active Shooter**—An armed person who has used deadly force on other persons and continues to do so while having unrestricted access to additional victims.

**Contact Team**—A team of officers who make immediate entry into a location to locate and neutralize the threat posed by the active shooter.

**Incident Command System (ICS)**—A standardized on-scene emergency management system that provides for the adoption of an integrated organizational structure. ICS is the combination of facilities, equipment, personnel, procedures, and communications operating within a common organizational structure, designed to aid in the management of resources during incidents. ICS can be used for all kinds of emergencies, and is applicable to small as well as large and complex incidents. In each emergency or incident, regardless of its size, the principles of ICS apply. The first on-scene officer has management responsibility.

**Incident Commander (IC)**—The individual, on scene (officer or supervisor) responsible for all incident activities, including the development of strategies and tactics, and the ordering and release of resources. The IC has overall authority and responsibility for conducting incident operations and is responsible for the management of all operations at the incident site. The first on-scene officer will be the IC unless and until IC responsibilities are assumed by a supervisor or other qualified officer, up to the chief of the department, depending on the size, scope, and complexity of the incident or event.

**Rapid Response or Rapid Intervention**—An assessment decision made by the on-scene incident commander that the situation presented is a dynamic, active shooter incident rather than a hostage situation and requires immediate intervention by law enforcement officers to stop the shooter.

**Rescue Team**—A team of officers who make entry after the contact team to provide first aid and evacuate wounded individuals or officers from a hostile environment.

### OFFICER'S RESPONSIBILITIES

1. Initial responding officer(s) shall make a situational assessment based on available information from dispatched responders or officers already at the incident scene to verify that an active shooter situation exists through information provided by dispatch, from persons confined within or exiting the target location, witnesses, reports of—or sounds of—gunfire, or related means.
2. Where available and as time permits, witnesses, or others on scene should be asked about the location and number of suspects, the suspects' weapons, persons injured, the number and location of persons in possible jeopardy, and the use or location of improvised explosive devices (IEDs). (See also: **Chapter 46.3 – Bomb Calls**).
3. In those incidents where it has been determined/established the active shooter is on the scene in a fixed location, the officer(s) on the scene shall focus their response on the active shooter and determine if:
  - (a) Violence is currently taking place,
  - (b) The suspect(s) is shooting his/her weapon, or
  - (c) The shooter(s) has access to additional potential victims.
4. Upon completion of the initial, on-scene assessment, the IC shall:
  - (a) Advise Communications Services and request resources as necessary, and
  - (b) Determine whether to take immediate action alone, with another officer, or wait until additional resources are available.
5. The initial, on-scene assessment by the Incident Commander and the subsequent determination of rapid intervention does not require approval of a supervisor not already on scene. The IC will be responsible for following Departmental guidelines and reporting requirements.

### RATIONALE FOR RAPID INTERVENTION

6. The responding officers shall determine whether rapid intervention is legally justified and reasonable. This decision may be based on such considerations as whether or not
  - (a) Deadly weapons are available to or have been used by the suspect;
  - (b) Victims are under the suspect's control, are readily accessible, or both; and
  - (c) The suspect poses an ongoing threat of deadly force.
7. The officer's assessment of his/her capability to effectively intervene should be based on such factors as whether:
  - (a) The officer is armed and in possession of appropriate equipment;
  - (b) It is reasonable to believe that persons will be killed or injured if immediate response to the threat is not taken;
  - (c) The size, configuration, and related physical aspects of the incident site allow for movement, stealth, cover, and related tactical needs;
  - (d) The suspect is accessible; and

- (e) The incident site offers opportunities for cover and concealment to assist tactical options, adequate routes for evacuation, or secure locations in which to hide.

### COMMUNICATION SERVICES RESPONSIBILITIES

8. Communications Services shall immediately make a multi-channel broadcast on all available channels. The Commander or on-duty supervisor of the Special Operations Division (SOD) shall be notified. Communications Service shall follow the critical incident protocol in making notifications to the Command Staff.
9. The Communications Services Liaison shall assume responsibility for all notifications. All requests for support assistance will be routed through Communications Services.

### METHOD OF DEPLOYMENT - INDIVIDUAL OFFICER RESPONSE

10. The majority of active shooter incidents involve one suspect, a factor that makes individual officer intervention a potentially viable option for saving lives, even if additional resources are not readily available. In some instances, an individual officer may be present within or nearby the active shooting location, such as a mall or school. Whether on or off duty, in uniform or civilian clothes, he or she may determine that immediate tactical intervention is necessary and reasonable to stop the threat. That decision should be based on the factors noted in Rationale for Rapid Deployment.
11. As soon as practical, officer(s) shall notify Communications Services that an active shooter situation exists. The officer should provide the following information and updates as available:
- (a) The identity, location, manner of dress (uniform, **plainclothes**), and proposed actions of the officer(s) at the scene;
  - (b) All available information on the suspect to include a physical description, weapons, explosives, equipment such as body armor, and suspect's current location and actions; and
  - (c) Available information on persons injured or under threat, their locations, emergency resources required, and recommended points of entry.

**NOTE: The presence of plainclothes officers on the scene of an active shooter incident presents a very high risk of "friendly fire" casualties. Every effort shall be made to minimize the use, risk and exposure of plainclothes officers on an active shooter scene. Plainclothes officers shall be replaced with uniformed officers on an active shooter scene as soon as possible.**

12. When displaying firearms while in plainclothes, officers shall verbally identify themselves as police officers, and conspicuously display NOPD badge and/or other police identification to alert security personnel, arriving officers, or civilians who may be armed.
13. If feasible, officers should facilitate evacuation by:
- (a) Locating points of egress from danger zones and directing people to those evacuation points if reasonably safe for them to do so; and
  - (b) Locating and directing persons hiding in unsecure locations (e.g., under desks, inside unlocked rooms) to evacuation points.
14. If evacuation is not possible, officers should:
- (a) Help locate and direct persons to safer locations, preferably with thick walls; solid doors with locks; or, in the absence of such locations, rooms that can be barricaded with heavy furniture or objects;

- (b) Direct individuals to silence all personal electronic devices, take cover, and remain silent;
- (c) Take any actions possible to distract, disrupt, divert, or incapacitate the shooter using surprise attacks and force; and
- (d) When possible, officers should assist with the injured and direct incoming teams to injured persons.

#### **METHOD OF DEPLOYMENT - CONTACT TEAM RESPONSE**

15. A contact team response to an active shooter situation is preferred in nearly all active shooter situations—irrespective of any initial actions that may have been taken. Even if the threat seemingly has been terminated, contact teams are required to render the location safe, assist in screening and orderly evacuation of persons to a designated area, and locating any other persons still in hiding.
16. Normally, only one contact team shall be deployed at any given time but additional teams may be deployed at the direction of the IC to provide tactical advantage. The IC shall ensure that each team is aware of the other teams' locations and actions. The mission of the contact team is to locate and stop the threat.
17. The contact team shall move as quickly as possible towards the active shooter. The active shooter may be armed with dangerous instruments other than a firearm. Contact team officers may have to ignore injured persons requiring medical treatment.
18. One officer on the contact team shall be responsible for broadcasting the team's progress. The contact team shall be provided a clear communications channel to provide the following types of information:
  - (a) The team's progress and location.
  - (b) The location and number of victims and their medical needs.
  - (c) The estimated number of suspects involved.
  - (d) The suspects' descriptions and weapons if known.
  - (e) The location of any booby traps or explosives. If discovered, the contact team leader shall determine whether to post an officer near it, report it, or mark it for later removal.
19. The contact team shall locate the suspect(s) in the most expeditious manner possible in order to stop the threat. In doing so, as long as locating and neutralizing the threat remains the priority, officers **should not stop** to render aid or assistance to victims but may, where reasonably possible, inform them that rescue teams are forthcoming and direct them to a safe point of egress or hiding if they are ambulatory and it is deemed safe for them to do so.
20. The contact team should employ tactical advantages such as avoiding use of the main entrance to provide an element of surprise and to avoid potential booby traps or ambush.
21. The contact team should not attempt to conduct a thorough clearing of the location but should follow sounds (such as gunfire, yelling, and screaming); observe victims and bystanders; and locate the suspects as soon as possible.
22. Once the suspects have been located and the threat eliminated, the contact team should proceed to clear all portions of the location in the event that more suspects are in hiding.

23. Arriving SWAT, Emergency Response Teams (ERTs), or other officers should be called upon to help clear the location of potential suspects, locate and evacuate persons in hiding, and render safe any dangerous munitions or armament.

#### **METHOD OF DEPLOYMENT - RESCUE TEAM**

24. Once the contact team is deployed, and as officers and resources arrive at the incident scene, the IC should ensure that rescue teams are formed to provide first aid and to help evacuate victims. Rescue teams generally consist of four to six officers but may be expanded to include medical personnel or other officers as the situation dictates.
25. Rescue teams shall be organized under a team leader, deploy in tactical formations consistent with departmental training, and be prepared to respond to hostile action as rapidly changing circumstances may place them in contact with suspects. In such instances, the team shall be prepared and equipped to serve as the contact team.
26. Rescue teams shall be deployed only after the contact team has made entry, provided a status report, notified Communications Services of the location of victims, and determined that rescue efforts may begin. Wounded and injured persons shall be quickly searched, if reasonable, for weapons and removed to the designated emergency first aid area with cover and movement of such persons provided by team members. If emergency medical personnel are not yet in place, basic first aid shall be the responsibility of rescue team members until they are relieved by medical personnel.
27. Medical personnel may be permitted to accompany or respond to rescue team members if wounded persons are incapable of being moved.
28. Rescue team members shall search uninjured persons in the hostile environment before moving them to a designated safe area in the hostile environment or the evacuation site.
29. Rescue and recovery operations shall continue until the IC has declared the scene clear and safe.
30. Officers assigned to the evacuation site shall maintain custody and control of all persons and document their identities until they can be reunited with family or others. Victims and witnesses suffering from emotional and/or physical trauma or shock should be kept under the observation of medical personnel until such time as they may be safely transported to a hospital or home in the care of family or friends.

#### **INCIDENT COMMAND AND COMMAND POST**

31. The IC shall ensure that the following actions are accomplished:
  - (a) Establish Incident Command System and Command Post.
  - (b) Establish communication.
  - (c) Identify (and staff) a staging area for first responders, a second staging area for family members, and a third staging area for the media.
  - (d) Identify an additional staging area for SWAT, if employed.
  - (e) Request mutual aid if necessary.
  - (f) Organize unified interagency telecommunications if necessary.
  - (g) Establish traffic control and management (ingress and egress routes).
  - (h) Contact appropriate aviation resources to control air space for possible medical evacuation resources and to establish restricted air space for law enforcement use only.
  - (i) Request emergency medical assistance and designate a safe staging area for treatment of the injured and evacuation by EMS or medevac.

- (j) Initiate intelligence gathering on possible suspects.
  - (k) Select a safe location to place/hold evacuees, i.e., the evacuation site.
  - (l) Summon police chaplains and officers to provide information to relatives of victims.
  - (m) Coordinate with owners or officials of the target location for floor plans, site layout, and a roster (including emergency contact information as available) of employees, students, residents, visitors, or others believed to be on-site.
  - (n) Assign a recorder to document actions at the command post.
32. When SOD/SWAT arrives on the scene they shall be briefed by the current IC and will determine if and when their supervisor will assume command as IC. The change of command to SOD/SWAT shall be broadcast on all working communications channels.
33. The active shooter incident shall not be declared "safe" until the Commander of SOD/SWAT or his/her on-scene designee broadcasts that the scene has been secured by SOD/SWAT. This does not mean the incident has been concluded. Active shooter incidents are lengthy, can require multiple shifts and possibly days to investigate before the scene can be released.

### **REPORTING AND DEBRIEFING**

34. The initial responding officer shall be responsible for preparing the original incident report unless assigned to another officer by the officer's supervisor.
35. The Commander of the SOD is responsible for the internal after-action report if SOD has assumed responsibility on the scene prior to a Code 4.
36. As soon as reasonably possible after the incident, a debriefing of essential personnel involved in the incident shall be conducted. It will be done by the Commander of the unit responsible for the after-action report if SOD has not assumed responsibility on scene prior to a Code 4, or the Commander of SOD if SOD has assumed responsibility for the scene.
37. The debriefing shall identify both positive and negative aspects of the deployment with the intent of addressing areas in need of improvement and to determine whether changes in operational protocols, policy, or training may be warranted as a result.

### **TRAINING**

38. The Department shall provide active shooter training to all commissioned members. Whenever possible, simulation training exercises should be utilized in real-life facilities such as schools, churches, and public venues.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 46.16

### TITLE: WEAPONS OF MASS DESTRUCTION (WMD)

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 411**

---

#### PURPOSE

The purpose of this chapter is to establish guidelines in the reporting of, and response to, incidents involving Weapons of Mass Destruction (WMD).

#### DEFINITIONS

**Weapon of Mass Destruction—Means: (see: U.S. Code Title 18 Part I Chapter 113B § 2332a)**

- (a) Destructive device as defined in 18 USCA § 921;
- (b) Weapon that is designed or intended to cause death or serious bodily injury through the release, dissemination, or impact of toxic or poisonous chemicals, or their precursors;
- (c) Any weapon involving a biological agent, toxin, or vector; or
- (d) Any weapon that is designed to release radiation or radioactivity at a level dangerous to human life.

The types of WMDs include:

- (a) Biological agents;
- (b) Nuclear and radiological weapons;
- (c) Incendiary Devices;
- (d) Chemical agents;
- (e) Explosives.

**Destructive device—Means: (U.S. Code Title 18 Chapter 44 § 921)**

- (a) Any explosive, incendiary, or poison gas
- (b) Bomb,
- (c) Grenade,
- (d) Rocket having a propellant charge of more than four ounces,
- (e) Missile having an explosive or incendiary charge of more than one - quarter ounce,
- (f) Mine, or
- (g) Device similar to any of the devices described in the preceding clauses;
- (h) Any type of weapon (other than a shotgun or a shotgun shell which the Attorney General finds is generally recognized as particularly suitable for sporting purposes) by whatever name known which will, or which may be readily

- converted to, expel a projectile by the action of an explosive or other propellant, and which has any barrel with a bore of more than one - half inch in diameter; or
- (i) Any combination of parts either designed or intended for use in converting any device into any destructive device described in paragraph (a) or (b) and from which a destructive device may be readily assembled.

### COMMUNICATIONS SERVICES RESPONSIBILITIES

1. Upon receiving a complaint of a WMD incident, the Communications Services shall obtain the following information:
  - (a) Caller information;
  - (b) Location of WMD;
  - (c) Type of WMD if known;
  - (d) Description of the WMD;
    - Size and shape,
    - Whether or not the package or container has been opened, if known,
    - Whether the WMD has been released into the air or is leaking.
  - (e) When the WMD was delivered, and by whom or how it was delivered;
  - (f) How the WMD was transported through the building , if delivered to a building;
  - (g) How many people have handled the WMD once inside the building; and
  - (h) Keep the caller on the phone, if possible, to provide additional information if needed.
  
2. Once the initial information is obtained and entered into the complaint history, Communications Services shall immediately notify the NOPD Liaison.
  
3. The NOPD Liaison shall:
  - (a) Notify the Patrol Supervisor of the affected district or districts,
  - (b) Advise the Patrol Supervisor which units are clear to respond to the incident,
  - (c) Obtain the weather conditions and wind speed and direction and advise the dispatcher responsible for the incident,
  - (d) Immediately notify the Superintendent, Assistant Superintendents, and all departmental commanders via the email and text messaging system,
  - (e) Notify the City of New Orleans Office of Homeland Security and Special Operations Division Commander, and
  - (f) Contact the Emergency Medical Services (EMS) and New Orleans Fire Departments (NOFD) and advise them of the incident.
  
4. Communications Services shall assign the complaint to a supervisor, and two District patrol units if available from the affected district. Communications Services shall also advise the responding units of the weather conditions and wind direction.
  
5. Once Communications Services has been notified of a confirmed WMD incident, they shall make the required notifications from a notification log book containing names of each agency to be notified depending on the type of incident. This information shall be maintained and updated, by each respective agency, on a quarterly basis.
  
6. During normal business hours, Communications Services shall notify the Assistant Superintendent of the Management Services Bureau to have Police Headquarters locked down and secured. In the event of evening hours and weekends, Communications Services shall notify the NCIC Unit and have Police Headquarters locked down and secured. In both instances, non-departmental members shall be evacuated from the building, and only department members shall have access to Police Headquarters.

7. Communications Services shall notify the Commander of the Homicide Cold Case Squad in the event of a confirmed WMD incident.
8. Communications Services personnel shall broadcast an Emergency Alert across all radio dispatcher controlled talk groups maintained by the New Orleans Police Department, the NOFD and EMS and on all MDT's. This Emergency Alert shall be repeated every hour until the threat is secured or the Incident Commander instructs otherwise. The Emergency Alert shall contain the location, weather conditions and basic information about the incident.

### **RESPONSIBILITIES OF THE RESPONDING UNITS**

(Refer to *WMD Response Guide Book*, U.S. Department of Justice)

9. Responding units shall proceed cautiously to the scene. Once arriving on the scene the responding units shall maintain a safe distance of at least 700 - 1000 feet and evaluate the scene. Prior to entering the scene, responding units shall:
  - (a) Advise on scene arrival (10-97);
  - (b) Turn off all electronic equipment, radio, cell phones, pagers, etc. prior to entering the scene;
  - (c) One unit is to maintain a safe distance of at least 700 - 1000 feet to communicate with Communications Services advising of a Code 4, or if additional units/support units are needed;
  - (d) The other unit should approach the area cautiously from an upwind direction, resisting the urge to rush in;
  - (e) Secure the scene;
  - (f) Identify the hazards;
  - (g) Assess the situation, considering the following:
    - Is there a fire, a spill, or a leak?
    - What are the weather conditions?
    - What is the terrain like?
    - Who/what is at risk: people, property, or the environment?
    - What actions should be taken? Are evacuation routes or shelters necessary?
    - What can be done immediately?
  - (h) Notify dispatcher of safe ingress and egress routes; and
  - (i) Document all actions.

### **SUPERVISOR RESPONSIBILITIES**

10. Once the on scene supervisor has determined the scene appears to be the result of a WMD incident, the supervisor shall:
  - (a) Ensure the scene is secured;
  - (b) Notify Communications Services of the incident and advise of observations;
  - (c) Have the NOPD Liaison notify NOFD and EMS and advise them of the observations noted;
  - (d) Account for all personnel involved and assign their duties, traffic control, etc.;
  - (e) Identify ingress and egress routes;
  - (f) Request additional units, if needed;
  - (g) What resources (human and equipment) are required and estimate the time to deployment;
  - (h) Advise their platoon commander and/or commander of the district;
  - (i) Evacuate, as necessary, or as directed;
  - (j) Assign responsibility to document all actions.

## CONTROL OF THE SCENE

11. Once it is determined as to the type of incident, the proper agency, or agencies, shall control the scene (i.e.: fire, search and rescue, Hazmat, etc.). In all instances, the New Orleans Police Department shall use the National Incident Management System/Unified and Incident Command System.

## OVERALL SCENE SUPERVISION

12. The Commander of Special Operations Division shall assume responsibility as the Incident Commander for the NOPD unless another agency has assumed that designation. The Commander of the Special Operations Division shall work in conjunction with the New Orleans Fire Department, Emergency Medical Services and City Office of Homeland Security in order to do the following:
  - (a) Designate a safe area for an Incident Command Post;
  - (b) Designate a safe area for a decontamination area;
  - (c) Designate a safe area for first aid;
  - (d) Ensure all department members complete a trip sheet, and
  - (e) Document all actions.
13. Once representatives of the Federal Bureau of Investigation (FBI) or other designated federal agency arrive on the scene, they may assume the responsibilities of the scene and crisis management of all incidents involving Federal violations. The assumption of scene responsibility shall be communicated clearly and over all utilized communications systems. New Orleans Police Department shall maintain participation, as needed and directed under the National Incident Management System/Unified and Incident Command System.

## MEDIA RELATIONS

14. The NOPD Public Information Officer, or his/her designee, shall respond to the scene. Once on the scene, he/she will designate an area for the media and establish ground rules for scheduled briefings.

## DE-ESCALATION OF AN INCIDENT

15. All police supervisors shall be responsible for accounting for all personnel under their command at the conclusion of incident event cycle and the conclusion of police operations or participation. In the event NOPD members are not immediately located, the supervisor will then notify the Incident Commander through the incident chain of command. The Incident Commander, in turn, will assign responsibility for the formulation of a search plan for the missing member(s).
16. NOPD Supervisors shall be responsible for the accounting of all equipment issued to members under their command.
17. The Incident Commander shall prepare an After-Action Report to the Superintendent, Assistant Superintendents, and the Office of Emergency Preparedness within (7) seven days of the conclusion of NOPD participation in the incident containing:
  - (a) Incident item number, location, date and time of incident;
  - (b) Duration of the incident;
  - (c) Incident command staff;
  - (d) Specialized units involved;
  - (e) Inventory of all department equipment utilized;

- (f) All agencies involved;
- (g) All personnel used;
- (h) Synopsis of the incident;
- (i) Weather conditions;
- (j) If any public resources were affected,
- (k) Any injuries, deaths, or arrests;
- (l) Problems encountered; and
- (m) Recommendations.

### **DOCUMENTATION OF A WMD INCIDENT**

18. The Federal Bureau of Investigation is the federally mandated agency for crisis management of a WMD incident. If an incident report is required the below listed divisions are responsible for documentation, after consultation with the Federal Bureau of Investigation.
- (a) All WMD incidents involving biological, chemical, nuclear, or radiological warfare, the New Orleans Police Department's Special Operations Division shall document the incident.
  - (b) All WMD incidents involving serious injury or death shall be documented by the New Orleans Police Department's Homicide Cold Case Squad.
  - (c) All incidents involving bombings, intentional explosion or arson with a non-terrorism motive shall be handled in accordance with the current Chapter, except in the following instances:
  - (d) If the bombing, intentional explosion or arson incident is clearly an act of terrorism, the New Orleans Police Department Special Operations Division shall document the incident, after consultation with the Federal Bureau of Investigation;
  - (e) If the bombing, intentional explosion or arson incident is clearly an act of terrorism and results in serious injury or death, the New Orleans Police Department's Homicide Cold Case Squad shall document the incident, after consultation with the Federal Bureau of Investigation.

### **CRITICAL INCIDENT STRESS DEBRIEFING**

19. Members involved in critical incidents may be traumatized to varying degrees. Post-incident debriefings will be set up to reduce the impact of the incident, as well as, enhance the well-being and recovery of personnel in accordance with **Chapter 22.2.7 – Officer Assistance Program Traumatic Incident Stress**.

### **OTHER RESOURCES**

20. This Chapter is to be used in conjunction with the New Orleans Police Department's Emergency Management Plan.
21. A ranking member of the Field Operations Bureau, with the rank of Captain or higher shall be assigned by the Deputy Chief of FOB to the Office of Emergency Preparedness, located at City Hall, and act as a liaison between the NOPD field units and the Office of Emergency Preparedness.
22. One member of the New Orleans Police Department Joint Terrorism Task Force, as assigned by the Deputy Chief of ISB, shall respond to the local Federal Bureau of Investigations Headquarters and act as a liaison between the field units and the Federal Bureau of Investigations.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 46.19

### TITLE: AIRCRAFT ACCIDENTS

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 434**

---

#### PURPOSE

This Chapter describes situations involving aircraft accidents and the responsibilities of members.

#### DEFINITIONS

**Aircraft Accident**—An occurrence associated with the operation of an aircraft which takes place between the time any person boards the aircraft with the intention of flight and all such persons have disembarked, and in which any person suffers death or serious injury, or in which the aircraft receives substantial damage (49 CFR § 830.2).

#### OFFICER RESPONSIBILITIES

1. Officers should treat an aircraft accident site as a major crime scene until it is determined that such is not the case.
2. If a military aircraft is involved, additional dangers, such as live ordnance or hazardous materials, may be present. The scene may also require additional security due to the potential presence of confidential equipment or information.
  - (a) The duties of the responding officer at the scene of an aircraft accident include the following:
    - (b) Implement Incident Command System (ICS).
    - (c) Determine the extent of the accident.
    - (d) Notify his/her immediate supervisor.
    - (e) Advise Communications Services to notify the district commander.
    - (f) Request additional officers and other resources to respond as needed.
    - (g) Provide assistance for any injured parties until the arrival of NOFD or EMS.
    - (h) Cordon off and contain the area to exclude unauthorized individuals as soon as practicable.
    - (i) Provide traffic and crowd control and other assistance until directed otherwise by a supervisor.
    - (j) Ensure the Coroner's Office is notified if a death occurs.
3. Entering an aircraft or tampering with parts or debris is only permissible for the purpose of removing injured or trapped occupants, protecting the wreckage from further damage or protecting the public from danger.

4. If reasonably possible, the investigating authority should first be consulted before entering or moving any aircraft or any accident debris. Photographs or sketches of the original positions should be made whenever practicable.
5. The NOFD will be responsible for control of the accident scene until the injured parties are cared for and the accident scene has been rendered safe for containment.
6. Once rendered safe for containment, NOPD will be responsible for preserving the scene until relieved by the principal investigating authority, such as the National Transportation Safety Board (NTSB).
7. Once the scene is relinquished to the principal investigating authority, NOPD may assist in containment of the scene until the investigation is completed or assistance is no longer needed.
8. An airport service worker or the airport manager may respond to the scene to assist the on-scene commander with technical expertise, should it be needed during the operation.

### **NATIONAL TRANSPORTATION SAFETY BOARD**

9. The National Transportation Safety Board has the primary responsibility for investigating accidents and making notifications involving civilian aircraft, including aircraft of foreign registry.
10. In the case of a military aircraft accident, the appropriate branch of the military will be involved in the investigation. The NTSB is concerned with several aspects of an accident as described in this section.
11. Every effort should be made to **preserve the scene** to the extent reasonably possible in the condition in which it was found until such time as the NTSB or other authorized personnel arrive to take charge of the scene.
12. Military personnel will respond to take charge of any military aircraft involved, regardless of any injury or death.
13. If the accident did not result in a death or injury and the NTSB elects not to respond, the pilot or owner may assume control of the aircraft.
14. Removal of the wreckage shall be done under the guidance of the NTSB or military authorities. If the NTSB is not responding for an on-site investigation, it will be removed at the discretion of the pilot or the owner.

### **COMMUNICATIONS SERVICES RESPONSIBILITIES**

15. Communications Services and the NOPD Liaison are responsible for making notifications as directed once an aircraft accident has been reported. The notifications will vary depending on the type of accident, extent of injuries or damage and the type of aircraft involved. Generally, Communications Services or the NOPD Liaison will need to notify the following agencies or individuals when an aircraft accident has occurred:
  - (a) New Orleans Fire Department
  - (b) The appropriate airport tower
  - (c) Closest military base if a military aircraft is involved
  - (d) EMS or other assistance as required
  - (e) Public Information Officer
  - (f) District Commander

(g) Field Operations Bureau Deputy Chief

16. Communication Services will notify the Traffic Division Commander of the incident.
17. If requested, the Communications Services shall provide a dedicated channel for management of the incident.
18. When an aircraft accident is reported by the airport tower personnel, Communications Services shall verify that the tower personnel will contact the Federal Aviation Administration (FAA) Flight Standards District Office and the NTSB. In the event that airport personnel are not involved, the dispatcher shall notify the FAA and the NTSB.

#### **RECORDS MANAGER RESPONSIBILITIES**

19. The Records Division Commander or his/her designee shall:
  - (a) Forward and maintain an approved copy of the NOPD report to the Louisiana Department of Transportation and Development, Aviation Section.
  - (b) Forward a copy of the NOPD report to the Deputy Chief of Field Operations Bureau.

#### **PRESS INFORMATION OFFICER RESPONSIBILITIES**

20. The New Orleans Police Department Public Information Officer's responsibilities include:
  - (a) Obtaining information for a press release from the on-scene commander or the authorized designee.
  - (b) When practicable, coordinating with the FAA or military Press Information Officer on preparing a press release and distributing it to the media.
21. Information released to the press regarding any aircraft accident should be handled by the Department Public Information Officer or in accordance with existing policy.
22. Officers on scene shall not give information to the media and direct all media related questions to the Public Information Officer.

#### **COMMANDER RESPONSIBILITIES**

23. When notified of an aircraft incident commanders have the following responsibilities:
  - (a) The **Traffic Division Commander** will send personnel to the scene to conduct an investigation and determine whether to request additional aid to the scene to contain the area of the accident from civilians and others that should not be present at the scene.
  - (b) The **Special Operations Division Commander** or designee will determine whether to send personnel to assist the traffic division if needed. Factors to consider in this determination include the location of accident, size of aircraft and number of passengers involved.

#### **DOCUMENTATION**

24. Any aircraft accident within the city, regardless of whether injuries or deaths occur, shall be documented in an incident report (EPR). The Traffic Division will be responsible for completing the initial incident report.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 46.20

### TITLE: CRIME AND DISASTER SCENE INTEGRITY

**EFFECTIVE: 05/20/2018**

**REVISED: (Replaces Policy/Procedure 406)**

---

#### PURPOSE

The purpose of this Chapter is to establish protocols and accountability measures for the comprehensive processing of all crime scenes. The goal is to identify, protect, collect and process evidence that will identify persons responsible for crime and exonerate the innocent.

#### POLICY STATEMENT

1. The protection and integrity of a crime scene is of the utmost importance for the identification of persons responsible for crime and exonerating the innocent.
2. The integrity of a disaster scene is critical for the protection of life and property, and investigation by proper authorities.

#### DEFINITIONS

**Crime Scene**—A crime scene is any location that may be associated with a crime. It can be the place where the crime took place, or any area where evidence of or from the crime itself may potentially be found. Crime scenes can contain physical evidence that is pertinent to criminal investigations, which may be retrieved by a law enforcement agency, crime scene investigators, a community member, or in some circumstances, a forensic scientist.

**Crime Scene Investigation**—The use of physical evidence, witnesses and physical objects that may be present at the scene of the crime and the use of deductive and inductive reasoning to gain knowledge of the events surrounding the crime. The method of protecting, processing and reconstruction of a crime. It doesn't matter where the crime took place or if there are more than one crime scenes involved. A crime scene can envelop more than one location and can be anywhere (i.e. on land, in water, in a tree, buried six feet underground, etc.)

**Major Crime Scene**—A location where any of the listed crimes or incidents took place (or another location where evidence linked to those crimes or incidents may be found), and comprises the area from which most of the physical evidence is retrieved by law enforcement personnel, crime scene investigators (CSIs) or, in rare circumstances, forensic scientists.

Major crimes include:

- (a) All deaths (homicides, suicides and unclassified) except for "natural" causes
- (b) Aggravated battery (with serious injury, possibly fatal and/or multiple victims)
- (c) Level 4 uses of force investigated by PIB-FIT (see: **Chapter 1.3 – Use of Force**)

- (d) Sexual assaults handled by ISB-SVS (see: **Chapter 42.2 – Sexual Assault**)
- (e) Aggravated kidnapping
- (f) Arson (with serious injury, possibly fatal)

### FIRST RESPONDER CONSIDERATIONS

3. The following describes the functions which the first responding officer should take at a crime or disaster scene. This list is not intended to be all-inclusive, is not necessarily in order and may be altered according to the demands of each situation, the availability of resources, capacity of personnel and totality of each circumstance:
  - (a) **Safety of officer(s)**—Ensure adequate police personnel are present to control the scene. Code 4 (no other units needed) the scene or wait for support/back-up. Ensure no suspects are still in the area.
  - (b) Safety of others (render aid if it can be done safely and/or request medical support).
  - (c) Identify/apprehend possible suspect(s) on scene and/or broadcast critical identifying information.
  - (d) Secure/preserve the scene from tampering or contamination; restrict access and set perimeter(s). Evacuate the area if safety demands.
  - (e) Identify hazards or dangerous conditions to responding personnel.
  - (f) Identify and isolate victim(s) / witness(es) to preserve credibility / accuracy of information.
  - (g) Determine basic facts of incident and classify the crime if possible.
  - (h) Protect items of apparent evidentiary value.
  - (i) Request required support/resource units – SCIS, SWAT, Canine, Coroner, CIT, etc.
  - (j) Notify supervisor and/or request presence.
  - (k) Notify/request investigative specialists if required (FIT, Homicide, SVS, DV, etc.).
  - (l) Start a chronological log noting critical times and personnel allowed access (can use **Major Crime Scene Roster Report - Form #187**).
  - (m) Prevent unauthorized access of personnel, the media or the public.
  - (n) Conclude scene investigation and processing; release the scene.

### CRIME SCENE RESPONSIBILITIES

4. The first officer at the scene of a crime or disaster scene is responsible for taking reasonable efforts to preserve the scene. Officers shall also consider officer safety and public safety, including reasonable efforts to render medical aid to any obviously injured parties, including the offender if it is safe to do so. Once an officer has assumed or been assigned to maintain the integrity of the crime/disaster scene, the officer shall continue the assignment until relieved by a supervisor.
5. The first responding supervisor at a crime or disaster scene is responsible for coordinating the duties and responsibilities of all District officers on the scene until the responsibility for the investigation has been assumed by an investigative specialist or specialized investigative unit. The same considerations that applied to the first responder (above) also apply to the first responding supervisor including the use, review and approval of **Major Crime Scene Roster Report (Form #187)** on major crime scenes.

### FIRST RESPONDER SEARCHES AT CRIME OR DISASTER SCENE

6. First responding officers arriving at crime or disaster scenes are often faced with the immediate need to search for and render aid to victims and to determine if suspects are present and pose a threat. Once officers have determined that no unsecured suspects are present and/or there are no injured persons to be treated, the exigent circumstances

that allow for the warrantless search will likely no longer exist. Officers should thereafter secure the scene and conduct no further searches until proper authority for the search is obtained.

## **FIRST RESPONDER INVESTIGATIVE RESPONSIBILITIES**

### **IF A MAJOR CRIME SCENE**

7. For crime scenes which are major crimes, once the scene is stable and safe, the first responding officer(s) shall:
  - (a) Briefly interview the victim(s) and witness(es) to determine facts and classify the crime.
  - (b) Assign duties and responsibilities of support personnel and officers (perimeter security, searches/canvass, taking statements, etc.) until relieved by a supervisor or assigned investigator.
  - (c) Coordinate with SCIS Crime Scene Specialists and technicians to identify critical evidence for collection, preservation, processing and photographing until relieved by a supervisor or assigned investigator.

### **IF NOT A MAJOR CRIME SCENE**

8. For all investigations and crime scenes that are not a major crime scene or the exclusive investigative responsibility of a specialized unit, the officer or investigator assigned to the call for service is responsible for the investigation and reporting of the incident.

## **COMMAND AT A CRIME SCENE**

9. The first responding officer(s) shall be in initial command of the crime scene and responsible for the duties and responsibilities as described above. The command of the scene remains with the first responding officer(s) until a higher ranking officer, or the assigned specialized investigator(s), verbally communicates he/she is assuming command of the scene.
10. The first responding officer(s) shall have the authority to restrict entry to the scene by other department personnel, of any rank, not participating, or necessary in the investigation.
11. The investigator(s) assigned to the case are in command of all aspects of the scene investigation. Upon arrival, the investigator shall coordinate the placement and assignment of uniform officers necessary for the investigation with the District's ranking officer on the scene.
12. The case investigator(s) shall be responsible for determining which evidence is necessary for his/her investigation. Specialists and other crime scene technicians shall serve in a support role on the crime scene. The collection, preservation, and photographing of evidence shall be guided by the recognized procedures of evidence collection as determined by the crime scene technician.

## **SUPPORT SERVICES NEEDED ON SCENE**

13. Upon receipt of a complaint call classified as a "major crime," Communications Services shall dispatch at least two (2) District units or officers and a supervisor to respond.
14. In any incident where a responding officer(s) verifies an incident is a "major crime," he/she shall request Communications Services make the following notifications immediately:
  - (a) The District Investigative Unit (DIU) supervisor on duty for investigative support;
  - (b) The Scientific Criminal Investigations Section (S.C.I.S.) for Crime Scene Technicians;

- (c) The Public Information Office for notification and coordination of media personnel on the scene (if needed); and
- (d) Any specialized unit required to be on the scene (i.e. FIT, DV, Sex Crimes, Child Abuse, Homicide, etc.).

## **PRESERVATION AND PROTECTION OF PHYSICAL AND WITNESS EVIDENCE**

15. The guidelines of **Chapter 83.1 – Collection and Preservation of Evidence** shall be followed to preserve the scene, collect and process evidence, and maintain the chain-of-custody of evidence.
16. The preservation of the crime scene area shall be coordinated through the use of crime scene banner tape or physical barriers to ensure the area of the crime is secured. When feasible, the area being secured should extend beyond the original crime scene no less than 50 feet if practical.
17. Officers shall "double-tape" a major crime scene. The smaller section (interior perimeter) of the scene shall include the body, evidence, etc. The larger section provides for a safety zone for the members working the scene as well as a reactionary gap for any persons who should not be present on the crime scene (including law enforcement members who are not working on the case).
18. Access to the crime scene (interior perimeter) will be strictly limited. Personnel from the Scientific Criminal Investigations Section (SCIS), assigned specialized investigators, EMS personnel rendering first aid and the medical examiner shall be the only personnel allowed in the secondary crime scene area absent specific permission of the principle investigator of the case.
19. The officer(s), investigator(s), or supervisor(s) having overall responsibility for a crime scene shall ensure adequate security of the area while the crime scene is being processed.
20. In all instances of a death investigation, where the body remains on the scene, the homicide screens **shall be utilized**, as soon as practicable. Each District Commander shall implement a system where the homicide screens are available for use at all times.
21. Officers shall not handle evidence or enter the scene unnecessarily as this may damage, alter, or destroy evidence. Any evidence which must be moved or relocated (such as a firearm near a body) shall have its recovery location documented for the investigative report. Repositioning items or evidence that has been moved from the scene for photographic purposes is **strictly prohibited**.
22. If a victim is moved, such as when transported by Emergency Medical Services technicians, the first responding officer(s) shall note the position of the victim's body on the scene, and record if anything was removed from the victim's clothing or person.
23. Witnesses shall be separated whenever possible, to ensure accurate preservation of their individual accounts and observations. The responding officer shall interview witnesses to gain basic facts to classify the incident, gain probable cause for an arrest, and/or obtain descriptions of wanted subjects. Detailed statements and interviews shall be performed and coordinated by the assigned investigator.
24. The investigating officer or follow-up investigator will be responsible for the retrieval of any firearms related evidence (i.e. firearms, casings, bullets, pellets, fragments, etc.) from the hospital, if it is recovered by the medical facility. Investigators shall ensure all evidence recovered is placed on the books at Central Evidence and Property in accordance with NOPD policies/procedures.

25. The investigating officer will recover firearms related evidence (i.e. firearms, casings, bullets, pellets, fragments, etc.) from the scene, if the scene is not being processed by Crime Scene Technicians.

### **ATTENDING TO THE VICTIM(S)**

26. In the event a victim is transported to a hospital for treatment, an officer shall be assigned to accompany the victim or meet the victim upon arrival at the hospital for interviewing, as allowed by the medical authorities on the scene and at the hospital. If the original responding officer cannot vacate the scene because he/she is charged with scene preservation, a ranking officer in the district of occurrence shall be notified.
27. In cases where the victim(s) is uncommunicative for medical reasons, the assigned investigator will be responsible for checking on the status of the victim(s) daily. Should the victim's condition improve and they are capable of being interviewed; the assigned investigator shall proceed to the victim's location and conduct an interview.

### **APPREHENSION OF THE OFFENDER(S)**

28. If an apprehension of the criminal offender is made, the arresting officer, if not the case investigator, shall determine if the clothing worn by the suspect may contain physical or trace evidence, or may be needed for purposes of identification by witnesses.
29. The case investigator shall determine whether such clothing shall be confiscated. As soon as replacement clothing can be obtained from the Central Lock Up or the hospital, the suspect's clothing may be removed as evidence at the Central Lock Up or hospital.
30. If the clothing confiscated is for identification purposes only, the assigned investigator(s) shall retrieve and package the clothing for delivery to the Central Evidence & Property Section.
31. If the clothing is to be processed for trace or physical evidence, a crime scene technician shall assist the assigned investigator in the collection, preservation, and packaging of evidence clothing. The crime scene technician shall be responsible for processing these items of evidence at the Central Evidence and Property Section.
32. Any clothing items confiscated shall be packaged to preserve trace evidence and prevent cross-contamination.
33. The investigating officer is responsible for ensuring all required forms are completed to have recovered evidence tested.

### **MAJOR CRIME SCENE SIGN-IN SHEET / OFFICER'S STATEMENT FORM**

34. The first responding ranking officer(s) shall designate the crime scene perimeter boundaries, and assign an officer to record the names of all persons who enter the scene on the **Major Crime Scene Roster Report (Form #187)**. The assigned officer(s) shall record the names of all persons (police officers, ranking officers, Emergency Medical Services technicians, crime scene technicians, etc.) entering the perimeter until such time as he/she is relieved of the duty by a ranking officer or the case investigator(s).
35. All members of this department and any other person entering the scene, shall provide their name, employee identification number, and unit number, and may be required to produce identification if requested to the recording officer. The person entering the scene shall also affix his/her initials in the space provided next to their name on the

Form #187.

36. Upon completion of the scene investigation the Major Crime Scene Roster Report shall be given to the case investigator. The form shall be included as an official document in the supplemental investigation report.
37. Nothing in this Chapter limits the officer, investigator or supervisor from using, or directing the use of the Major Crime Scene Roster Report on ANY scene where he/she believes the use will aid in the clarity of the investigation.

#### **SCIENTIFIC CRIMINAL INVESTIGATIONS SECTION**

38. The crime scene technicians from the Scientific Criminal Investigations Section shall be responsible for the marking, collection, proper packaging and photographing of evidence from a crime scene. The technician shall collect identified evidence as requested by the case investigator.
39. The crime scene technicians shall also deliver to the Central Evidence and Property Section all evidence confiscated from the scene. Items of evidence that have been handled by the individual officers prior to the arrival of the crime scene technician shall be turned over to the crime scene technician for entry in the Central Evidence and Property Section. The crime scene technicians shall assist in the packaging of such evidence. All evidence logged into the Central Evidence and Property Section shall have the case item number noted in order to connect the evidence with the case.
40. Whenever evidence is collected which requires scientific analysis or comparison at the crime laboratory, a **Laboratory Examination Request Form (Form #207)** shall accompany the evidence to the Central Evidence and Property Section. The crime scene technician shall provide this form to the case investigator who will list any examinations required. This form must be completed in detail to ensure that the requested testing of the evidence is clearly defined and articulated. Only those items which have an examination request will be considered for analysis at the crime laboratory.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 51.1

### TITLE: CRIMINAL INTELLIGENCE

EFFECTIVE: 5/13/2018

REVISED: 10/2/2022

---

#### PURPOSE

The purpose of this Chapter is to provide department members with guidelines and principles for the collection, analysis, and distribution of criminal intelligence information, as well as requesting access to certain information systems for use in criminal investigations.

#### POLICY STATEMENT

1. Information gathering is a fundamental and essential element in the duties of any law enforcement agency.
2. Criminal intelligence information is used to prevent crime, pursue, and apprehend offenders, and obtain evidence necessary for conviction or exoneration of suspects. By themselves, **the individual results of the use of this information may be insufficient to constitute probable cause** but can be an element of reasonable suspicion or probable cause when viewed with other elements of the investigation to obtain an arrest or search warrant.
3. It is the policy of this Department to lawfully gather criminal intelligence information directed toward specific individuals or organizations where there is reasonable suspicion that said individuals or organizations may be planning or engaging in criminal activity.
4. It is the policy of this Department to allow lawful access, for criminal investigative purposes, to criminal intelligence information through the Investigation Support Division – Intelligence Unit of ISB. All requests shall be reviewed by the requesting investigator's supervisor and verified by the Intelligence Unit for appropriateness and conformance to the requirements of this Chapter and **Chapter 51.1.1 – Use of Surveillance Technology and Facial Recognition for Criminal Investigation**.
5. Criminal intelligence information will be gathered with due respect for the rights of those involved and disseminated only to those agencies or members authorized by law and only as appropriate for legitimate law enforcement purposes in accordance with the law and procedures established in this Chapter.
6. While the criminal intelligence function may be assigned to specific members within the department, all members of the New Orleans Police Department are responsible for reporting information that may help identify criminal suspects.

7. It is the mission of the intelligence function to gather information from all sources in a manner consistent with the law and to analyze that information to provide tactical and/or strategic intelligence on the existence, identities, and capabilities of criminal suspects and enterprises generally and to further crime prevention and enforcement objectives/priorities identified by the New Orleans Police Department.
8. Information gathering in support of the intelligence function is the responsibility of each member of this department, although specific assignments may be made as deemed necessary by the Superintendent of Police.
9. Information that implicates or suggests implication or complicity of any public official in criminal activity or corruption shall be immediately reported to the Superintendent of Police or the Chief Administrative Officer for the City of New Orleans.

## DEFINITIONS

**Actionable intelligence**—Information gleaned from a range of sources that enables decision makers—from agency leaders to field commanders—to take appropriate and timely action when faced with a security threat like an imminent terrorist attack or the shipment of weapons of mass destruction. The collection of critical information related to the targeted criminality that provides substantive insight into crime threats and identifies individuals for whom there is a reasonable suspicion of relationship to a crime. Actionable intelligence aims to find out what criminals are doing now and when and where they plan to do it.

**Criminal Intelligence**—Information compiled, analyzed, and disseminated in an effort to anticipate, prevent, or monitor criminal activity. Criminal intelligence files consist of stored information on the activities and the associations of persons who are suspected of being involved in or having been involved in:

- (a) The actual or attempted planning, organizing, financing, or commission of criminal acts;  
or
- (b) Criminal activities with known or suspected crime figures.

**Criminal Intelligence Files**—Files containing information on the activities and associations of organizations, businesses, and groups that:

- (a) Are suspected of being or have been involved in the actual or attempted planning, organizing, financing, or commission of criminal acts; or are suspected of being or have been illegally operated, controlled, financed, or infiltrated by known or suspected crime figures: or
- (b) Concern existing patterns or emerging trends of criminal activity designed to assist in criminal apprehension and crime control strategies, for both short-term and long-term investigative goals.

**Law Enforcement Purpose** - the investigation, detection, analysis or enforcement of a crime or a violation of law; operations associated with an AMBER, SILVER, BLUE, or YELLOW alert; searches for missing persons, endangered persons or wanted persons; suspicious activity possibly related to terrorism or other public safety issue.

**Link analysis**—A data-analysis technique used to evaluate connections or relationships between organizations, people, and transactions. It can be used in the investigation of criminal activity for fraud detection, counterterrorism, and intelligence.

**Strategic Intelligence** – information about the broader capabilities and intentions of criminals or criminal organizations. Strategic intelligence is utilized for overall planning and future direction of operations.

**Tactical Intelligence**—Information regarding a specific criminal event that can be used immediately by operational units to further a criminal investigation, plan tactical operations, and provide for officer safety.

**Reasonable Suspicion**—Specific, objective, articulable facts, within the totality of the circumstances, that, taken together with rational inferences, create a well-founded suspicion that there is a substantial possibility that a subject has engaged, is engaging, or is about to engage in criminal conduct.

**Fusion Centers** - are state-owned and operated centers that serve as focal points in states and major urban areas for the receipt, analysis, gathering and sharing of threat-related information between State, Local, Tribal and Territorial (SLTT), federal and private sector partners.

## **RESPONSIBILITY FOR CRIMINAL INTELLIGENCE FUNCTION**

10. The Investigations & Support Bureau's - Investigation Support Division's (ISD) primary responsibility for the direction of criminal intelligence operations; coordination of members; and collection, evaluation, collation, analysis, and dissemination of intelligence information.
  - (a) The Captain of the Investigation Support Division's (ISD) shall report directly to the Deputy Chief of the Investigations & Support Bureau (ISB) on a schedule prescribed by the ISB Deputy Chief.
  - (b) Intelligence-related to narcotics information shall be the responsibility of the Investigation Support Division Captain for processing through the Narcotics Section.
  - (c) All other intelligence (including, but not limited to, both traditional and non-traditional organized crime groups, gangs, terrorism, racketeering, outlaw biker groups, and hate crimes) shall be the responsibility of the ISD Captain.
11. The Investigations & Support Bureau's (ISB) Investigation Support Division – Intelligence Unit of ISB has primary responsibility for:
  - (a) Receiving requests (NOPD RFI Form 360) from NOPD investigative units for information thru the law enforcement Fusion Centers for criminal investigations or a law enforcement purpose.
  - (b) Reviewing the submitted requests for appropriateness and compliance with this Chapter.
  - (c) Processing the requests, if approved, through the Fusion Centers and databases to which NOPD has access by law or MOU.
  - (d) Vetting any responses received prior to release to the original requestor.
  - (e) Forwarding the vetted response to the original requestor when appropriate and within the guidelines of this Chapter.
  - (f) Maintaining a record of all requests and the responses.

## **REQUESTING INFORMATION FROM CRIMINAL INTELLIGENCE FILES OF FUSION CENTERS**

12. Members who have investigation and require information from the Criminal Intelligence Unit or a Fusion Center in relation to a law enforcement purpose within the meaning of this Chapter, shall utilize **Form 360 – Request for Information Form** to document the request.
13. All requests shall be reviewed for appropriateness and approved by the requestors immediate supervisor prior to sending to Investigation Support Division – Intelligence

Unit of ISB for processing.

14. The underlying reasons for the requested information (Form 360) as an investigative lead shall be documented in an NOPD EPR. The item number for that EPR shall be reflected in the request form. A copy of the form shall be included as an attachment to the EPR.
15. The results of the request shall also be documented in the same NOPD EPR or a supplemental EPR as the original request item number.
16. No requests for criminal intelligence information or access to information from a Fusion Center or any outside agency shall be made by any member directly to another jurisdiction, the State, or any federal agency without prior approval of the supervisor of the NOPD Intelligence Unit. All requests shall be reported to and tracked through NOPD – Investigation Support Division – Intelligence Unit of ISB only.

### INVESTIGATIVE STANDARDS

17. The intelligence function is often confronted with the need to balance information-gathering requirements for law enforcement with the rights of individuals. Members of this department shall adhere to the following:
  - (a) Information gathering for intelligence purposes shall be premised on circumstances that provide a reasonable suspicion that specific individuals or organizations may be planning or engaging in criminal activity.
  - (b) Investigative techniques employed shall be lawful and as minimally intrusive as necessary to gather sufficient information to prevent the criminal act and/or to identify and prosecute violators.
  - (c) The Investigation Support Division shall take reasonable steps to ensure that information added to criminal intelligence file systems is relevant to a current or on-going investigation and the product of dependable and trustworthy sources of information. A record shall be kept of the source of all information received and maintained by the Investigation Support Division.
  - (d) Information gathered and maintained by the New Orleans Police Department for intelligence purposes may be disseminated only to those agencies or members authorized by law and only as appropriate for legitimate law enforcement purposes in accordance with the law and procedures established in this Chapter.
  - (e) A record shall be kept by the Investigation Support Division regarding the request and dissemination of all such information to persons within the department or other law enforcement agencies.

### COMPILING INTELLIGENCE

18. Intelligence investigations/files may be opened by the Investigation Support Division with sufficient information and justification. File information may include, but is not limited to, the following types of information:
  - (a) The subject, victim(s), and complainant as appropriate;
  - (b) Summary of suspected criminal activity;
  - (c) Anticipated investigative steps to include proposed use of informants, photographic, or electronic surveillance;
  - (d) Resource requirements, including personnel, equipment, buy/flash monies, travel costs, etc.;
  - (e) Anticipated investigative results; and
  - (f) Problems, restraints, or conflicts of interest.
19. Members **shall not retain official intelligence documentation for personal reference**

or other than for purposes of their investigation. If further information is required for investigative purposes, members shall submit such information directly to the Investigation Support Division.

20. Information gathering using confidential informants as well as electronic, photographic, and related surveillance devices shall be performed in a legally accepted manner and in accordance with procedures established by this department.
21. All information designated for use by the Investigation Support Division shall be submitted and reviewed by the officer's immediate supervisor prior to submission, through his/her appropriate chain of command.

### **ANALYSIS OF INFORMATION SUBMISSIONS**

22. The Investigation Support Division shall establish and maintain a process to ensure that information gathered is reviewed and analyzed to derive its meaning and value.
23. The review and analysis process should be accomplished by trained analysts or by law enforcement personnel experienced in data analysis procedures.
24. Analytic material (e.g., intelligence) shall be compiled and provided to authorized recipients as soon as possible where meaningful trends, patterns, methods, characteristics or intentions of criminal enterprises or individuals emerge.

### **RECEIPT / EVALUATION OF INFORMATION**

25. The following steps are taken to ensure the quality and reliability of information:
  - (a) Information shall be evaluated with respect to reliability of the source and validity of the content. While evaluation may not be precise, this assessment must be made to the degree possible to guide others in using the information.
  - (b) A record shall be kept of the source of all information where known.
  - (c) Reports and other investigative material and information received by this department shall remain the property of the originating agency but may be retained by the New Orleans Police Department.
  - (d) Such reports and other investigative material and information shall be maintained in confidence, and no access shall be given to another entity except with the consent of the originating agency.
  - (e) Information having relevance to active cases or that requires immediate attention shall be forwarded to the responsible investigator or investigative unit supervisor as soon as possible.

### **FILE CLASSIFICATIONS AND STATUS**

26. Intelligence file status will be status of the case classified as either "**open**" or "**closed**," in accordance with the following:
  - (a) **Open**—Intelligence files which are actively being worked. To remain open, officers working such cases must file intelligence status reports covering case developments at least every 180 days.
  - (b) **Closed**—Intelligence files in which investigations have been completed, where all logical leads have been exhausted or where no legitimate law enforcement interest is served. All closed files must include a final case summary report prepared by or with the authorization of the lead investigator in the EPR or a related report.

**CLASSIFICATION / SECURITY OF INTELLIGENCE**

27. Intelligence files will be access level classified to protect sources, investigations, and individual's rights to privacy and to provide a structure that will enable this department to control access to intelligence information.
28. These access level classifications shall be reevaluated whenever new information is added to an existing intelligence file.
  - (a) **Restricted**—Intelligence files that contain information that could adversely affect an ongoing investigation, create safety hazards for officers, informants, or others and/or compromise their identities. Restricted intelligence may only be released by approval of the Investigation Support Division Captain, ISB Deputy Chief or Superintendent of Police and only to authorized law enforcement agencies with a need and a right to know. Restrictions on the release and sharing of information in any multi-agency operation shall be governed by the Memorandum of Understanding or Cooperative Endeavor Agreement in place at the time.
  - (b) **Confidential**—Intelligence files that are less sensitive than restricted intelligence. It may be released to department personnel when a need and a right to know have been established by the SD Captain or his designee.
  - (c) **Unclassified**—Intelligence files that contain information from the news media, public records, and other sources of a topical nature. Access is limited to officers conducting authorized investigations that necessitate this information.
29. Any restricted and confidential intelligence files maintained by the NOPD shall be secured both physically and electronically, and access to all intelligence information shall be controlled and recorded by procedures established by the Investigation Support Division.
30. Informant files shall be maintained separately from intelligence files and in accordance with established department procedure.
31. Intelligence files shall be maintained in accordance with state and federal law.
32. Release of intelligence information in general and electronic surveillance information and photographic intelligence to any authorized law enforcement agency shall be made only with the express approval of the Investigation Support Division Captain and with the stipulation that such intelligence not be duplicated or otherwise disseminated without the approval of the ISD Captain, ISB Deputy Chief or Superintendent of Police.
33. All files released under freedom of information provisions or through disclosure shall be carefully reviewed and redacted as legal and appropriate.

**AUDITING / PURGING FILES**

34. The captain of the division/district is responsible for ensuring that criminal intelligence files housed within that division/district are maintained in accordance with the law and the provisions of this Chapter and include information that is both timely and relevant.
35. All criminal intelligence files shall be audited and purged on an annual basis as established by the ISB Deputy Chief. This shall include District Intelligence Reports that have been uploaded to the Department intranet (NOPD.org). (See also: **Chapter 43.6 – Criminal Street Gangs**.) Data utilized by MAX, or for ongoing investigations shall be retained until it is anonymized, or the investigation is concluded and/or any related judicial proceedings are final.

36. When a criminal intelligence file has no further information value and/or meets the legal criteria, it shall be destroyed in accordance with public records law.
37. A record of the purging of criminal intelligence files shall be provided to and maintained by the Investigation Support Division for a minimum of seven years after the purge.

#### **DISTRICT INTELLIGENCE REPORTS**

1. District Intelligence Reports produced by each district contain criminal intelligence that is specific to each district. The reports should be generated monthly and uploaded to the District Intelligence Report folder on the secured department intranet (NOPD.org) by the District Captain or his/her designee. District Intelligence Reports are accessible on the Department intranet (NOPD.org). If the report details information outside the scope of criminal street gang intelligence (See also: **Chapter 43.6 – Criminal Street Gangs**), its use and any follow-up action shall be determined by the Captain of ISB-Investigation Support Division in consultation with the District Investigative Unit commander.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 51.1.1

### TITLE: USE OF FACIAL RECOGNITION FOR CRIMINAL INVESTIGATIONS

EFFECTIVE: 10/02/2022  
REVISED: NEW POLICY

---

#### PURPOSE

The purpose of this Chapter is to provide department members with guidelines for requesting access to facial recognition software for use in criminal investigations.

#### POLICY STATEMENT

1. Information gathering is a fundamental and essential element in the investigative duties of any law enforcement agency.
2. Facial recognition technology must be used in a manner consistent with the requirements and protection of the Constitution of the United States, the Louisiana State Constitution, and applicable statutory authorities. The facial recognition process does not by itself establish a basis for a stop, probable cause to arrest, or to obtain an arrest or search warrant. However, it may generate investigative leads through a combination of automated biometric comparisons and human analysis.
3. Facial recognition can be used to prevent crime, pursue and apprehend offenders, and obtain evidence necessary for the conviction or exoneration of suspects involved in a crime of violence or in cases of missing persons to identify or locate the missing person. **The individual results of the use of this technology alone are insufficient to constitute probable cause** but may be an element of reasonable suspicion or probable cause when viewed with other elements of the investigation to obtain an arrest or search warrant.
4. The safeguards and protocols built into this policy for the use of facial recognition technology mitigate the risk of biased law enforcement. This NOPD facial recognition policy integrates human investigators in all phases. All possible facial recognition matches undergo a peer review by other facial recognition investigators. Further, the possible match report includes the submitted image, and a notification stating that **the determination of a possible match candidate alone does not constitute probable cause to effect an arrest or obtain an arrest or search warrant, and that further investigation is needed to establish probable cause.**
5. The approval, screening and use of any facial recognition function shall be assigned to specific members within the Investigation Support Division – Intelligence Unit of ISB by

the Captain of the Investigation Support Division. All members of the New Orleans Police Department are responsible for compliance with this Chapter.

6. All requests for use of or access to facial recognition software shall be made through the Investigation Support Division – Intelligence Unit of ISB. All requests shall be reviewed by the requesting investigator's supervisor and verified by the Intelligence Unit for appropriateness and conformance to the requirements of this Chapter and **Chapter 51.1 – Criminal Intelligence**. All requests for use of facial recognition (Form #357) shall be directed toward specific individuals where there is reasonable suspicion that said individuals may be planning, have engaged in, or are engaging in a crime of violence.
7. Use of facial recognition will be requested and authorized with due respect for the rights of those involved and disseminated only to those agencies or members authorized by law and only as appropriate for legitimate law enforcement purposes in accordance with the Constitution, Federal, State, and Municipal law and the procedures established in this Chapter. It is especially important that facial recognition not be used to suppress First Amendment rights, violate privacy, or otherwise adversely impact an individual's civil rights and civil liberties.
8. Information obtained using facial recognition that implicates or potentially implicates complicity of any public official in criminal activity or corruption shall be immediately reported to the Superintendent of Police.
9. The NOPD shall not use facial recognition technology to monitor and identify people in public gatherings or political rallies, except as provided in this chapter.
10. NOPD shall not use facial recognition technology as a surveillance tool.
11. NOPD Investigators shall not use facial recognition technology to authenticate an already identified subject or where identifiable information has been provided.
12. Facial recognition shall not be used for the investigation of a violation or attempted violation of any law criminalizing (1) abortion or the provision thereof by a licensed physician, and (2) any consensual sexual act between persons of the age of majority, including without limitation any law purporting to criminalize sexual contact between same-sex partners.
13. Facial recognition shall not be used for any internal administrative investigation
14. The misuse of facial recognition technology will subject members to administrative and potentially criminal penalties.

## DEFINITIONS

**Crime of Violence**— a felony involving the infliction or threatened infliction of serious bodily injury or death. (see RS 14:2(B))

**Facial Recognition** – is an automated or semi-automated system or process that displays the closest matches of a photograph, sketch or image uploaded to an image database and assists in identifying an individual, capturing information about an individual based on the physical characteristics of an individual's face. Used in combination with human analysis and additional investigation, facial recognition technology can serve as a valuable tool in solving crimes and increasing public safety.

**Law Enforcement Purpose** - the investigation, detection, analysis or enforcement of a crime or

a violation of law; operations associated with an AMBER, SILVER, BLUE or YELLOW alert; searches for missing persons, endangered persons or wanted persons; suspicious activity possibly related to terrorism or other public safety issue.

**Reasonable Suspicion** - specific, objective, articulable facts, within the totality of the circumstances, that, taken together with rational inferences, create a well-founded suspicion that there is a substantial possibility that a subject has engaged, is engaging, or is about to engage in criminal conduct.

**Automated decision systems** (also known as "ADS") - include any software, system, or process that aims to automate, aid, or **replace human decision making**. Automated decision systems can include both tools that analyze datasets to generate scores, predictions, classifications, or some recommended actions(s) that are used by agencies to make decisions that impact human welfare and the set of processes involved in implementing those tools.

**Surveillance** - the act of observing or analyzing the movements, behavior, or actions of identifiable individuals.

**Fusion Centers** - are state-owned and operated centers that serve as focal points in states and major urban areas for the receipt, analysis, gathering and sharing of threat-related information between State, Local, Tribal and Territorial (SLTT), federal and private sector partners.

## REQUESTING USE OF FACIAL RECOGNITION SYSTEMS

15. Members who have an image relating to an individual they wish to identify in relation to a law enforcement purpose within the meaning of this Chapter, shall utilize **Form 357 – Facial Recognition Request Form** to document the request.
16. All requests shall be reviewed for appropriateness and approved by the requestor's immediate supervisor prior to sending to Investigation Support Division – Intelligence Unit of ISB for processing.
17. The use of facial recognition technology must be approved on a case-by-case basis by an NOPD supervisor. The NOPD Form 357, or its' electronic equivalent, will serve as a sworn affidavit certifying (a) the reason for the request and the enumerated crime justifying the use of facial recognition technology and (b) that all other reasonable means of identifying the individual have been exhausted, absent exigent circumstances.
18. Access to facial recognition technology is limited to NOPD facial recognition investigators. Facial recognition investigators are provided with direct access to facial recognition technology only after completing mandatory training related to the general use of the technology and image comparison principles, including the requirements of 28 CFR Part 23, Privacy, Civil Rights, and Civil Liberties Training.
19. The source of the image and underlying reasons for the requested use of facial recognition systems as an investigative lead shall be documented in an investigative report. The item number for that report shall be reflected in the request form. A copy of the form shall be included as an attachment to the report.
20. NOPD prohibits the use of facial recognition technology to examine body-worn camera video to identify people who may have open warrants. However, if an officer, whose body-worn camera is activated, witnesses a crime but is unable to apprehend the suspect, a still image of the suspect may be extracted from body-worn camera video and submitted for facial recognition analysis.

21. The results of the request shall also be documented in the same investigative report or a supplemental report as the original request item number.
22. No requests for the use of Facial Recognition Technology or access to information from a Fusion Center or any outside agency shall be made by any member directly to another jurisdiction, the State, or any federal agency without prior approval of the supervisor of the NOPD Intelligence Unit. All requests shall be reported to and tracked through NOPD – Investigation Support Division – Intelligence Unit of ISB and the Professional Standards Section.

### **RESPONSIBILITY FOR VETTING REQUESTS FOR FACIAL RECOGNITION SEARCHES**

23. The Investigations & Support Bureau's (ISB) Investigation Support Division – Intelligence Unit of ISB has primary responsibility for:
  - (a) Receiving requests from NOPD investigative units for the use of facial recognition for a law enforcement purpose.
  - (b) Ensuring the submitted requests have been reviewed by the requestor's supervisor for appropriateness and compliance with this Chapter.
  - (c) Processing the requests, if approved, through the facial recognition systems and databases to which NOPD has access by law or MOU.
  - (d) Reviewing any responses received prior to release to the original requestor.
  - (e) Forwarding the response to the original requestor when appropriate and within the guidelines of this Chapter.
  - (f) Maintaining a record of all requests and the responses.

### **INVESTIGATIVE STANDARDS**

24. The use of facial recognition for investigative purposes is a balance between information-gathering requirements for law enforcement and possible legal and privacy rights of individuals. To promote an equitable balance, members of this department shall adhere to the following:
  - (a) Information gathering by use of facial recognition shall be premised on circumstances that provide a reasonable suspicion that specific individuals may be planning, have engaged, or are engaging in a specific crime of violence, sex crime, crime against a juvenile, or for a law enforcement purpose as defined in this Chapter, as governed by New Orleans Municipal Code Section 147-2. This can include:
    1. Identifying a crime victim or witness,
    2. Identifying a deceased person,
    3. Identifying an incapacitated person or one unable to identify themselves when exigent circumstances are present,
    4. Identifying an individual under arrest who does not possess a verifiable identification, is not forthcoming with identification or who appears to be using another's identity, identification, or false identification, and
    5. To mitigate an imminent threat to health or public safety (e.g., to thwart an active terrorism plot, etc.)
  - (b) Investigative techniques employed shall be lawful and as minimally intrusive as necessary to gather enough information to prevent the criminal act and/or to identify and prosecute violators.
  - (c) The Investigation Support Division – Intelligence Unit of ISB shall take reasonable steps to ensure that information regarding the use and access to facial recognition systems is relevant to an active, current, or on-going investigation and the product of dependable and trustworthy sources of information. A record shall be kept of the requests for use of facial recognition and the source of all information received.

- (d) Facial recognition shall not be used for the investigation of minor offenses, except as part of an investigation of a serious criminal offense.
- (e) Information gathered and maintained by the New Orleans Police Department for law enforcement purposes may be disseminated only to those agencies or members authorized by law and only as appropriate for law enforcement purposes in accordance with the law and procedures established in this Chapter and **Chapter 51.1 – Criminal Intelligence**.
- (f) A record shall be kept by the Investigation Support Division – Intelligence Unit of ISB regarding the dissemination of all such information to persons within the department or other law enforcement agencies.

### **COMPILING INFORMATION FROM FACIAL RECOGNITION SYSTEMS**

- 25. Information gathering using facial recognition systems, as well as electronic, photographic, and related images shall be performed in a legally accepted manner and in accordance with procedures established by this department.
- 26. All information requests designated for the Investigation Support Division – Intelligence Unit of ISB shall be submitted, reviewed, and approved by the requesting officer's immediate supervisor prior to submission.
- 27. Members **shall retain official documentation relating to facial recognition only for purposes of their investigation** and as documented in a police report or official case file. Members shall not maintain documentation relating to facial recognition for personal reference or use.

### **ANALYSIS OF FACIAL RECOGNITION INFORMATION SUBMISSIONS**

- 28. The Investigation Support Division – Intelligence Unit of ISB shall establish and maintain an internal process to ensure that information requested and gathered is reviewed and analyzed to derive its appropriateness and value in an investigation.
- 29. The review and analysis process should be accomplished by trained law enforcement personnel experienced in facial recognition procedures and criminal intelligence processes.
- 30. Images submitted and approved for comparison to a law enforcement repository of individuals that have been charged with a crime where a criminal court has jurisdiction that generate possible match candidates are manually reviewed by trained members of the ISD – Intelligence Unit or trained members of a U.S. Department of Homeland Security Designated Fusion Center to determine the differences between the submitted image and the possible matches.
- 31. If a possible match candidate is identified, the facial recognition investigator must then manually review and analyze each result. This process, known as facial identification, consists of visual comparison of the facial characteristics of each candidate against the submitted image. Comparisons are made with regard to various facial features such as the eyes, ears, nose, mouth, chin, lips, eyebrows, hair/hairline, scars, marks, and tattoos.
- 32. A possible match candidate is submitted for peer review by other facial recognition investigators. A supervisor of the facial recognition investigator performs a final review of a possible match candidate and provides final approval, if appropriate.
- 33. If there is a difference of opinion with the findings, the facial recognition investigators'

supervisor will direct personnel to continue investigation for a possible match candidate. A report of negative results will be provided to the requesting investigator if a possible match candidate is not identified or approved by the supervisor.

34. If a possible match candidate is approved, the facial recognition investigator will prepare a possible match report and attach it to the requesting investigator's request form. The possible match report includes the submission image, and **a notification stating that the determination of a possible match candidate alone does not constitute probable cause to effect an arrest or obtain an arrest or search warrant, and that further investigation is needed to establish probable cause.**

#### RECEIPT / EVALUATION OF INFORMATION

35. The following steps shall be taken to ensure the quality and reliability of facial recognition system information:
- (a) Information shall be evaluated with respect to reliability of the source and validity of the content. While evaluation may not be precise, this assessment must be made to the degree possible to guide others in using the information.
  - (b) A record shall be kept of the source of all information where it is known.
  - (c) Reports and other investigative material and information received by this department shall remain the property of the originating agency but may be retained by the New Orleans Police Department unless an MOU or CEA between NOPD and the source agency states otherwise.
  - (d) Such reports and other investigative material and information shall be maintained in confidence, and no access shall be given to another entity except with the consent of the originating agency.
  - (e) Information having relevance to active cases or that requires immediate attention shall be forwarded to the responsible investigator or investigative unit supervisor as soon as possible.
36. Within 30 days of the request, investigators requesting the use of the technology must provide information in writing (by email notification or 105) to the Investigative Services Division and the Professional Standards Section a brief description of how the technology was used and whether the use of the technology successfully assisted with their investigation (i.e., led to an arrest or exoneration).
37. The Professional Standards Section Bureau shall be responsible for ensuring the following data is collected:
- (a) The total number of requests for the use of facial recognition technology.
  - (b) For each request:
    - i. the requesting officer's name and badge number;
    - ii. the name of the NOPD supervisor approving the request and the date on which the request was granted;
    - iii. the enumerated crime(s) justifying the request;
    - iv. the age, gender, and race of the suspect;
    - v. the accompanying NOPD item numbers;
    - vi. whether the use of facial recognition technology resulted in a match; and
    - vii. whether the use of facial recognition technology resulted in an arrest and/or charges.

#### CLASSIFICATION / SECURITY OF FACIAL RECOGNITION SYSTEMS

38. All requests and results will be “access level classified” to protect sources, investigations, and individual's rights to privacy and to provide a structure that will enable this department to control access to sensitive information.
39. These access level classifications shall be reevaluated whenever new information is added to an existing file or request for facial recognition system use.
  - (a) **Restricted**—Files, requests or results that contain information that could adversely affect an ongoing investigation, create safety hazards for officers, informants, or others and/or compromise their identities. Restricted intelligence may only be released by approval of the Intelligence Unit commander, Investigation Support Division of ISB Captain, ISB Deputy Chief or Superintendent of Police and only to authorized law enforcement members or agencies with a need and a right to know. Restrictions on the release and sharing of information in any multi-agency operation shall be governed by the Memorandum of Understanding or Cooperative Endeavor Agreement in place at the time.
  - (b) **Confidential**—Files, requests or results that are less sensitive than restricted intelligence. It may be released to department personnel when a need and a right to know have been established by the Investigation Support Division of ISB Captain or his/her designee.
  - (c) **Unclassified**—Files, requests or results that contain information from the news media, public records, and other sources of a topical nature. Access is limited to officers conducting authorized investigations that necessitate this information.
40. All restricted and confidential files shall be secured both physically and electronically, and access to all intelligence information shall be controlled and recorded by procedures established by the Specialized Investigations Division.
41. All files regarding facial recognition system requests shall be maintained in accordance with state and federal law.
42. All files regarding s facial recognition system requests released under freedom of information provisions or through disclosure shall be carefully reviewed and redacted as legal and appropriate.

#### **AUDITING / PURGING FILES**

43. The use of facial recognition systems and search requests shall be audited by the PSAB. Users will be required to provide appropriate justification for the use or request of facial recognition searches. PSAB shall have access to all documentation relating to facial recognition requests.
44. Appropriate justification will include the reason for the facial recognition system search, an NOPD Incident / Investigative Report and offense type. For searches conducted on behalf of another individual, the name and job title of the individual who requested the search will also be required.
45. The Captain of the division/district is responsible for ensuring that criminal intelligence files housed within that division/district are maintained in accordance with the law and the provisions of this Chapter and include information that is both timely and relevant.
46. All facial recognition system request files shall be audited and purged on an annual basis as established by the ISB Deputy Chief. Data utilized by MAX, or for ongoing investigations, shall be retained until it is anonymized, the investigation is concluded and/or any related judicial proceedings are final.

47. When a facial recognition system request file has no further information value and/or meets the legal criteria, it shall be destroyed in accordance with public records law.
48. A record of the purging of facial recognition system request files shall be maintained by the Investigation Support Division – Intelligence Unit of ISB for a minimum of seven (7) years after the purge.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 52.1.1

### TITLE: MISCONDUCT COMPLAINT INTAKE AND INVESTIGATION

EFFECTIVE: 07/19/2015

REVISED: 05/21/17; 03/18/18; 06/27/21

---

#### PURPOSE

This Chapter governs the reporting, receipt, classification, assignment, processing, investigation, and disposition of complaints regarding allegations of misconduct against employees.

Every allegation of employee misconduct shall be accepted and fully and fairly investigated. Written findings will be supported by reliable evidence using a “preponderance of the evidence” standard.

#### POLICY STATEMENT

1. The New Orleans Police Department (NOPD) is fully committed to the thorough investigation of every misconduct complaint regarding service provided by the Department and the conduct of its employees. The Department will accept and address every complaint of employee misconduct in accordance with this Chapter.
2. Discipline is a function of command. Supervisory and non-supervisory employees both share in the responsibility for the administration of the disciplinary process by personal adherence to every Departmental Rule, Chapter, Policy, Procedure, order, and criminal or civil law. Every employee is equally responsible in reporting any violation to a supervisor, PIB, or to the Superintendent of Police.
3. The Public Integrity Bureau (PIB) is primarily responsible for ensuring a fair and consistent disciplinary process throughout the Department. This includes the coordination and supervision of all disciplinary investigations involving all employees of the Department and the assignment and processing of all complaints and allegations.
4. Supervisors whom the Public Integrity Bureau (PIB) assigns to conduct a misconduct investigation of an accused employee shall conduct a thorough investigation, exhaust all leads, and be completed in a timely manner. Misconduct investigations shall be as thorough as necessary to reach reliable and complete findings.
5. While investigating allegations of misconduct and imposing discipline, NOPD shall abide by federal law, including the U.S. Constitution, and state law, including Louisiana’s Police Officer Bill of Rights (La. R.S. 40:2531, “Rights of Law Enforcement Officers While Under Investigation”).

## DEFINITIONS

**Allegation-driven classification of complaint action**—Assignment of complaint action to a particular investigative unit based on the complainant's allegation rather than on the possible outcome of the investigation.

**Allegation of criminal misconduct**—A complaint alleging officer conduct that, if true, would constitute a crime.

**Classification date**—The date on which PIB determines the complaint will be investigated as a public complaint; internally generated complaint; minor infraction resolved through counseling or training; or NFIM.

**Cognizance date**—The date on which an NOPD supervisor, whether assigned to PIB or assigned to another bureau, receives a complaint of alleged employee misconduct from any source, observes employee misconduct, or gains knowledge from any source of employee misconduct.

**Complainant**—Any person, including a community member, a nonresident, or a sworn or civilian member of NOPD, who makes a complaint against NOPD or any NOPD employee.

**Complaint**—Any allegation of misconduct committed by any NOPD employee that is reported by any person, including any NOPD employee.

**Complaint action**—One of four actions taken based upon the classification by PIB:

- (a) The initiation of a Formal Disciplinary Investigation on the basis of a public complaint of employee misconduct;
- (b) The initiation of a Formal Disciplinary Investigation on the basis of an internally generated complaint of employee misconduct;
- (c) The documentation of a minor violation/infraction resolved through non-disciplinary counseling or training; or
- (d) The documentation of a Non-Formal Investigation (NFIM) by any Departmental supervisor.

**Complaint Form**—The universal form that any person may use to file a complaint against an employee of the New Orleans Police Department. Any person can file a complaint without filling out this form (e.g., a complaint may be communicated verbally or online), and a complaint shall not be disregarded if a person refuses to, or cannot, complete this form. However, a copy of this form shall be provided to any person who requests it or asks to file a complaint, and a supervisor shall assist any such person to ensure the form is filled out thoroughly and forwarded to the Public Integrity Bureau.

**Complaint Tracking Number (CTN)**—A unique number assigned by PIB Intake to each complaint received and entered on the Complaint Form and all documents associated with intake, classification, investigation and adjudication of the complaint. The CTN includes the year the complaint was filed followed by a four digit sequential number starting with 0001 for the first recorded allegation of the year, followed by an alpha character indicating the source of the complaint (i.e., P = public; R = rank). For example, 2014-0001P indicates the first complaint received in 2014 and it was filed by a member of the public.

**Documentation of Minor Violation/Infraction Resolved Through Non-Disciplinary Counseling or Training**—Documentation by a supervisor of at least equal or higher rank than the accused of verbal or written counseling by that supervisor when he/she has become aware of or has observed a minor violation/infraction (see **Chapter 35.1.7 – Non-Disciplinary Responses to Minor Violations**). The supervisor must have firsthand knowledge of the

employee's behavior that constituted the violation.

**Force Tracking Number (FTN)**—A unique number assigned by FIT to each reportable use of force event to facilitate awareness event and tracking of a use of force investigation. The number includes the letters “FTN” for Force Tracking Number, followed by the year the force event occurred followed by a three digit sequential number starting with 001 for the first recorded allegation of the year. FTN 2014-001 indicates the first reportable use of force event in 2014.

**Formal Disciplinary Investigation**—Internal investigation that may result in disciplinary action as set forth in the Civil Service Rules.

**Grievance**—As per CAO Policy Memorandum No. 4 (R) (see [http://www.nola.gov/chief-administrative-office/policies/policies/no-4-\(r\)-employee-grievance-procedure//Appendix “A”](http://www.nola.gov/chief-administrative-office/policies/policies/no-4-(r)-employee-grievance-procedure//Appendix%20A)), a grievance is any dispute about working conditions, alleged violations of City Policy, including an alleged abuse of discretion by a supervisor in the treatment of employees, and disputes as to the interpretation, application, or enforcement of specific employee provisions or rights. Matters under the jurisdiction of the City Civil Service Commission shall not be subject to the grievance procedure described in this Chapter. If any questions arise as to whether a particular dispute is or is not a grievance, the question may be taken up through the grievance procedure.

**Incident report**—Official written documentation by NOPD (usually in the form of an Electronic Police Report) of the occurrence of an incident occurring in Orleans Parish. The incident is assigned a unique “item number” by the Orleans Parish Communications Division Computer-aided Dispatch system at the time the call for service is received by the Communications Division either by telephone from an outside source (e.g., 911 or 821-2222) or generated in the field and requested over the police radio.

**Internally generated complaint**—Any complaint initiated by an NOPD employee, sworn or civilian, other than a documentation of minor violation/infraction resolved through counseling or training. Internally generated complaints require Formal Disciplinary Investigations.

**IPM**—Office of Independent Police Monitor.

**Limited English Proficient (LEP)**—A person who does not speak English as his/her primary language and has a limited ability to read, write, speak, or understand English is considered “LEP.” An LEP individual may be competent in certain types of communication (e.g., speaking or understanding), but may still be considered LEP for other purposes (e.g., reading or writing).

**Member**—An individual who works for the NOPD. This includes volunteers and Reserve Officers while “on-duty” and performing functions under the auspices of the NOPD.

**Minor violation/infraction**—A violation of a Departmental Rule, Policy, Procedure, Order, regulation, or verbal/written instructions that a supervisor believes requires minimal intervention through redirection, retraining and/or counseling to correct the employee’s behavior (e.g., tardiness, uniform requirement, forgetting to complete an FIC, and cleanliness of vehicle). The behavior must not be the subject of a public complaint and must be sufficiently minor that it is correctable by minimal intervention by the supervisor, with the goal of non-repetitive behavior. Repetition of similar violations within a twelve-month period (based on the date of the observed violation) may require discipline. Refer to **Chapter 35.1.7 – Non-Disciplinary Responses to Minor Violations** for guidance.

**Misconduct**—Any action or inaction that violates any Departmental Rule, Policy, Procedure, Order, verbal or written instruction, or criminal law other than a grievance as defined in **CAO Policy Memorandum 4(R)** and **Chapter 25.1 – Employee Grievances**.

**Misconduct Investigation Initiation Form**—The form used internally by PIB to document the classification of each complaint and all steps in the complaint investigation process. Because NOPD uses an allegation-based classification system, the specific allegation of misconduct will be articulated on the form. However, PIB shall independently classify all complaints, and only PIB shall have the authority to classify complaints.

**No Formal Investigation Merited (NFIM)**—A complaint action in which the allegation, on its face, does not constitute a violation by an employee of any Departmental rule, policy, procedure, verbal, or written instruction, or criminal or civil law. NFIM will be used only for the following types of complaints:

- (a) Complaints disputing traffic citations, except an allegation of misconduct contained in such complaints (e.g., racial profiling, illegal search, excessive force) will be classified and investigated according to its merits;
- (b) Complaints alleging delayed police service (e.g., patrol response or detective follow-up) in which the preliminary investigation demonstrated that the delay was due to workload. However, if the preliminary investigation disclosed that misconduct such as negligence, rather than workload, caused the delay, the complaint will be classified according to its merits;
- (c) Complaints regarding the conduct in a civil incident of an off-duty employee, unless the alleged conduct or its effects constitute misconduct or had a substantial nexus to the employee's employment; and
- (d) Complaints in which the preliminary investigation demonstrated that the subject employee did not work for NOPD at the time of the incident or in which the identity of the subject employee cannot be determined despite the best efforts of the PIB investigator.

**Non-disciplinary counseling**—A non-punitive process used to correct a subordinate's behavior that is not fully compliant with Department rules, regulations, Chapters, or policies but is not sufficiently egregious to elevate the action to formal discipline. A supervisor must meet with the non-compliant member, explain the manner in which his or her actions are not compliant, and review the relevant policy (or Chapter, rule, or regulation) with him or her. The non-disciplinary counseling shall be documented in the Supervisor Feedback Log.

**NOPD Authorized Interpreter (NOPDAI)**—A bilingual or multilingual NOPD employee who has been authorized to interpret for others in certain situations such as interviews, interrogations, or taking and responding to public complaints.

**NOPDAI List**—A list of NOPD employees who are bilingual or multilingual and authorized by the Department to act as interpreters.

**OIG**—Office of the Inspector General.

**Preponderance of the evidence**—Such evidence that when considered and compared with that opposed to it has more convincing force and produces in one's mind the belief that what is sought to be proven is more likely true than not true.

**Public complaint**—Any allegation of misconduct made by any non- member of NOPD.

**Public Integrity Bureau (PIB)**—The NOPD bureau that is primarily responsible for ensuring a fair and consistent disciplinary process that includes the coordination and supervision of every disciplinary investigation involving an NOPD employee and the assignment, investigation, and processing of every complaint.

PIB reports directly to the Superintendent of Police, and is commanded by a civilian Deputy Superintendent of Police. PIB consists of the following: Intake Section, Criminal Investigations Section, Administrative Investigations Section, FIT (Force Investigation Team), Special

Investigations Section, Staff Programs, and Special Projects Section. PIB also administers the Professional Performance Enhancement Program (See: Chapter 13.27 - PPEP).

**Rights of Law Enforcement Officers While under Investigation (La. R.S. 40:2531)—**

Louisiana law governing the rights of every Louisiana law enforcement officer relative to disciplinary investigations

**Transmittal form** – a paper form, generated by PIB and attached to the front of each disciplinary investigation, which tracks and documents each delivery and receipt of the hard copy portion of the Disciplinary Investigation from the case initiation and assignment, to the final submission to the Deputy Chief of PIB. (See Appendix “B” for example.)

**RETALIATION**

6. NOPD is committed to ensuring that every employee, as well as any member of the community, can report misconduct to the NOPD without fear or concern for reprisal or retaliation. The Department expressly prohibits an employee from engaging in any form of retaliation, including intimidation, coercion, or adverse action against any person who reports misconduct, makes a misconduct complaint, or cooperates with an investigation of misconduct.
7. Any form of retaliation by any employee toward anyone for reporting misconduct or for cooperating with an investigation shall be grounds for discipline, up to and including termination. (Refer to **Chapter 26.3 – Work Place Discrimination-Retaliation.**)

**SOURCE OF COMPLAINT**

8. A complaint may be made by any person, including a member of the public, a civilian or a sworn member of the NOPD. The complainant will be asked to sign a Complaint Form or provide information to the receiving supervisor who shall complete the form for the complainant. Refusal to sign a Complaint Form will not negate the requirement that the allegation be documented and fully and fairly investigated. All internally generated complaints shall be investigated in the same manner as a public complaint.
9. Any complaint received by NOPD via an anonymous source or third-hand from any known source (e.g., news media, OIG, Metropolitan Crime Commission, District Attorney’s Office, the City Attorney’s Office, or outside agency) shall be investigated fully and fairly with what information is given and/or discovered during the course of the investigation.

**COMPLAINT - METHODS OF SUBMISSION**

10. A complaint may be made at any time (24 hours a day, seven days a week) to:
  - (a) Any NOPD member;
  - (b) Directly to PIB (in person during regular business hours, or by telephone);
  - (c) To the Office of the Independent Police Monitor;
  - (d) In person at any police station or facility; or
  - (e) At the complainant’s location (such as his/her residence or business in Orleans Parish), at the complainant’s request.
11. A complaint may also be made in writing to NOPD’s Web site (nopd.com), the Superintendent’s Office, or any police facility address by e-mail, fax, or USPS mail.

12. PIB shall ensure that Complaint Forms, informational materials, brochures, posters, and instructions for making complaints are available online at the City of New Orleans and NOPD web sites and in print at appropriate government properties, including NOPD Headquarters, NOPD District police stations, City Hall, Orleans Parish courthouses, all Orleans Parish public libraries, the Office of the IPM, the Orleans Public Defenders' Office, the District Attorney's Office, and at City-administered offices or gathering places of community groups, upon request. Permanent placards will be posted and maintained at all NOPD police facilities describing the external complaint process available to all persons. The placards shall include telephone numbers, e-mail addresses, and Internet sites for complaint filing. The commanding officer in charge of the NOPD unit housed in the facility shall be responsible for ensuring such materials are available in the public areas of the facility.
13. Any individual may submit a misconduct complaint through NOPD and City web sites. PIB shall ensure these web sites include not only Complaint Forms, but also instructions on how, where, and in what manner misconduct complaints may be filed to ensure the public that no complaint is ever refused, disregarded, or dismissed as trivial. PIB shall monitor these websites on a daily basis in order to promptly identify any misconduct complaints.
14. The Complaint Form and related informational materials shall be made available and posted in the Spanish, Vietnamese, and English languages. Any LEP individual who wishes to file a complaint against an NOPD employee shall be provided with an intake form and instructions in English, Spanish, or Vietnamese, as appropriate, as well as the appropriate translation services pursuant to **Chapter 55.4 – Limited English Proficiency Services** to file a complaint.

#### **RESPONSIBILITY OF ALL MEMBERS TO REPORT MISCONDUCT**

15. Any Departmental member who observes or becomes aware of any act of possible misconduct by another employee shall report the incident in accordance with this Chapter. Failure to report or document an act of misconduct or criminal behavior shall be grounds for discipline up to and including termination.  
**NOTE:** Officers have a duty to intercede to prevent the use of unreasonable force if the officer has reason to know that unreasonable force is being used and there is a realistic opportunity to intervene to prevent harm. The action required by the officer will depend on the circumstances of the incident. (See **Chapter 1.3 – Use of Force.**)
16. If a Departmental member observes or becomes aware of any act of possible misconduct by another employee of **equal or lesser rank**, he/she shall report the incident to any Departmental supervisor or directly to PIB prior to the end of his/her tour of duty that same day. This conduct may be reported verbally, or in writing using a Complaint Form. If the complaint is reported verbally, the receiving supervisor or PIB shall audio-record the reporting employee's statement, and the audio-recording shall be made a part of the Complaint Form as an attachment. Any written document shall be made a part of the Complaint Form as an attachment.
17. A supervisor may elect to address and resolve a minor violation/infraction through non-disciplinary means, in accordance with **Chapter 35.1.7 – Non-Disciplinary Responses to Minor Violations.**
18. If a Departmental member observes or becomes aware of any act of possible misconduct by another employee of **greater rank**, he/she shall report this incident directly to PIB prior to the end of his/her tour of duty. This report may be made in writing through a Complaint Form, in person at PIB during its regular hours or by contacting the

on-call PIB investigator after regular working hours.

19. Any supervisor being consulted by any other member about an allegation of misconduct by any member shall accept the complaint as outlined in this Chapter. If the allegation is of a serious nature (e.g. possible criminal violation), he/she shall contact PIB immediately and advise PIB of the identity of the complainant and the nature of the complaint.

#### **RESPONSIBILITY TO ACCEPT COMPLAINT OF MISCONDUCT**

20. All NOPD members shall courteously receive all complaints. Every complaint from a member of the public or an NOPD member shall be courteously received. NOPD employees are prohibited from discouraging in any manner the filing of a misconduct complaint. The refusal by any employee to accept a misconduct complaint, the discouragement of filing a misconduct complaint, or the providing of false or misleading information to a complainant about filing a misconduct complaint shall be grounds for discipline.
21. For every complaint, the receiving employee shall immediately advise his/her supervisor of the location of the complainant, and the allegation. If the identity of the accused employee is known, the receiving employee shall also advise his/her supervisor of the identity of the accused employee. The supervisor in the police district in which the complainant is currently located shall be notified and shall respond to the complainant's location. The supervisor shall be responsible for assisting the complainant to document the complaint. That supervisor shall be responsible for following the procedure for submission of the Complaint Form to PIB.
22. Every misconduct complaint, including an anonymous or third-party complaint, shall be accepted by PIB or by the supervisor meeting with the complainant. Under no circumstance will any employee in any assignment or of any rank, title, or position refuse to accept a complaint or re-direct any complainant to the PIB office to file his/her complaint. Before concluding the meeting with the complainant, the receiving supervisor shall contact the PIB office and obtain a Complaint Tracking Number, which shall be given, in writing, to the complainant, or verbally if the complainant is submitting a complaint by phone. If the PIB office is closed at the time the complaint is made, the supervisor shall contact the on-call PIB investigator through the OPCD Supervisor's Desk to immediately obtain a CTN. PIB, including its on-call investigators, shall maintain an up-to-date and accurate log of complaints, ordered by the CTN issued for each complaint.
23. If PIB advises the supervisor that immediate direct contact between PIB staff and the complainant is necessary, the supervisor will notify the complainant and remain with him or her until a PIB investigator arrives.
24. The supervisor shall also provide the complainant with his/her own business contact number and PIB's office number. It shall be the supervisor's responsibility to ensure that any complaint received by that supervisor receives a CTN. The supervisor shall inform the complainant that he/she will be notified by the investigator periodically in writing of the progress of the investigation and shall be notified at the conclusion of the investigation of the final disposition.
25. NOPD members shall provide their name and badge number to any individual upon request, regardless of whether the individual explicitly requests to make a complaint.

26. If the alleged misconduct involves possible criminal activity or a serious use of force, the supervisor shall (in addition to obtaining a CTN) **immediately** notify PIB either directly or through the OPCD Supervisor's Desk, which shall notify the on-call PIB investigator.
27. If the alleged misconduct involves a serious use of force, the supervisor shall (in addition to obtaining a CTN) immediately notify PIB FIT through the OPCD Supervisor's Desk. FIT shall respond to the scene and otherwise proceed in accordance with NOPD **Chapter 1.3.2 – Force Investigative Team**.
28. Nothing in this procedure shall prevent or discourage any supervisor from seeking advice from or making notification to PIB in any complaint situation in which the supervisor may seek guidance.

### COMPLAINT DOCUMENTATION

29. The supervisor receiving a complaint from any source shall answer any question the complainant may have about the information requested on the Complaint Form and shall review the information written by the complainant to ensure the complaint is defined clearly. The supervisor shall ensure the complainant understands the importance of answering, if possible, all relevant questions, which include the complainant's personal and contact information including the preferred method of contact and best time to attempt contact; a possible need for language assistance; the name, badge number, and assignment of the accused officer; a detailed description of the accused employee and any other Departmental employee on the scene of the event; his/her clothing/uniform; the type of vehicle driven, including any identifying markings; the date, time, and location of the event; the facts of the alleged violation, including specific actions taken and/or words spoken by the employee; and name and contact information of any witness. If circumstances indicate that the complainant is incapable or unable to complete the form, the supervisor shall offer to complete the form for the complainant **A refusal by a person to provide personal and contact information shall not be grounds for a refusal to accept a complaint.**
30. Every Departmental supervisor who has been issued a Departmental recording device (body-worn camera and/or digital audio-recorder) shall record the statement of a complainant(s) and any witness or a person with first-hand knowledge of the incident. **A refusal by a person to be recorded shall not be grounds for refusal to accept a complaint.** The complainant's actual refusal to allow his/her complaint to be recorded should be audio/video-recorded if possible, and the supervisor should make the recording a part of the written complaint action. Recordings shall be labeled with the date, the CTN, the name of the accused member, and the name of the person(s) whose statement(s) is/are recorded. This recording shall be labeled as an attachment and made a part of the Complaint Form submitted to PIB by the receiving supervisor.
31. Whether handwritten or dictated, the Complaint Form should be signed by the complainant. Should the complainant refuse to sign the Complaint Form, the supervisor shall write "REFUSED TO SIGN" on the signature line to indicate his or her refusal. **A complainant's refusal to sign shall not invalidate acceptance of the complaint.**
32. If the complainant cannot sign his/her own statement, the supervisor should document the reason on the form.
33. The supervisor shall retain the original Complaint Form and, if possible at the time of the complaint, provide the complainant with a photocopy of his/her Complaint Form with the CTN. The supervisor should attach any document the complainant provides (e.g., citation, notes, photograph, correspondence, text or email message documentation,

medical record, booking document-preferably in photocopied form) to the Complaint Form.

34. In addition to assisting with the completion of the Complaint Form, the supervisor shall also collect and list any available physical evidence, such as a photograph of a claimed injury or the absence thereof; any audio or video recordings; any CEW recordings; any documentation of medical treatment; or a photocopy of the traffic citation, affidavit, summons, or booking paperwork. Every photograph shall be marked with the date and time taken, the full name of the individual in the photograph, the name of the supervisor taking the photograph, and the CTN. The supervisor shall gather all relevant information, including the names of all NOPD officers and employees involved in or witnessing the alleged misconduct. The supervisor shall take photographs of apparent injuries, or the absence thereof, unless the complainant/subject objects or declines. The complainant's actual refusal to allow taking of the photographs should be audio/video-recorded if possible

### **TRANSMITTING COMPLAINT TO PIB**

35. A supervisor receiving a public complaint shall deliver, prior to the end of his/her tour of duty, a Complaint Form and all supporting materials to PIB. When a supervisor obtains a CTN from PIB, he/she becomes responsible for completing a Complaint Form in its entirety, including all relevant documentation of the alleged or known/observed employee misconduct and submitting this documentation to PIB by the end of his or her tour of duty. The supervisor shall receive a receipt for the delivery of the Complaint Form and supporting materials; the receipt shall be kept on file by the supervisor's place of assignment.
36. A supervisor receiving a complaint from another NOPD employee, or initiating a complaint against another employee, shall transmit, prior to the end of his/her tour of duty, a Complaint Form and all supporting materials to PIB.
37. A non-supervisor NOPD employee initiating a complaint against another employee directly to PIB shall transmit, prior to the end of his/her tour of duty, a Complaint Form and all supporting materials to PIB.

### **REQUEST FOR WITHDRAWAL OF A COMPLAINT**

38. If a complainant expresses his/her desire to withdraw a complaint, he/she may complete a "Request to Withdraw Complaint" form; however, NOPD does not allow the dismissal, withdrawal, or cancellation of any complaint against any employee on the request of the original complaining individual. The investigator shall audio and/or video record the interview with the complainant in which he/she shall be asked to explain the reason(s) for the request to withdraw. This audio and/or video recording and the completed withdrawal form shall be made a part of the investigation which must continue, utilizing what information has already been provided by the complainant and any witness, if any refuse to cooperate further. The investigation must be concluded with a proper disposition. The disposition of "WITHDRAWN" is not utilized by NOPD.

### **REQUEST FOR CANCELLATION OF A COMPLAINT ACTION ORIGINALLY REQUESTED BY AN NOPD SUPERVISOR**

39. The supervisor who is also documented as the complainant may request to "CANCEL" or change that complaint action to another form of complaint action (e.g., "Internally Generated Complaint" to "Documentation of Minor Violation/Infraction Resolved Through Non-Disciplinary Counseling") utilizing an inter-office correspondence (NOPD Form 105)

through his/her chain of command to the PIB Deputy Superintendent of Police. The Form 105 must contain the reason(s) the supervisor is requesting to cancel the complaint or to utilize a different form of complaint action.

40. The original Form 105 must be delivered with the chain of command approvals and/or disapprovals to PIB within five (5) days of the cognizance date of the alleged violation. If any person in the requesting supervisor's chain of command disapproves the request, the initial complaint shall proceed as written and submitted. The Form 105 requesting the change will continue through the approval process and will be made a part of the investigative file on the complaint. The person disapproving the request must document his/her reasons in a Form 105 which will become a part of the request and follow through the chain of command.
41. The PIB Deputy Superintendent of Police has the final judgment in any request to cancel a complaint or change the complaint action type to another. If the request is not approved, the original complaint action shall continue uninterrupted in its original classification. If another form of complaint action is approved, the investigation shall continue to be governed by the original complaint action due dates.

### **PUBLIC INTEGRITY BUREAU RESPONSIBILITIES**

42. PIB has the primary responsibility for the intake, coordination, review, classification, and assignment of every allegation of employee misconduct. The PIB Deputy Superintendent is delegated the authority of the Superintendent of Police for the purpose of directing every disciplinary investigation and any matter involving employee integrity or the known or alleged misconduct of any Departmental employee. The PIB Deputy Superintendent shall report directly to the Superintendent of Police on all disciplinary matters.
43. Once PIB is notified of possible criminal activity involving an NOPD officer or employee, PIB shall immediately notify the Superintendent of Police, the PIB Commander, IPM, and the District Attorney and/or United States Attorney's Office.
44. PIB's responsibilities also include:
  - (a) Review of every complaint;
  - (b) Review of all video evidence pertaining to every complaint prior to categorization and classification;
  - (c) Categorization of every complaint as a public complaint; an internally generated complaint; a minor infraction resolved through counseling or training; or a complaint that qualifies as an NFIM;
  - (d) Classification of every complaint, no matter the categorization, as use of force, criminal, or administrative;
  - (e) Sub classification of allegations within the "administrative" category into subcategory groups for assignment, including: (1) serious misconduct; (2) other (non-serious) misconduct; (3) allegations eligible for Negotiated Settlement; and (4) allegations eligible for Community-Police Mediation;
  - (f) Assignment of every complaint to the appropriate bureau for investigation;
  - (g) Assignment of due dates for all investigative forms and investigations;
  - (h) Investigation of all complaints retained by PIB;
  - (i) Review and approval of every completed complaint action, investigation, report, or document, whether completed by PIB or another bureau;
  - (j) Review of all Use-of-Force investigations completed by field supervisors to ensure they are complete, and that the supervisor's determination that the force is justified is supported by the evidence (See **Chapter 1.3.6 – Reporting Use of Force**).
  - (k) Final determination of the disposition of all complaint actions, whether

- investigated by PIB or another bureau;
- (l) Issuance of the Notification to Accused Law Enforcement Officer under Investigation of a Pre-Disciplinary Hearing or Determination of an Unfounded or Not Sustained Complaint. (Notification form to be prepared by investigator and submitted with the completed investigation); and
- (m) Transmittal of notification letter to every complainant indicating the result of the investigation after final approval of the formal disciplinary investigative disposition.

#### **AUTHORITY TO CLASSIFY A COMPLAINT**

45. Only PIB has the authority to classify an allegation of employee misconduct. PIB shall have exclusive authority to initiate an appropriate complaint action.

#### **COMPLAINT CLASSIFICATION AND ASSIGNMENT**

46. Upon receiving a completed Complaint Form or other allegation of misconduct, PIB shall determine whether the allegation of misconduct constitutes:
- (a) A public complaint;
  - (b) An internally generated complaint;
  - (c) A minor violation/infraction resolved through counseling or training; or
  - (d) A complaint that qualifies as an NFIM.
47. PIB shall review all available video evidence before categorizing every complaint. PIB shall have sole authority to make this determination, and shall independently assess each Complaint Form notwithstanding any preliminary designation made by the member completing the Complaint Form.
48. For all allegations of misconduct not categorized by PIB as “Documentation of Minor Violation/Infraction Resolved Through Counseling or Training” or “NFIM,” PIB shall classify each allegation into one of the following categories, if appropriate:
- (a) Use of Force;
  - (b) Criminal; or
  - (c) Administrative.
49. As set forth below, PIB shall further classify allegations within the “administrative” category into subcategory groups for assignment, including: (1) serious misconduct; (2) other (non-serious) misconduct; (3) allegations eligible for Negotiated Settlement; and (4) allegations eligible for Community-Police Mediation. PIB's complaint classification protocol, which is “allegation-based” rather than “anticipated outcome-based,” shall be used to guide PIB in determining to which Bureau a complaint shall be assigned.
50. When it is appropriate to ensure the fact and appearance of impartiality for investigations of serious uses of force or force indicating apparent serious or criminal misconduct by an officer, these investigations may be referred to an independent and highly competent entity outside of NOPD. PIB's complaint classification protocol shall ensure that PIB or an authorized outside agency investigates allegations of serious or criminal misconduct.

#### **ALLEGATIONS OF MISCONDUCT INVOLVING USE OF FORCE**

51. Complaints involving allegations of serious uses of force, uses of force indicating apparent criminal misconduct by an officer, or uses of force by NOPD personnel of a higher rank than sergeant shall be investigated by FIT. Refer to **Chapter 1.3.2 – Force Investigative Team**.

52. When it is appropriate to ensure the fact and appearance of impartiality for investigations of serious uses of force or force indicating apparent criminal conduct by an officer, these investigations may be referred to an independent and highly competent entity outside of NOPD.

### **ALLEGATIONS OF CRIMINAL MISCONDUCT**

53. Complaints involving allegations of criminal conduct will be investigated by PIB/Criminal, including but not limited to:
- (a) Commission of a crime;
  - (b) False arrest;
  - (c) Domestic Violence;
  - (d) Unlawful Search; and
  - (e) Civil Rights Violation(s).

### **ALLEGATIONS OF SERIOUS MISCONDUCT**

54. Misconduct allegations that involve serious misconduct but that do not involve force or allege criminal misconduct will be investigated by PIB/Administrative, including but not limited to:
- (a) discriminatory policing;
  - (b) false arrest;
  - (c) “planting” evidence;
  - (d) untruthfulness/false statements;
  - (e) unlawful search;
  - (f) retaliation;
  - (g) sexual misconduct;
  - (h) domestic violence;
  - (i) misconduct implicating the conduct of the supervisory or command leadership of the subject employee; and
  - (j) any allegation that a Commander request be investigated by PIB rather than by the accused employee’s Bureau. An investigation that requires the assistance of a specialized or support unit shall be coordinated with that unit’s commander.

### **OTHER MISCONDUCT ALLEGATIONS**

55. Complaints of misconduct of a less serious nature may be assigned to the accused member’s unit of assignment for investigation. These include but are not limited to:
- (a) discourtesy;
  - (b) neglect of duty;
  - (c) service complaints;
  - (d) missed court; and
  - (e) lack of professionalism.

### **NEGOTIATED SETTLEMENT**

56. As outlined in Chapter 24.1, in certain limited circumstances, upon classifying a complaint, NOPD through PIB may elect to address and resolve a rank-initiated violation (i.e., an allegation of misconduct reported by an NOPD supervisor) through a negotiated settlement agreement between the department and the officer. See **NOPD Chapter 24.1 – Negotiated Agreement and Settlement**.
57. As outlined in **Chapter 24.2 – Community-Police Mediation**, in certain limited circumstances, upon classifying a complaint, NOPD through PIB may elect to address and resolve an allegation of misconduct brought by a civilian through an OIPM-led

mediation program.

### **INVESTIGATION OF ALLEGED CRIMINAL CONDUCT**

58. The Superintendent of Police shall be notified as soon as practical when apparent criminal conduct exists. In the event of an allegation of a criminal violation, the Superintendent of Police may request an outside law enforcement or prosecutorial agency to conduct the criminal investigation parallel to the administrative investigation conducted by NOPD.
59. An employee accused of criminal conduct shall be provided with all rights and privileges afforded to an individual under the State and Federal constitutions.
60. The subject officer shall not be compelled to provide a statement to misconduct investigators where there is a potential criminal investigation for prosecution of the officer until the remainder of the investigation has been concluded, unless after consultation with the prosecuting agency and the PIB Deputy Superintendent, such compulsion is deemed appropriate by the Superintendent.
61. If there are both criminal and administrative investigations, those investigations shall be conducted concurrently unless otherwise directed by the PIB Deputy Superintendent. In the event the subject officer provides a compelled statement, PIB shall ensure that any criminal investigation shall not subsequently have access to that statement or the administrative investigation during the pendency of the criminal investigation.
62. No employee action other than administrative reassignment or suspension shall be taken against the accused employee based solely on an arrest or crime incident report. An independent administrative investigation shall be conducted based upon the allegation(s) in the crime incident report.

### **ASSIGNMENT OF AN ADMINISTRATIVE INVESTIGATION**

63. The investigation of an alleged administrative violation involving serious misconduct shall be completed by PIB, and any complaint deemed by the PIB Deputy Superintendent or his/her designee to be of a serious nature may be retained within PIB for investigation.
64. The investigation of other alleged administrative violations may be assigned by the PIB Deputy Superintendent or his/her designee to another bureau. Once an administrative violation is assigned to a bureau for investigation, the bureau liaison who interacts with PIB and who is appointed by the individual bureau deputy chief shall assign the investigation within the bureau.
65. The investigation shall be assigned to a supervisor of at least equal or higher rank than the accused. The investigator shall not be a member who was involved in the incident as a witness or alleged participant.
66. Whether retained in PIB for investigation or assigned to an investigator from another bureau, the procedures to be followed during the investigation are the same.
67. The Division/District-Level investigation reports and all related documentation and evidence shall be provided to PIB immediately upon completion and approval by the appropriate supervisor of the investigation, but no later than three business days,

**EMERGENCY SUSPENSION OR ADMINISTRATIVE RE-ASSIGNMENT**

68. If a violation involves an action or condition which, in the opinion of a supervisor, negatively impacts the accused employee's continued ability to perform his/her duty, the supervisor shall notify PIB. PIB will review the known facts and take the necessary steps to obtain the proper authorization from the PIB Deputy Superintendent to have the employee placed on emergency suspension or administrative reassignment (refer to **Chapter 52.8 – Suspensions and Emergency Suspensions of Members** and PIB Directive No. 8, Administrative Reassignment and Emergency Suspension Procedures).

**ACCUSED OR WITNESS EMPLOYEE RESPONSIBILITIES**

69. Nothing in this Chapter shall alter an officer's obligation to provide a public safety statement regarding a work related incident or activity. All public safety statements and other officer statements in incident reports, arrest reports, use of force reports, and similar documents, and statements made in interviews such as those conducted in conjunction with NOPD's routine use of force review and investigation process, are part of each officer's routine professional duties.

**ADMINISTRATIVE INVESTIGATIONS**

70. Every NOPD employee is required to be truthful at all times in spoken, written, or electronic communications, whether under oath or not, in all matters and official investigations relating to the scope of employment and operations of the Department. Failure to comply shall result in termination.
71. In any administrative investigation of an employee, an accused or witness employee shall:
- (a) Cooperate fully in the investigation process;
  - (b) Give a written and/or audio/digitally/video-recorded statement upon request by the investigator;
  - (c) Sign any written or transcribed statement made by the employee;
  - (d) Appear at any disciplinary hearing when instructed by an authoritative source;
  - (e) Submit to a breath test when ordered by a supervisor;
  - (f) Submit to any or all of the following conducted by an authorized/certified examiner when ordered by the Superintendent or his/her designee: 1) A polygraph examination; 2) A Computer Voice Street Analyzer (CVSA) examination; 3) A Psychological Stress Exam (PSE); 4) A urinalysis, blood test, and/or other medical laboratory test; 5) A psychological and/or psychiatric evaluation; 6) A physical line-up; 7) The taking of photographs; and/or 8) Handwriting analysis;
  - (g) Submit a financial disclosure statement when ordered by a Court having jurisdiction. A photocopy of the court order shall be labeled as an exhibit and made a part of the investigative report;
  - (h) Sign a Confidentiality Admonishment form (NOPD Form 305). The form shall be supplied by the PIB investigator; and
  - (i) Read, sign, and date the original superintendent's disciplinary letter (NOPD Form 105) for the PIB case to document that he/she has been formally notified of the disposition of an investigation in which he/she is an accused employee.

**EMPLOYEE REPRESENTATIVE DURING A DISCIPLINARY INVESTIGATION INTERVIEW**

72. In either an administrative or criminal investigation, an NOPD employee acting as a representative for an accused and/or observing the interview of an individual in connection with an investigation conducted by PIB into the alleged misconduct of NOPD

personnel, shall be required to sign a Confidentiality Admonishment (NOPD Form 305) prior to the commencement of the interview. The form shall be supplied by the PIB investigator.

73. The member's representative, if any, will only advise the member but will not in any other way interfere with the interview.

#### **INVESTIGATOR & INVESTIGATIVE PROTOCOLS / RESPONSIBILITIES**

74. Upon assignment to a formal disciplinary investigation, the investigator shall:
- (a) Comply with La. R.S. 40-2531 (Police Officer's Bills of Rights) by meeting the due dates set by PIB and the investigator's bureau representative and which have been written on the PIB Transmittal form.
  - (b) Before taking a formal statement from an accused employee, but not including immediate field investigation, the investigator shall provide notification (Form 196) to the accused employee informing the employee of the:
    - i. Allegation(s) against the employee;
    - ii. Employee's rights and responsibilities relative to the investigation; and
    - iii. Date, time, and location the employee is to appear for the statement.
  - (c) The investigator shall instruct the accused employee to sign the Form 196 indicating receipt of the original form. A copy of the signed notification shall be labeled as an exhibit and made a part of the investigative report.
  - (d) During the formal investigation, the investigator shall obtain a digitally recorded statement from the accused employee in every case, using the statement format for "Administrative Investigation of a Commissioned and/or Civilian NOPD Member" (Form 196).
    - i. The audio file shall be labeled with the PIB Complaint Tracking Number, date the statement is taken, the accused employees' name, and the name of the person(s) whose statement(s) is recorded. The file(s) shall be labeled as an exhibit and made a part of the investigative report. Digitally recorded statements shall be preserved pursuant to **Chapter 83.1 – Collection of Evidence** (previous Policy 808) and **Chapter 83.2 – Computers and Digital Evidence** (previous Policy 814).
    - ii. In an investigation that does not involve criminal allegations, the interview shall normally take place during the employee's tour of duty.
    - iii. The PIB Deputy Superintendent shall have the authority to extend or change an employee's regular tour of duty hours if necessitated by the demands of the investigation. Should the interview time extend past the employee's tour of duty, for payroll purposes, the employee shall be listed as working in the payroll system. If the employee is suspended or on any other leave status, the employee may be ordered to appear at any given time at a designated location to give a statement.
  - (e) Conduct a complete investigation and thoroughly exhaust all leads;
  - (f) Separately interview and digitally record each accused employees' statement;
  - (g) Separately interview and digitally record the statements of the complainant, any principal, and every known witness, both for and against the accused employee (For non-department employees, the investigator shall audio tape or digitally record the witnesses' statement in their entirety absent specific documented objection. However, all department employees shall be subject to audio taping or digital recording in their entirety. Where the alleged misconduct is particularly serious or interviews with the subject officer(s) or witnesses may be necessary to sufficiently investigate the allegation, the investigator shall conduct the interviews in-person.);
  - (h) Seek to identify all persons at the scene giving rise to a misconduct allegation;

- (i) Note in the investigative report the identities of all officers or other witnesses who were present on the scene but assert that they did not witness and were not involved in the incident and conduct further investigation of any such assertions that appear unsupported by the evidence;
- (j) Collect evidence and property, when applicable, and maintain chain of custody records (evidence in criminal cases should be submitted to Central Evidence & Property CE&P under the Complaint Tracking Number);
- (k) Prepare and forward correspondence to the complainant and accused members, as specified in this Chapter;
- (l) Address each section of the investigative report, documenting all facts;
- (m) Reach a conclusion supported by the preponderance of the evidence and prepare a written recommendation;
- (n) Apply for an extension of the due date (within the first thirty (30) days of the investigation, i.e. within thirty days of the classification date) when necessary, and particularly when any complainant, witness, principal, or evidentiary material will not be available in time to complete the investigation by the investigator's assigned due date;
- (o) Provide a copy of the date-stamped extension request (if requested) to PIB within 48 hours of the date-stamp.
- (p) When appropriate for the finding reached, prepare a Notice of Completed Investigation, i.e. "Notice to Accused Law Enforcement Officer Under Investigation of a Pre-Disciplinary Hearing or a Determination of an Unfounded or Not Sustained Complaint" (NOPD Form 308), and submit the form along with the investigative report;
- (q) Investigators should avoid the use of leading questions when taking statements of accused employees.
- (r) If, when ordered, an employee refuses to make an administrative statement as an accused employee or witness, the investigator shall digitally record the refusal unless extenuating circumstances prevent the recording, in which case the extenuating circumstances shall be documented in an Interoffice Correspondence (Form 105). The investigator shall immediately notify the accused employee's Deputy Superintendent and the PIB Deputy Superintendent, and submit a Complaint Form to PIB.
- (s) In an interview lasting more than two hours, the investigator shall provide breaks for rest, personal needs and meals. No interview shall last more than eight hours in any 24-hour period, unless authorized in writing by the Superintendent.
- (t) Prior to the taking of any formal investigatory statement, but not including immediate field investigation:
  - i. In an administrative investigation, the investigator shall begin the accused employee's administrative statement with a reading to and acknowledgment by the commissioned employee of "Rights of Law Enforcement Officers While Under Investigation" using Form 196.
  - ii. In a criminal investigation, the investigator shall begin the accused employee's criminal statement with a full reading to and acknowledgment by the commissioned employee of "Rights of Law Enforcement Officers While Under Investigation" and, if relevant, the Constitutional rights relative to the giving of a criminal statement in a criminal investigation. Criminal investigations shall be separately from administrative investigations.
- (u) If an employee waives his/her criminal rights at any time during the interview process, the investigator shall stop the interview and further question the employee as to his/her understanding of the rights. The investigator shall immediately request that the employee sign a "Rights of Arrestee" form, announcing to the audio tape recorder that the employee has signed the "Rights

- of Arrestee" form number [state number]. The form shall be labeled and listed as an exhibit.
- (v) Submit a complete, coherent investigative report to his/her immediate supervisor by the investigator's assigned due date; the date of the investigative report shall be the date the completed report is submitted to the immediate supervisor for approval and forwarding through the chain of command to the PIB Deputy Superintendent; and
  - (w) Update the PIB Transmittal form.
75. The supervisor who has been assigned to conduct a complaint investigation shall be designated as the "investigator." The investigator shall be of at least equal rank to the accused employee; however, an exception may be approved by the Superintendent of Police or the Deputy Superintendent of PIB. A misconduct complaint investigator may not be a supervisor who:
- (a) used force during the alleged incident;
  - (b) conducted himself/herself during the alleged incident in a manner that led to the injury of a complainant;
  - (c) authorized the conduct that led to the alleged incident; or
  - (d) witnessed or was directly involved in the alleged incident leading to the allegation of misconduct.
76. The misconduct complaint investigator shall interview each complainant in person, and this interview shall be recorded in its entirety, absent specific, documented objection by the complainant. If extenuating circumstances require that the interview of the complainant not be conducted in person, the investigator shall document those extenuating circumstances in the investigative file.
77. All witnesses, including officers witnessing or involved in an incident that becomes the subject of a misconduct complaint, shall provide a written statement regarding the incident or be interviewed as described below. If due to extenuating circumstances (e.g., unavailability or uncooperativeness of a witness) a witness cannot be interviewed or if a witness refuses to be interviewed, those facts shall be documented.
- (a) Where the alleged misconduct is particularly serious or interviews of the subject officer(s) or other witnesses may be necessary to sufficiently investigate the allegation, the investigator shall conduct an in-person interview. The interview shall be recorded in its entirety, absent, in the case of non-officer witnesses, specific documented objection.
  - (b) Each officer, witness, and complainant shall be interviewed separately. A NOPDAI not involved in the underlying complaint will be used when taking statements or conducting interviews of any Vietnamese or Spanish speaking LEP complainant or witness.
78. The misconduct investigator shall seek to identify all persons at the scene giving rise to a misconduct allegation, especially all NOPD officers. The investigator shall note in the investigative report the identities of all officers and other witnesses who were on the scene but assert they did not witness and were not involved in the incident. The investigator shall conduct further investigation of any such assertions that appear unsupported by the evidence.
79. The investigator shall search for, and obtain copies of, relevant video evidence, including body-worn camera footage, mobile-video unit footage, surveillance video of the incident, the accused, witnesses, or other relevant recordings (such as video evidence of the accused, the complainant, or involved witnesses). Copies of the video shall be included as exhibits and labeled with the PIB Complaint Tracking Number. If the investigator is unable to find video evidence, he or she shall provide an explanation for the

unavailability of evidence, such as "Officer's body worn camera not activated."

80. In each investigation, NOPD shall consider all relevant evidence, including circumstantial, direct, and physical evidence, as appropriate, and make credibility determinations based upon that evidence. There will be no automatic preference for an officer's statement over a citizen's statement, nor will NOPD disregard a witness' statement merely because the witness has some connection to the complainant or because of any criminal history. Statements may contain some inconsistencies and contradictions. When inconsistencies occur, investigating supervisors should not automatically disbelieve the person who made the statement. The investigator should consider whether the inconsistencies relate to significant or insignificant matters and whether the inconsistency is reasonable in light of the circumstances. NOPD shall make efforts to resolve material inconsistencies between witness statements. If such inconsistencies cannot be resolved adequately, the investigator should expressly state that in his/her report.
81. Factors to consider when making a credibility assessment include, but are not limited to:
  - (a) The person's opportunity to see or hear the things that the person claims to have seen or heard;
  - (b) Any motive the person has to lie;
  - (c) Any interest the person may have in the outcome of the case;
  - (d) Any bias of the person;
  - (e) The person's memory and ability to recall events;
  - (f) Information pertaining to the person's truthfulness or lack thereof;
  - (g) Any inconsistencies in the person's statement and whether they are supported or contradicted by evidence;
  - (h) Information, including criminal or disciplinary history that suggests a habit, routine, or pattern of relevant behavior. Information about a person's character or reputation alone, without more, shall not be considered.
82. The resolution of any misconduct complaint must be based upon the preponderance of the evidence.
83. A misconduct investigation shall not be closed simply because the complaint is withdrawn or because the alleged victim is unwilling or unable to provide additional information beyond the initial complaint. In such instances, the investigation shall continue as necessary within the allowable investigation timeframes established under this Agreement to resolve the original allegation(s) where possible based on the evidence and investigatory procedures and techniques available. In each investigation, the fact that a complainant pled guilty or was found guilty of an offense shall not be the deciding factor as to whether an NOPD officer committed the alleged misconduct, nor shall it justify discontinuing the investigation.
84. If an investigator becomes aware at any time, including during an interview or the taking of a statement, of criminal conduct on the part of any member or employee, the investigator shall immediately suspend the investigation and notify the PIB commander.

#### **TRANSCRIPTION OF STATEMENTS**

85. The initial recording of the complainant's allegations, if taken by PIB Intake personnel, shall be transcribed only if no subsequent statement is taken from the complainant by the investigator and the investigation culminates with a recommended disposition of SUSTAINED.

86. If an investigation results in a recommended disposition of sustained by the investigator, each recorded statement shall be transcribed by the investigator. Each page of the transcript shall be initialed by the accused employee, and the last page shall be signed and dated by the accused employee. Each transcript shall be labeled as an exhibit and made part of the investigative report.
87. A transcript of an audio taped or digitally recorded statement is not required in an investigation which has the recommended disposition of NOT SUSTAINED, UNFOUNDED, or EXONERATED.
88. Any reviewing authority, including the PIB Deputy Superintendent, may return an investigation for a transcript in any case where a transcript is deemed necessary for the review process.
89. The Deputy Superintendent of PIB may grant written approval for a statement not to be transcribed in an investigation that includes recommendation for sustained violations. To ensure the accuracy of investigative conclusions, the PIB Deputy Superintendent shall be responsible for conducting a random check of completed investigative cases in which no transcripts are provided.

### **INVESTIGATOR'S FINDINGS AND RECOMMENDED DISPOSITION(S)**

90. In each investigation, the fact that a complainant plead guilty or was found guilty of an offense shall not be the deciding factor as to whether an accused employee committed the alleged misconduct, nor shall it justify discontinuing the investigation.
91. The misconduct investigator shall explicitly identify and recommend one of the following dispositions for each allegation of misconduct in an administrative investigation:

**Unfounded**—the investigation determines by a preponderance of the evidence that the alleged misconduct did not occur or did not involve the accused officer.

**Sustained**—the investigation determines by a preponderance of the evidence that the alleged misconduct did occur.

**Not sustained**—the investigation is unable to determine by a preponderance of the evidence whether the alleged misconduct occurred.

**Exonerated**—the investigation determines by a preponderance of the evidence that the alleged conduct did occur but did not violate NOPD policies, procedures, or training.

#### **Resigned Under Investigation (RUI) citing the disposition of the completed investigation**

If the accused employee resigns before the investigation is concluded or before the completion of discipline, the investigation shall be completed and the disposition shall reflect both "RUI" and the investigator's disposition of each accusation. No hearing is conducted.

#### **Retired Under Investigation (RUI) citing the disposition of the completed investigation (e.g., RUI/Sustained or RUI/Exonerated) -**

If the accused employee retires before the investigation is concluded or before the completion of discipline, the investigation shall be completed and the disposition shall reflect both "RUI" and the investigator's disposition of each accusation. No hearing is conducted.

92. When the recommended disposition is UNFOUNDED, EXONERATED, or NOT SUSTAINED, the investigator shall cite only the number and title of the RULE the employee allegedly violated with the recommended disposition. After each Rule, make reference to any applicable Departmental regulation, order, or procedure (Chapter, Special Order, General Order, Personnel Order, Bulletin, etc.), which most specifically addresses the alleged violation (Example: Rule 4: Performance of Duty; Paragraph 2: Instructions from Authoritative source, to wit, **Chapter 41.3.10 – Body Worn Camera**). If a **criminal or traffic law** was allegedly violated, the specific law shall be cited by statute number and wording. Multiple rules shall be cited in ascending numerical order.
93. When the recommended disposition is SUSTAINED, the investigator shall quote each rule for which he/she recommends a sustained disposition and the applicable Departmental regulation, order, procedure or law, and provide a complete explanation of how the employee may have violated the rule (i.e., if untruthful, state how, when and to whom the employee was untruthful and how, when, and by whom the employee's information is disputed). Multiple rules shall be cited in ascending numerical order.
94. When a charge is sustained, the investigator must include a violation of Rule IX of the Civil Service Rules for the City of New Orleans, as it pertains to Maintaining the Standards of Service, using the following phrase after the last listed violation:

*[Accused employee's name] may also have violated Rule IX of the Civil Service Rules for the City of New Orleans, relative to Maintaining Standards of Service]*

#### **UNFOUNDED AND EXONERATED COMPLAINTS**

95. If the intake member or investigator determines the complaint is clearly, demonstrably unfounded or exonerated based on camera footage and no other misconduct is evident, the intake member or investigator shall notify the reviewing supervisor.
96. The reviewing supervisor shall review and approve the conclusion as appropriate. The supervisor shall prepare a brief report documenting the review and the rationale for the decision.
97. If the reviewing supervisor approves the unfounded or exonerated disposition, the investigation shall conclude, and the investigator need not conduct additional investigatory requirements, such as interviewing all witnesses.
98. If the supervisor disapproves the preliminary disposition, the investigator shall continue investigating the complaint according to this Chapter.

#### **MINOR VIOLATIONS/INFRACTIONS DISCOVERED THROUGH INVESTIGATION**

99. If the investigator identifies a minor violation/infraction that is not the principal basis of the complaint, the investigator shall note the minor violation in the investigative report and communicate the minor violation to the member's supervisor for appropriate follow-up. The minor violation/infraction may be considered an additional misconduct violation (other sustained misconduct) within the complaint investigation, but the investigator should consider non-disciplinary methods for handling the minor violation/infraction as appropriate, including if the member has no pattern of similar minor violations within the preceding year (i.e., more than three times within a 12-month period). The investigator shall still pursue the original allegation even if it is a minor violation.
100. See **Chapter 35.1.7 – Non-Disciplinary Responses to Minor Violations**.

**REPORT FORMAT**

101. The investigator shall utilize an NOPD Form 105 (Interoffice Correspondence) to document the formal investigation. The heading shall be as follows:

TO: Superintendent of Police  
 FROM: [Investigator's rank, name, and place of assignment]  
 SUBJECT: PIB CTN # [Complaint Tracking Number]  
 [Name of accused employee(s), ID #, rank, and place of assignment]]  
 DATE: [Date investigator submits report to supervisor]

102. The investigator shall address each of the following areas using the following clearly labeled and defined headings and subheadings:

(a) **INTRODUCTION:** This section shall identify the investigator by rank, name, and assignment. It shall recount by whom and when the investigator was assigned the investigation. The introduction shall include the following subheadings:

1. **BRIEF SYNOPSIS:** Give a brief synopsis of the allegation(s) including what, when, where, how, and by whom the alleged violation(s) was committed, and any other pertinent information that the investigator deems necessary.
2. **ALLEGATIONS:** The synopsis of the allegations shall also set forth the alleged violations. Identify and list every possible misconduct violation contained within the complaint or identified during the supervisor's initial inquiry into the complaint or through his/her own observation. The investigator shall pursue all allegations in the original complaint but may choose to refer minor violations/infractions discovered through the course of investigation to the relevant supervisor for appropriate follow up (see **Chapter 35.1.7 – Non-Disciplinary Responses to Minor Violations**) rather than including the minor violations/infractions as formal allegations. The investigator shall clearly document in a report any minor violations that were referred to the member's supervisor. Cite the numbers and title of the Rule and Chapter, order, etc., that may have been violated. If an allegation involves a criminal law, the state or municipal number and title shall be included. If multiple alleged violations, each shall be listed in numerical order by rule number, then by paragraph number. Each allegation shall be numbered as V1, V2, V3. The only allegation(s) which shall be listed under the individual accused employee is (are) the allegation(s) made against that specific employee.

(b) **INVESTIGATION:** The investigator shall document a detailed account of every aspect of the investigation, including an individual summary of each interview, whether recorded or written. If the interview is recorded, the transcription of this interview (if one is required) shall be labeled and listed as an exhibit. If the investigator obtained a written statement from any party, the written statement shall be labeled and listed as an exhibit.

3. **WITNESSES:** List every witness, including members, and identify whether each witness was contacted or provided a written statement, and whether any interviews were recorded. If a witness was not

contacted or an interview was not recorded, give an explanation. For example: "Joe Doe could not be reached despite numerous attempts; he provided a non-working telephone number and refused to provide an address."

4. **CREDIBILITY ASSESSMENT:** Provide a relevant assessment of the complainant(s) and witness(es) (see Paragraphs 80 & 81 above).
- (c) **SUMMARY:** This section shall summarize the important aspects of the investigation and why the investigator arrived at the conclusion of culpability or innocence on each allegation. The Summary Section shall contain only **information** already fully documented in the Investigation Section, and shall not introduce any new information.
- (d) **RECOMMENDATION(S):** Each alleged violation shall be addressed individually, with a recommended disposition on each rule allegedly violated, and a complete justification of the recommended disposition of each rule appearing in the original Misconduct Investigation Initiation Form. Any additional sustained misconduct violations (not alleged in the original form) shall be listed after the original violation(s) under the sub-heading "Additional Sustained Violations." Any additional accused employees and their sustained misconduct violations shall be listed under the subheading "Additional Accused and Sustained Violations."

The investigator must also assess whether: (i) the accused's conduct was in compliance with training and legal standards; (ii) the incident indicates a need for additional training, counseling, or other non-disciplinary corrective measures; and (iii) the incident suggests that NOPD should revise its policies, strategies, tactics, or training. (see: Program Review Request Form #358).

- (e) **EXHIBITS:** The final page of the investigative report shall be the Exhibit page. Each exhibit (Misconduct Investigation Initiation form, recording, written order, evidence receipt, photograph, etc.) shall be assigned a letter. A list of exhibits that contains more than **twenty-six** (26) items shall utilize a double-alphabet designation (AA-ZZ). Each exhibit shall carry a corresponding label on the exhibit itself. Each exhibit listed shall include a description of the exhibit, the number of pages in the exhibit, and whether the document is an original or a photocopy; as indicated below:

**EXHIBITS [EXAMPLE]**

Exhibit A	PIB Transmittal page, original
Exhibit B	Formal Disciplinary Investigation initiation form, original
Exhibit C	Transcribed statement of [XXX], 5 pages, original
Exhibit D	Incident report, Item # X-XXX-XX, 4 pages, photocopy
Exhibit E	TRIP record for [XXX]. Dated XXX, one page, original
Exhibit F	Photographs, taken by Crime Lab, Item # X-XXX-XX, four

103. Any extension request submitted to Civil Service, along with any response, shall be included as an exhibit to the investigative report.
104. The investigator's signature, with the rank, title, and date typed below the signature, shall conclude the report. The investigator's initials shall also be hand written on each page of the investigation in the bottom right hand corner.

105. The report shall conclude with the following format for each person in the investigator's chain of command, up to and including the Superintendent of Police:

CONCUR / DO NOT CONCUR

\_\_\_\_\_

Date:

\_\_\_\_\_

[rank and name of person in chain of command]

[title and/or place of assignment]

The date alongside each signature will be the date the reviewer signed the document, not the date appearing at the top of the report.

106. The complete investigative report shall be assembled unstapled and in the order outlined in the Investigative Case File Organization provided in **Appendix A**, with all exhibits in order. Each page of the investigative report shall be sequentially numbered. The entire package shall be placed into a large manila envelope, labeled with the PIB Complaint Tracking Number on the front, and shall be forwarded to PIB through the investigator's chain of command for approval.
107. Every exhibit page shall have the Complaint Tracking Number at the top left and the page number on the top right. For example, the top of the fifth page of a 10-page exhibit shall note: **PIB CTN #: 201X-XXXX Page 5 of 10.**

## FORMS

108. Refer to the Resources folder on nopd.org for forms that shall be used for:
- Any statement taken from an accused employee in an administrative investigation.
  - Any statement taken from an accused employee in a criminal investigation.
  - Any statement taken from an employee witness in an administrative or criminal investigation.
  - Any statement taken from a complainant and/or non-employee witness in an administrative or criminal investigation.

## FORMAL DISCIPLINARY INVESTIGATION DUE DATE CALCULATION

109. An administrative investigation shall be completed within the time limitation mandated by LA RS 40:2531, which requires every investigation to be initiated within 14 days of the Cognizance Date. The date when a PIB investigation is initiated is known as the Classification Date. All due dates are calculated upon the Classification Date.
110. Every investigation must be completed within 60 days of the Classification Date unless an extension of 60 days is granted by Civil Service. The Civil Service extension extends the final due date to 120 days from the classification date. Within that time frame, the investigator's written investigation (accompanied by exhibits), the various levels of supervisory review which may necessitate corrections/additions/clarifications, the final approvals at every level, and the verbal and/or written "Notice to Accused Law Enforcement Officer Under Investigation of a Pre-Disciplinary Hearing or a Determination of an Unfounded or Not Sustained Complaint" (NOPD Form 308) must be completed.

**EXTENSION OF FORMAL DISCIPLINARY INVESTIGATION DUE DATE**

111. An extension of the formal disciplinary investigation due date may be requested by the investigator if a complainant, witness, principal, or evidentiary material will not be available or if extenuating circumstances preclude the investigator's ability to complete the investigation by the assigned due date. The investigator may apply to Civil Service for an extension of the sixty-day due date (NOPD Form 200). The extension request must be submitted to Civil Service within the first thirty days of the investigation (i.e., within 30 days of the date of classification). The form shall be hand delivered by the investigator to the Civil Service office where it will be date/time stamped. An extension hearing will be set by Civil Service to allow the Civil Service Hearing Officer to determine if the extension is necessary, and to allow the accused employee to address the requested delay.
112. The assigned investigator shall ensure a photocopy of the date-stamped extension request (Form 200) is delivered to PIB within forty-eight (48) hours of the date-stamp. A photocopy of the written decision by the Civil Service hearing examiner given to the investigator after the hearing must also be delivered to PIB within forty-eight (48) hours of the hearing or receipt by the investigator.
113. Photocopies of the date-stamped request and the hearing examiner's written response shall be made a part of the investigative report as exhibits. The amended PIB due date, (always one hundred (100) days from the Classification Date) is written on page two (2) of the Misconduct Investigation Initiation Form by PIB to reflect the due date if/when an extension is approved by Civil Service.

**PIB LIAISON**

114. When a Bureau receives notification from PIB that a disciplinary investigation is to be assigned to that bureau, the PIB liaison for that bureau shall respond to PIB and complete the receipt for assignment. The Bureau Chief shall assign the investigation to a supervisor in that bureau who is of at least equal rank to the accused employee. Only one investigator is to be assigned to any investigation, regardless of the number of accused employees or differing assignments. The PIB liaison is responsible for calculating and documenting on the Misconduct Investigation Initiation Form all bureau due dates. The bureau representative is also responsible for maintaining a tracking system for that bureau's investigations to ensure all due dates are met at every bureau level and that the completed and approved investigation is submitted to PIB on or before the PIB due date. The internal bureau due dates should take into account and allow for report review, corrections, and resubmissions.

**INVESTIGATOR'S UNIT AND/OR DIVISION COMMANDER**

115. The investigator's unit commander shares with PIB and the Bureau Commander the overall responsibility for ensuring the timely completion of a coherent and comprehensive disciplinary investigation. The investigator's commander shall review the completed investigative report and concur or not concur with the investigator's recommendation(s). If the investigator's unit commander does not concur with the investigator's recommendation, he/she shall write an NOPD Form 105 to the PIB Deputy Superintendent and the Superintendent of Police, through his/her chain of command documenting his/her differing recommendation(s) and the reason for each change of recommendation. This Form 105 shall be placed on top of the investigative report and shall accompany it to the Deputy Superintendent of PIB. The composing of this Form 105 shall not delay the processing of the investigation in the bureau.

116. The investigator's commander shall return to the investigator for further action any investigation that has a factual or investigative deficiency, error, or omission. The deficiencies will be identified in a written report to the investigator that is made part of the file and a copy forwarded within 24 hours of completion to the Deputy Superintendent of PIB.
117. The investigator's commander shall forward to, and ensure receipt of, the reviewed and approved investigative report to his/her respective bureau commander, to be received by the bureau commander no later than the due dates stipulated by the bureau representative on the Misconduct Investigation Initiation Form. Any revision by the investigator to the investigative report shall not delay the processing of the investigation by the unit commander.

#### **INVESTIGATOR'S BUREAU CHIEF**

118. The investigator's Bureau Chief shares with PIB and the unit/division commander the overall responsibility of ensuring the timely completion of a cogent, coherent disciplinary investigation. For disciplinary investigations assigned to a bureau, the investigator's bureau chief shall review the completed formal disciplinary investigative report and concur or not concur with the investigator's recommendation(s).
119. If the investigator's Bureau Chief does not concur with the investigator's recommendation, he/she shall write an NOPD Form 105 to the PIB Deputy Superintendent documenting his/her differing recommendation(s) and the reason for each change of recommendation. This Form 105 shall be placed on top of the investigative report and shall accompany it to the PIB Deputy Chief. The composing of this Form 105 shall not delay the processing of the investigation in the bureau.
120. The investigator's Bureau Chief shall return to the investigator for further action an investigation which has a factual or investigative deficiency, error, or omission. The deficiencies will be identified in a written report to the investigator's commander that is made part of the file and a copy forwarded within 24 hours of completion to the PIB Deputy Superintendent.

#### **COMPLETION OF MISCONDUCT INVESTIGATION INITIATION FORM**

121. The Misconduct Investigation Initiation Form shall be fully completed by the bureau's PIB liaison, the investigator, the investigator's unit commander, and the Bureau Chief before submitting the completed investigative report to PIB. Each signature shall include a date.

#### **DISPOSITION OF MISCONDUCT INVESTIGATION**

122. Each allegation shall result in one of the following dispositions based on a finding of fact and considering the totality of circumstances:

**Unfounded**—the investigation determines by a preponderance of the evidence that the alleged misconduct did not occur or did not involve the accused officer.

**Sustained**—the investigation determines by a preponderance of the evidence that the alleged misconduct did occur.

**Not sustained**—the investigation is unable to determine by a preponderance of the evidence whether the alleged misconduct occurred.

**Exonerated**—the investigation determines by a preponderance of the evidence that the alleged conduct did occur but did not violate NOPD policies, procedures, or training.

**Resigned Under Investigation (RUI) citing the disposition of the completed investigation**

- If the accused employee resigns before the investigation is concluded or before the completion of discipline, the investigation shall be completed and the disposition shall reflect both “RUI” and the investigator’s disposition of each accusation. No hearing is conducted.

**Retired Under Investigation (RUI) citing the disposition of the completed investigation (e.g., RUI/Sustained or RUI/Exonerated)**

- If the accused employee retires before the investigation is concluded or before the completion of discipline, the investigation shall be completed and the disposition shall reflect both “RUI” and the investigator’s disposition of each accusation. No hearing is conducted.

123. In addition to resulting in one of the preceding dispositions, administrative investigations shall also assess and document whether the police action was in compliance with training and legal standards; whether the incident indicates a need for additional training, counseling, or other-non-disciplinary corrective measures; and whether the incident suggests that NOPD should revise its policies, strategies, tactics, or training. (see: Program Review Request Form #358). If the supervisor determines during his/her review of an incident that NOPD should revisit policy, tactics, training, or strategy related to the incident, the supervisor shall document that in a PRR Form #358. The supervisor submitting a PRR form #358 is responsible for thoroughly completing the form’s “Request” section. The supervisor shall make a digital copy of the form and email it to PSAB@nola.gov. The supervisor shall make an earnest effort to provide information to facilitate the review of the request. Supervisors shall be available to the reviewer and respond to follow-up questions the PSAB reviewer may have.
124. PIB shall document sharing this information with the relevant commander(s), who shall refer any recommendations to the appropriate individual for implementation, document the implementation, and return that documentation to PIB.

**COMPLETION OF INVESTIGATION**

125. Every investigator or supervisor assigned to investigate a complaint action shall proceed with due diligence. Factors such as witness availability and the complexity of allegations may affect the progress of the case. Every effort should be made to complete each investigation and impose any disciplinary action within a reasonable period following receipt and in accordance with Departmental Procedure and the Rights of Law Enforcement Officers While Under Investigation (RS 40:2531(B)(7)).
126. Investigations shall be completed within 60 days (La. R.S. 40:2531(B)(7)) of classification. Classification must occur within fourteen days of the cognizance date. The assigned investigator may request an extension from the New Orleans Civil Service Commission for an additional 60 days if the investigation reasonably requires such an extension.
127. The investigation is considered complete upon written notice to the employee under investigation of a pre-disciplinary hearing or a determination of an unfounded or not sustained complaint (R.S. 40:2531(B) (7)). The member conducting the investigation

should ensure his/her report is completed by the assigned due date so notification can be made in a timely manner.

### **PIB DEPUTY SUPERINTENDENT**

128. The PIB Deputy Superintendent shall review every completed investigative report from every bureau.
129. For investigative reports completed by a bureau other than PIB, the PIB Deputy Superintendent shall compose a Form 105 to the Deputy Superintendent of the investigator's bureau addressing and returning any investigative report which has a factual or investigative deficiency, error, or omission which will require further investigation by the investigator. Once all deficiencies, errors, or omissions have been corrected, the investigation shall be returned to the PIB Deputy Superintendent for final review and approval.
130. The Public Integrity Bureau shall review past case reports and specific allegations and dispositions to determine whether there is commonality or a pattern similar to the allegations in the case at hand, considering the time between complaints and their similarity to the subject case. When a member's disciplinary history includes Unfounded, Exonerated, or Not Sustained cases, these cases cannot be used in a credibility determination unless there is a clear pattern or relevancy to the subject case.
131. The Public Integrity Bureau may contact the accused person's supervisor and ask that supervisor to provide his or her observations and assessment of the accused employee.
132. Investigative reports will not be returned informally; they can only be returned with a Form 105 from the PIB Deputy Superintendent to the Deputy Superintendent of the investigator's bureau, a copy of which will be placed in the investigation's permanent file.
133. For investigative reports completed by PIB, the PIB Deputy Superintendent shall return to the investigator any investigative report which has a factual or investigative deficiency, error, or omission which will require further investigation by the investigator. Once all deficiencies, errors, or omissions have been corrected, the investigation shall be returned to the PIB Deputy Superintendent for final review and approval.
134. PIB shall determine the final disposition of all complaint actions. The PIB Deputy Superintendent shall either concur or not concur with the investigator's recommendations or those of any reviewing supervisor documented in a Form 105. If he/she does not concur with any of the recommended dispositions, he/she shall compose his/her own Form 105 addressed to "Memo to File" if he/she determines a differing recommended disposition.
135. The PIB Deputy Superintendent is responsible for ensuring that the disposition approved by the Superintendent is fully implemented in a timely manner, consistent with all rights of the accused member.

### **SUPERINTENDENT OF POLICE**

136. Once the Deputy of Superintendent of PIB has approved the disposition of an investigation conducted by PIB, the investigation disposition shall be transmitted to the Superintendent of Police for review and final approval. For those investigations conducted by a bureau other than PIB, the Deputy Superintendent of PIB's review concludes the investigation.

**INSPECTION BY ACCUSED EMPLOYEE OF COMPLETED INVESTIGATION**

137. An investigation of misconduct may include confidential and protected information not revealed to anyone other than authorized personnel, except pursuant to lawful process and in compliance with the **Chapter 82.1.1 – Records Release and Security**. The investigative file shall be securely maintained in PIB for the period required by the organization's record retention schedule.

**COMMUNICATION WITH COMPLAINANT**

138. PIB shall regularly inform the complainant of the status of the misconduct investigation. At a minimum, PIB shall inform the complainant in writing of the classification of the complaint and the unit assigned to investigate the complaint within ten business days of classification; the disposition of the investigation within ten business days of the investigation's completion; and whether any disciplinary action was taken within ten days of disciplinary decisions being reached.
139. The investigator shall forward correspondence to the non-member complainant, via departmental letterhead, on the following timetable:
- (a) Immediately upon being assigned the formal investigation, a letter introducing him/herself to the complainant as the investigator of the complaint (Form 197), and
  - (b) Every 45 days from the date the investigator's commanding officer received the complaint, updating the status of the investigation. This shall continue until the investigation is submitted for approval (Form 198).
140. If the investigator is unable to contact the complainant via the telephone number(s) or at the address provided in the Complaint Form, he/she shall mail to the complainant's recorded address a certified letter advising the complainant of the need to immediately contact the investigator. The letter shall advise the complainant that the investigation may be severely impeded without the complainant's assistance if the complainant fails to respond. The investigator shall utilize the wording of the letter shown in Form 199. This correspondence and certification of delivery/receipt shall be included as part of the investigative case file. Even if the complainant cannot be contacted, the investigation shall continue as necessary to resolve the original allegation based on the evidence and investigatory procedures available.
141. All correspondence shall be included as part of the investigative case file.

**RELEASE OF INFORMATION TO THE PUBLIC**

142. The release of member information to the public shall be coordinated through the Public Information Office and the Office of the Superintendent of Police.
143. PIB records are maintained and secured by PIB and are accessible only as consistent with law. The PIB file room is secured with a coded and audible alarm system. PIB records are maintained indefinitely, in accordance with State law and Departmental policy.
144. A member's disciplinary history shall consist of all sustained and not sustained complaints. PIB shall maintain records of complaints with a disposition of unfounded, exonerated, or NFIM, but the disciplinary history will not include these complaints.

**ANNUAL STATISTICAL SUMMARIES OF INTERNAL INVESTIGATIONS**

145. PIB shall compile annual statistical summaries based on records of internal investigations and publish the report on the NOPD's Web site. The purpose of the report is to inform the public of the NOPD's investigations and dispositions of misconduct complaints. The annual statistical summary shall be made available to the public or an employee of the Department upon written request to the NOPD Custodian of Records and subsequent approval by the PIB Deputy Superintendent. PIB and the IPM shall coordinate and confer with each other in collecting, analyzing, and reporting this data to avoid or minimize duplication of efforts or resources. The annual statistical summary shall include at least the following:
- (a) a summary of each misconduct complaint including a description of the allegation, the final approved disposition, and any discipline imposed;
  - (b) aggregate misconduct complaint data showing the number of each type of complaint and the number and rate of sustained cases after final approval;
  - (c) analysis of this data that identifies trends and concerns, and that documents the response to the identified trends and concerns.

**DISCIPLINARY ACTION AND INVESTIGATION FORMS**

146. The forms utilized to document the receipt, classification, assignment, processing, completion, disposition and tracking of complaints are designed or approved by PIB in accordance with Departmental policy and procedure. The forms and the directions to complete the forms shall be available on the NOPD.org web site in the "Forms" folder. Any revision, addition, or deletion of a form shall be the responsibility of PIB. The Policy Standards Section shall provide support to PIB by completing updates and publication of both the forms and the directions for completion.

### **Appendix A – Investigative Case File Organization**

The case file shall be organized in a uniform fashion by the case investigator prior to submission to his/her supervisor. The new investigation report format will include colored paper. Each color will be used as a divider to divide the investigation and make it easy to locate documents quickly.

- (a) Pink = Hearing Forms (Sustained)**
- (b) Orange = Tracking and Miscellaneous Forms (including buck slips, inventory forms, etc.)**
- (c) Green = Exhibits**
- (d) Blue = Notice of Disposition**
- (e) Yellow= Initial Complaint (left hand side)**

The completed investigative report should be placed on the left hand side of the opened folder on top. A yellow paper shall be placed below the completed report. The initial complaint shall be placed under the yellow paper. These pages should be secured with an “acco” fastener in two holes punched at the top of every page.

The right hand side of the folder should have the tracking forms, exhibits (labeled and in order), and notices of disposition. Place all CD's, tapes, loose pictures, and small items (i.e. certified receipts) in one manila envelope and place the envelope on top of all forms on the right-hand side of the folder. These items should be secured with an “acco” fastener with two holes punched at the top of every page.

## NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

### CHAPTER: 52.1.2

## TITLE: MISCONDUCT COMPLAINT INVESTIGATOR RESPONSIBILITIES

**EFFECTIVE: 05/15/2016**

**REVISED: 05/21/2017**

---

### PURPOSE

The purpose of this policy is to establish standards for Department members in the investigation of misconduct complaints. This policy supplements Chapter 52.1.1, "Complaint Investigation" and describes the specific responsibilities of misconduct investigators.

### POLICY STATEMENT

- Supervisors who are assigned to conduct a misconduct investigation of an accused employee shall conduct a thorough investigation and exhaust all leads. Misconduct investigations shall be as thorough as necessary to reach reliable and complete findings.

### DEFINITIONS:

Definitions relevant to this Chapter include:

**Classification date**—The date on which PIB determines the complaint will be investigated as a public complaint; internally generated complaint; minor infraction resolved through counseling or training; or No Formal Investigation Merited.

**Complaint Form**—The universal form that any person may use to file a complaint against a member of the New Orleans Police Department. Any person can file a complaint without filling out this form (e.g., a complaint may be communicated verbally or online), and a complaint shall not be disregarded if a person refuses to, or cannot, complete this form.

**Complaint Tracking Number (CTN)**—A unique number assigned by PIB Intake to each complaint received and entered on the Complaint Form and all documents associated with intake, classification, investigation and adjudication of the complaint. The CTN includes the year the complaint was filed followed by a four digit sequential number starting with 0001 for the first recorded allegation of the year, followed by an alpha character indicating the source of the complaint (i.e., P = public; R = rank). For example, 2014-0001P indicates the first complaint received in 2014 and it was filed by a member of the public.

**Exonerated**—The recommended disposition when a misconduct investigation determines by a preponderance of the evidence that the alleged conduct did occur but did not violate NOPD regulations, policies, procedures, or training.

**Minor violation/infraction**—A violation of a Departmental Rule, Policy, Procedure, Order, regulation, or verbal/written instructions that a supervisor believes requires minimal intervention through redirection, retraining and/or counseling to correct the employee's behavior (e.g., tardiness, uniform requirement, forgetting to complete an FIC, and cleanliness of vehicle). The behavior must not be the subject of a public complaint and must be sufficiently minor that it is correctable by minimal intervention by the supervisor, with the goal of non-repetitive behavior. Repetition of similar violations within a twelve-month period (based on the date of the observed violation) may require discipline. A supervisor may decide to handle a minor violation/infraction through non-disciplinary means.

**No Formal Investigation Merited (NFIM)**—A complaint action in which the allegation, on its face, does not constitute a violation by an employee of any Departmental Rule, Policy, Procedure, verbal or written instruction, or criminal or civil law. NFIM will be used only for the following types of complaints:

- Complaints disputing traffic citations, except an allegation of misconduct contained in such complaints (e.g., racial profiling, illegal search, excessive force) will be classified and investigated according to its merits;
- Complaints alleging delayed police service (e.g., patrol response or detective follow-up) in which the preliminary investigation demonstrated that the delay was due to workload. However, if the preliminary investigation disclosed that misconduct such as negligence, rather than workload, caused the delay, the complaint will be classified according to its merits;
- Complaints regarding the conduct in a civil incident of an off-duty employee, unless the alleged conduct or its effects constitute misconduct or had a substantial nexus to the employee's employment; and
- Complaints in which the preliminary investigation demonstrated that the subject employee did not work for NOPD at the time of the incident or in which the identity of the subject employee cannot be determined despite the best efforts of the PIB investigator.

**Not sustained**—The recommended disposition when an investigation is unable to determine by a preponderance of the evidence whether the alleged misconduct occurred.

**Preponderance of the evidence**—Such evidence that when considered and compared with that opposed to it has more convincing force and produces in one's mind the belief that what is sought to be proven is more likely true than not true.

**Sustained**—The recommended disposition when an investigation determines by a preponderance of the evidence that the alleged misconduct did occur.

**Unfounded**—The recommended disposition when an investigation determines by a preponderance of the evidence that the alleged misconduct did not occur or did not involve the accused member.

## INVESTIGATOR RESPONSIBILITIES

2. Upon being assigned a formal disciplinary investigation, the investigator shall:
  - (a) Conduct a complete investigation and thoroughly exhaust all leads;

- (b) Interview and digitally record the accused employee's statement;
- (c) Interview and digitally record the statements of the complainant, any principal, and every known witness, both for and against the accused employee. (For non-department employees, a written statement, signed and dated by the individual giving the statement, may be substituted for an audio taped or digitally recorded statement. However, only audio taped or digitally recorded statements shall be taken from department employees.)
- (d) Collect evidence and property, when applicable, and maintain chain of custody records (evidence in criminal cases should be submitted to CE&P under the Complaint Tracking Number);
- (e) Prepare and forward correspondence to the complainant, as specified in this Chapter;
- (f) Address each section of the investigative report, documenting all facts;
- (g) Reach a conclusion supported by the preponderance of the evidence and prepare a written recommendation;
- (h) Apply for an extension of the due date (within the first thirty (30) days of the investigation, i.e. within thirty days of the classification date) when necessary, and particularly when any complainant, witness, principal, or evidentiary material will not be available in time to complete the investigation by the investigator's assigned due date;
- (i) Provide a copy of the date-stamped extension request (if requested) to PIB within 48 hours of the date-stamp.
- (j) Prepare a Notice of Completed Investigation, i.e. "Notice to Accused Law Enforcement Officer Under Investigation of a Pre-Disciplinary Hearing or a Determination of an Unfounded or Not Sustained Complaint" (NOPD Form #308), and submit the form along with the investigative report;
- (k) Submit a complete, coherent investigative report to his/her immediate supervisor by the investigator's assigned due date. The date of the investigative report shall be the date the completed report is submitted to the immediate supervisor for approval and forwarding through the chain of command to the PIB Deputy Superintendent; and
- (l) Update the PIB Transmittal form.

### **ACCUSED EMPLOYEE'S STATEMENT**

3. During the formal investigation, the investigator shall obtain a digitally recorded statement from the accused employee in every case, using the statement format for "Administrative Investigation of a Commissioned and/or Civilian NOPD Member" (Form #196). The audio file shall be labeled with the PIB Complaint Tracking Number, date the statement is taken, the accused employees' name, and the name of the person(s) whose statement(s) is recorded. The file(s) shall be labeled as an exhibit and made a part of the investigative report. Digitally recorded statements shall be preserved.
4. In either an administrative or criminal investigation, an NOPD employee acting as a representative for an accused and/or observing the interview of an individual in connection with an investigation conducted by PIB into the alleged misconduct of NOPD personnel, shall be required to sign a Confidentiality Admonishment (NOPD Form 305) prior to the commencement of the interview. The form shall be supplied by the investigator.
5. At least five days before taking a statement from an accused employee, the investigator shall provide notification (Form #196) to the accused employee informing the employee of the:

- (a) Allegation(s) against the employee;
  - (b) Employee's rights and responsibilities relative to the investigation; and
  - (c) Date, time, and location the employee is to appear for the statement
6. The notification shall be signed by the employee indicating receipt of the original form. A copy of the signed notification shall be labeled as an exhibit and made a part of the investigative report.
7. If, when ordered, an employee refuses to make an administrative statement as an accused employee or witness, the investigator shall digitally record the refusal unless extenuating circumstances prevent the recording, in which case the extenuating circumstances shall be documented in an Interoffice Correspondence (Form 105). The investigator shall immediately notify the accused employee's Deputy Superintendent and the PIB Deputy Superintendent, and submit a Complaint Form to PIB.
8. In an investigation that does not involve criminal allegations, the interview shall normally take place during the employee's tour of duty. The PIB Deputy Superintendent shall have the authority to extend or change an employee's regular tour of duty hours if necessitated by the demands of the investigation. Should the interview time extend past the employee's tour of duty, for payroll purposes, the employee shall be listed as working in the payroll system. If the employee is suspended or on any other leave status, the employee may be ordered to appear at any given time at a designated location to give a statement.
9. In an interview lasting more than two hours, the investigator shall provide breaks for rest, personal needs and meals. No interview shall last more than eight hours in any twenty-four hour period, unless authorized in writing by the Superintendent.
10. Prior to the taking of any statement, the investigator shall begin the accused employee's administrative and/or criminal statement with a full reading to and acknowledgment by the commissioned employee of "Rights of Law Enforcement Officers While Under Investigation" and the Constitutional rights relative to the giving of a criminal statement in a criminal investigation.
11. If an employee waives his criminal rights at any time during the interview process, the investigator shall stop the interview and further question the employee as to his/her understanding of the rights. The investigator shall immediately request that the employee sign a "Rights of Arrestee" form, announcing to the audio tape recorder that the employee has signed the "Rights of Arrestee" form number [state number]. The form shall be labeled and listed as an exhibit.
12. When an employee's counsel and/or representative is present during the rendering of a statement in an administrative investigation, he/she shall be allowed to advise the employee and make statements on the record regarding any question. The counsel may also provide names of witness(es), as per "The Rights of Law Enforcement Officers While Under Investigation," on behalf of the employee.

### **TRANSCRIPTION OF STATEMENTS**

13. The initial recording of the complainant's allegations, if taken by PIB Intake personnel, shall be transcribed only if no subsequent statement is taken from the complainant by the investigator and the investigation culminates with a recommended

disposition of SUSTAINED.

14. If an investigation results in a recommended disposition of sustained by the investigator, each recorded statement shall be transcribed by the investigator. Each page of the transcript shall be initialed by the accused employee, and the last page shall be signed and dated by the accused employee. Each transcript shall be labeled as an exhibit and made part of the investigative report.
15. A transcript of an audio taped or digitally recorded statement is not required in an investigation which has the recommended disposition of NOT SUSTAINED, UNFOUNDED, or EXONERATED.
16. Any reviewing authority, including the PIB Deputy Superintendent, may return an investigation for a transcript in any case where a transcript is deemed necessary for the review process.
17. The Deputy Superintendent of PIB may grant written approval for a statement not to be transcribed in an investigation that includes recommendation for sustained violations. To ensure the accuracy of investigative conclusions, the PIB Deputy Superintendent shall be responsible for conducting a random check of completed investigative cases in which no transcripts are provided.

#### **CORRESPONDENCE TO A NON-MEMBER COMPLAINANT**

18. The investigator shall forward correspondence to the non-member complainant, via departmental letterhead, on the following timetable:
  - (a) Immediately upon being assigned the formal investigation, a letter introducing him/herself to the complainant as the investigator of the complaint (Form #197), and
  - (b) Every 45 days from the date the investigator's commanding officer received the complaint, updating the status of the investigation. This shall continue until the investigation is submitted for approval (Form #198).

Immediately upon completion of his or her investigation, the investigator shall forward to PIB, through the chain of command, a completed letter to the complainant indicating the outcome of the investigation, i.e. the investigator's recommended disposition, along with the completed investigative report. PIB shall send the letter to the complainant upon review and approval.

All correspondence shall be included as part of the investigative case file.

19. If the investigator is unable to contact the complainant via the telephone number(s) or at the address provided in the Complaint Form, he/she shall mail to the complainant's recorded address a certified letter advising the complainant of the need to immediately contact the investigator. The letter shall advise the complainant that the investigation may be severely impeded without the complainant's assistance if the complainant fails to respond. The investigator shall utilize the wording of the letter shown in Form #199. This correspondence and certification of delivery/receipt shall be included as part of the investigative case file. Even if the complainant cannot be contacted, the investigation shall continue as necessary to resolve the original allegation based on the evidence and investigatory procedures available.

**THE INVESTIGATION**

20. Misconduct investigations shall be as thorough as necessary to reach reliable and complete findings. The misconduct complaint investigator shall interview each complainant in person, and this interview shall be recorded in its entirety, absent specific, documented objection by the complainant. If extenuating circumstances require that the interview of the complainant not be conducted in person, the investigator shall document those extenuating circumstances in the investigative file.
21. All witnesses, including members witnessing or involved in an incident that becomes the subject of a misconduct complaint, shall be interviewed. If due to extenuating circumstances (e.g., unavailability or uncooperativeness of a witness) a witness cannot be interviewed, or if a witness refuses to be interviewed, those facts shall be documented.
22. Where the alleged misconduct is particularly serious or interviews of the subject member(s) or other witnesses may be necessary to sufficiently investigate the allegation, the investigator shall conduct an in-person interview. The interview shall be recorded in its entirety, absent, in the case of non-member witnesses, specific documented objection.
23. Each member, witness, and complainant shall be interviewed separately. A New Orleans Police Department Authorized Interpreter not involved in the underlying complaint will be used when taking statements or conducting interviews of any Vietnamese or Spanish speaking LEP complainant or witness.
24. The misconduct investigator shall seek to identify all persons at the scene giving rise to a misconduct allegation. The investigator shall note in the investigative report the identities of all members and other witnesses who were on the scene, but note if they assert that they did not witness or were not involved in the incident. The investigator shall conduct further investigation of any such assertions that appear unsupported by the evidence.
25. The investigator shall search for, and obtain copies of, relevant video evidence, including body-worn camera footage, mobile-video unit footage, surveillance video of the incident, the accused, witnesses, or other relevant recordings (such as video evidence of the accused, the complainant, or involved witnesses). Copies of the video shall be included as exhibits and labeled with the PIB Complaint Tracking Number. If the investigator is unable to find video evidence, he or she shall provide an explanation for the unavailability of evidence, such as "Officer's body worn camera not activated."
26. In each investigation, the investigator shall consider all relevant evidence, including circumstantial, direct, and physical evidence, as appropriate, and make credibility determinations based upon that evidence. There will be no automatic preference for a member's statement over a non-member's statement, nor will the investigator disregard a witnesses' statement merely because the witness has a connection to the complainant or because of their prior criminal history. The investigator shall make efforts to resolve material inconsistencies between witness statements. Material inconsistencies shall be directly noted in the investigative report along with the rational used by the investigator to resolve the inconsistencies

27. If an investigator becomes aware at any time, including during an interview or the taking of a statement, of criminal conduct on the part of any member or employee, the investigator shall immediately suspend the investigation and notify the PIB commander.

#### **MINOR VIOLATIONS/INFRACTIONS DISCOVERED THROUGH INVESTIGATION**

28. If the investigator identifies a minor violation/infraction that is not the principal basis of the complaint, the investigator shall note the minor violation in the investigative report and communicate the minor violation to the member's supervisor for appropriate follow-up. The minor violation/infraction may be considered an additional misconduct violation (other sustained misconduct) within the complaint investigation, but the investigator should consider non-disciplinary methods for handling the minor violation/infraction as appropriate, including if the member has no pattern of similar minor violations within the preceding year (i.e., more than three times within a 12-month period). The investigator shall still pursue the original allegation even if it is a minor violation.

#### **CREDIBILITY ASSESSMENTS**

29. Investigators shall not give automatic preference to a member's statement over a complainant's statement or vice-versa.
30. In all investigations, investigators shall may make credibility assessments when reviewing the statements/allegations of complainants, accused employees, and witnesses in accordance with the nature of the statements/allegations and the issues of the case. Investigators shall use a preponderance of the evidence standard when making credibility determinations.
31. Factors to consider when making a credibility assessment include, but are not limited to:
  - (a) The person's opportunity to see or hear the things that the person claims to have seen or heard;
  - (b) Any motive the person has to lie;
  - (c) Any interest the person may have in the outcome of the case;
  - (d) Any bias of the person;
  - (e) The person's memory and ability to recall events;
  - (f) Information pertaining to the person's truthfulness or lack thereof;
  - (g) Any inconsistencies in the person's statement and whether they are supported or contradicted by evidence;
  - (h) Information, including criminal or disciplinary history that suggests a habit, routine, or pattern of relevant behavior. Information about a person's character or reputation alone, without more, shall not be considered.
32. Investigators must recognize that statements may contain some inconsistencies and contradictions. When inconsistencies occur, investigating supervisors should not automatically disbelieve the person who made the statement. The investigator should consider whether the inconsistencies relate to significant or insignificant matters and whether the inconsistency is reasonable in light of the circumstances.
33. The Public Integrity Bureau shall review past case reports and specific allegations and dispositions to determine whether there is commonality or a pattern similar to the allegations in the case at hand, considering the time between complaints and their

similarity to the subject case. When a member's disciplinary history includes Unfounded, Exonerated, or Not Sustained cases, these cases cannot be used in a credibility determination unless there is a clear pattern or relevancy to the subject case.

34. The Public Integrity Bureau may contact the accused person's supervisor and ask that supervisor to provide his or her observations and assessment of the accused employee.

#### REPORT FORMAT

35. The investigator shall utilize an NOPD Form 105 (Interoffice Correspondence) to document the formal investigation. The heading shall be as follows:

TO: Superintendent of Police  
 FROM: [Investigator's rank, name, and place of assignment]  
 SUBJECT: PIB CTN # [Complaint Tracking Number]  
 [Name of accused employee(s), ID #, rank, and place of assignment]]  
 DATE: [Date investigator submits report to supervisor]

36. The investigator shall address each of the following areas using the following clearly labeled and defined headings and subheadings:

(a) **INTRODUCTION:** This section shall identify the investigator by rank, name, and assignment. It shall recount by whom and when the investigator was assigned the investigation. The introduction shall include the following subheadings:

1. **BRIEF SYNOPSIS:** Give a brief synopsis of the allegation(s) including what, when, where, how, and by whom the alleged violation(s) was committed, and any other pertinent information that the investigator deems necessary.
2. **ALLEGATIONS:** The synopsis of the allegations shall also set forth the alleged violations. Identify and list every possible misconduct violation contained within the complaint or identified during the supervisor's initial inquiry into the complaint or through his/her own observation. The investigator shall pursue all allegations in the original complaint but may choose to refer minor violations/infractions discovered through the course of investigation to the relevant supervisor for appropriate follow up (see **Chapter 35.1.7 – Non-Disciplinary Responses to Minor Violations**) rather than including the minor violations/infractions as formal allegations. The investigator shall clearly document in a report any minor violations that were referred to the member's supervisor. Cite the numbers and title of the Rule and Chapter, order, etc., that may have been violated. If an allegation involves a criminal law, the state or municipal number and title shall be included. If multiple alleged violations, each shall be listed in numerical order by rule number, then by paragraph number. Each allegation shall be numbered as V1, V2, V3. The only allegation(s) which shall be listed under the individual accused employee is (are) the allegation(s) made against that specific employee.

(b) **INVESTIGATION:** The investigator shall document a detailed account of

every aspect of the investigation, including an individual summary of each interview, whether recorded or written. If the interview is recorded, the transcription of this interview (if one is required) shall be labeled and listed as an exhibit. If the investigator obtained a written statement from any party, the written statement shall be labeled and listed as an exhibit.

1. **WITNESSES:** List every witness, including members, and identify whether each witness was contacted or provided a written statement, and whether any interviews were recorded. If a witness was not contacted or an interview was not recorded, give an explanation. For example: "Joe Doe could not be reached despite numerous attempts; he provided a non-working telephone number and refused to provide an address."
  2. **CREDIBILITY ASSESSMENT:** Provide a relevant assessment of the complainant(s) and witness(es) (see Paragraphs 28 through 33 above).
- (c) **SUMMARY:** This section shall summarize the important aspects of the investigation and why the investigator arrived at the conclusion of culpability or innocence on each allegation. The Summary Section shall contain only **information** already fully documented in the Investigation Section, and shall not introduce any new information.
- (d) **RECOMMENDATION(S):** Each alleged violation shall be addressed individually, with a recommended disposition on each rule allegedly violated, and a complete justification of the recommended disposition of each rule appearing in the original Misconduct Investigation Initiation Form. Any additional sustained misconduct violations (not alleged in the original form) shall be listed after the original violation(s) under the sub-heading "Additional Sustained Violations." Any additional accused employees and their sustained misconduct violations shall be listed under the subheading "Additional Accused and Sustained Violations."
- The investigator must also assess whether: (i) the accused's conduct was in compliance with training and legal standards; (ii) the incident indicates a need for additional training, counseling, or other non-disciplinary corrective measures; and (iii) the incident suggests that NOPD should revise its policies, strategies, tactics, or training.
- (e) **EXHIBITS:** The final page of the investigative report shall be the Exhibit page. Each exhibit (Misconduct Investigation Initiation form, recording, written order, evidence receipt, photograph, etc.) shall be assigned a letter. A list of exhibits that contains more than **twenty-six** (26) items shall utilize a double-alphabet designation (AA-ZZ). Each exhibit shall carry a corresponding label on the exhibit itself. Each exhibit listed shall include a description of the exhibit, the number of pages in the exhibit, and whether the document is an original or a photocopy; as indicated below:

#### **EXHIBITS [EXAMPLE]**

Exhibit A	PIB Transmittal page, original
Exhibit B	Formal Disciplinary Investigation initiation form, original
Exhibit C	Transcribed statement of [XXX], 5 pages, original

Exhibit D Incident report, Item # X-XXX-XX, 4 pages, photocopy  
 Exhibit E TRIP record for [XXX]. Dated XXX, one page, original  
 Exhibit F Photographs, taken by Crime Lab, Item # X-XXX-XX,  
 four

37. Any extension request submitted to Civil Service, along with any response, shall be included as an exhibit to the investigative report.
38. The investigator's signature, with the rank and title typed below the signature, shall conclude the report. The investigator's initials shall also be hand written on each page of the investigation in the bottom right hand corner.
39. The report shall conclude with the following format for each person in the investigator's chain of command, up to and including the Superintendent of Police:

CONCUR /DO NOT CONCUR

Date:

\_\_\_\_\_  
 [rank and name of person in chain of command]  
 [title and/or place of assignment]

Each signature shall be dated.

40. The complete investigative report shall be assembled unstapled, with all exhibits in order. Each page of the investigative report shall be sequentially numbered. The entire package shall be placed into a large manila envelope, labeled with the PIB Complaint Tracking Number on the front, and shall be forwarded to PIB through the investigator's chain of command for approval.
41. Every exhibit page shall have the Complaint Tracking Number at the top left and the page number on the top right. For example, the top of the fifth page of a 10-page exhibit shall note: **PIB CTN #: 201X-XXXX Page 5 of 10.**

### **INVESTIGATOR'S FINDINGS AND RECOMMENDED DISPOSITION(S)**

42. In each investigation, the fact that a complainant plead guilty or was found guilty of an offense shall not be the deciding factor as to whether an accused employee committed the alleged misconduct, nor shall it justify discontinuing the investigation.
43. The misconduct investigator shall explicitly identify and recommend one of the following dispositions for each allegation of misconduct in an administrative investigation:
  - (a) Unfounded
  - (b) Exonerated
  - (c) Not sustained
  - (d) Sustained
44. When the recommended disposition is UNFOUNDED, EXONERATED, or NOT SUSTAINED, the investigator shall cite only the number and title of the RULE the employee allegedly violated with the recommended disposition. After each Rule, make reference to any applicable Departmental regulation, order, or procedure (Chapter,

Special Order, General Order, Personnel Order, Bulletin, etc.), which most specifically addresses the alleged violation (Example: Rule 4: Performance of Duty; Paragraph 2: Instructions from Authoritative source, to wit, Chapter 41.3.10 Body Worn Camera). If a **criminal or traffic law** was allegedly violated, the specific law shall be cited by statute number and wording. Multiple rules shall be cited in ascending numerical order.

45. When the recommended disposition is SUSTAINED, the investigator shall quote each rule for which he/she recommends a sustained disposition and the applicable Departmental regulation, order, procedure or law, and provide a complete explanation of how the employee may have violated the rule (i.e., if untruthful, state how, when and to whom the employee was untruthful and how, when, and by whom the employee's information is disputed). Multiple rules shall be cited in ascending numerical order.
46. When a charge is sustained, the investigator must include a violation of Rule IX of the Civil Service Rules for the City of New Orleans, as it pertains to Maintaining the Standards of Service, using the following phrase after the last listed violation:

*[Accused employee's name] may also have violated Rule IX of the Civil Service Rules for the City of New Orleans, relative to Maintaining Standards of Service.*

#### **DUE DATE**

47. All investigations that do not involve criminal activity shall be completed within the time limitations mandated by La.R.S.40:2531, unless granted an extension as provided for under state law or Civil Service exemption, in which case the investigation shall be completed within 120 days.

#### **FORMS**

48. Appendix A to this chapter is the format that shall be used for any statement taken from an accused employee in an administrative investigation.
49. Appendix B to this chapter is the format which shall be used for any statement taken from an accused employee in a criminal investigation.
50. Appendix C to this chapter is the format which shall which shall be used for any statement taken from an employee witness in an administrative or criminal investigation.
51. Appendix D to this chapter is the format which shall be used for any statement taken from a complainant and/or non-employee witness in an administrative or criminal investigation.

STATEMENT FORMAT FOR AN INTERVIEW RELATIVE TO AN ADMINISTRATIVE  
INVESTIGATION OF A COMMISSIONED OR CIVILIAN NOPD EMPLOYEE

[Transcription Date]  
P.I.B. CTN # [Number]

[The following shall be read onto the audio tape by the investigator]

This is a statement under P.I.B. CTN # [control #] of New Orleans Police Department employee [accused employee's name], badge number [badge number], employee ID number [number], assigned to [assignment]. This statement is being taken by [rank/name, and assignment of person conducting interview] at [location where recording is being taken] on [date of recording].

This statement is relative to a complaint of alleged [title and number of alleged violation or law], reported under police item # [item # if applicable], which occurred on [date/time of violation] at [location of violation].

"Q" denotes questions by [rank/name of person conducting interview].

"A" denotes answers given by [rank/name of accused commissioned employee].

Those present during the taking of this statement are [rank/name & assignment; include rank/names of accused and interviewer, also rank/name(s) and place(s) of assignment of any other person(s) present during interview].

The starting date and time of this statement is [starting time of statement].

Q: [name of accused employee], are you aware of your rights as outlined in the Police Officer's Bill of Rights, Louisiana Revised Statute 40:2531?

A:

Q: Per the provisions of the Police Officer's Bill of Rights, I will read into this record the following information:

1. The nature of this investigation is a complaint of alleged [Departmental rule, Chapter or state statute, etc.].
2. The name(s) and position(s) of the (those) person(s) conducting this investigation is (are) [rank/name and assignment of anyone presenting questions during interview].
3. Those present during the taking of this statement are [interviewer's rank/name], [accused employee's name], [rank/names of others

*present].*

4. *You may take notes during or record this statement.*

5. You may have counsel or other representative, or both, present during any interrogation, and you will be allowed a reasonable time to summon either or both to be present, if you so desire.

6. Your counsel may call witnesses to testify on your behalf.

Q: Do you understand what I have just read to you?

A:

Q: Do you wish to exercise any of the rights I have just read to you?

A:

Q: Be advised that I am now beginning a Departmental internal administrative investigation. I hereby advise you New Orleans Police Department Chapter 52.1.1, requires all New Orleans Police Department employees to answer questions in official inquiries. Additionally, employees must answer truthfully all questions asked in all matters and official investigations related to the scope of their employment.

Employees are required to be truthful at all times, in their spoken, written, or electronic communications, whether under oath or not, in all matters and official investigations relating to the scope of their employment and operations of the Department.

In view of this, are you willing to comply with the New Orleans Police Department Chapter 52.1.1, and make a statement, and answer questions in this Departmental internal administrative investigation?

A:

Q: Please state your name, badge number, and place of assignment.

A:

Q: I would like to bring your attention to [date, time, and location of violation]. Will you state all the pertinent facts, of which you have knowledge, concerning the incident which occurred at that time and location?

[AND/OR PROCEED WITH PREPARED QUESTIONS]

A:

Q: Is there anything you would like to add or delete from this statement?

A:

Q: Is this statement true and correct to the best of your knowledge?

A:

This concludes the statement given by [accused employee's name].

Concluding date and time of this statement is [concluding time of statement].

*STATEMENT FORMAT FOR AN INTERVIEW RELATIVE TO A  
CRIMINAL INVESTIGATION OF AN NOPD COMMISSIONED OR CIVILIAN EMPLOYEE*

*[Transcription Date]  
P.I.B. CTN # [Number]*

*[The following shall be read onto the audio tape by the investigator]*

*This is a statement under P.I.B. CTN # [complaint tracking #] of New Orleans Police Department employee [accused employee's name], badge number [badge number], employee ID number [number], assigned to [assignment]. This statement is being taken by [rank/name, and assignment of person conducting interview] at [location where recording is being taken] on [date of recording].*

*"Q" denotes questions by [rank/name of person conducting interview].*

*"A" denotes answers given by [rank/name of accused commissioned employee].*

*Those present during the taking of this statement are [rank/name & assignment; include rank/names of accused and interviewer, also rank/name(s) and place(s) of assignment of any other person(s) present during interview].*

*The starting date and time of this statement is [starting time of statement].*

*Q: [name of accused employee], are you aware of your rights as outlined in the Police Officer's Bill of Rights, Louisiana Revised Statute 40:2531?*

*A:*

*Q: Per the provisions of the Police Officer's Bill of Rights, I will read into this record the following information:*

- 1. The nature of this investigation is a complaint of alleged [nomenclature of violation or law].*
- 2. The name(s) and position(s) of the (those) person(s) conducting this investigation is (are) [rank/name and assignment of anyone presenting questions during interview].*
- 3. Those present during the taking of this statement are [interviewer's rank/name], [accused employee's name], [rank/names of others present].*
- 4. You may take notes during or record this statement.*
- 5. You may have counsel or other representative, or both, present during any interrogation, and you will be allowed a reasonable time to summon either or both to be present, if you so desire.*
- 6. Your counsel may call witnesses to testify on your behalf.*

*Q: Do you understand what I have just read to you?*

*A:*

*Q: Do you wish to exercise any of the rights I have just read to you?*

*A:*

*Q: Are you fully aware of your constitutional rights relative to the giving of a criminal statement in a criminal investigation?*

*A:*

*Q: Per the provisions of the Constitutions of the United States and the State of Louisiana, I will read into this record the following information:*

- 1. You need not make any statements, that is, you have the right to remain silent.*
- 2. Anything you say may be used against you in trial.*
- 3. You have the right to consult with and obtain the advice of an attorney before answering any questions.*
- 4. If you cannot afford an attorney, the court will obtain an attorney to represent you and advise you.*
- 5. You have the right to have your attorney or an appointed attorney present at the time of any questioning or giving of any statement. Do you understand what I have just read to you?*

*A:*

*Q: Will you waive your constitutional rights and give a statement in a criminal investigation?*

*A:*

*If the answer to the preceding question is "NO," proceed to the appropriate section of Appendix B on page 3. If the answer is "YES," go to page 4 of Appendix B.*

**IF RIGHTS ARE NOT WAIVED AND NO ADMINISTRATIVE STATEMENT IS TO BE TAKEN AT THIS TIME, USE THIS STATEMENT.]**

*Q Because of your refusal to waive your rights in a criminal investigation, I will now advise you that this statement is now concluded.*

*This concludes the statement given by [accused employee's name]  
Concluding date and time of this statement is [concluding time of statement]*

**IF RIGHTS ARE NOT WAIVED AND AN ADMINISTRATIVE STATEMENT IS TO BE TAKEN AT THIS TIME, USE THIS STATEMENT.**

**If the accused employee to be interviewed refuses to waive his or her rights, each investigator must first consult with the commander of PIB before proceeding with the administrative statement.**

*Q: Because of your refusal to waive your rights in a criminal investigation. I will now advise you I am terminating the criminal investigation and now beginning a Departmental internal administrative investigation. Do you understand this?*

*A:*

*Q: Be advised that I am now beginning a Departmental internal administrative investigation. I hereby advise you New Orleans Police Department Chapter 52.1.1 requires all New Orleans Police Department employees to answer questions in official inquiries and refusal to comply will result in termination. Additionally, employees are to be truthful at all times in all matters and official investigations relating to the scope of their employment and failure to comply will result in termination. Employees are required to be truthful at all times, in their spoken, written, or electronic communications, whether under oath or not, in all matters and official investigations relating to the scope of their employment and operations of the Department. In view of this, are you willing to comply with the New Orleans Police Department Chapter 52.1.1, and make a statement, and answer questions in this Departmental internal administrative investigation?*

*A:*

*Q: Please state your name, badge number, and place of assignment.*

*A:*

*Q: I would like to bring your attention to [date, time, and location of violation]. Will you state all the pertinent facts, of which you have knowledge, concerning the incident which occurred at that time and location? [AND/OR PROCEED WITH PREPARED QUESTIONS ]*

*A:*

*Q: Is there anything you would like to add or delete from this statement?*

*A:*

*Q: Is this statement true and correct to the best of your knowledge?*

*A:*

*[This concludes the statement given by [accused's name]. Concluding date and time is \_\_\_\_.]*

[IF CRIMINAL RIGHTS ARE WAIVED, USE THIS STATEMENT. ALSO HAVE THE EMPLOYEE SIGN "Rights of an Arrestee/Suspect" form.]

*Q: You have stated that you wish to waive your constitutional rights relative to the giving of a criminal statement in a criminal investigation. I am showing you "Rights of an Arrestee/Suspect" form #. Please read the form and sign the form. [Wait for accused to sign form.] [Name of accused officer ] has now signed "Rights of an Arrestee/Suspect" form # \_\_\_\_*

*A:*

*Q: Please state your name, badge number, and place of assignment.*

*A:*

*Q: I would like to bring your attention to [date/time & location of violation]. Will you state all the pertinent facts, of which you have knowledge, concerning the incident which occurred at that time and location?*

*A:*

*OR [PROCEED WITH PREPARED QUESTIONS]*

STATEMENT FORMAT RELATIVE TO AN INTERVIEW OF AN EMPLOYEE  
WITNESS IN ADMINISTRATIVE & CRIMINAL INVESTIGATIONS

NEW ORLEANS POLICE DEPARTMENT

[Transcription Date]  
P.I.B. CTN # [Number]

This is a statement under P.I.B. CTN # [control #] of [employee witness's name], badge number [badge number], employee ID number [], assigned to [assignment].

This statement is relative to a complaint of alleged [violation name], which occurred on [date/time of violation] at [location of violation].

This complaint has been lodged against [accused employee's name]. This statement is being taken at [location] on [date of statement]. "Q" denotes questions by [investigator's rank/name].

"A" denotes answers given by [witness employee's name].

Those present during the taking of this statement are [rank/name & assignment]

NOTE: Employees are required to be truthful at all times, in their spoken, written, or electronic communications, whether under oath or not, in all matters and official investigations relating to the scope of their employment and operations of the Department. Failure to comply will result in termination.

The starting date and time of this statement is [starting time of statement].

Q: Please state your name, badge number, and place of assignment.

A:

Q: This is to advise you that you are being interviewed only as a possible witness in this case and as of this time you are not being accused of any misconduct. Do you understand this?

A:

Q: I would like to bring your attention to [date, time, & location of violation]. Will you state all the pertinent facts, of which you have knowledge concerning the incident which occurred at that time and location?

A:

OR [PROCEED WITH PREPARED QUESTIONS]

[Continue with Questions & Answers]

Q: Is there anything you would like to add or delete from this statement?

A:

Q: Is this statement true and correct to the best of your knowledge?

A:

This concludes the statement given by [witness employee's name]

Concluding date and time of this statement is [concluding time of statement]

**STATEMENT FORMAT FOR AN INTERVIEW OF A COMPLAINANT OR NON-EMPLOYEE WITNESS IN ADMINISTRATIVE & CRIMINAL INVESTIGATIONS**

P.I.B. CTN NUMBER: [Number]

This is a statement under P.I.B. CTN # [control#] made by [name], [race], [sex], [date of birth], [address], [home phone #], [business phone# ]

This statement is relative to a complaint of alleged [violation(s) name(s)] against employee(s) [accused employee(s) name(s)] , assigned to [accused employee(s) assignment] which occurred on [date/time of violation] , at the location of [location of violation]

This statement is being taken at [location] on [date of statement].

"Q" denotes questions by [investigator's rank/name].

"A" denotes answers by [complainant/witness's name].

Those present during the taking of this statement are [rank/name & assignment]

The starting date and time of this statement is [starting time of statement].

Q: Please state your name and address.

A:

Q: Please state what happened on [date/time/location of violation].

A:

OR [PROCEED WITH PREPARED QUESTIONS ]

Q: Is there anything you would like to add or delete from this statement?

## CHAPTER: 52.2

### TITLE: NEGOTIATED SETTLEMENT AGREEMENTS

**EFFECTIVE: 11/15/15**

**REVISED: 8/28/16; 11/04/18**

---

#### PURPOSE

The purpose of this policy is to define the use of a Negotiated Settlement Agreement (NSA) that allows for a more efficient resolution of an alleged misconduct violation or vehicle crash assessment without a formal hearing and applies consistency in the application of corrective action.

#### POLICY STATEMENT

1. Misconduct allegations do not require extensive investigation and adjudication when clear evidence demonstrates a violation and the accused member does not contest the allegations. In such cases, a negotiated settlement can provide a more efficient, timely resolution that uses minimal Department resources. It is beneficial to all parties involved to resolve complaints as quickly as possible, without sacrificing the goals of the corrective action or disciplinary process.
2. Negotiated Settlement Agreements may utilize education-based discipline where training may help prevent future violations of a similar nature. Education-based discipline is designed to focus on behavioral change through education and training rather than the exclusive use of punishment. See **Chapter 26.2.1 – Disciplinary Matrix** for guidelines regarding the use of education-based discipline.
3. Negotiated Settlement Agreements are not a “right” or “entitlement.” At any point prior to the final approval by the Superintendent, the matter can be handled through the formal investigation process.
4. The Crash Review Board may utilize Negotiated Settlement Agreements (see also: **Chapter 13.22 – Crash Review Board**). For purposes of this Chapter, the Crash Review Board notification form follows the same procedure as the Misconduct Investigation Initiation form.
5. For purposes of this Chapter, in the case of a Departmental vehicle crash involving a negotiated settlement agreement, the following shall apply:
  - (a) The Deputy Chief of MSB performs the same duties as the Commander of PIB as outlined in this Chapter.
  - (b) The MSB Bureau Commander performs the same duties as the PIB Administrative Lieutenant as outlined in this Chapter.

- (c) The MSB Crash Screening Committee performs the same functions as the Public Integrity Bureau (PIB) as outlined in this Chapter.
- (d) The MSB Crash Screening Committee reporting secretary performs the same functions as the PIB Intake Supervisor as outlined in this Chapter.

## DEFINITIONS

**Criteria for NSA Eligibility Schedule**—A guide to be used by management in determining if the violation is appropriate for consideration under the Negotiated Settlement Agreement process (see Appendix).

**Minor violation/infraction**— A violation of a Departmental Rule, Policy, Procedure, Order, regulation, or verbal/written instructions that a supervisor believes requires minimal intervention through redirection, retraining and/or non-disciplinary counseling to correct the employee's behavior (e.g., tardiness, uniform requirement, forgetting to complete an FIC, and cleanliness of vehicle). The behavior must not be the subject of a public complaint and must be sufficiently minor that it is correctable by minimal intervention by the supervisor, with the goal of non-repetitive behavior. Repetition of a similar violation within a twelve-month period (based on the date of the observed violation) may require discipline. A supervisor may decide to handle a minor violation/infraction through non-disciplinary means.

**Penalty Schedule**—A guide to be used by management in determining the appropriate discipline to impose by type of violation committed (See **Chapter 26.2.1 – Disciplinary Matrix**).

**Presentation Meeting**—The first meeting, scheduled by the initiating Bureau and held as soon as practical but no more than five calendar days after receipt of the Public Integrity Bureau Disciplinary Resolution Form #302.

**Public Integrity Bureau Disciplinary Resolution Form (Form #302)**—Official Departmental form used to negotiate the settlement process for violations of the policies, rules or procedures of the Department, when job performance may have adversely affected the personal and property rights of others.

**Rank Initiated Complaint**—An alleged violation reported by an NOPD supervisor.

**Reflection Period**—A period of reflection during which the employee has up to five (5) calendar days to consider the findings and recommended sanction after being presented with the facts.

**Settlement Agreement**—An agreement between the employee and the Department to settle the complaint without the need for further investigation.

**Settlement Meeting**—The second and final meeting, occurring after the Presentation Meeting and a Reflection Period, where an employee, having been presented with the Public Integrity Bureau Disciplinary Resolution Form #302 makes a selection of the negotiated penalty or a disciplinary investigation.

**Waiver**—A written document wherein an employee voluntarily relinquishes a right or privilege otherwise provided for in established policy, rules or procedure.

## ELIGIBILITY AND SCOPE

6. For an accused employee to be eligible for negotiated settlement, the alleged violation must be minor. For purposes of this Chapter, a minor violation is defined as an infraction or set of infractions that are subject to discipline of a letter of reprimand to a maximum of ten days' suspension as categorized within the penalty schedule listed in **Chapter 26.2.1**

– **Disciplinary Matrix** and listed in the eligibility schedule listed in the Appendix.

Complaints initiated by citizens shall not be eligible for negotiated settlement but may be eligible for a mediation settlement (see **Chapter 24.2 – Mediation Settlement**).

Complaints eligible for negotiated settlement include rank initiated complaints in which:

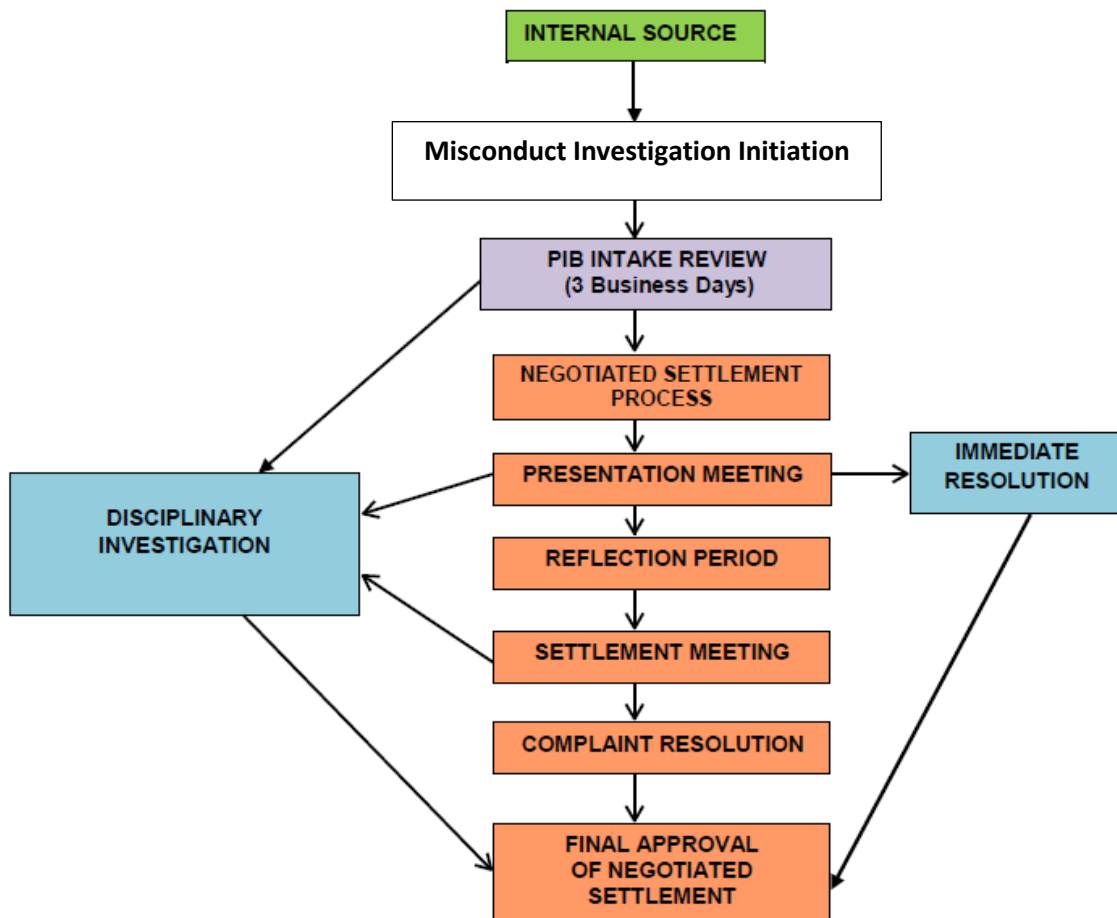

- (a) A minor violation is alleged that is listed in the Appendix;
- (b) The alleged violation relates only to the use, misuse or failure to use a body-worn camera; or
- (c) The member has been involved in a Departmental vehicle crash where preliminary review has determined member culpability (see **Chapter 13.22 – Crash Review Board**) and the crash is not part of a vehicle pursuit as defined in **Chapter 41.5 – Vehicle Pursuits**.

#### **NECESSITY OF TRUTHFULNESS**

7. The Negotiated Settlement Agreement process cannot be used or function without the complete and unwavering truthful admission of the employee. Employees are required to be honest and truthful at all times in their spoken, written or electronic communications. Employees shall truthfully answer all questions directed to them on the order of the Superintendent of Police, the Superintendent's designee, superior officer or any judicial, departmental, or other official investigative body.

#### **PARTICIPATION IN NSA PROCESS**

8. To participate in the Negotiated Settlement Agreement process, officers shall agree to a 60-day extension of time per LA.R.S. 40:2531(B)(7) by affixing their signature(s) along with the signature of their Division-level Commander on the Civil Service Extension Request Form # 304.

**COMPLETION OF FORM**

<b>FORM COMPLETION</b>	<b>PIB REVIEW</b>	<b>PRESENTATION MEETING</b>	<b>SETTLEMENT MEETING (after reflection period)</b>	<b>EXTENSION – EXTRAORDINARY CIRCUMSTANCES</b>	<b>TIME FRAME FOR COMPLETION (Report to Resolution by Settlement)</b>
Without undue delay at completion of investigation	3 Business Days	No more than 5 calendar days after completion of an approved form.	On or before the 5 <sup>th</sup> calendar day from the Presentation Meeting	Up to 10 additional calendar days with the approval of the Bureau Chief	Ten (10) calendar days. (Maximum 20 days with extraordinary circumstances)

9. Upon initiation of a formal investigation, the Public Integrity Bureau will determine if the alleged violation fits the criteria to be considered for the Negotiated Settlement Agreement process. If the alleged violation fits the criteria, the PIB Supervisor will be responsible for completing Part 1 of the Public Integrity Bureau Disciplinary Resolution Form #302, and attaching this form to the Misconduct Investigation Initiation form.

10. Upon approval of the Public Integrity Bureau Disciplinary Resolution Form #302 by the Commander of PIB, or his/her designee, it will be routed to the accused member's Bureau Liaison with the Misconduct Investigation Initiation form and the member's PIB Short Form (i.e., discipline summary).

### PRESENTATION MEETING

11. The employee's Division-level Commander shall be responsible for conducting a meeting with the employee to present the allegations or findings of the investigation and a proposed resolution. This is known as the Presentation Meeting.
12. The Presentation Meeting shall be held as soon as practical but no more than 5 calendar days from receipt of the Misconduct Investigation Initiation form, the Public Integrity Bureau Disciplinary Resolution Form #302 and PIB Short Form by the Division-level Commander. The 5 calendar day timeline begins upon receipt of the Public Integrity Bureau Disciplinary Resolution Form #302 from the Bureau liaison. This 5 calendar day period gives time to provide ample notice to the accused employee in order to identify and secure the attendance of counsel or employee representative and to be fully prepared to discuss the matter. [The availability of an employee representative or counsel should not cause an unreasonable delay (i.e., not to exceed five days barring the request for extension) for the Presentation Meeting or any meeting]. The accused officer shall be provided a copy of the Police Officer's Bill of Rights under Civil Service Rules, including any right to a Departmental hearing.
13. When scheduling the Presentation Meeting, copies of the documentation used to determine the corrective or disciplinary action, along with the Misconduct Investigation Initiation form and Public Integrity Bureau Disciplinary Resolution Form #302, will be provided to the employee in order that he/she may prepare for the Presentation Meeting.
14. The Presentation Meeting is the first meeting after completion of Part 1 of the Public Integrity Bureau Disciplinary Resolution Form #302.
15. During the Presentation Meeting, the investigation involving an alleged violation of Departmental policy, procedure, or order will be reviewed and discussed. This meeting will be conducted by the employee's Division-level Commander.
16. The employee will have three options at the Presentation Meeting:
  - (a) **Immediate resolution**—The employee may elect to immediately accept the sustained allegation and the recommended sanction as categorized within the Penalty Schedule listing under **Chapter 26.2.1 – Disciplinary Matrix**; or
  - (b) **Reflection period**—The employee may elect to have a period of reflection during which the employee has up to five calendar days to consider the findings and the recommended penalty. When an employee makes this selection, the employee's Division-level Commander shall require the employee's signature acknowledging receipt of Public Integrity Bureau Disciplinary Resolution Form # 302 and his or her obligations during the five-day reflection period; or
  - (c) **Request a case investigation**—The employee may elect to have the case investigated under normal procedure.
17. Prior to the conclusion of the Presentation Meeting, a follow-up Settlement Meeting will be scheduled for the fifth day from the date of the Presentation Meeting for an employee opting for a Reflection Period (or as close thereto as practical without exceeding five calendar days) for final resolution.

18. During the time prior to the scheduled Settlement Meeting, the employee shall consider the settlement proposal and be prepared to discuss the recommended penalty. The employee shall be prepared to make a decision at the Settlement Meeting. The employee should also secure the advice or attendance of any employee representative or counsel; however the availability of an employee representative or counsel should not be cause to unreasonably delay any meeting.
19. At any point prior to or at the Settlement Meeting, the matter may be resolved by settlement agreement.
20. If any employee does not make a selection at or before the Settlement Meeting, the employer will be deemed to have selected a disciplinary investigation and the matter(s) pending shall be referred to an investigator.

### **SETTLEMENT MEETING**

21. The Settlement Meeting is the final meeting. The accused employee will not be allowed a third opportunity to consider the allegations.
22. At the Settlement Meeting, the accused employee and his or her representative, if applicable, can negotiate the recommended penalty. Every effort should be made by the employee and the accused employee's Division-level Commander to negotiate a settlement. The intention of the penalty is not to punish the employee for behavior, but to correct the behavior so that it does not occur in the future. Cooperation from both parties is essential for the effectiveness of the discipline.
23. At the conclusion of the Settlement Meeting, the available results are:
  - (a) The employee accepts responsibility and the negotiated settlement. The employee and the Division-level Commander sign the Public Integrity Bureau Disciplinary Resolution Form #302 indicating resolution, or
  - (b) The employee does not accept responsibility and/or does not agree with the penalty determined through the penalty schedule. The applicable sections of the Public Integrity Bureau Disciplinary Resolution Form #302 will be completed.
24. If the accused employee is unable to reach a conclusion that he/she accepts responsibility for the sustained allegation(s) after the Presentation Meeting, Reflection Period and Settlement Meeting (or does not agree with the penalty determined through the Penalty Schedule), the applicable sections on the Public Integrity Bureau Disciplinary Resolution Form #302 will be completed to indicate referral to a disciplinary investigation consistent with Departmental policy.

### **EXTRAORDINARY CIRCUMSTANCES EXTENSION**

25. If the accused employee's Division-level Commander determines during the presentation or settlement process that extraordinary circumstances exist and that additional time for review and consideration of new information, or is otherwise indicated to be in the best interest of the Department or accused employee, the employee's Division-level Commander may request an extension of up to 10 additional calendar days with the approval of the Bureau Chief or the Superintendent of Police. The Division-level Commander shall complete Part 2, Section B of the Public Integrity Bureau Disciplinary Resolution Form #302.

**CONFIDENTIALITY**

26. To assure the integrity of an ongoing investigation and prior to complaint resolution, the employee is required to maintain the confidentiality of the complaint or investigation. Failure to follow such instruction from an authoritative source shall be grounds for disciplinary action. Nothing herein shall preclude an employee from seeking appropriate representation or legal counsel.

**RESOLUTION DISAGREEMENT**

27. If the accused employee has agreed to accept responsibility for his or her behavior but disagrees only with the extent of discipline proposed, every effort should be undertaken to resolve the disagreement without a formal investigation. The Division-level Commander or accused employee may request at any point in the process the assistance of the Public Integrity Bureau administrative lieutenant and/or Bureau Chief to assist with the negotiations to resolve the matter. However, if an acceptable resolution cannot be agreed upon, the case shall be returned to PIB for investigation.

**ADDITIONAL INFORMATION**

28. At any time during the presentation or settlement process the employee may present exonerating or exculpatory evidence to the Division-level Commander for consideration.
29. Where the proposed sanction is not already agreed upon, or one or more of the parties involved feels PIB could offer assistance in reaching an agreement, PIB shall participate in the settlement negotiations.
30. A settlement agreement and/or complaint resolution can occur at any point between the receipt of the complaint and before the conclusion of a Disciplinary Hearing. However, once an investigation has been assigned, the Negotiated Settlement Agreement process will not interrupt an on-going investigation unless there is a complete admission of culpability by the accused officer.
31. Officers who elect to negotiate discipline through the Negotiated Settlement Agreement process will not be entitled a right to appeal the approved negotiated discipline through the Civil Service process once the Negotiated Settlement Agreement process has been finalized.
32. A formal investigation may be conducted if the Public Integrity Bureau or the employee's supervisor receives any new information regarding the original matter.
33. The Penalty Schedule provides a range of penalties for proven or admitted allegations. The Penalty Schedule shall be used whether the employee elects to have a departmental hearing or agrees to a sanction through participation in the Negotiated Settlement Agreement.
34. No recommendation or settlement prescribed on the Public Integrity Bureau Disciplinary Resolution Form #302 shall be complete until approved and finalized by the Superintendent of Police.

**REQUEST FOR SETTLEMENT NEGOTIATIONS BY EMPLOYEES**

35. Employees may request to participate in the Negotiated Settlement Agreement process after a complaint has been assigned to a PIB investigator. The employee shall be responsible for contacting the PIB Administrative Lieutenant to state his/her desire to

participate in the process. The PIB Administrative Lieutenant shall determine if the complaint meets the criteria for participation in the Negotiated Settlement Agreement process. If so, the PIB Administrative Lieutenant shall contact the employee's Division-level Commander and assigned investigator to schedule a meeting for not more than 5 days from the date of the accused employee's notification.

36. The PIB Administrative Lieutenant will not be required to be present at the meeting unless requested by the employee of the Division-level Commander.
37. The PIB Administrative Lieutenant is integral in this process to ensure that the investigation is not interrupted and to ensure that presentation and settlement meetings are held within mandated time frames.

#### **ALTERNATIVES TO SUSPENSION**

38. The Department's suspension policy is outlined in **Chapter 52.8 – Suspensions and Emergency Suspensions of Members**.
39. In order to participate in the alternate suspension process, the employee shall waive any further appeal or contest of this suspension, or any of the terms and conditions of this agreement, to the Rules of the Civil Service Commission for the City of New Orleans or any other tribunal.
40. Upon mutual agreement by the Superintendent of Police and a disciplined employee, suspensions of up to five days may be deducted from the employee's accrued annual leave in lieu of suspension. Notifications of the action shall be made by the Office of the Superintendent of Police in order to facilitate all record keeping requirements affected by the action. The officer shall sign a Memorandum of Understanding (MOU) Form #303 to the agreed terms. Witnesses to the document may include the officer's attorney or representative, investigating officer, her or his commanding officer and the Superintendent of Police or his designee.
41. Upon mutual written agreement by the Superintendent of Police and the disciplined employee, an employee receiving a suspension of six days or greater may serve the suspension as a temporary reduction in pay for a specific period of time in lieu of not reporting to work for the number of suspension days received in lieu of suspension. This would result in the loss of wages the employee would normally realize immediately being distributed over multiple pay periods. This mutual written agreement, Memorandum of Understanding (MOU) Form #303 may include, but is not limited to, the following agreed terms:
  - (a) The Superintendent of Police, or his/her designee, shall determine the duration of the pay reduction, but in no case shall it exceed 12 months.
  - (b) The employee will continue to report to duty as scheduled and there will be no necessity for any decommission or loss of benefits during this period for sworn personnel.
  - (c) The pay reduction may be in the form of step or classification reduction and may be rounded to the nearest full day of work. Any rounding of wages shall be done in the favor of the accused employee.
  - (d) Monthly accrual of vacation time and sick time will continue and will not be affected by this agreement.
  - (e) During the pay reduction period any step or increment advancement in pay earned by the employee shall proceed as normal and shall not be affected by this agreement.

## SUSPENSIONS

42. When an employee's Division-level Commander recommends that the accused employee be suspended, **Chapter 26.2.1 – Disciplinary Matrix** shall be utilized as a guide to recommend an appropriate sanction. Resolution of the disciplinary action will not be complete and final until the Superintendent of Police has approved the Public Integrity Bureau Disciplinary Resolution Form #302.
43. Suspension times imposed shall be recorded in the employee's personnel file as such and shall remain a part of any calculation or consideration for the purpose of imposing or enhancing any future corrective action.
44. The imposed suspension days shall be considered for the purpose of determining the first, second and third offenses of departmental violations of rules, regulations, policies and laws.
45. The suspension time imposed shall be filed into the employee's personnel file, considered or taken into account on any promotional process, transfer process or any other Departmental or Civil Service eligibility criteria.
46. Any settlement agreement shall be subject to the approval of the Superintendent of Police.

## PUBLIC INTEGRITY BUREAU RESPONSIBILITIES

47. Upon receipt of an alleged violation by an employee, the Public Integrity Bureau (PIB) shall determine if the alleged violation fits the criteria to be considered for negotiated settlement.
48. To be eligible for negotiated settlement, the alleged violation must be rank-initiated and a minor violation. For purposes of this Chapter, a rank initiated violation is a violation reported by an NOPD supervisor. For purposes of this Chapter, a minor violation is defined as an infraction or set of infractions that are:
  - (a) Subject to discipline only of reprimand to a maximum of ten days' suspension as categorized within **Chapter 26.2.1 – Disciplinary Matrix**.
  - (b) Listed in the Criteria for NSA Eligibility Schedule within the Appendix.
49. Complaints initiated by citizens shall not be eligible for negotiated settlement but may be eligible for a mediation (see **Chapter 24.2 – Community-Police Mediation**).
50. If the allegation fits the criteria, the PIB Intake Supervisor will complete Part 1 of the Public Integrity Bureau Disciplinary Resolution Form #302 and attach it to the Misconduct Investigation Initiation form.
51. Once both forms are approved by the Commander of PIB, they will be forwarded to the accused employee's Bureau Liaison.
52. A member of the Public Integrity Bureau shall attend any scheduled presentation and settlement meetings related to any case he/she is assigned at the request of the Division-level Commander or the accused employee.
53. Upon completion of the settlement process (with or without an amicable resolution), the Public Integrity Bureau Disciplinary Resolution Form #302 will be returned to PIB for processing.

**BUREAU LIAISON RESPONSIBILITIES**

54. Upon receipt of the Public Integrity Bureau Disciplinary Resolution Form #302 by the Public Integrity Bureau, the Bureau Liaison shall notify the Division-level Commander on or before one working day of the receipt of the Public Integrity Bureau Disciplinary Resolution Form #302.
55. The Bureau Liaison shall be responsible for forwarding all documentation (Misconduct Investigation Initiation form or the Crash Review Board Notification in the case of a Departmental vehicle crash, PIB Internal Resolution Form, PIB Short Form and/or any applicable documents) to the Division-level Commander.

**COMMANDER'S RESPONSIBILITIES**

56. The Division-level Commander shall notify the accused officer of the alleged violation and provide the accused officer with a copy of the Public Integrity Bureau Disciplinary Resolution Form #302, and any other documentation including the Department's Rules, Policies, Procedures regarding the alleged violation and penalty as categorized within PR 1021.
57. The accused officer shall be notified within two working days of receipt of the alleged complaint from the Bureau Liaison.
58. The Division-level Commander shall schedule a Presentation Meeting with the accused officer.
59. Prior to the Presentation Meeting, the Division-level Commander shall complete Part 2, Section A of the Public Integrity Bureau Disciplinary Resolution Form #302, providing a recommended disciplinary action, including an explanation.
60. Within 5 working days from receipt of the Public Integrity Bureau Disciplinary Resolution Form #302, the accused employee's Division-level Commander, the employee and the employee's representative (if applicable) shall conduct the presentation meeting.
61. The Division-level Commander will review with the accused employee the various procedural alternatives available under existing Rules, Policies and Procedures that the accused employee has available to resolve the matter.
62. If the accused employee accepts responsibility for the alleged violation and agrees with the proposed discipline, an immediate resolution is obtained. Part 2, Section C of the Public Integrity Bureau Disciplinary Resolution Form #302 must be completed and forwarded to the accused employee's Bureau Chief.
63. If a Reflection Period is requested by the accused employee, the Division-level Commander will allow the accused employee and his/her representative a five calendar day period to reflect on the matter. Part 2, Section 'C' of the Public Integrity Bureau Disciplinary Resolution Form #302 shall be completed acknowledging the request for a Reflection Period. A settlement meeting shall be scheduled before the presentation meeting ends. Additionally, the Division-level Commander shall ensure the officer agrees to and signs the Civil Service Extension Form #304 Request before the Presentation Meeting ends.
64. At the settlement meeting, the Division-level Commander may negotiate the proposed discipline. Part 3, Section A of the Public Integrity Bureau Disciplinary Resolution Form

#302 shall be completed.

65. If a settlement is reached, Part 3, Section B of the Public Integrity Bureau Disciplinary Resolution Form #302 form must be completed with the signatures of the Division-level Commander and the accused employee indicating a settlement was reached. The form must be forwarded, through the chain of command, to PIB. The Crash Review Board shall receive a copy in the case of a Departmental vehicle crash. If a settlement is reached, the Division-level Commander shall also document whether the subject incident was in compliance with training and legal standards; whether the incident indicates a need for additional training, counseling, or other non-disciplinary corrective measures; and whether the incident suggests that NOPD revise its policies, strategies, tactics, or training.
66. If a settlement is not reached, Part 3, Section B must be completed indicating a settlement was not reached by the Division-level Commander and the actual investigation will begin. The form will be forwarded through the chain of command back to PIB where the case will be promptly assigned for investigation. In the case of a Departmental vehicle crash in which a settlement is not reached, a copy of the form must also be sent to the Crash Review Board to schedule a hearing.

#### **ACCUSED EMPLOYEE'S RESPONSIBILITIES**

67. Upon notification of an alleged violation, the accused employee shall identify and secure the attendance of counsel or employee representative (if desired). The employee shall be fully prepared to discuss the allegations and proposed discipline presented at the Presentation Meeting.
68. During the Presentation Meeting, the accused employee shall review with the Division-level Commander the accusation and proposed disciplinary action. This is the time for the accused employee to offer any mitigating and/or exculpatory evidence for consideration by the Division-level Commander.
69. If the accused employee accepts complete responsibility for the alleged violation and the proposed discipline, an immediate resolution will have been met. The accused employee will complete Part 2, Section C of the Public Integrity Bureau Disciplinary Resolution Form #302. The accused employee shall understand the resolution will not be complete until approved by the Superintendent of Police.
70. The accused employee can request a Reflection Period of up to five days. The accused employee must complete Part 2, Section C of the Public Integrity Bureau Disciplinary Resolution Form #302 indicating the request for a Reflection Period.
71. The accused employee must then attend a Settlement Meeting (within five days from the date of the Presentation Meeting) for a final resolution. Once again, the accused employee may negotiate the recommended penalty.
72. If the accused employee does not accept complete responsibility for the alleged violation and proposed discipline at the settlement meeting, the employee must complete Part 3, Section B of the Public Integrity Bureau Disciplinary Resolution Form #302 indicating a settlement has not been reached. The accused employee will then be advised that a disciplinary hearing, or Crash Review Board hearing in the case of a Departmental vehicle crash, will be conducted upon completion of an investigation if a sustained violation has been recommended.

73. The accused employee has the right to request an investigation into the alleged violation at any point during the Presentation, Reflection or Settlement meeting.
74. The accused employee's signature is required on the Public Integrity Bureau Disciplinary Resolution Form #302 in order to complete the process. The employee does have the right to note any disagreements and attach a separate statement if he/she wishes to do so.
75. The accused employee shall maintain confidentiality of the complaint and settlement process.

**APPENDIX: CRITERIA FOR NSA ELIGIBILITY SCHEDULE - OFFENSES ALLOWED BY NEGOTIATED SETTLEMENT AGREEMENT****RULE TWO - MORAL CONDUCT****2:(1) ADHERENCE TO LAW**

Employees Shall act in accordance with the constitutions, statutes, ordinances, administrative regulations, and the official interpretations thereof, of the United States, the State of Louisiana, and the City of New Orleans, but when in another jurisdiction shall obey the applicable laws. Neither ignorance of the law, its interpretation, nor failure to be physically arrested and charged, shall be regarded as a valid defense against the requirements of this rule.

- Traffic Offense – On Duty/Off Duty – Police Vehicle
- Traffic Offense – On Duty/Off Duty – Private Vehicle
- Municipal: Off-Duty (Personal)
- Municipal: On-Duty
- Municipal: Off-Duty (Color of Law)

**2:(2) COURTESY**

Employees shall be courteous, civil, and respectful in their conduct toward all persons. The use of profane, vulgar or discourteous gestures or language to or in the presence of any citizen is prohibited.

The use of profane, vulgar or discourteous gestures or language, either verbal or written, by one employee to another employee is prohibited.

- On Duty/Off Duty – Color of Law

**RULE THREE - PROFESSIONAL CONDUCT****3:(1) PROFESSIONALISM**

Employees shall conduct themselves in a professional manner with the utmost concern for the dignity of the individual with whom they are interacting. Employees shall not unnecessarily inconvenience or demean any individual or otherwise act in a manner which brings discredit to the employee or the Police Department.

- On Duty
- Off Duty – Under Color of Law Off Duty - Personal

**3:(3) NEATNESS AND ATTIRE**

Employees shall, except under circumstances which are duty related, be neat and clean in person and dress, and shall be attired and equipped according to Department Procedures or instructions from a supervisor. Hair and mustaches shall be trimmed according to Department Procedures.

- On Duty

**3:(9) USE OF ALCOHOL / OFF DUTY**

Employees while off-duty, shall refrain from consuming intoxicating beverages to the extent that it results in impairment, intoxication, obnoxious or offensive behavior which would discredit them, the Department, or render the employees unfit to report for their next regular tour of duty. Commissioned employees of the Police Department shall refrain from carrying a firearm while consuming alcohol or while under its influence.

- Off Duty

### **3:(11) USE OF TOBACCO**

Members, when in uniform, may use tobacco as long as they are not in formation for inspection, they do not have to leave their assignment or post for the sole purpose of doing so, or they are not engaged in traffic direction and control. When employees are in direct contact with the public, they shall first obtain permission to use tobacco from the public with who they are in direct contact.

All employees of the New Orleans Police Department are prohibited from smoking any type of hand rolled cigarette/cigar or machine rolled cigarette/cigar, which appears to be hand rolled while on duty; off duty in uniform, including paid details; in a city owned/leased vehicles, marked or unmarked; and/or appearing as a representative of the New Orleans Police Department including but not limited to meetings or court appearances.

- On Duty

### **3:(13) SOCIAL NETWORKING WEBSITES, FACEBOOK, MYSPACE, PRINT OR TRANSMITTED MEDIA, ETC.**

Employees shall not post any material on the internet including but not limited to photos, videos, word documents, etc., that violates any local, state or federal law and/or embarrasses, humiliates, discredits or harms the operations and reputation of the Police Department or any of its members.

- On Duty/Off Duty

## **RULE FOUR - PERFORMANCE OF DUTY**

### **4:(1) REPORTING FOR DUTY**

A member shall promptly report for duty at the time and place required by assignment or orders, but in the event of inability to perform or to begin punctually, he/she shall notify his/her commanding officer or a member of his/her unit authorized to receive such information before the designated time for commencement.

- On Duty

### **4:(2) INSTRUCTIONS FROM AUTHORITATIVE SOURCE**

A member shall professionally, promptly, and fully abide by or execute instructions issued from any authoritative source. If the instructions are reasonably believed to be in conflict with the Rules and Procedures of the Department or other issued instructions, this fact shall respectfully be made known to the issuing authority. If the issuing authority elects to insist upon execution of the instructions which are reasonably believed to be in conflict with Department Rules and Procedures, then the member receiving the instructions shall have the right to request and is entitled to receive, IMMEDIATELY, said instructions in writing, except in cases of emergency as determined by the supervisor. The issuing authority shall be held responsible should any conflict materialize; however, no instructions shall be issued or executed which are in violation of the law.

- On Duty/Off Duty

**4:(3) DEVOTING ENTIRE TIME TO DUTY**

Members shall not read, play games, watch television or movies, or otherwise engage in entertainment while on duty, except as may be required in the performance of duty. They shall not engage in any activities or personal business which would cause them to neglect or be inattentive to duty.

- On Duty

**4:(4) NEGLECT OF DUTY-GENERAL/SUPERVISORY RESPONSIBILITY/ENUMERATED ACTS/OMISSIONS****(4a) NEGLECT OF DUTY - GENERAL**

Each member, because of his grade and assignment, is required to perform certain duties and assume certain responsibilities. A member's failure to properly function in either or both of these areas constitutes a neglect of duty.

- On Duty/Off Duty – Color of Law

**4(c) ENUMERATED ACTS/OMISSIONS**

The following acts or omissions to act are considered neglect of duty:

- (a) Failing to take appropriate and necessary police action;
  - (b) Failing to respond to all assignments promptly and failing to report dispositions of assignments to the dispatcher immediately upon completion;
  - (c) Failing to advise the dispatcher on each occasion of his absence from the patrol vehicle (except for signal 1042) and the reason therefore; and failing to report his return to his vehicle;
  - (d) Failing to make a written report when such is indicated;
  - (e) Unauthorized sleeping on duty;
  - (f) Failing to take necessary actions so as to insure that a prisoner shall not escape as a result of carelessness or neglect;
  - (g) Failing to thoroughly search for, collect, preserve, and identify evidence in an arrest or investigative
  - (h) situation;
  - (i) Failing to properly care for vehicles and other equipment used wherein damage results from carelessness or neglect;
- On Duty/Off Duty – Color of law

**4:(6) LEAVING ASSIGNED AREA**

Members shall remain within the boundaries of their assignment except when specifically authorized by their supervisor, radio dispatcher, or in hot pursuit.

- On Duty

**4:(7) LEAVING CITY ON DUTY**

Members shall not go beyond the City limits while on duty unless directed by their Supervisor, radio dispatcher, or in hot pursuit.

- On Duty

**4:(9) SAFEKEEPING OF VALUABLES BY POLICE DEPARTMENT**

Members of the Department shall not accept valuables for safekeeping from individuals who merely desire to check them in for that purpose. This does not apply to valuables that have been received as evidence or property in connection with an investigation, or property which is found and turned over to the police.

- On Duty

**4:(10) ESCORT FOR VALUABLES OR MONEY**

Members of the Department on duty shall not furnish escort services for transporting of money or valuables unless authorized by a Supervisor.

- On Duty

**RULE FIVE - RESTRICTED ACTIVITIES****5:(6) ACTING IN CIVIL MATTERS**

Employees shall not give legal advice or express a legal opinion in civil matters beyond that which is necessary to prevent a breach of the peace or violation of law, but shall instead suggest that inquirer seek such information from another source of the inquirer's choosing.

- On Duty/ Off Duty

**5:(8) CIVIL SUITS BY MEMBER**

Employees involved in civil litigation as a consequence of the proper execution of their duties shall notify the Superintendent of Police via a Departmental Interoffice Correspondence (Form 105). The member shall attach all documents pertaining to the civil suit to the correspondence and hand deliver this packet to the office of the Superintendent. Employees shall also notify the Superintendent in writing as to the existence of civil suits or actions where the member is involved as a plaintiff, defendant, or witness arising out of the performance of his duty, or his role as a police officer. When appearing as a plaintiff, defendant, or witness in any civil litigation, the member shall not be attired in his Departmental uniform, except when the employee is appearing as a representative of the New Orleans Police Department. (ADDITIONALLY: SEE C.A.O. POLICY MEMORANDUM 47 DATED SEPTEMBER 24, 1987 RE: INDEMNIFICATION FOR CITY OFFICERS AND EMPLOYEES.)

- On Duty/Off Duty

**5:(10) TESTIFYING ON BEHALF OF DEFENDANTS (CRIMINAL OR CIVIL PROCEEDINGS)**

Employees of the Department, when testifying on behalf of any defendant(s) in any criminal case, civil proceeding, or civil administration hearing (i.e., including but not limited to: liquor license revocation, driver's license revocation), where the City of New Orleans or the New Orleans Police Department is a prosecutor, plaintiff, or defendant, shall notify the prosecuting or plaintiff's attorney and the Superintendent, through their chain of command, that they will be testifying, before appearing in the defendant's behalf. Any employee testifying in a criminal case outside the Parish of Orleans shall notify the Superintendent, through their chain of command, prior to the trial date. Employees testifying on behalf of the defendant(s), other than the City of New Orleans, in any criminal or civil proceeding not arising out of the proper performance of their duties, shall not be attired in their departmental uniform except when on duty and testifying in a matter before the Civil Service Commission.

- On Duty/Off Duty

**5:(13) REWARDS**

Only upon written request and approval from the Superintendent, in each specific case, shall an employee be allowed to accept any reward resulting from or connected in any way with his performance or responsibilities as a police Officer. Request for such approval shall be forwarded to the Superintendent through the member's unit chain of command using Form 143.

- On Duty/Off Duty

**RULE SIX - OFFICIAL INFORMATION****6:(1) SECURITY OF RECORDS**

A member shall not impart to any person or remove from any files the content of any record or report, except as provided by law.

- On Duty/Off Duty

**RULE SEVEN - DEPARTMENT PROPERTY****7:(1) USE OF DEPARTMENT PROPERTY**

Members shall use Department property only for the purpose for which it is intended and in accordance with Department policy, rules, procedures, and orders. Members shall exercise care in the use of all Department property and equipment and shall promptly report any theft, loss, or damage of Department property.

- On Duty/Off Duty

**7:(2) AUTHORIZED OPERATOR OF DEPARTMENT PROPERTY**

Only licensed members who are authorized by their supervisor shall operate police vehicles.

- On Duty/Off Duty

**7:(3) CLEANLINESS OF DEPARTMENT VEHICLE**

Members assigned to operate police vehicles shall be responsible for the cleanliness of such vehicles during their tour of duty.

- On Duty/Off Duty

**7:(4) USE OF EMERGENCY EQUIPMENT**

Members shall not sound the siren or activate the blue light or other emergency devices unless responding to an emergency assignment or when required in the actual and proper performance of a police duty, or when so directed by the radio dispatcher or a superior officer.

- On Duty/off Duty

**7:(6) OPERATIONS MANUAL**

Members shall be personally responsible for maintaining and updating their individual copies of the Department Operations Manual.

- On Duty/Off Duty

**7:(7) SURRENDERING DEPARTMENT PROPERTY**

When a member resigns, is discharged, or ordered by his Commanding Officer, he shall surrender all Departmental owned property and equipment

- On Duty/Off Duty

## CHAPTER: 52.8

### TITLE: SUSPENSIONS AND EMERGENCY SUSPENSIONS OF MEMBERS

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 1053**

---

#### PURPOSE

This Chapter establishes guidelines for effecting the suspension, emergency suspension or arrest of a member of the New Orleans Police Department.

#### DEFINITIONS

**Suspension**—The relieving of a police department member from all work related duties as a result of a sustained infraction of department rules, policies and/or procedures.

**Emergency suspension**—The immediate relieving of a police department member from all work related duties.

#### DISCIPLINARY SUSPENSION

1. A member may be suspended as a result of a disciplinary infraction only after a Disciplinary Letter has been signed by the Superintendent of Police and issued to the member.
2. In the event that a member refuses to sign for the Disciplinary Letter, additional disciplinary action may be taken. This refusal will not negate the disciplinary letter and/or the penalty assessed. The supervisor issuing the disciplinary letter shall note on it refused to sign and/or unavailable to sign.

#### DISCIPLINARY SUSPENSION – COMMANDER'S RESPONSIBILITIES

3. Commanding Officers shall review a copy of the Disciplinary Letter noting a suspension on any members under their command and shall ensure that the members are carried suspended the correct number of days as indicated on the suspension letter and within the time frame designated.
4. The suspended member's Commander shall be responsible for ensuring the disciplined member is instructed to surrender all Departmental property in his/her possession prior to serving the suspension. The disciplined member's commander shall assign an on-duty supervisor from the member's chain of command who shall, on the last working day prior to beginning a suspension for disciplinary reasons, confiscate the following

Department property and issue the member a receipt for same:

- (a) Member's badge and frontispiece;
- (b) Member's police or departmental identification;
- (c) Member's personal PIM Card;
- (d) Member's radio;
- (e) Member's assigned vehicle, keys, and gas card;
- (f) Member's departmental weapon(s);
- (g) Member's vest;
- (h) Any other department issued property specified by the Superintendent of Police or the member's Bureau Chief.

5. The member's Commander shall be responsible for securing all confiscated Department property until the member is restored to full duty. The commander shall store the property in a secure location within his/her command or may secure the confiscated property in the Central Evidence and Property Section.

#### **DISCIPLINARY SUSPENSION – PUBLIC INTEGRITY BUREAU RESPONSIBILITIES**

6. The Public Integrity Bureau shall ensure a copy of the suspension form will be delivered to the Department of Civil Service within five calendar days of the completion of the suspension form. A receipt, signed and dated by the Civil Service Representative accepting the suspension form, shall be included as part of the permanent case file in PIB.

#### **DISCIPLINARY SUSPENSION – MEMBER'S RESPONSIBILITIES**

7. A member while on suspension / emergency suspension **is not commissioned**. That member shall not:
- (a) Drive any city vehicle,
  - (b) Carry a firearm as a "peace officer" (La. R.S. 40:2405),
  - (c) Wear uniform parts,
  - (d) Make any public appearances representing themselves as a member of the New Orleans Police Department, or
  - (e) Work police secondary employment.

#### **EMERGENCY SUSPENSIONS**

8. Only the Superintendent or his/her designee may authorize emergency suspensions.
9. Reasons for an emergency suspension shall include, but shall not be limited to:
- (a) The accused member's use of drugs and/or alcohol;
  - (b) Any act or omission to an act which jeopardizes the public's safety or the Department's integrity;
  - (c) Any actions which bring into question the accused member's continued ability to perform his/her duties; or
  - (d) The member's physical arrest and booking.

#### **EMERGENCY SUSPENSION – SUPERVISOR'S RESPONSIBILITIES**

10. The supervisor who receives approval for an emergency suspension of a subordinate shall document the emergency suspension on a **Notification of Suspension Form** (Form #310), including the name of the person by whose authority the member was suspended. The Notification of Suspension Form shall be distributed as indicated on the form prior to the end of the initiating supervisor's tour of duty.

11. PIB shall ensure a copy of the suspension form is delivered to the Department of Civil Service within five calendar days of the date of the suspension. A receipt, signed and dated by the Civil Service Representative accepting the suspension form, shall be included as part of the permanent case file in PIB.
12. The supervisor effecting the emergency suspension shall notify the accused member's Commander of the emergency suspension proceeding. The accused member's Commander shall follow the same guidelines and procedures as outlined herein for Disciplinary Suspensions in the confiscation of departmental property in the member's possession, custody and control.
13. If no on-duty supervisor is available from the accused member's unit, the accused member's Commander shall be responsible for insuring Department property is confiscated within 24 hours from the time of the suspension.
14. The receipt issued to the accused member shall include:
  - (a) The Public Integrity Bureau's case number,
  - (b) Police item number, if applicable,
  - (c) A complete description of the property,
  - (d) The date confiscated, and
  - (e) The signatures/dates of both the supervisor and member.
15. The original, signed receipt shall be forwarded to the Public Integrity Bureau to be made a part of the case file.
16. The supervisor issuing the receipt shall insure a copy is sent to the accused member's Commander.
17. If the property is returned to the member, the returning supervisor shall have the member sign and date a copy of the receipt. A copy of the signed receipt, which indicates the return of Department property, shall be sent to the Public Integrity Bureau and placed in the case file.
18. It is important the Department have the ability to readily contact a suspended member.
19. At the time the emergency suspension is initiated, the supervisor effecting the suspension shall obtain from the member a current mailing address and any contact telephone numbers where he/she can be reached.
20. Suspended members shall insure they can be reached at the address and phone numbers provided.
21. If, during the suspension, the member's contact address or telephone numbers change, the member is responsible for advising his/her Commander and the investigator assigned to conduct the investigation of any new listings where he/she can be reached.

#### **EMERGENCY SUSPENSION – COMMANDER'S RESPONSIBILITIES**

22. If all departmental property is not immediately available at the time of the emergency suspension, the suspended member's commander shall be responsible for confiscating the property and issuing a receipt within 24 hours of the suspension.
23. The member's commander shall be responsible for securing all confiscated Department property until the member is restored to full duty. The commander may store the property in a secure location within his/her command or may secure the confiscated

property in the Central Evidence and Property Section.

#### **EMERGENCY SUSPENSION – PUBLIC INTEGRITY BUREAU’S RESPONSIBILITIES**

24. The Public Integrity Bureau Chief shall review all emergency suspensions on the next working day and weekly thereafter and shall advise the Superintendent and the member's Deputy Chief if the member may be restored to duty pending final disciplinary action.
25. Only the Superintendent of Police, through the Deputy Chief of the Public Integrity Bureau, shall terminate the emergency suspension of a member.
26. When an emergency suspension is terminated, the Deputy Chief of the Public Integrity Bureau shall notify the member's Deputy Chief and the Personnel Director in an interoffice correspondence utilizing Department letterhead.
27. The correspondence shall indicate:
  - (a) The date the emergency suspension began,
  - (b) The effective date of return to duty, and
  - (c) The number of calendar days of the suspension.
28. The Deputy Chief of the Public Integrity Bureau shall be responsible for delivering a copy of the emergency suspension termination to Civil Service within five calendar days of the date of the form, and a receipt, signed and dated by the Civil Service Representative accepting the suspension form, shall be included as part of the permanent case file in PIB.

#### **ARREST OF POLICE DEPARTMENT MEMBERS**

29. The Public Integrity Bureau Chief shall be notified of the pending arrest of any member of the department, in advance of the arrest if possible.
30. If circumstances require a member to be immediately arrested, the arresting officer shall notify the Deputy Chief of the Public Integrity Bureau immediately after the arrest. The Deputy Chief of the Public Integrity Bureau shall insure the Superintendent and member's Bureau Chief are notified.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 54.1

### TITLE: MEDIA RELATIONS AND PUBLIC AFFAIRS DIVISION

**EFFECTIVE: 10/22/2017**

**REVISED: Replaces Policy 346**

---

#### PURPOSE

The purpose of this Chapter is to set forth guidelines with respect to media releases and media access to scenes of disasters, crime investigations, emergencies, and other law enforcement activities.

#### DEFINITIONS

**Public statement**—Information released to the general public and/or representatives of the news media concerning NOPD or its operations.

#### POLICY STATEMENT

1. Police related incidents and their results are matters of public concern.
2. NOPD is committed to establishing a cooperative climate in which the news media may obtain timely and accurate communication pertaining to issues within the purview or mandate of the Department, except in those instances where the Constitutional rights of the individuals involved in the investigation, the investigative process or the fair administration of justice might be hampered by premature disclosure of investigative information to the public.
3. Information released pursuant to the provisions of this Chapter shall be relayed to the Public Affairs Division – Public Information Officer as soon as possible.
4. Members shall make every effort to ensure the Public Affairs Division – Public Information Officer, acting in his/her capacity as the Department's information officer, is apprised of all newsworthy developments prior to learning of them through the media.
5. Information to be released to the public is often shared by two or more public agencies, often involved in a mutual effort. This can include the New Orleans Fire Department (NOFD), the Federal Bureau of Investigation (FBI), or other law enforcement agencies that work with the NOPD. In these instances, coordination on the release of information with other partner agencies shall be accomplished prior to releasing the information to determine the agency with primary/principal jurisdiction. The agency with primary/principal jurisdiction will be responsible for the release of information.

6. NOPD's policy is to support the crime fighting capabilities of the **Crimestoppers Program** by providing a Crimestoppers Liaison Officer that shall coordinate a Department wide information sharing system and work in conjunction with the Public Affairs Division Public Information Officers.
7. NOPD is committed to working with the entire community to achieve the goal "**to provide professional police services to the public in order to maintain order and protect life and property**" expressed in our Mission Statement.

#### **PUBLIC AFFAIRS DIVISION**

8. The Communications Director is the overall coordinator of the Department's Public Affairs Division and the Department's public relations efforts.
9. The Department's public relations efforts include participating in speaking engagements involving and held before civic groups, social organizations, religious/church groups and schools.
10. The New Orleans Convention and Visitors Bureau convention planners rely on the Department to provide safety tips to their participants. The Public Affairs Division – Public Information Officers speak before thousands of conventioners who are interested in our public relations approach.
11. The Department's public relations efforts are also directed to promoting, producing, participating and coordinating numerous public service announcements (PSAs) for television, radio, and print media. Major emphasis in the Department PSAs are directed toward the following topics:
  - (a) Tourist Safety.
  - (b) Mardi Gras Safety.
  - (c) Work in conjunction with the New Orleans Convention and Visitors Bureau to ensure safety during such high profile events as Super Bowls, annual Sugar Bowl, Musical Festivals and Presidential visits.
  - (d) DWI Prevention.
  - (e) Auto Theft Prevention.
  - (f) Holiday Crime Prevention brochures
12. The Public Affairs Division is part of the Office of the Superintendent and shall be responsible for:
  - (a) All release of information to the news media by the Department.
  - (b) Informing the public through the news media of current police operations and services.
  - (c) Acting as the Department's liaison with the news media to foster and maintain a professional rapport between the news media and the Department.
  - (d) Gathering, assessing, and disseminating relevant and pertinent news worthy information from units within the Department to the news media.
  - (e) Responding to crime scenes, major incidents, and events which draw media attention and facilitating the coordination and release of information to the news media.
  - (f) Processing and issuing Department press releases to media representatives.
  - (g) Preparation of the Public Affairs Annual Report.
  - (h) Coordinating, assisting, and authoring the release of information concerning agency investigations and operations.

**PUBLIC STATEMENTS AND APPEARANCES**

13. Members of the Department are constrained in their activities involving the public and private disclosure of information. Specifically:
  - (a) **Rule 6, paragraph 3** – Public Statements and Appearances;
  - (b) **Rule 3, paragraph 13** – Social Networking Websites, Facebook, Myspace, Print or Transmitted media, etc.; and
  - (c) **Rule 2, paragraph 3** – Honesty and Truthfulness.

**PRESS RELEASE PROCEDURES**

14. The Public Affairs Division shall:
  - (a) Assist at all Department news conferences;
  - (b) Assist in facilitating information exchange in crisis situations, disasters, and emergencies handled by the Department:
    - i. With other agencies of City government,
    - ii. With external partner agencies, and
    - iii. With the public through media outlets.
  - (c) Coordinate the arrangements of information exchange and release external to the Department.
15. The assigned, on-duty Public Affairs Division – Public Information Officer will prepare the information provided by Department members for release to the media.
16. This may be achieved through a formal written news release approved by the Superintendent of Police or by the Communications Director or his/her designee and then disseminated equally to media agencies through:
  - (a) Media Information,
  - (b) Flyers, or
  - (c) Verbal and/or other communicative means.
17. Media information, within the constraints of this Chapter and law, will be provided upon request, or where deemed of sufficient interest to public welfare or safety.
18. Copies (electronic or physical) of all written and disseminated information will be maintained in the Public Affairs Division for a period of 3 years after release unless involved in litigation where it will be maintained for 3 years after the litigation and all appeals are concluded.
19. When investigators have determined a crime trend is occurring, or the public's safety is at risk, the on-duty Public Information Officer shall be notified by the Communications Director to prepare a public advisory (i.e., sexual assaults, missing persons, etc.) for dissemination to the news media.

**AUTHORIZED PERSONNEL TO RELEASE MEDIA INFORMATION**

20. NOPD may specifically designate members to release brief information but shall do so only after authorization by the Superintendent of Police, Communications Director, and his /her designee.
21. This authorization should be based on the member's experience or position within the Department.
22. Any information released to the media must be factual and accurate at the time released. No supposition, suspicions or inferences will be allowed.

23. Information provided at the scene will be brief.
24. Requests for an on-camera interviews may be allowed provided the request is first approved and coordinated through the Public Affairs Division.
25. Clothing or attire for members, who are authorized to give on-camera interviews, must be presentable and acceptable by the Superintendent of Police or his/her designee prior to the interview.
26. No member shall be coerced or ordered to provide an interview. **Each member of the Department has the right to decline on-camera interviews or interviews in any other form without specifying a reason.**

#### **MEDIA ACCESS TO POLICE SCENES**

27. Police lines on police scenes are established to restrict persons from entering the area of a crime scene or the scene of a major fire, natural disaster, or other catastrophic event.
28. News media representatives may be admitted into these areas under the following conditions:
  - (a) Representatives of the media are recognized by an official media identification;
  - (b) The media presence does not jeopardize police operations or the investigation;
  - (c) When authorized by the supervisory member or principal investigator in charge of the scene; and
  - (d) The media admission is coordinated through the Public Affairs Division – Public Information Officer on the scene. The Public Affairs Division – Public Information Officer must be consulted and concur prior to any approval.
29. While a media representative may be permitted into a restricted police area, they shall not be admitted into a crime scene or other area which has been secured to preserve evidence or is under active investigation.

#### **REVIEW OF DEPARTMENT RECORDS AND INFORMATION**

30. Only the Superintendent of Police or his/her designee may release of information regarding an ongoing criminal investigation.
31. Members shall not release the following without prior express authorization:
  - (a) The prior criminal record, character, or reputation of the accused;
  - (b) Photographs of the accused from police data, evidence, or private sources that are turned over to the Department;
  - (c) Reference to the existence or content of any confession, admission of guilt, or statement made by the accused or the failure or refusal by the accused to make a statement;
  - (d) The results of any examination or tests conducted or refusal by the accused to submit to any tests or examinations;
  - (e) The identity, testimony, or credibility of any present or prospective witness;
  - (f) Any opinion by police personnel regarding the strength or weakness of the investigation, guilt or innocence of the accused;
  - (g) Any opinion of the Department's personnel regarding the merits of the case or quality of evidence gathered;
  - (h) Personal information identifying the victim, or information identifying juveniles, or information received from other law enforcement agencies without their

- agreement to release the information.
- (i) Personal information and/or incidents involving juvenile victims, juvenile suspects, or adult victims of sexual assault;
  - (j) Exact municipal addresses or residential locations where incidents of sexual assaults may have occurred;
  - (k) The identity of deceased persons shall remain undisclosed or confidential until such times as proper notification of the deceased's family can be completed;
  - (l) Video tapes, photographs, sketches, or any other images of suspects being sought by the Department; or
  - (m) Information deemed "**Law Enforcement Sensitive**," particularly information involving internal departmental investigations of members or member photographs.
32. Department members who represent organizations (i.e. PANO, FOP, BOP, Mardi Gras Krewe, etc.) other than NOPD shall do so on their own time and attired in civilian clothes. Use of police titles and/or implied representation of the Department is prohibited.
33. Members are prohibited from contacting news media representatives for the purpose of staging photographs or video opportunities for showing arrested subjects being walked and booked into Central Lock-Up or any other holding facility. Only the Superintendent of Police or his/her designee may authorized this type of activity and it shall be coordinated through the Public Affairs Division, Communications Director.
34. The use of any Departmental vehicles (marked or unmarked), equipment, or other property, in the filming of any commercial, television, or motion picture productions without prior written approval of the Superintendent of Police or his/her authorized designee is prohibited.
35. Requests for the use of Departmental vehicles (marked or unmarked), equipment, or other property in a production shall be in writing along with a copy of the production script attached.
36. Such a request shall be addressed to the Superintendent of Police and forwarded through the chain of command to the Public Affairs Division – Communications Director.
37. The Public Affairs Division – Communications Director, or his/her designee, shall review the script to determine:
- (a) NOPD's role is in the production, and
  - (b) If the Department's image is portrayed in a positive manner.
38. If the request for the use of Departmental vehicles (marked or unmarked), equipment, or other property, in a production is approved by the Superintendent of Police, the requesting person shall be instructed to contact the Public Affairs Division – Communications Director to discuss the restrictions and/or parameters for the use of the requested departmental property as outlined in the Superintendent's approval.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 55.1

### TITLE: VICTIM AND WITNESS ASSISTANCE

**EFFECTIVE: 12/18/16**

**REVISED: Replaces Policy/Procedure 336**

---

#### PURPOSE

The purpose of this Chapter is to ensure that crime victims and witnesses receive appropriate assistance and are provided with information from government and private resources that may assist them in coping with the aftermath of crime, in addition to ensuring that the Department meets all legal mandates.

#### POLICY STATEMENT

1. The New Orleans Police Department is committed to providing guidance and assistance to the victims and witnesses of crime, which can have an immediate and long-term impact on their emotional recovery by developing security and stability as well as mitigating the traumatic effects of crime. The employees of the NOPD shall show compassion and understanding in all interactions with witnesses and victims. NOPD employees shall make reasonable efforts to provide support and information as identified in this Chapter.

#### DEFINITIONS

Definitions relevant to this Chapter include:

**T-Visa (Nonimmigrant Status)**—Nonimmigrant status provides immigration protection to victims. The T Visa allows victims to remain in the United States and assists law enforcement authorities in the investigation or prosecution of human trafficking cases.

**U-Visa (Nonimmigrant Status)**—U nonimmigrant status provides immigration protection to crime victims who have suffered substantial mental or physical abuse as a result of qualifying crime. The U visa allows victims to remain in the United States and assist law enforcement authorities in the investigation or prosecution of criminal activity.

**Victim**—A person who has been killed, injured, or otherwise directly harmed by a crime committed by another person. For purposes of this Chapter, victims may include family members and witnesses as defined in relevant statutes, when applicable.

**Victim/Witness Assistance Unit coordinator**—A member of the Department appointed by the Superintendent of Police who serves as the principal point of contact for individuals requiring assistance or information from the NOPD, beyond that provided by responding officers,

regarding benefits from programs for crime victims, their families, and witnesses.

### **BASIC RIGHTS FOR VICTIMS AND WITNESSES**

2. Services and information concerning services available under state law to victims and witnesses of a crime are outlined in La. R.S. 46:1844 and ChC. Art. 811.1. These include, but are not limited to, the right to be notified of, and to be present for, certain judicial proceedings; the right to seek restitution; and consultation with victims regarding the prosecution and disposition of a criminal case.
3. As appropriate, victims, their family members and witnesses of the crimes listed in **Appendix A** may be eligible for registration under La. R.S. 46:1842-1844 and ChC. Art. 811.1-811.3, respectively. Registration under La. R.S. 46-1842-1844 is the mechanism used to notify the La. Department of Public Safety and Corrections Crime Victims Services Bureau to publicize and provide a mechanism for crime victims and their families to be kept informed of their cases and rights.
4. Registration affords the victim or his/her representative benefits, such as:
  - (a) Assistance with safety planning to reduce repeat victimization by the offender;
  - (b) Information regarding the criminal justice proceedings; and
  - (c) Information regarding social services and financial assistance available as a result of being the victim of a crime.

### **CRIME VICTIM/WITNESS ASSISTANCE UNIT AND COORDINATOR**

5. The Victim/Witness Assistance Unit is under the supervision of the Commander of the Investigations and Support Bureau/Criminal Investigations Division. The Victim/Witness Assistance Unit coordinator shall be responsible for maintaining up-to-date information about the programs available to victims, their families, and witnesses.
6. The Superintendent may appoint a member of the Department to serve as Victim/Witness Assistance Unit coordinator. The appointed member's contact information shall be maintained by Communications Services and promulgated by the Deputy Chiefs of FOB and ISB to the members of their respective commands.
7. The Victim/Witness Assistance Unit coordinator shall be responsible for maintaining up-to-date information about the program and also shall be responsible for maintaining compliance with all legal mandates related to programs and assistance for crime victims, their families, and/or witnesses.

### **DISTRICT OFFICER AND INVESTIGATOR RESPONSIBILITIES**

8. During an initial investigation, reporting officers shall ensure that crime victims, their families and witnesses receive emergency, social and medical services as soon as possible.
9. Officers who encounter victims of a major crime (see Appendix A) shall forward the victim's contact information to the Victim/Witness Assistance Unit within 24 hours of the report.
10. Each investigator is responsible for coordinating private rooms for victim/witness interviews.

11. Officers shall refer all domestic violence and sexual assault victims to the New Orleans Family Justice Center (NOFJC).
12. Officers shall provide the Assistance for Victims of Crime brochure to all victim(s), their families or witnesses, and document the provision of this brochure in an incident or supplemental report, to advise them of the following:
  - (a) As a victim/family member/witness, you may be contacted by a representative of the NOPD or Orleans Parish District Attorney's Office about this matter.
  - (b) If anyone contacts you to discuss this matter, it is your right to request and obtain the full identity and employer of anyone for your own safety.
  - (c) All New Orleans Police Department and Orleans Parish District Attorney's Office personnel have clearly marked identification as either "New Orleans Police Department" or "Orleans Parish District Attorney's Office."
  - (d) Examine any ID's, Badges, or other documents carefully.
  - (e) If there is any doubt, please call the NOPD (821-2222) or the DA's Office (822-2414) to verify anyone's identity.
  - (f) Louisiana Victim Notification System (LAVNS) is a free service that allows victims to check on an offender's custody status and to register for notification when a person is released from jail. The telephone number is (866) 528-6748.
  - (g) Individuals can conduct an inmate query via [www.opcso.org](http://www.opcso.org) and can register for LAVNS if the inmate is in custody.
  - (h) Domestic violence victims have rights to initiate criminal or civil proceedings with the assistance of the Domestic Violence and Family Justice Center. (See Chapter 42.4, Domestic Violence).
13. Officers should never guarantee a victim's safety from future harm or that his/her identity will remain confidential always. However, officers may make practical safety suggestions to victims or witnesses who express fear of future harm or retaliation. Officers should never guarantee that a person qualifies as a victim for the purpose of compensation or restitution, but they may direct victims to the proper written material or available victim resources.
14. Officers shall provide all crime victims, within the meaning of this Chapter, with the Louisiana Victim Notice and Registration Form (La. R.S. 46:1844), and document the provision of this form in an incident or supplemental report.
15. The Louisiana Victim Notice and Registration Form should only be completed when:
  - (a) A physical arrest is made;
  - (b) A warrant is issued; or
  - (c) The subject is known and the arrest or warrant is pending additional information.
16. The on-scene officer shall complete sections A and B of Louisiana Victim Notice and Registration Form and ensure the following:
  - (a) Section B, the victim (or designee), shall INITIAL either the statement "I acknowledge receipt of this form" OR "I decline to register for notification at this time."
  - (b) The victim (or designee) shall sign and date the form.
  - (c) The blue copy shall be given to the victim in all instances.
  - (d) All copies must be legible.

17. The Louisiana Victim Notice and Registration Form consists of five copies labeled as follows:
  - (a) Clerk of Court Copy
  - (b) District Attorney Copy
  - (c) Arresting Agency/Victim Services Copy
  - (d) Jail/Detention Center Copy
  - (e) Victim's Copy
18. The officer shall submit the remainder of the form to his/her supervisor with the completed report. The supervisor shall submit the remainder of the form as outlined below. **THE FORM SHALL NOT BECOME A PART OF THE ORIGINAL REPORT.** The Victim Service Copy shall be delivered to the Victim/Witness Assistance Unit within twenty-four (24) hours via Department mail or by hand delivery, along with a copy of the face sheet (first page of incident report).
19. A photocopy of the completed form shall be kept in the officer's District/Unit files.

#### **ARREST DURING INITIAL INVESTIGATION**

20. **If an arrest is made during the initial investigation**, the arresting officer shall deliver the **Jail Copy** of the original form to Central Lock-Up along with the arrestee. The Clerk of Court Copy and District Attorney Copy shall be submitted to the District Attorney's Office, along with other pertinent documentation, from the A-Case Officer of each district/unit. The **Victim Service Copy** will be forwarded to the Victim/Witness Services Unit.

#### **ARREST WARRANT GENERATED**

21. In instances when an arrest warrant is generated, the Jail Copy will be filed with NCIC until such time an arrest is made. At the time of arrest, that copy will be forwarded to Central Lockup. The Clerk of Court Copy and District Attorney Copy will be held by DIU/A-Case until such time an arrest is made and the entire documentation is forwarded to the District Attorney's Office. The **Victim Service Copy** will be forwarded to the Victim/Witness Services Unit.

#### **KNOWN SUBJECT BUT NO ARREST OR WARRANT FILED**

22. In instances when there is a known subject but with no arrest warrant on file, the **Jail Copy, Clerk of Court Copy, and District Attorney Copy** will be held by the Investigating Detective/DIU Unit until such time an arrest is made. The copies will be forwarded as stated above. The **Victim Service Copy** will be forwarded to the Victim/Witness Assistance Unit.

#### **NO KNOWN SUBJECT**

23. In instances when there is no known subject, the victim will be provided with the Assistance for Victims of Crime brochure, and the provision of this brochure shall be documented in an incident or supplemental report. During any subsequent investigation, should a perpetrator be identified and/or arrested, the follow-up investigator shall complete the Louisiana Victim Notice and Registration form, forwarding the **Victim Service Copy** to the Victim/Witness Assistance Unit.

**INCAPACITATED VICTIM/WITNESS**

24. Should the victim/witness be incapacitated during the initial investigation where there is a known subject or a subject was placed under arrest, the officer handling the investigation shall complete the form as above, leaving the victim/witness's copy with the hospital, and document completion of the form in an incident or supplemental report.
25. Officers shall provide all crime victims, their families and witnesses with all available and applicable information handouts, including a copy of the Assistance for Victims of Crime brochure, along with a completed NOPD item number slip (Form #26) and the investigating detective's name. Officers and investigators should specifically note in their reports that the appropriate forms and resources were provided.

**VICTIM/WITNESS INTIMIDATION OR RETALIATION**

26. Officers should investigate allegations of victim/witness intimidation or retaliation and take enforcement action when lawful and reasonable.
27. The investigating officer's supervisor and the Orleans Parish District Attorney's Office should be notified immediately when handling an investigation of victim or witness intimidation/retaliation.
28. The investigation of intimidation/retaliation shall be documented in an NOPD incident report (electronic police report) and forwarded to the Orleans Parish District Attorney's Office by way of the District/Division A-Case Officer as soon as possible after the report is approved by the investigator's supervisor.

**VICTIM/WITNESS ASSISTANCE UNIT COORDINATOR RESPONSIBILITIES**

29. The Victim/Witness Assistance Unit coordinator is authorized to and responsible for:
  - (a) Assessing the Department's role in victim/witness assistance by remaining updated on the laws and ensuring the Department remains in compliance;
  - (b) Acting as a liaison with other criminal justice agencies, governmental and non-governmental agencies, and organizations who promote victims'/witnesses' rights;
  - (c) Assisting with language barriers, hearing impaired, disabled or other special needs by using the department resources or resources from outside agencies;
  - (d) Developing comprehensive Victims/Witness Assistance Unit standard operating guidelines; and
  - (e) Ensuring the department is supplied with the appropriate forms.
30. The Victim/Witness Assistance Unit coordinator shall ensure that victim information handouts are available and current for all divisions and districts that respond to calls for service or handle initial and follow-up investigations. These should include, as appropriate:
  - (a) Shelters and other community resources for victims of domestic violence;
  - (b) Community resources for victims of sexual assault;
  - (c) Assurance that sexual assault victims will not incur out-of-pocket expenses for forensic medical exams (see La. R.S. 40:1216.1);
  - (d) An advisement that a person who was arrested may be released on bond or some other form of release and that the victim should not rely upon an arrest as a guarantee of safety;

- (e) A clear explanation of relevant court orders that may be in place or available and how they can be obtained;
  - (f) Information regarding available compensation for qualifying victims of crime and how to apply;
  - (g) VINE® information (Victim Information and Notification Everyday), including the telephone number and whether this free service is available to allow victims to check on an offender's custody status and to register for automatic notification when a person is released from jail.
  - (h) Notice regarding U-Visa and T-Visa application processes;
  - (i) Resources available for victims of identity theft (NOPD Form No. 26);
  - (j) A place for the officer's name, badge number and any applicable case or incident number;
  - (k) Notifications to domestic abuse victims of their right to initiate criminal or civil proceedings and to seek a court order (La. R.S. 46:2136; La. R.S. 46:2140);
  - (l) Information for victims and/or their family members as set forth in La. R.S. 46:1844 and ChC. Art. 811.1;
  - (m) Louisiana Commission on Law Enforcement and Administration of Criminal Justice Victim notice and registration forms, as provided for in La. R.S. 46:1842(8);
  - (n) The Crescent House crisis line (504-866-9554), the Louisiana Domestic Violence Hotline (1-888-411-1333) or the National Domestic Violence Hotline telephone number (1-800-799-7233/1-800-787-3224);
  - (o) Address confidentiality program for victims of abuse, sexual assault or stalking (La. R.S. 44:52);
  - (p) Crime Victim's Reparations Board eligibility information (LAC 22:XIII.301);
  - (q) Notification to victims that they may be contacted by other members of the New Orleans Police Department or the District Attorney's office, all of whom shall have appropriate credentials.
31. The NOPD Victim/Witness Assistance Unit coordinator is responsible for distributing current referral information to Communications Services.
32. The Victim /Witness Assistance Unit coordinator is also responsible for:
- (a) Ensuring the T-Visa/U-Visa forms are complete and accurate;
  - (b) Compiling a resource list of services with other agencies who provide services specifically for immigrant victims; and
  - (c) Ensuring that call-takers at the Orleans Parish Communications District (OPCD) are adequately informed about victim services and resources through consultation with the OPCD executive director and training as necessary.

### **T-VISA AND U-VISA FOR NON-IMMIGRANT VICTIMS/WITNESSES**

33. The following information establishes instructions and protocol for assisting nonimmigrant victims/witness of crime by completing the T-Visa (Federal Form I-914, Supplemental B) and U-Visa (Federal Form I-918, Supplemental B) forms.
34. The United States Citizenship and Immigration Service (USCIS) may issue temporary non-immigrant status to immigrant crime victims for a period of four (4) years. As a part of the application process, law enforcement agencies are required to verify that the immigrant was a victim of one or more of the qualifying crimes.
35. The T-Visa (T Non-immigrant declaration) and U-Visa (U Non-immigrant classification) were enacted through the Violence Against Women Act of 2000, for victims of domestic

violence, sexual assault, human trafficking and other criminal offenses. This act, in keeping with the humanitarian interests of the United States of America, was designed to provide victims/ witnesses with critical immigration protection while strengthening the ability of law enforcement agencies to detect, investigate and prosecute cases.

36. In cases where an **arrest is made**, the responsibility to complete the Federal Form T-Visa declaration or Federal Form U-Visa certification forms rests with the Orleans Parish District Attorney's Office, not the NOPD officer.
37. In cases when no arrest is made and no warrant issued, it is the responsibility of the New Orleans Police Department to complete T-Visa or U-Visa forms upon the request of a qualifying individual. All such requests should be made through the NOPD's Victim/Witness Assistance Unit.
38. The New Orleans Police Department will consider the issuance of a certification or declaration to individuals and their family members who are willing to cooperate with the investigation or prosecution of the crime and who meet the following eligibility requirements:
  - (a) The individual must have been a victim of a qualifying criminal act (see crimes listed below);
  - (b) The individual must have suffered substantial physical or mental abuse as a result of being a victim of one or more of the qualifying criminal acts;
  - (c) The individual must possess specific, credible and reliable information about the qualifying criminal act (beyond the initial information provided);
  - (d) The individual must have been helpful, is being or will likely be helpful in the investigation and prosecution; and
  - (e) The individual can identify the perpetrator.
39. Individuals who are victims/witnesses of the below listed crimes are eligible to obtain a certification or declaration:
  - Abduction
  - Abusive Sexual Contact
  - Blackmail
  - Domestic Violence
  - Extortion
  - False Imprisonment
  - Felonious Assault
  - Female Genital Mutilation
  - Hostage
  - Incest
  - Involuntary Servitude
  - Kidnapping
  - Manslaughter
  - Murder
  - Obstruction of Justice
  - Peonage
  - Perjury
  - Prostitution
  - Rape

- Sexual Assault
  - Sexual Exploitation
  - Slave Trade
  - Torture
  - Trafficking
  - Unlawful Criminal Restraint
  - Witness Tampering
  - Any Other Sexual Offenses
40. During an initial investigation of the qualifying crimes involving an immigrant victim or witness, the reporting officer shall provide the victim with the brochure entitled "Assistance for Victims of Crime," including on the brochure the item number, and document the provision of this brochure in an incident or supplemental report.
41. Upon the request of the individual, the case will be reviewed by Victim / Witness Assistance Unit personnel, in order to determine eligibility. After an individual is determined to be ELIGIBLE, T-Visa (Federal Form I-914 Supplemental B) shall be completed for Trafficking victims or U-Visa (Federal Form I-918 Supplemental B) shall be completed for victims of the other qualifying crimes. The forms should then be forwarded to the Deputy Chief of the Investigations and Support Bureau or his/her designee.
- (a) The Deputy Chief of the Investigations and Support Bureau or his/her designee will sign the certification or declaration after all eligibility requirements are met.
  - (b) The New Orleans Police Department reserves the right to withdraw a certification if the petitioner proves to be uncooperative or unable to provide additional information about the qualifying crime. The certification can be revoked by immediately submitting a written statement to the U.S. Citizenship and Immigration Service (USCIS) at the following address: **U.S. CITIZEN AND IMMIGRATION SERVICES, VERMONT SERVICES CENTER-U-VISA UNIT, 75 LOWER WELDON STREET, ST. ALBANS, VERMONT**. The recommendation to withdraw shall clearly document the reasons for the recommendation and be requested by the investigating officer, through his/her chain of command to the Deputy Chief of the Investigations and Support Bureau for approval.
  - (c) The Commander of Communications Services will maintain resource phone numbers on services for immigrant victims and have them available for the public and police officers on a 24-hour basis. The information shall include:
    - 1. A general overview of the service provided to immigrant victims;
    - 2. Contact phone numbers for victims in need of medical attention, counseling and other services available in the Metropolitan New Orleans Area; and
    - 3. Contact phone numbers for the Victim / Witness Assistance Unit.
  - (d) The NOPD Victim/Witness Assistance Unit coordinator is responsible for providing current information to Communications Services.
  - (e) An adequate supply of Federal Form I-914 Supplemental B (T-Visa) and Federal Form I-918 Supplemental B (U-Visa), along with instructions shall be maintained by the Victim/Witness Assistance Unit personnel.

**RECORDS AND IDENTIFICATION SECTION RESPONSIBILITIES**

42. The Records and Identification Division shall be responsible for establishing safeguards designed to prevent the improper release of information related to juvenile victims and victims of sex offenses.
43. Records involving sex offenses and juveniles are considered **SECURE** files and are stamped "SF" and are NOT to be released.

**COMMUNICATIONS DISTRICT RESPONSIBILITIES**

44. The Executive Director of the Orleans Parish Communications District will maintain all Victim/Witness Assistance Unit information numbers available for the public and police officers on a 24-hour basis. The information shall include:
  - (a) A general overview of the Department's Victim/Witness Assistance Unit, and
  - (b) Referral information for any victim/witness in need of medical attention, counseling, or emergency financial assistance, including services available throughout the Metropolitan New Orleans area.

**EDUCATION AND TRAINING RESPONSIBILITIES**

45. The Commander of the Education and Training Division shall prepare a recruit and in-service training lesson plan for all members who routinely interact with victims/witnesses.
46. The Commander of the Education and Training Division shall prepare a recruit and in-service training lesson plan for all members who will encounter an immigrant victim.

**EMERGENCY NOTIFICATIONS**

47. In the case of victim or witness deaths, the Coroner's Office will notify the next of kin. In the case of injury, the treating medical facility will notify the next of kin. On occasion, an NOPD officer is assigned to notify the next of kin of a death or serious injury. The officer shall make the notification in a polite, courteous, and considerate manner. If possible, the police chaplain shall be called to assist.

**APPENDIX A**

Victims of the following crimes, along with the victims' family members, may be eligible for registration under La. R.S. 46:1842-1844 and ChC. Art. 811.1-811.3, respectively:

- First Degree Murder
- Second Degree Murder
- Manslaughter
- Solicitation for Murder
- Aggravated Battery
- Second Degree Battery
- Aggravated Assault
- Aggravated Rape
- Forcible Rape
- Simple Rape
- Sexual Battery
- Oral Sexual Battery
- Intentional Exposure to AIDS Virus
- Incest
- Crime Against Nature
- Felony Carnal Knowledge/Juvenile
- Indecent Behavior w/Juvenile
- Mingling Harmful Substances
- Aggravated Kidnapping
- Second Degree Kidnapping
- Simple Kidnapping
- Aggravated Burglary
- Aggravated Criminal Damage to Property
- Armed Robbery
- 1st Degree Robbery
- Simple Robbery
- Purse Snatching
- Crime Against Nature
- Stalking
- Vehicular Negligent Injury
- 1st Degree Vehicle Negligent Injury
- Any "offense against the person" committed against a family or household member as defined in La. R.S. 46:2132 (4) or dating partner as defined in La. R.S. 46:2151 (B).

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 55.2.6

### TITLE: HOSPITAL PROTOCOL FOR INJURED OFFICERS OR MEMBERS WHILE ON DUTY

**EFFECTIVE: 10/22/2017**

**REVISED: Replaces Policy 1067**

---

#### PURPOSE

The purpose of this Chapter is to set guidelines for the notifications of Communications Services, the injured officer's Commander, and family members or other close concerned individuals of police officers who are injured while on duty, at a paid detail, or in the line of duty, and whose family members have not been notified. This chapter provides guidance on providing a NOPD waiting room, at University Hospital (2021 Perdido Street) or Tulane Medical Center (1415 Tulane Avenue), where officers can gather to prevent crowded conditions in the Emergency Room which can disrupt medical care. This chapter also provides guidelines on centralizing, updating, and disseminating medical status reports and providing an opportunity for group counseling, if necessary.

#### POLICY

1. In the event a police officer or other member of the department is seriously injured on duty or while on a paid detail, the welfare of the injured individual is of the utmost importance.
2. The University Hospital will provide the Hospital Police Office, or other suitable location, as the NOPD waiting room. The waiting room will provide direct access to the Accident Room and offer privacy, telephones, and restrooms.
3. Depending on the time of day and number of concerned officers, Tulane Medical Center will provide NOPD waiting areas in the cafeteria, front lobby, chapel, Room 1000, and/or the Comprehensive Health Care office. These areas are all located on the first floor of the hospital, near the Emergency Room, and all offer privacy, telephones, and restrooms.
4. An assigned supervisor from the injured person's place of assignment, as designated by the member's Commander, shall be in charge of the hospital area. If, because of the unit size of the injured person's place of assignment, no ranking officer is available, a ranking officer from the District of occurrence, assigned by the District Commander, shall be in charge of the hospital area until such time as a supervisor from the injured person's assignment can arrive at the hospital. The assigned supervisor shall:
  - (a) Coordinate with an on-duty hospital security officer to establish the NOPD waiting room;

- (b) Take command of the emergency room area for the purpose of restricting the entrance of all other officers into the emergency room, except for those specifically charged with investigating the incident;
  - (c) Direct all other officers to assemble in the NOPD waiting room;
  - (d) Ensure the injured person's Commander to be notified and remain in charge until a replacement has arrived at the hospital; and
  - (e) Not make any statements to the media and instruct other police personnel to do likewise.
5. The assigned supervisor at the hospital shall not allow other police personnel to congregate in the private area and shall instruct the police personnel at the hospital not to engage in conversation with, or make remarks to, relatives upon their arrival at the hospital until proper notification has been made.
6. The assigned supervisor in charge of the hospital area shall designate a liaison between the medical staff and the department. This officer shall frequently report to the NOPD waiting room and update the condition and status of the injured individual.
7. The assigned supervisor in charge of the hospital area shall contact the NOPD Liaison to Communications Services and supply a telephone number(s) to the waiting room.
8. The NOPD waiting room shall be open until the injured officer has been removed from the emergency room. The assigned supervisor in charge of the hospital area shall notify Communications Services when the NOPD waiting room has been closed.

#### **DUTIES OF THE INJURED MEMBER'S COMMANDING OFFICER**

9. If the assigned supervisor in charge of the hospital area is not a member of the Commander's unit, division, or section, the Commander shall immediately assign a ranking officer from his/her command to proceed to the hospital and take charge of the hospital area.
- (a) The Commander shall assign a guard(s) to the injured officer once he/she has been moved to a recovery room or a hospital room. The officer on guard duty shall:
    - i. Restrict visitors completely, upon orders of the injured person's physician;
    - ii. Limit visitors to immediate family members and/or persons specifically requested by the injured person and his/her family;
    - iii. Provide information on the person's medical condition to individuals who are denied the opportunity to visit the injured person; and
    - iv. Notify Communications Services, the Public Affairs Office, and the injured person's Commander when there is a significant change in the person's medical condition.
  - (b) The guard detail shall end when the individual is no longer in need of the services provided, or when a long period of hospital recuperation is expected.
  - (c) The Commander of the injured individual shall immediately and personally notify the relative or person listed on the **Emergency Notification Form (Form #162)** which can be found in the Forms folder at <http://www.nopd.org>. Depending on the severity of the injuries, this notification can be made either by telephone or in person. If the injury is life threatening, or the circumstances surrounding the cause of the injury would lead the relative to believe the injury is life threatening, the notification shall be made in person at the relative's residence.
  - (d) If notification of family members is made at the residence, the Commander shall cause the following to happen:

- i. The Commander and at least one other officer shall proceed to the residence and inform the relatives of the incident.
  - ii. The relative(s) shall be transported to the hospital where the injured individual is being treated.
  - iii. In the event small children or incapacitated adults must remain at the residence, the additional officer shall remain at the residence with the parties until such time as arrangements can be made for their care.
  - iv. Upon arrival at the hospital, the Commander shall assign one officer from his/her command to the relative(s) to assist in gathering information on the individual's medical condition and provide for their well-being.
  - v. The Commander shall ensure that transportation is provided for the relatives back to their residence or other location if needed.
- (e) If notification of family members is made by telephone, the Commander shall:
- i. Inform the relative of the nature and extent of the injury emphasizing the injuries are not life threatening;
  - ii. Provide the name, address and telephone number of the hospital where the individual is being treated;
  - iii. Offer transportation to and from the hospital if needed;
  - iv. Provide for care and security of small children and incapacitated adults, if needed, until such time as arrangements can be made for their security.
- (f) The Commander shall inform the Public Affairs Office that notification of the family has been made.

#### **DUTIES AND RESPONSIBILITIES OF THE PUBLIC INFORMATION OFFICER**

10. Upon notification that a police officer or other department member has been injured while in the performance of his/her duty, the on duty Public Information Officer shall proceed to the hospital where the individual is being treated.
11. The Public Information Officer shall be the liaison between the media and the Police Department. The identity of the injured individual shall not be given to the media until he/she has been notified by the injured party's Commander that family notification has been made.
12. If the identity of the injured party is already known by the media, the Public Information Officer shall request they withhold the information from broadcast until family notification can be made.
13. The Public Information Officer shall gather information and release information to the media as per current policy and unit procedure.

#### **ADDITIONAL RESPONSIBILITIES**

14. In the case of serious injury, Communications Services shall notify the Police Psychologist(s) and inform him/her an individual has been injured in the line of duty. If a psychological debriefing or other counseling is necessary, the psychologist shall report to the NOPD waiting room and report to the injured party's Commander.
15. In the case of serious injury, Communications Services shall notify the Police Chaplain(s) and the commander of the Employee Relations Section. The Police Chaplain and a representative of the Employee Relations Section shall report to the NOPD waiting room (or other appropriate location within the hospital) to render their

services to other members of the department, family members and the injured individual.

## **PROHIBITIONS**

16. Visitor limitation, at times, is in the best medical interest of the injured person. Department members shall not use their official position or identification to enter into areas of the hospital otherwise prohibited to visitors unless conducting an official police investigation and not without permission of the injured party's physician.
17. When visiting an injured party at the hospital, officers shall not park on the emergency ramp or other locations reserved for emergency vehicles.
18. Members of the department shall not release the name of the officer or details of the incident to the media or the public in general or in a manner which is likely to reveal those facts prior to the official public information release.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 55.2.6.1

### TITLE: OFFICERS KILLED WHILE ON DUTY

**EFFECTIVE: 10/22/2017**

**REVISED: Replaces Policy 1065**

---

#### PURPOSE

The purpose of this Chapter is to set guidelines for the notifications of Communications Services, the deceased officer's Commander, and family members or other close concerned individuals of police officers who are killed while on duty, at a paid detail, or in the line of duty.

#### POLICY STATEMENT

1. In the event a police officer is killed on duty, in the line of duty or while on a paid detail, the welfare of the officer's family is of the utmost importance.
2. When it has become apparent that a police officer has been killed while on duty, in the line of duty or while working a paid detail, a supervisor on the scene of the incident shall immediately notify Communications Services and ensure the deceased officer's Commander is notified.
3. A supervisor from the District of occurrence, not involved in the scene investigation or direct supervision, shall proceed to the hospital where the deceased member has been taken and immediately assume the responsibilities of the hospital area (see: **Chapter 55.2.6 – Hospital Protocol for Injured Officers** for additional guidance).
4. The supervisor at the hospital will prepare a location where the relatives of the deceased can be brought. This location should be a private area near the emergency room and not readily accessible to the public.
5. The supervisor at the hospital shall not allow other police personnel to congregate in the private area and shall instruct the police personnel at the hospital not to engage in conversation with, or make remarks to, relatives upon their arrival at the hospital until death notification has been made.
6. Upon notification, the Communications Services Police Liaison shall notify the Police Chaplain and the Police Department Psychologist and instruct them to proceed to the medical facility where the deceased officer was taken.
7. The Police Chaplain and psychologist shall proceed to the private area of the hospital and await the arrival of the family. It shall be the duty of the Police Chaplain to inform the family of the officer's death.

8. Members of the department **shall not** release the name of the officer or details of the incident to the media or the public in general or in a manner which is likely to reveal those facts prior to the official public information release.

#### **DUTIES OF THE DECEASED OFFICER'S COMMANDER**

9. A Commander, upon being notified of the on duty death of a member of his/her command, shall obtain the necessary notification information from the member's **Emergency Notification Form (Form #162)**.
10. The Commander shall proceed to the residence provided by the deceased as the primary individual to be contacted along with another police officer to transport the surviving family member to the appropriate hospital. If children or incapacitated adults are present, the accompanying officer shall remain with them until arrangements for their care can be made.
11. If the specific individual named on the Emergency Notification Form as Primary Individual to be notified is not present at the residence indicated, every effort will be made to locate the Primary Individual. If attempts are met with negative results, the Commanding Officer shall proceed to the Alternate 1 and Alternate 2 individuals for the purpose of transportation to the medical facility.

**NOTE: SINCE THE MEDICAL CONDITION OF THE INDIVIDUAL NOTIFIED CANNOT BE KNOWN, AND THE MANNER IN WHICH THE INDIVIDUAL MAY REACT CANNOT BE DETERMINED, THE COMMANDING OFFICER SHALL MAKE EVERY ATTEMPT NOT TO INFORM THE INDIVIDUAL THAT THE OFFICER HAS DIED. THE COMMANDING OFFICER MAY STATE THAT THE OFFICER HAS BEEN SERIOUSLY INJURED AND THE NOTIFIED INDIVIDUAL'S PRESENCE IS NEEDED AT THE HOSPITAL.**

12. Upon arrival at the medical facility, the deceased officer's Commander shall escort the surviving family member(s) to the predetermined secure area. The Commander shall remain with the surviving family member(s) until the arrival of the Police Psychologist and Police Chaplain.
13. The deceased officer's Commander shall assign officers from his/her command to remain with the survivors as long as their stay at the hospital lasts. These officers shall be responsible for ensuring that the surviving family member(s) is transported back to their residence or other location as determined by the survivor(s).
14. Should it be necessary, the Commander shall determine if the officers assigned must be replaced or authorized overtime for extended duty with the surviving family.

#### **DUTIES OF THE PUBLIC INFORMATION OFFICER**

15. Upon notification that a police officer has been killed, the Public Information Officer shall proceed to the Medical Facility where the deceased officer has been brought and act as a liaison between the department and the media.
16. The Public Information Officer shall gather and disseminate information to the media according to Department and City policy.
17. The identity of the deceased officer **shall not** be released to the media until all family notifications have been made.

18. If the identity of the deceased officer is already known to the media, the Public Information Officer will request the media withhold the identity of the officer and that it not be broadcast until notification of the family has been made.

#### **DUTIES OF THE EMPLOYEE RELATIONS UNIT**

19. The Employee Relations Unit shall:
  - (a) Offer assistance, or if requested, assist in making funeral, wake, and burial arrangements for the deceased member.
  - (b) Ensure security checks are made at the deceased member's residence both before and after the funeral services.
  - (c) Contact the CAO Hospitalization Office regarding death benefits.
  - (d) Contact the Municipal Police Employee's Retirement System office and notify them of the officer's death and provide contact information on the officer's family.
  - (e) Assist the family in obtaining marriage licenses, birth records, social security numbers, etc., for the completion of necessary documents for survivor benefits.
  - (f) Inform the family of survivor benefits available through the State and Federal Government and offer assistance as needed.
  - (g) Prepare any documents needed by the family to receive benefits and insure the beneficiaries are receiving the proper benefits.
  - (h) Assist the family and the Public Information Office in the release of information on the officer and the family, abiding by the wishes of the family.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 55.2.6.2

### TITLE: POLICE FUNERALS

**EFFECTIVE: 10/22/2017**

**REVISED: 11/15/19**

---

#### PURPOSE

The purpose of this Chapter is to provide a process for requesting a police funeral for active or retired members of the New Orleans Police Department.

#### POLICY

1. Uniform Department members may be assigned to participate in funeral ceremonies for active or retired members of the New Orleans Police Department upon request of the deceased member's family or the individual in charge of the funeral arrangements.
2. When a police funeral is requested for an active or retired member, an NOPDAI1 (*group email message to all Department members*) email message shall be sent notifying all members of the funeral arrangements. Active members who wish to volunteer for a particular funeral shall contact Human Resource Services.
3. The Deputy Superintendent of the Field Operations Bureau may authorize motorcycle officers to provide a "city roll escort" (escort motorcycles working on-duty) for the deceased member's motorcade to the cemetery.
4. If the deceased member was an active or retired member of the department, a uniformed officer of the unit to which the deceased was assigned at the time of death or upon retirement may, with approval of the unit's commanding officer, be detailed (working on-duty) to the funeral ceremony.
5. The City of New Orleans and the New Orleans Police Department assumes no financial responsibility for the burial of member, whether the member was killed in the line of duty or not.
6. If the deceased member was a Superintendent or Deputy Superintendent, active or retired, the officer in charge of the police funeral detail shall hold the rank of Captain, or Major.

#### OFFICER'S DEATH - LINE OF DUTY

7. The participation of the New Orleans Police Department and its members in an active duty or retired member's funeral or memorial activities is entirely contingent on the

request or permission of the deceased member's closest relative(s).

8. When a police officer dies in the line of duty, two uniformed officers shall be assigned to remain with the deceased from the time of visitation until the end of interment.
9. The Police Funeral Honor Guard will be staffed, in whole or in part, by members of the Special Operations Division, ranking officers, and other members of the deceased officer's unit depending upon the availability of staffing from that unit.
10. The Special Operations Division Commander shall be in overall command of the police funeral ceremony, funeral detail and the Honor Guard within the limitations, if any, imposed by the deceased member's closest relative(s).
11. The Special Operations Division shall coordinate the police funeral ceremonial burial procedure.
12. The police funeral ceremonial burial procedure shall be in accordance with U.S. Navy Regulations, Marine Corps Drills & Ceremonies Manual Chapter 19 titled Funerals or as modified by proper authority.
13. The Commanding Officer of the Traffic Section shall provide an appropriate motorcycle escort for the Funeral Detail.
14. For line of duty deaths, the **Class C - Dress Uniform** shall be worn by all commissioned members assigned as pallbearers and Honor Guard.
15. Where the deceased died of other causes and not in the line of duty, the class of uniform worn shall be at the discretion of the Commander of the Special Operations Division.
16. The Special Operations Division shall coordinate all departmental participation and police funeral procedures with the deceased's family or the person in charge of arrangements.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 55.4

### TITLE: LIMITED ENGLISH PROFICIENCY SERVICES

**EFFECTIVE: 12/18/16**

**REVISED: 11/1/20; 8/15/21**

---

#### PURPOSE

The New Orleans Police Department (NOPD) recognizes the importance of effective and accurate communication between its personnel and the community they serve. Language barriers can impede effective and accurate communication in a variety of ways. Language barriers sometimes can inhibit or even prohibit individuals with **limited English proficiency** (LEP) from accessing and/or understanding important rights, obligations, and services, or from communicating accurately and effectively in difficult situations. Hampered communication with LEP victims, witnesses, alleged perpetrators, and community members can present the NOPD with safety, evidentiary, and ethical challenges. Seeking to ensure maximum communication between law enforcement and all segments of the community serves the interests of both groups.

The purpose of this policy is to establish effective guidelines for Departmental personnel to follow when providing services to, or interacting with, individuals who are LEP.

#### POLICY STATEMENT

1. The New Orleans Police Department's will take prompt and reasonable steps to provide LEP individuals timely, meaningful access to services and benefits the Department provides in all sponsored programs or activities. All NOPD personnel shall provide free language assistance services, including oral interpreter services and translated communications, to LEP individuals whom they encounter or whenever an LEP individual needs or requests language assistance services. Department personnel who interact with LEP individuals will inform those individuals that language assistance services are available free of charge to LEP persons and that NOPD personnel will provide these services to them.
2. NOPD personnel are not permitted to tell any LEP individual that he or she must learn English to use police services or bring or provide their own interpreter. NOPD personnel are prohibited from using racially or culturally insensitive or hostile comments toward LEP persons.

## DEFINITIONS

**Bilingual**—A demonstrated competence and ability to speak in English and a second language including all necessary vocabulary, terms, and phrases.

**Electronic Interpretation Device**—A hands-free, mobile interpretation device that provides 24-hour access to interpreters able to communicate in 180 different languages.

**Exigent circumstance**—with respect to LEP situations means a compelling or true emergency in which prompt action is necessary to prevent injury to a person such that the usual procedure for obtaining the services of an interpreter or interpretation services cannot be followed, such as when a description of a perpetrator must be obtained from a victim.

**Interpretation**—The act of listening to a communication in one language (source language) and orally converting it to another language (target language) while retaining the same meaning.

**Limited English proficiency (LEP)**—Refers to a person who does not speak English as his/her primary language and has a limited ability to read, write, speak, or understand English. LEP individuals may be competent in certain types of communication (e.g., speaking or understanding), but still be LEP for other purposes (e.g., reading or writing). Similarly, LEP designations are context-specific: an individual may possess sufficient English language skills to function in one setting, but these skills may be insufficient in other situations.

**NOPD authorized interpreter (NOPDAI)**—A bilingual NOPD employee who has been assessed, tested, and demonstrated their competency in English and a second language using the terminology, phrases, vocabulary, and phrases needed. Once an interpreter establishes competence and receives training on ethical and professional conduct as an interpreter, the officer will be certified and NOPD may authorize him or her to interpret for others in certain situations, such as interviews, interrogations, or talking and responding to citizen complaints.

**NOPDAI list**—A list of New Orleans Police Department members who are bilingual and are authorized to perform interpreter services. The NOPDAI list shall be published on the Department's intranet and available to all members.

**Primary language**—An individual's native tongue or the language in which an individual most effectively communicates. Members of the Department should make every effort to ascertain an individual's primary spoken and written language to ensure effective communication.

**Translation**—The conversion of text from one language (source language) into an equivalent text in another language (target language) while retaining the same meaning.

**Vital materials or documents**—Materials identified by the Language Access Coordinator and routinely used by the NOPD for law enforcement business or investigative functions that are supplied to or used by members of the public. This includes Miranda Warnings, instructions on how to file a complaint, the Limited English Proficiency policy, Language Assistance Plan and policy, information forms provided to victims and witnesses and can include other information as well. (See **NOPD.org Resources folder – Vital Materials / Documents.**)

## LAC (LANGUAGE ACCESS) COORDINATOR

3. The Superintendent of Police shall appoint a member who has achieved the rank of lieutenant or higher as the Department's Language Access Coordinator, who shall be responsible for coordinating, implementing, and monitoring compliance with all aspects of the NOPD's services to LEP individuals with the assistance of the Performance Standards Section. This includes ensuring free language access services to all LEP individuals encountered

by members of the Department, consistent with this Chapter and the Department's Language Access Plan.

4. The Language Access Coordinator shall be responsible for having documents and communications translated and distributed to LEP communities. The Policy Standards Section will serve as the central repository of all translated documents and make them available to NOPD personnel and members of the public via NOPD's intranet website, [www.nopd.org](http://www.nopd.org). Vital documents and communications that must be translated into Spanish and Vietnamese include, but are not limited to:
  - (a) Consent to search forms.
  - (b) Witness and victim statement forms.
  - (c) Citation forms.
  - (d) Victim rights notification forms.
  - (e) Citizen complaint forms; and
  - (f) Notices advising LEP persons of free language assistance in connection with NOPD activities.
5. The Language Access Coordinator will be responsible for annually reviewing all new documents, forms, or communications issued by the NOPD to assess whether they should be considered vital materials requiring translation.
6. In cooperation with the Performance Standards Section, the Language Access Coordinator shall annually assess demographic data, review language access services utilization data, and consult with representatives of the LEP community and District commanders to ensure that the Department is providing the services and benefits the department provides in all NOPD-conducted programs or activities to LEP persons. The Language Access Coordinator shall use this review to determine whether vital documents or communications should be translated into additional languages and whether other related changes to the Department's LEP program are necessary.
7. The Language Access Coordinator shall prepare an annual report to the Superintendent of Police assessing the language assistance services they provide to LEP individuals, the effectiveness of those services, language assistance service complaints that have been received and the complaints' resolution, and any recommendations to improve language access policies and procedures.
8. Information to be tracked and analyzed for the report includes but is not limited to:
  - (a) The number of LEP individuals NOPD staff has encountered in person, by telephone, in written or electronic communications, and on the NOPD website.
  - (b) For each encounter in (a), the number of LEP persons that requested services and the number who were provided services.
  - (c) The primary spoken and written language of the LEP persons provided services.
  - (d) For each encounter described in (a), whether an in-person, remote, or other interpreter services was provided.
  - (e) Number of bilingual staff who have been evaluated for language proficiency including their level of proficiency.
  - (f) Use of document translators by number of documents or communications translated and non-English language.
9. The Language Access Coordinator shall be responsible for creating and maintaining the NOPDAI list that will include each interpreter's language(s) of proficiency, when language skills were assessed for each language, and if any complaints have been filed against them regarding their language skills. The Language Access Coordinator shall provide this listing to the executive director of the Orleans Parish

Communications District (OPCD) for the use of dispatchers. This list will also be available on the NOPD's intranet, and it shall be reviewed for accuracy every six (6) months with updates provided as appropriate.

10. The Language Access Coordinator shall assess the effectiveness and efficiency of the Department's Language Access Plan on an ongoing basis and shall report to the Superintendent or his/her designee regarding needed improvements and any accountability concerns. The Superintendent or his/her designee shall consider the information provided by the Language Access Coordinator and respond as necessary to ensure that NOPD's Language Assistance Plan is effective.
11. The Language Access Coordinator shall be responsible for collecting and tracking calls for service data about LEP contacts with NOPD. The Language Access Coordinator may collect these data through the review of OPCD CAD records on NOPDAI calls for service and/or independent telephonic and in-person interpreter services provide to NOPD members through OPCD protocol. The Language Access Coordinator shall prepare monthly reports to his/her respective Deputy Superintendent outlining LEP services coordinated through OPCD. The Language Access Coordinator shall incorporate this information into the annual report to the Superintendent of Police.

### **CRIMINAL INTERROGATIONS AND CRIME WITNESS INTERVIEWS**

12. Criminal interrogations and crime witness interviews potentially involve statements with evidentiary value upon which a witness may be impeached in court. As such, accuracy is a priority. Moreover, a failure to protect the rights of LEP individuals during arrests and interrogations presents risks to the integrity of the investigation. NOPD personnel must recognize that miscommunication during the interrogations or crime witness interviews may have a substantial impact on the evidence presented in any related criminal prosecution. An authorized interpreter shall be used for any interrogation or taking of a formal statement when the suspect's or witness's legal rights could be adversely impacted. When possible, consideration should be given to using an independent in-person interpretation service during an interrogation. Because of the dual role a NOPDAI may have when conducting interrogations and acting as an interpreter, all NOPDAI interrogations shall be video and/or audio recorded.

**NOTE:** *Miranda* warnings, and all other vital written materials, shall be provided to the suspect or witness in his or her primary language. In the case of a language for which forms have not been translated and in the case of illiteracy, forms will be read to the suspect or witness in his or her primary language using either an independent interpretation service or NOPDAI. When a form is read to the suspect or witness in his or her primary language, that oral communication will be recorded.

13. NOPDAIs shall identify themselves as members of the Department before conducting an interrogation.

### **ELECTRONIC INTERPRETATION DEVICE USE**

14. Officers are encouraged to use an approved interpretation service, such as an Electronic Interpretation Device when a NOPDAI who speaks an LEP individual's primary language is not available. Electronic Interpretation Devices are available at every District station and may be obtained by requesting one from a supervisor. Before responding to a call for serving involving a known LEP individual, an officer shall request an Electronic Interpretation Device if a NOPDAI is not available.
15. The Electronic Interpretation Devices (smartphone) shall be securely maintained at the District or Unit along with a logbook or sign-out sheet/log. The devices shall be transferred between supervisors at the beginning and the end of each shift and a

notation make in the logbook or sign-out sheet/log. When the device is needed by an officer, the officer shall request the use and the supervisor shall make the necessary logbook or sign-out sheet/log entry indicating the transfer.

16. If the device is used or the interpretation service is called, the requesting officer **MUST** complete an NOPDAI Form located on the NOPD Web Apps page under FORMS prior to the end of the item/event or call for service. Officers who have Departmentally issued (City property) smartphones may access the proprietary application by following the same procedure as with the Electronic Interpretation Device.
17. Any use not authorized by this Chapter or on a device or phone not owned by the City / NOPD, or the sharing of the access phone number or NOPD Account Number with anyone not a member of the NOPD shall be a violation punishable by disciplinary action and possible criminal charges.
18. In addition to training provided by the Training Academy, guidance on the use of Electronic Interpretation Device shall be provided regularly through training bulletins and instructional materials provided on the Department intranet.

### COMMUNICATIONS RESPONSIBILITIES

19. Orleans Parish Communications District personnel shall consult the NOPDAI list to determine if a Department authorized interpreter is available to respond to a request for interpretive services. If no NOPDAI is available, the OPCD shall follow established protocol to provide an appropriate service, such as the Electronic Interpretation Device, to assist with either telephonic interpretation services or on-scene response.

### OFFICER RESPONSIBILITIES

20. Officers and investigators in the field who need interpretation services will attempt to identify a LEP individual's primary language through the use of "I Speak" language identification flashcards (attached) and request a NOPDAI, the use of an Electronic Interpretation Device, or other LEP resource that may be available through the OPCD/NOPD dispatcher. OPCD/NOPD dispatchers should make every effort to dispatch a bilingual officer to the assignment, if available.
21. NOPD personnel shall **not** use minor children to provide interpretation services to LEP individuals unless there are exigent circumstance.
22. In domestic violence incidents, officers shall not use the alleged perpetrator (or victim), or their companions or associates, or material witnesses to provide interpretation in person or remotely.
23. Using family members and friends of LEP individuals or bystanders at the scene of an incident to assist in interpretation is generally prohibited because it may result in a breach of confidentiality, a conflict of interest, or inadequate interpretation. However, at an LEP individual's request, Department personnel may obtain **only** basic information from the LEP individual using family members, friends, or bystanders, and only in non- confrontational, non-emergency situations.
24. Departmental personnel will follow the general procedures outlined in this Chapter. However, some deviation may be required under exigent circumstances. In such situations, personnel shall use the most reliable, temporary interpreter available, such as bilingual NOPD personnel. Examples include the need to obtain descriptive information about a fleeing suspect, or the need to obtain information about an injured person. Once the exigency has passed, Departmental personnel shall resume the

general procedures in this Chapter.

25. If during the course of handling an assignment an officer or investigator is required to utilize either his/her bilingual skills, the services of a NOPDAI, an independent in-person interpreter, or a telephonic interpreter service, the letter designation, the officer or investigator shall enter "LEP" in the "Other" block under the 'ADM' section of the Electronic Police Report (EPR) or non-EPR generated incident report, along with the interpreter's name, arrival time, and departure time. And, unless an NOPDAI responds and completes an NOPDAI Form, the officer or investigator who used any such translation service shall complete an NOPDAI Form prior to the end of the item/event or call for service.
26. If during the course of handling an assignment an officer or investigator requires interpretive services but they are not available when requested, the officer shall complete the NOPDAI Form and under "Type of Service Provided", check "Other" and explain what service was requested and not available. If known, indicate why was service not available. This process shall be documented on the officers' BWC.

### **CONFLICTS OF INTEREST**

27. If an officer/investigator believes that an assigned interpreter has any perceived or actual conflict of interest with or bias toward a LEP individual, such as a personal relationship, or any other reason why the interpreter should be recused, the officer/investigator shall request a supervisor respond to the scene for assistance. If the supervisor determines that a conflict of interest exists, he or she shall document it in a written report of the incident.
28. Upon completion of an on-scene assessment, the supervisor shall determine if justification exists to warrant the response or replacement interpreter. If this should occur, the supervisor will forward a NOPD form 105 correspondence documenting the reasons for this decision via his/her chain of command to the Language Access Coordinator (LAC) for further review/action.

### **SUPERVISOR RESPONSIBILITIES**

29. A supervisor approving a non-EPR-generated incident reports carrying a "LEP" designation shall forward that report within 72 hours to the Language Access Coordinator. The Information System Section Commander shall submit a monthly listing of EPR reports with "LEP" designations to the Language Access Coordinator for review and tracking.

### **ENSURING COMMUNITY ACCESS AND INFORMATION**

30. At each NOPD building entry point or lobby open to public access, the Language Access Coordinator's designee shall post signage in the most commonly spoken languages stating that interpreters are available free of charge to LEP individuals. The Language Access Coordinator's designee also shall display a notification listing the available translated forms and documents in the lobby of NOPD Police Headquarters, the Public Integrity Bureau, and each District station. NOPD shall also maintain translated written forms and documents, including a copy of this policy, for the most common LEP populations residing within the New Orleans area. The Language Access Coordinator shall ensure that these documents and forms, along with the available languages, are posted on the [www.NOPD.org](http://www.NOPD.org) website and available to all personnel under the "Resources" tab in either the Spanish or Vietnamese forms folder. In the case of illiteracy or languages into which written materials have not been translated, such forms and documents will be read to LEP individuals in their primary languages using interpreter assistance procedures

previously described in this policy.

31. The Deputy Superintendent of the Management Services Bureau shall coordinate with the Language Access Coordinator for reproduction of LEP signage developed through the Policy Standards Section for display at NOPD Police Headquarters, the Public Integrity Bureau, and each District station.
32. The Language Access Coordinator shall ensure that, at a minimum, the placard and following vital documents are readily available at NOPD Headquarters (lobby); all Police District Stations (front desk); City Hall (front desk), Municipal/Traffic, Criminal and Civil District Courts (location at direction of Clerk of Courts); and all city libraries (checkout desk bulletin boards):
  - (a) How to file a complaint brochure (in English, Spanish, and Vietnamese).
  - (b) The PIB Complaint Form.
  - (c) The Language Assistance Plan and policy; and
  - (d) The LEP Policy.
33. The Language Access Coordinator shall develop a monthly schedule of inspections of all non-NOPD locations to ensure the placards, signage and materials listed in this Chapter are posted and available. Any depleted stocks of forms and signage shall be replaced. The schedule, facility location, inspection and noted deficiencies shall be kept in a log. Each logbook entry shall be maintained for three years after it is filed.
34. The maintenance of signage and materials at NOPD facilities shall be the responsibility of the Deputy Chief of MSB for Police Headquarters and the Commanders for each respective District of all police District Stations.
35. All contacts with LEP individuals at these facilities shall be recorded on a log sheet by the desk supervisor to be used in determining future assessment needs. The log sheets shall be forwarded by the desk supervisor on the first of every month to the Language Access Coordinator.
36. The Performance Standards Section shall conduct periodic checks to ensure signage is properly displayed and logs are correctly maintained at these locations consistent with policy requirements. The Performance Standards Section shall report any noted deficiencies to the Superintendent's Chief of Staff.

## **TRAINING**

37. The NOPD Academy will provide periodic training to all Department personnel on its Language Access Plan and LEP procedures, including how to access NOPD-authorized, telephonic, and independent in-person interpreters. The NOPD Academy shall conduct such training for new recruits, during annual police officer and supervisor in-service training, and on-line training for officers at least every two years. The Academy shall track participation in LEP-related in-service programs and provide this information to the Language Access Coordinator.

## **NOPD AUTHORIZED INTERPRETERS**

38. NOPD Authorized Interpreters (NOPDAIs) are available to provide written translation and oral interpretation services in Spanish and Vietnamese. A list of NOPDAIs can be found in the Resources folder on NOPD.org. Members requiring a translation or interpretation should contact an NOPDAI and should include the NOPDAIs supervisor in all communication. NOPDAIs are expected to perform requested duties during his/her regular working hours.
39. NOPDAIs shall complete the NOPDAI Form upon performing any translation or interpretation duties. Members must access the NOPDAI Form in the Online Forms

folder on NOPD.org. Use of this form will enable the Department to document the need for, and use of, services for populations with Limited English Proficiency.

40. NOPDAIs who fail to provide requested services, complete the NOPDAI Form, or complete required training and testing may face disciplinary action, including loss of their supplemental pay for providing interpretation services.
41. Members who encounter difficulties obtaining the services of an NOPDAI shall notify the Professional Standards and Accountability Bureau at PSAB@nola.gov.

### COMPETENCY OF INTERPRETERS

42. Civil Service will assess language skills of NOPD personnel identified as bilingual who are willing to act as NOPDAIs using a structured assessment procedure and/or other certified interpreter evaluation process.
43. Those NOPD personnel previously providing bilingual interpretation services to the Department prior to the effective date of this policy will be allowed conditional placement on the NOPDAI List pending final Civil Service assessment or successful completion of an approved certification process. All personnel conditionally placed on the NOPDAI List must successfully complete the required interpreter assessment/evaluation within one year. After successful completion of interpreter training and assessment, the Language Access Coordinator will place the individual on the NOPDAI List, subject to this policy.
44. To complete interpreter training successfully, an interpreter must demonstrate proficiency in and ability to communicate information accurately in both English and in the target language; have knowledge in both languages of any specialized terms or concepts peculiar to NOPD and of any particularized vocabulary and phraseology used by the LEP person; and understand and adhere to the interpreter role without deviating into other roles such as counselor or legal advisor.
45. Those persons who have been placed on the NOPDAI List must receive continuing training annually through Civil Service and/or a certified interpreter service provider or they shall be removed from the NOPDAI List. The Education, Training and Recruitment Division shall be responsible for coordinating the annual training of active NOPDAIs and will maintain a record of training that the interpreters have received. Authorized NOPDAIs shall be reassessed at least once every three years.

### TRANSLATION OF ADDITIONAL DOCUMENTS

46. If a Department member identifies a need to translate a specific NOPD form, document, or communication, he/she shall forward an NOPD Form 105 correspondence via chain of command to the Policy Standards Section explaining the reason for the translation request. The Policy Standards Section will review the request and confirm that no similar document or communication has already been translated. The request shall then be processed through the appropriate service provider. Once the request has been processed, the translated form, document, or communication will be catalogued by the Policy Standards Section for future use by NOPD staff and placed in the Resources / Vital Materials folder of **NOPD.org**.
47. If an investigator needs a note, letter, document, or other communication translated for investigative purposes, he/she shall forward an NOPD Form 105 correspondence via chain of command to Policy Standards Section, along with a clear **copy** of the original note, letter, or other communication to be translated. The request should indicate if the translation is needed immediately; otherwise, the request should specify the date required. For those materials determined to be sensitive in nature, the investigating officer shall be responsible for hand-delivering his/her authorization request through

the appropriate chain of command. In those investigations involving an arrest, the investigator is authorized to seek the assistance of the Orleans Parish District Attorney's Office for any translation services that the DA's Office may be able to provide.

### **PUBLIC INTEGRITY BUREAU RESPONSIBILITIES**

48. Any LEP individual who wishes to file a complaint with NOPD regarding language access, or the discharge of an officer's duties, shall be informed that translated Public Integrity Bureau (PIB) complaint forms are available in Spanish and Vietnamese, and those forms shall be provided. Complaints shall be accepted in other languages.
49. All PIB investigators shall utilize only independent in-person interpretation services when conducting any interviews of LEP complainants or witnesses.
50. PIB shall provide written notice of the disposition of any LEP complaint in the complainant's primary language.
51. The PIB shall independently track the process of receiving, responding to, and tracking citizen complaints and resolution of complaints filed by LEP individuals.

### **ELECTRONIC INTERPRETATION DEVICE ACCOUNT LIAISON**

52. The commander of the PSAB – Information Systems (IS) section shall designate a member to act as the Liaison for the electronic interpretation devices (hardware) and account (PIN) used by NOPD.
53. The Language Access Coordinator (LAC) and IS Liaison shall coordinate to develop basic familiarization training (video training format) for all members in the proper use of the devices and the service. This training shall be posted on the NOPD Applications page for members to view, regular Daily Training Bulletins (DTB) shall also be developed and presented when the devices first go into use and quarterly thereafter.
54. The LAC and IS Liaison shall work with the Education & Training Division to assist them in preparing basic and in-service training on the proper use of the devices and software for all new employees and as part of annual in-service.
55. Basic Fact and Use sheets are attached as links to this Chapter for the electronic interpretation devices and services in use by NOPD.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 55.5

### TITLE: DISABILITIES SERVICES

**EFFECTIVE: 06/25/2017**

**REVISED: Replaces Policy 370**

---

#### PURPOSE

The purpose of this Chapter is to prohibit discrimination against persons with disabilities and to provide guidelines for members to assist persons with disabilities who require police services.

#### POLICY STATEMENT

1. It is the policy of the New Orleans Police Department to comply fully with the Americans with Disabilities Act (ADA) and makes reasonable modifications of policies, practices and procedures to accommodate individuals with disabilities.
2. Persons with disabilities cannot be denied the benefits of services, programs, communications, or activities provided by the NOPD. Therefore, if a person with a disability requests a police service, NOPD will make arrangements for that person to participate or receive the service in a way that is accessible to him or her.
3. To ensure that persons with disabilities are not discriminated against, members shall be sensitive to the special needs of persons with disabilities. This may include noticing when persons appear to need assistance, asking if they need special assistance, and providing the required assistance to ensure that they have an equal opportunity to receive service that is equivalent to those provided to persons without disabilities.
4. For specific guidance on interacting with persons who are deaf or hard of hearing, please refer to **Chapter 55.5.1 - Communicating with Persons Who Are Deaf or Hard of Hearing**.
5. For specific guidance on interacting with individuals in crisis, please refer to **Chapter 41.25 - Crisis Intervention**.

#### DEFINITIONS:

Definitions relevant to this Chapter include:

**Developmental disability**—Severe chronic disabilities that can be cognitive or physical or both. The disabilities appear before the age of 22 and are likely to be lifelong. Some developmental disabilities are largely physical issues, such as cerebral palsy or epilepsy. Some individuals may have a condition that includes a physical and intellectual disability, for example Down syndrome or fetal alcohol syndrome. Refer to La. R.S. 28:451.2(12) for the state definition..

**Intellectual disability**—A disability characterized by significant limitations in both intellectual functioning and adaptive behavior that covers many everyday social and practical skills. Limitations in intellectual functioning involve the person’s difficulty processing information and making decisions. Limitations in adaptive behavior include problems communicating effectively and carrying out practical everyday living skills. Many people with intellectual disability are mildly affected, making the disability difficult to recognize. This disability generally originates before the age of 18.

**Person who is deaf**—A person who has a profound hearing loss and who may use sign language.

**Person who is hard of hearing**—A person who, because of an impairment, has a diminished or damaged sense of hearing and who may have difficulty understanding certain communications.

**Person with a disability**—As defined by the ADA, a person with a disability is a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such impairment, or a person who is regarded by others as having such an impairment.

## GENERAL PROVISIONS

6. When interacting with a person that may have a disability, members shall not make assumptions about the perceived disability. Persons with disabilities make up a diverse community, and they experience their disabilities in different ways. Any decision about how to offer assistance to a person with a disability must be based on facts about that person and not on a generalization about what persons with that type of disability can or cannot do.
7. Unless immediate circumstances require otherwise, before rendering any assistance to a person with a disability, members must ask the person with a disability what assistance he or she needs.
8. Subject to the requirements of **Chapter 55.5.1 - Communicating with Persons Who Are Deaf or Hard of Hearing**, when speaking to a person with a developmental or intellectual disability, members shall speak clearly and slowly to ensure effective communication.
9. Members should be aware that some people with developmental or intellectual disabilities may have characteristics, such as slurred speech or a staggering gait, which can be mistakenly perceived as intoxication.

## PROVISIONS FOR SPECIFIC (VISUAL, MOBILITY) IMPAIRMENTS

10. In some situations, oral communication supplemented by gestures and visual aids or an exchange of written notes are some examples of methods that may be effective means of communicating with people with disabilities. Members may also use the Communications Cards (**Appendix A**) to help communicate when necessary.
11. Persons with visual impairments may request information in large print. When it is reasonable under the circumstances, such as when the request is made in a District station or police facility, members shall use a copier to enlarge a document or print the document using a larger font. If using a computer, members may use an increased font

size to enlarge the computer typeface or image.

12. Individuals with visual impairment may request that documents be read aloud. Upon request, members shall read aloud the information written on a Department form, notice, or other document provided to the person. When such individuals provide officers with substantive responses to forms or investigatory inquiries, officers shall accurately transcribe the responses onto the forms or in investigatory notes. Before asking such individuals to sign a completed form, officers shall read aloud the transcribed statements to ensure accuracy.
13. Members shall read aloud any documents that require the person's signature.
14. Members should be aware that some persons with disabilities may use a mobility device, such as a wheelchair, scooter, crutches, walker, or braces. When transporting a person with a mobility disability is necessary, members shall follow normal transportation practices when it is safe to transport the person with his or her mobility device. Members shall use caution not to damage the mobility device. When it is not possible to safely transport the person and the mobility device, members shall use a Department van or lift-equipped vehicle. Members shall ask the person with a disability what type of transportation he or she can use, and how to best assist him or her in transferring into and out of the vehicle. (For persons in custody, see **Chapter 71.1 – Prisoner Transportation and Guarding.**)

#### **SPECIAL COMMUNICATION NEEDS**

15. Persons with intellectual or developmental disabilities may have special communication needs, such as limited reading and comprehension skills or limited verbal skills. Members shall follow this Chapter's guidelines and offer appropriate assistance, such as completing a form, giving clear instructions, and providing information in a step-by-step format.

#### **MEETINGS OPEN TO THE PUBLIC**

16. Members who schedule or hold meetings open to the public shall ensure that the meetings are held in locations that are accessible to persons with physical and communication disabilities. All notices for meetings open to the public shall include statements that accommodations for persons with disabilities shall be made upon request.

#### **COMMUNITY OUTREACH**

17. Community outreach programs and activities offered by this Department shall include physical and communications accessibility. As such, this Department will continue to work with community groups, local businesses, and neighborhoods to provide equal access to such programs and services to individuals and groups with disabilities.

#### **TRAINING**

18. To ensure that the Department properly trains all members who have contact with the public or with those in police custody, this Department will provide periodic training on:
  - (a) The Department's obligation to provide services under the Americans with Disability Act, and any recent or relevant case law applicable to police services and agencies;
  - (b) This Chapter and related policies, procedures, forms, and available resources; and
  - (c) Working effectively with in-person and telephone interpreters and related equipment.

**APPENDIX A: COMMUNICATIONS CARDS**

Members may use the following pages as visual aids to assist communication with persons with disabilities.

The best way to communicate with me is:

# VIOLATIONS

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 55.5.1

### TITLE: COMMUNICATIONS WITH PERSONS WHO ARE DEAF OR HARD OF HEARING

**EFFECTIVE: 06/25/2017**

**REVISED: 12/19/21**

---

#### PURPOSE

The purpose of this Chapter is to provide guidelines for interactions with persons who are deaf, hard of hearing, or have a hearing impairment and may encounter difficulties in gaining meaningful access to, or an understanding of, important rights, obligations and services.

#### POLICY STATEMENT

1. Members shall respect and treat all individuals equally regardless of their ability to hear. Individuals who are deaf or hard of hearing are entitled to a level of service equivalent to that provided to other persons.
2. Effective communication with persons who are deaf or hard of hearing and involved in an incident requiring a police response—whether as a victim, witness, suspect, or arrestee—is essential to ascertain the type of incident, the level of urgency, and relevant facts.
3. The New Orleans Police Department has specific legal obligations under the Americans with Disabilities Act to communicate effectively with people who are deaf or hard of hearing. To carry out these obligations, members shall adhere to the guidelines of this Chapter.
4. The NOPD will ensure that appropriate auxiliary aids, including qualified interpreters, are made available to all members of the public who are deaf or hard of hearing so that they may participate in or benefit from NOPD's law enforcement and related services, programs, or activities on an equal basis with others.

#### DEFINITIONS

**Auxiliary aids**—Services or devices that enable persons who are deaf or hard of hearing to have an equal opportunity to understand and/or communicate effectively. These include, but are not limited to, the use of gestures or visual aids to supplement oral communication; the use of a notepad and pen or pencil to exchange written notes; the use of a computer or typewriter; the use of an assistive listening device or system; the use of a video phone or video remote interpreting service; or the use of a qualified interpreter.

**Exigent circumstances**—A compelling urgency or true emergency that an officer can specifically describe not using vague terms or boilerplate language. Circumstances that cause a reasonable person to believe that prompt action is necessary to prevent injury to themselves or others.

**Intermediary interpreter/transliterater**--A person, including one who is hard of hearing, who is able to assist in providing an accurate interpretation between spoken English and sign language or between variants of sign language by acting as an intermediary between a person who is hard of hearing and a qualified interpreter/transliterater.

**Qualified interpreter/transliterater**—A qualified sign language or oral interpreter is one who is able to interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. Accordingly, an interpreter must be able to sign to the deaf individual (or interpret orally to the person who does not use sign language) what is being said by the hearing person and to voice to the hearing person what is being signed or said by the individual who is deaf. The interpreter must be able to interpret in the language the individual who is deaf uses (e.g., American Sign Language or Signed English) and must be familiar with law enforcement terms and phrases. Although a “qualified” interpreter may be certified, a certified interpreter is not necessarily “qualified.” A person certified by the Registry of Interpreters for the Deaf or, in the event a certified interpreter/transliterater is not available, a person able to accurately communicate with and convey information to and from a person who is hard of hearing (see <http://www.lrid.org/#> for additional information).

**Person who is deaf**—A person who has a profound hearing loss and who may use sign language.

**Person who is hard of hearing**—A person who, because of an impairment, has a diminished or damaged sense of hearing and who may have difficulty understanding certain communications.

**Transliterater**—A person who can transcribe or represent letters or words in the corresponding characters of another alphabet.

**TTY (Text Telephone/Teletype Terminal/Teletypewriter)**—A telecommunications device for persons who are deaf or hard of hearing that allows them to use the telephone to communicate through typed text messages. A TTY is required at both ends of the conversation. It can be used with both land lines and cellular phones. Unlike text messaging, it is designed for synchronous conversation, like a text version of a phone call.

**Video phone**—A device that assists persons who are deaf or hard of hearing who use sign language to communicate with each other or with hearing persons through a sign language interpreter.

**Video remote interpreting service**—A service that provides communication between persons who are deaf or hard of hearing and hearing persons that are in the same location, using an interpreter through a computer with a webcam and Internet connection.

## **PERSONS WHO ARE DEAF OR HARD OF HEARING-GENERAL PROVISIONS**

5. Recognizing that various law enforcement encounters may be potentially volatile and/or emotionally charged, members should be alert to the potential for miscommunication with persons who are deaf or hard of hearing. Members should exercise special care in the use of all gestures and verbal and written communication to minimize initial confusion or misunderstanding when dealing with any person who has a known or

suspected communication impairment.

6. The type of auxiliary aid that may be required for effective communication with a person who is deaf or hard of hearing will depend on the length, complexity and context of the communication. Because the nature of any law enforcement contact may vary substantially from one situation to the next, members of this Department shall consider all information reasonably available to them when determining how to communicate with a person who is deaf or hard of hearing. These factors may include, but are not limited to:
  - (a) The extent to which a hearing impairment is obvious or otherwise made known to the involved member. People who are deaf or hard of hearing may be reluctant to acknowledge an impairment and may even feign a complete understanding of a communication, despite actual confusion;
  - (b) The nature of the impairment (e.g., total deafness or hard of hearing);
  - (c) The person's usual method of communication;
  - (d) The nature of the contact (emergency vs. non-emergency, custodial v. consensual);
  - (e) The nature, importance, and duration of the communication required; and
  - (f) The availability of auxiliary aids.
7. To communicate with all persons effectively, as soon as practicable in the interaction, Members will give primary consideration to the type of auxiliary aid or service requested by the individual who is deaf or hard of hearing. Members may use the communication card(s) in **Appendix A** to ascertain an individual's preferred method of communication and provide that aid when it is appropriate under the circumstances.
8. NOPD shall not charge persons who are deaf or hard of hearing for the cost of an auxiliary aid needed for effective communication.
9. Members shall not require a person who is deaf or hard of hearing to supply his or her own auxiliary aid.

#### **PROVIDING ASSISTANCE THROUGH AUXILIARY AIDS**

10. In many situations, oral communication supplemented by gestures and visual aids or an exchange of written notes will be an effective means of communicating with people who are deaf or hard of hearing. In other situations, a device or interpreter may be necessary. The more lengthy, complex, and important the communication, the more likely it is that an interpreter will be required. For example:
  - (a) If a person who is deaf or hard of hearing is asking for directions to a location, gestures or an exchange of handwritten notes may be an effective means of conveying this information communication.
  - (b) If a member is conducting witness interviews as a result of a criminal incident, a sign language interpreter may be required to communicate effectively with someone whose primary means of communication is sign language. An oral interpreter may be necessary to communicate with someone who can read lips.
11. Officers should document the type of communication utilized in any related report and whether a person who is deaf or hard of hearing elected to use services provided by the Department or some other identified source. Department-provided services may include, but are not limited to, the following auxiliary aids:

##### **(a) FIELD RESOURCES**

Individual officers and members are encouraged to utilize resources immediately

available to them in any contact with a person who is deaf or hard of hearing. Examples of this would include such simple methods as:

- i. Hand gestures or written communications exchanged between the member and a person who is deaf or hard of hearing;
- ii. Using visual aids, such as the communication card(s) in the attached appendix;
- iii. Facing an individual who uses lip reading and speaking slowly and clearly; and
- iv. Slowly and clearly speaking or reading simple terms.

#### (b) INTERPRETIVE SERVICES

The Executive Director of the Orleans Parish Communications District will maintain a list of qualified interpreters and services to be contacted at Department expense with the approval of an NOPD supervisor, to assist persons who are deaf or hard of hearing, which approval will be granted unless it poses an undue burden on NOPD. When utilized, notification to such interpreters shall be made at the earliest reasonable opportunity. Members shall not unreasonably prolong any detention of a deaf or hard of hearing person if an interpreter is not available to respond within a reasonable time. The Deaf Action Center has a list of individuals who are trained and will respond to callouts if needed. For emergency interpreting assistance, officers should call the Deaf Action Center at (504) 615-7122 or (504) 432-5794, once they have received supervisory approval.

#### (c) TTY AND RELAY SERVICES

Individuals who are deaf or hard of hearing must be given the opportunity to use text telephones (TTY or TDD), telecommunications relay services (TRS) or video relay services (VRS). All calls placed by such individuals through such services are accepted by the Orleans Parish Communications District, which is responsible for the 911 system for Orleans Parish. Once officers have responded to a call for service relayed through 911 and determined that an interpreter for an individual who is deaf or hard of hearing may be needed, they shall immediately contact his/her supervisor. Once the supervisor has approved the use of the Deaf Action Center services, its main number (504-615-4944) will be contacted and the Deaf Action Center will attempt to contact the nearest available interpreter to assist.

#### (d) OTHER DEVICES AND SERVICES

Members may also make use of other available, Department-authorized devices and services, such as assistive listening devices, video phones, or video remote interpretive services. Use of these other devices and services also requires NOPD supervisory approval.

12. The Department discourages the use of volunteer interpreters to assist communications with people who are deaf or hard of hearing. Volunteers, such as family members or friends of people who are deaf or hard of hearing, may be used to assist communications **only** under exigent circumstances when other auxiliary aids are unavailable or ineffective. The involved Members must consider the nature of the contact and relationship between the volunteer and the person who is deaf or hard of hearing and be mindful of the potential for conflicts of interest, particularly in domestic violence situations.

### **CUSTODIAL INTERROGATIONS, ARRESTS AND BOOKING**

13. To ensure that the rights of all persons who are deaf or hard of hearing are protected during arrest and custodial interrogation, the Department shall provide necessary

communication assistance during such situations. Miscommunication during custodial interrogations may have a substantial impact on the evidence presented in any related criminal prosecution. As such, personnel providing communication assistance in these situations must use auxiliary aids to accurately and effectively communicate with persons who are deaf or hard of hearing.

14. Whenever a person who is deaf or hard of hearing is arrested, the arresting officers shall procure a qualified interpreter/transliterater for any interrogation, warning, and notification of rights or taking of a statement ( see La. R.S. 46:2364 (E); La. R.S). 46:2366. The use of an interpreter/transliterater shall be noted in all written reports that document the interrogation.
15. Individuals who require communication aids (e.g., hearing aids) shall be permitted to retain such devices while in custody.
16. Whenever a person who is deaf or hard of hearing is detained or arrested and placed in handcuffs, officers should consider, safety permitting, placing the handcuffs in front of the body to allow the individual to sign or write notes (see **Chapter 1.3.1.1 – Handcuffing and Restraint Devices**).

### **COMMUNITY OUTREACH**

17. Community outreach programs and other such services offered by this Department have become increasingly recognized as important to the ultimate success of more traditional law enforcement duties. As such, this Department will continue to work with community groups, local businesses, and neighborhoods to provide equal access to such programs and services to individuals and groups with disabilities.

### **TRAINING**

18. To ensure that all members who have contact with the public or with those in custody are properly trained, this Department will provide periodic training on:
  - (a) The Department's obligation to provide services under the Americans with Disability Act, and any recent or relevant case law;
  - (b) Member awareness of related policies, procedures, forms, and available resources;
  - (c) Working effectively with in-person and telephone interpreters and related equipment; and
  - (d) Awareness and understanding of the importance of this Chapter to ensure its implementation.

**APPENDIX A: COMMUNICATIONS CARDS**

Members may use the following pages as visual aids to assist communication with persons who are deaf or hard of hearing.

The best way to communicate with me is:

# VIOLATIONS

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 55.5.2

### TITLE: SERVICE ANIMALS

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 382**

---

#### PURPOSE

This Chapter provides guidelines for officers to use when dealing with calls for service or complaints involving service animals.

#### POLICY

1. It is the policy of this department to provide services and access to persons with service animals in the same manner as those without service animals.
2. Service animals play an important role in helping to overcome the limitations often faced by people with disabilities. The New Orleans Police Department is committed to the support of Title II of the Americans with Disabilities Act of 1990 (ADA) to permit the use of service animals that are individually trained to assist a person with a disability.

#### DEFINITIONS:

**Service Animal**—A dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual or other mental disability. The work or tasks performed by a service animal must be directly related to the owner's disability (28 CFR 35.104). Service animal includes a miniature horse if individually trained to do work or perform tasks for people with disabilities provided the animal is housebroken, is under the owner's control, the facility can accommodate the animal's type, size and weight, and the animal's presence will not compromise legitimate safety requirements necessary for safe operation of the facility (28 CFR 35.136(i)).

**Guide Dog or Service Dog**—Any dog specifically trained to assist a person with a physical disability or handicap (e.g., dogs used for guiding, hearing, mobility, medical alerts) (R.S. § 21:51).

#### USE OF SERVICE ANIMALS

3. Some service animals may be readily identifiable. However, many do not have a distinctive symbol, harness or collar. Service animals are not pets and may be trained by an individual or organization to assist people with disabilities.

4. Service animals may be used in a number of ways to provide assistance, including:
  - (a) Guiding people who are blind or have low vision.
  - (b) Alerting people who are deaf or hard of hearing.
  - (c) Retrieving or picking up items, opening doors or flipping switches for people who have limited use of their hands, arms or legs.
  - (d) Pulling wheelchairs.
  - (e) Providing physical support and assisting with stability and balance
  - (f) Doing work or performing tasks for persons with traumatic brain injury, intellectual disabilities or psychiatric disabilities, such as reminding a person with depression to take medication.
  - (g) Alerting a person with anxiety to the onset of panic attacks, providing tactile stimulation to calm a person with post-traumatic stress disorder, assisting people with schizophrenia to distinguish between hallucinations and reality, and helping people with traumatic brain injury to locate misplaced items or follow daily routines.

### **MEMBER RESPONSIBILITIES**

5. Service animals that are assisting individuals with disabilities are permitted in all public facilities and areas where the general public is allowed. Department members are expected to treat individuals with service animals with the same courtesy and respect that the New Orleans Police Department affords to all members of the public (28 CFR 35.136).

### **REMOVAL OF SERVICE ANIMAL**

6. If an animal is not housebroken or exhibits vicious behavior, poses a direct threat to the health of others or unreasonably disrupts or interferes with normal business operations, an officer may direct the owner to remove the animal from the premises. Barking alone is not a threat nor does a direct threat exist if the person takes prompt, effective action to control the service animal (28 CFR 35.136(b)).
7. Each incident must be considered individually, and past incidents alone are not cause for excluding a service animal. Removal of a service animal may not be used as a reason to refuse service to an individual with disabilities. Members of this department are expected to provide all services as are reasonably available to an individual with a disability with or without a service animal.

### **SERVICE ANIMAL QUALIFICATIONS**

8. If it is apparent or if a member is aware the animal is a service animal, the owner should not be asked any questions as to the status of the animal. If it is unclear whether an animal meets the definition of a service animal, the member should ask the individual only the following questions (28 CFR 35.136(f)):
  - (a) Is the animal required because of a disability?
  - (b) What task or service has the service animal been trained to perform?
9. If the individual explains that the animal is required because of a disability and has been trained to work or perform at least one task, the animal meets the definition of a service animal, and no further questions as to the animal's status should be asked. The person should not be questioned about his/her disabilities, nor should the person be asked to provide any license, certification or identification card for the service animal.

**SERVICE ANIMAL CONTACT**

10. Service animals are not pets. Department members should not interfere with the important work performed by a service animal by talking to, petting or otherwise initiating contact with a service animal.
11. When handling calls of a complaint regarding a service animal, members of this department should remain neutral and should be prepared to explain the ADA requirements concerning service animals to the concerned parties. Businesses are required to allow service animals to accompany their owner into all areas that other customers or members of the public are allowed (28 CFR 36.302).
12. Absent a violation of law independent of the ADA, officers should take no enforcement action beyond keeping the peace. Individuals who believe they have been discriminated against as a result of a disability should be referred to the Civil Rights Division of the U.S. Department of Justice.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.1.9

### TITLE: SPEED-MEASURING DEVICES

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 515**

---

#### PURPOSE

This Chapter provides guidelines for use, training, maintenance, and equipment specifications for speed measuring devices approved for use by department members.

#### POLICY

1. Only department owned speed-measuring devices will be used by officers of the New Orleans Police Department.
2. Prior to a district officer engaging in a speeding checkpoint, he/she shall obtain permission from their platoon supervisor.
3. The Across-The-Road Radar, Down-The-Road Radar, and Lidar minimum performance specifications are published by the National Highway Traffic Safety Administration. These performance specifications are intended to ensure that the devices are accurate and reliable when properly operated and maintained.

#### DEFINITIONS

**LIDAR (Light Detection And Ranging)**—A laser speed-measuring device and system that transmit coherent infra-red light pulses, measure the time of flight for the pulses reflected from moving vehicles, then calculate and display or output the speed of the target vehicle, and may automatically record images of those vehicles which exceed a preset speed. Also, down-the-road speed-measuring equipment that determines target range and speed based on the time-of-flight of laser light pulses reflected off a target.

**RADAR (Radio Detection And Ranging)**—Police traffic radar. It is a Doppler radar unit that may be hand-held, vehicle-mounted or static. It measures the speed of the moving vehicles at which it is pointed by detecting a change in frequency of the returned radar signal caused by the Doppler Effect, whereby the frequency of the returned signal is increased in proportion to the vehicle's speed of approach if the object is approaching, and lowered if the vehicle is receding. Such devices are used for speed limit enforcement.

**ADMINISTRATIVE CONTROL AND CERTIFICATION**

4. Each District and the SOD—Traffic Section shall provide administrative control and ensure certification of each vehicle speed-measuring device as follows:
  - (a) Establish and maintain a separate file for each speed-measuring device.
  - (b) Ensure that each device is engraved or marked with an appropriate control number.
  - (c) Ensure that on a semi-annual basis each device and tuning fork is certified by its vendor or other qualified technician as being properly calibrated.
  - (d) Proof of certification shall be maintained in the respective file of each device.
  - (e) Ensure that all speed measuring devices are repaired on a regular and timely basis.
  - (f) Ensure proper storage of all speed-measuring devices when not issued to an officer or in active use.
5. Certification as an operator of the speed-measurement device requires that an officer must attend a training program administered by a qualified instructor. The program shall be designated and approved by the Commander of the SOD – Traffic Section.
6. The SOD—Traffic Section shall maintain records of all officers certified to operate an approved speed measuring device.
7. A copy of the certification and/or training record shall be forwarded to the Education and Training Division to be included in the officer's training / certification file.
8. Certification and required re-certification of an operator of a specific speed-measuring device shall be maintained in accordance with legal requirements and industry / manufacturer standards.
9. The officer's supervisor will ensure that a copy of all certifications and re-certifications shall be placed in the officer's personnel jacket with another copy forwarded to the Personnel Division.

**OFFICER RESPONSIBILITIES**

10. Officers shall properly store all speed-measuring devices when not in active use.
11. Officers will checkout a speed-measurement device from their respective District or the SOD – Traffic Section.
12. Upon approval by his/her supervisor to check out a speed-measuring device, the officer shall complete the Device Control Log maintained by the respective District or the SOD – Traffic Section.
13. Instrument tests for calibration on speed-measurement devices are to be performed at the beginning and end of the duty shift in which the device is operated. These tests are part of the setup and tear down process. Appropriate tests include:
  - (a) **Internal Circuit Test:** The internal circuit test is performed by pressing a button and checking the speed display to verify that the number 32 appears. In all cases, the internal test is passed only if the proper number appears exactly. If any other number appears, the radar unit should be taken out of service.
  - (b) **Light Segment Test:** The light segment test is performed by pressing a button and checking the speed display to verify that 188 (target display) and 88 (patrol display) appear. If a burned out segment is discovered, the radar unit should be taken out of service.

- (c) **External Tuning Fork Test:** The radar tuning fork is specially calibrated for use with the radar device and cannot be interchanged between devices. The speed measurement cannot differ from the certified value of the tuning fork by more than 1 mph (+/-). If the deviation persists, the radar unit should be taken out of service.
  - (d) **Patrol Speed Verification Test:** The patrol speed verification test applies to moving radar units. The purpose of this check is to establish that the moving radar unit is properly displaying the actual patrol car speed. The operator accelerates to a steady speed (25mph to 55 mph) and compares the radar's patrol speed readout with the patrol car's calibrated speedometer. The speeds must correspond. If there is any deviation, the radar unit should be taken out of service.
  - (e) Power up the laser unit to check the internal setting and the light segments.
  - (f) The laser has to be checked out at a distance of fifty and one hundred feet.
  - (g) The laser sight alignment test for the unit has to be tested for accuracy, both vertical and horizontal.
14. Immediately after use of a speed-measuring device to make an excessive speed case, the officer shall perform appropriate tests on the device being used.
15. All tests shall be documented in a log book that shall be kept for each speed-measuring device. These log books shall be maintained by the respective District or the SOD – Traffic Section.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.1.11

### TITLE: D.W.I. PROCEDURES

**EFFECTIVE: 07/14/2019**

**REVISED: 11/01/20**

---

#### PURPOSE

This Chapter explains the procedures to be followed for the processing of individuals arrested for, and collecting evidence to establish, the crime of operating a vehicle while intoxicated.

#### POLICY STATEMENT

1. The New Orleans Police Department enforces DWI and impaired driving laws, including enforcement of zero tolerance laws. However, where the level of blood alcohol or symptoms of intoxication / impairment clearly indicate a high risk to the safety and health of the driver, or where the person has been injured, the medical care of the driver takes priority over the enforcement of the law.
2. **La. R.S. 14:98, La. R.S. 14: 98.1 and Municipal ordinance Section 154-381 are enforceable on both public highways and private property.**
3. The breath test is the primary/default method of chemical testing for intoxication. A urine sample is requested when a subject is suspected of being impaired from something other than alcohol, or when he or she is incapable of providing a breath sample (hospitalized or medical condition). Where impairment is suspected in a traffic fatality, suspected serious injury accident, or where the subject's medical condition precludes the breath or urine test, the blood test shall be used after obtaining a search warrant.

#### DEFINITIONS

**SFST**—Acronym for Standardized Field Sobriety Test. A battery of three tests administered to a person by a law enforcement officer and evaluated in a standardized manner so as to obtain validated indicators of impairment and assist in establishing probable cause for arrest. The three currently accepted tests are: Horizontal Gaze Nystagmus (HGN); Walk-and-Turn (WAT), and; One-Leg Stand (OLS). The SFST testing battery may only be used by officers trained and certified in their administration.

**Implied consent law**—If a person is lawfully arrested by an officer who has probable cause to believe that they have been operating a vehicle while intoxicated, then the driver impliedly **consents** to taking a chemical test of their blood, breath or urine for the purpose of determining

blood alcohol content (BAC) and/or the presence of any abused substance or controlled dangerous substance. (R.S. 32:661-669). Due to this implied consent, failure to submit to the test will result in consequences under state law.

**Suspected serious injury** - any injury other than fatal which results in any of the following:

- (a) Severe laceration resulting in exposure of underlying tissues, muscle, or organs, or resulting in a significant loss of blood.
- (b) Broken or distorted extremity.
- (c) Crush injuries.
- (d) Suspected skull, chest, or abdominal injury other than bruises or minor lacerations.
- (e) Significant burns.
- (f) Unconsciousness when taken from the crash scene.
- (g) Paralysis.

(See: Fourth Edition of the Model Minimum Uniform Crash Criteria Guideline.)

## ENFORCEMENT OF DWI

4. An officer who has reasonable suspicion that a driver has violated the DWI laws of the state or City shall stop the vehicle in accordance with **Chapter 1.2.4.1 – Stops** and **Chapter 1.2.4.3 – Vehicle Stops**.
5. Any officer may make a warrantless arrest of a person that the officer has probable cause to believe has violated the DWI laws of this state or City, whether or not the officer observed the violation firsthand
6. Reasonable suspicion to stop a driver, or probable cause to arrest a driver, must be established based on the officer's observation of a violation(s) of traffic laws, and/or driving behaviors which are not violations but recognized as indicative of impaired driving.
7. While any officer has authority to stop and/or arrest a driver where they establish the required reasonable suspicion and/or probable cause, only an officer certified and trained in the Standardized Field Sobriety Test (SFST) and suspecting a driver of impairment shall use the SFST in his/her investigation of a person suspected of DWI. If the investigating officer who has detained a person for suspicion of DWI is not certified and trained in the SFST, he/she shall immediately contact a Traffic Section officer who is certified to perform the test. Investigating officers shall transfer enforcement actions to the officer that has a primary traffic or DWI enforcement assignment. Only officers certified by the State of Louisiana in SFST and the Breathalyzer testing apparatus may complete the required testing and forms for DWI.
8. The Traffic Section Commander shall ensure that a Traffic Section officer, certified to conduct DWI testing, is available twenty-four hours a day.
9. If a certified Traffic Section DWI testing officer cannot be contacted via police radio communications by the detaining/investigating officer, the detaining/investigating officer shall notify his/her supervisor. The supervisor shall contact Communications Services and request the on-duty or on-call Traffic Section officer be notified.
10. Injured person(s) arrested for DWI or driving while impaired shall be immediately transported to a medical facility for treatment.
11. All persons arrested for DWI or driving while impaired who have not been hospitalized shall be transported to the Special Operations Division - Traffic Section Office (1899 Tchoupitoulas Street) for processing. The Special Operations Division - Traffic Section facility shall be the primary facility used to conduct the breath test.

12. The detaining and/or investigating officer(s) shall ensure their BWCs and ICC, if available, are activated before the stop and throughout the entire SFST testing process, advisements, and, if the subject is arrested, through transport until the subject is delivered to Central Lockup for booking.

#### FIELD TESTS FOR DETECTION OF IMPAIRMENT

13. An officer certified and trained by the Louisiana Department of Public Safety and Corrections in the Standardized Field Sobriety Test (SFST) and suspecting a driver of impairment shall use the SFST in his/her investigation of a person suspected of DWI unless the medical or physical condition of the suspect prohibits it.

#### RELEASE OF DETAINED DRIVERS WITH INSUFFICIENT PROBABLE CAUSE

14. In instances where officers who have detained a person for DWI lack sufficient probable cause to arrest for the offense but still believe the person should not drive, precautions should still be taken to protect the public while respecting the person's rights. Officers should request, though not require, that the person contact an alternate means of transportation. If the person complies with the officer's request, the officer should advise the driver of reasonable options for moving his or her car to a safe location. Since no charges will be placed nor will an incident report be required, officers should document the reasons for the contact and ultimate release of such individuals in an FIC (i.e. a person who is emotionally upset to a degree that it has affected his/her concentration and ability to drive safely).

#### USE OF "UPON NOTICE" IN LIEU OF BOOKING

15. All persons suspected of DWI shall be physically arrested when probable cause exists. An **Upon Notice** can be issued in lieu of a physical arrest under limited circumstances (i.e. a physical or medical condition which prohibits immediate booking) by checking the appropriate box on the arrest citation form. **An officer shall not issue an Upon Notice without first obtaining permission from a Traffic Supervisor.** If permission is obtained to issue an Upon Notice the reason for the issuance and the Traffic Section Supervisor's name shall be included in the narrative of the report.

#### DWI TESTING ROOM VIDEO AND AUDIO RECORDINGS

16. When utilizing the Special Operations Traffic Division DWI testing facility, Traffic Section officers shall adhere to the following provisions:
  - (a) Upon arrival, officers shall ensure, including visually checking that the camera is functioning properly, the mobile closed circuit camera located in the testing room is turned on by pressing the "Record" button, and remains activated for recording purposes throughout the entire process while the suspect is undergoing all phases of testing. **The camera shall not be de-activated until the suspect exits the building.** The camera is equipped with a 30 second delay prior to activating and deactivating the system.
  - (b) If it is necessary to conduct a field sobriety test at the DWI testing facility, two officers must be present before the handcuffs may be removed from the arrested subject. Once the field sobriety test is completed, the officers shall reapply the handcuffs to the arrested subject pursuant to the guidelines of **Chapter 1.3.1.1 – Handcuffing and Restraint Devices**. Absent extenuating circumstances, subjects shall be handcuffed when not detained inside the holding cell.
  - (c) Officers shall not leave prisoners unattended in the DWI testing facility.
  - (d) The Traffic Section officer shall maintain constant personal supervision and control of any arrested subject secured in the DWI testing facility.

- (e) Throughout the duration of the testing, the involved officer(s) shall ensure their BWCs are activated.
- (f) Video surveillance of the DWI testing area does not constitute constant personal supervision and control.

#### **AUTHORITY TO CONDUCT A CHEMICAL TEST – IMPLIED CONSENT**

17. A person arrested for DWI or driving while impaired is deemed to have consented to a chemical test or tests under any of the following circumstances (R.S. § 32:661(A)):
  - (a) The arresting officer has probable cause to believe the person was driving or in physical control of a motor vehicle while believed to be under the influence of alcoholic beverages or any controlled substance.
  - (b) The person was arrested for an offense committed while the person was driving or in physical control of a motor vehicle while believed to be under the influence of alcoholic beverages or any controlled substance.
  - (c) An officer has stopped a person under the age of 21 and has probable cause to believe the person was operating or in physical control of a motor vehicle after having consumed alcoholic beverages.
  - (d) The person is a victim of a traffic fatality.
18. Individuals under the age of 21 are deemed to have consented to providing a chemical sample when an officer has stopped or arrested the individual and has probable cause to believe that he/she was operating a motor vehicle while intoxicated (R.S. § 32:661(A)(1)).
19. A person who is dead, unconscious or otherwise incapable of refusal shall be deemed not to have withdrawn consent.
20. If a person deemed to consent under state law withdraws that consent and refuses to submit to the chemical test, they shall be informed of the consequences under state law. If the person has refused to submit to such test on two previous and separate occasions, refusing to submit may be a crime.
21. After all requirements are met relating to advisement of rights, if the person arrested for DWI or driving while impaired and is involved in a crash that resulted in suspected serious injury or near death still refuses to submit to chemical testing, the arresting officer shall notify a SOD – Traffic Section supervisor who will determine if the particulars of the case warrant applying for a Search Warrant mandating the subject provide a blood sample. If the officer believes, and the supervisor concurs that a blood sample is not warranted, the reasons for this decision and the name of the concurring supervisor shall be documented in the investigative report.
22. Officers should inform an arrestee that after submitting to the chemical test selected by the officer, if he/she chooses, he or she may have a qualified person of his/her choice administer a chemical test or tests in addition to the test chosen by the officer. The cost of any such test is at the expense of the tested person. After being advised of this right, he or she shall be given the opportunity to telephone and request a qualified person to administer such test.
23. Upon request, the individual or his or her attorney should be given copies of their test results.

#### **OFFICER RESPONSIBILITY - CHEMICAL TESTING**

24. Officers requesting a person arrested for DWI or driving while impaired to submit to a chemical test shall:

- (a) Read the **Rights relating to the Chemical Test for Intoxication** from the Department of Public Safety and Corrections (DPSC) standardized form (R.S. § 32:661(C) (1)):
  - (b) After reading the form, request that the person sign the form. If the person is unable or unwilling to sign, the officer shall certify that the person was advised of the information contained in the form and that the person was unable or refused to sign (R.S. § 32:661(C) (2)).
  - (c) Forward a report to the Department of Transportation and Development (R.S. § 32:666(B)):
    - i. Certifying that there were reasonable grounds to believe the person was operating a motor vehicle while under the influence of alcohol or controlled substances.
    - ii. Certifying that the person was informed of his/her rights in accordance with state law.
    - iii. Provides complete information regarding the chemical test that is available at the time the certified report is completed.
25. After being advised of his/her rights, the person will be given the opportunity to telephone and request a qualified person of his/her own choosing to administer a secondary chemical test in a reasonable amount of time after submitting to the department chemical test (R.S. § 32:664(B)). The person shall be responsible for any costs associated with the secondary test. Officers are prohibited from offering or suggesting any person or company to provide the additional test.
26. Any subject whose BAC test shows a reading of **0.30 or higher** shall be immediately taken to a medical facility and screened for possible alcohol poisoning or related complications.

#### **OFFICER RESPONSIBILITY – REFUSAL TO SUBMIT TO TESTING**

27. When a person is required to provide a chemical sample but refuses, officers should (see: R.S.32:666(A) (2)):
- (a) Advise the person of the consequences of the refusal.
  - (b) Audio record the **Rights relating to the Chemical Test for Intoxication** and response given. (BWC and L3)
  - (c) Seize the person's driver's license.
  - (d) Document the refusal in a certified report to be forwarded to the Department of Transportation and Development that:
    - i. There were reasonable grounds to believe the person was operating a motor vehicle while under the influence of alcohol or controlled substances.
    - ii. The person was informed of his/her rights in accordance with state law.
    - iii. Provides complete information regarding the chemical test that is available at the time the certified report is completed.
28. The law does not require an officer to reconsider an initial refusal to submit to testing. However, if the subject has refused to provide a breath or urine sample, and prior to transport to lockup for booking, the subject reconsiders, the officer shall allow him/her one additional opportunity to provide the requested sample. If the subject has been taken to a medical facility for a blood draw, and initially refuses, the subject may reconsider until he or she has left the medical facility.

#### **CHEMICAL TESTS FOR INTOXICATION**

29. Certified Traffic Section officers may obtain a chemical test(s) sample, including a breath

test, a blood test, or a urine test, in a manner consistent with the procedures set forth by State law from any person arrested for DWI or driving while impaired.

30. The breath test is the primary/default method of chemical testing for intoxication. A urine sample is requested when a subject is suspected of being impaired from something other than alcohol, or when he or she is incapable of providing a breath sample (hospitalized or medical condition). Where impairment is suspected in a traffic fatality, suspected serious injury accident, or where the subject's medical condition precludes the breath or urine test, the blood test shall be used after obtaining a search warrant.

### TESTING EQUIPMENT, CERTIFICATIONS AND RESTRICTIONS - TRAFFIC SECTION

31. The Traffic Section Commander will ensure all devices approved and regulated by the State of Louisiana for the collection and analysis of breath samples are properly serviced and tested, and applicable records of such are maintained by the Traffic Section.
32. Only officers certified by the Louisiana Department of Public Safety and Corrections/Office of State Police are authorized to operate an approved breath testing machine.
33. The Special Operations Division - DWI Testing Room shall be equipped with a Digital Video Audio Recording system. The system shall be used to record all encounters with an arrested subject entering the testing room.

### DWI BLOOD SAMPLES

34. A blood specimen may be requested by the Traffic Section investigating officer when the person arrested for DWI or driving while impaired was involved in a crash resulting in suspected serious bodily injury, and/or death. If the person refuses to submit to the test, the officer must obtain a Search Warrant prior to having a blood specimen taken.
35. Blood/urine collection kits approved by the Louisiana Department of Public Safety for the purpose of determining blood alcohol content are the only kits authorized by the New Orleans Police Department. The kits are maintained by the Traffic Section / DWI Unit.
36. If the person arrested for DWI has been transported to a medical facility for medical evaluation, the detaining/investigating officer shall relocate to the medical facility with the subject to ensure the subject is not released by medical personnel.
37. Blood specimens may only be collected by medical personnel in a medical facility. (R.S. 32:666(A)). The Traffic Section investigating officer shall notify medical personnel that the subject is under investigation for DWI and a blood sample is needed. The Search Warrant must be obtained **prior to the blood being drawn** by medical personnel if the suspect in custody for the DWI refuses to submit to the blood test (See: **Chapter 1.2.4 – Search and Seizure**). The officer should be prepared to show the signed search warrant to requesting medical personnel.
38. Only persons authorized by law may withdraw a blood sample (R.S. § 32:664(A)). The withdrawal of the blood sample shall be witnessed by the assigned officer. Persons authorized to draw blood include:
- (a) Physician;
  - (b) Physician's assistant;
  - (c) Registered nurse;
  - (d) Practical nurse;

- (e) Emergency medical technician;
  - (f) Chemist;
  - (g) Nurse practitioner; or
  - (h) Other qualified technician (i.e. phlebotomist).
39. NOPD officers, even if properly certified, **shall not** conduct the blood withdrawal.
40. Unless medical personnel object, any time an officer obtains a blood sample from a person, two samples should be drawn and retained as evidence so long as only one puncture is required.
41. Officers shall inform an arrestee that if he/she chooses to provide a blood sample, a separate sample can be drawn for them to be retained as evidence, which they can have independently tested at their own expense.
42. The Traffic Section investigating officer shall be responsible for transporting the blood and/or urine sample to the Central Evidence and Property Section where the proper forms, including a crime lab examination request form, shall be completed. Traffic Section personnel shall retrieve the blood and/or urine sample kits and a copy of the evidence receipt from Central Evidence & Property and transport it to the Louisiana State Police Crime Lab within seven days of sample collection.
43. Upon receiving the blood analysis results from the LSP testing facility, the Traffic Section investigating officer is responsible for completing a supplemental crash report documenting the results.
44. If a person arrested for DWI cannot submit to a blood test for medical reasons (for example, because he/she is a hemophiliac or is using an anticoagulant), he/she shall not be required to take a blood test. **The inability to take a blood test shall not be considered a refusal.** The person arrested for DWI or driving while impaired may be required to complete a remaining available test.
45. The Orleans Parish Coroner's Office shall conduct a chemical test of the blood of any traffic fatality victim (R.S. 32:661). The Traffic Section - Fatality Unit is responsible for documenting the post-mortem test results in the traffic fatality investigation.

## URINE SAMPLES

46. Traffic Section officers trained in SFST and authorized by a Traffic Section supervisor to collect urine shall do so in a manner to protect the person arrested for DWI or driving while impaired's privacy. Officers shall follow the same guidelines for protecting the suspect's privacy as outlined for strip searches (See: **Chapter 1.2.4 – Search and Seizure**). The officer(s) shall be of the same gender identity as the subject being tested. Urine shall be collected using an approved Louisiana Department of Public Safety blood/urine collection kit. The collection kits are maintained by the DWI Unit.

## CRASHES

47. Officers investigating a person arrested for DWI or driving while impaired shall obtain a chemical sample if the person was involved in a crash that resulted in a fatality or suspected serious physical injury.
48. A person who is dead, unconscious or otherwise in a condition rendering him/her incapable of refusal is deemed **not to have withdrawn consent** as a matter of State Law

(R.S. § 661(B)).

49. Whenever a district unit requests a DWI officer for a suspect involved in a motor vehicle crash (no injury), the district unit shall be responsible for transporting the suspect to The OPSO Central Lock Up once all testing and paperwork is completed. The DWI officer may relocate the suspect from the accident scene to the testing facility when feasible at his/her discretion and duty permitting.

### **SEIZURE OF OPERATOR'S LICENSE**

50. An officer arresting a person for driving while intoxicated where the arrested person (R.S. § 32:667):
- (a) Refuses a chemical test or whose test indicates a blood alcohol level at or above 0.08 percent or above or, if the person is under the age of twenty-one years, a blood alcohol level at or above 0.02 percent the officer shall:
    - i. Seize the arrestee's driver's license, issue a receipt to the driver, and issue a temporary license as approved by the Department of Public Safety and Corrections. If an arrested subject is not in possession of his/her license a temporary license shall not be issued regardless of the state of issuance. Out of state driver's licenses are confiscated and forwarded to the Louisiana Office of Motor Vehicles, and a temporary license is issued.
    - ii. Provide notice to the arrestee that within fifteen days of the arrest they may make a written request to the Department of Public Safety and Corrections for an administrative hearing.
  - (b) Submits to an approved chemical test for intoxication, but the results of the test are not immediately available, the officer shall:
    - i. Seize the arrestee's driver's license and issue a temporary receipt of license as approved by the Department of Public Safety and Corrections. If an arrested subject is not in possession of his/her license a temporary license shall not be issued regardless of the state of issuance. Out of state driver's licenses are confiscated and forwarded to the Office of Motor Vehicles, and a temporary license is issued...
    - ii. Provide notice to the arrestee that within fifteen days of the arrest they may make a written request to the Department of Public Safety and Corrections for an administrative hearing.
    - iii. After thirty days from the date of arrest if test results have not been received or immediately upon learning if the blood alcohol level was not at or above 0.08 percent or above or, if the person is under the age of twenty-one years, and the blood alcohol level was not at or above 0.02 percent, the license shall be returned to the driver by the Louisiana Office of Motor Vehicles.

### **ARRESTED PERSON'S VEHICLE**

51. The vehicle driven by a person arrested for driving while intoxicated shall be released as follows (R.S. § 32:667(4)):
- (a) If operable, to a passenger who is not under the influence of alcohol and has a valid driver's license. The officer shall not order or procure towing of the vehicle.
  - (b) if not a hazard, or an obstruction to traffic and motorists, and if there is no passenger who is not under the influence of alcohol and has a valid driver's license, the officer shall allow the arrestee a reasonable time and opportunity to contact another person to take possession or control of the vehicle before ordering or procuring towing of the vehicle.
  - (c) If the vehicle can be properly, legally parked and secured, it can be left on the scene with the owner/driver's permission. This permission should be documented

in the FIC, BWC or other arrest related reports.

- (d) If release of the vehicle is not possible, Communication Services shall be contacted by the officer and the vehicle shall be towed according to the towing allocation list maintained by Communications Services.

### **ARREST BOOKING PAPERWORK**

- 52. The forms listed below shall be delivered to Central Lock Up with the arrested subject:
  - (a) Rights Relating to Chemical Test for Intoxication, court copy;
  - (b) Copy of traffic arrest location information;
  - (c) Photocopy of the Louisiana Uniform Field Sobriety Test;
  - (d) Photocopy of the Intoxilyzer Operational Check List;
  - (e) Photocopy of Intoxilyzer Test printout result;
  - (f) Photocopy of the Uniform Arrest Report; and
  - (g) The arrest affidavit.

### **DWI ARREST CASE PROCESSING AND SCREENING**

- 53. The Traffic Section shall forward all records related to the arrest of a person for DWI to the appropriate prosecutor (Orleans parish District Attorney or Traffic Court City Attorney). This will include the following:
  - (a) The main case report
  - (b) All recordings and photographs in a format accessible to the prosecutor
  - (c) Accident reports, if applicable
  - (d) Related DPSC documents
  - (e) Booking screening form
  - (f) Vehicle impound documents, if applicable
  - (g) The Communications Center log or record

### **SOBRIETY CHECKPOINTS**

- 54. See **Chapter 61.15.1 – Vehicle Checkpoints** for conducting sobriety checkpoints. Those detailed at checkpoints for suspected violations of the DWI laws shall be processed in accordance with this Chapter.

### **TRAINING**

- 55. The Traffic Section commander shall ensure that appropriate training, as required by the State of Louisiana, is provided for officers participating in enforcement of DWI laws. The training records and certifications shall be forwarded to the Education & Training Division by the member receiving training for inclusion in the member's training record.
- 56. The Traffic Section commander should relate any training issues as they become apparent, such as information from the designated prosecutor's office that is relevant to improving the department's investigations. The information shall be provided to the Education & Training Division and, if appropriate, disseminated throughout the Department in an information bulletin.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.2

### TITLE: PARKING CITATIONS

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 517**

---

#### PURPOSE

The purpose of this Chapter is to establish guidelines for issuing parking citations, the proper procedure for voiding parking citations containing errors, and the forwarding of parking citations to the Ticket Processing Unit.

#### POLICY STATEMENT

1. Parking citations shall be completed, in their entirety, using a black or blue ballpoint pen. The issuing officer shall use sufficient pressure to ensure all copies of the citation are clearly legible.

#### PROCEDURE FOR VOIDING PARKING CITATIONS

2. Parking Citations containing errors, omissions, or write-overs shall be returned by the Ticket Processing Unit to the issuing unit for correction and/or voiding.
3. When required, parking citations shall be voided by the issuing officer in the following manner:
  - (a) Neatly print the word **ERROR/VOID** across the face of the citation.
  - (b) Complete the next citation (consecutive number, or as close as possible) ensuring the error is corrected.
  - (c) Complete the **Request to Void Parking Citation (Form 40)**.
  - (d) Attach the voided citation and a photocopy of the corrected citation to the **Request to Void Parking Citation (Form 40)**.
  - (e) Forward the **Request to Void Parking Citation (Form 40)** to the Ticket Processing Unit within three days of issuance.

#### TICKET PROCESSING UNIT

4. Divisions, Units and Sections serviced by the ticket processor shall have the citations and receipts (Form 130) completed in accordance with a schedule established by the ticket processor.
5. Divisions, Units and Sections not serviced by the ticket processor shall forward the citations and receipts to the Ticket Processing Unit on a daily basis.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.3

### TITLE: TRAFFIC CITATIONS

**EFFECTIVE: 10/29/2017**

**REVISED: 11/01/20**

---

#### PURPOSE

This Chapter outlines the responsibility for traffic citations, the collection of data, and the procedure for dismissal, correction and voiding of traffic citations

#### POLICY STATEMENT

1. NOPD officers shall be fair, impartial, and courteous during traffic violation stops and take the necessary action, including de-escalation, in a professional and positive manner.
2. Officers citing a person for a traffic violation **shall check** the violator through all available databases for warrants or bulletins and take appropriate action if an arrest warrant was issued and found to be current and verified through the NOPD N.C.I.C. Unit.
3. As important as the enforcement of traffic regulations is to the safety of individual drivers and the community, officers shall exercise good judgement and sound discretion when evaluating all circumstances involved in determining the best action to take that does not unnecessarily embarrass, demean, cause collateral harm to all parties involved, or present a public safety risk.
4. In the enforcement of traffic regulations, an arrest is not required for traffic violations if the person or operator lawfully possesses a valid driver's license. (See also: La. R.S. 32-411 and Sec. 154-136).

#### CITATION BOOKS AND CITATION COPIES - RESPONSIBILITIES

5. The SOD—Traffic Section commander shall be responsible for collecting all department traffic citations, including electronic tickets, in accordance with state law (R.S. 32:398.1).
6. The MSB—Facilities Support – Supply Unit shall be responsible for the supply and accounting of all traffic citations books issued to units of this department. Citations will be kept in a secure location. Unit representatives shall sign for the citation books when issued (R.S. 32:398.1(B)).
7. Members shall return to his/her Unit supervisor a copy of all citations that have been (R.S. 32:398.2(D)):

- (a) Issued to an alleged violator of a traffic law or ordinance.
  - (b) Spoiled or on which any entry has been made but not issued to an alleged violator.
8. Upon separation from service with this department, all members who were issued traffic citation books shall return any unused citations to his/her Unit supervisor (R.S. 32:398.2(C)).
9. The Unit supervisor shall return the unused or used traffic citation books turned in to him/her by members to the MSB – Facilities Support – Supply Unit and obtain receipt for them.

### VOIDING TRAFFIC CITATIONS

10. Employees of this department do not have the authority to cancel or dismiss a citation once it has been issued (R.S. 32:398.3(A)). Only the court or prosecuting attorney has the authority to dismiss a citation that has been issued (R.S. 32:398.2(F)).
11. Voiding an incomplete traffic citation may occur when a traffic citation has:
- (a) Not been completed; or
  - (b) Where it is completed but not issued.
12. Any request from the issuing employee to void/alter/accept with error or duplicate an issued citation requires completion and submission of a **Form 40 - Request to Void Parking / Moving Citation**.
13. All copies of the voided citation shall be presented to a supervisor to approve the voiding of the citation. The citation and copies shall then be forwarded to the SOD - Traffic Section (R.S. 32:398.2(D)).
14. Employees shall only dispose of or destroy a traffic citation, or copies thereof, or of the record of the issuance of the citation, in a manner specified in this Chapter and consistent with state law (R.S. 32:398.2(C)).
15. All recipients of traffic citations whose request for voiding has been denied shall be referred to the appropriate court for adjudication of the citation.

### CORRECTION OF TRAFFIC CITATIONS

16. When a traffic citation is issued and in need of correction, the employee issuing the citation shall submit the citation and a Form 40 requesting a specific correction to his/her immediate supervisor. The citation and Form 40 shall then be forwarded to the Traffic Court.
17. Three alternatives are possible on the Form 40:
- (a) **Voiding Citations**—Citations can be voided for serious errors. Examples are the violator signed the citation in the wrong location, an incorrect ordinance number was written, or the location of the violation is incorrect.
  - (b) **Reissuing Citations**—A citation shall be reissued if the issuing officer misplaces the citation.
  - (c) **Citations Processed As Is**—Citations shall be processed "as is" for minor errors on the citation. Examples would be transposed numbers in the arrest credit or officer's unit number.

**DISPOSITION OF TRAFFIC CITATIONS**

18. The court and file copies of all traffic citations issued by members of this department shall be:
- (a) Forwarded to the employee's immediate supervisor for review; and
  - (b) After review, then to the Traffic Section, which will deposit the citation with the court having jurisdiction over the alleged offense or with the appropriate traffic violations bureau.

**GENERAL**

19. Traffic citations issued by members of this department are processed by traffic court as follows:
- (a) The violator pleads not guilty and receives a court date.
  - (b) The violator opts to either:
    - i. Report to the Violations Bureau;
    - ii. Mail a payment; or
    - iii. Go on the CNO Website and pays a fine.
  - (c) The violator is ordered to appear in court with a stepped up trial date.
  - (d) The violator is physically arrested for the offense and the affidavit is processed by the Sherriff at the booking facility.
20. A member of the Department may, when appropriate or directed by a supervisor, use his/her discretion and issue a verbal warning to a driver observed violating a traffic law provided:
- (a) The violation is not serious in nature;
  - (b) The violation is not part of a crash investigation;
  - (c) The driver and vehicle do not pose an immediate danger to the public; and
  - (d) The officer believes a warning sufficient to correct the observed violation.
21. The traffic citation form has three copies.
- (a) The original is white.
  - (b) The second copy is a blue non-perforated copy and remains in the ticket book as the officer's copy.
  - (c) The third copy is a hard white copy, given to the violator.
22. An officer can write remarks about the traffic stop on the back of the white copy, below the judge's signature line.
23. The issuing officer can write up to four observed violations on one traffic affidavit. Each violation listed counts as a citation issued.

**TRAFFIC LAWS**

24. Laws governing drivers and equipment on public roads are generally contained in the Municipal Code and Louisiana Revised Statutes (Chapter 32). Some state criminal statutes also apply to motor vehicle incidents whether they occur on water, public roads or on private property. Examples include:
- (a) R.S. 14:32.1 - Vehicular Homicide;
  - (b) R.S. 14:39.1 - Vehicular Negligent Injuring;
  - (c) R.S. 14:98 (et seq) - Operating a Vehicle While Intoxicated;
  - (d) R.S. 14:99 - Reckless Operation of a Vehicle; and
  - (e) R.S. 14:100 - Hit-and-Run Driving.
25. Operators charged with the below violations (State or Municipal equivalent) shall be

arrested and processed in accordance with La. R.S. 32:57 (Penalties, Alternatives to Citation) and La. R.S. 32:411 (Deposit of License in Lieu of Security Upon Arrest):

- (a) All Title 14 traffic-related offenses; i.e., R.S. 14:98 (DWI), R.S. 14:99 (Reckless Operation), R.S. 14:100 (Hit and Run Driving); or
  - (b) Driving with a suspended, revoked, or canceled operator's license.
26. Agreements with Traffic Court, the City Attorney's Office and the Office of the Orleans Parish District Attorney have defined when certain violations must be charged under Revised Statute Title 32 rather than Municipal charges. Appendix A – Enumerated State Traffic Charges lists the correct charge that officers shall use for the enumerated offenses.

### TRAFFIC ARREST CASES

27. Officers shall print "ARRESTED" in the area of the affidavit form (printed or electronic) for the court appearance date/time if the suspect was arrested and booked. No date or time shall be set.

### TRAFFIC CITATION (SUMMONS) CASES

28. Citation (summons and release) cases shall be set **ten (10) days** from the date of issuance, excluding Saturdays, Sundays, and holidays. Officers shall refer to the "**Traffic and Municipal Court Schedule**" for the current year in the Resource folder of NOPD.org for all court holidays. If the calculated date is on a date the court is "closed," it shall be set for the next available court date.
29. Officers shall calculate the appearance date and write or type "**REPORT ON OR BEFORE MM/DD/YYYY.**"

### CONFISCATION AND NON-CONFISCATION OF DRIVER'S LICENSE

30. An officer confiscating a violator's driver's license in lieu of posting a bond shall sign the citation in the appropriate blank and give the cited individual a temporary operator's license. A violator's license will be confiscated when he/she is cited for:
- (a) Driving while intoxicated (See **Chapter 61.5 - DWI Procedure**); or
  - (b) Failing to maintain compulsory security insurance. (See **Chapter 61.20 – Compulsory Motor Vehicle Liability Security**).
31. For all other violations, the operator can sign the citation as a guarantee he/she will appear in court in lieu of physical arrest. The operator maintains possession of his/her license. An officer shall not issue a temporary operator's license if the violator is accused of not having a valid operator's license, or operating a motor vehicle with a suspended or revoked license.
32. When issuing a citation for violations which do not result in the confiscation of the violator's license, the officer shall amend the traffic citation as follows:
- (a) The words "TEMPORARY OPERATOR'S LICENSE" shall be lined through;
  - (b) The words "VOLUNTARILY SURRENDERED MY DRIVERS LICENSE" shall be lined through and replaced with the words "SIGNED THIS CITATION"; and
  - (c) A violator refusing to sign the citation shall be arrested.

### PHYSICAL DRIVER'S LICENSE / DIGITIZED DRIVER'S LICENSE

33. An operator must have his/her physical driver's license or a digitized driver's license in his/her immediate possession at all times while operating a motor vehicle and shall

display it upon demand of any police officer. (See La. R.S. 32-411).

34. The only official Louisiana Digital Driver's License is available through the "LA Wallet Application." An image of a driver's license not through this application does not meet the requirements of the law.
35. Officers shall avoid taking physical possession of the mobile device displaying the digital driver's license for verification purposes. The display of a digital driver's license shall not serve as consent or authorization to view or access any other data or application on the mobile device.

### JUVENILE VIOLATORS

36. Juvenile violators will be notified of the date and time of their court appearance by a representative of Juvenile Court. The block "**to be notified**" shall be checked off on the citation. This procedure will also apply if there is a physical arrest. (See also: **Chapter 44.2 – Juveniles**).

### COMPACT AND NON-COMPACT STATES

37. Drivers from Compact and Non-Compact States are issued citations in the same manner as Louisiana drivers as outlined in this Chapter.

### IMMUNITY

38. Members of the Louisiana State Legislature and the Louisiana delegation to the United States Congress are immune from prosecution/arrest for traffic offenses while en route to or from legislative or congressional activities.
39. Certain foreign nationals are normally immune from criminal prosecution provided proper identification credentials issued by the State Department are presented to the investigating officer. See **Chapter 1.12 – Diplomatic Agents and Consul Officers**.

### MILITARY PERSONNEL

40. Active duty U.S. military personnel are not required to have a current operator's license if he/she can present a current, valid military identification card. Officers shall process active duty members of the military in accordance with this Chapter.

### OFFICER'S RESPONSIBILITIES

41. Officers shall make every effort, utilizing available police databases, to confirm the violator's operator's license is valid, and not revoked, suspended, or canceled.
42. Individuals operating a motor vehicle with an **expired operator's license** shall be issued a citation(s) with a trial date set for 10 (ten) calendar days. (See Sec. 154-304 – Unlawful Use of License).
43. If the **license is not in his/her possession**, the officer shall issue a citation to the violator for violation of RS 32:411 (F), No License in Immediate Possession.
44. If the violator was **not issued a valid operator's license**, the officer shall:
  - (a) Cite the violator and
  - (b) Issue a citation with an appearance date set **ten (10) days** from the date of issuance, excluding Saturdays, Sundays, and holidays. (Officers shall refer to the

**“Traffic and Municipal Court Schedule** “for the current year in the Resource folder of NOPD.org for all court holidays. If the calculated date is on a date the court is “closed”, it shall be set for the next available court date.

45. When issuing a traffic citation, officers shall advise a traffic violator of the following:
- (a) The court arraignment date located at the bottom of the citation.
  - (b) That he/she must appear at the Traffic Court Violations Bureau to:
    - Pay the fine, or
    - Enter a plea of not guilty and receive a trial date on or before the arraignment date set by the issuing officer.
    - If the offense requires a mandatory arraignment or
    - If the citation can be paid by mail or online (i.e., 154:383 Careless Operation; 154:534 in excess of 20 mph in a school zone).
  - (c) The Traffic Court Violations Bureau telephone number located on the back of the violators copy.
  - (d) That questions on court procedures can be answered by a court representative or going to the website printed on the rear of the citation.
46. In instances where a mandatory court appearance must be made by the violator, the officer will take the operator's license and issue a temporary license at the bottom of the citation. The operator's license of the violator will be attached to the citation prior to submission to a supervisor. (See Municipal Ordinance Sec. 154-136).

### COMPLETING THE CITATION

47. The citation shall be completed using black or blue ink with a ball point pen.
48. Sufficient pressure should be applied to print on all carbon copies.
49. All entries must be legible.
50. Citations containing errors, omissions, or write-overs shall be returned by the Ticket Processing Unit to the issuing unit for correction and/or voiding.
51. The issuing officer shall complete all citations if more than one citation is used. The issuing officer shall enter his/her first and last name. Officers who are witnesses shall be listed on the rear of the court copy.
52. All blanks on a traffic citation shall be filled in.
53. The below standard abbreviations for race shall be used on all traffic citations:
- (a) W - White
  - (b) B - Black
  - (c) H - Hispanic
  - (d) A - Asian/Pacific Islander
  - (e) I - American Indian/Alaskan Native
  - (f) U - Unknown
54. Officers shall print the words "**none required**" in the "Operator's License Number" section of the form if the violator is a passenger or if the observed violation does not require the violator to have an operator's license.
55. Officers shall enter item numbers in the appropriate location on the citation, if one was assigned.
56. Officers shall ask the violator if he/she is in possession of a citation previously issued to

- him/her and if an appearance date was issued in Orleans Parish. If so, the officer shall:
- (a) Record the previous ticket number in the appropriate location on the new citation; and
  - (b) Use the same court appearance date for the new citation.

#### **CITATION PROCESSING PROCEDURE**

57. Officers shall present traffic citations for processing at the end of their tour of duty.
58. The issuing officer's supervisor shall:
  - (a) Check the citation for correctness;
  - (b) Administer an oath; and
  - (c) Instruct the issuing officer to sign and date the citation above the printed entry "**Signature of Officer Administering Oath.**"
59. Bureaus/Divisions/Sections/Units serviced by the ticket processor shall have the citations and receipts (**Form 130**) completed in accordance with a schedule established by the ticket processor.
60. Bureaus/Divisions/Sections/Units not serviced by the ticket processor shall forward the citations and receipts to the Commander of the SOD – Traffic Section – Ticket Processing Unit on a daily basis.
61. Form 130 shall be completed as follows:
  - (a) Each classification of offense shall have a separate receipt;
  - (b) Adult moving citation receipts shall be listed on a receipt separate from juvenile moving citation receipts, etc.;
  - (c) Only one category of the four separate classifications for traffic violations will be checked off per page; and
  - (d) All entries on the top of the form shall be printed, with the completing officer supplying his/her badge number.
62. Officers shall issue a new citation to replace a citation that is returned because of an omission, legibility, or other correction.
63. A citation shall not be edited once the violator received the summons portion of the affidavit.

#### **IMPAIRED AND INCOMPENTENT DRIVERS**

64. Officers who suspect the condition of an operator of a motor vehicle might prevent him/her from exercising reasonable and ordinary care while operating a motor vehicle shall complete **DPSMV 3005 (R 8/95) "Report of Driver Condition or Behavior"** and transport the driver to a safe location.
65. The officer can also contact a concerned party to provide transportation and make arrangements to pick up the vehicle.
66. The vehicle shall be impounded if there are no other reasonable alternatives.

**NOTE: THIS SECTION DOES NOT APPLY TO DRIVERS SUSPECTED OF DRIVING UNDER THE INFLUENCE OF ALCOHOL OR DRUGS. (See: Chapter 61.5 – DWI).**

67. The issuing officer's Commander or his/her designee shall forward the completed DPSMV 3005 report to the MSB - Records Section.

68. The MSB - Records Section is responsible for forwarding the forms to the Louisiana Department of Public Safety and Corrections - Office of Motor Vehicles.

### **CONSULTING WITH THE CITY ATTORNEY**

69. If an officer consults with the City Attorney, the officer shall:
- (a) Obtain permission from his/her supervisor after a review of the reason for the consult request.
  - (b) See the clerk in one of the sections of Traffic Court.
  - (c) Complete the affidavit in the presence of the City Attorney if advised by the City Attorney to do so.
  - (d) Present the citation to the City Attorney for signature.
  - (e) Present the completed and signed affidavit to the section clerk of traffic court for processing.

**Note: Officers shall not use this procedure in lieu of reissuing citations because they have to be returned for errors and/or corrections.**

### **CITATIONS ISSUED FOR INSURANCE VIOLATIONS OR NO LICENSE PLATE**

70. Officers shall include the entire VIN number in the space provided so the Judge/Court can confirm the vehicle is properly insured.
71. The violation for no proof of insurance shall be written in the violation section. Example: R.S. 32:863.1 - No Proof of Insurance, VIN #654321 (indicating last six numbers of the vehicle being operated without insurance).
72. The citing officer will enter the entire Vehicle Identification Number on the citation, after the vehicle has been checked for warrants/stolen and the driver cannot provide a license plate for the vehicle. Example: 154-307 No license place, VIN #123BN567BA123456.
73. An officer who verifies through NOPD N.C.I.C. Unit a person is wanted by Orleans Parish Municipal or Traffic Court shall follow the policy guidelines contained in **Chapter 41.9 - Failure to Appear**.

### **E-CITATION PROCESS**

74. Officers who have access to the digiTICKET or eCitation application found on the NOPD Web Applications page and have been trained in the use of the application, may utilize this process for the issuance of traffic citations.
75. Officers who have conducted a criminal history / warrant check on the driver being cited and who have found warrants for failure to appear in Traffic or Municipal Court shall include those charges (FTA) on the eCitation. Up to six charges, including failure to appear warrants, may be documented on one eCitation form. (See: **Chapter 74.3.1 – Failure to Appear**).
76. Officers completing eCitations shall contact his/her supervisor upon completion on the primary radio talk group for the District or unit and advise the supervisor of the issuance.
77. Once notified by an officer that an eCitation has been issued by a subordinate officer, the supervisor shall access the program through the NOPD Web Application to review and approve the citation.

78. Once approved by a supervisor, the eCitation is automatically forwarded to the Court for processing.

**APPENDIX A – Enumerated State Traffic Charges**

Operators found in violation of the following offenses shall be cited using Title 32 - Motor Vehicles and Traffic Regulation of the Louisiana Highway Regulatory Act.

<b>Violation</b>	<b>State Reference</b>
Unlawful use of a Driver's License	R.S. 32:414.1
License Plates Displayed	R.S. 32:53(A)
Brake Tag	R.S. 32:53(D)
Careless Operation, Reasonable Vigilance	R.S. 32:58
Driver' License Not on Person	R.S. 411.1
Disregard Red Light	R.S. 32:232
General Speeding	R.S. 32:63
Following Too Close	R.S. 32:81
Improper Turns	R.S. 32:101
Improper Lane Use	R.S. 32:79
Yield Right of Way	R.S. 32:121
Lamps & Other Lighting Equipment	Varies [R.S. 32:301A et seq]

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.4.5

### TITLE: ABANDONED BOATS

**EFFECTIVE: 8/2/15**

**REVISED:**

**Page 1 of 2**

#### PURPOSE

The purpose of this policy is to establish the process for the removal, documentation and storage of abandoned boats or boats moored for longer than 24 hours as prescribed in New Orleans City Code § 170-62, § 170-63 and § 170-64. Boats found to be in violation of this code shall be subject to impoundment.

#### DEFINITIONS

Definitions related to this policy include:

**Abandoned or moored boat**— Any boat that is abandoned or moored for more than 24 hours along Bayou St. John. For the purpose of this Chapter, Bayou St. John includes its head at Hagan Avenue and Lafitte Avenue to Desaix Boulevard (*New Orleans City Code § 170-62*).

**Marked**—Posting a notice in a conspicuous place (on, at or near) a suspected abandoned or moored boat directing that the boat be removed from the location within 48 hours of the time of posting. The notice affixed shall state that the boat shall be subject to impoundment unless the boat is removed by the owner or legal possessor within 48 hours after the notice is affixed (*New Orleans City Code § 170-63*).

#### MARKING BOATS

1. Boats abandoned or moored in Bayou St. John for more than 24 hours, in violation of New Orleans City Code § 170-62 shall be marked as required by law and noted in the NOPD Computer Aided Dispatch (CAD) system. Mosquito Control Board members will be responsible for marking eligible boats and notifying the Command Desk for CAD entry documentation.
2. Members of the New Orleans Mosquito Control Board, investigating any boat that is abandoned or moored for more than 24 hours along Bayou St. John, will:
  - a. post a notice in a conspicuous place (on, at or near) a suspected abandoned or moored boat directing that the boat be removed from the location within 48 hours of the time of posting.
  - b. the notice shall state that the boat shall be subject to impoundment unless the boat is removed by the owner or legal possessor within 48 hours after the notice is affixed (*New Orleans City Code § 170-63*).
  - c. the affixed notice shall indicate the date and time the notice was attached, the date and time upon which the boat is subject to impoundment, and contact information for retrieval purposes.
3. If a marked boat has been moved or the markings have been removed during the 48-hour observation period, the previously marked boat shall be marked again indicating the original violation date and time and 48-hour observation period. An update shall be made in CAD, or with the Communications Section under the original NOPD Item number.

**INVESTIGATION AND IMPOUNDMENT**

4. An incident report shall be completed on all boats removed from Bayou St. John as directed under this Chapter. The Fleet Services Section shall be notified by the investigating member and a request made to have the boat removed. If the boat is eligible for removal the Fleet Services Section will be responsible for the removal of the boat and documenting its removal in an incident report. The information on the Fleet Services member who removed the boat shall be noted in the NOPD Incident Report and CAD.
5. When requested by the investigating member, the N.O.P.D. Communications Section shall assign an item number for the abandoned or moored boats eligible for impoundment under a signal "21AB - (Abandoned Boats)".
6. Impounded boats shall be held by the department at Central Evidence and Property until:
  - (a) claimed by the owner/ legal possessor; or
  - (b) disposed of in accordance with state law governing disposition of lawfully seized movable property.
7. Any owner or legal possessor who seeks to recover an impounded boat shall be required to demonstrate proof of ownership and pay all related fees at the time of recovery.

**DISPOSITION OF BOAT**

8. The department of police shall retain custody and possession of impounded boats for a period of not less than five (5) months from the date of impoundment, unless recovered by the owner of legal possessor. After such time, the impounded boat may be disposed of pursuant to state law governing disposition of lawfully seized property.
9. The purchaser of any unclaimed boat shall not be liable for the impoundment fee or any storage fees accumulated prior to the date of purchase from the department.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.7

### TITLE: TRAFFIC CRASH RESPONSE AND REPORTING

**EFFECTIVE: 04/15/2018**

**REVISED: 07/14/2019**

---

#### PURPOSE

This Chapter governs the reporting, processing, investigation, and disposition of motor vehicle crashes handled by members of this department.

#### POLICY STATEMENT

1. It is the policy of this department to respond to motor vehicle crashes for the purpose of assisting victims, determining appropriate law enforcement action, and restoring the normal traffic flow.
2. Officers shall take appropriate measures to guarantee the safety of the parties involved in a crash, the safety of the public and facilitate good traffic flow by remaining on scene as long as necessary to accomplish these goals.
3. The New Orleans Police Department prepares traffic crash reports in compliance with La. R.S. § 32:398 and, as a public service, makes traffic crash information available to the public.

#### DEFINITIONS

**Crash**—An unplanned, unexpected, and unintended (not purposefully caused) instance of a motor vehicle colliding or striking another vehicle, stationary object, pedestrian, or animal. Also referred to as a “traffic accident,” “traffic collision,” or a “motor vehicle accident.”

**Motor Vehicle**—Means every vehicle which is self-propelled and every vehicle which is propelled by electric power obtained from overhead trolley wires, but not operated upon rails, but excluding a motorized bicycle. "Motor vehicle" shall also include a "low-speed vehicle" which is a four-wheeled, electric-powered vehicle with a maximum speed of not less than 20 miles per hour but not more than 25 miles per hour and is equipped with the minimum motor vehicle equipment appropriate for vehicle safety as required in 49 C.F.R. 571.500.

**Motor Vehicle Crash Report**—Describes characteristics of the crash and the vehicles and people (drivers, injured and uninjured occupants and injured pedestrians and bicyclists) involved. By using evidence found at the scene, and by interviewing participants and witnesses the investigating officer can answer questions concerning how the crash occurred.

**Driver**—Means every person who drives or is in actual physical control of a vehicle.

## RESPONSE TO CRASHES

4. The primary responsibility for the response to motor vehicle crashes is vested with the Field Operations Bureau, to include non-injury crashes, injury crashes, and hit-and-run crashes. District Patrol units coming upon a crash will be responsible for initiating the investigation to include: notifying Communication Services of the incident, requesting necessary assistance (EMS, NOFD, etc.), and beginning all applicable reports unless relieved by a traffic crash investigation unit.
5. Traffic crash response will be classified as:
  - (a) **Crash or Hit & Run with unknown injuries**: a traffic crash investigation unit will be dispatched. If traffic crash investigation units are unavailable or the response time untenable, a clear District patrol unit will be dispatched for the preliminary investigation until relieved by traffic or investigative personnel.
  - (b) **Crash or Hit & Run with injuries or causing a serious traffic hazard**: a traffic crash investigation unit will be dispatched directly to the scene. If traffic crash investigation units are unavailable, a District patrol unit shall be dispatched for the investigation unless relieved by a traffic crash investigation unit.
  - (c) **Crash or Hit & Run absent injuries or serious hazard conditions**: If traffic crash investigation units are unavailable, a District patrol unit shall be dispatched for the investigation.
6. Officers should respond without delay when dispatched to a traffic crash. A traffic crash with reported injuries may include an emergency response if the officer reasonably believes such a response is appropriate. (See: **Chapter 41.4 – Response to Police Calls**).

## RESPONDING OFFICER DUTIES

7. The duties of an officer responding to a traffic crash include, but are not limited to:
  - (a) Assessing the most appropriate route to the crash;
  - (b) Proper placement of the emergency vehicle to provide protection for officers, other responders and the scene;
  - (c) Use of flares, cones, or other warning devices if available and beneficial shall be used;
  - (d) Assessing the potential for presence of hazardous materials;
  - (e) Identifying potential or actual fire hazards or other dangerous conditions so that appropriate action can be taken;
  - (f) Summoning additional assistance (e.g., traffic control, medical aid, NOFD, HAZMAT, ambulance and towing vehicles);
  - (g) Providing first aid and basic life support until the arrival of EMS or fire/rescue personnel;
  - (h) Protecting the scene;
  - (i) Establishing a safe traffic flow around the scene;
  - (j) Identification and interview of all involved parties;
  - (k) Identification and interview of any witnesses;
  - (l) Officers should utilize the Driver/Witness Voluntary Statement Form whenever possible;
  - (m) Investigating the crash and recording short-term evidence;
  - (n) Taking appropriate enforcement action, i.e., citation or arrest;
  - (o) Expediting the removal of debris and the vehicles involved from the roadway; and
  - (p) Completing the **Driver's Information Exchange Form #260**, and if the officer determines a crash report is not necessary, advising parties of the availability of

station reporting. (It is important for the responding officer to ensure the accuracy of the information contained on the cards.)

8. On-duty officers assigned to investigate traffic crashes, and off-duty officers who happen upon traffic crashes while operating marked or unmarked police vehicles, are required to remove vehicles from the roadway by state law (LA RS 32.141(d)) and municipal ordinance (154-386) when all of the following conditions are present:
  - (a) Any vehicle involved in the crash is impeding traffic in any way;
  - (b) The operators of the vehicles are not prevented from moving their vehicles due to injury;
  - (c) There is no death or serious injury involved; and
  - (d) The vehicle is not disabled by the crash and can be moved under its own power.
9. Vehicles should be moved to the shoulder of the road, or if available, a more suitable, safe location. If the vehicles involved in the crash are located on a bridge, highway, interstate, or other roadway, and no safe shoulder exists, the vehicles shall be moved from the bridge, highway, interstate, or other roadway to a safe location which does not impede the flow of traffic.
10. Officers who move vehicles from the crash location due to the above considerations shall advise Communications Services for the district of occurrence of the crash location and the location where the vehicles are being moved.
11. The officer shall advise Communications Services for the district of occurrence of his/her unit number, if permanent, and badge number. If the incident is dispatched, the off-duty officer shall contact the investigating officer via radio if there is a need to convey pertinent information regarding the crash and his/her actions.
12. If the crash involves vehicles which cannot be moved from the roadway, serious injuries, or a fatality, the officer should position his/her police unit in a manner to provide the most visibility to oncoming motorists provided the unit has functioning overhead or front and rear flashing emergency lights. If flares, cones, or other warning devices are available and beneficial, they shall be used.
13. Where the officer determines fuel is leaking from a vehicle involved in the crash, he/she shall immediately notify Communications Services for the district of occurrence and request assistance from the Fire Department.

#### **CRASHES ON PUBLIC STREETS OR PROPERTY**

14. A Traffic Investigation Unit will be dispatched to motor vehicle crashes on public streets or property in any of the following circumstances:
  - (a) Death or serious injury. In the case where a serious injury which may result in a death or fatality is involved, the Traffic Section will respond and will determine if the Fatality Unit will conduct the investigation. The officer should make provisions for the protection of evidence until the arrival of the Fatality Unit.
  - (b) Hit-and-run, when one or more of the following circumstances exist:
    - i. Victim or witness can identify the vehicle by the license number.
    - ii. Victim or witness can positively identify the driver AND was in a readily identifiable vehicle (e.g., suspect was driving a specifically marked construction company vehicle and could be identified in a photo line-up of that company's drivers).
    - iii. Victim or witness has kept the suspect vehicle or suspect under continuous observation since the incident at another location.
    - iv. Victim of the hit-and-run has sustained, as a result of the crash, visible

injuries or serious bodily injury (serious injury is unconsciousness, extreme physical pain, prolonged loss or impairment of the function of a bodily part or mental faculty), or has been transported to a hospital for treatment.

- v. Moderate to major damage to vehicles or property.
- (c) If the victim is not at the scene of the crash (due to following the suspect or making the phone call to the police), a vehicle description of the victim's vehicle will be obtained, and they will be requested to return to the location of the crash. If this is not possible, an officer will be dispatched to the victim's location.
- (d) Driver impairment due to alcohol or drugs.
- (e) Vehicle damage is moderate to major. The following are examples of moderate vehicle damage:
  - i. Bumper or crash guard retracted, bent, or moved such that change is observable.
  - ii. Damage or paint transfer evident on a minimum of 1/4 of the vehicle(s).
  - iii. More than two vehicles are involved.
  - iv. Any wheel alignment or placement is visually altered.
  - v. Damage to any one vehicle appears to exceed \$750.
- (f) Traffic congestion resulting from the crash.
- (g) Towing required of damaged vehicles.
- (h) Hazardous spills or leakages.
- (i) Disturbances between principals.
- (j) An NOPD vehicle is involved.
- (k) Government (local, state, or federal) vehicle involved and requests assistance.

#### **CRASHES ON PRIVATE PROPERTY**

- 15. A unit will be dispatched to private property crashes, including hit-and-run crashes, only if one or more of the following circumstances exist:
  - (a) As a result of the crash, death, visible injuries, or serious bodily injury occurs (serious injury is unconsciousness, extreme physical pain, prolonged loss or impairment of the function of a bodily part or mental faculty) or an individual is transported to a hospital for treatment.
  - (b) The victim is a juvenile.
  - (c) Major property, structure, or vehicle damage.
  - (d) An NOPD vehicle is involved.
  - (e) Driver involved is under the influence of alcohol or drugs and is still on the scene.
  - (f) Occurrence on a municipally-maintained traffic way or county-maintained property city/county parking garages, fire house driveways, or other property open to the public for travel or access and maintained by a local governmental agency.
  - (g) Hazardous spills or leakages.
  - (h) Disturbances between principals involved on the scene.

#### **TAKING ENFORCEMENT ACTION**

- 16. After a thorough investigation in which physical evidence or independent witness statements indicate that a violation of state or municipal traffic statutes led to the crash, officers shall issue a traffic citation or a misdemeanor citation to the offending driver.
- 17. Crashes involving more serious violations, such as driving under the influence of drugs or alcohol, vehicular manslaughter or other felonies, shall be enforced immediately. If a driver subject to enforcement is admitted to a hospital, the arresting / investigating member's supervisor shall be contacted to determine the best enforcement option (e.g., guard detail, citation in lieu of arrest).

18. In instances where a reasonable determination of driver causation cannot be established, the officer shall note such in his report. The reporting officer shall consult with his/her supervisor to assist in the determination of driver causation and note the same in his/her report.

#### **EVIDENCE OF COMPULSORY MOTOR VEHICLE LIABILITY SECURITY OR INSURANCE**

19. Officers investigating a traffic crash shall determine if the operator of any involved vehicle has evidence of compulsory motor vehicle liability security or insurance pursuant to R.S. § 32:863.1. If the operator does not have the required evidence, the officer shall do the following (R.S. § 32:863.1(C)):
  - (a) Arrange for the vehicle to be impounded.
  - (b) Issue the operator a notice of non-compliance on the appropriate form.
  - (c) Provide a copy of the notice of non-compliance to the towing or storage company.
  - (d) Remove the license plate if the vehicle is registered in Louisiana and deliver it to the District Section. License plates should be turned in with a copy of the notice of non-compliance.
  - (e) Issue a traffic citation.
20. Officers shall assist occupants of seized vehicles in obtaining transportation from the location of the seizure to their destination or a safe location. The assistance may involve contacting an individual or company (taxi) who will provide assistance, providing transportation to the individuals if their destination is within the immediate area, awaiting the arrival of public service transportation or transporting the individuals to the district station to await the arrival of private transportation.
21. Officers may elect not to seize a vehicle for failure to show documentation of compulsory motor vehicle liability or security insurance in the following instances:
  - (a) The vehicle contains an occupant under the age of 12 or an occupant is handicapped, and alternate transportation is not readily available.
  - (b) When considering the location of the stop or the time of day, the officer believes there would be a threat to public safety or to the occupants of the motor vehicle.
  - (c) Seizing the motor vehicle would cause an undue burden upon the officer due to constraints on available personnel or working conditions.
22. If a vehicle is not impounded, a copy of the notice of non-compliance shall be attached to the vehicle's license plate, and both shall be delivered to the district station. The Traffic Section shall retrieve the license plate and forward to the Department of Motor Vehicles.

#### **FATALITY TRAFFIC CRASH REPORTING**

23. All fatal crashes (**20-F**) shall be investigated by officers assigned to the SOD Traffic Fatality Unit. The Fatality Unit will be notified on any crashes involving serious injuries which may result in death. The SOD Traffic Commander will determine, based on the circumstances, if the Fatality Unit will investigate any crashes involving serious injury. The term serious injury is defined as an injury that may result in a fatality.

#### **TRAFFIC CRASH REPORTING INVOLVING DWI**

24. Crashes involving a driver who is under the influence of intoxicants shall be investigated by the officer investigating the crash. The investigating officer shall request a D.W.I. Unit or Traffic Section officer to assist in the investigation, or transport of the suspected driver

to the D.W.I. Unit for testing. D.W.I. Unit officers are available on a call-out basis 24/7 through Communications Services. (See **Chapter 61.1.11 – D.W.I. Procedures**)

## OFFICER RESPONSIBILITIES

25. Department members shall utilize the LA Crash (electronic) report if they have access through the Department's intranet. If the officer does not have access or the computer system or it is off-line, he/she may use the Department of Public Safety and Corrections (DPSC) Uniform Traffic Crash Report for the reporting of traffic crashes for any crash.
26. Officers investigating a reportable traffic crash shall instruct each involved driver to report the following using a **Driver's Information Exchange Form (#260)** to any party who suffered injury or property damage resulting from the crash:
  - (a) The name and address of the owner and the driver of the vehicle.
  - (b) The license number of the vehicle.
  - (c) The name of the insurance company for the vehicle.
  - (d) The name, address and telephone number of the insurance agent.
27. Officers shall indicate on the crash report that each involved driver was given instructions for providing information to any party suffering injury or damage and whether the investigation was made at the scene of the crash, station crash report or by subsequent investigation and interviews (supplemental report).
28. The crash investigation officer shall notify the Communications Services NOPD Liaison where Department of Transportation and Development property is damaged in a traffic crash and appears to exceed \$500 in value. The damage shall be reported to the appropriate Department of Transportation and Development district office (R.S. § 32:398(M) (1)).
29. All motor vehicle traffic crashes where damage to State/City property has occurred shall be documented in a crash report, regardless of the dollar amount of the damage. Damaged items may include, but are not limited to, bridges, sign posts, pylons, railings, guard rails, abutments, etc.
30. Investigating officers shall notify Communications Services, relating the location of the damaged property, item number, a description of the item damaged, and the extent to which the property has been damaged.
31. Communications Services shall notify the Department of Transportation and Development, supplying the information outlined in the above paragraph.
32. All paper traffic crash reports taken by members of this department shall be forwarded to the Records Section of MSB after supervisory approval and data entry into the records management system.
33. Officers investigating crashes involving vehicles transporting hazardous materials shall contact a ranking officer of the Traffic Section. The ranking officer from the Traffic Section shall proceed to the scene of the crash and take appropriate measures to guarantee the safety of the public and facilitate good traffic flow. The New Orleans Fire Department shall be notified on any crash involving a vehicle transporting hazardous materials.
34. The officer assigned the investigation and reporting of a traffic crash shall be in command of the scene. Officers assigned to specialized units within the SOD Traffic Section whose primary duty is the investigation of crashes involving unique situations

(Fatality, Hit & Run, etc.) shall take command of the scene upon arrival at the location of the crash.

35. Crash investigations where the operator of a vehicle has been removed from the scene due to injury or arrest shall require the officer to ensure that any personal property inside the vehicle or at the scene is properly secured.
- (a) If a member of the driver's immediate family is present at the scene, the property may be turned over to the family member.
  - (b) If the vehicle is being impounded because it is unattended and poses a hazard to public safety or the vehicle is disabled but towing is required by ordinance even with the driver on the scene, the officer shall complete the **Vehicle Storage – Tow Request and Inventory Record Form #39**.
36. Individuals who are arrested shall have the option of securing their property inside their vehicle or taking same with them to Central Lock Up. Any search of such property must be consistent with **Chapter 1.2.4 Search and Seizure**.

### **TRAFFIC SECTION SUPERVISOR RESPONSIBILITIES**

37. The Traffic Section Commander will be responsible for forwarding a copy of any notice of non-compliance involving vehicles whose operator did not provide proof of compulsory motor vehicle liability security or insurance to the office of motor vehicles with three days after the notice was received from the District (R.S. § 32:863.1(C)(1)(a)).

### **RECORDS**

38. Monthly and quarterly reports on traffic crash information and statistics shall be forwarded to the Field Operations Bureau Deputy Chief or other persons as required.
39. The original of the Uniform Motor Vehicle Crash Report Form (paper reports only) for all reportable crashes shall be forwarded by the Record Section to the DPSC within 48 hours of the completion of the investigation and receipt of the report by the Record Section (R.S. § 32:398(E)(2)).
40. A copy of traffic crash reports indicating damage to property of the Department of Transportation and Development (DOTD) estimated to exceed \$500 shall be forwarded to DOTD Headquarters maintenance Division by the Record Section within six days of the date of the crash (R.S. § 32:398(M)(2)).

### **MODIFICATIONS TO TRAFFIC CRASH REPORTS**

41. A change or modification of a written crash report that alters a material fact in the report may be made only by the officer who prepared the report prior to its approval and distribution. A written supplemental report may be made by any authorized employee.

### **TRAFFIC CRASHES INVOLVING CITY VEHICLES**

42. Traffic crash investigation reports shall be taken when a City-owned vehicle is involved in a traffic crash (**Signal 20-C**) on a roadway or highway, wherein any damage or injury results.
43. A general information report (**Signal 21**) may be taken in lieu of a traffic crash report at the direction of a supervisor when the crash occurs on private property or does not involve another vehicle. Whenever there is damage to a City vehicle, a vehicle damage report shall be completed and forwarded to the appropriate city agency.

44. Photographs of the crash scene and vehicle damage shall be taken by the SOD Traffic Section (Car 17) on crashes involving NOPD vehicles.
45. All crashes involving a New Orleans Police Department vehicle being operated by a member of the New Orleans Police Department shall be handled by a member of the SOD Traffic Section (Car 17) consistent with **Chapter 17.3 Department-Owned and Personal Property**. The investigating officer will take photographs of the vehicle damage and crash scene. The investigating officer will report all such crashes to the Crash Review Board for its review consistent with **Chapter 13.22 Crash Review Board**.
46. No citations for moving violations will be issued on crashes involving City-owned vehicles; however, citations may be issued for violations not associated with the crash (i.e., no driver's license, no insurance, etc.).
47. Any crash that occurs outside of the City of New Orleans, the initial report will be handled by the jurisdiction in which it occurred.

#### **TRAFFIC CRASHES ON PRIVATE PROPERTY**

48. Traffic crash reports should not be taken for traffic crashes occurring on private property, unless:
  - (a) There is a death or serious injury to any person;
  - (b) A violation of the following laws has occurred LA RS 14:98, 14:99 14:100;
  - (c) Property damage of \$500 or more; or
  - (d) Damage to City property.
49. These limitations should not rule out the completion of an incident report (EPR), if necessary, or at the discretion of a supervisor. A crash report may be taken at the discretion of any supervisor.

#### **TRAFFIC CRASHES INVOLVING INJURED ANIMALS**

50. When a traffic crash involves disposition of an injured animal (not removal of remains of dead animals), members should notify Communications Services to contact the Society for the Prevention of Cruelty to Animals.

#### **NOTIFICATION OF TRAFFIC SECTION ON FATALITY CRASHES**

51. In the event of a serious injury or death-related traffic crash, the District Platoon Commander shall notify the Traffic Section Commander to relate the circumstances of the traffic crash and seek assistance from the Traffic Section. The Traffic Section Commander will advise if the Traffic Section will handle the investigation.

#### **HIT AND RUN**

52. Officers responding to a hit and run shall conduct a thorough investigation including contacting registered owners and obtaining statements, examining the vehicle for transfer evidence and completing a crash report.
53. A copy of all paper crash reports involving hit and run crashes shall be forwarded to the Hit and Run Unit for follow-up investigation.
54. The Hit and Run Unit shall conduct follow-up investigations on all crashes where a driver involved fails to stop his/her vehicle at the crash scene to give his/her identity and to render reasonable aid.

**HIT AND RUN CLASSIFICATION`**

55. All hit and run crashes shall be classified using the following criteria:
- (a) A-case (high possibility of solving).
  - (b) B-case (high possibility of solving): needs to develop missing data.
  - (c) C-case (low possibility of solving): the information contained in the report was general and vague.
  - (d) D-case (no possibility of solving): the report has no follow up factors.

**HIT AND RUN SUPPLEMENTAL REPORTS**

56. Supplemental reports shall be completed by Hit and Run Unit officers on all investigations they conduct. Follow-up investigations shall consist of the following procedures:
- (a) Review of the facts and circumstances stated in the original report.
  - (b) Determine the registered owner of the hit and run vehicle.
  - (c) Notify the owner that his/her vehicle has been implicated in a reported hit and run crash and instruct him/her to contact the Hit and Run Office.
  - (d) Obtain statements from witnesses recorded in the report.
  - (e) Check all physical evidence collected at the scene.
  - (f) Attempt to examine the victim's vehicle for possible transfer evidence.
  - (g) Examine the crash scene.
  - (h) Notification of the victim as to the outcome of the investigation upon its completion.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.9

### TITLE: TRAFFIC DIRECTION AND CONTROL

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 505**

---

#### PURPOSE

The purpose of this Chapter is to ensure precise movement of traffic for the purpose of safety of the public at large, by utilizing standard manual signals in order to change the flow of traffic to protect evidence, safeguard an accident or crime scene, or move traffic from one place to another.

#### OFFICER INSTRUCTIONS

1. Officers shall immediately notify Communications Services of any hazardous situation which requires the immediate attention of the Department of Streets or Louisiana Department of Transportation personnel. Below are some instances where the proper highway or streets department personnel shall be notified:
  - (a) Obstacles in the roadway;
  - (b) Damaged roadway surface;
  - (c) Dead or injured animals on the road;
  - (d) Malfunctioning lighting;
  - (e) Serious accidents impeding traffic;
  - (f) Extreme traffic congestion;
  - (g) Surface conditions during inclement weather; and
  - (h) Damage to any Department of Transportation facility (e.g. control box sign, standards, posts, railings, impact reducing devices).
2. Officers observing hazardous road situations due to engineering deficiencies or antiquated design shall document same in a police report. The report shall be forwarded to the Commander of the Special Operations Division, Traffic Section. The Commander of the Traffic Section shall forward a copy of the report to the appropriate city or state agency for corrective action.
3. Uniformed officers may perform traffic control for the below situations:
  - (a) Major accidents and fatalities
  - (b) Major fire scenes
  - (c) SWAT incidents
  - (d) Those special events as deemed appropriate by the Commander of the Traffic Section
  - (e) Intersection control at major intersections during peak traffic hours or unusual occurrences

(f) Hazardous material incidents

4. When officers perform traffic control, he/she shall manually control traffic flow and direction until traffic can flow safely and smoothly by automatic control.
5. Officers conducting traffic control shall immediately notify Communications Services of their location and wear their reflective traffic vest and have a whistle, flashlight, and orange directional cone.

### **COMMUNICATIONS RESPONSIBILITIES**

6. Communications Services shall notify the proper authority in cases of dangerous road conditions. The Regional Traffic Management Center shall be notified of any road closures and/or dangerous road conditions.

### **USING TEMPORARY SIGNALS AND/OR SIGNS**

7. The use of temporary traffic signals and/or signs shall be evaluated by a supervisor of the Traffic Section to determine if the controls are adequate to safely control the traffic at the location.

### **TRAFFIC CHECKPOINTS**

8. The use of traffic checkpoints shall be at the discretion of the traffic platoon commander or the platoon commander of the district in which the checkpoint is to be conducted. Traffic checkpoints shall be conducted in accordance with current law. Consideration shall be given to the location of the checkpoint and the time of day with regard for the smooth flow of traffic. (See: **Chapter 61.15 – Traffic Stops and Checkpoints.**)

### **MANUAL OPERATION OF TRAFFIC CONTROL DEVICES**

9. The following circumstances may warrant manual operation of traffic control devices:
  - (a) Emergency incidents;
  - (b) Special events;
  - (c) Unusual incidents; or
  - (d) When deemed necessary by a supervisor.
10. Manual control devices are found inside the traffic control boxes located on or near the corner of intersections with traffic signal lights. A control box key may be obtained from the Public Works Department with written approval from the Traffic Section Commander or a member's Bureau Chief. Prior to use of a manual control device for a traffic control box, the member must receive training from an SOD – Traffic Section training officer or supervisor.

### **MANUAL TRAFFIC DIRECTION**

11. Below are instructions for directing traffic manually.

#### **POSITION**

12. Officers should select a position to direct traffic which provides a full view of the intersection or incident scene and its approaches thereby making the officer readily visible to drivers and pedestrians and affording maximum safety.

#### **STANCE**

13. Officers shall assume a posture at the control position which reflects confidence, command and courtesy

#### **COMMAND RESPONSIBILITY**

14. When more than one officer is involved in manual direction or control of traffic within the same area, the first officer on the scene shall assume the responsibility of coordinating traffic control.

#### **SIGNALS**

15. STOP—To signal a vehicle or stream of traffic to stop, the officer extends his/her arm toward the vehicle for which the signal is intended. The officer raises his/her upper arm to an angle of approximately 45 degrees above the horizontal, his/her elbow is bent, his/her hand is held in a vertical position with the fingers together and extended, and his/her palm is toward the approaching traffic. His/her hand is higher than his/her head and clearly visible to approaching traffic.
16. GO—The officer uses the hand nearest a stream of traffic to signal that stream to go. He/she starts the signal by first pointing his/her hand and arm horizontally with fingers extended toward the stream for which the signal is intended. He/she keeps his/her upper arm in a horizontal position while bringing his/her forearm and hand through a vertical arc. In signaling vehicles to go, the officer should remember that traffic from the right always passes in front and traffic from the left always passes in back of him/her. If traffic is to pass in front of the officer, he/she brings his/her hands to a position directly in front of his/her chin. He/she holds this position for approximately one second and then drops his/her hand to his/her side. He/she may repeat this signal rapidly several times to speed up sluggish traffic. He/she does not repeat it while a stream is moving, except to indicate that the flow is to continue after a break between vehicles. Unnecessary repetition of the go signal is tiring and may be interpreted as a faster signal, causing excessive speed through the intersection.
17. CHANGE DIRECTION OF FLOW—To change the direction of traffic flow, the officer first stops each stream of moving traffic. The stop position is executed with both hands. When the traffic has stopped and the intersection is clear, the officer turns 90 degrees and keeps both hands in the stop position. From the new position, he/she gives the go signal to streams of traffic to his right and left, separately. He/she takes care not to hold the stop signal too long after the vehicle makes its turn, because this would stop the flow cycle needlessly.
18. TURN—The officer indicates permissible turns by pointing, with arm and hand horizontal and forefinger extended, to the vehicle which is to make the turn. He/she then swings his/her arm and hand horizontally and points in the direction the vehicle is to turn. While giving the signal, he/she looks toward the vehicle which is to turn. He/she uses the other arm to stop traffic if necessary. On all left hand turns, he/she stops the opposing lane of traffic first to allow vehicles to make their turns. When the vehicle is to turn behind him/her, he/she twists his/her legs and body to complete the signal to the rear. His/her feet remain stationary when giving this signal. He/she is alert to drivers' signals indicating their desired turns. If a driver wishes to make a prohibited turn, he/she shakes his head "no." He/she uses his/her whistle to attract the driver's attention if necessary. He/she then indicates by appropriate arm signal whether the vehicle is to proceed straight through the intersection or stop until signaled to turn.
19. WHISTLE SIGNALS—Whistle signals shall be coordinated with hand signals and of

sufficient volume as to be audible with respect to surrounding conditions. Use one long whistle blast to command "Stop," two short whistle blasts to command "Proceed or Go," and a series of short whistle blasts to command "Attention."

## CHAPTER: 61.11

### TITLE: SCHOOL CROSSING GUARDS

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 507**

---

#### PURPOSE

The purpose of this policy is to outline the duties and responsibilities of a school-crossing guard; explain the limit of his/her authority; and describe the requirements to apply for the position.

#### GENERAL

1. Adult school-crossing guards are employees of the City of New Orleans under the supervision of a member of the New Orleans Police Department.
2. A candidate applying for the position of school-crossing guard must be a competent adult resident in good health residing in New Orleans in the area of the school he/she will be assigned.
3. Schools chosen for the guard program are based on the location of the school and its proximity to large streets or boulevards, the number of students attending a particular school, the grade levels of the school, and any other special considerations.
4. The Commander of the Traffic Section and or his/her designee is responsible for an annual evaluation of the above in order to determine placement of available crossing guards. The evaluation shall be conducted during the summer months of each calendar year and completed by July 31 of each year. Once completed, the Commander of the Traffic Section shall report in writing the finalized deployment plan to the Deputy Superintendent of the Field Operations Bureau. The deployment plan shall be updated as necessary throughout the year.
5. Crossing guards are authorized to stop traffic to allow children to safely cross within school crossing areas. They are not authorized to perform any other traffic control duties.
6. Crossing guards are required to dress conservatively, wearing the reflective traffic vest supplied by the department. Crossing guards shall be equipped with reflective signs to assist children crossing the street. The Traffic Section may place additional restrictions on attire/appearance, as required.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.13

### TITLE: DISABLED / STALLED VEHICLES – STRANDED MOTORIST

**EFFECTIVE: 01/14/2018**

**REVISED: 12/20/20**

---

#### PURPOSE

The purpose of this Chapter is to provide members of the New Orleans Police Department guidance for providing assistance to motorists in disabled / stalled vehicles within this jurisdiction.

#### OFFICER RESPONSIBILITIES

1. When an on-duty officer observes a disabled / stalled vehicle or receives a dispatch from Communications Services, the officer should make a reasonable effort to provide assistance.
2. If that officer is assigned to a call of higher priority, Communications Services should be advised of the location of the disabled / stalled vehicle and the need for assistance. Communications Services should then assign another available officer or other department member to respond as soon as practicable.

#### EXTENT OF ASSISTANCE

3. A disabled / stalled vehicle / stranded motorist may require assistance from Department members. After assistance is rendered or arrangements for assistance are made, continued involvement by department members will be contingent on:
  - (a) the time of day,
  - (b) the location,
  - (c) the availability of department resources, and
  - (d) the vulnerability of the disabled / stalled motorist / occupants.
4. Officers observing a stranded motorist or being dispatched to the scene of a motorist in need of aid shall provide for the motorist's and all occupants' safety.
5. Officers shall advise Communications Services to notify the **Motorist Assistance Patrol (MAP)**, if in their area of coverage.
6. Assistance shall be provided, but is not limited to the examples given as outlined below:
  - (a) Officers shall offer transportation to drivers and occupants to a location where they may secure assistance from qualified individuals of their choice. These

- rides shall follow the guidelines for Public Safety Rides outlined in **Chapter 10.1** and shall be documented in the same manner.
- (b) Officers shall summon New Orleans Fire Department fire suppression personnel in the event of fire or leaking fuel from a vehicle.
  - (c) Officers shall assist in the removal from the roadway, if practical, any vehicle causing a hazard to traffic.
7. Officers shall not suggest nor summon private tow wagons to the scene of disabled / stalled vehicles unless a particular vendor is requested by the operator of the vehicle.
  8. Officers shall not recommend any particular tow wagon service to the operator of a motor vehicle in need of such service.
  9. If an officer determines a vehicle must be immediately removed from the roadway and the operator cannot provide for its immediate removal, the officer on the scene shall contact the Towing Allocation Office (TAO) on the appropriate talk group of his/her NOPD radio informing them of the need for the vehicle to be immediately removed.
  10. It is the responsibility of the TAO operator to order the appropriate tow service as provided for by current city ordinance and procedure.

#### **ABANDONED VEHICLES**

11. Officers conducting investigations relative to abandoned vehicles shall:
  - (a) Check the vehicle under investigation through NCIC to determine whether or not the vehicle has been stolen.
    - i. If the vehicle is reported as stolen, the necessary reports shall be completed and the incident handled as per current departmental procedure.
    - ii. If the vehicle is not reported as stolen, the officer will attempt to contact the registered owner and notify him/her of the vehicle's location and condition.
  - (b) If the vehicle has been stripped or is in a "junk" condition, and is not blocking a street or causing an immediate hazard, the investigating officer shall contact the Department of Public Works for the City informing them of the need for the vehicle to be immediately removed.
  - (c) A police report shall be completed on all vehicles towed or removed from a city street on the authority of an investigating officer. All required forms necessary for the towing of a vehicle shall be completed and made part of the report.

#### **MECHANICAL REPAIRS**

12. Department members shall not make mechanical repairs to a disabled / stalled vehicle. The use of push bumpers to relocate vehicles to a position of safety is not considered a mechanical repair.
13. Department member shall not "jump start" a car with a dead/low battery by utilizing the departmental vehicle/battery nor will they allow the motorist to do so.

#### **GUIDELINES FOR USE OF PUSH BUMPERS**

14. Only those marked units equipped with professionally-installed push bumpers shall be used to relocate a vehicle disabled / stalled as a result of a motor vehicle crash or incident or a disabled / stalled vehicle from a dangerous location or position in the travel

lanes to an area of safety in order to prevent possible future injury or damage. (see: LA Rev Stat § 32:155).

15. Only members who have completed the Departmental training in the use of push bumpers may use them to relocate a disabled / stalled vehicle. General guidelines include:
  - (a) The push bumpers are designed for Straight Forward pushing only. They are not designed for maintaining bumper contact while pushing vehicles up into embankments or while turning. Such action will result in the bumper twisting and or the pushed vehicle sliding off the push bumper and damaging the police unit's front bumper and front fenders.
  - (b) If an embankment (incline) or turn is encountered, the police unit should disengage the push, allowing the disabled / stalled vehicle to coast through the incline or turn and then re-engage for a straight forward push once the disabled / stalled vehicle comes to a stop.
  - (c) The police unit should never attempt to re-engage the disabled / stalled vehicle while both vehicles are still in motion. This could result in damage to the police unit and/or the disabled / stalled vehicle as well as injury (whiplash) to the disabled / stalled vehicles driver or passengers.
  
16. On arrival at the scene of a disabled / stalled vehicle, the officer in a fully marked and equipped emergency vehicle with a push bumper shall:
  - (a) Utilize their vehicle as a buffer, while using all available emergency warning lights.
  - (b) Contact the driver / operator of the disabled / stalled vehicle and determine the problem and if pushing is necessary or appropriate.
  - (c) Ask the driver if he/she is physically and emotionally capable of operating the vehicle while it is being pushed.
    - i. If not, request assistance.
    - ii. If yes, explain the procedure and what is required of the driver/operator. (i.e., path, use of lights at night, they may not have power assist for steering and brakes, transmission in neutral, parking brake off, ignition is on, advise where to steer and stop, etc.).
  
17. Officers who determine that the disabled / stalled vehicle should be relocated by use of the push bumper rather than wait for a tow wagon, shall:
  - (a) Assess the feasibility of using the push bumper by ensuring the push bumper aligns properly with the bumper of the vehicle to be pushed. Push bumpers should not be used if they align with the trunk or tailgate of the disabled / stalled vehicle unless exigent circumstances exist and a supervisor approves the use.
  - (b) Explain to the owner/operator of the disabled / stalled vehicle the safety reason for relocating the disabled / stalled vehicle immediately rather than wait for a tow wagon.
  - (c) Document the process, when possible by use of BWC or ICC.
  - (d) Ensure the vehicle to be relocated is unoccupied when being relocated if the wheels and axel are damaged and vehicle will not "roll".
  - (e) Check for fluid leaks other than water only. If fluids (oil, brake fluid, transmission fluid, and engine coolant) have leaked onto the roadway and officer does not have an absorbent available, wait for a tow wagon or MAP unit.
  - (f) Relocate the disabled / stalled vehicle to the closest safe location / position out of the travel lanes
  - (g) Do not exceed 10 mph, as a maximum, while pushing a disabled / stalled vehicle.
  - (h) Notify his/her supervisor of any obvious damage to the disabled / stalled vehicle or unit caused by the use of the push bumper immediately after relocation.
  - (i) Complete any documentation required or directed by his/her supervisor.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.13.1

### TITLE: ABANDONED AND NUISANCE VEHICLES

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 524**

---

#### PURPOSE

This Chapter covers the process for the removal, recording and storage of motor vehicles in violation of abandoned vehicle laws and nuisance vehicle laws (**La. R.S. 32:471 thru 476** and **New Orleans City Code § 66-101 thru 116**).

#### DEFINITIONS

**Abandoned Motor Vehicle**—Any motor vehicle that is:

- (a) Left upon a public street or highway in violation of a law or ordinance prohibiting parking.
- (b) Inoperable and is left unattended on public property for more than three days, or
- (c) Is inoperable and left unattended on the shoulder or right-of-way of an interstate or a four-lane highway for more than three days, or
- (d) That has remained on private property without the consent of the owner or person in control of the property for more than 24 hours.
- (e) Left on property owned or operated by the City for a period of more than three days.
- (f) Left on private property without the consent of the owner, person in control of the property, occupant or lessee thereof for more than three days. (**New Orleans City Code § 66-102**)

**Nuisance Vehicle**—A motor vehicle on public or private property that is determined by the policing authority to be a health or safety hazard, a public nuisance, and unlawful, including a vehicle found to be:

- (a) A breeding ground or harbor for mosquitoes or other insects or a breeding ground or harbor for rats or other pests; or
- (b) A point of heavy growth of weeds or other noxious vegetation over eight inches in height; or
- (c) A point of collection of pools or ponds of water; or
- (d) A point of concentration of combustible items such as gasoline, oil, other flammable or explosive materials including, but not limited to, boxes, paper, old clothes, rags, refuse, or any other combustible materials or objects of a like nature; or
- (e) One which has parts thereof which may fall and injure members of the public or one which has parts which may fall or be closed and become an area of confinement, such as a trunk lid or door, which may not be released for opening from the inside; or
- (f) One which is so situated and located that there is a danger of the vehicle falling, rolling, turning over, or creating an unsafe movement such as unattended, blocked or jacked vehicles; or

- (g) A point of collection of garbage, food waste, animal waste, or any other rotten or putrescent matter of any kind; or
- (h) One which has parts thereof which are jagged or contain sharp edges of metal or glass; or (sic). (**New Orleans City Code § 66-102**)

### MARKING ABANDONED AND NUISANCE VEHICLES

1. Vehicles on public roadways suspected of being abandoned in violation of Louisiana laws shall be marked and noted on the New Orleans Police Department marked vehicle card or documented via the computer aided dispatch (CAD) system. No item number is required at this time.
  - (a) The vehicle under investigation shall be checked through NCIC to determine whether or not the vehicle has been reported stolen.
  - (b) If the vehicle is reported as stolen, the necessary reports shall be completed and the incident handled as per department regulations. (See also: **Chapter 42.10 – Auto Theft Investigations**).
  - (c) If the vehicle is not reported stolen, the officer will attempt to contact the registered owner through Communications Services and notify him/her of the vehicle's whereabouts and condition.
  - (d) If the vehicle has been stripped or is in a “junk” condition, the appropriate city agency responsible for the removal of junk vehicles shall be notified through Communications Services and a request made to have the vehicle removed by the Department of Public Works (DPW) by calling the Towing Allocation Officer (TAO – Unit 7200 or 658-8100).
  - (e) A police report (EPR) shall be completed on all vehicles towed or removed from a city street on the authority of an investigating officer. All required forms necessary for the towing of a vehicle shall be completed and made part of the report.
2. Officers shall post a notice on the windshield of a suspected abandoned vehicle directing that the vehicle be removed from said location within 48 hours (**La. R.S. 32:473.1(A)** and **New Orleans City Code § 66-105**).
3. All marked vehicle cards shall be submitted to the SOD – Traffic Section for computer data entry in the Towed Vehicle Database found on the NOPD website ([NOPD.org](http://NOPD.org)) under **Forms / Towed Vehicle Database** unless documented via the CAD system.
4. If a vehicle that was marked as abandoned has been moved or the markings have been removed during the 48-hour observation period, the vehicle shall be marked again for the violation, the 48-hour observation period re-started and a marked vehicle card completed and forwarded to the SOD - Traffic Section.
5. An abandoned or nuisance vehicle which has been documented and a notice has been placed on the vehicle (windshield) by the Department of Public Works (DPW) for the City may be placed on the expedited towing list by notifying Unit 7200 the Towing Allocation Officer or calling 658-8100.
6. An abandoned or nuisance vehicle on the interstate system in New Orleans are handled by the Louisiana State Police and the Louisiana Department of Transportation.
7. All-Terrain Vehicles (ATV) and off-road four wheelers and motor cycles (MC) which are not licensed and operating on City streets in New Orleans are subject to confiscation and towing provided they have not been reported stolen.

**ABANDONED VEHICLE REMOVAL, TOW AND IMPOUND**

8. Any abandoned vehicle to be towed should be removed by the authorized towing service, and a **Department Impoundment Form** (Form 10) shall be completed by the officer authorizing the removal of the vehicle. (**Louisiana Towing and Storage Act R.S. 32:1711 through 32:17:35 and New Orleans City Code § 66-108**).

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.15.1

### TITLE: VEHICLE CHECKPOINTS

**EFFECTIVE: 10/06/2019**

**REVISED: (Replaces Policy/Procedure 503)**

---

#### PURPOSE

The purpose of this Chapter is to set forth guidelines for conducting vehicle checkpoints by commissioned members of the New Orleans Police Department.

#### POLICY STATEMENT

1. It is the policy of the New Orleans Police Department to conduct roadway safety and sobriety checkpoints as needed to maintain traffic safety.
2. The purpose of a seat belt, motor vehicle inspection, or motor vehicle liability security checkpoint is to ensure that motorists are licensed and carefully operating their vehicles and that their vehicles are fit for safe operation.
3. The purpose of a sobriety checkpoint is to reduce the number of persons who drive while impaired or intoxicated.
4. A checkpoint may not be used for suspicion-less criminal investigations. However, this does not preclude the use of appropriately tailored checkpoints in response to exigent circumstances. In the event of a situation involving exigent circumstances (e.g., a missing child, identifying witnesses to a crime, or a search for a murder suspect) where a checkpoint may be determined by a supervisor to be necessary, the checkpoint procedures outlined below should be followed, if possible. However, each event must be evaluated based on the facts presented and appropriate action taken.
5. Roadside Safety Checkpoints and Sobriety Checkpoints shall be consistent with the principles of public safety, minimal intrusion and inconvenience to motorists, and protection of the rights of the individuals affected.
6. To ensure standardization, a clear and concise set of written guidelines has been developed governing the operation of checkpoints throughout the state (R.S. 32:295.4). NOPD shall implement this Chapter consistent with federal, state, and local requirements.

#### DEFINITIONS

**Roadside safety checkpoint**—A checkpoint, established by a law enforcement agency

primarily for the inspection of seat belt usage, motor vehicle inspections, and/or motor vehicle liability security in conformity with Louisiana RS 32:295.4. Roadside safety checkpoints are not synonymous with a sobriety checkpoint.

**Sobriety checkpoint**—A checkpoint, established by a law enforcement agency primarily for the detection of impaired drivers who may be in violation of Louisiana RS 14:98 – Operating a vehicle while intoxicated or the municipal equivalent (MCS Section 154-381 for 1<sup>st</sup> and 2<sup>nd</sup> offense DWI arrests).

### COMMON FACTORS FOR ALL VEHICLE CHECKPOINTS

7. Checkpoints may be established on any public highway as defined in LRS 32:1 et seq. and subject to the conditions of this Chapter. Locations for checkpoints will be selected which permit the safe flow of traffic through the checkpoint, and consideration should be given to:
  - (a) Posted speed limits, traffic volume and visibility.
  - (b) Ensure that sufficient adjoining space is available to relocate detained vehicles safely off the travel portion of the roadway.
  - (c) Consider other conditions such as weather, time of day, or distractions that may pose a hazard to officers and detained motorists.
8. Checkpoints shall be designed to ensure the safety of the motoring public as well as law enforcement officers involved.
9. Officers shall utilize all issued and/or available safety equipment when conducting a checkpoint. Departmentally approved reflective safety vests shall be worn at all times when conducting a checkpoint. Use of police emergency lights are authorized but must not be positioned or used in a manner to impede observation of officers, vehicles or persons on the scene. Officers should utilize checkpoint construction diagrams to assist with placement of safety devices.
10. All Department vehicles used to conduct vehicle checkpoints shall be equipped with operable, emergency lights and sirens. Marked patrol units should be positioned in such a way as to provide maximum visibility.
11. The Traffic Section Commander or assigned Traffic Section supervisor shall establish and provide the location, time, and duration for all checkpoints in written form. The location shall be selected by Traffic Section supervisory or other administrative personnel rather than the field officers or supervisors of the District in which the checkpoint takes place, using objective criteria based on relevant data. Relevant data may include:
  - (a) Unusual incidence of alcohol/drug related crashes;
  - (b) Alcohol/drug impaired driving violations;
  - (c) Unusual number of nighttime single vehicle crashes; or
  - (d) Any other documented alcohol/drug related vehicular incidents.
12. The location to be used shall fulfill certain minimum requirements:
  - (a) A secondary screening is free from business and residential driveways, alleys and intersecting streets or highways.
  - (b) Well-drained, all-weather roadways and parking areas.
  - (c) Reduced opportunity for avoiding or escaping the checkpoint site.
13. The site should have maximum visibility from every direction and sufficient illumination. If permanent lighting is unavailable, ensure that lighting is provided with the use of portable lighting or the use of spotlights or vehicle headlights.

14. NOPD shall provide advance warning to the approaching motorists with signs, flares, and other indications to warn motorists of an impending stop and to provide indication of its official nature as a police checkpoint. The initial sign advising motorists of the establishment of a checkpoint shall be placed at least 500 feet prior to the beginning of the checkpoint.
15. The Traffic Supervisor and all other personnel and equipment shall be in the proper place and operational before the first subject vehicle is stopped.
16. Motorists who wish to avoid the checkpoint by turning before entering the checkpoint area may do so, though if an officer observes a traffic violation or has probable cause to take other action, the officer may stop the motorist.
17. Checkpoints should be highly publicized by the NOPD Public Information Office. The specific location and duration of the checkpoint shall be given at the discretion of the Traffic Section Commander.
18. Traffic Supervisors shall ensure that a sufficient number of officers are scheduled to safely perform a checkpoint. A Traffic supervisor shall be present on the scene at all times to guide operations. Should it be necessary for the Traffic Supervisor to leave the scene, an acting supervisor shall be appointed.
19. Commissioned officers from other Districts and Bureaus may participate in checkpoints established by the Traffic Section. If the officer is to interact directly with the driver of the vehicle, he/she must be SFST (Standardized Field Sobriety Test) trained and certified.
20. The Traffic Section supervisor in charge of the checkpoint shall ensure that NOPD personnel and all assisting officers conduct themselves in a professional manner and conform to the NOPD checkpoint procedures established by law and this Chapter.
21. Prior to conducting a checkpoint, the Traffic Section checkpoint supervisor shall discuss and thoroughly explain to all officers participating in the checkpoint operation the following items:
  - (a) The goals of the checkpoint.
  - (b) The checkpoint location and the statistical data supporting the chosen checkpoint site.
  - (c) The need for safety for both the officers and motorists.
  - (d) The placement of personnel and traffic control devices which shall be in conformance with checkpoint guidelines.
  - (e) A systematic approach to stopping the vehicles as they enter the checkpoint location.
  - (f) The supervisor should ensure that the sequence of vehicles being stopped is explained to and understood by all participating officers.
22. While conducting a checkpoint, NOPD will use systematic, nonrandom criteria for stopping motorists. The selection sequence of the vehicles to be stopped shall be prescribed and uniformly applied. No random stopping of vehicles will be allowed or tolerated. The Traffic Section commander or the Traffic Section supervisor in command of the checkpoint shall determine the systematic selection process.
23. Officers shall explain the purpose of the checkpoint to the motorist upon his/her initial approach to the vehicle.
24. Motorists shall not be detained except as provided herein unless there is articulable

probable cause or reasonable suspicion sufficient to justify a belief in the existence of another offense and shall be detained only as long as reasonably necessary. Vehicles and persons detained for suspected violations of DWI laws shall be processed in accordance with **Chapter 61.1.11 – D.W.I. Procedures.**

25. All drivers stopped at a checkpoint shall have their operator's license, vehicle registration papers and proof of insurance requested and checked for validity.
26. NOPD shall insure the detention of motorists at a checkpoint is for a minimal length of time.
27. The Traffic Section supervisor shall gauge whether anxiety of motorists, average length of detention, or safety considerations necessitate the cancellation or modification of the checkpoint order. The Traffic supervisor must provide full documentation of any deviation from the predetermined plan in the respective Checkpoint Report.
28. NOPD shall use a systematic procedure for data collection to monitor and ensure the standardization and consistency of the checkpoint program.
29. The supervisor authorizing the checkpoint shall designate one of the Traffic Section supervisors present during the checkpoint event to complete an incident report on the matter utilizing signal 21. The report should include, at least, the following information:
  - (a) The purpose, location, time, and actual duration of the checkpoint;
  - (b) How specific instructions regarding the operation of the checkpoint were executed;
  - (c) The methodology used to stop vehicles in a systematic, non-random manner;
  - (d) The number of vehicles checked and the officer doing the counting;
  - (e) The number of citations issued;
  - (f) The number of arrests, if any, the associated item number(s), if any, and respective signals resulting from the operation of the checkpoint; and
  - (g) Objectively outline criteria utilized in the site selection process for all checkpoints.
30. NOPD shall periodically assess the data collected during checkpoints to ensure that checkpoints are not being deployed in a manner that discriminates on the basis of protected categories, such as race (see **Chapter 41.13 – Bias Free Policing**), and that chosen locations are supported by objective data. If NOPD discovers that checkpoints are having a disparate impact, NOPD shall assess whether alternative strategies resulting in less disparate impact could achieve the same aims.
31. Checkpoint supervisors shall have participating officers explain the purpose of the checkpoint to the motorists as they approach the vehicle.
32. For a checkpoint other than a sobriety checkpoint, officers should use a uniform statement/question to the driver. For example, the officer could state, "**Good evening. You have been stopped at an NOPD Safety checkpoint. We are utilizing checkpoints in an effort to ensure that motorists are licensed and carefully operating their vehicles and that their vehicles are fit for safe operation.**"
33. For a sobriety checkpoint, officers should follow these guidelines:
  - (a) Use a uniform statement/question to the driver. For example, officers could state, "Good evening. You have been stopped at an NOPD sobriety checkpoint. We are utilizing checkpoints in an effort to detect and deter the impaired driver. Have you consumed any alcohol or controlled dangerous substances today?"
  - (b) Officers should observe the driver for the smell of alcoholic beverages or other drugs, bloodshot eyes, fumbling fingers, slurred speech, admission of drinking or

drug use, abusive language, inconsistent responses, etc. Be observant of the interior of the vehicle for alcoholic beverage containers, drug paraphernalia or other contraband that are in plain view.

- (c) If the driver's response is "**no**" and there is no other legal basis to support continued detention of the vehicle, the officer should permit the motorist to proceed.
  - (d) If the driver's response is "**yes**", ask "**how much and when.**" Depending on the answers and other observable evidence or officer observations as described herein, the officer should determine if further investigation is warranted. If so, direct the driver to safely exit the vehicle and escort him/her to the designated area for further investigation. If not, permit the driver to proceed. At no time should a suspected impaired driver be allowed to operate his vehicle or remove it from the inspection location.
34. Those persons stopped at a checkpoint who are suspected of impairment should be subjected to the battery of Standardized Field Sobriety Tests (SFST) and processed according to **Chapter 61.1.11 – D.W.I. Procedures.**

### **TRAINING**

35. The Traffic Section commander shall ensure that appropriate training is provided for officers participating in traffic checkpoints.
36. The Traffic Section commander should relate any training issues as they become apparent that are relevant to improving the department's operations to the Education & Training Division.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.17

### TITLE: TRAFFIC FUNCTION AND RESPONSIBILITY

**EFFECTIVE: 05/20/2018**

**REVISED: (Replaces Policy/Procedure 500)**

---

#### PURPOSE

This Chapter outlines how the NOPD utilizes traffic law enforcement to reduce crashes and improve the safety and quality of life of the community.

#### POLICY STATEMENT

1. The goal of traffic law enforcement is to reduce traffic accidents and improve the safety and quality of life for the community through traffic law compliance. This may be achieved through the application of such techniques as geographic/temporal assignment of personnel and equipment and the establishment of preventive patrols to deal with specific categories of unlawful driving behavior.
2. This department provides traffic law enforcement efforts in proportion to the frequency of the violation's occurrence in crash situations and in terms of traffic-related complaints from the community.
3. Traffic enforcement techniques are based on crash data, enforcement activity records, traffic volume, traffic conditions and other related data.
4. Aggressive traffic enforcement with a high priority given to violations of driving while intoxicated (DWI) and school zone speed enforcement is encouraged.

#### TRAFFIC OFFICER DEPLOYMENT

5. Several factors are considered in the development of traffic enforcement assignments for officers of the New Orleans Police Department. Information provided by the Louisiana State Police is a valuable resource for traffic crashes and therefore officer deployment. Some of the crash factors for analysis include the following:
  - (a) Location
  - (b) Time
  - (c) Day
  - (d) Violation factors
6. All officers assigned to patrol or traffic enforcement functions shall emphasize:
  - (a) Enforcement of traffic laws,
  - (b) Crash-causing violations during those periods and at those locations where the

- incidence of crashes is increased,
  - (c) Directed enforcement action on request,
  - (d) Random enforcement action when appropriate, against violators of traffic laws, and
  - (e) High visibility while working general enforcement, especially at high-crash incidence locations.
7. Other factors to be considered for traffic enforcement deployment are community requests, construction zones, school zones or special events.

#### **ENFORCEMENT QUOTAS AND BIAS**

8. Traffic law enforcement actions are commensurate with applicable laws and take into account the degree and severity of the violation. This department does not establish ticket "quotas." The arrests or citations issued by an officer shall not be used as the sole criteria for evaluating the officer's overall performance (R.S. 40:2401.1).
9. The enforcement of traffic violations and the reporting of traffic stops shall be in compliance with law and **Chapter 41.13 – Bias-Free Policing**.

#### **WARNINGS AND STOPS WITHOUT CITATION OR ARREST**

10. Verbal warnings may be considered in lieu of a traffic citation for minor traffic infractions when based on permissible factors dealing with the driving behavior and within the limitations of **Chapter 41.13 – Bias-Free Policing**.
11. Verbal warnings are not permitted in lieu of citation when a crash investigation has been completed.
12. Written warning citations for violations of motor vehicle laws are specifically **PROHIBITED** (R.S. 32:398.1C).

#### **TRAFFIC CITATIONS**

13. Traffic citations shall be issued when an officer has probable cause to believe a violation of the State or Municipal motor vehicle laws has occurred and he/she believes it is necessary to deter future violations.
14. Officers shall fully explain to the motorist the rights and requirements imposed on motorists when issued a citation for a traffic violation in accordance with **Chapter 61.3 – Traffic Citations**.

#### **PHYSICAL (CUSTODIAL) ARREST**

15. Physical arrest can be made on a number of criminal traffic offenses. These physical arrest cases are outlined in **Chapter 61.3 – Traffic Citations**.

#### **HIGH-VISIBILITY VESTS REQUIRED USE**

16. Officers conducting directed traffic enforcement shall employ American National Standards Institute (ANSI) Class II high-visibility vests to reduce the danger to members who may be exposed to hazards presented by traffic control duties, accident investigations, lane closures, disaster scenes, passing traffic, construction vehicles and disaster recovery equipment (23 CFR 634.3).

17. Although high-visibility vests are intended primarily for use while performing traffic-related assignments, they shall be worn at any time increased visibility would improve the safety or efficiency of the employee.
18. When emergency conditions preclude the immediate donning of the vest, officers shall retrieve and wear the vest as soon as conditions reasonably permit or when directed by a supervisor.
19. During vehicle stops, high-visibility vests shall be worn any time it is anticipated that an employee will be exposed to the hazards of approaching traffic or construction and recovery equipment.
20. High-visibility vests may be used any time a plainclothes officer might benefit from being readily identified as an officer.

#### **STATIONARY OBSERVATION**

21. The New Orleans Police Department deters traffic violators by open and visible patrol. Covert operations shall be utilized only when gathering information for eventual action through an overt patrol.

#### **VISUAL TRAFFIC PATROL**

22. The tendency of motorists to knowingly violate traffic laws is deterred by open and visible patrol. When there is an unusual or continuing enforcement problem at a particular location, officers may park in a conspicuous location and observe traffic.
23. Uniform patrol officers, including officers assigned to traffic enforcement, shall monitor areas where complaints of traffic violations are of an on-going nature including school zones prone to violations.
24. Enforcement will be directed toward high hazard intersections, speeding complaints, and as indicated by statistical reports.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.20

### TITLE: COMPULSORY MOTOR VEHICLE LIABILITY SECURITY

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 509**

---

#### PURPOSE

The purpose of this Chapter is to provide officers with the process to be utilized when an operator of a motor vehicle cannot provide evidence of motor vehicle liability security when stopped by an officer of the New Orleans Police Department.

#### DEFINITION

**Certificate of Insurance**—The written evidence of motor vehicle liability insurance as defined by state law in the form of one of the following (**La. R.S. 32:900**):

- (a) An identification card issued by an insurer to the insured which contains the following information:
  1. The name and address of the insurance company.
  2. The insurance policy number.
  3. A description of the vehicle insured.
  4. The effective and expiration dates of the policy.
  5. The name of any person(s) excluded from the policy.
- (b) A motor vehicle liability insurance policy or a duplicate original thereof.
- (c) A motor vehicle liability policy binder or a duplicate original thereof.
- (d) A duplicate original of a motor vehicle liability bond which complies with requirements for a motor vehicle liability bond set forth by state law.
- (e) A certificate from the State Treasurer stating that cash or securities have been deposited with said Treasurer or provided for under the provisions of state law.
- (f) A certificate of self-insurance issued by the Assistant Secretary of the Office of Motor Vehicles under state law qualifying the owner of the vehicle as a self-insurer (La. R.S. 32:1042).

#### INSTRUCTIONS

1. Evidence of compulsory motor vehicle liability security are required to be maintained within all vehicles:
  - (a) Registered within the state of Louisiana, and
  - (b) Operated on any public highway or street in Louisiana.

2. Officers stopping a motor vehicle, including accident investigations, shall determine if the owner, lessee, or operator of each vehicle is able to present evidence of compulsory motor vehicle liability security as required by law (LA. R.S. 32:863.1).
3. If the operator of the motor vehicle is unable to demonstrate compliance with the law, the motor vehicle shall be impounded, subject to the provisions of this Chapter, and the operator shall be cited appropriately. The operator of the vehicle shall also be issued a notice of noncompliance for the violation. The notice of noncompliance shall serve as notice of his/her administrative hearings rights (La. R.S. 32:863.1).
4. A copy of the notice of noncompliance shall be provided to the towing or storage company taking possession of the vehicle, and a copy shall be forwarded to the Office of Motor Vehicles within three calendar days after the notice of noncompliance was issued.
5. The officer shall remove and confiscate the license plate from the vehicle, if registered in the State of Louisiana.
6. Confiscated vehicle license plates will be listed on the **NOPD Compulsory Insurance Violation Notices and Seized Plates Receipt Form**. When available, the SOD-Traffic Section Ticket Processor shall pickup the original and shall forward the paperwork daily (Monday through Friday) between the hours of 8:00 a.m. and 4:00 p.m. to the Louisiana Department of Motor Vehicles. If the Ticket Processor is not available, the District shall be responsible for delivering the paperwork. All confiscated license plates and the corresponding white original compulsory notice shall be forwarded with the NOPD Compulsory Insurance Violation Notices and Seized Plates Receipt Form. District units shall be responsible for maintaining the blue compulsory notice copy for their files. Each division shall be responsible for maintaining a filing system for receipts.

#### **DUTY OF OFFICERS TO OCCUPANTS OF SEIZED VEHICLES**

7. Officers shall assist occupants of seized vehicles in obtaining transportation from the location of the seizure to their destination, or a safe location. This assistance may take the form of contacting an individual or company (taxi) who will provide assistance, providing transportation to the individuals if their destination is within the immediate area, awaiting the arrival of public service transportation, or transporting the individuals to the district station to await the arrival of private transportation.

#### **DUTY OF OFFICERS TO OCCUPANTS OF SEIZED VEHICLES**

8. Officers may elect not to seize a vehicle for failure to show documentation of compulsory insurance in the following instances:
  - (a) The vehicle contains an occupant under the age of 12 years, or an occupant is handicapped, and alternate transportation is not readily available;
  - (b) Upon considering the location of the stop and/or the time of day, the officer believes that there would be a threat to public safety or to the occupants of the motor vehicle; and
  - (c) The assistance to relocate causes an undue burden upon the officer due to staffing constraints or working conditions.
9. The license plate on the vehicle shall be confiscated, a temporary sticker affixed to the rear window of the vehicle, valid for three days, and the operator cited for failure to show evidence of compulsory insurance. After the three day period, the vehicle may not be operated on any public street or highway. If a vehicle is found to be operating on a

public street or highway after the three day limit has expired, it shall be immediately seized.

#### **PERSONAL PROPERTY**

10. Officers shall complete a vehicle inventory using the **Tow Request and Inventory Record Form** (Form 39) in all instances where a vehicle is impounded for failure to maintain proof of liability insurance. Investigating officers shall ensure that the form number of the notice of violation is included on the form where indicated. The top and bottom portions of Form 39 shall be completed.
11. Copies of the Vehicle Storage - Tow Request and Inventory Record Form shall be distributed as indicated on the form.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.21

### TITLE: VEHICLE TOWING AND RELEASE

**EFFECTIVE: 04/15/2018**

**REVISED: Replaces Policy/Procedure 510**

---

#### PURPOSE

The purpose of this Chapter is to provide a process for towing a vehicle by or at the direction of the New Orleans Police Department.

#### DEFINITIONS

**Non-Consent Tow**—The towing of a motor vehicle where the vehicle operator has not called a towing service for assistance and is unable or unwilling to do so.

**Heavy-Duty Vehicle**—Any vehicle that, because of its size, weight, or other design or physical characteristics, would require its removal or transport under towing situations by a heavy-duty tow truck. A heavy-duty tow truck shall have a gross vehicle weight of not less than 33,000 pounds as rated by the manufacturer.

**Vehicle Inventory Search**—A warrantless search of a lawfully impounded vehicle conducted by police. An inventory search is not a search for evidence of a crime. The purpose of an inventory search is for the police to determine the contents of a vehicle in order to fulfill a variety of administrative functions. Those include:

- (a) Protecting the owner's property while in law enforcement custody;
- (b) Protecting law enforcement against claims or disputes over lost/stolen property; and
- (c) Protecting law enforcement from potential dangers located in the property.

Although incriminating evidence may be discovered in an inventory search, the discovery of such evidence must not be its intended purpose. An inventory search is not to be a ruse for a general rummaging in order to discover incriminating evidence or circumvent the search warrant requirement.

#### VEHICLE STORAGE REPORT

1. Department members requesting seizure or impound of a vehicle shall complete a NOPD **Vehicle Storage-Tow Request and Inventory Record Form** (Form 39). This form provides written authorization for the tow truck operator to possess the vehicle and a description of property within the vehicle.
2. The pink copy of the NOPD **Vehicle Storage-Tow Request and Inventory Record Form** (Form 39) shall be given to the tow truck operator and the original turned in to the

officer's unit before the officer's end of tour of duty (ETOD).

3. The original NOPD **Vehicle Storage-Tow Request and Inventory Record Form** (Form 39) shall be forwarded by the seizing officer's unit to the ISB – CID – PCI – Auto Theft / Towing & Recovery Unit no later than three working days after the vehicle is towed.

#### **REMOVAL FROM A TRAFFIC CRASH SCENE**

4. The investigating officer, upon arrival at the scene of a crash, shall determine if a tow truck from the allocation list is required to clear the scene to ensure public safety and promote the continued free flow of traffic.
5. Officers handling crashes shall inform the operators of motor vehicles involved in a crash they must remove the damaged vehicle from the public roadways, adjacent service lanes, or other city and state property within one hour after completion of the police investigation of an accident.
6. Any vehicle remaining in such areas will be considered hazardous and shall be subject to removal on the order of the New Orleans Police Department. The investigating officer is responsible for ensuring such vehicle is removed within this time limit.
7. When a vehicle has been involved in a crash and must be removed from the scene, the officer shall:
  - (a) If possible, have the driver select a towing company and shall relay the request for the specified towing company to Communications Services if the driver cannot call them.
  - (b) When there is no preferred towing company requested, one shall be selected from the Call Allocation List of towing companies maintained in Communications Services.
8. If a towing company initially selected by either the driver or from the Call Allocation List fails to respond within 45 minutes, the officer shall have Communications Services select the next available towing company from the rotational list of towing companies (La. R.S. 32:1735).
9. If the driver / owner is incapacitated or it is necessary for the Department to assume responsibility for a vehicle involved in a crash, the officer shall:
  - (a) Request Communications Services contact a company from the Call Allocation List;
  - (b) Conduct an inventory of the contents of the vehicle and document the inventory in the EPR or on the Form 39 as applicable to the incident;
  - (c) Place all inventoried contents on the books at CE&P as "PROPERTY" of the owner of the vehicle if they cannot be turned over to the owner at the time of seizure of the vehicle: and
  - (d) Store the vehicle using the **NOPD Vehicle Storage - Tow Request and Record Inventory Form** (Form 39) following review and approval by his/her supervisor.
10. Vehicles involved in auto crashes, found to be in violation of the Compulsory Motor Vehicle Liability Security law (**La. R.S.32:863.1**), and in need of a towing service due to damage, shall be impounded for violation of the Compulsory Motor Vehicle Liability Security law, regardless of which vehicle was deemed at fault.
11. Vehicles involved in a crash and being towed for violations of Compulsory Motor Vehicle Liability Insurance **must be towed from the Call Allocation List.**

**PREFERRED TOWING BUSINESSES**

12. The investigating officer shall interview the operator of the involved vehicles requiring towing support to determine if a preferred towing business has been or will be notified or if towing will be requested from the Call Allocation List.
13. If the operator has a preferred towing and recovery vendor which has not been contacted, the investigating officer shall notify the police
14. Towing Allocation Dispatcher (TAO) on radio channel DSP TAO of the name and phone number, if known, of the towing business, and request that this preferred vendor be officially notified.
15. When the operator preferred towing business has been notified by the towing allocation dispatcher, the Towing Allocation Officer (TAO) shall notify the investigating officer of the acknowledged response from the preferred towing business.
16. The operator's preferred towing business shall have a total of 45 minutes to arrive on the crash scene from the time of notification by the Towing Allocation Officer (TAO).
17. If the operator's preferred towing business informs the TAO that they cannot respond within the allotted time frame, the TAO shall then advise the investigating officer.
18. If the operator preferred towing business cannot or does not arrive in 45 minutes, the officer shall notify the operator that the Call Allocation List will be implemented.

**NON-CONSENT TOW – TOWING ALLOCATION OFFICER**

19. In those instances where the operator of a motor vehicle involved in a crash, or other traffic related emergency, requests towing support from the officer or is unable or refuses to make arrangements for the removal of said vehicle, it shall be the responsibility of the investigating officer to utilize the New Orleans Police Department Call Allocation List.
20. Unless the operator is incapacitated, or no longer on the scene, the officer shall notify the operator that a towing and recovery business will be dispatched to the scene to remove and store the vehicle at the operator's expense.
21. NOPD Form 39 must be completed by the investigating officer and signed by the operator/owner of the vehicle before the officer contacts the TAO. If the operator/owner of the vehicle is unable or unwilling to sign the form, the officer shall write, "**operator/owner refused/unable to sign**" on the signature line of the financial responsibility section of Form 39.
22. The vehicle information shall be provided to the TAO in the same order that they appear in the police report:
  - (a) Description of vehicle,
  - (b) License plate number of the vehicle,
  - (c) Name of operator of the vehicle,
  - (d) Type of tow truck needed, and
  - (e) Name of requesting officer/unit number.
23. The requesting officer shall obtain acknowledgement of the notification of the tow company by the TAO on "**DSP TAO.**"

24. It will be the responsibility of the investigating officer to ensure that each responding tow company only services the vehicle specifically assigned to that towing business.
25. The next sequential towing business on the rotation list shall be assigned to each disabled vehicle based on the order the vehicles appear in the police report. Towing companies shall be deployed from the Call Allocation List.
26. The investigating officer shall notify the operator of the vehicle that the New Orleans Police Department Call Allocation List towing service has been notified and is in route.
27. The on scene officers shall ensure the roadway is cleared as soon as possible. The officer(s) shall not allow a tow truck driver to remove a wrecked or disabled vehicle until such time as the investigating officer has completed his/her investigation or, if in the officer's opinion, the vehicles must be moved to ensure public safety.
28. If a tow truck from the Call Allocation List arrives at the scene and is unable to provide the necessary services, they must immediately notify the on scene officer.
29. Any substitute truck must be from the same company and such delivery must be within a time period not exceeding an additional 30 minutes.
30. Upon notification by the tow truck driver that the towing business cannot provide the necessary services, the investigating officer shall immediately contact the TAO on "**DSP TAO**" and request the services of the next towing business on the Call Allocation List. That towing business has 45 minutes to arrive on the scene.

#### **ADDITIONAL TOWING RESPONSIBILITIES**

31. The investigating officer shall not relocate or leave the accident scene until all of the tow truck(s) have arrived and all of the disabled/insurance vehicles have been removed.
32. The investigating officer shall ensure that all towing service businesses, whether called from the NOPD Call Allocation List or by the vehicle operator, clean all debris from a crash scene, for each vehicle assigned. The investigating officer shall monitor the clean-up of a crash scene and prohibiting the towing and removal of the vehicle until all such debris has been cleared.
33. In those instances when a vehicle is towed by the Call Allocation List towing business, it shall be noted in the **Uniform Motor Vehicle Traffic Crash Report**. In those instances where the vehicle is towed to a storage facility under the control of the towing business, the name, address, and telephone number of the storage facility shall be noted in the narrative portion of the crash report. No towing service shall tow or remove any vehicle to any other location except the towing service's approved storage facility, unless authorized in advance by the registered owner of the vehicle, the vehicle operator, or the New Orleans Police Department.

#### **STORAGE AT AN ARREST SCENE**

34. Whenever a person in control of a vehicle is arrested, this department will provide reasonable safekeeping by towing the arrestee's vehicle, subject to the exceptions described below.
35. The arrestee's vehicle shall be towed whenever:
  - (a) It is needed for the furtherance of an investigation or prosecution of the case, or
  - (b) When the community caretaker doctrine would reasonably suggest that the

vehicle should be towed (e.g., traffic hazard, high crime area).

36. Officers should impound a vehicle and complete the **NOPD Vehicle Storage - Tow Request and Record Inventory Form** (Form 39) including review and approval by a supervisor, whenever a vehicle is:
- (a) Evidence in a crime and needs to be held for prosecution.
  - (b) Suspected of containing evidence which cannot be collected in the field.
  - (c) A recovered stolen vehicle or displays evidence consistent with auto theft and:
    - i. The owner or other responsible party cannot be contacted.
    - ii. A supervisor authorizes impoundment based on a need to secure the vehicle.
37. Situations where consideration should be given to leaving a vehicle at the scene in lieu of towing include:
- (a) Providing the vehicle can be lawfully parked.
  - (b) Leaving the vehicle in a reasonably secured and safe condition.
  - (c) Traffic related warrant arrest.
  - (d) Situations where the vehicle was not used to further the offense for which the occupant was arrested or is not subject to forfeiture proceedings.
  - (e) Whenever the licensed owner of the vehicle is present, willing and able to take control of any vehicle not involved in criminal activity.
  - (f) Whenever the vehicle otherwise does not need to be stored and the owner requests that it be left at the scene. In such cases, the handling officer shall note in the report that the owner was informed that the Department will not be responsible for theft or damages.
35. Live animals which are inside motor vehicles to be impounded shall be turned over to the owner or another responsible party whenever possible. In cases where the animal cannot be released to a citizen, the S.P.C.A. shall be contacted for assistance. Under no circumstances will a live animal accompany an impounded motor vehicle.
36. Perishables found in motor vehicles requiring impoundment pose a special problem for department members because of the inability for storing these items. Officers impounding motor vehicles containing perishables shall make every effort to have a responsible party take possession of the items.
37. When large quantities of perishables are located inside a locked compartment of a commercial carrier and the vehicle can be towed or driven to the Almonaster Auto Impound, the vehicle's cargo may be transferred to a responsible party.
38. When it is necessary to contact the shipping or receiving party to secure perishables, the officers shall document their attempts whether successful or not, including the names of persons contacted and times of contact, in their incident report. The information pertaining to who was contacted, date and time of contact, and a telephone number where the responsible party was contacted shall be provided to the Department of Public Works, Almonaster Auto Impound.
39. If a responsible party cannot be contacted or cannot take custody of the perishables within a reasonable time frame, the impounding officer shall contact his/her supervisor and notify him/her of the circumstances and results of the attempts. The supervisor must approve the disposal of the perishables and the process and manner in which it will take place. The perishable items shall be disposed before they become a nuisance or dangerous by placing the items in the correct waste disposal container and, if necessary, notifying the City's waste management contractor to empty the waste container(s). Photographs should be taken to document the items being disposed of and the location (container) in which they were placed. This process and approval shall be documented

in the official report of the impoundment.

### **DRIVING A NON-CITY VEHICLE**

38. Vehicles that have been towed by, or at the direction of, the Department should not be driven by police personnel unless it is necessary to:
- (a) Move a vehicle a short distance to eliminate a hazard,
  - (b) Prevent the obstruction of a fire hydrant, or
  - (c) To comply with parking regulations.

### **AUTO THEFT - TOWING AND RECOVERY UNIT**

39. Impoundment Forms completed by department members and notifications of impoundments received from non-city storage facilities shall be promptly documented and filed by the ISB – CID – Auto Theft / Towing and Recovery Unit so that they are immediately available for release or review should inquiries be made (**R.S. 32:1718(B)**).

### **UNSOLICITED RESPONSE VIOLATION BY A TOWING BUSINESS**

40. Tow truck operators shall not respond to the scene of a police investigation unless called by the police or by the operator of a disabled vehicle. No person, including but not limited to, the tow truck owner, his agent, employee, or operator, shall stop at the scene of an accident for the purpose of soliciting an engagement for towing services unless he/she has been requested by the New Orleans Police Department or other police agency.
41. Officers shall identify all towing businesses on a crash scene both prior to and after an officer's arrival to ascertain if the tow truck was requested by the operator.
42. Enforcement action taken against a tow truck company for unsolicited response shall require a separate item number than the traffic incident or crash.
43. A copy of the municipal affidavit(s) and/or summons(es) shall be forwarded to the ISB – CID – Auto Theft / Towing and Recovery Unit within 24 hours of the occurrence.

### **HEAVY-DUTY TOWING VEHICLE REQUEST**

44. All requests for heavy duty towing shall be made through the “**DSP TAO**” towing allocation officer. All procedures outlined under this policy shall apply to heavy-duty towing / vehicles.

### **VEHICLE STORAGE - TOW REQUEST - INVENTORY SEARCHES**

45. All property in a stored or impounded vehicle shall be inventoried and listed on the **Vehicle Storage-Tow Request and Inventory Record Form** (Form 39) or the applicable EPR and placed on the books at CE&P as “PROPERTY” of the owner of the vehicle if they cannot be turned over to the owner at the time of seizure of the vehicle. This includes the trunk and any compartments or containers, even if they are closed and/or locked.
46. Members conducting inventory searches should be as thorough and accurate as possible in preparing an itemized inventory. Inventory procedures are for the purpose of protecting an owner's property, to provide for the safety of officers and the public, and to protect the Department against fraudulent claims of lost, stolen or damaged property.

47. Vehicles containing non-fixed, removable items in or on the vehicle shall be noted in the remarks section of Form 39 or the applicable EPR and placed on the books at CE&P as "PROPERTY" of the owner of the vehicle if they cannot be turned over to the owner at the time of seizure of the vehicle.
48. The inventory shall be made in the presence of the tow company driver. The signature of the tow company driver is required on all inventory forms.
49. Investigating officers shall complete the **NOPD Vehicle Storage - Tow Request and Inventory Record Form** as indicated below:
  - (a) When the vehicle is impounded for violation of the compulsory motor vehicle liability security, the top and bottom portions must be completed.
  - (b) When the operator of a vehicle involved in a crash has been removed from the scene (hospitalized or arrested), and there is no concerned individual to take possession of the vehicle, the operator's signature on the form is not required. The officer shall write "**hospitalized or arrested**" on the signature line of Form 39 (complete entire form).
  - (c) When the vehicle is impounded because it is unattended and poses a hazard to public safety, the officer shall enter "**driver not on scene**" on the signature line of Form 39. Complete entire form.
  - (d) When a vehicle is disabled, either through an accident or mechanical malfunction, the driver is on the scene, and towing is required by municipal ordinance, the entire form shall be completed.
50. If the potential for damage to a locked container appears to outweigh the protection of the items inside, other options should be considered regarding locked containers including:
  - (a) Obtaining access to the locked container from the owner;
  - (b) Placing the locked container into safekeeping; or
  - (c) Obtaining a written waiver of responsibility for the contents of the locked container.
51. Copies of the **NOPD Vehicle Storage - Tow Request and Inventory Record Form 39** shall be distributed as indicated on each page.
52. Investigating officers shall not complete the **NOPD Vehicle Storage - Tow Request and Inventory Record form** on crashes where the vehicle operator is on the scene and towing services have already been ordered by the operator with no involvement of the Department.

#### **PRESERVATION OF EVIDENCE**

53. An officer removing a vehicle from a scene who has probable cause to believe that the vehicle or its contents constitute evidence which tends to show that a criminal offense has been committed, or tends to show that a particular person has committed a criminal offense, shall ensure that all legally required and reasonably necessary efforts to preserve the evidence, including but not limited to, safe storage in NOPD custody and control, are taken until the evidence is released to the owner or otherwise disposed of according to law.
54. Generally, officers may not search vehicles, even incident to arrest, unless the officer has obtained a search warrant or can show that another exception to the warrant requirement applies. (See: **Chapter 1.2.4 – Search and Seizure**).

**SECURITY OF VEHICLES AND PROPERTY**

55. Unless it would cause an unreasonable delay in the completion of a vehicle impound/storage or create an issue of officer safety, officers should make reasonable accommodations to permit a driver/owner to retrieve small items of value or personal need (e.g., cash, jewelry, cellular telephone, prescriptions) that are not considered evidence or contraband.
56. Prior to vehicle's removal from the scene, officers shall remove any movable property from the passenger compartment of the vehicle. Movable property must be processed in accordance with **Chapter 84.1 – Evidence and Property**.
57. This property may be placed in the trunk of the vehicle only if the owner is present and the key to the trunk is returned to the owner.
58. If a search of a vehicle leaves the vehicle or any property contained therein vulnerable to unauthorized entry, theft or damage, members conducting the search shall take such steps as are reasonably necessary to secure and/or preserve the vehicle or property.

**PROHIBITED ACTS**

59. No employee of the New Orleans Police Department may own, have a financial interest in, or otherwise be in the employ of any company or business engaged in the towing and recovery business, work secondary employment for such a company or business, or act as an agent of such a company or business.
60. Employees are prohibited from recommending, offering, soliciting, or forcing the services of any towing business to the operator or representative of a crash vehicle other than as assigned by this Chapter.
61. Officers shall not reassign towing services that have been dispatched from the Call Allocation List to any other vehicle other than the vehicle assigned by the TAO.

**TOWING AND RECOVERY SECTION: DUTIES AND RESPONSIBILITIES**

62. The following duties shall be performed by the Auto Theft / Towing and Recovery Unit.
  - (a) To manage the Call Allocation List that has been established by Municipal Ordinance Sec. 162-998 for towing and recovery of motor vehicles involved in crashes, or other traffic related incidents.
  - (b) To conduct inspections of all tow wagons that have been approved for the Call Allocation List for compliance with applicable municipal and state laws.
  - (c) To conduct inspections of all towing businesses and storage facilities for compliance with all applicable municipal and state laws. The Towing and Recovery Unit shall conduct background checks of all employees of each towing and recovery business that applies for participation on the Call Allocation List.
  - (d) To distribute City of New Orleans, Department of Police, Call Allocation List decals to those towing and recovery businesses that meet all of the qualifications and specifications as set forth in Municipal Ordinance numbers 162-996 through 162-1017.
63. The **New Orleans Police Department Towing Allocation Inspection Sticker** shall be affixed to the inside windshield, on the driver's side, above the motor vehicle inspection sticker, of all tow trucks that have been approved for inclusion on the Call Allocation List. The decal shall be affixed to the tow truck by a member of the Towing and Recovery Section.

64. The decal shall be renewed annually upon re-application and approval of the towing business for the Call Allocation List. The license plate number of the tow truck shall be entered on the rear inside of the decal. The decal color will change each year and will have the year in the center in large, bold text.
65. The Towing and Recovery Unit shall conduct criminal and administrative investigations of towing and recovery businesses. Department members receiving complaints regarding towing service and storage facilities shall notify the Towing and Recovery Unit for necessary follow-up investigation. Copies of any reports on incidents that involved a towing or storage facility investigated conducted by a department member shall be forwarded to the Towing and Recovery Unit.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 61.22

### TITLE: IMPOUNDMENT OF MOTOR VEHICLES INVOLVED IN CRIMINAL ACTIVITY

**EFFECTIVE: 04/22/2018**

**REVISED: Replaces Policy 512**

---

#### PURPOSE

The purpose of this Chapter is to establish the guidelines for the impoundment and towing of motor vehicles in criminal investigations and those instances not covered by **Chapter 61.2 - Compulsory Motor Vehicle Liability Security** and **Chapter 61.21 - Vehicle Towing and Release**.

#### POLICY STATEMENT

1. The NOPD impoundment of motor vehicles by the Department shall be limited as follows:
  - (a) The motor vehicle is evidence in a crime and as such needs to be held for prosecution in court.
  - (b) The motor vehicle is known to contain, or is suspected of containing, evidence which cannot be collected on scene or in the field.
  - (c) The motor vehicle is a recovered stolen vehicle or displays evidence consistent with auto theft, such as damaged steering column or window(s), altered VIN plate, etc., and:
    - i. The owner or other responsible party cannot be contacted to recover same;
    - ii. An officer on the scene determines the need to secure the vehicle to prevent further damage or removal; and
    - iii. A supervisory officer on the scene authorizes the impoundment.
2. Motor vehicles which are to be examined by a Crime Scene Technician (CST) shall not be removed from the scene without the approval of the Crime Scene Technician or the CST Supervisor.
3. Motor vehicles shall be processed in accordance with **Chapter 83.1 – Collection and Preservation of Evidence**.
4. Motor vehicles secured in an evidence cage shall be processed within 48 hours, depending upon the availability of Crime Scene Technicians.
5. Once a vehicle has been processed, the investigating officer shall be responsible for

- notifying the Homicide Unit for coordinating the removal of the vehicle from the evidence cage.
6. The criteria used by the Orleans Parish District Attorney's Office (DA's Office) for determining the status of a vehicle after processing is:
    - (a) If an arrest has been made in the case at the time of impoundment and processing, the DA's Office must approve the release of the vehicle. The vehicle shall be impounded until released by the DA's Office.
    - (b) If no arrest has been made in the case at the time of impoundment and processing, the vehicle shall be stored at the Almonaster Auto Impound after release from processing.
  7. If charges are subsequently refused by the DA's Office, they will advise the investigating officer and the Homicide Unit that the vehicle may be released to the owner.
  8. If an arrest is made after the vehicle is in Almonaster Auto Impound storage and the case is accepted for prosecution by the DA's Office, the vehicle must be held until a defense attorney is appointed / hired and the DA's Office will notify the defense attorney of the availability of the vehicle for inspection (usually a 10 day range). Once the time limitations have elapsed, the DA's Office will advise the investigating officer and the Homicide Unit that the vehicle may be released to the owner.
  9. Investigating officers **shall not place** impounded motor vehicles outside of the evidence cages in the clearly marked no parking zones around the evidence cages.

## DEFINITIONS

**Evidence**—Property as defined herein, including documentary or oral statements, material objects admissible as testimony in a court of law, and exhibits taken or recovered in the course of an investigation that may tend to prove or disprove the facts of a case.

**Property**—Any material object of value, however slight, tangible or intangible.

## SEARCHING IMPOUNDED MOTOR VEHICLES

10. Officers seeking to search impounded motor vehicles for evidentiary purposes shall apply for and obtain a search warrant within 24 hours of impoundment of the vehicle. (See: **Chapter 1.2.4 – Search and Seizure** and **Chapter 1.2.4.2 – Search Warrant Forms and Reviews**.)
11. A copy of the search warrant shall be placed inside the searched motor vehicle. The copy shall be placed in such a location where it is believed it will not be damaged or destroyed due to weather conditions. (Examples include a closed glove box, inside a locked trunk, or other secure location.)
12. All evidence or property removed from the vehicle shall be processed in accordance with departmental policy (see: **Chapter 83.1 – Collection and Preservation of Evidence**).
13. A complete inventory of all property found in the impounded vehicle shall be made, whether or not the property found is of evidentiary value or not.
14. A copy of the search warrant shall be left with the Almonaster Auto Impound in all instances where a motor vehicle is searched at a site operated by the Department of Public Works. Officers shall execute the search warrant after signing the investigative

log book at the Almonaster Auto Impound.

## GENERAL INFORMATION

15. When a motor vehicle is impounded, the exigent circumstances exception for a warrantless search is nullified. **All evidentiary searches of impounded motor vehicles must be performed pursuant to a search warrant.**
16. All field units shall have an adequate supply of NOPD **Vehicle Storage-Tow Request and Inventory Record Form** (Form 39) in their possession at all times.
17. Motor vehicles authorized for impoundment shall be taken directly to either:
  - (a) The Department of Public Works' Almonaster Auto Impound, or
  - (b) The NOPD evidence cage on the first floor of the rear of Police Headquarters.
18. The City of New Orleans' Almonaster Auto Impound is operated and supervised by the Department of Public Works and shall store motor vehicles impounded by NOPD. **Vehicles impounded for "safe keeping" (non-evidentiary) shall not be towed to the evidence cage.**
19. Other city agencies (towing, auto pound, etc.) accepting custody of the vehicle shall be allowed to keep and/or photocopy the original NOPD **Vehicle Storage-Tow Request and Inventory Record Form** (Form 39) for their records.
20. Motor vehicles impounded because they were used in the commission of a crime and impounded for processing by the SCIS - Crime Lab or for other evidence related purposes shall be deposited in the NOPD evidence cage.
21. The removal of property from the interior of a motor vehicle will only be allowed when the vehicle is not to be processed by a Crime Scene Technician from the Scientific Criminal Investigation Section (SCIS – Crime Lab) and the vehicle's interior is not considered a crime scene by the investigating officer. (See: **Chapter 61.21 – Vehicle Towing and Release**).
22. The SCIS – Crime Lab shall be responsible for the management and maintenance of the evidence cage.
23. The NOPD NCIC Unit shall maintain a copy of all keys related to the evidence cage and shall ensure they are accounted for at all times.
24. To ensure the integrity of the cage and the impounded motor vehicles, only the investigating officers and authorized individuals shall be allowed to enter the evidence cage. In all cases, a written record of each person entering the cage shall be made by the investigating officer.
25. Live animals which are inside motor vehicles to be impounded shall be turned over to the owner or another responsible party whenever possible. In cases where the animal cannot be released to a citizen, the S.P.C.A. shall be contacted for assistance. Under no circumstances will a live animal accompany an impounded motor vehicle.
26. Perishables found in motor vehicles requiring impoundment pose a special problem for department members because of the inability for storing these items. Officers impounding motor vehicles containing perishables shall make every effort to have a responsible party take possession of the items.

27. When large quantities of perishables are located inside a locked compartment of a commercial carrier and the vehicle can be towed or driven to the Almonaster Auto Impound, the vehicle's cargo may be transferred to a responsible party.
28. When it is necessary to contact the shipping or receiving party to secure perishables, the officers shall document their attempts whether successful or not, including the names of persons contacted and times of contact, in their incident report. The information pertaining to who was contacted, date and time of contact, and a telephone number where the responsible party was contacted shall be provided to the Department of Public Works, Almonaster Auto Impound.
29. If a responsible party cannot be contacted or cannot take custody of the perishables within a reasonable time frame, the impounding officer shall contact his/her supervisor and notify him/her of the circumstances and results of the attempts. The supervisor must approve the disposal of the perishables and the process and manner in which it will take place. The perishable items shall be disposed before they become a nuisance or dangerous by placing the items in the correct waste disposal container and, if necessary, notifying the City's waste management contractor to empty the waste container(s). Photographs should be taken to document the items being disposed of and the location (container) in which they were placed. This process and approval shall be documented in the official report of the impoundment.

#### **INVESTIGATING OFFICER RESPONSIBILITIES**

30. Officers seeking to impound a motor vehicle shall complete a **NOPD Vehicle Storage-Tow Request and Inventory Record Form** (Form 39) and have their supervisor review the form for completeness before signing the approval authorizing impoundment.
31. The completed **NOPD Vehicle Storage-Tow Request and Inventory Record Form** (Form 39) shall be given to the tow wagon operator upon taking custody of the vehicle. (An impoundment form shall not be used when a motor vehicle is involved in a crash or when found to be in violation of the mandatory compulsory liability security law.)
32. Prior to removal from the scene, officers shall remove any movable property from the passenger compartment of the motor vehicle. This property may be placed in the trunk of the motor vehicle only if the owner is present and the key to the trunk is turned over to the owner. Otherwise, movable property must be processed at the Central Evidence and Property Section in accordance with department policy. Motor vehicles containing movable property in the passenger compartment will be refused at the Almonaster Auto Impound. A complete inventory of all property found in the impounded vehicle shall be made, whether or not the property found is of evidentiary value or not.
33. Upon having a motor vehicle placed inside of the evidence cage, the investigating officer shall copy the **NOPD Vehicle Storage-Tow Request and Inventory Record Form** (Form 39) in triplicate. The original completed **NOPD Vehicle Storage-Tow Request and Inventory Record Form** (Form 39) shall be placed on the windshield of the impounded vehicle, with the second copy being placed in the Vehicle Evidence Log Book located in the NOPD NCIC Unit. The third copy shall be maintained by the investigating officer for his/her file.
34. Investigating officers **shall be present** at the time the motor vehicle is processed by the Crime Scene Technician, documenting within his/her investigative report what actions were taken by the technician.
35. After the motor vehicle has been processed in the evidence cage by the SCIS - Crime

Lab, the investigating officer shall submit the **Vehicle Release Authorization Form #353** to the Homicide Section **if the vehicle is not to be retained as evidence.**

### **NOPD NCIC UNIT RESPONSIBILITIES**

36. The NOPD NCIC Unit shall maintain the Vehicle Evidence Log Book and shall ensure it is completed when a vehicle is placed in the evidence cage. NOPD NCIC Unit members shall sign the NOPD **Vehicle Storage-Tow Request and Inventory Record Form** (Form 39) upon accepting custody of a motor vehicle to be placed in the evidence cage. A copy of the NOPD **Vehicle Storage-Tow Request and Inventory Record Form** (Form 39) shall be obtained by NOPD NCIC Unit members. The NOPD NCIC Unit shall maintain a copy of all keys related to the evidence cage and shall ensure they are accounted for at all times.

### **RELEASE OF IMPOUNDED MOTOR VEHICLES**

37. Impounded motor vehicles may be designated for release pursuant to the guidelines of this Chapter by the investigating officer and/or the Office of the District Attorney.
38. Motor vehicles not designated for release to the owner by the investigating officer and/or the Office of the District Attorney shall be held as follows:
- (a) Motor vehicles which are held for misdemeanor municipal offenses (violation of municipal ordinance) may be impounded for a maximum of five days.
  - (b) Motor vehicles held for investigatory purposes, where no arrest has been made and the offense involves a violation of state statute, may be held for a period of 30 days. Investigating officers may request that a vehicle be held for an extended period of up to 30 additional days. This request shall be made in writing to the Almonaster Auto Impound. Any requests for impoundment beyond the 30 additional days shall be made in writing and approved by the investigating officer's Bureau Chief.

**NOTE: Motor vehicles which are evidence in a crime for which State charges are pending shall be held until released by the Office of the District Attorney.**

39. Persons seeking release of impounded motor vehicles shall be advised to do so during office hours of the Department of Public Works, Almonaster Auto Impound: Monday through Friday, excluding holidays, from 8:00 A.M. to 4:00 P.M.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 71.1

### TITLE: PRISONER TRANSPORTATION AND GUARDING

**EFFECTIVE: 12/6/15**

**REVISED: Replaces Policy 453**

---

#### PURPOSE

The purpose of this Chapter is to govern the transportation of persons in custody by law enforcement officers of this Department between points of arrest and initial booking, the transportation of persons in custody between jurisdictions and facilities and the temporary guarding of persons in custody in treatment settings.

This Chapter provides for the safety and security of persons in custody, the transporting officers, and the public.

#### POLICY STATEMENT

Transporting prisoners is a potentially dangerous function. Therefore, it is the policy of NOPD that officers are to take the precautions necessary while transporting prisoners to protect the lives and safety of officers, the public, and the person in custody. The transporting officer should never assume that the prisoner was searched by another officer. The Officer transporting the subject shall use the degree of restraint that is objectively reasonable to safely complete the task.

#### DEFINITIONS

Definitions relevant to this Policy include:

**Guard detail**—The act of providing security over a person while he or she is in the custody of the NOPD and being evaluated for treatment, undergoing treatment or being admitted to a health care facility that has been charged with the commission of an offense that requires physical booking and incarceration. Once the booking paperwork has been turned over to the Sheriff's Office for processing, the responsibility for the person in-custody's security, by law, rests with the sheriff.

**High-Risk Prisoner**—A person in custody for a crime or in transport between detention facilities who is a:

- Violent or hostile individual;
- Suspect charged with violent crimes;
- Suspect with known record for assaulting officers and/or attempting escapes; and

An individual with known mental history including commitment. (Procedures listed herein do not apply when the Crisis Transportation Service is involved in the transportation of a patient – see **Chapter 41.26 – Crisis Transportation Service**).

**Prisoner**—An individual who is lawfully in the physical custody of an officer. A prisoner may be a suspect but may also include others for whom the officer has lawful authority to take into custody.

**Suspect**—An individual who is reasonably believed to have a connection to criminal activity.

### **GENERAL PROVISIONS**

1. Suspects in custody for traffic arrests will not be transported with other suspects charged with non-traffic related crimes unless they are arrested from within the same vehicle and are known to each other.
2. Juveniles will not be transported with adult arrested subjects.
3. Male and female prisoners will not be transported in the same vehicle.
4. Prisoners showing hostility toward each other will not be transported in the same vehicle.
5. No more than three arrested subjects will be transported in one patrol vehicle at one time, but, only the number of prisoners for which there are functioning seat belts.
6. Under no circumstances will arrested subjects be transported in the front seat of a vehicle.
7. Officers will not transport arrested subjects to a district police station or any other location than a booking facility except for the purpose of taking statements or debriefing by officers **after** obtaining approval from their supervisors. The transport, reason and approval must be specifically noted on the officer's and the supervisor's Daily Activity Sheet.

### **OFFICER RESPONSIBILITIES**

8. Vehicle Inspection:
  - (a) At the beginning and end of each tour of duty, the officer assigned a vehicle regularly used for prisoner transport shall inspect it for readiness as follows:
    1. The safety screen shall be securely in place and undamaged.
    2. All windows shall be intact and outer door latches in proper working order.
    3. Rear-seat door handles and window controls shall be deactivated.
    4. The interior shall be thoroughly searched to ensure that no weapons or contraband have been left behind or hidden within the vehicle.
  - (b) Prior to placing a prisoner in the vehicle for transport, the transporting officer shall inspect the interior for weapons or contraband.
  - (c) The transporting officer shall inspect the vehicle again after the prisoner has been delivered to the detention facility or other destination.
  - (d) All property or contraband discovered/seized from a transport vehicle is to be turned over to the New Orleans Police Department's Central Evidence and Property Section. Officers shall complete the required incident report documenting all circumstances surrounding the discovery of the contraband.
  - (e) The searching/discovering officer shall immediately notify his or her supervisor if contraband is discovered in a transport vehicle search. Items discovered in the search can then be linked to the prisoner in a timely manner.

## 9. Handcuffing/Use of Restraints:

- (a) Officers shall only use restraints or handcuffs consistent with **Chapter 1.3.1.1 – Handcuffing and Restraint Devices**.
- (b) Prisoners shall not be handcuffed to any part of the vehicle during transport.
- (c) Additional approved restraint devices may be used to secure a prisoner who violently resists arrest or poses a threat to himself or to the public. Supervisory approval should be obtained prior to use or a supervisor notified as soon as practicable after use and safety permits.
- (d) Leg restraints shall be used when an officer believes the prisoner has a potential for violent behavior.
- (e) Officers are prohibited from transporting prisoners who are restrained in a prone position (see **Chapter 1.3.1.1 – Handcuffing and Restraint Devices**).

## 10. Transport:

- (a) Prior to transport, the transporting officer shall thoroughly search all prisoners for any weapons or contraband.
  - 1. A protective search should be conducted by an officer of the same sex as the prisoner. When this is not practical, officers shall strictly adhere to **Chapter 1.2.4 - Search and Seizure** on searching prisoners of the opposite sex.
  - 2. The transporting officer shall ensure that a search of the prisoner is conducted prior to transport, whether or not searches were conducted by arresting officers.
- (b) Activate all video and audio recording devices within the transporting vehicle and continue to record the transport until such time as custody of the prisoner is transferred to another individual or agency.
- (c) When available, female officers should transport female prisoners. If a male officer is transporting a female prisoner, they shall advise communications section that they are transporting a female prisoner.
- (d) Special precautions shall be employed when transporting **high-risk prisoners**. In particular:
  - 1. Two officers shall participate in the transport;
  - 2. The transport vehicle **MUST** have a safety screen/cage; and
  - 3. Rival gang members should not be transported together.
- (e) Prior to initiating the transport, the officer shall provide the communications section with the following information:
  - 1. Arrest location and destination of transport; and
  - 2. Time and mileage readings before and after transport.
- (f) The officer should use care when assisting a prisoner into the vehicle for transport to prevent injury to the prisoner and to the officer.
- (g) Prisoners shall be transported in a manner that allows for constant visual observation. Seating of officers and prisoners should conform with the following:
  - 1. Where the vehicle has a security screen but only one transporting officer, the prisoner shall be placed in the back seat on the right-hand side of the vehicle.
  - 2. When a prisoner is being transported in a two-officer vehicle without a security screen and a supervisor has granted permission, the prisoner shall be placed in the right rear seat. The second officer shall sit in the left rear seat behind the driver.
  - 3. One transporting officer shall not transport more than one prisoner in a vehicle without a security barrier, but should request transport assistance.

4. All prisoners shall be secured in the vehicle by proper use of a seat belt unless a supervisor has given prior approval for the seat belt to not be used. Supervisors shall grant such approval only under extenuating circumstances. The reasons for not securing the individual in a seat belt shall be documented by the transporting officer and approved by the Supervisor. The approval shall be noted on both the officer's and supervisor's Daily Activity Sheet and in any related EPRs.
- (h) The physical well-being of prisoners shall be monitored during transit. Particular attention shall be directed to persons reported or suspected of being under the influence of drugs and/or alcohol or who have a history or propensity for violence.
  1. Prisoners who report/display symptoms of serious illness during transit shall be taken to the nearest emergency room for treatment.
  2. Escorting officers shall remain with the prisoner-patient at all times unless relieved by other authorized personnel.
  3. Potentially violent persons in custody shall be restrained at all times in the treatment facility unless such restraint would interfere with essential treatment.
- (i) Symptoms or reports of physical or mental illness (such as threats of suicide or psychotic behavior) shall be reported to the booking officer.
- (j) Any wheelchairs, crutches, prosthetic devices, and medication should be transported with, but not in the possession of, the prisoner.
- (k) Prisoners shall not be left unattended during transport.
- (l) The transporting officer should proceed directly to the destination. Officers shall not engage in enforcement activities while transporting prisoners unless failure to act would risk death or serious bodily injury to another. In non-life-threatening yet serious situations, officers should call for backup assistance and may remain on-hand until such assistance has arrived.
- (m) Any escape shall be immediately reported to the communications section together with a complete description of the fugitive, mode and direction of travel, crime, and propensity for violence if known.

#### **DOCUMENTATION OF CUSTODY FOR TRANSPORT**

11. Arresting/transporting officers shall document the name and agency and title of the individual accepting or transferring custody of each arrested person. The following guidelines apply:
12. For arrests by NOPD in Orleans Parish, the arresting officer shall:
  - (a) Obtain the name of the receiving deputy and record it in the incident report. (In the absence of an incident report, the receiving deputy's name shall be listed in the remarks/comments section of the transporting officer's paperwork, affidavit, summons, or traffic citation.)
  - (b) In instances where the transporting officer is not the arresting officer, the transporting officer shall obtain the name of the receiving deputy and relay their name to the reporting officer for inclusion into their report.
13. For the transport of arrests outside of Orleans Parish the receiving/transporting officer shall:
  - (a) Obtain the name of the individual from whom they received custody.
  - (b) Upon arrival at Central Lock Up, the transporting officer shall obtain the name of the OPSO deputy who accepts custody of the prisoner. This information shall be documented in the report/transport paperwork.

**TRANSFERING CUSTODY OF AN NOPD PRISONER TO AN OUTSIDE AGENCY**

14. Should it be necessary for an officer with a prisoner in custody to relinquish custody of that prisoner to an outside jurisdiction, the following shall apply:
  - (a) The name and jurisdiction of the accepting individual shall be documented in an NOPD incident report.
  - (b) If the transfer of custody is not part of a crime investigation report, it will be written under a signal 21 (miscellaneous incident) stating how the officer came into custody of the suspect, and providing reasons why the suspect was turned over to another jurisdiction.

**DOCUMENTATION OF CUSTODY – JUVENILES**

15. Documentation of custody in a juvenile detention incident (see **Chapter 44.1.4 – Temporary Custody of Juveniles**) shall be completed as follows:
  - (a) Arresting/Transporting officers shall document in their report the identity of the person accepting custody of the detained juvenile from the Juvenile Intake Unit.
  - (b) Arresting/Transporting officers shall document in their report the identity of the person accepting custody of the detained juvenile from either the Truancy Center or the Curfew Center.
  - (c) Arresting/Transporting officers from the Juvenile Intake Unit shall document in their report/transport paperwork the identity and place of employment of the person accepting custody of the detained juvenile. This will include all outside enforcement jurisdictions and/or social service agencies.

**IDENTIFICATION OF PRISONERS TO BE TRANSPORTED**

16. Officers accepting custody of a prisoner from a detention facility shall utilize all resources available to confirm the identity of the prisoner prior to transport. Sources can include, but are not limited to: photographs, fingerprints, tattoos, scars, other identifiable markings, and/or personal effects in possession of the prisoner at the time of their arrest.

**ESCAPE/SUICIDE POTENTIAL – OTHER IMPORTANT TRAITS**

17. Prior to accepting custody of a prisoner from a detention facility, transporting officers shall inquire if the prisoner:
  - (a) is a suicide threat;
  - (b) is an escape threat;
  - (c) feigns illness;
  - (d) has unusual physical dexterity or strength;
  - (e) possesses martial arts skills; or
  - (f) has any other traits which may be deemed important and effect safe transport.
18. All such information shall be documented by the transporting officer on their Daily Activity Sheet.
19. The transporting officer shall verbally inform the accepting individual of the officer's knowledge of the arrested subject in addition to whatever written documentation is available.

**DISPOSITION OF DOCUMENTATION RECEIVED FROM DETENTION FACILITIES**

20. All paperwork received from a detention facility pertaining to the transfer of custody of a prisoner, whether adult and juvenile, shall be delivered by the transporting officer to the facility accepting custody of the prisoner.

**USE OF FORCE**

21. In all cases when an officer uses physical force while making an arrest or during the transport of a prisoner, the officer shall immediately notify a supervisor and ensure the prisoner receives appropriate medical treatment. The provisions of **Chapter 1.3 – Use of Force** provide direction and control (specifically paragraph 7-Medical Attention).

**CEW**

22. The provisions of **Chapter 1.7.1 – Conducted Electrical Weapon (CEW)** provide direction and control (specifically paragraphs 86 thru 91 under Medical Treatment). All persons who have been struck or subjected to the electric discharge of the CEW shall be transported to a hospital for medical evaluation or attention prior to booking and be monitored at all times while in police custody.
23. Arresting or transporting officers must obtain a medical treatment form from the health care facility for all arrested persons detailing the treatment or refusal.
24. The officer will deliver the medical treatment form to Central Lockup with the arrested person.
25. A copy of the medical treatment form shall be attached to the incident report.

**GUARD DETAILS**

26. When a prisoner is transported to a medical care facility, extreme caution will be taken to ensure the prisoner is isolated from other patients and not left unattended by the transporting officer.
27. If the prisoner is admitted, the transporting officer shall immediately notify his/her immediate supervisor and the on duty Communications Services platoon supervisor.
28. The arresting officer is responsible for guarding the prisoner until relieved by his/her immediate supervisor or a replacement is sent by the supervisor.
29. Hospital guard details are the responsibility of the arresting officer's unit of assignment until relieved or the prisoner is released by the attending physician.
30. If the arresting officer's unit cannot provide adequate personnel for a twenty-four (24) hour guard detail, the officer's Commanding Officer shall request the on duty Communications Services platoon supervisor to notify the respective unit's Bureau Chief who will determine if the detail should be assigned to another unit.
31. An officer involved in or witness to a shooting incident is excused from the guard detail.

**GUARD DETAIL – SUPERVISOR’S RESPONSIBILITIES**

32. A supervisor having an officer on a guard detail shall:
- (a) Rotate an officer every four hours. Circumstances may require an officer to exceed the four-hour limit but the specific reason(s) shall be noted on the supervisor’s Daily Activity Sheet.
  - (b) Physically check the guard detail at least once during each assigned officer's tour of duty.
  - (c) Assign two officers for guard duty if the prisoner is considered violent because of his/her past history, mental state, or pending charges. The respective unit's Bureau Chief may reduce the number of officers assigned after being briefed by the on-duty platoon commander.
  - (d) If unit staffing permits, supervisors will assign officers of the same sex as the prisoner to the guard detail.

**GUARD DETAIL – PRISONER RELEASE/TRANSPORT**

33. When released from treatment, all instructions for future medical care and medication should be obtained in writing and signed by the attending physician. All guidelines for search, restraining and transporting shall be followed.

**TRANSPORTATION BY AIRCRAFT**

34. The use of commercial air carriers for the extradition and transportation of prisoners may arise and be the responsibility of the New Orleans Police Department.
35. When transporting by air, two officers will accompany each prisoner.
36. The air carrier will be notified of the identities of the officers and prisoner(s) to be transported at least one hour before the scheduled flight. Carriers may require a letter on Departmental letterhead authorizing the flight and signed by the Superintendent of Police. The extradition paperwork may be required by TSA and some air carriers.
37. Officers will display their police identification and badge to the airline ticket agent, supervisor or TSA agent as required.
38. The air carrier’s agent will be notified if the prisoner is an escape risk or has displayed a history of violent behavior.
39. Before leaving the detaining jurisdiction, the senior officer shall contact the airport security office and arrange for a secure location to hold the prisoner during the time spent waiting for the flight.
40. Officers will comply with all TSA and airport regulations regarding prisoner transportation.
41. A search of the prisoner will be conducted prior to leaving the airport detention facility. After the search, the prisoner will not be left alone prior to boarding the aircraft.
42. Officers shall make every effort to cooperate with airline ticketing and boarding agents and security personnel at the passenger screening points.

43. When cleared to board, the officers and prisoner shall:
  - (a) Identify themselves to pilot and flight crew.
  - (b) Board prior to other passengers and deplane after other passengers have departed.
  - (c) Be seated in the rear-most section of the aircraft; and be seated away from any lounge area and not next to or across from any normal or emergency exit.
44. At least one officer will be seated between the prisoner and the aisle.
45. The prisoner will be escorted and kept under close surveillance when a visit to the lavatory is necessary.
46. While on board, officers shall remain anonymous insofar as their position as armed law enforcement officers. Extreme care will be taken **not** to display their firearms and alarm other passengers.
47. In the event of a hijacking, officers are to take no action unless requested to do so by the captain of the aircraft and/or it is necessary to prevent death or great bodily harm.

#### **FUGITIVE ARRESTS FROM SURROUNDING PARISHES**

48. Upon verification of warrants by NOPD N.C.I.C. Section, prisoners wanted by the New Orleans Police Department and detained in Jefferson, St. Bernard, St. Tammany or Plaquemines Parishes will be picked up and transported.
49. Upon receiving such a transport request, Communications Services shall dispatch a district unit as follows:
  - (a) Second District units will be used for arrestees being held in Harahan, Louisiana.
  - (b) Third District units will be used for arrestees being held at the Jefferson Parish East bank Lockup or Kenner.
  - (c) Fourth District units will be used for arrestees being held in the Jefferson Parish West bank Lockup and Plaquemines Parish.
  - (d) Fifth District units will be used for arrestees being held in St. Bernard Parish.
  - (e) Seventh District units will be used for arrestees being held in St. Tammany Parish.
  - (f) In the event no units are available in the assigned district, and one will not be clear in a reasonable amount of time, the on-duty Communication Services Platoon Commander will determine which unit is the closest available unit, and assign the transportation to that unit.

#### **FUGITIVE ARRESTS FROM OTHER JURISDICTIONS**

50. Where it is necessary to pick up an arrested subject from a parish other than those listed above, the on-duty Communications Services Platoon Commander shall assign the transport request to the Special Operations Division.

#### **EXCEPTION TO HANDCUFFING OF ALL PRISONERS**

51. When juveniles are detained solely for the status offenses of truancy or curfew violation (see **Chapter 44.1.4 – Temporary Custody of Juveniles**), they should not be handcuffed for transportation to the appropriate facility except:

- (a) If the officer has an objectively reasonable belief a truant or curfew violator has a violent criminal arrest record; or
- (b) The offender has demonstrated violence, or reasonably presents a risk of harm to himself, the officer or others.

### **SAFETY BARRIERS**

- 52. The New Orleans Police Department uses marked four-door vehicles as primary transport vehicles.
- 53. These vehicles are equipped with a poly/steel safety barrier which prevents the prisoner from having access to the driver's compartment of the vehicle.
- 54. In addition to the above safety barrier, vehicles are modified in order to render the interior rear door handles and window controls inoperable. These modifications are necessary to minimize opportunities for exit without the aid of the transporting officer.
- 55. Prisoners shall not be transported in a vehicle that has not been modified as required without the express authorization of their supervisor.

### **UNUSUAL SITUATIONS / SPECIAL EVENTS OR OPERATIONS**

- 56. For certain special events such as Mardi Gras, etc., vans, prisoner wagons, and buses may be utilized for the transportation of several prisoners to Central Lockup.

### **VANS/BUSES**

- 57. Requirements for vans and busses for prisoner transport include:
  - (a) Vans and prisoner wagons used for the transport of prisoners must have seating area for all passengers.
  - (b) Seating capacity shall not be exceeded.
  - (c) All prisoners shall be secured in the vehicle by proper use of a seat belt
  - (d) Windows allowing access to the prisoner compartment must be rendered inoperable in a closed position.
  - (e) Doors accessing the prisoner compartment must be kept locked at all times while containing prisoners and **CANNOT** be unlocked from the inside.
  - (f) The seating area must be separate from the driver's compartment as to not allow physical contact between the prisoners and the driver.
  - (g) When transporting multiple prisoners, the guidelines of this policy relative to male/female prisoners, juveniles, violent individuals, etc. shall apply.
  - (h) For purposes of this section, two officers must be assigned to each transport vehicle.
  - (i) The detention/transport vehicle shall not be left unattended while occupied
  - (j) In keeping with **Chapter 1.3.1.1 – Handcuffing and Restraint Devices**, officers shall observe the condition of prisoners detained in vehicles (including vans/buses) every 5 minutes to ensure the safety, security and physical well-being of the prisoner(s).
  - (k) Prisoners shall not be detained in buses, vans, or prisoner wagons for extended periods of time where proper ventilation of the interior prisoner area cannot be maintained.
  - (l) A supervisor shall be responsible for any bus(s), van(s), or prisoner wagon(s) used at a stationary location for prisoner detention awaiting transport. The supervisor shall be aware of weather conditions which may expose detained prisoners to heat or cold for extended periods of time.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 74.3

### TITLE: COURT APPEARANCE AND SUBPOENAS

**EFFECTIVE: 01/14/2018**

**REVISED: 11/15/19**

---

#### PURPOSE

This Chapter provides for the acceptance of subpoenas and court notices for duty related matters, to ensure that members appear in court when requested and to ensure members present a professional appearance.

#### DEFINITIONS

**Administrative Subpoena**—A written document served upon a member by the City of New Orleans, the New Orleans Police Department or another Board or Agency of the City, instructing him/her to appear before any administrative body or panel with subpoena authority.

**Court Overtime**—The attendance by a member of the New Orleans Police Department in any court or governmental body having subpoena power, where attendance is mandatory, where the attendance arises out of the member's scope or performance of his/her duty, and the member is not scheduled to work during attendance.

**Legal Subpoena**—A writ summoning an individual to appear before a legal court or governmental body for the purpose of giving testimony.

**Electronic Legal Subpoena**—A writ summoning an individual to appear before a legal court or governmental body for the purpose of giving testimony and/or to produce items sent via electronic mail.

**Court Notify**—The name of the electronic subpoena notification system utilized by the criminal justice system in New Orleans.

**Proper Notification**—Service of a subpoena, or notification that a member is required to appear in court from:

- (a) Verbal Notice by an officer of the Court,
- (b) Verbal notice by any NOPD supervisor,
- (c) Personal Service,
- (d) Domiciliary Service,
- (e) United States Mail, or
- (f) Electronic Mail.

**Officer of the Court**—Any person who has an obligation to promote justice and effective

operation of the judicial system, including judges, the attorneys (defense and prosecution) who appear in court, bailiffs, court clerks and other court personnel.

**Trailing Status**—When a member remains on standby status for additional court sessions until notified otherwise.

**Mandatory Appearance**—Subpoenas and court notices require a member's physical appearance in the specified court, at the specified time unless advised by notice of the issuing court. Failure to appear, either intentionally or by negligence, may result in disciplinary action.

**Tribunal**—A person or institution with the authority to judge, adjudicate or determine claims/disputes.

## **SUBPOENAS**

1. Members who receive subpoenas or court notices related to his/her duties with this department are subject to the provisions of this Chapter.
2. Compliance is mandatory on all cases for which members have been properly subpoenaed or properly notified.
3. This Chapter applies to civil and criminal subpoenas and notices for matters relating to the member's official duties.
4. Members are expected to prepare adequately for appearances and must testify honestly.
5. Attendance at Traffic, Civil, Municipal, State, or Federal court or any administrative tribunal is mandatory under the following conditions:
  - (a) A subpoena or order of Instanta (electronic or paper)
  - (b) Notification via department e-mail
  - (c) Ordered to attend by a ranking officer
  - (d) Written or verbal notice from the City Attorney or District Attorney.
6. Only the issuing judicial officer can excuse a member from a subpoena to appear in a court or tribunal.
7. If a member is subpoenaed to appear in a tribunal outside of Orleans Parish, the member shall notify his commanding officer in advance and if necessary complete the appropriate travel form(s). The travel forms are located in NOPD.org under "Travel Forms."
8. A member who has overlapping appearances shall notify the Judge or Hearing Officer in each section, and request that he/she be allowed to coordinate the date and time of his/her appearance in each section.

## **SERVICE OF SUBPOENA OR DELIVERY OF COURT NOTICES**

9. Service of a subpoena or court notice requiring the appearance of any member in connection with a matter arising out of the member's course and scope of official duties may be accomplished by a verbal notice by the Judge or Officer of the Court and through any delivery by the Compliance Bureau, including personal service on the member.

## **SUBPOENA PROCESSING RECEIVED BY COURT NOTIFY**

10. The Courts are issuing subpoenas via the "Court Notify" and city e-mail notification systems.
11. The Commander of the Education and Training Division shall prepare a lesson plan for training personnel about the Electronic Subpoena Systems.
12. This training will be included in the recruit and in-service training programs.
13. Every department member is responsible for checking his/her departmental e-mail account via Microsoft Outlook or internet address mail.nola.gov at least once during his/her tour of duty.
14. E-mail accounts can be accessed from any computer with an internet connection including a Mobile Data Terminal.
15. Every department member is responsible for checking his/her "Court Notify" account via the NOPD applications icon or internet address www.nopd.net at least once during his/her tour of duty.
16. The web address can be accessed by any computer with an intranet connection including a Mobile Data Terminal.
17. A member shall check for his/her subpoenas from the "Court Notify" system once logged in.
18. An e-mail is also sent to the member via department email.
19. When an e-mail is received from "Court Notify," a member shall acknowledge receipt of the subpoena through the "Court Notify" system.
20. A Commander or his/her designee in each unit/section/division/bureau, shall make sure his/her subordinates formally acknowledge a subpoena issued via "Court Notify."
21. If a department member fails to acknowledge a subpoena, notifications will Escalate and Continue to escalate until the subpoena is acknowledged, as follows:
  - (a) 10 days prior to Court date, the immediate supervisor is notified,
  - (b) 9 days prior to Court date, the Platoon Lieutenant is notified,
  - (c) 7 days prior to Court date, the District/Division Commander is notified,
  - (d) 5 days prior to Court date, the Commander of the Professional Standards and Accountability Bureau or his/her designee is notified.
22. After receiving an escalated subpoena, supervisory personnel shall notify the subpoenaed member in writing of the escalated subpoena and ensure the member acknowledges said subpoena via "Court Notify."
23. A supervisor may acknowledge the subpoena for a member when he/she knows the member will be available to attend court.
24. The supervisor who acknowledged a subpoena for a member, shall notify the member in writing within 72 hours of the acknowledgment.
25. The supervisor shall also print the subpoena from the "Court Notify" system and give it to the member.

**SUBPOENA PROCESSING NOT RECEIVED BY COURT NOTIFY**

26. The Compliance Bureau shall:
  - (a) Receive all delivered subpoenas not entered into Court Notify for the New Orleans Police Department from Criminal District Court and Juvenile Court process servers.
  - (b) Receive, document, and distribute all subpoenas from a centralized location, as designated by the Commander of the Professional Standards and Accountability Bureau.
  - (c) Distribute within twenty-four (24) hours or the next business day all subpoenas received to the District/Unit/Section.
27. All refused subpoenas shall be returned to the Compliance Bureau no later than 10:00 a.m. on the third day after receiving the subpoena(s).
28. Refused subpoenas shall require a refusal (Form 278) to the subpoena from the member's supervisor to indicate a justifiable reason for the person subpoenaed not appearing for the court date.
29. **Department members shall not contact court personnel and/or the District Attorney's Office relating to a refused subpoena.**
30. The Compliance Bureau shall be responsible for notifying court personnel and the District Attorney's Office relating to refusal of subpoenas.
31. The Compliance Bureau shall be responsible for returning all refused subpoenas to the Clerk of Court's Office.

**VALID SUBPOENAS**

32. No subpoena or court notice shall be accepted for a member of this department unless it has been properly served and purports to have originated from a recognized legal authority.

**ACCEPTANCE OF SUBPOENAS**

33. Service may consist of individual subpoenas or may consist of lists which include:
  - (a) A member's name,
  - (b) Badge or employee ID number,
  - (c) Case title,
  - (d) Name of court, and
  - (e) Date and time of appearance.
34. Lists may be served by electronic transfer (R.S. 32.6(C); C. Cr. P. 735).
35. Only the member named in a subpoena, a supervisor or the Compliance Bureau shall be authorized to accept service of a subpoena.
36. Any authorized member accepting a subpoena shall immediately provide a copy of the subpoena to the Compliance Bureau.
37. The Compliance Bureau shall maintain a chronological log of all department subpoenas and provide a copy of the subpoena to each involved member.
38. Once a subpoena has been received by a supervisor or other authorized individual, a

copy of the subpoena shall be promptly provided to the individually named member.

39. The member named in a subpoena, his/her immediate supervisor or other authorized individual shall sign for subpoenas or indicate receipt by electronic verification code (RS 32.6(C); C. Cr. P. 735).
40. In cases in which a government entity is not a party, if a subpoena is presented for service to an immediate supervisor or other authorized individual less than five working days prior to the date listed for an appearance, the supervisor or other authorized individual should tell the process server to serve the subpoena directly to the named member.
41. If the named witness is not on-duty, the supervisor shall inform the process server of the next available date the witness will be on-duty.
42. All hand-delivered subpoenas/instantas received in the Bureau/District/Section/Unit shall be logged into the Subpoena Log maintained in the Bureau/District/Section/Unit.
43. Commanding Officers of each Bureau/Division/Section/Unit, regardless of title classification, shall establish a log book, on a platoon by platoon basis where applicable, for the purpose of recording the receipt and issuance of subpoenas received for personnel under their supervision.
44. The subpoena log book shall reflect the following information:
  - (a) Authorized members who initially received the subpoena from the servers,
  - (b) The date of receipt,
  - (c) Court section,
  - (d) Court case number,
  - (e) Trial date, Acknowledgment and receipt of subpoena by member named in subpoena, and date received,
  - (f) Acknowledgment by a supervisor that the subpoena was served on the member.
45. Members are responsible for signing the Subpoena Log immediately upon receiving their subpoenas/instantas.
46. Upon receipt of subpoenas, the member accepting same shall check the names of the individuals listed on the subpoenas to ensure subpoenas are not accepted for individuals not assigned to the location where service is attempted.
47. If a subpoena is received for an individual not assigned to the unit being served, the individual accepting service will inform the server that the subpoenaed person is not assigned to the unit and supply the information where service can be made, if known.
48. If service is made during normal business hours, and the assignment is not known by the individual accepting service, the receiving individual shall contact the Human Resource Section in an attempt to ascertain the correct assignment. This information shall be supplied to the server of the subpoena.
49. Unit commanders or members designated to receive subpoenas shall screen subpoenas for members of their Unit who are on furlough, sick leave, or AWP.
50. In those cases where the member is not expected back to work prior to the date of trial, it shall be the unit commander's responsibility to attempt to notify the member of the trial date by telephone.

51. When it becomes apparent that the designated member will be unable to contact the subpoenaed member prior to the court date, the subpoena shall be returned to the court, or the Compliance Bureau.
52. Subpoenas returned due to extenuating circumstances shall contain a brief note explaining the reason for the return and if returned to the Compliance Bureau have refusal form attached.
53. Subpoenas shall be distributed at unit roll call by a supervisor, at which time members named in the subpoenas shall sign the subpoena register book acknowledging receipt.
54. Subpoenas for Civil District, Juvenile, City, and Federal Courts, Grand Jury, City Council, Civil Service Commission, and Courts outside of Orleans Parish shall be accepted and documented in the same log mentioned above.

#### **JUVENILE COURT DETENTION HEARING**

55. While processing a felony juvenile arrest, a member acknowledges his/her mandatory Detention Hearing appearance when signing the Detention Hearing Book located in the Juvenile Section office.
56. The member shall document the date and time of the detention hearing on the face sheet of the incident report (EPR).
57. The member's signature shall serve as the official notification in lieu of an issued subpoena.

#### **ADMINISTRATIVE SUBPOENAS**

58. A member appearing in compliance with an administrative subpoena while off duty, AWP or any other form of paid leave, is compensated in the same manner as a court appearance.
59. The below listed members and/or boards or committees are authorized to issue Administrative Subpoenas:
  - (a) Superintendent of Police, or his/her designee
  - (b) Assistant Superintendent(s) of Police,
  - (c) Office of Inspector General,
  - (d) Chairman of any Departmental Disciplinary/Administrative Board upon the approval of the Superintendent,
  - (e) Civil Service, and
  - (f) New Orleans City Council.

#### **EXCEPTIONS AND REFUSAL OF SUBPOENAS**

60. If a supervisor is unable to contact a subpoenaed member prior to the court date, the supervisor shall acknowledge the subpoena for the member, with the option "Acknowledge with Exception" in the "Court Notify" system.
61. The supervisor shall include a brief notation of the reason why a member cannot be notified or attend.
62. The supervisor shall notify the Compliance Bureau, via form 105, of the reason why the subpoena was refused and attach the Subpoena Refusal Form (Form 259).

63. If a member learns that he/she cannot appear on the court date after the subpoena was acknowledged, but prior to the day of court (i.e. sick/illness, injury, death in family), the subpoenaed member shall immediately notify the Compliance Bureau. The Compliance Bureau is responsible for notifying the judge and the District Attorney's Office about the member's inability to appear in court.
64. A member who cannot appear on the court date because an emergency incident occurred on the date of the appearance, the subpoenaed member shall contact the appropriate judge in that section of court and request to be excused from appearance. The subpoenaed member shall immediately notify the Compliance Bureau and provide the name of the person contacted, the court section(s) and the date/time the notification was made.
65. Training, vacations and regularly scheduled days off are not valid reasons for refusing a subpoena or missing court.

#### **OFF-DUTY RELATED SUBPOENAS**

66. Members receiving valid subpoenas for off-duty actions not related to their employment with the New Orleans Police Department shall comply with the requirements of the subpoena.
67. Members receiving these subpoenas are not compensated for their appearance by the department.
68. Arrangements for time off shall be coordinated through the member's immediate supervisor.
69. Members shall not wear his/her uniform when complying with this type of subpoena.

#### **FAILURE TO APPEAR**

70. Any member who fails to comply with the terms of any valid and properly served subpoena may be subject to discipline as well as court-imposed civil and/or criminal sanctions for contempt of court.
71. If for a valid reason (i.e., illness, injury, etc.), the named member is unable to appear in court as directed by a previously served subpoena, the member shall, as soon as reasonably possible, notify the Court of the member's unavailability to appear.
72. Upon notification to the Court, the member is responsible for notifying the Compliance Bureau of the expected absence, providing the name of the person contacted, the court section(s) and the date/time the notification was made.
73. If a member is held in contempt for failing to obey a subpoena, and as a result is confined, and is unable to physically report for duty while he/she is confined, the member's commander shall carry the member LWOP (Leave Without Pay) and initiate an investigation.

#### **CIVIL SUBPOENAS NOT INVOLVING A GOVERNMENT PARTY**

74. Any reimbursement received directly by the member while appearing on duty shall be promptly turned over to the Deputy Superintendent of the Management Services Bureau, through the member's chain of command.

75. Under no circumstances is a member to request, or be compensated for a court appearance that is not directly employment related.

#### **PROCEDURE**

76. To ensure that the member is able to appear when required, that the member is compensated for such appearance, and to protect the Department's right to reimbursement, members shall follow the established procedures for the receipt of a civil subpoena.

#### **COURTROOM PROTOCOL**

77. Members must be punctual when appearing in court and shall be prepared to proceed immediately with the case for which they are scheduled to appear.

#### **PREPERATION FOR TESTIMONY**

78. Before the date of testifying, the subpoenaed member shall request a copy of relevant reports and become familiar with their content in order to be prepared for court.

#### **COURTROOM ATTIRE**

79. A member attending a tribunal as a result of his/her employment with the NOPD shall be attired in either Class A or B uniform, or business formal attire.
80. An exception will be made, only in the case of exigent circumstances, and with the permission of the hearing officer or the presiding Judge.

#### **COURTROOM DECORUM**

81. Members shall observe all rules of the court in which they are appearing, refrain from smoking or chewing gum in the courtroom and shall remain alert to changes in the assigned courtroom where their matter is to be heard.

#### **TESTIFYING AGAINST THE INTEREST OF THE STATE**

82. Any member or member who is subpoenaed to testify, who has agreed to testify or who anticipates testifying or providing information on behalf of or at the request of any party against the State of Louisiana, any parish, city, other unit of government or any of its officers and members in which any of those entities are parties, will notify the Superintendent of Police through his/her chain of comment without delay.
83. The member's supervisor will then notify the appropriate prosecuting attorney.
84. The Superintendent of Police should determine if additional legal support is necessary.
85. This includes, but is not limited to, the following situations:
- (a) Providing testimony or information for the defense in any criminal trial or proceeding,
  - (b) Providing testimony or information for the plaintiff in a civil proceeding against any parish, city, other unit of government or any government official or its officers and members.
  - (c) Providing testimony or information against the State, parish, city, or other unit of government, or any of its officers and members, on behalf of or at the

request of any party other than any parish, city, other unit of government or any government official or its officers and members.

### **COMPENSATION FOR COURT APPEARANCE**

86. A member is paid overtime for attending court on employment related cases in accordance with current payroll procedure. A member attending court during regular working hours shall not be paid overtime while on duty.
87. A member attending court while on furlough, sick leave, or any other form of paid leave, shall be carried working during the time he/she is physically in a tribunal.
88. Application for court overtime pay shall be documented on the Court Overtime Form (Form #34).
89. If a member attends more than one section of court, and the times of appearance overlap, only one form 34 shall be completed. However, if there is a gap between the time of completion in one section of court, and the arrival time in another section of court, a separate Form 34 shall be completed.
90. Individuals attending Traffic Court, Municipal Court, Criminal District Court, or the Grand Jury, shall utilize the ADP time clock located in NOPD Headquarters. The time clock shall be used to record both the time of arrival and departure from the above listed courts.
91. Individuals attending Juvenile Court, Civil District Court, Federal Court, Courts outside the jurisdiction of Orleans Parish, or City Council or Civil Service, shall have their subpoenas signed by a representative of the court indicating the time of arrival and departure from the court.
92. Members responding to the verbal orders of a judge or court officer shall obtain a subpoena from the appropriate authority, having him/her document both the time of arrival and departure from the court.
93. Subpoenas with documented time of arrival and departure from the court for appearances not entered by the member in the ADP time clock shall be turned in at the member's place of assigned upon his/her next scheduled tour of duty.
94. Members who enter their time in the ADP time clock are encouraged to turn in their subpoenas with the documented time of arrival and departure from the court on the date of court.
95. Should the member be AWP, furlough, sick leave, etc., and the member is not scheduled to return to work prior to the end of the pay week, Saturday, the subpoena with the documented time of arrival and departure from the court must be turned in prior to the end of the pay period.
96. Individuals who are required to utilize the ADP time clock documenting arrival and departure times shall be compensated from the time they "punch in" until the time they "punch out."
97. Under no circumstances shall individuals "punch in" more than ten (10) minutes prior to the indicated arrival time on the subpoena.
98. Members entering court time in the ADP payroll system shall enter the times punched

on the court subpoena for the documented time of arrival and departure from the court. Members entering the times shall not enter a "time in" number which is more than ten minutes before the scheduled arrival time indicated on the subpoena. If the span of time between the time of arrival and departure is less than one hour, the member will be compensated with one hour of court overtime.

99. Supervisors verifying court time in the ADP payroll system shall review the time entered in the ADP payroll system for both the arrival time and departure time. Supervisors shall ensure the "time in" number is not more than ten minutes before the scheduled arrival time indicated on the subpoena.
100. Supervisors will select "03, Court Time" utilizing the Work Rule Transfer menu within the ADP payroll system for the court time entered. Supervisors will add a "Comment" to the court time noting the court type, court section and case number (Example: *CDC Section-A, Case #123456*).
101. Members not required to use the ADP time clock shall be compensated from the reporting time indicated on the subpoena, until the departure time noted by the proper representative.
102. Compensation shall be determined as per the provisions of the Fair Labor Standards Act and current departmental policy.
103. Members are expressly prohibited from obtaining documentation for other members, from having time of departure certified on another member's subpoena, and/or from using the ADP time clock for other members.
104. Members are expressly prohibited from documenting subpoena times in and out on multiple documents.

## NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

### CHAPTER: 74.3.1

## TITLE: FAILURE TO APPEAR - SUMMONS IN LIEU OF PHYSICAL ARREST

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 421**

---

### PURPOSE

The purpose of this policy is to provide members of the New Orleans Police Department with guidance for issuing traffic and municipal Failure to Appear summons in lieu of physical arrest.

### DEFINITIONS

**Instanta**—Order issued by the court for immediate appearance (usually within 24 hours).

**Failure to appear**—The intentional failure to comply with a previously issued summons, citation, or court order directing a person to appear in the municipal court.

### POLICY

1. Persons wanted by Traffic and Municipal Courts where an INSTANTA has not been issued shall be issued a Failure to Appear summons in lieu of a physical arrest (MCS 154-147, Failure to Appear; and 54-28, Failure to Appear).
2. Officers shall verify an Orleans Parish Traffic or Municipal Court Attachment with National Crime Information Center (NCIC) before taking enforcement action.
3. Attachments from both Orleans Parish Municipal and Traffic Courts with a designation of INSTANTA shall be processed as normal municipal (17M) or traffic court (17T) attachments.
4. All attachments originating from parishes other than Orleans Parish and from other States shall be processed as a normal Fugitive Attachment (17F).
5. A prisoner held in custody by another parish law enforcement agency for an Orleans Parish Municipal or Traffic attachment will be processed as a 17T or 17M arrest.
6. A person wanted by Orleans Parish Traffic or Municipal Court, regardless of where he/she resides, shall be issued a Failure to Appear summons in lieu of a physical arrest except where:
  - (a) The attachment is an INSTANTA.

- (b) The person is under arrest for another unrelated violation.
  - (c) The person is wanted for multiple traffic or municipal attachments.
  - (d) The person does not possess identification issued by any municipal, state, territorial, federal or other government authority within the United States, where identifying information provided cannot be corroborated or found in available law enforcement databases and where the person has no documentation on his/her person which may reasonably confirm his/her identity (school ID with photo, credit cards, bills, etc.).
  - (e) The person makes a statement indicating intent to disregard the summons or refuses to sign the summons.
  - (f) The person acts in a violent or destructive manner or makes a statement indicating that he/she intends to inflict injury to him/herself or another, or damage property.
  - (g) The person is a habitual offender and has two or more felony convictions or five or more felony or municipal arrests for any offense.
  - (h) Based on the circumstances, an officer determines that it is absolutely necessary to make an arrest.
7. If the person is physically arrested for a new violation and it is verified that he/she has a traffic or municipal attachment, he/she shall not be issued a Failure to Appear summons.

### **TRAFFIC COURT POLICY**

8. When an officer verifies through NCIC that a person is wanted by Orleans Parish Traffic Court, the officer shall:
- (a) Issue a Traffic citation, in lieu of a physical arrest, requesting a new item number for a Traffic Attachment (17T).
  - (b) Write the charge 154-147 Failure to Appear in the statute/ordinance and violation section followed by the attachment number enclosed in parenthesis.
  - (c) Set the appearance date seven days from the date of issuance.
  - (d) Give the dispatcher a disposition of Necessary Action Taken, one summons issued. All new traffic violations shall be issued a new citation under a separate item number. NCIC officer/technician shall advise the officer the section of Traffic Court to which the new citation must be assigned.

### **MUNICIPAL COURT POLICY**

9. When an officer verifies through NCIC that a person is wanted by Orleans Parish Municipal Court, the officer shall:
- (a) Issue a municipal summons, in lieu of physical arrest, and request a new item number for a Municipal Attachment (17M).
  - (b) Write the charge **54-28 Failure to Appear** in the statute/ordinance and violation section followed by the attachment number enclosed in parenthesis.
  - (c) Set the appearance date seven days from the date of issuance.
  - (d) Give the dispatcher the disposition of Necessary Action Taken, one summons issued.
10. All new municipal violations shall be issued a new summons under a separate item number.
11. Upon verification by NCIC that an open attachment is not an INSTANTA, the NCIC Officer/technician shall advise the officer the section of court to which the new summons must be assigned.

### **RECORDS AND IDENTIFICATION SECTION**

12. The Commander of the Records and Identification Section shall develop an internal training manual with comprehensive instructions for the verification and processing of Failure to Appear attachments. A copy of the training manual shall be forwarded to the Education and Training Division for review and placement in the lesson plans for recruit and in-service training classes.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 74.3.2

### TITLE: PROTECTIVE ORDERS

**EFFECTIVE: 07/08/2018**

**REVISED:**

---

#### PURPOSE

This Chapter provides guidance on the enforcement of protective orders in accordance with law.

#### DEFINITIONS

**Full Faith and Credit**—The requirement by the U.S. Code title 18 section 2265 that jurisdictions honor the terms and conditions of a protective order issued by another jurisdiction.

**Protective Order**—Any civil or criminal restraining order, injunction, bail or release order, probation condition and all other orders for protection issued to protect victims of domestic violence, sexual assault, dating violence or stalking or to deter offenders from further violence or abuse [ . . .including] protections contained in support, child custody, and visitation orders and protective directives in other court orders. 18 U.S.C. § 2266(5). Emergency, ex parte, temporary, and final orders are subject to full faith and credit under VAWA.

**Respondent**—The person alleged in a petition for a protective order to have abused another.

**Violation of Protection Order**—Violation of a protective order is the willful disobedience of a preliminary or permanent injunction issued after a contradictory court hearing, or any ex parte protective order if the defendant has been given notice of the order through a contradictory hearing or service of process (La. R.S. 14:79).

**Willful**—An act or failure to act that is done intentionally, knowingly and purposefully, without justifiable excuse. The person(s) to whom the order is directed must be aware of the duty to obey the order and manifest an intent to disregard that duty or defy the authority of the court.

#### ENFORCING PROTECTIVE ORDERS

1. In enforcing protective orders, officers' primary responsibility is to ensure the safety of the petitioner. An officer **SHALL ARREST** a suspect when there is probable cause to believe that the offender has willfully violated a protective order or the violation of the protective order constitutes a crime under La. R.S. 14:79.
2. Officers shall use every reasonable means to enforce a protective order, including, but not limited to, the immediate arrest of the violator.

3. Officers must verify a protective order is in place. If officers are able to verify the order is in place, they must then enforce the order.
4. If the order cannot be enforced because it has not been served, officers who have been called to the scene where the respondent (defendant) named in the protective order is present, shall attempt to serve the order pursuant to RS 14:79 (A) (1) (b). Service of a previously issued temporary restraining order or ex parte protective order, if noted in the police report shall be deemed sufficient evidence of service of process and admissible in any civil or criminal proceeding.

### **VERIFYING PROTECTIVE ORDERS**

5. If there is a paper copy of the order available, an officer shall enforce the order if it is authentic on its face. No other verification is required. A protective order does not need to be registered in order to be enforced.
6. Officers shall presume an order is authentic on its face and legible if:
  - (a) The order gives the names of the parties;
  - (b) The order contains the dates it was issued;
  - (c) It has not expired (orders do not need an expiration date to be valid);
  - (d) It contains the name of the issuing court;
  - (e) There is an indication the order was issued by a judicial officer or other appropriate authority, which could be indicated by various methods, including a stamp, signature or seal; and
  - (f) The order specifies the terms and conditions against the offender.
7. If the victim does not have a copy of the order or if the officer cannot determine whether the order is authentic on its face and legible, the officer shall:
  - (a) Check the name of the individual against who is the subject of the protective order. If the individual has a Protective Order on file, it is presumptively valid on its face in the system and does not need verification. The Protective Order may have dates when it is in effect, but if it does not, the Protective Order is considered permanent. Protective Orders in the Registry are self-extracting from the Registry when they expire.
  - (b) Contact NOPD - NCIC if the officer needs a copy of the Protective Order for his/her incident report. NOPD-NCIC will contact the Louisiana Supreme Court Registry and obtain a fax copy for the requesting officer.
  - (c) Draw upon personal knowledge of the officer or information obtained through an interview.
8. An officer shall enforce a protective order according to this chapter, whether or not the victim has a copy of the protective order, if the officer is able to verify the existence of the order.

### **SERVING PROTECTIVE ORDERS**

9. Officers cannot serve all legal process but can serve valid protective orders under the authority of RS 14:79. Officers shall enforce legal protective orders.
10. Officers shall inform victims that a copy of their police report can serve as proof that the defendant was served and that the order can now be enforced for any future violations.

### **ENFORCEMENT OF FOREIGN ORDERS**

11. Officers shall enforce protective orders that are authentic on its face and legible from an

issuing foreign jurisdiction as if they were orders of Louisiana, whether or not the order has been registered (18 U.S.C. § 2265).

12. Officers shall enforce foreign orders as written, even if the order offers protection not offered in Louisiana.
13. Violating an order from another state is a crime under La. R.S. 14:79.
14. Orders from another state are entitled to full faith and credit if:
  - (a) The court that issued the order had personal jurisdiction over the parties and subject matter jurisdiction over the case; and
  - (b) The person against whom the order was issued must have had notice and an opportunity to be heard related to the allegations of abuse and the relief sought, or opportunity to be heard will be granted within a reasonable amount of time.

(See “Enforcing Foreign Protective Orders” in the Resource Folder on [nopd.org](http://nopd.org))

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 81.1

### TITLE: COMMUNICATIONS OPERATIONS

**EFFECTIVE: 12/17/2017**

**REVISED: Replaces Policy/Procedure 802**

---

#### PURPOSE

The basic function of the police radio communications system is to satisfy the immediate information needs of the law enforcement agency in the course of its normal daily activities and during emergencies.

#### POLICY

1. Operations are more efficient and officer safety is enhanced when dispatchers, supervisors and other officers know the status of officers, their locations and the nature of their cases.
2. All conversations on New Orleans Police Department frequencies shall be restricted to that which is necessary to conduct the official business of the Department.

#### COMMUNICATION OPERATIONS

3. The Orleans Parish Communications District (OPCD / 911 – System) provides 24-hour telephone service to the public for information or assistance that may be needed in emergencies. The ability of the public to telephone quickly and easily for emergency service is critical. This organization provides access to the 911 system with a single emergency telephone number.
4. The department has two-way radio capability providing continuous communication between Communication Services and officers. The Deputy Chief of the Field Operations Bureau shall maintain a police liaison at the OPCD 24/7.

#### COMMUNICATIONS LOG

5. It shall be the responsibility of Communications Services to record all relevant information on calls for criminal and noncriminal service or self-initiated activity. This includes:
  - (a) All reported crimes or criminal activity.
  - (b) Criminal and non-criminal cases initiated by members.
  - (c) Complaints of members or organization conduct or performance.
  - (d) Arrests, summons or diversions.
  - (e) The assignment or dispatch of a member.

6. Members shall attempt to elicit, record, and share as much information as possible to enhance the safety of the officer and assist in anticipating conditions to be encountered at the scene. Desirable information would include, at a minimum, the following:
  - (a) Item number
  - (b) Date and time of request
  - (c) Name, address and telephone number of complainant, if possible
  - (d) Type of incident reported
  - (e) Involvement of weapons, drugs and/or alcohol
  - (f) Location of incident reported
  - (g) Identification of any units assigned as primary and backup
  - (h) Time of dispatch
  - (i) Time of arrival
  - (j) Time of return to service
  - (k) Disposition or status of reported incident
7. Dispatcher controlled talk groups and telephone communications within Communication Services shall be electronically recorded. The recording equipment utilized for this purpose shall have the capability of immediate playback. Recordings shall be retained for a minimum of three years.
8. The administrative staff of Communication Services is responsible for the secure handling and storage of all recordings. Recordings shall be labeled. These recordings are maintained and stored by Orleans Parish Communications District (OPCD).

#### **RADIO COMMUNICATIONS**

9. All on-duty members shall initiate a radio transmission with their assigned unit number. All on-duty members shall acknowledge a radio transmission with their assigned unit number and the plain language acknowledgment signal 10-4 indicating "message received."
10. All off-duty members shall initiate a radio transmission with their unit number if they have a permanently assigned unit number or their badge number. All off-duty members shall acknowledge a radio transmission with their unit number if they have a permanently assigned unit number or their badge number and the plain language acknowledgment signal 10-4 indicating "message received."
11. The use of partial unit numbers, nicknames, or monikers is prohibited.
12. Members shall maintain a courteous, professional demeanor in all radio transmissions and shall not engage in disputes, arguments, or disagreements on the radio. Members shall not use obscene language or degrading remarks on the radio.
13. When code two (2) calls-for-service (CFS) are broadcast, units shall not utilize the radio talk group until sufficient units have acknowledged the call, unless an emergency situation arises.
14. Supervisors shall monitor radio talk groups to which their subordinate members are assigned and take the appropriate action when deviations from this Chapter are noted.
15. Nothing in this Chapter shall prevent a supervisor from instructing members under his/her command to switch to another designated radio talk group, if the situation warrants.

**PROHIBITED ACTS**

16. The following actions are prohibited:
- (a) Broadcasting superfluous messages or communications;
  - (b) Maliciously/intentionally interfering with the radio communications of another unit;
  - (c) Making unidentified broadcasts; and
  - (d) Using / broadcasting a call signal, letter, or numeral not assigned to the member, station or unit.

**PLAIN TALK DURING DECLARED EMERGENCIES**

17. During declared emergencies where support from agencies outside the State is expected, all members shall use plain language/talk in lieu of the police ten codes and/or signals when communicating over the radio. The only exception to this procedure will be the universally accepted ten code (**10-4**) indicating "message received."

**EMERGENCY RADIO TRANSMISSIONS**

18. All radios affiliated with the talk group of the declared emergency will receive the emergency transmission when the emergency button is activated including any public safety radios within blue tooth range (approximately 50 ft.).
19. An emergency should be verbally declared on the appropriate talk group as with any other radio transmission. The activation of the emergency button is only authorized when the talk group the person wishing to declare the emergency on is busy with another transmission and the person cannot wait until the talk group is clear.
20. Should such activation be required, the person activating should immediately utilize his emergency button and begin verbally declaring the emergency in accordance with existing procedures.
21. Should the emergency button activation be accidental, the member shall immediately notify Communications Services and request cancellation of the emergency activation. The radio identifier of the individual's radio will confirm to the dispatcher the radio used to cancel the emergency is the same used to declare it.
22. To ensure any such declaration of an emergency is heard and responded to, such declarations should (if possible) take place on talk groups monitored by a dispatcher.
23. Emergency declarations on talk groups not monitored by a dispatcher will only be heard by those individuals monitoring that talk group. The appropriate response or assistance requested may not be rendered.
24. Emergency activations which do not result in either a verbal declaration of an emergency or cancellation of same shall result in the following actions:
- (a) The dispatcher assigned to that dispatch talk group shall call the individual assigned to the radio to determine the reason for the activation.
  - (b) If unsuccessful, the dispatcher shall notify both the Police Communications Liaison and the member's supervisor on the talk group. If the member's supervisor is not on the talk group, the Police Communications Liaison will be responsible for notifying the supervisor.
25. If the above initial attempts by the Communications Services to resolve the emergency activation are not successful, it shall be the responsibility of the member's supervisor to determine the reason for activation.

## INTEROPERABILITY PATCHES

26. In a declared emergency, the Incident Commander can initiate a patch with any agency on the **Louisiana Wireless Information Network (LWIN)** or on a system capable of creating a patch.
27. To initiate a patch during an emergency, the Incident Commander shall notify the ESF-2 (**Emergency Support Function – 2**) at the City Emergency Operations Center (CEOC) under the **Office of Homeland Security and Emergency Preparedness (NOHSEP)**.
28. Any agency requesting to be patched into an ongoing incident/patch should contact that Incident Commander for authorization to join. The request shall be made through the agency's Communications Centers. The Incident Commander has the authority to grant or deny another agency joining the patch. Once an agency has been relieved or no longer wishes to be part of a patch, they will notify their Communications Center to be removed. The Incident Commander may also authorize an agency to be removed from a patch. NOPD Incident Commanders must contact the Police Communications Liaison and make this request.
29. When communicating with other agencies, use clear text to reduce confusion and misinterpretations and not 10 codes or signals. Units must identify themselves by agency and number. An example is "**NOPD 728 to FBI 455.**" Up to sixteen (16) agencies can be connected together on a single patch.
30. Radio transmissions over a patch are not encrypted and can be monitored by the general public. When patched together, any agency may be recorded by another participating agency.

## SPECIAL EVENTS / EMERGENCY EVENTS

31. During a large event, only supervisors in command and control should transmit on the designated radio talk group.
32. For an event involving a small number of first responders, 25 or fewer, all involved officers may work the event on a designated radio talk group once a supervisor has consulted with the Police Communications Liaison for availability. Authorization from a supervisor shall be required to switch from a unit's primary talk group to the designated radio talk group.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 81.3

### TITLE: POLICE RADIOS

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 803**

---

#### PURPOSE

The purpose of this chapter is to establish protocols for the issuance of police radios and reporting of loss, theft and repair needs of police radios.

#### POLICY STATEMENT

1. Each department radio should be programmed as authorized with the frequency access utilized by that member's specific unit assignment.

#### RESPONSIBILITIES FOR CORRECT AND TIMELY ISSUING

2. The Education and Training Division shall coordinate with the Electronics Section to ensure that each recruit has a properly programmed radio prior to reporting to his/her new assignment.

#### ELECTRONIC SECTION RESPONSIBILITIES

3. The Electronics Section shall be responsible for maintenance of the Department's inventory records for radio assignments.
4. The member shall verify when receiving his/her radio that it functions and is configured properly and is correct as listed on the receipt.

#### LOST / STOLEN RADIOS

5. Lost or stolen radios shall be documented by the member's supervisor as per **Chapter 17.2 – Department Property**. A copy of the report shall be forwarded to the member's unit Commander, the Electronics Section and the Bureau Chief for the Management Services Bureau within 24 hours. The Electronic Section will not issue a replacement radio without first being given the item number.
6. Upon a member realizing that his/her radio has been lost or stolen, he/she shall immediately notify Communications Services of the missing radio and have an NOPD Item number generated.
7. No member may author a report on his/her own lost or stolen radio. The report shall be

written by a supervisor.

8. Communication Services NOPD Liaison shall notify the Electronics Section of the missing radio by departmental email immediately. **The Electronics Section shall immediately deactivate the missing radio so it cannot be used.**

#### **DAMAGED RADIOS / RADIOS IN NEED OF REPAIR**

9. Members whose radios are damaged or in need of repair shall be issued a temporary replacement radio by the Electronics Section. The member shall inform his/her immediate supervisor that his/her radio is being repaired and he/she has been issued a replacement. The member shall ensure the replacement radio matches the previous radio's functions and is configured properly and is correct as listed on the receipt.

#### **SECURITY OF RADIOS / RADIO EQUIPMENT IN VEHICLES**

10. Commanding Officers shall take those steps they deem appropriate to secure those radios installed in police vehicles under their command if the vehicle has to be sent to an outside vendor for repairs.
11. Commanding Officers shall take those steps they deem appropriate in securing radios of members whose radios permit access to sensitive transmissions who are on extended sick leave, furlough, or other type of leave.

#### **MODIFICATIONS TO RADIOS**

12. Members wishing to modify their radio to permit access to other talk groups not normally assigned to their unit talk group shall:
  - (a) Request permission, in writing, through their chain of command, indicating the specific talk group needed;
  - (b) Explain the reason the talk group is needed;
  - (c) Indicate whether the additional talk group(s) which are to be added are temporary or long term; and
  - (d) Submit the written request to the member's Bureau Chief for approval and to the Bureau Chief of the requested talk group if the talk group requested is outside the member's Bureau assignment. This completed request must be forwarded to the Deputy Superintendent of the Management Services Bureau for processing.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 81.4

### TITLE: MOBILE DIGITAL COMPUTER AND AUTOMATIC VEHICLE LOCATOR USE

**EFFECTIVE: 01/07/2018**

**REVISED: (Conversion replaces P/PR448)**

---

#### PURPOSE

This Chapter provides restrictions on use of the Mobile Digital Computer (MDC) to accesses confidential records from state and national databases. Members using the MDC shall comply with all appropriate federal and state rules and regulations.

#### DEFINITIONS

**Automatic Vehicle Locator (AVL)**—A device that automatically tracks the geographic position of a vehicle and transmits that information to a receiver. MDCs may be equipped with AVL capability.

**Mobile Cop**—The program used to allow the MDC to communicate with other computers via the MDC Network and to access and receive data stored in those systems. LEMS, MOTION, CAD, and JPSO-ARMMS can be accessed via the MDC Network.

**LEMS** (Law Enforcement Message Switch)—This acronym stands for the Louisiana Law Enforcement Message Switch. LEMS will allow members to check, directly from the State, vehicle registrations, driver's license numbers, and state criminal history records.

**MOTION** (Metropolitan Orleans Terminal Information Online Network)—This is the City's database for warrants and attachments, booking and arrest information, and stolen property checks.

**JPSO ARMMS** (Automated Records Management System)—This system, maintained by the Jefferson Parrish Sheriff Office, is a database for warrants and attachments, booking and arrest information, and stolen property checks

**LA Crash** (Louisiana Crash)—The accident software system used by the New Orleans Police department to electronically capture motor vehicle accident reporting information.

#### MOBILE DIGITAL COMPUTER (MDC) USE

1. The MDC shall be used for official police communications only.

2. Composing, sending or forwarding derogatory, defamatory, obscene, disrespectful, sexually suggestive, harassing or other inappropriate messages is prohibited and may result in discipline. MDC use is also subject to **Chapter 41.3.11 – Department Technology Use** and **Chapter 82.2.6 – Department Electronic Mail**.
3. Messages on MDC may be reviewed by supervisors at any time without prior notification. Members generating or transmitting messages not in compliance with this policy are subject to discipline.
4. All calls dispatched to patrol units should be communicated by voice and MDC.

#### **USE WHILE DRIVING**

5. Use of the MDC by the vehicle operator should be limited to times when the vehicle is stopped.

**NOTE: Extreme caution should be exercised when the vehicle is in motion, the operator should only attempt to read messages that are likely to contain information that is required for immediate enforcement, investigative or safety needs.**

6. Short transmissions, such as a license plate check, are permitted if it reasonably appears that it can be done safely. In no case shall an operator attempt to send or review lengthy messages while the vehicle is in motion.

#### **NON-FUNCTIONING MDC CONSIDERATIONS**

7. Whenever reasonably possible, members will not use units with malfunctioning MDCs. Whenever members must drive a unit in which the MDC is not working, they shall obtain prior permission from his/her immediate supervisor and notify Communications Services.

#### **BOMB CALLS**

8. When investigating reports of possible bombs, members should not operate an MDC (or police radio) within 300 feet of a suspected device. Operating the MDC may cause devices to detonate (See: **Chapter 46.3 – Response to Bomb Calls**).

#### **AUTOMATIC VEHICLE LOCATOR (AVL) USE**

9. MDCs equipped with the AVL support function will be installed in all marked or unmarked vehicles that are assigned to routine calls for service, task forces, tactical units, prisoner transport wagons and SOD canine units.
10. Supervisors shall report equipment problems and seek to have equipment repaired as needed.

#### **MDC ACCESS CAPABILITIES**

11. Through M.O.T.I.O.N. members can run name checks (still have to verify with NCIC on a M.O.T.I.O.N. hit), address checks, run vehicle and gun checks through LEMS, and run bicycle checks.
12. Through LEMS, members can check vehicle registration, driver's license by name or operator's license number and gun serial numbers for registration.
13. Members can also access the Computer Aided Dispatch (CAD) system, JPSO ARMMS,

the LA Crash system, and NOPD web applications.

### **COMPUTER AIDED DISPATCH**

14. MDCs may be used to communicate with Communication Services directly through the MDC Network. The member can access any information regarding a call dispatched, including location, time call received, name of complainant, and the item number assigned. The member also has access to complaint history at the location, as well as other database information which will assist in the handling of that call for service.
15. Members shall log onto the computer aided dispatch system at the beginning of their tour of duty and shall logoff at the end of the tour. Members shall be assigned to process calls for service with the MDC and will be responsible for the monitoring and acknowledgment of communications from dispatchers and supervisors.

### **ELECTRONIC TEXT MESSAGES**

16. The MDC allows electronic text messages to be sent from field units to other field units. The use of MDC text messages is restricted to messages related to department work and line of duty performance. Members are prohibited from sending text messages for personal business, non-scope of work related issues, or fictitious or malicious purposes. The department reserves the right to monitor, record, and take disciplinary action for improper use of the text messages.

### **INSTALLATION**

17. All hardware/software installation involving MDC or AVL will be performed by personnel assigned to the Information Systems Section. No other personnel will be allowed to install, remove, or otherwise tamper with the installation of the MDC or AVL equipment or software except as directed by the Commander of the Information Systems Section.

### **INVENTORY/ASSIGNMENT**

18. All MDCs will be engraved with the serial number affixed to a location on the frame of the underside of the MDC under a removable tab. The MDC and associated AVL equipment assigned to each vehicle shall remain in that vehicle.
19. Any changes of inventory or assignment, including reinstallation or movement of an MDC to another vehicle shall only be made by the MDC Administrator in the NOPD Information Systems Section.

### **CARE OF EQUIPMENT**

20. The MDC equipment installed in department vehicles is sensitive, and due caution must be exercised in its care and handling. Although the MDC is rugged, this does not mean it can be abused. The placing of drinks, clipboards, or other objects upon its components can cause damage to the unit and is strictly prohibited.
21. Supervisors shall ensure that members under their command use and care for MDC and AVL equipment as required by this Chapter and their training.
22. Members shall not unplug any devices such as Aircards, GPS/AVL antennas, and power cords that are installed to the MDC or MDC mount.
23. Members shall not change, modify or disassemble any parts of the MDC or MDC mount.

**TRAINING AND ACKNOWLEDGEMENT FORM**

24. Members shall not use departmental MDCs until they attend MDC training on the proper and authorized use of departmental MDCs.
25. Members must sign the acknowledgement form indicating that they have been trained on the proper and authorized use of departmental MDCs and that they understand the departmental guidelines for the proper and authorized use of departmental MDCs.

**SECURITY OF RECORDS AND USER PASSWORDS**

26. The MDC have a direct link to the NOPD MOTION system and the State LEMS system. These systems are password protected and allow members access to sensitive and restricted information. The protection of passwords is critical to prevent the unauthorized use of the MOTION and LEMS systems.
27. The MOTION and LEMS systems are to be used for law enforcement purposes only and shall not be used in violation of the Federal Privacy Act regarding the dissemination of criminal records to unauthorized personnel.
28. Personnel operating the MDC's are accountable for the protection of their respective password while accessing the system. Only authorized criminal justice personnel, while in the performance of their duties, are allowed access to the content(s) of any file retrievable through the computer system (see also: **Chapter 81.8 – M.O.T.I.O.N. Computer Inquiries**).
29. MDC users must remember that whenever a file is accessed the information system creates an audit trail of the transaction. This audit trail is filed and can be used to determine which files were accessed, the time they were accessed, and the individual who accessed them.
30. MDC users shall only use the unique password that is currently assigned to them by the New Orleans Police Department to access the MDC.
31. Each member will be required to log on with their username (last name + badge#) and assigned password at the beginning of the shift. This log on process will give the member the ability to access the MobileCop software which is the interface between the MDC in the vehicle and the MOTION and LEMS systems. If the member does not logon, the member will not be able to use the MDC to access the files in these systems.

**INSPECTION UPON ENTERING VEHICLE**

32. Before using a departmental vehicle at the start of his/her tour of duty and at the end of each shift, a member shall check the MDC and AVL operability to ensure that it is functioning properly and has not been damaged.
33. Any malfunctioning equipment or damages observed must be reported immediately to a supervisor.
34. Any damage to equipment shall be documented via an NOPD incident report.
35. Supervisors shall report MDC and AVL equipment problems and seek to have equipment repaired as needed. The supervisor shall have the member take the vehicle to the MDC Unit during normal business hours to be checked. If in the opinion of MDC

Unit personnel the equipment is functioning properly, the vehicle will be immediately placed back in service. If the equipment is deemed to be inoperable by the MDC Unit personnel, MDC Unit personnel will remove the equipment from the vehicle.

36. If the MDC Unit is not available, the supervisor shall leave written notice with the oncoming supervisor that the vehicle shall be brought to the MDC Unit at the next opportunity during MDC Unit working hours. A copy of this written notice shall be forwarded to the supervisor's respective District/Division Commander.
37. Supervisors shall refer for investigation any member found to fail to properly use or care for MDC or AVL equipment.

#### **UNAUTHORIZED SOFTWARE**

38. Members are prohibited from installing, loading, running, and executing any software not specifically authorized by the MDC Unit.
39. Software configuration problems shall be determined by the MDC Unit. If, in the opinion of MDC Unit personnel, the software or operating system has been tampered with, an internal inquiry shall begin to determine the cause of the software failure.
40. If the software failure is caused by the addition of unauthorized software or the tampering of the existing system software, the MDC Unit will investigate to determine the person(s) responsible for tampering with or loading the unauthorized software and report the findings to the commander of the Information Systems Section.
41. The Information Systems Section commander will contact the commander of the unit to which the vehicle is assigned to request that a Formal Disciplinary Investigation be initiated to determine how the software was installed. If the outcome of the investigation identifies the individual responsible for the unauthorized software installation, disciplinary action shall be taken against that individual.

#### **UNAUTHORIZED HARDWARE**

42. Members are prohibited from attaching any unauthorized peripheral devices to the MDCs. Unauthorized peripheral devices include, but are not limited to: Cell phones, DVD Players, Personal GPS Devices, CD-ROMs, Digital Video/Camera's, USB and serial storage devices, and printers.

#### **COLLISIONS AND VEHICLE MAINTENANCE**

43. Supervisors shall be responsible for inspecting the MDC in a vehicle involved in a motor vehicle crash for damages caused by the accident.
44. If the vehicle and MDC are operable, the MDC will remain in the vehicle until such time as the vehicle is ordered to the repair facility.
45. When the vehicle is ordered to the repair facility, the MDC will be removed by the MDC Unit and stored until the vehicle is repaired.
46. When the vehicle is inspected and picked up from the repair facility, the MDC Unit shall be notified by the unit of assignment to have the MDC reinstalled in the vehicle.
47. If a vehicle is scheduled to be brought to a repair facility or the City Equipment Maintenance Division for maintenance that is expected to last longer than forty-eight (48)

hours, the vehicle will be brought to the MDC Unit where the MDC will be removed by the MDC Unit and stored until the vehicle is repaired / returned to service.

#### **OFFICER OUT OF VEHICLE**

48. During a member's tour of duty, the member will secure the vehicle every time he/she exits the unit by locking all doors and windows.
49. The operator of any department vehicle with an MDC installed shall be held responsible for any stolen, missing, or damaged Departmental Equipment if the vehicle is left unsecured.
50. The MDCs in vehicles with MDC mounts must be locked and fully secured in the installed mount.
51. If the MDC cannot be secured in its mount when the vehicle is unattended the MDC shall be secured in the locked trunk of the assigned departmental vehicle.

#### **MAINTENANCE**

52. A regular maintenance schedule for testing MDC and AVL equipment will be maintained by the MDC Unit.
53. During scheduled maintenance, MDC Unit representatives will inspect and perform maintenance on the MDCs assigned to the unit and associated AVL devices and list any problems found. Necessary corrective measures shall be taken to repair or replace malfunctioning equipment.
54. Unit Commanders shall be notified in advance via email and/or telephone before the scheduled maintenance will take place. Unit Commanders are responsible for making vehicles with MDCs available for inspection and maintenance.

#### **CONFIRMATION OF WANTS AND WARRANTS WITH N.C.I.C.**

55. Officers receiving wanted or warrant hits while using an MDC shall contact N.C.I.C. by telephone or radio to confirm verification of the warrant on all wanted subjects or stolen vehicles (see: **Chapter 1.9 – Arrests**).

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 81.7

### TITLE: POLICE COMPLAINT SIGNALS AND DISPOSITIONS

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 801**

---

#### PURPOSE

The purpose of this Chapter is to establish the official police signals and complaint call dispositions used by the New Orleans Police Department and the associated plain text verbiage to be used during public safety radio transmissions.

#### DEFINITIONS

Definitions relevant to this Chapter include:

**Plain Language/Text**—Radio communication that can be understood by the intended audience and meets the purpose of the communicator. Plain language is designed to eliminate or limit the use of police codes and acronyms, as appropriate, during incident response involving more than a single agency. In the context of the National Incident Management System (NIMS), plain language replaces coded substitutions with common terminology and definitions that can be understood by individuals from all responder disciplines and across jurisdictions.

#### POLICY STATEMENT

1. The New Orleans Police Department shall use plain language / text when operating on common radio communications channels with other first responder agencies.
2. To promote the use of plain language / text when required in joint first responder operations under NIMS, the New Orleans Police Department will strive to utilize plain language / text in daily police communications.

#### COMPLAINT SIGNALS

3. The existing police signals utilized by the New Orleans Police Department are listed in **Appendix A - POLICE COMPLAINT CALLS / SIGNALS** attached to this Chapter.
4. The complaint calls / signals and their corresponding verbiage are utilized by Communication Services for categorizing Calls for Service (CFS) and in the Electronic Police Report (EPR) in the "Signal" and "Incident" box.

**SIGNAL DISPOSITIONS**

5. The available complaint call/signals disposition abbreviations and their corresponding text is listed in **Appendix B - COMPUTER AIDED DISPATCH DISPOSITIONS / PLAIN TEXT VERBIAGE** attached to this Chapter.
6. The complaint calls/signals dispositions are utilized by officers when closing an item that is "open" with Communication Services.
7. The addition or removal of police complaint calls/signals to the listing in Appendix A shall only be made by a General Order approved by the Superintendent.
8. All changes to police complaint calls/signals shall be communicated to the Orleans Parish Communications District by the police liaison to Communications Services immediately upon approval by the Superintendent.

**Appendix A - POLICE COMPLAINT CALLS/SIGNALS**

15-Citizen holding a suspect	34-C Aggravated battery, cutting
17-F Fugitive attachment	34-D Domestic aggravated, battery
17-J Juvenile attachment	34-S Aggravated battery, shooting
17-M Municipal Court attachment	35-Simple battery
17-R Warrant stop and release	35-D Simple battery, domestic
17-T Traffic attachment	37-Aggravated assault
18-Traffic incidents (other than those designated by signal)	37-D Aggravated assault, domestic
18-A Abandoned Vehicle	38-Simple assault
18-A Abandoned Vehicle	38-D Simple assault, domestic
18-DE Directed traffic enforcement	39-Negligent injury
19-Drunk	42-Aggravated rape
20-Auto accident	42-B Oral sexual battery
20-A Airplane crash	42-M Aggravated rape, male victim
20-I Injury accident	43-Simple rape
20-F Fatal accident	43-B Sexual battery
20-X Accident involving police vehicle	43-M Simple rape, male victim
21-Complaint	44-Aggravated kidnaping
21-AB Abandoned Boat	44-B Barricaded subject
21-B Blighted property	44-H Hostage
21-C Curfew	45-Simple kidnaping
21-F Flood event	51-Aggravated arson
21-H Homeless	51-B Bomb threat
21-J Missing juvenile	52-Simple arson
21-L Lost or stolen	52-D Simple Arson, domestic
21-M Missing adult	52-E Explosion
21-N Noise complaint	52-F Fire
21-R Foreign stolen/local recovery	52-R Rescue
21-S Asset seizure	54-Placing combustible substances-fire bomb
21-T Truant violation	55-Aggravated criminal damage to property
21-U Underage drinking violation	56-Simple criminal damage to property
21-V Voting/election complaints	56-D Domestic criminal damage
22-Disperse subjects	58-(10-18) additional information
22-A Area Check	58R Local stolen / local recovery
22-B Business Check	59-Criminal mischief
22-R Residence Check	59-D Criminal mischief, domestic
22-D Directed Patrol	59-P Taking temporary possession
22-W Walking Beat	60-Aggravated burglary
23-Traffic congestion	61-Automobile smash & grab
24-Medical	62-Simple burglary
24-C Medical Communicable Disease	62-A Burglary alarm
24-K Medical Sexual Assault Kit	62-B Simple burglary, business
25-Call dispatcher	62-C Simple burglary, auto
26-Police officer	62-D Simple burglary, domestic
27-Attempt crime	62-L Local alarm
29-Death	62-R Residence burglary
29-S Suicide	62-S Safe burglary
29-U Unclassified death	63-Trespass, prowler
30-Homicide	63-P Protest
30-C Homicide, cutting	64-Armed robbery
30-D Homicide, domestic	64-A Silent robbery alarm
30-S Homicide, shooting	64-G Armed robbery, gun
34-Aggravated battery	64-J Armed car jacking
	64-K Armed robbery, knife

65-Simple robbery	95-Illegal carrying of a weapon
65-J Carjacking, no weapon	95-G illegal carrying of a weapon (concealed gun)
65-P Simple robbery, purse snatching	95-K illegal carrying of a weapon (knife)
66-Extortion	97-Picketing
66-D Domestic threats	98-D.W.I.
67-Theft	99-Reckless operation
67-A Auto theft	100-Hit and run
67-AR Simultaneous stolen / recovery	100-I Hit and run, injury
67-B Bicycle theft	100-F Hit and run, fatality
67-C Theft from exterior of auto	100-X Hit and run, police vehicle
67-E Theft by embezzlement	101-Desecration of graves
67-F Theft by fraud	102-Cruelty to animals
67-P Pickpocket	103-Disturbance
67-S Theft by shoplifting	103-D Disturbance, domestic
68-Unauthorized use of movables	103-F Disturbance, fight
69 Possession of stolen property	103-M Disturbance, mental
71-Issuing worthless checks	103-R Disturbance, riot
72-Forgery	106-Obscenity, exposing one's person
79-Violation of protective orders	107-Suspicious person
80-Carnal knowledge of a juvenile	107-S Suspicious package
81-Indecent behavior	107-U Unattended package
82-Prostitution	108-Officer Need's assistance, life in danger
83-Solicitation for prostitution	109-Aggravated escape
84-Pandering	110-Simple escape
87- Abortion	112-Impersonating an officer
89-Crime against nature	116-Flag desecration
90-Gambling	118-Public bribery
91-Unlawful sale to minors	284-Peeping tom
92-Contributing to delinquency of a juvenile	911-Unknown trouble call
93-Cruelty to a juvenile	966-Drug law violations
94-Illegal use of weapons	
94-F Fireworks

## CHAPTER: 81.8

### TITLE: M.O.T.I.O.N. COMPUTER INQUIRIES

**EFFECTIVE: 12/17/2017**

**REVISED: Replaces Policy 843**

---

#### PURPOSE

The purpose of this Chapter is to set guidelines for the identification of authorized individuals requesting information through the Metropolitan Orleans Total Information Online Network (M.O.T.I.O.N.) computer network.

#### POLICY STATEMENT

1. It is not always possible for an officer or other authorized member to enter his/her own inquiry transaction at a computer terminal. If the inquiring officer is unable to utilize a computer terminal, the following procedure shall be followed:
  - (a) The officer or authorized member actually entering the inquiry shall enter his/her social security number and password.
  - (b) To relieve the person making the entry of full responsibility for the use of the retrieved information, the person making the entry shall include either the social security number or the car number of the individual requesting the information.
  - (c) If the individual requesting the inquiry is not on duty and making the request over the police radio, he/she shall supply his/her badge number to the employee making the inquiry.
  - (d) On all telephone inquiries, the requesting individual shall supply his/her social security number to the individual actually entering the request data.
2. Members who fail to enter a social security number, car number, or badge number of the authorized member requesting information through the M.O.T.I.O.N system shall be held responsible for the dissemination of the information obtained through the computer inquiry. The member shall also be subject to disciplinary action for failing to enter the required information.
3. M.O.T.I.O.N computer inquiries are for official police business only.
4. Information obtained through the M.O.T.I.O.N system shall not be released to individuals outside the New Orleans Police Department without written permission of the Superintendent of Police. An exception is granted to outside law enforcement personnel acting in the performance of their duty.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 81.13

### TITLE: MAJOR INCIDENT NOTIFICATION

**EFFECTIVE: 12/17/2017**

**REVISED: Replaces Policy 358**

---

#### PURPOSE

The purpose of this Chapter is to provide guidance on determining when, how and to whom notification of major incidents should be made.

#### POLICY STATEMENT

1. The New Orleans Police Department recognizes that certain incidents should be brought to the attention of supervisors or other specified members of this department to facilitate the coordination of activities and ensure that inquiries from the media and the public may be addressed in a consistent and thoughtful manner.

#### DEFINITIONS:

Definitions relevant to this Chapter include:

**Major incident**—A situation, scene or incident (not necessarily a crime scene) where the media is likely to show a strong interest. Such incidents are also of interest to the Superintendent of Police and the affected Bureau Chiefs and Commanders.

**Major Crime Scene**—A location where any of the listed crimes or incidents took place (or another location where evidence linked to those crimes or incidents may be found) and from which most of the physical evidence is retrieved by law enforcement personnel, crime scene investigators (CSIs) or, in rare circumstances, forensic scientists.

Major crimes include:

- (a) All deaths (homicides, suicides and unclassified) except for “natural” causes.
- (b) Aggravated battery (with serious injury, possibly fatal and/or multiple victims)
- (c) Level 4 uses of force investigated by PIB-FIT (see: Chapter 1.3 – Use of Force)
- (d) Sexual assaults handled by ISB-SVS (see: Chapter 42.2 – Sexual Assault)
- (e) Aggravated Kidnapping
- (f) Arson (with serious injury, possibly fatal)

(see also: **Chapter 11.0.1 - Duties and Responsibilities of District Commanders, Supervisory Members and Officers**)

#### CRITERIA FOR NOTIFICATION OF MAJOR INCIDENTS

2. The following list of incident types is provided as a guide for notification and is not

intended to be all-inclusive:

- (a) Homicides
- (b) Suspicious deaths
- (c) Deaths related to law enforcement activity
- (d) Traffic crashes with fatalities
- (e) Level 4 Use of Force (see: **Chapter 1.3 – Use of Force**)
- (f) Any law enforcement officer-involved shooting whether on- or off-duty
- (g) Serious injury or death to an NOPD member, whether on- or off-duty
- (h) Serious injury or death of a prominent New Orleans official / public official
- (i) Arrest of NOPD member or a prominent New Orleans official / public official
- (j) Aircraft, train, boat or other transportation accident with major property damage, mass casualties and/or injury or death
- (k) In-custody deaths,
- (l) Any other incident, which has or is likely to attract significant media attention.

### **DISTRICT SUPERVISOR RESPONSIBILITIES**

3. The District Platoon Commander, Assistant Platoon Commander, or other working platoon supervisor is responsible for making the appropriate notifications for a major incident.
4. The notifying supervisor shall make reasonable attempts to obtain as much information on the incident as possible before notification and shall attempt to make the notification as soon as practicable.
5. Notifications should be made to Communications Services as soon as practicable.

### **COMMUNICATION SERVICES RESPONSIBILITIES**

6. Communications Services shall utilize the appropriate notification list, provided by NOPD and maintained at Communication Services for the identified major incident being reported.
7. The on-duty NOPD Communication Services Liaison may add additional members to a specific notification based on his/her understanding of the nature of the major incident and the best needs of the Department.
8. Once Communications Services and/or the on-duty NOPD Communication Services Liaison has made the required notifications, the on-duty or on-call member of the Public Information Office shall be notified of the major incident if it appears media outlets are indicating heightened interest in the incident.
9. All notifications made through Communications Services and/or the on-duty NOPD Communication Services Liaison shall be noted in the incident recall log.
10. The on-duty NOPD Communication Services Liaison may add the major incident to the Superintendent's Major Offense Log for the appropriate shift.

### **PUBLIC INFORMATION OFFICE**

11. Contact information (name, cell phone) for the on-scene supervisor shall be provided to the on-duty or on-call member of the Public Information Office if requested.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 82.1

### TITLE: REPORT PREPARATION

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 344**

---

#### PURPOSE

This Chapter establishes guidelines for determining when officers are required to complete incident reports and the processing of incident reports written by officers of the New Orleans Police Department.

#### GENERAL

1. Communication Services shall create a record in the computer aided dispatch system of every call for service or self-initiated activity or incident communicated to them. This will include:
  - (a) Reports of crime by community members;
  - (b) Non-criminal complaints by community members;
  - (c) Incidents resulting in a member of NOPD being dispatched or assigned;
  - (d) Criminal and noncriminal investigations initiated by department members; and
  - (e) Incidents involving the stop, detention, arrest, or summons of an individual by NOPD members.
2. Members who have access may also create a record in the computer-aided dispatch system of an incident, investigation, call for service or self-initiated activity in the Mobile Computer Terminal (MCT).
3. An incident report (EPR) shall be written whenever specifically directed by a Departmental regulation (chapters) or when ordered by a supervisor.

#### REPORT PREPARATION

4. Members shall ensure that their reports are sufficiently detailed for the purpose intended and reasonably free of errors prior to submission for review by a supervisor.
5. It is the responsibility of the assigned member to complete and submit all incident reports (EPR) assigned during his/her shift before going off-duty, unless permission to delay submission of the report has been approved by his/her supervisor.
6. Absent articulable exigent circumstances, reports requiring prompt follow-up action on active leads or arrest reports where the suspect remains in custody shall not be delayed.

7. All incident reports (EPR) shall accurately reflect the identity of the persons involved, witnesses, all pertinent information gathered including what was seen, heard or assimilated by any other sense and any actions taken.
8. Members shall not suppress, conceal or distort the facts of any reported incident, nor shall any member make an intentionally false, inaccurate or incomplete report orally or in writing.
9. The reporting member's opinions should not be included in reports unless specifically identified as such.

### **REQUIRED REPORTING**

10. Completed incident reports (EPR) are required in all of the following situations as specifically covered herein or by other Chapters:
  - (a) Criminal activity,
  - (b) Non-criminal activity,
  - (c) Death reports,
  - (d) Injury or damage caused by City personnel, or
  - (e) Certain miscellaneous injuries.
11. The above reporting requirements are not intended to be all-inclusive. A supervisor may direct an employee to document any incident he/she deems necessary.

### **CRIMINAL ACTIVITY REPORTING**

12. When in response to a call for service, or as a result of self-initiated activity, a member becomes aware of any activity where a crime has occurred, the member is required to document the activity.
13. The fact that a victim does not desire prosecution is not an exception to documentation.
14. Examples of incidents that require documentation include, but are not limited to:
  - (a) When an arrest is made on a state criminal charge.
  - (b) A custodial arrest of a juvenile.
  - (c) Cases involving a wanted subject (known or unknown) who is to be charged with a state or municipal offense.
  - (d) All UCR reportable offenses.
  - (e) Cases involving domestic violence.
  - (f) Identity thefts (R.S. 14:67.16H (1)).

### **NON-CRIMINAL ACTIVITY**

15. Non-crime related incidents that shall be documented include, but are not limited to:
  - (a) Anytime an officer points a firearm or CEW at a person (See: **Chapter 1.7.1 – CEW**).
  - (b) Any use of physical force by a member of this department (See: **Chapter 1.3.6 – Use of Force Reporting**).
  - (c) Any firearm discharge (See: **Chapter 1.3.6 – Use of Force Reporting** and **Chapter 1.3.2 – Force Investigations Team**).
  - (d) Anytime a person is reported missing (regardless of jurisdiction) (See: **Chapter 41.23 – Missing Person Reporting**).
  - (e) Any found property or found evidence.
  - (f) Any incident involving the death of a human being (See: **Chapter 41.33 - Death Investigations**). Any traffic crashes above the minimum reporting level (See:

**Chapter 61.7 - Traffic Crash Response and Reporting).**

- (g) Incidents which result in damage to city owned property. (See: **Chapter 41.31 – Damage to Public Property**).
- (h) Suspicious incidents that may indicate a potential for crimes against children or that a child's safety is in jeopardy.
- (i) All protective custody detentions (See: **Chapter 41.25 – Crisis Intervention**).
- (j) Suspicious incidents that may place the public or others at risk.
- (k) Searches and seizures (See: **Chapter 1.2.4.1 – Stops / Terry Stops** and **Chapter 1.2.4 – Search and Seizure**),
- (l) Whenever the member believes the circumstances should be documented or at the direction of a supervisor.

**DEATH REPORTS**

16. Death investigations require specific investigation methods depending on circumstances and should be handled in accordance with **Chapter 41.33 – Death Investigations**. An officer handling a death investigation should notify his/her supervisor of the circumstances surrounding the incident for a determination on how to proceed. The following cases shall be appropriately investigated and documented using the approved reporting method (see generally R.S. 33:5713A):
- (a) Suspicious, unexpected, or unusual deaths;
  - (b) Sudden, accidental or violent deaths;
  - (c) Suicides;
  - (d) Homicide or suspected homicide;
  - (e) Deaths due to criminal activity;
  - (f) Unattended deaths (no physician or qualified hospice care during the period immediately preceding death); and
  - (g) Found dead bodies or body parts.

**INJURY OR DAMAGE BY CITY PERSONNEL**

17. Reports shall be taken if an injury occurs that is a result of an act of any City of New Orleans employee. Reports also shall be taken when there is damage to city property or city equipment.

**MISCELLANEOUS INJURIES**

18. Any injury that is reported to this department shall require a report when:
- (a) The injury is a result of an apparent drug overdose.
  - (b) There is an attempted suicide.
  - (c) The injury is significant enough where death could reasonably result.
  - (d) The circumstances surrounding the incident are suspicious and possibly criminal in nature and it is prudent to record the event.

**REPORT CORRECTIONS**

19. Supervisors shall review reports for sufficiency, content and accuracy. If a correction is necessary, the reviewing supervisor shall return the report to the reporting member for correction as soon as practicable. It shall be the responsibility of the originating member to ensure that any report returned for correction is processed in a timely manner.

**REPORT CHANGES OR ALTERATIONS**

20. Reports that have been approved by a supervisor and submitted to the Records Section for filing and distribution **shall not** be modified or altered except by way of a

supplemental report. Reviewed reports that have not yet been submitted to the Records Bureau may be corrected or modified by the authoring member only with the knowledge and authorization of his/her supervisor.

### **ELECTRONIC SIGNATURES**

21. NOPD has established an electronic signature procedure for use by all members of the Department. Members shall only use their electronic signature for official reports or communications.
22. Each member shall be responsible for the security and use of his/her electronic signature and shall promptly notify a supervisor if the electronic signature has or may have been compromised or misused.

### **UNIFORM CRIME REPORTING (UCR)**

23. The UCR Program collects data about offenses in order to measure the level and scope of crime occurring throughout the nation. The Uniform Crime Reporting (UCR) Program divides offenses into two groups, Part I and Part II crimes.  
([www2.fbi.gov/ucr/handbook/ucrhandbook04.pdf](http://www2.fbi.gov/ucr/handbook/ucrhandbook04.pdf))

### **UCR - PART I OFFENSES**

24. UCR - Part I offense classifications include:
  - (a) **Criminal homicide:**
    - i. Murder and non-negligent manslaughter: the willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, and accidental deaths are excluded. The program classifies justifiable homicides separately and limits the definition to: (1) the killing of a felon by a law enforcement officer in the line of duty; or (2) the killing of a felon, during the commission of a felony, by a private citizen.
    - ii. Manslaughter by negligence: the killing of another person through gross negligence. Deaths of persons due to their own negligence, accidental deaths not resulting from gross negligence, and traffic fatalities are not included in the category Manslaughter by Negligence.
  - (b) **Forcible rape:**
    - i. The carnal knowledge of a person forcibly and against his/her will.
    - ii. Rapes by force and attempts or assaults to rape, regardless of the age of the victim, are included.
    - iii. Statutory offenses (no force used—victim under age of consent) are excluded.
  - (c) **Robbery**—The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.
  - (d) **Aggravated assault**—An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Simple assaults are excluded.
  - (e) **Burglary (breaking or entering)** —The unlawful entry of a structure to commit a felony or a theft. Attempted forcible entry is included.
  - (f) **Larceny-theft** (except motor vehicle theft):
    - i. The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles, motor vehicle parts and accessories, shoplifting,

- pocket-picking, or the stealing of any property or article that is not taken by force and violence or by fraud.
  - ii. Attempted larcenies are included.
  - iii. Embezzlement, confidence games, forgery, check fraud, etc., are excluded.
- (g) **Motor vehicle theft:**
  - i. The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on land surface and not on rails.
  - ii. Motorboats, construction equipment, airplanes, and farming equipment are specifically excluded from this category.
- (h) **Arson**—Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

## UCR - PART II OFFENSES

25. UCR - Part II offenses encompass all other reportable classifications outside those defined as Part I and include:
- (a) **Other assaults (simple)**—Assaults and attempted assaults where no weapon was used or no serious or aggravated injury resulted to the victim. Stalking, intimidation, coercion, and hazing are included.
  - (b) **Forgery and counterfeiting**—The altering, copying, or imitating of something, without authority or right, with the intent to deceive or defraud by passing the copy or thing altered or imitated as that which is original or genuine; or the selling, buying, or possession of an altered, copied, or imitated thing with the intent to deceive or defraud. Attempts are included.
  - (c) **Fraud**—The intentional perversion of the truth for the purpose of inducing another person or other entity in reliance upon it to part with something of value or to surrender a legal right. Fraudulent conversion and obtaining of money or property by false pretenses. Confidence games and bad checks, except forgeries and counterfeiting, are included.
  - (d) **Embezzlement**—The unlawful misappropriation or misapplication by an offender to his/her own use or purpose of money, property, or some other thing of value entrusted to his/her care, custody, or control.
  - (e) **Stolen property**—Buying, receiving, possessing, selling, concealing, or transporting any property with the knowledge that it has been unlawfully taken, as by burglary, embezzlement, fraud, larceny, robbery, etc. Attempts are included.
  - (f) **Vandalism**—To willfully or maliciously destroy, injure, disfigure, or deface any public or private property, real or personal, without the consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law. Attempts are included.
  - (g) **Weapons** (carrying, possessing, etc.)—The violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, concealment, or use of firearms, cutting instruments, explosives, incendiary devices, or other deadly weapons. Attempts are included.
  - (h) **Prostitution and commercialized vice**—The unlawful promotion of or participation in sexual activities for profit, including attempts. To solicit customers or transport persons for prostitution purposes; to own, manage, or operate a dwelling or other establishment for the purpose of providing a place where prostitution is performed; or to otherwise assist or promote prostitution.
  - (i) **Sex offenses (except forcible rape, prostitution, and commercialized vice)**—Offenses against chastity, common decency, morals, and the like. Incest, indecent exposure, and statutory rape are included. Attempts are

- included.
- (j) **Drug abuse violations**—The violation of laws prohibiting the production, distribution, and/or use of certain controlled substances. The unlawful cultivation, manufacture, distribution, sale, purchase, use, possession, transportation, or importation of any controlled drug or narcotic substance. Arrests for violations of state and local laws, specifically those relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs. The following drug categories are specified: opium or cocaine and their derivatives (morphine, heroin, codeine); marijuana; synthetic narcotics—manufactured narcotics that can cause true addiction (Demerol, methadone); and dangerous nonnarcotic drugs (barbiturates, Benzedrine).
  - (k) **Gambling**—To unlawfully bet or wager money or something else of value; assist, promote, or operate a game of chance for money or some other stake; possess or transmit wagering information; manufacture, sell, purchase, possess, or transport gambling equipment, devices, or goods; or tamper with the outcome of a sporting event or contest to gain a gambling advantage.
  - (l) **Offenses against the family and children**—Unlawful nonviolent acts by a family member (or legal guardian) that threaten the physical, mental, or economic well-being or morals of another family member and that are not classifiable as other offenses, such as Assault or Sex Offenses. Attempts are included.
  - (m) **Driving under the influence**—Driving or operating a motor vehicle or common carrier while mentally or physically impaired as the result of consuming an alcoholic beverage or using a drug or narcotic.
  - (n) **Liquor laws**—The violation of state or local laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, or use of alcoholic beverages, not including driving under the influence and drunkenness. Federal violations are excluded.
  - (o) **Drunkenness**—To drink alcoholic beverages to the extent that one's mental faculties and physical coordination are substantially impaired. Driving under the influence is excluded.
  - (p) **Disorderly conduct**—Any behavior that tends to disturb the public peace or decorum, scandalize the community, or shock the public sense of morality.
  - (q) **Vagrancy**—The violation of a court order, regulation, ordinance, or law requiring the withdrawal of persons from the streets or other specified areas; prohibiting persons from remaining in an area or place in an idle or aimless manner; or prohibiting persons from going from place to place without visible means of support.
  - (r) **All other offenses**—All violations of state or local laws not specifically identified as Part I or Part II offenses, except traffic violations.
  - (s) **Suspicion**—Arrested for no specific offense and released without formal charges being placed.
  - (t) **Curfew and loitering laws (persons under age 18)** —Violations by juveniles of local curfew or loitering ordinances.
  - (u) **Runaways (persons under age 18)** —Limited to juveniles taken into protective custody under the provisions of local statutes.

## CRASH REPORTS

- 26. Officers shall complete the Louisiana crash report form on all vehicular crashes which include violations of La. R.S. Title 14 statutes.
- 27. If a vehicular crash occurs on private property, a crash report shall not be written, unless it involves damage to city owned property, violations of La. R.S. Title 14 statutes, serious injury or death, or if required by a supervisor. (See also: **Chapter 41.31 – Damage to**

**Public Property).**

28. If a vehicular crash occurs on public roadways, a crash report shall be completed, with the following exceptions:
  - (a) If a vehicular crash occurs involving property damage less than \$500.00, no injuries, and all parties involved agree to settle the incident among themselves, a crash report is not required.
  - (b) If an order is issued by the Superintendent of Police suspending this regulation, crash reports shall be completed in compliance with the order (i.e. Mardi Gras, Hurricane Incident Action Plan).

**INCIDENT REPORT INSTRUCTIONS**

29. Except as indicated below or in other Chapters, incident reports shall be completed and submitted by reporting officers in a timely manner (See also: **Chapter 1.9 – Arrests**).
30. Whenever possible, reports shall be completed while the reporting officer is still assigned to the call, so accurate reporting times can be calculated.
31. Members may review the BWC recordings of any incident which is the subject of an EPR or other police report prior to drafting his/her report as long as it does not unduly delay the completion of the report and/or has the approval of the member's supervisor.
32. Failure or delay in submitting reports may result in corrective or disciplinary action against the member, unless the delay has been authorized by his/her supervisor.
33. Supervisors shall ensure all reports written by his/her subordinates are completed and reviewed in a timely manner. Failure or delay in reviewing reports may result in corrective or disciplinary action against the supervisor.

**AUTHORIZED DELAY IN COMPLETING REPORTS**

34. Due to the volume of calls, variety of complaints and unique circumstances which are involved in police work, some reports may require additional time to complete.

**FOR ELECTRONIC POLICE REPORTS (EPR)**

35. If additional time is needed to complete a report, the officer shall complete an NOPD interoffice correspondence (Form 105) to his/her supervisor explaining the reason for the delay and the expected time of completion. The officer shall attach to the NOPD interoffice correspondence, a copy of the "DOCUMENTS" page of the incomplete report.

**FOR PAPER REPORTS (EXCLUDING CRASH REPORTS)**

36. If additional time is needed to complete a report, the officer shall complete an NOPD interoffice correspondence (Form 105) to his/her supervisor explaining the reason for the delay and the expected time of completion. The officer shall attach to the NOPD interoffice correspondence a copy of the Face Sheet of the incomplete report.
37. It shall be the responsibility of the reporting officer's supervisor to determine when a delay is warranted and for how long by signing and approving the Interoffice Correspondence.
38. Delays of more than one tour of duty must be authorized by the officer's immediate

supervisor and his/her District/Division Commander. Officers scheduled to be AWP (days off) or furlough (approved annual leave) shall be responsible for informing his/her supervisor at the time of making the request for the delay by including that information in the Interoffice Correspondence.

### **PROCESSING INCIDENT/SUPPLEMENTAL REPORTS – PAPER REPORTS**

39. All paper reports (green reports) shall be forwarded to the Record Section for processing utilizing the appropriate receipt form listed below:
  - (a) UCR Report Receipt (Form 250);
  - (b) Non-UCR Report Receipt (Form 251); and
  - (c) Supplemental Report Receipt (Form 252)
40. Once a report is completed and submitted, the member's supervisor shall be responsible for reviewing and approving or disapproving the report. Supervisors are responsible for reviewing all reports within the time frames outlined in this Chapter.
  - (a) Receipts for offense reports will only include reports for the same month. Offense reports from two different months must be placed on separate receipts.
  - (b) All supplemental reports will be listed on one receipt, regardless of the item number.
41. The original report receipt plus one copy will be forwarded with the reports.
42. The original receipt shall be signed and dated by the individual from the Records Section accepting the reports.
43. The signed receipt shall be returned to the individual delivering the reports.
44. Signed receipts shall be maintained at the unit level for a period not less than one year.

### **PROCESSING INCIDENT/SUPPLEMENTAL REPORTS - EPR SYSTEM**

45. Incident and Supplemental reports that have been written and completed in the EPR system are automatically obtained by the Records and Identification Division electronically after approval by the reviewing supervisor.
46. Incident and/or Supplemental reports completed in the EPR system do not need to be forwarded using the receipt forms.

### **AUTHORIZED DELAY FOR TRAFFIC CRASH REPORTS**

47. All crash reports, excluding fatalities, must be received in the Records Section within 48 hours of completion (See: R.S. 32:398 (E) (2)).
48. Supervisors shall ensure all authorized delays for crash reports do not exceed this time limit. Completion includes approval of the report by a supervisor.

### **PROCESSING OF TRAFFIC CRASH REPORTS - PAPER REPORTS**

49. After supervisory approval, the Vehicle Traffic Crash Reports are forwarded to the Records Section utilizing the following receipt forms:
  - (a) Vehicle Traffic Crash Report Receipt (Form 253).
  - (b) Supplemental Vehicle Traffic Crash Report Receipt (Form 254).

**PROCESSING TRAFFIC CRASH REPORTS - EPR SYSTEM**

50. Vehicle Traffic Crash reports that have been written and completed in the EPR system are automatically obtained by the Records and Identification Division electronically after approval by the reviewing supervisor.

**PROCESSING TRAFFIC FATALITY INVESTIGATIONS**

51. Traffic-related fatality investigations shall be processed in accordance with the following:
- (a) Investigating officers shall be responsible for submitting a copy of the face sheet of the traffic fatality report with the following information:
    - i. Date and time of the crash;
    - ii. Item number; and
    - iii. The location where the fatality occurred.
  - (b) The copy of the face sheet shall be stamped "**Fatality**" and submitted with an interoffice correspondence (form 105) indicating the expected time of completion. The correspondence shall be approved and signed by the investigating officer's supervisor and Division Commander.
  - (c) A written briefing sheet outlining the status of the traffic fatality investigation shall be submitted by the investigating officer to his/her supervisor and Division Commander weekly.

**DELINQUENT REPORTS**

52. The Records Section shall distribute a list of all delinquent reports to each Division and District Commander. The listing of delinquent reports shall be distributed no less than every two weeks.

**SUPERVISOR'S RESPONSIBILITIES**

53. Supervisors shall ensure that all reports written by his/her subordinates are completed and reviewed within the time constraints outlined in this Chapter. It will be the responsibility of the officer's supervisor to ensure all reports are reviewed, approved and submitted in a timely manner.

**DISTRICT/DIVISION COMMANDER RESPONSIBILITIES**

54. District and Division Commanders shall administer an effective system for ensuring that all reports are submitted in accordance with this Chapter, and completed reports for which delays have been authorized are submitted by the date indicated on the authorization. Violations shall be documented and appropriate corrective or disciplinary action taken.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 82.1.1

### TITLE: RECORDS RELEASE AND SECURITY

**EFFECTIVE: 12/17/2017**

**REVISED: 10/07/2018**

---

#### PURPOSE

The purpose of this Chapter is to establish a reference and procedure for the security and release of department public records in accordance with the **Louisiana Public Records Law** (La. R.S. 44:1).

#### POLICY STATEMENT

1. This Chapter does not prevent the Department from voluntarily making part or all of specific records available to the requesting person, or the public, unless disclosure is deemed exempt, confidential, private or expressly prohibited by law.
2. The Federal Freedom of Information Act (FOIA) does not apply to state or local records.
3. The release of video recordings involving critical incidents is governed by the department's internal **Public Release of Critical Incidents Policy** maintained by the Deputy Chief of the Public Integrity Bureau and, where in conflict with the provisions of this Chapter, controls.

#### DEFINITIONS

**Body-Worn Camera (“BWC”) recording**—A digital recording made by equipment worn by a Department member that captures audio/video signals.

**Custodian of Records**—The Superintendent is the official Custodian of Records and is responsible for the public records of the New Orleans Police Department, regardless of whether the records are in his/her personal custody and control. Duties of the Custodian of Records may be delegated to other members of the New Orleans Police Department.

**Data Transformation Services, or DTS**—Is a set of objects and utilities to allow the automation of extract, transform and load operations to or from a database. The objects are **DTS** packages and their components, and the utilities are called **DTS** tools.

**Public Record**—All records used, prepared, possessed or retained for use in the performance of any public function, unless exempted by law.

**Record**—All books, records, writings, accounts, letters and letter books, maps, drawings,

photographs, cards, tapes, recordings, memorandums, and papers, and all copies, duplicates, photographs, including microfilm, or other reproductions thereof, or any other documentary materials, regardless of physical form or characteristics, including information contained in electronic data processing equipment.

### **PUBLIC REQUESTS FOR RECORDS**

4. The Custodian of Records is responsible for the custody and control of department public records, including (La. R.S. 44:36):
  - (a) Maintaining procedures for the retention, archiving and destruction of department public records.
  - (b) Maintaining and updating the approved records retention schedule.
  - (c) Requesting and responding to an authorization to destroy records.
  - (d) Establishing rules regarding the inspection and copying of department public records as reasonably necessary for the protection of such records.
  - (e) Periodic consultation with the State Archivist regarding retention and disposition of records and determining whether records are of legal, administrative or historical value (La. R.S. 44:411).
    - i. Records determined to be of no legal, administrative or historical value may be disposed of in compliance with the organization's records retention schedule.
    - ii. A list of those records, together with signed approval from the Louisiana Records Management Section and Acquisitions Archivist, shall be filed and preserved by the Custodian of Records.
  - (f) Maintaining the required pay schedule of fees for public records as allowed by law (La. R.S. 44:32).
    - i. No fee will be charged to merely view public records during normal business hours. A fee may be charged for viewing records outside of normal business hours.
    - ii. The hourly fee for records generated by a manipulation of data in a form not used by this department shall not exceed the average hourly rate of pay for clerical staff manipulating the data and generating the record in accordance with the request. Persons making subsequent requests for the same or similar records may be charged a fee not in excess of the original fee.
    - iii. If the public record is a result of computer output, other than word processing, the fee may be based on recovery of the actual incremental cost of providing the electronic services and products, together with a reasonable portion of the cost associated with building and maintaining the information system.
    - iv. The Custodian of Records may waive or reduce fees when it is in the public interest to do so, provided that any such fee reduction or waiver is uniformly applied among persons who are similarly situated, such as indigent persons.
  - (g) Preparing and making available to the public a description of the basic rights of a person who requests public information, the responsibilities of the Department and the procedures and costs of inspecting or obtaining copies.

### **PROCESSING OF REQUESTS**

5. Any member of the public, including the media and elected officials, may access unrestricted records of this department by submitting a written and signed request for each record sought and paying any associated fees.
6. All requests for production of video or audio recordings generated by law enforcement

officer body-worn cameras shall be incident specific and shall include reasonable specificity as to the date, time, location, or persons involved. A request for multiple incidents shall include reasonable specificity as to the date, time, location, or persons involved in each incident requested. The Custodian of Records may deny a request not containing reasonable specificity.

7. Requests shall be forwarded to the Custodian of Records for processing. Records can be requested for any reason which does not need to be disclosed by the requesting party. (La. R.S. 44:31).
8. The processing of requests is subject to the following:
  - (a) The Custodian of Records shall determine whether the requested record is available and/or subject to any exemption from disclosure (La. R.S. 44:4.1).
  - (b) When the record is not provided within three working days, a written response will be provided to the requesting party (La. R.S. 44:32D).
    - i. The written response should identify the reason the record is not being released, including reference to any legal exemption from inspection or copying.
    - ii. The fact that portions of records are exempt from disclosure should not preclude portions that are not exempt from being released. If portions of a record are redacted, those portions should be identified as redacted or the person requesting the record should be notified of the redaction (La. R.S. 44:32B).
  - (c) Should the custodian wish to withhold records, he/she shall first consult with the City Attorney's Office. The department is not required to create records which do not otherwise exist. However, existing records may be copied in such a manner as to provide the requesting party with unrestricted portions of any public record.
  - (d) If any public record is not in the custody or control of the Department the Custodian of Records shall promptly certify in writing to the requestor the reason for the absence of the record, and to the best of the Custodian's knowledge the current location of the record, who currently has custody of the record and the manner, method and time at which it was taken from the department's custody or control if applicable (La. R.S. 44:34).
  - (e) When a public record is available, the requesting party may be required to pay in advance any established fee for each record sought (La. R.S. 44:32C(1)(a)).

## RECORD RELEASE RESTRICTIONS

9. Absent a valid court order or other statutory authority, records or unrestricted portions of records of this department may be made public subject to the following restrictions:
  - (a) **Video Violating Individuals' Reasonable Expectation of Privacy**—Video or audio recordings generated by body-worn cameras of non-critical incidents shall not be subject to disclosure when the disclosure would violate the reasonable expectation of privacy of an individual (such as when a person is in a public restroom or in his or her home) unless that individual (or his/her legal guardian) is the person requesting the footage. (La R.S. 44:3 A (8)).
  - (b) **Active Investigations**—Except for an initial report of the arrest of a person, records, reports or portions of any case that is not closed should not be released until the case becomes inactive or closed (La. R.S. 44:3A).
  - (c) **Confidential Informants**—Records containing the identity or that could reveal the identity of a confidential source of information shall not be released (La. R.S. 44:3).
  - (d) **Sensitive Information**—Records containing security procedures, investigative training information or aids, investigative techniques, investigative technical equipment or instructions on the use thereof, criminal intelligence information

pertaining to terrorist-related activity, or threat or vulnerability assessments collected or obtained in the prevention of terrorist-related activity, including but not limited to physical security information, proprietary information, operational plans, and the analysis of such information, or internal security information shall not be released (La. R.S. 44:3A(3)).

- (e) **Arrest Records**—Arrest records are closed and exempt from disclosure until final judgment, except for booking information, or as allowed by law (La. R.S. 44:3A(4)(a)).
- (f) **Juvenile Offenders**—Records concerning juvenile information may not be disclosed. This includes records concerning status offenders and matters before the juvenile court (La. R.S. 44:6; Ch. C. 412).
- (g) **Accident Reports**—These are available only to the parties involved, their attorneys or insurers and news organizations (La. R.S. 32:398K). When provided to the media, the Department should consult with legal counsel regarding the redaction of personal information to protect privacy.
- (h) **Sexual Offense Victim Information**—The name and any other information that would identify certain crime victims shall be kept confidential (La. R.S. 44:3).
- (i) **Requests from Criminal Defendants**—Requests from criminal defendants and their authorized representatives, including attorneys, shall be referred to the District Attorney, City Attorney or the courts.
- (j) **Personnel Records**—Personnel records, medical records and similar records that would involve personal privacy shall not be made public (La. R.S. 44:11).
  - i. The home address, photograph or any otherwise confidential information of any officer under investigation shall not be released to the news media, press or any other public information agency without the express written consent of the officer (La. R.S. 40:2532).
- (k) **Work Product**—Any record that was created exclusively in anticipation of potential litigation involving this department shall not be subject to public disclosure.
- (l) **Other Records**—Any other record not addressed in this policy shall not be subject to inspection where:
  - i. Such inspection would be contrary to any state statute (La. R.S. 44:4.1).
  - ii. Such inspection would be contrary to any federal statute or regulation.
  - iii. Such inspection is prohibited by rules promulgated by the Louisiana Supreme Court or by the order of any court.

## PERSONAL IDENTIFYING INFORMATION (PII)

10. Members shall not access, use or disclose personal identifying information, including an individual's photograph, Social Security number, driver identification number, name, address, telephone number and the individual's medical or disability information, which is contained in any driver license record, motor vehicle record or any department record except as authorized by the Department and only when such use or disclosure is permitted or required by law to carry out a legitimate law enforcement purpose (18 USC § 2721; 18 USC § 2722). Personal identifying information shall be redacted from the documents.

## SUBPOENA DUCES TECUM

11. Any subpoena duces tecum or discovery request should be promptly delivered to the affected Bureau/Division/ District/Section/Unit commander for review and delivered to the Records and Identification Section. While a subpoena duces tecum may ultimately be subject to compliance, it is not an order from the court that will automatically require the release of the requested information.

12. All questions regarding compliance with any subpoena duces tecum should be promptly referred to the City Attorney's Office so that a timely response can be prepared.

#### **PRIVACY AND SECURITY OF RECORDS**

13. To the extent reasonably practicable, confidential records such as juvenile records or other sensitive records should be separated from public records and secured in such a manner as to reasonably protect them from unauthorized disclosure.

#### **EXPUNGED RECORDS**

14. All records ordered by a court to be expunged shall be destroyed, except as provided by law. If destruction of the record is not feasible because of the permanent nature of the record books, such record entries shall be blacked out. Entries of a record ordered expunged shall be removed from all electronic files (La. R.S. 44:9).

#### **RELEASED RECORDS TO BE STAMPED**

15. Each page of any record released pursuant to a public records request or subpoena duces tecum shall be stamped in colored ink with a departmental stamp identifying the individual to whom the record was released.

#### **NUMERICAL FILING SYSTEM**

16. Case reports are filed numerically by Public Records Section member; reports are numbered commencing with an alphabet for the coinciding month (A = Jan., B= Feb., C = March, continuing consecutively through December) followed by a sequential number beginning with 00001 starting at midnight on the first day of each month and ending with the last two digits of the current year. As an example, case number A-00001-13 would be the first new case beginning January 1, 2013.

#### **FILE CASES**

17. All reports including, but not limited to, initial, supplemental, follow-up, documents of evidence and all reports related to a case shall be recorded, kept and maintained by the Public Records Section.
18. The Public Records Section shall scan and enter attachment sheets and any other report related documents as necessary.
19. General public request and retrieval for Public Records Request shall be accessible only through authorized Public Records Section member.
20. New Orleans Police Department members shall not access, view or distribute or allow anyone else to access, view or distribute any record, file or report, whether hard copy or electronic file format, except in accordance with department policy and with a legitimate law enforcement or business purpose or as otherwise permissible by law.

#### **RECORDS MANAGER TRAINING**

21. The Deputy Chief of MSB shall insure the Records Manager receives training in records management, including proper maintenance, retention and disposal of records and the proper release of records under state and federal law.

**RELEASE OF RECORDS AND INFORMATION**

22. Any person 18 or older may inspect, copy, reproduce, or obtain a reproduction of any public record. Members of the department shall follow **Chief Administrative Officer Policy Memorandum # 92**, (found at: <https://employee.nola.gov/documents/forms/policies-law/policies/no-92-compliance-with-the-public-records-act/> ) and the Public Records Act.
23. The Superintendent designated the Deputy Chief of the Management Services Bureau as the designee responsible for the coordination, processing, and distribution of a public document/record request.
24. A department member is prohibited from releasing to the public any public document unless authorized by the Superintendent or his/her designee.
25. A request for documents must be forwarded, via 105 with receipt, to the Bureau Chief. The request must be sent through the chain of command on the same date the request is received.
26. The Deputy Chief of the Management Services Bureau, or his/her designee, shall make the necessary arrangements as required by law to allow for the:
  - (a) Inspection
  - (b) Copying
  - (c) Reproduction of the document(s).
27. Nothing in this Chapter prevents the exchange of information and documents between law enforcement agencies for the purpose of coordinating criminal investigations and other official communications.
28. Commanders are authorized to release appropriate information to recognized and approved neighborhood crime watch and civic organizations for the purpose of fostering community involvement in crime prevention, through his/her chief.

**SUBPOENA OF RECORDS AND INFORMATION**

29. A Subpoena Duces Tecum issued by a court in civil suits/criminal actions shall be processed as follows:
  - (a) Members receiving a Subpoena Duces Tecum (Order for Production of Records) shall forward a copy of the subpoena to the Deputy Chief of the Management Services Bureau on the date the subpoena was served.
  - (b) Any Subpoena Duces Tecum should be date stamped upon receipt by the Management Services Bureau.
  - (c) The subpoena shall be attached to an Interoffice Correspondence and include the date the subpoena was received, and a brief summary of the document(s) requested. The correspondence shall state if the document(s) requested are in the custody of the individual subpoenaed to produce it.
  - (d) The correspondence shall include a line to be signed by the individual accepting the subpoena and correspondence in the Management Services Bureau office.
30. The City Attorney shall be notified about a subpoena Duces Tecum when the:
  - (a) Subpoena is oppressive or cannot be completed.
    - i. City is or may become a litigant in the lawsuit.
    - ii. Custodian believes the subpoena should be reviewed by the City Attorney.
  - (b) Person served with the subpoena is not sure if the document subpoenaed is a document defined as a public record.

**DTS VIEWER POLICY**

31. Members requesting access to the Department's DTS Viewer System must submit a 105, along with a completed **NOPD DTS Request Access Form** (Form 181), through his/her Bureau Chief, to the Management Services Bureau Chief. This request must be renewed annually.
32. Members holding a position within the department requiring access to the DTS Viewer System shall complete a NOPD DTS Access Form before access is granted.
33. Once an member having access to the DTS Viewer System is no longer in a position requiring access to the system, he/she shall immediately notify the Commander of the Record Room, via 105 or departmental email. The Commander of the Record Room or his/her designee shall block the member from having access to the system.
34. The unauthorized distribution of reports and or information contained within the DTS Viewer System to any person(s), organization(s), or the media, is **strictly prohibited**.
35. The Record Room is the only unit authorized to complete document requests and collect funds when the document(s) or access to the document(s) is completed.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 82.2.6

### TITLE: DEPARTMENT ELECTRONIC MAIL

**EFFECTIVE: 12/17/2017**

**REVISED: Replaces Policy 212**

---

#### PURPOSE

The purpose of this Chapter is to establish guidelines for the proper use and application of the electronic mail (e-mail) system provided by the Department.

#### POLICY STATEMENT

1. E-mail is a communication tool available to employees to enhance efficiency in the performance of job duties.
2. It is to be used in accordance with generally accepted business practices and current law (e.g., RS: 44 - Louisiana Public Records Law).
3. Messages transmitted over the e-mail system must only be those that:
  - (a) Involve official business activities of the New Orleans Police Department,
  - (b) Involve official business activities of the City of New Orleans,
  - (c) Contain information essential to members for the accomplishment of tasks, or
  - (d) Are directly related to the business, administration or practices of the Department.

#### DEPARTMENT E-MAIL AND MEMBER'S RIGHT OF PRIVACY

4. All e-mail messages, including any attachments, transmitted over the department computer network or accessed through a web browser accessing the department system are considered department records and therefore are the property of the Department.
5. The Department reserves the right to access, audit and disclose for any lawful reason, any message, including any attachment that is transmitted or received over its e-mail system or that is stored on any department system.
6. The e-mail system is **not a confidential system** since all communications transmitted on, to or from the system are the property of the Department.
7. The e-mail system is not appropriate for confidential or personal communications.
8. If a communication must be private, an alternative method to communicate the message should be used instead of e-mail.

9. Employees using the department e-mail system have **no expectation of privacy** concerning communications transmitted over the system.
10. Employees shall not use personal accounts to exchange e-mail or other information that is related to the official business of the Department.
11. The use of any computer, Internet service, telephone service or other wireless service to send or receive information that may be related to public business may be subject to review or disclosure.

#### **PROHIBITED USE OF E-MAIL**

12. Composing, sending or forwarding derogatory, defamatory, obscene, disrespectful, sexually suggestive, harassing or other inappropriate messages on the Department e-mail system is prohibited and shall result in discipline.
13. E-mail messages addressed to the entire Department (**NopdAll**) are only to be used for official business-related items that are of particular interest to all users.
14. Members are reminded that **all e-mail is subject to review and scrutiny** with regard to appropriate content or violation of any prohibitions.
15. In the event that a user has questions about sending a particular e-mail communication, the user should seek prior approval from his/her supervisor or unit commander.
16. **Personal advertisements or announcements are not permitted.**
17. It is a violation of this Chapter to transmit a message under another member's name or e-mail address or to use the password of another to log into the system.
18. Members are required to log off the network or secure the workstation when the computer is unattended. This security measure will minimize the potential misuse of a member's e-mail, name and/or password.

#### **MANAGEMENT OF E-MAIL**

19. Members must check the department e-mail system and read new messages each workday.
20. The end user e-mail system is not designed for, nor does it support, long-term retention and archiving of messages, e-mail that an employee desires to save or that requires retention should be **printed and/or stored in another database** designed for long-term storage and retrieval.
21. Members are solely responsible for the management of his/her email mailboxes.

#### **E-MAIL RECORD MANAGEMENT**

22. The department e-mail system used by members of the New Orleans Police Department is managed by the City of New Orleans Office of Information Technology and Innovation.
23. Messages **may** be automatically archived at regular intervals from the system, as

determined by the City of New Orleans Office of Information Technology and Innovation.

#### **E-MAIL PROTOCOL**

24. Department members, sending e-mails to NOPDAll, are required to place a description of the subject matter in the subject line of the heading.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 82.3.6

### TITLE: CRIMINAL HISTORY RECORD INFORMATION (CHRI)

**EFFECTIVE: 12/17/2017**

**REVISED: 07/06/21**

---

#### PURPOSE

This Chapter provides guidelines for NOPD's access to state and federal databases related to Criminal History Record Information, as well as the security, maintenance and release of criminal records obtained through law enforcement telecommunications, terminals, and databases, including Criminal History Record Information (CHRI) (R.S. 15:578).

#### POLICY STATEMENT

1. The New Orleans Police Department will adhere to all state and federal laws, regulations of the Louisiana Bureau of Criminal Identification and Information related to the access, use and dissemination of sensitive information received via a law enforcement telecommunications network (R.S. 15:579).

#### DEFINITIONS:

**Criminal History Record Information (CHRI)**—Information collected by criminal justice agencies on individuals consisting of identifiable descriptions and notations of arrests, detentions, indictments, bills of information, or any formal criminal charges, and any disposition arising there from, including sentencing, correctional supervision, and release. This does not include intelligence or investigatory purposes, nor does it include any identification information which does not indicate involvement of the individual in the criminal justice system (R.S. 15:576(2)).

**Network Terminal Agency Coordinator (TAC)**—The FBI/NCIC requires that every law enforcement agency that utilizes NCIC designate one individual, who is employed by that agency, to function as NCIC Terminal Agency Coordinator (TAC). This person is responsible for ensuring compliance with NCIC policies and procedures. The person appointed as TAC is knowledgeable in all aspects of NCIC use and has the authority to implement changes and oversee operations, which affect the agency's use of NCIC.

#### RESPONSIBILITIES

2. The Custodian of Records, or his/her designee, shall appoint a Network Terminal Agency Coordinator who will serve as the liaison with the appropriate state agencies on matters pertaining to the security, access and use of information available via law

enforcement networks and databases.

3. It is the responsibility of the TAC to assist the Department in complying with all NCIC related laws and procedures.

#### **DEPARTMENT MEMBER ACCESS**

4. CHRI may be accessed or released as follows:
  - (a) Members may access or otherwise obtain records or CHRI information and department files only in accordance with their official duties.
  - (b) A member may not access confidential information until a background investigation has been completed on the member and approved and until he/she has completed all required training.
  - (c) CHRI shall be used solely for the purpose for which it was obtained.
  - (d) Members may not use CHRI information in any unauthorized manner, for any unauthorized purpose, or disclose CHRI to any person who is not entitled to the information.
  - (e) Unauthorized access or release of information may subject the member to criminal prosecution.
  - (f) Members violating this policy may also be subject to administrative action pursuant to the Personnel Complaints Policy.

#### **RELEASE OF INFORMATION**

5. Each person authorized to release CHRI information is responsible for ensuring that each request appears legitimate and that the requester is an authorized recipient.
6. Only the persons listed below are authorized to release CHRI information:
  - (a) Terminal Agency Coordinator.
  - (b) NOPD – NCIC Unit members.
  - (c) Personnel specifically designated in writing by Superintendent of Police with the concurrence of the TAC.

#### **AUTHORIZED RECIPIENTS**

7. CHRI may be released to authorized NOPD members for criminal justice purposes.
8. All law enforcement personnel with proper identification are authorized recipients, if they are acting in the scope of their official duties.
9. Conviction records for certain crimes may be disseminated without restriction by authorized members (R.S. 15:548).

#### **DISSEMINATION OF INFORMATION**

10. When CHRI is disseminated, the NOPD – NCIC Unit shall maintain a dissemination log pertaining to each transaction with the appropriate information to include maintaining the log for the designated time period (R.S. 15:548(G)).

#### **PROTECTION OF INFORMATION**

11. Sensitive information obtained through law enforcement databases, such as CHRI, should generally not be transmitted by radio.
12. Information shall be stored in the Records Division where constant personnel coverage

will be provided. If information is stored elsewhere for investigative or other law enforcement purposes, it shall be secured in locked desks, locked file cabinets or in locked rooms.

13. The Custodian of Records, or his/her designee, is responsible for necessary procedures to supervise and protect system information by (R.S. 15:589):
  - (a) Limiting direct access to records.
  - (b) Limiting direct access to information.
  - (c) Including procedures to prevent file destruction.
  - (d) Ensuring computer terminal security including preventing unauthorized access.
  - (e) Utilizing a means of detection regarding unauthorized penetrations.
  - (f) The proper destruction of records.
  - (g) Designating where and how such records should be stored.

#### **COMPUTER TERMINAL SECURITY**

14. Computer terminal equipment that is capable of providing access to law enforcement databases, including automated CHRI records, shall be maintained in secure areas to preclude access by unauthorized individuals. The terminals must be housed in areas outside of screen view of the public at all times.
15. Officers shall ensure that patrol vehicles remain secured when unoccupied to preclude access to the Mobile Digital Computer (MDC) located within the vehicle that may have access to confidential information.

#### **DESTRUCTION OF RECORDS**

16. When any confidential document, including CHRI, has served the purpose for which it was obtained and is eligible for destruction (i.e. shredding or burning), it should be disposed of via a permanent destruction method, in compliance with the organization's records retention schedule. At no time shall documents merely be placed in a trash receptacle.
17. Each member shall be responsible for properly destroying CHRI documents he/she receives.

#### **REVIEW OF AND CHALLENGE TO RECORDS**

18. The Department shall post a public notice informing individuals of their right to access and to administratively challenge the completeness or accuracy of their individual CHRI.
19. Every individual seeking to avail him/herself of this procedure shall be provided with a list of all affected agencies and informed of the significance of querying a non-affected agency.
20. If an individual seeks to review records not held by the Department, the individual should be directed to the applicable agency. Viewing of CHRI shall be limited to ordinary NOPD – NCIC Unit business hours.

#### **REVIEW OF RECORDS**

21. Upon written request and with proper payment of fees and proof of identification, an individual has the right to access and review his/her own CHRI on file with the Department. However, an individual is not entitled to data contained in intelligence, investigatory or other related files.

22. Individuals or their personal representatives seeking access shall be allowed to view the desired individual CHRI within a reasonable time, not to exceed three days, provided that where fingerprint classification is an essential prerequisite to the location and retrieval of the record sought, the time period within which viewing must be made possible may be extended by an additional 30 days.
23. The Department shall make available facilities and personnel necessary for such viewing and shall in all respects maintain a cooperative attitude toward individuals requesting viewing. Viewing shall occur only within department facilities and only under the supervision and in the presence of a designated member.
24. The Department shall, in every instance, diligently seek to provide the information requested. Every out-of-parish criminal justice agency listed on the request for viewing shall be contacted within seven days of receipt of the request for viewing.
25. When the Department receives a request for information, members must make every effort to locate the information requested and shall in any event forward a reply to the requesting agency within seven normal working days of receipt of the request, except as provided for requests to the central state repository.
26. The Department shall fingerprint individuals requesting that the central state repository be queried. In such instances where an authorized representative is presenting a query to the central state repository on behalf of an individual, the representative shall supply at least two sets of the represented individuals' fingerprints on standard fingerprint cards.
27. When CHRI is requested by a personal representative, the representative must present positive proof of the identity of the individual actually involved as well as a sworn authorization from the involved individual. Positive proof of identity shall mean fingerprints. Upon presentation on the authorization and positive identifier, the representative shall be permitted to request, examine, and/or challenge the CHRI specifically relating to the involved individual.

#### **PRIVACY AND SECURITY OF REVIEW**

28. A record of each individual viewing a record shall be maintained. Each viewing record shall be approved by the supervisory member present at the review. The reviewing individual shall be required to certify by his/her signature that he/she has viewed the CHRI requested.

#### **CRIMINAL RECORDS CHECK INQUIRES**

29. Due to the nature of ordinary police function, it is not always possible for an officer or other member to personally enter the inquiry transaction at a computer terminal. If the inquiring officer is unable to utilize a computer terminal, the following procedure shall be followed:
  - (a) The officer or member actually entering the inquiry shall enter his social security number and password.
  - (b) To relieve the person making the entry of responsibility for the retrieved information, he/she shall enter either the social security number or the car number of the individual requesting the information.
  - (c) If the individual requesting the inquiry is not on duty, he/she shall supply his badge number to the member making the inquiry.
  - (d) On all telephone inquiries, the requesting individual shall supply his/her social security number to the individual actually entering the data.

30. Members who fail to enter a social security number, car number or badge number of the member requesting information through the criminal records system shall be held responsible for the disposition of the information obtained through the computer check. The member shall also be subject to disciplinary action for failing to enter the required requestor information.
31. Members are reminded that information obtained through the criminal records system shall not be released to individuals outside the New Orleans Police Department without written permission of the Superintendent of Police, or his/her designee. An exception is granted to outside law enforcement personnel acting in the performance of their duty.

#### **TRAINING**

32. All personnel authorized to access, process or release information received from law enforcement telecommunications or databases shall be required to complete a training program prescribed by the commander of the NOPD – NCIC Unit. The Education & Training Division shall coordinate the course to provide training in the proper use, control, and dissemination of information.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 82.4

### TITLE: COMPLAINT SIGNALS—CHANGING OF ITEM SIGNALS AND DISPOSITIONS

**EFFECTIVE: 05/07/2017**

**REVISED: 11/15/19**

---

#### PURPOSE

The purpose of this Chapter is to establish standards for changing the signal or disposition of an item number when it is closed, i.e. marked up, by the primary unit.

#### POLICY STATEMENT

1. Calls for service are communicated through the Orleans Parish Communications District (OPCD) Public Safety Access Point. The calls can come in via the "911" emergency number or the 504-821-2222 non-emergency number. The nature of the complaint or request for service is classified based on the information and answers to questions provided by the caller. The Call-for-Service (CFS) is relayed to the appropriate geographic police District or unit for handling. When required, the classification of the CFS made by OPCD-PSAP may be changed by the officer(s) actually handling the CFS based on updated information.
2. The accurate, final disposition of calls for service is critical to ensure that complainants and victims receive the appropriate police response and to maintain accurate data for assessment and analysis of the Department's response. NOPD participates in the training of call-takers and dispatchers at the OPCD, when requested, to provide information that will assist in the proper classification of signals. Changing item signals and dispositions by members shall only be permitted under limited circumstances as outlined in this Chapter.

#### DEFINITIONS

Definitions relevant to this Chapter include:

**Disposition**—A valid identifier added to an item when it is closed, such as, but not limited to:

- (a) Necessary action taken (NAT)
- (b) Report to follow (RTF)
- (c) Unfounded (UNF)
- (d) Gone on arrival (GOA)

**District/division commander**—Under normal circumstances, the commissioned Department employee responsible for and in command of the unit who generally holds the position of Police

Captain.

**Primary unit**—The police unit as indicated in the PSAP Computer Aided Dispatch (CAD) system as the unit responsible for handling the call for service; this unit is also responsible for relaying the appropriate disposition.

**Primary dispatch talk group**—The designated location or channel on the police radio that has been designated for either a particular geographic police district or a specific police unit. Most commonly referred to as a “channel.”

**Public Safety Answering Point (PSAP)**—Official name for the “911 Call Center,” the Orleans Parish Communications District, which includes both emergency and non-emergency call requests for Police, Fire, and EMS.

**Signal**—The alphanumeric identifier given a particular call for service that was in place at the time the item was given a final disposition.

## INSTRUCTIONS

3. All calls for service generated through the Computer Aided Dispatch System (CAD) of the PSAP shall have a unique alphanumeric identifier referred to as the item number.
4. The primary unit shall have the responsibility for providing an appropriate disposition for each item thus causing the item to be closed in CAD.
5. Dispatching calls for service, giving dispositions, or changing unit status shall not be conducted over the telephone. These actions must be broadcast over the primary dispatch talk group for the police district or over the Mobile Data Terminal (MDT).
6. Should special circumstances relating to the classification or handling of a CFS require that a dispatcher be contacted by the officer over the telephone, such calls should be routed through the Communication Services – NOPD Liaison.
7. If an officer assigned to handle a call for service determines that the signal needs to be changed in order to correctly identify the call for service, the officer may change the signal, without the approval of a supervisor, **unless**:
  - (a) The incident originated as a sexual assault related signal (see **Chapter 42.2 – Sexual Assault**); or
  - (b) The incident originated as a child abuse related signal (see **Chapter 42.19 – Child Abuse**); or
  - (c) The signal was a call of Domestic Violence (see **Chapter 42.4 - Domestic Violence**); or
  - (d) The signal should be changed from a UCR report crime to a Non-UCR report crime.
8. An officer assigned to handle a call for service may change a signal initially identified by a dispatcher as a domestic violence signal (see (c) above) only upon the approval of a supervisor. In order to request such a change, the assigned officer will contact a supervisor by radio and provide the supervisor with an explanation for the requested change. The supervisor will communicate the approval, if granted, on the primary dispatch channel to Communications Services. If approved by the supervisor, the written explanation of the reason for the requested signal change will be included in any subsequent associated police report (EPR).

9. An officer assigned to handle a call for service may change a signal initially identified by a dispatcher as a UCR crime to a signal for a non-UCR crime or offense only upon the approval of a supervisor. In order to request such a change, the assigned officer shall contact a supervisor by radio and provide the supervisor with an explanation for the requested change. The supervisor will communicate the approval, if granted, on the primary dispatch channel to Communications Services. If approved by the supervisor, the written explanation of the reason for the requested signal change will be included in any subsequent EPR.
10. If it becomes necessary to change either the signal or disposition of an item after the item has been closed in CAD, the following shall occur:
  - (a) Platoon supervisors are authorized to change or correct the item number, signal, disposition, and location, within the limitations outlined in this Chapter, of any incidents or events within 24 hours of the item being closed in CAD.
  - (b) In the event that a platoon supervisor seeks to change a signal more than 24 hours after the item being closed:
    1. A **Change of Signal or Disposition Form** (Form 226) shall be completed by the platoon commander or, in his/her absence, the platoon supervisor on duty at the time the item was handled.
    2. Form 226 shall be completed in its entirety, including a complete written explanation of the reason for the requested change. If the item number (incident) has an associated police report (EPR), then a supplemental report (SUPP) shall be written containing a complete written explanation of the reason for the requested change.
  - (c) The completed Form 226 shall be forwarded to the district/division commander for review. Individuals other than the district/division commander or, in the event of a prolonged absence of the district/division commander, the acting district/division commander, may not be authorized to complete Form 226.
  - (d) Upon approval by the district/division commander, or the acting district/division commander in the event of a prolonged absence of the district/division commander, the original Form 226 shall be forwarded to the **Record and Identifications/Support Service Section** for update. One copy of the Form 226 shall be forwarded to the **Communications Services Liaison** (OPCD) and one copy shall be forwarded to the **Information Systems Section**. Distribution of the original Form 226 and all required copies shall be made by the district/division requesting the signal change or correction.
  - (e) A copy of the submitted Form 226 shall be maintained at the district/division level.

#### **AUDIT AND REVIEW**

11. The Audit and Review Unit of the Compliance Bureau shall review signal and/or disposition changes for appropriateness and compliance with Departmental guidelines, and report on such a review at least annually.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 82.8

### TITLE: CRIME BULLETINS

**EFFECTIVE: 12/17/2017**

**REVISED: Replaces Policy 437**

---

#### PURPOSE

The purpose of this Chapter is to provide guidelines for sending crime bulletins.

#### INSTRUCTIONS

1. Crime Bulletins shall be sent for the following:
  - (a) All missing persons, wanted subjects and runaways;
  - (b) Cancellation bulletins of missing, wanted subjects, or runaways;
  - (c) Lost or stolen firearms;
  - (d) Lost, stolen or found identifiable property (e.g. property with known serial numbers, initials, and engravings).
2. An Incident Report (Electronic Police Report - EPR) shall be completed whenever a crime bulletin is required. The reporting officer shall check **"yes"** in the **"Bulletin Required"** box on the Face Sheet section of the incident report. No additional bulletin form is required.
3. When an incident report requiring a crime bulletin is incomplete or cannot be completed before the officer ends his/her tour of duty (ETOD), the reporting officer shall complete the EPR sufficiently for a crime bulletin to be sent.
4. When **"yes"** is checked in the **"Bulletin Required"** box, the reporting officer, or desk officer, shall send a crime bulletin prior to ETOD. The message number generated shall be included on the face sheet, the document page and in the narrative section of the incident or supplemental report (EPR). A copy of the crime bulletin shall be made inclusive of the Incident Report.
5. In all arrest or recovered identifiable property cases, a supplemental report shall be completed containing all relevant information. The crime bulletin number, the NOPD N.C.I.C. Unit contact person who verified the wanted status, and the member who received the cancellation bulletin shall be noted on the face sheet of the EPR (supplemental report) and also contained in the narrative section.
6. For all Bulletins (sent, cancelled, modified, etc.), the reporting officer shall confirm receipt of the bulletin with NOPD N.C.I.C. Unit by telephone or police radio. Confirmation and the name of the confirming party at NOPD N.C.I.C. Unit shall be documented in the appropriate report (EPR).

7. The Crime Bulletin template can be found thru the NOPD Web Applications under "Links" as [eclient.cityofno.com](http://eclient.cityofno.com) link in the MOTION System under the **TTY** (teletype) command.
8. All relevant sections of the Crime Bulletin shall be entered.

#### **CANCELLATION BULLETINS ON LOCAL WANTED SUBJECTS ONLY**

9. If the warrant is local (**issued by NOPD**), the arresting officer shall send a cancellation bulletin for an arrest based upon:
  - (a) a verified warrant, or
  - (b) a crime bulletin and affecting an arrest for an "open" NOPD item.
10. The local wanted subject cancellation bulletin shall contain:
  - (a) The disposition of the arrest (physical arrest and booking or summons issued);
  - (b) If a summons was issued, the summons number shall be noted in the bulletin.

**NOTE:** *NOPD has no authority to modify, locate or cancel any warrant(s) from another department, agency, or jurisdiction. Therefore, no cancellation bulletins shall be sent for any fugitive arrest (17F), court capias (21), municipal or traffic attachments (17M/T), or probation violations.*

11. The reporting officer shall contact the NOPD N.C.I.C. Unit via telephone or police radio and verify that the NOPD N.C.I.C. Unit received the specified cancellation bulletin.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 83.1

### TITLE: COLLECTION AND PRESERVATION OF EVIDENCE

**EFFECTIVE: 07/14/2019**

**REVISED: Replaces Policy/Procedure 808**

---

#### PURPOSE

The purpose of this Chapter is to establish guidelines for the collection, identification, transportation, and preservation of physical evidence so that such evidence can be handled appropriately and so that the chain of evidence can be maintained for later use in court.

#### POLICY STATEMENT

1. Effective law enforcement and subsequent prosecution necessitates that information and evidence be obtained through the application of best practices and proven scientific methods.
2. In the handling of all evidence, a Chain of Custody (commonly referred to as Chain of Evidence) shall be maintained. The record of transfer for each item of evidence shall contain the following:
  - (a) Date, time, and location of recovery or confiscation;
  - (b) Name of individual recovering or confiscating the item;
  - (c) Name of individual transporting and/or transferring the item to its proper destination;
  - (d) Date and time of all transfers of the item to or from an individual or location;
  - (e) Receiving person's name, assignment, and reason for the item's transfer;
  - (f) The forensic examination requested, if applicable; and
  - (g) If applicable, date, location, and name of laboratory if not the New Orleans Police Department SCIS.
3. The NOPD - Scientific Criminal Investigation Section (SCIS - Crime Lab) shall maintain a crime scene processing capability 24 hours per day 365 days per year.
4. Vehicles used by Crime Scene Technicians for transportation to and processing of crime scenes shall be, at a minimum, equipped for the:
  - (a) Proper retrieval of fingerprints;
  - (b) Photographing of scenes (both in lighted areas and in darkness);
  - (c) Proper retrieval and packaging of evidence; and
  - (d) Sketching of the scene.
5. On crime scenes where large or extremely bulky evidence is recovered, the officer in

charge of the investigation is responsible for requesting assistance to confiscate the evidence. Large trucks, tow wagons and flatbed trucks are available through the MSB – Facility Support Services, or City of New Orleans Streets Department. Use of a vehicle other than an NOPD or City of New Orleans vehicle shall be approved by the investigating officer's supervisor and documented in the EPR or Crime Scene Technicians Report.

6. The authority of the Crime Scene Technician does not supersede the authority of the investigator or supervisor in charge of the scene. Generally, the technician will process a scene and attempt to accommodate any special request of the investigator. The investigator may instruct a technician what to process; however, the technician shall determine the best method to properly process the evidence to be collected.
7. The recovery of forensic evidence from a crime scene cannot be accurately reconstructed once the scene has been processed and is no longer secured. For any major incident investigation, it is always preferable to take the opportunity to collect as much trace evidence as necessary than to create the possibility where probative evidence which may have been present was not collected and is therefore lost. An investigator or scene supervisor may direct that any possible trace evidence is collected from a scene, secondary scene, victim, witness or suspect, as he or she determines necessary to maximize the possibility of getting the most accurate forensic result from the investigation. Any objections to the subsequent forensic testing of the collected samples will only be addressed after the samples are collected, secured and preserved.
8. Challenged requests or disputes as to the methods and capabilities of the technician shall be referred to an SCIS Supervisor at the time the request is made and the dispute arises.
9. All items submitted to the Crime Laboratory for forensic analysis shall be documented with the appropriate laboratory request form.
10. All items of evidence at crime scenes which are perishable and are to be processed for forensic testing by the SCIS shall not be disturbed by the investigating officer or other individuals at the scene. These items shall only be processed by Crime Scene Technicians (ex. blood, blood stained objects, tissue, biological material, etc.).

## DEFINITIONS

**Control Sample**—Those items taken from known materials for comparison purposes to unknown specimens found at the scene.

**Crime Scene**—A crime scene is any location that may be associated with a crime. It can be the place where the crime took place, or any area where evidence of or from the crime itself may potentially be found. Crime scenes can contain physical evidence that is pertinent to criminal investigations, which may be retrieved by a law enforcement agency, crime scene investigators, a community member, or, in some circumstances, a forensic scientist.

**Crime Scene Technician / Evidence Technician**—A trained specialist, providing on-site support services to officers in the collection, marking, processing, and securing of physical evidence at a crime scene.

**Evidence**—Property as defined herein, including documentary or oral statements, material objects admissible as testimony in a court of law, and items taken or recovered in the course of an investigation that may tend to prove or disprove the facts of a case.

**Hazardous Materials**—Any chemically unstable explosive, corrosive acid, poison, flammable or biologic material which is capable of causing injury or death.

**Property**—Any object of value, however slight, whether tangible or intangible.

### **CONTROL SAMPLES**

11. The Crime Scene Technician shall be responsible for the collection and preservation of all control samples. Control samples are typically needed in cases involving hair, fibers, fabrics, paint, glass, wood, soil, and tool marks. Control samples shall be taken from an area not affected by the scene but adjacent to or near the scene. Control samples shall be packaged the same as evidence specimens and clearly marked as “control sample.”
12. Control samples involving medical exams, such as sexual assaults or child abuse, shall be coordinated by the on-scene investigator/detective and the doctor or medical professional conducting the exam. Accepted methods of marking, identifying, and packaging shall be utilized by investigators prior to submitting evidence to the Crime Lab. Investigators having questions relative to the proper handling of retrieved evidence shall contact the Crime Lab for instructions prior to handling. Examples of such exams are the collection of hair, blood, other body fluids, or tissue.
13. Control samples collected during the execution of a search warrant shall be collected by a Crime Scene Technician in the presence of the affiant officer noted on the warrant.
14. Evidence recovered from medical professionals, or other professional scientific personnel not employed by NOPD, shall be preserved by the on-scene investigator. The evidence shall be packaged, labeled, and secured in a manner not jeopardizing its evidentiary value. The items shall be transported to Central Evidence and Property (CE&P) and submitted as evidence. A Request for Laboratory Examination form shall be filled out if further processing is needed.

### **OFFICER RESPONSIBILITY AT CRIME SCENE**

15. All commissioned personnel shall be held responsible for basic knowledge of crime scene protection and proper handling of evidence. See **Chapter 46.20 – Crime and Disaster Scene Integrity** for on scene officer’s responsibilities at a crime scene.
16. Upon arrival of the Crime Scene Technician, he/she shall be apprised of the facts surrounding the incident and what actions are requested of him/her by the investigator. The Crime Scene Technician shall secure any additional areas deemed necessary and restrict access to unauthorized or unnecessary individuals, including officers. Once on the scene, the Crime Scene Technician shall be responsible for proper handling of all evidence and maintaining the chain of evidence for later use in court.

### **PROCESSING SCENE**

17. Processing of evidence procedures should be determined by the progression of the tasks, such as photographs, sketches, fingerprints, marks, and collection, if possible.
18. The method of scene processing, including but not limited to photography, scene sketches, fingerprints, searching, marking, and collecting, shall conform to current scientific and legal methods. A Menu of Services provided by the SCIS - Crime Lab shall be available to all commissioned personnel (refer to [www.nopd.org](http://www.nopd.org) for access to the Crime Lab Menu of Services).

19. Photographs and/or video of the overall crime scene shall be considered. Where indicated, individual photographs shall be taken of items in the position found prior to collection. BWC footage of the first officers on the scene can be important documentation of the scene integrity during processing.
20. Photographs shall also be taken of tool marks, footprints, tire marks, blood spatter, serial numbers, latent fingerprints prior to being lifted, and any other related items of potential evidentiary value where possible. Two photographs of sufficient quality to serve as permanent record shall be taken in series, the first in its true or natural state and the second to scale. A ruler or other appropriate measuring instrument shall be used for scaled photographs.
21. Sketches shall be drawn to accurately depict the location and placement of evidence. Sketches need not be to scale. Sketches shall be made in addition to any photographs or videotapes made of the crime scenes as directed by the lead investigator.
22. Sketches shall include the following information:
  - (a) General layout
  - (b) Offense or case number
  - (c) Title or description of area
  - (d) Date
  - (e) Sketcher's name
  - (f) Scale of measurement (to scale or not to scale)
  - (g) Location of items or other significant features
  - (h) Compass direction
  - (i) Names of streets or landmarks or both
  - (j) Person who prepared the final diagram
  - (k) Person(s) who took the measurements
23. The scenes of all major incidents shall be digitally photographed by a Crime Scene Technician. All photographs shall be taken by one technician to maintain the Chain of Custody for the digital images and later to simplify court testimony.
24. Employees assigned to process crime scenes shall be trained and proficient in current techniques for the retrieval of latent or patent fingerprints from crime scenes. Normally, Crime Scene Technicians will be assigned the duty of retrieving fingerprints from the scenes of crimes, but the task may be performed by trained district fingerprint officers.

### **COLLECTING FINGERPRINTS**

25. Crime Scene Technicians or district fingerprinting officers charged with the retrieval of fingerprint evidence shall determine which technique is to be utilized in the retrieval of this evidence. If advanced techniques beyond the ability or expertise of the Crime Scene Technician or district fingerprinting officers are needed to retrieve the prints, he/she shall handle, package, and submit the items to CE&P instead and complete the appropriate Crime Lab request forms.
26. Requests to fingerprint a body or lift prints from a live individual shall be made through the Crime Lab supervisor. (This may require a Search Warrant in some cases.)
27. All retrieved fingerprint evidence shall be processed according to current Crime Laboratory procedure as it pertains to handing, labeling, and maintaining the chain of evidence.

**REPORTS – CRIME LAB TECHNICIAN**

28. Reports shall be generated by the Crime Scene Technician whenever services are rendered by Crime Lab personnel as it pertains to the retrieval of physical evidence, its handling, and processing. All reports shall conform to Louisiana Revised Statute 15 Art. 501 relative to Evidence from Criminalistics Laboratories, section 499, certificate of analysis.
29. The Scientific Criminal Investigations Section (Crime Lab) and the Latent Print Unit shall produce a written report on all forensic processing – comparisons and analysis – whether or not a particular suspect is included or excluded as a possible contributor to the trace evidence being tested and whether or not the results materially aid the investigation. Each report, regardless of the result, shall be sent to the investigating officer or supervisor on the case as well as to the Records and Identification Division, regardless of the investigator's request for a report, and shall be made part of her or his case file.
30. The original report shall be forwarded to the Records and Identification Division which is the storage facility for all SCIS - Crime Laboratory Reports.
31. Requests for copies of crime analysis reports and subpoenaed copies of reports shall be made through the Custodian of Records - Records and Identification Section.

**CENTRAL EVIDENCE AND PROPERTY**

32. All evidence examined, analyzed, or otherwise processed by the Crime Lab shall be turned over to the Central Evidence and Property Section for storage after testing. All guidelines pertaining to the documentation of the Chain of Evidence shall be adhered to when evidence is transferred from facility to facility.
33. All new evidence generated or discovered by Crime Lab personnel or uncovered by scientific processing techniques shall be delivered to the Central Evidence and Property Section for storage.
34. All new evidence generated by non-crime lab personnel shall be packaged, labeled and otherwise handled as per this Chapter and current CE&P procedure relative to the handling of evidence.

**HAZARDOUS MATERIALS**

35. Poisons may be stored only if appropriate safe packing is available after they have been properly sealed and packaged by a Crime Scene Technician rendering them safe to be processed by Central Evidence and Property personnel.
36. In instances where large quantities of poisons are confiscated for evidence, a small portion will be extracted for Crime Lab testing and evidentiary processing. The remainder shall be disposed of in accordance with Federal and State guidelines by a qualified entity. The method of destruction and individual responsible for destruction shall be documented in the appropriate file(s) by Central Evidence and Property members.
37. Explosives, acids, and flammable substances shall be processed and transported by SOD - Bomb Technicians or other governmental agencies utilizing an approved vehicle and transportation technique to be determined by the technician and considered safe. (See also: **Chapter 46.3 – Bomb Calls**).

38. SOD - Bomb Technicians shall determine if a sampling of the explosive compound or chemical agent can be safely extracted for evidentiary processing.
39. If a sampling of the substance can be safely retrieved for forensic testing, it shall be the Bomb Technician's or other governmental agency's responsibility to transport the sample to the Crime Lab or other appropriate facility for processing. Explosives are not permitted to be delivered to nor retained at CE&P. Hazardous materials and explosives are processed by NOFD or SOD / Bomb Squad as per **Chapters 46.3 – Bomb Calls** and **Chapter 46.3.4 – Hazardous Materials Exposure and Response**.
40. Substances where samples cannot be safely extracted shall be disposed of in a manner considered safe by the Bomb Technician or other governmental agency and in accordance with Federal and State Law. The process of disposal shall be documented in writing and photographed. The photographs shall be deposited as evidence in the Central Evidence and Property Division.
41. Explosives, acids, flammable substances and other hazardous materials shall not be processed, transported, or stored as evidence. Scenes where these compounds pose a hazard to the public shall be processed by the appropriate Federal or State agency or competent independent contractor. In the case of clandestine or illegal drug labs the investigating officer is responsible for securing the scene and rendering it safe for processing by the Crime Lab. Once a clandestine or illegal drug lab is secured, the New Orleans Fire Department can assist with decontamination, evidence collection or scene mitigation. (See also: **Chapter 46.3.4 – Hazardous materials Exposure and Response**).

#### **AUTOMOBILE FATALITIES / ACCIDENTS**

42. Fatalities are handled in their entirety by the Traffic Division Fatality Unit. Crime Scene Technicians shall only be dispatched to the scene to assist the investigator if requested.
43. The Fatality Investigator is responsible for the processing of the scene and handling of all evidence recovered.
44. When requested, Crime Scene Technicians shall assist in the retrieval of evidence in those instances which are outside the expertise of the Traffic Division investigator.
45. Within the limits of their forensic testing capability, the Crime Laboratory shall conduct scientific analysis/examination of evidence submitted and generate the appropriate reports.
46. Crime Scene Technicians will not photograph auto accidents involving police vehicles unless requested by the investigating officer assigned to the Traffic Investigations Unit. When requested, technicians may assist with measuring skid marks and other relevant information; however, they are not required to generate a Crime Scene technician Report or list this information in their report. All information relative to the actions taken by the Crime Scene Technician shall be documented by the investigating officer in his/her report.

#### **AUTO THEFTS**

47. On all arrest cases involving stolen vehicles, under any signal, where the vehicle is present, available and has a broken / defeated steering column or ignition, the investigator shall contact SCIS to have a Crime Scene Technician photograph the

broken / defeated steering column or ignition.

## **BURGLARIES**

48. Crime Scene Technicians will assist the investigator on burglary scenes and shall process scenes and the evidence as needed.
49. After the evidence is processed and/or collected and packaged, it shall be the investigator's responsibility to either:
  - (a) Place the evidence in the Central Evidence and Property Section: or
  - (b) Release the evidence to the owner as appropriate to the item.

## **SUICIDES**

50. The Coroner's Investigator is responsible for the collection of any suicide note unless the investigating officer requests the suicide note be processed for fingerprints or DNA. Suicide notes shall be photographed at the scene and prior to processing for prints and DNA.
51. Collection of medications on the scene is the responsibility of the Coroner's Investigator unless the investigating officer requests the medication containers be processed for fingerprints or DNA. The medication containers shall be photographed at the scene and prior to processing for prints and DNA.
52. Suicides will not be sketched by the Crime Scene Technician unless specifically requested by the Coroner's Investigator.

## **HOMICIDES**

53. Clothing removed from a suspect or other individual by the investigating officer at a detention facility or elsewhere but away from the scene shall be properly separated, packaged and delivered to Central Evidence and Property by the investigating officer.
54. It is the responsibility of the Coroner's Office investigator to deliver any evidence removed from a body during an autopsy to Central Evidence and Property.
55. All homicide scenes shall be sketched by the assigned Crime Scene Technicians.

## **UNCLASSIFIED DEATHS**

56. Unclassified deaths shall be processed in the same manner as homicides. Sketches will be completed if requested by the investigator.

## **DRUG VIOLATIONS**

57. Crime Scene Technicians will not respond to calls of "found drugs" if there is no crime scene to process.
58. Crime Scene Technicians shall not respond for the sole purpose of collecting drugs but may assist in the packaging and photographing of drugs if requested by the investigating officer and the Crime Scene Technician platoon supervisor approves.
59. If an investigating officer requests that fingerprints or DNA be lifted on packaged drugs, the crime scene technician shall determine the best method by which the prints or trace DNA will be lifted.

60. The investigating officer shall be responsible for placing any recovered drug violation evidence at Central Evidence and Property unless the recovery involves forensic processing (i.e. fingerprinting or DNA). If the evidence was generated or created by the Crime Scene Technician, the CST shall log the evidence at CE&P.

### **ILLEGAL CARRYING OF FIREARMS / ILLEGAL DISCHARGE OF FIREARMS**

61. Crime Scene Technicians shall not respond to signals of illegal carrying of firearms if there is no scene to process.
62. Technicians shall not respond to a scene for the sole purpose of collecting a weapon but may assist in the packaging of the items for forensic processing (fingerprints or DNA) and photographing of weapons if requested by the investigating officer and the Crime Scene Technician platoon supervisor approves.

### **SEARCH WARRANTS**

63. When a crime scene technician is requested on a search warrant execution, the following guidelines shall apply:
  - (a) The scene shall be secure prior to the arrival of the CST.
  - (b) The affiant officer on the warrant must be present on the scene during all processing.
  - (c) Technicians will assist with the photographing, collection, and proper packaging of evidence described in the warrant. This includes blood, hair, fibers, etc.
  - (d) Technicians will be required to retrieve any trace evidence and package same.
64. To ensure the integrity of the chain of custody, evidence shall be submitted to the Central Evidence and Property Section by the officer/technician who collected, packaged or processed the evidence. The affiant of the search warrant shall be responsible for documenting all collected evidence on the warrant return.

### **SEIZED, IMPOUNDED VEHICLES AS EVIDENCE**

65. The processing of vehicles as a scene or as evidence should be accomplished as soon as possible after seizure of the vehicle and on the crime scene itself if time and conditions permit.
66. If an investigator seizes a vehicle for evidence collection purposes, it shall be the investigator's responsibility to have the vehicle transported to the evidence cage at police headquarters. See **Chapter 61.22 – Impoundment of Motor Vehicle Involved in Criminal Activity**.
67. Prior to transporting a seized vehicle, the investigator should consult a Crime Lab supervisor to determine if the vehicle can be processed on the scene.
68. Prior to transporting a seized vehicle it shall be the responsibility of the investigating officer to complete an **Impounded Vehicle Laboratory Request form** (Form 211). The crime scene technician, if requested, shall assist the investigator in the completion of the form.
69. Copies of the Impounded Vehicle Laboratory Request form (Form 211) can be obtained from the [NOPD.org](http://NOPD.org) Forms folder.

**DNA EVIDENCE**

70. Evidence suitable for DNA analysis can be found at many crime scenes and is a powerful investigative tool for linking suspects to crimes, eliminating suspects, and identifying victims. Officers shall be aware of common sources of DNA evidence, ways to protect against contamination of samples, and basic collection and packaging guidelines such as wearing a mask to avoid contamination through talking, sneezing, and coughing over evidence.
71. Blood and semen are the two most common sources of DNA evidence. However, other body tissues and fluids can be used for analysis even in microscopic quantities.
72. DNA is particularly sensitive and subject to contamination. First responders, in particular, must be familiar with the most likely actions/situations that can degrade, destroy, or contaminate DNA evidence and shall observe the following precautions:
- (a) Change protective gloves between collections of samples in different areas.
  - (b) Use disposable instruments or clean instruments thoroughly with a 10 percent bleach solution before and after handling each sample.
  - (c) Avoid touching the area where you believe DNA may exist.
  - (d) Air-dry potential DNA evidence thoroughly before packaging. If it cannot be air-dried, refrigerate and submit to the laboratory within seven days.
  - (e) Put evidence into new (unused) paper bags or envelopes, not into plastic bags.
  - (f) Sterile swabs shall be used to collect liquid blood. Vials containing blood samples should be refrigerated as soon as possible but shall not remain unrefrigerated longer than seven days.
  - (g) Bloodstains shall be first photographed, then packaged or wrapped carefully in paper so that the bloodstain is not dislodged or disturbed. Smaller bloodstained objects can be placed in envelopes or cardboard boxes.
  - (h) Wet bloodstained materials must be dried prior to submission to a laboratory. Officers shall not use heaters, freestanding room fans, or intense light to facilitate drying, as this may destroy the evidentiary value of the samples. Low-humidity, cold environments that are well ventilated are suitable for this purpose. Drying cabinets for this purpose are maintained by CE&P.
  - (i) If exigent circumstances dictate immediate action to prevent destruction of evidence, wet bloodstained materials may be rolled or folded in paper or placed in a brown paper bag or box, sealed, and labeled. Folding garments through stains shall be avoided.
  - (j) Bloodstained articles and blood samples shall be transported as soon as possible and should never be stored in patrol vehicles or otherwise exposed to heat.
  - (k) Use a cotton Q-tip or swab lightly moistened with saline solution to collect dried bloodstains on fixed objects too large to transport or on porous surfaces. If saline is not available, tap water may be used so long as a control standard of the water is collected for comparison.
  - (l) As in the case of blood samples, clothing and bedding that may retain semen evidence shall be air-dried if wet and packaged separately in paper containers and labeled.

73. Common sources of potential DNA evidence include:

<b><u>Evidence</u></b>	<b><u>Possible Location of DNA on Evidence</u></b>	<b><u>Source of DNA</u></b>
Baseball bat or similar weapon	Handle, end	Sweat, skin, blood, tissue
Hat, bandanna, mask	Inside	Sweat, skin, hair, dandruff, blood
Eyeglasses	Nose or ear pieces, lens	Sweat, skin, blood
Facial tissue, cotton swab	Surface area	Mucus, blood, sweat, semen, ear wax
Dirty laundry	Surface area	Blood, sweat, skin, semen
Toothpick	Tips	Saliva, blood
Used cigarette	Cigarette butt	Saliva, blood
Stamp, paper, envelope	Licked area, paper	Saliva, blood
Tape, ligature	Inside/outside surface	Skin, sweat, skin, blood
Bottle, can, glass	Sides, mouthpiece	Saliva, sweat, blood
Used condom	Inside/outside surface	Semen, vaginal or rectal cells, blood
Blanket, pillow, sheet	Surface area	Sweat, hair, semen, urine, saliva, blood, skin.
Through-and-through bullet	Outside surface	Blood, tissue
Bite mark	Person's skin, clothing	Saliva, blood
Fingernail, partial fingernail	Scrapings	Blood, sweat, skin, tissue
Clothing worn or touched	Area where clothing grabbed or held or where clothing touches skin (gathered wrists, waistband, etc.)	Sweat, skin

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 83.2

### TITLE: COMPUTERS AND DIGITAL EVIDENCE

**EFFECTIVE: 01/14/2018**

**REVISED: Replaces Policy 814**

---

#### PURPOSE

This Chapter establishes guidelines for the seizure and storage of mobile devices, computers, and other electronic devices capable of storing digital information. The Chapter also establishes guidelines for the preservation and storage of digital evidence.

#### POLICY STATEMENT

1. The New Orleans Police Department will adhere to all state and federal laws and regulations of the Louisiana Bureau of Criminal Identification and Information related to the access, use and dissemination of sensitive information received via a law enforcement telecommunications network (R.S. 15:579).

#### DEFINITIONS

**Faraday Bag**—A faraday bag is a bag composed of radio signal deflecting material.

**Hardware**—Physical parts of a digital item such as a memory chip or hard drive.

**Laptop computer**—A portable computer suitable for use while traveling. Not to be confused with mobile device.

**Mobile Device**—A mobile device, also referred to as a handheld device or handheld computer, are portable data devices which provide communications, digital photography, navigation, web access, personal information management, and data storage.

#### FIRST RESPONDER AND INVESTIGATING OFFICER RESPONSIBILITIES

2. The officer or detective must have the legal authority to seize the mobile device, computer, hardware, software or electronic media with a signed warrant and/or valid consent. The officer or detective shall obtain the appropriate permission prior to seizing the equipment and prior to forensic examination by the Digital Forensic Unit. (See: **Chapter 1.2.4 – Search and Seizure** and **Chapter 1.2.4.2 – Search Warrant, Content, Forms and Reviews**).
3. Secure the devices containing the digital evidence by:
  - (a) As a general rule of thumb, if the laptop or mobile device is powered off, leave it

- off; if the device is on, leave it on.
- (b) Isolate the device from communicating with any network (Faraday bag).
4. Officers can obtain Faraday bags from Central Evidence and Property. In the event that a Faraday bag is not available, aluminum foil will prohibit the device from accessing wireless networks.
  5. Consider non-electronic evidence on the device such as fingerprints or biological or trace evidence and contact the Scientific Criminal Investigation Section (Crime Lab) to process and analyze this evidence. The device and evidence shall be collected and processed prior to the device being processed by the Digital Forensics Unit.
  6. If there is an articulable reason to believe that the computer or mobile device is utilizing encryption mechanisms, authentication mechanisms, pass locks, pass codes, or other security features, the officer should consult with the detectives of the Digital Forensics Unit prior to seizing the electronic device.
  7. If the electronic device is powered on and will be placed in storage for any period of time, the investigator shall consult with the Digital Forensic Unit to determine the best method to secure such a device.
  8. Upon confiscating the electronic device, the investigating officer or detective shall complete the **Digital Forensic Unit Work Request Form** to have the device processed by the Digital Forensics Unit. The following forms shall be used:
    - (a) Cellular/Mobile Device Work Request - Form 320
    - (b) Video Work Request - Form 321
    - (c) Computer Work Request - Form 322
  9. In order for the seized evidence to be examined by a Digital Forensic Examiner, the Digital Forensic Work Order shall be completed and attached to a copy of the applicable Search Warrant or signed Consent to Search when submitted for examination. The Digital Forensics Unit shall be notified about the pending devices at Central Evidence and Property.

#### **VIDEO SURVEILLANCE EVIDENCE**

10. The first responder and/or case detective shall attempt to obtain video from the surveillance system while on scene to ensure that video evidence will not be overwritten.
11. If the first responder cannot obtain the video while on scene, he/she shall document the steps taken to obtain the video and contact the Digital Forensics Unit for assistance. It is important to note what steps were taken so that the Digital Forensics Unit can prepare the necessary equipment for extraction. If the first responder was successful in obtaining the surveillance video and the video is stored on removable media such as CD, DVD, or flash drive, follow current departmental guidelines for storing evidence (see: **Chapter 83.1 – Collection and Preservation of Evidence**).

#### **RECEIVING, STORING, AND PROCESSING EVIDENCE**

12. Digital Forensics Unit Detectives (forensics examiners) shall retrieve evidence from Central Evidence and Property upon notification and receipt of the appropriate work request form and search authority (warrant). The detectives will process evidence in a timely manner using equipment/procedures accepted by the forensics community for obtaining evidence from electronic and data storage devices.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 84.1

### TITLE: EVIDENCE AND PROPERTY

**EFFECTIVE: 07/14/2019**

**REVISED: Replaces Policy/Procedure 804**

---

#### PURPOSE

This Chapter provides for the proper collection, storage, security, chain of custody, and disposition of evidence and property entrusted into the care of the New Orleans Police Department at Central Evidence and Property (CE&P). This Chapter does not cover the collection, handling, and storage of evidence of sexual assault, which is covered in **Chapter 42.2 – Sexual Assault** and the **Sex Crimes Unit Standard Operating Guidelines**.

#### DEFINITIONS

**CE&P**—Acronym for the **C**entral **E**vidence and **P**roperty Section.

**Concursus**—A proceeding in which two or more persons having competing or conflicting claims to money, property, or mortgages or privileges on property are required to assert their respective claims contradictorily against all other parties to the proceeding. The property may be held by a third party (i.e. police department). See La. Code Civil Procedure Art. 4651.

**Controlled Substance or Controlled Dangerous Substance (CS / CDS)**—Drugs and other substances that are considered controlled substances under the Controlled Substances Act (CSA) and/or Louisiana law are divided into five schedules. Substances are placed in their respective schedules based on whether they have a currently accepted medical use in treatment in the United States, their relative abuse potential, and likelihood of causing dependence when abused.

**Disposal**—The disposition of an item classified as evidence once the prosecutorial and judicial process is concluded. The three methods of disposal are

- (a) Return it to the rightful owner (if allowed by law);
- (b) Legally forfeit the item for use by the law enforcement agency; or
- (c) Physically destroy it.

All evidence disposal methods require legal process and court approval.

**Drug**—A substance used to treat an illness, relieve a symptom, or modify a chemical process in the body for a specific purpose.

**Evidence**—Property as defined herein, including documentary or oral statements, material objects admissible as testimony in a court of law, and items taken or recovered in the course of an investigation that may tend to prove or disprove the facts of a case.

**Exhibit**—Physical or documentary evidence which could be brought before the jury / judge and or shown and identified in court in a case. The artifact or document itself is generally presented for the court or jury's inspection. Examples may include a weapon allegedly used in the crime, an invoice or written contract, a photograph, or a video recording.

**Found Property**—Property found by a department member or other person where the owner cannot be readily identified or contacted and has no apparent evidentiary value in a criminal investigation.

**Gross Package Weight**—The sum (total) weight of the package and contents.

**Narcotic**—Any of a class of substances that blunt the senses, such as opium, morphine, belladonna, and alcohol, that in large quantities produce euphoria, stupor, or coma, that when used constantly can cause habituation or addiction, and that are used in medicine to relieve pain, cause sedation, and induce sleep. The US FDA has restricted the word narcotic to mean opioid.

**Property**—Any object of value, however slight, whether tangible or intangible.

**Safekeeping**—The police department has a fiduciary and **legal** obligation to store and protect items of evidence and **property** in its **custody**, and an obligation to legally restore **property** to the rightful owner as soon as practical or dispose of the **property** in a **legal** manner. This includes property obtained by the Department for safekeeping/storage pending return to owner, or personal property of an arrestee not taken as evidence in a criminal investigation.

## **POLICY STATEMENT**

1. The evidence and property function exists in order for this Department to receive, catalog, safely store, and maintain the integrity of evidence, found property, or property for safekeeping.
2. This Department has the legal obligation to restore property to the rightful owners or facilitate the legal disposition of evidence or property in its possession. The Commander of Central Evidence and Property shall ensure that timely notification of possible release to the owner is made on all items of property, where the owner has been identified.
3. The determination of the suitability of a particular item of evidence for forensic testing is made by the Crime Lab after the investigator's determination that the item will be needed in a case investigation and a laboratory request for forensic testing has been made by the case investigator. The method of forensic testing to be used on a particular item shall be determined by the appropriate forensic laboratory technician based on the Crime Lab Standard Operating Guidelines and best practices.
4. The classification of a particular item or object as either property or evidence for purposes of this Chapter is made by the investigating officer based on the nature of the object and its impoundment necessity as proof of an element of the offense or the possibility that forensic testing of the object may provide additional evidence as to the identity of a suspect (i.e. DNA and fingerprints). In the event the item or object is to be retained as evidence so that forensic testing can be conducted, the required Crime Lab Request form shall accompany the item when confiscated from the scene and logged into CE&P. Items that do not have evidentiary value and are capable of being documented on the scene by photographs and sketching can be processed as "property."

**CENTRAL EVIDENCE AND PROPERTY INTEGRITY AND SECURITY- MAIN FACILITY**

5. CE&P shall maintain and operate a main warehouse facility manned and open for the receipt of evidence and property 24 hours per day seven days per week including holidays. A commissioned officer shall be on the premises at all times, and a security camera system shall be in continuous operation. Exterior doors and windows shall be locked and secured with key card access, allowing only authorized members or individuals with appropriate, verified identification and a need to enter the facility. Doors to interior areas shall be locked and secured when not in active use, allowing only authorized members to enter those areas. Under no circumstances shall any individual not assigned to CE&P be allowed to roam freely or unescorted through any portion of the secure area(s).
6. All items stored at CE&P or any satellite facility shall be stored above base flood elevation for the location of the facility according to the most recent revised FEMA flood hazard data.
7. Drugs, narcotics, controlled substances, currency and other valuables, and firearms and related exhibits shall be stored separately from the main warehouse in an area subject to additional access security and restrictions.

**EVIDENCE AND PROPERTY INTAKE**

8. All evidence and/or property except motor vehicles or suspected explosive devices taken into custody of an NOPD member while working must be delivered and logged at CE&P prior to a NOPD member going off-duty, and a written report (EPR) shall be made detailing how the evidence and/or property came into the control of the member along with a complete, detailed description of each item including serial numbers or identifying marks if applicable. Motor vehicles are processed according to **Chapter 61.22 – Impoundment of Motor Vehicles Involved in Criminal Activity**. Information on explosive devices is provided below.

**EVIDENCE AND PROPERTY BOOKING PROCEDURE**

9. Exhibits delivered to CE&P shall be packaged, sealed, and labeled by the receiving counter member per current CE&P standard operating guidelines (SOG), including but not limited to the following:
  - (a) Exhibits shall be described so precisely that physical viewing of the packaged item is not necessary to identify what it is.
  - (b) Exhibits of evidence shall not be packaged with items of property.
  - (c) Exhibits for which ownership can be, or has been, established shall be packaged separately.
  - (d) Members submitting items for forensic processing shall indicate the owner and/or custodian's name, address, and telephone number (if known).
10. All pertinent information regarding articles received at CE&P shall be entered into the Section's computer system and a receipt shall be generated. The receipt shall be supplied to the submitting member for his/her record and verified for accuracy and completeness by the submitting member prior to his/her leaving CE&P. This receipt shall become part of the submitting member's investigative report (EPR).

**DRUGS, NARCOTICS AND CONTROLLED SUBSTANCES**

11. Drugs, controlled substances and narcotics exhibits, including paraphernalia, shall be packaged separately, always in the presence of both the submitting and receiving

member. They shall be particularly described, itemized, weighed and packaged according to CE&P Standard Operating Guidelines (SOG) and deposited into the narcotics depository in the presence of the submitting and receiving members.

12. The gross package weight (GPW) will be verified every time the package is checked in or out of Central Evidence and Property. Any discrepancies shall be noted on the outside of the package on the chain-of-custody label. Any change in weight shall be immediately reported to the discovering member's supervisor. The supervisor shall determine if the change in weight was due to documented re-packaging or testing. If not, the supervisor shall initiate an investigation and report the actions, in writing, to his/her Commander.

### **CURRENCY AND OTHER VALUABLES**

13. Currency, coinage and other valuables (jewelry, etc.) shall be packaged separately in the presence of both the submitting and receiving member, along with a copy of the receipt that the submitting member issued to the person from whom it was obtained (if applicable). They shall be particularly described, itemized and packaged according to CE&P Standard Operating Guidelines (SOG), and deposited into the valuables depository in the presence of the submitting and receiving members.
  - (a) Cash/currency/coinage which has been submitted for processing and is in a government or bank-sealed bag need not be opened for verification, providing that the submitting member has documentation of the contents.
  - (b) In all other cases, CE&P members shall verify the amount of cash/currency/coinage received prior to packaging and depositing into the valuables depository.

### **FIREARMS AND RELATED EXHIBITS**

14. Firearms received at CE&P shall be unloaded and made safe by the submitting member prior to presenting for intake at CE&P.
15. For firearms related items:
  - (a) Live ammunition shall be packaged separately from spent ammunition.
  - (b) All live ammunition shall be packaged separately from firearms.
  - (c) Firearm magazines shall be removed from the weapon, and the firearm slide shall be locked in the open position, if possible.
  - (d) Revolvers shall be submitted with the cylinder open and empty, if possible.
  - (e) All firearms shall be accompanied by a completed NOPD **Confiscated Report Form #42**.

### **EXCEPTIONAL HANDLING**

16. Certain exhibits require specific processing. The following classes of exhibits shall be processed in the described manner once presented at CE&P intake:
  - (a) Any evidence collected which may contain trace DNA and that is designated for testing shall be properly labeled as such.
  - (b) Evidence stained with bodily fluids shall be air-dried prior to being packaged for storage.
  - (c) The ISB – Special Investigations Division – Narcotics Section – Asset Forfeiture Unit shall be contacted for evidentiary cash in excess of \$1,000.
  - (d) Evidence requiring unusual or specific storage requirements pursuant to laboratory procedures shall have those clearly indicated storage requirements noted on the appropriate form(s) and specifically brought to the attention of the CE&P intake member.

- (e) Items that are potential biohazards shall be appropriately packaged and labeled to reduce the risk of exposure or contamination.
- (f) City owned property, unless connected to a known criminal case, should be released directly to the appropriate City department. In cases where no responsible person from that department can be located, the City property should be booked for safekeeping and written notification of the circumstances and location made to the appropriate City Department director before the member placing the item on the books finishes his/her tour of duty.

## EVIDENCE DROP-BOXES

- 17. Certain evidence or property may be deposited into secure and authorized containers (drop boxes) located in police facilities such as District stations, Police Headquarters and the Family Justice Center.
- 18. Where drop boxes are present the following guidelines apply:
  - (a) Allowed or prohibited exhibits:
    - i. **Allowed property** - Only non-perishable and completely-dry property that reasonably fits into a drop-box without any risk of damaging any other property or evidence in the drop-box may be submitted in a drop box.
    - ii. **Allowed evidence** - Fingerprint cards or photographs/videos (whether printed, CD/DVD or VHS) may be submitted in a drop box.
    - iii. **Prohibited items** - Firearms, ammunition, drugs, narcotics, CDS, drug paraphernalia, currency/coin, jewelry, sexual assault kits, or DNA / biological / biologically contaminated items.
  - (b) Each individual exhibit placed into a drop-box must be contained in a sealed bag or envelope and contain the following:
    - i. The item number and officer's name/assignment must be printed on the bag or envelope.
    - ii. The CE&P intake form must be completed, legible, approved and signed by the submitting member's supervisor and included inside the bag or envelope.
  - (c) A drop-box hard-bound ledger book, provided by CE&P, shall be kept at each drop-box location. The following information shall be recorded in the ledger book by the member submitting the evidence or property:
    - i. Date and time of submission into the drop box,
    - ii. The NOPD item number,
    - iii. The number of exhibits with each exhibit's description,
    - iv. The submitting member's name, badge number, and signature,
    - v. The approving supervisor's name and signature, and
    - vi. The retrieving CE&P member's initials and date of pickup.
  - (d) A supervisor of the submitting member who is depositing the evidence or property into the drop-box shall monitor the drop-box procedure and affix his/her printed name, badge number, and signature on the CE&P intake form. The completion of the form and signature verifies that the supervisor checked and approved the forms for accuracy and shall observe the placing of the exhibit(s) into the drop-box.
  - (e) The member writing the incident report shall attach a copy of the completed, approved and signed CE&P Intake form to the EPR.
  - (f) CE&P forms are available on nopd.org under Forms and may not be altered.

## DROP-BOX CUSTODIAN

- 19. Only authorized CE&P members (drop-box custodians) shall open a drop-box and collect the exhibits placed therein. The following guidelines shall be followed:

- (a) Only the CE&P Commander or his/her designee shall have access to the keys for the drop-boxes.
  - (b) Drop-box pickups shall be at least weekly.
  - (c) Drop-box custodians who open a drop-box and transport the exhibits contained therein must be sworn/armed members and travel in an authorized police vehicle.
  - (d) The drop-box custodian shall unlock the drop box, verify the contents against the exhibits listed in the ledger book and the information on the intake forms, and affix his/her initials and pickup date in the hard-bound ledger book,
  - (e) The drop-box custodian shall empty and lock the drop-box.
  - (f) The drop-box custodian shall address any discrepancies discovered during the process with the unit supervisor on-scene, leave a copy of the pick-up form for the unit Commander, and maintain the original pick-up form for CE&P records.
  - (g) The drop-box custodian shall maintain security while transporting the evidence/property, by not making any stops while transporting the evidence/property. The custodian shall deliver the exhibits to a CE&P intake member for normal processing.
  - (h) The drop-box custodian shall remain with the exhibit(s) at all times from pickup at the drop-box until intake at CE&P thereby maintaining chain of custody, until all items are securely and completely packaged for storage in accordance with CE&P intake system procedures and entered into the CE&P property and evidence computer records system.
  - (i) CE&P intake member shall note in the record that the exhibit being entered was placed in a drop-box, along with the delivery custodian's name and badge number. The initial intake form, completed by the investigating member, shall remain with and be included with the property/evidence at CE&P.
20. Nothing in this Chapter is intended to preclude a member from transporting evidence or property directly to the CE&P facility in lieu of utilizing a drop-box.

## EXPLOSIVES

21. Officers who encounter a suspected explosive device shall promptly notify his/her immediate supervisor or Platoon Commander. The Special Operations Division – Bomb Squad will be notified by the supervisor through Communications Services (OPCD) to respond to the explosive-related incident and will be responsible for the handling, storage, sampling and disposal of all suspected explosives(see also: **Chapter 46.3 – Bomb Calls**).
22. Explosives are not permitted to be delivered to, nor retained at, CE&P. Explosives are the exclusive responsibility of the SOD-Bomb Squad.

## RIGHT OF REFUSAL

23. CE&P members have the right to refuse any piece of property or evidence that is hazardous. For hazardous materials, the member who has had the piece of property or evidence refused shall contact his/her supervisor. The member's supervisor, in consultation with the CE&P supervisor, shall reach a determination as to the hazardous nature of the item(s) and a process to follow. Both SOD and NOFD can be consulted to provide guidance and assistance. (See also: **Chapter 4.3.4 – Hazardous Materials Exposure and Response**).
24. CE&P members have the right to refuse any piece of property or evidence that has not been properly documented or packaged until corrective action is taken by the submitting member. Any dispute shall be immediately referred to the member's supervisor who

shall consult the CE&P supervisor for guidance.

### **PACKAGING OF EVIDENCE AND PROPERTY**

25. Packaging must conform to defined CE&P packaging procedures. Guidance on packaging requirements can be provided by CE&P members and Crime Scene Technicians. Certain items require special consideration and shall be packaged and processed separately as follows:
- (a) Controlled substances.
  - (b) Firearms (ensure they are unloaded, rendered safe, and packaged separately from ammunition).
  - (c) Property with more than one known owner.
  - (d) Drug paraphernalia.
  - (e) Contraband.
  - (f) Biohazards.

### **PACKAGING CONTAINERS**

26. Members shall package all property in a suitable container that is appropriate for its size.
- (a) Knife tubes should be used to package knives or any other sharp items.
  - (b) Handgun boxes should be used for handguns.
  - (c) Syringe tubes should be used to package syringes and needles.
27. A completed property/evidence tag shall be securely attached to the outside of all items or group of items packaged together.

### **RECORDING OF PROPERTY**

28. The CE&P intake member receiving custody of evidence or property shall create a computer record for each item of property or exhibit received. The computer record will be the permanent record of the exhibit in Central Evidence and Property. The computer record shall record, by item number, the date received, exhibit number, description, location, the date released or disposed (if applicable), and any other pertinent information.
29. For all narcotics exhibits, a hard-bound logbook shall also be maintained for each exhibit received.
30. Any changes in the location of evidence or property held by the New Orleans Police Department shall be noted in the computer record.

### **EVIDENCE AND PROPERTY CONTROL**

31. Each time a CE&P member receives an evidence or property form or releases evidence or property to another person, he/she shall update the information in the evidence and property control computer system.
32. Items that have been misclassified as evidence, according to the guidelines of this Chapter, shall be immediately brought to the attention of the commander of CE&P by any member of CE&P.
33. The commander of CE&P shall investigate the circumstances of the items classification and if an error has been made:
- (a) Contact the investigating officer's immediate supervisor and inform him/her that the officer must correct the error at CE&P within 48 hours of notification,

- (b) Request that the supervisor review the guidelines for determination of the classification of an item as property or evidence with the member and document the counseling / training in INSIGHT.

### **TRANSFER OF EVIDENCE TO SCIENTIFIC CRIMINAL INVESTIGATIONS SECTION (SCIS - CRIME LAB)**

- 34. The Scientific Criminal Investigations Section (SCIS or Crime Lab) member assigned to transport items from CE&P to the Crime Lab for testing will check the evidence out of CE&P, document the transfer in the evidence and property control computer system when needed for laboratory analysis and return the item(s) to CE&P as soon as practicable after testing is completed.

### **RELEASE OF EVIDENCE OR PROPERTY**

- 35. Each member transferring evidence or property to another will make the appropriate entry in the evidence and property control computer system to document the chain of custody.
  - (a) Property may only be released to a rightful owner or disposed in accordance with Departmental regulations and law.
  - (b) Property that has no apparent evidentiary value, excluding contraband, may be released to the owner if known.
  - (c) A firearm may not be released until it has been verified that the person receiving the weapon is not prohibited from receiving or possessing the weapon by 18 USC § 922 (d).
  - (d) The property owner, present in person or through a legally authorized representative, shall sign the appropriate form acknowledging receipt of the item. A copy of the legal document appointing a representative to retrieve the property for the owner shall be maintained as part of the property release file.
  - (e) The Commander of the CE&P Section shall designate hours during the business day where owners or his/her authorized representatives can retrieve property authorized for release.
  - (f) Items classified as evidence may not be released to non-judicial or non-laboratory civilians and may only be released for official purposes, except:
    - i. Upon the written direction of a prosecuting attorney; or
    - ii. Pursuant to a signed, embossed original court order.
  - (g) CE&P members shall obtain the signature of the person to whom evidence or property was released and the reason for release.
  - (h) Any department member receiving evidence shall be responsible for maintaining the chain of custody and the physical security of such evidence until it is returned to CE&P.
- 36. The return of previously released evidence shall be recorded in the evidence and property control computer system indicating date, time and the person who returned it along with any necessary documentation indicating the continuous, unbroken chain of custody of the evidence since its removal from CE&P.

### **DISPUTED CLAIMS TO PROPERTY**

- 37. More than one party may claim an interest in property being held by the Department. If legal rights of the parties cannot be clearly established, such property shall not be released until one party:
  - (a) Has obtained a court order for the release of the property into his/her sole custody; or
  - (b) He/she establishes proof of the undisputed and undivided right to the property.

38. All parties should be advised that their claims to an interest in the property are civil in nature. In extreme situations, legal counsel for the City / Department may be requested to file a concursus in court to resolve the disputed claim.

### **PROPERTY (NON-EVIDENCE) DISPOSAL**

39. All non-evidence property received by CE&P shall be held for at least six months from the date it was received, after which it may be disposed in the following manner:
- (a) If the property has a known owner with address known (in CE&P's computer system as provided by the submitting member/investigator), the owner shall be sent a letter notifying him/her to retrieve his/her belongings, at least 30 days prior to disposal. If additional contact information exists and is available to CE&P Disposal personnel, it shall be utilized to contact the known owner if the letter does not garner a response.
  - (b) At least 30 days prior to disposal, NOPD will advertise on its website that the property is to be disposed if unclaimed.
  - (c) The advertisement will note that the property may be available, if unclaimed by rightful owner, to a nonprofit youth facility or to another nonprofit organization, if appropriate and usable (R.S. 33:2333).
  - (d) Property that has completed these prerequisites and timeframes, fully eligible for disposal, may be converted to city use in accordance with this Chapter.
  - (e) After prescribed time periods have been met, disposals shall be conducted as specified in this Chapter.

### **EVIDENCE DISPOSAL**

40. Evidence shall only be disposed by court order, after consultation with the District Attorney with regard to state evidence or the City Attorney with regard to municipal evidence, to ensure it will not be needed for prosecution or appeal, under the following guidelines:
- (a) Evidence shall not be disposed in cases of murder, rape, aggravated kidnapping, or armed robbery regardless of the time since the offense, the status of legal proceedings in the case, or whether the department has closed the case.
  - (b) Trace evidence - including biological evidence and digital evidence in any case in which the felony is punishable by 10 years or more should be retained through the statute of limitations for the offense if it is an open case, or the duration of the incarceration of the last defendant in the case if the case is closed with conviction.
  - (c) Contraband evidence must be completely destroyed during a disposal process, if not used for official Department purposes (e.g., K9 training, Crime Lab use) in which case the Departmental use must be documented in the CE&P computer system.
  - (d) With regard to non-contraband evidence:
    - i. Once a court order is obtained to dispose, procedures outlined above in paragraph 38 of this Chapter regarding owner notifications shall be followed unless the court order dictates a specific manner of disposal.
  - (e) If non-contraband evidence is claimed, it must be claimed by an actual owner.
  - (f) Evidence that is fully eligible for disposal may be converted to city use in accordance with this Chapter.
  - (g) After prescribed time periods have been met, disposals shall be conducted as specified in this Chapter, unless otherwise dictated by court order.

### **CONVERSION TO CITY USE**

41. Useable property or evidence (other than firearms) that is fully-eligible for disposal or destruction under this Chapter may instead be converted to City use and signed out by

Department member for official business, in an effort to spare city funds from being spent to purchase similar new items needed for official Departmental operations, under the following guidelines:

- (a) Such property or evidence may only be converted to city use by approval of the Commander of CE&P or his designee who is a supervisor and shall be updated in the computer system.
- (b) The member signing out an item converted to city use:
  - i. Is responsible for the item;
  - ii. Must return the item upon request; and
  - iii. Must return the item when it is no longer serviceable or needed so that it may be updated in the computer system and accounted for then disposed accordingly.

## DISPOSAL PROCEDURE

42. In accordance with the **City Memorandum issued on June 30, 2011**, unless a court order dictates otherwise, disposals shall take place via the City of New Orleans contract with <https://www.propertyroom.com/>. However, some items by their very nature should be excluded and destroyed instead:
  - (a) Contraband.
  - (b) Biohazards.
  - (c) Firearms and other weapons.
  - (d) Items of a personal nature or having identifying characteristics (e.g., licenses, credit cards).
  - (e) Anything that **Propertyroom.com** does not accept according to their policies.
43. Every disposal and/or destruction shall be conducted in the presence of a supervisor not assigned to CE&P, chosen by the Superintendent of Police, who will review the process as an independent observer to ensure integrity and compliance with laws and Departmental regulations.

## INSPECTIONS OF CE&P

44. On a monthly basis, an Investigation and Support Bureau (ISB) supervisor, assigned by the Deputy Chief of ISB and not assigned to CE&P, shall inspect CE&P facilities to ensure adherence to appropriate policies and procedures concerning safety and physical storage and security. A report from the assigned inspector shall be generated outlining the details of the inspection process and any deficiencies or recommended corrective measures. This report shall be completed within one week of the inspection and submitted to the Deputy Chief of ISB and copied to the Commander of Central Evidence and Property. The reports shall be maintained on file at both commands for a minimum of three years.
45. Unannounced inspections of CE&P by the Audit and Review Unit of the Compliance Bureau shall be conducted annually, as directed by the Superintendent of Police. The report of the audit shall be submitted within one month of the completion of the audit. A report shall be submitted to the Superintendent of Police and copied to the Deputy Chief of ISB.
46. Whenever a change is made in command of CE&P or any members who have responsibility for "sensitive evidence" (guns, money, jewelry, drugs, DNA) in Central Evidence and Property, an audit of the inventory of evidence/property under their control shall be made by an individual not associated with Central Evidence and Property or the Section's function to ensure that records are correct and all evidence and property is accounted for. The audit/inventory must be sufficient to ensure the integrity of the

system and the accountability of the exhibits.

# NEW ORLEANS POLICE DEPARTMENT OPERATIONS MANUAL

## CHAPTER: 84.2.1

### TITLE: PRESCRIPTION DRUG DROP BOX USE AND DISPOSAL

**EFFECTIVE: 11/04/2018**

**REVISED: (New)**

---

#### PURPOSE

This Chapter provides guidelines for the security and proper disposal of drugs deposited into the prescription drug drop boxes located in facilities of the New Orleans Police Department and maintained at Central Evidence and Property (CE&P).

#### POLICY STATEMENT

1. The National Association of Drug Diversion Investigators (NADDI), in cooperation with the NOPD, has placed prescription drug drop boxes in several NOPD facilities open to the public where outdated or no longer needed prescription drugs may be placed for disposal.
2. This Department recognizes that prescription drugs are often the target of thefts and misuse by persons who have access to a residence. Often, these thefts or misuse are by juveniles 12-17 years of age where prescription drugs are a leading substance for abuse.
3. Many responsible adults recognize the need to remove prescription drugs that are outdated or no longer needed from the home in a safe and legal manner for disposal. The process outlined in this Chapter provides that avenue.

#### PRESCRIPTION DRUG DROP BOXES

4. The prescription drug drop boxes (PDDB) shall be placed inside police facilities that allow public access.
5. The locations shall be designated by the Superintendent of Police but consist of the police District stations and Police Headquarters.
6. When possible, the PDDB shall be placed in a manner to be visible to security cameras to protect them from loss or damage. If possible, the PDDB shall be attached to the floor or wall so as to prevent removal.
7. The PDDB shall not be used by any member of the NOPD for the disposal of narcotics or drugs that have come into the member's possession during the course and scope of

his/her duties. The PDDB are for the convenience of the general public only.

8. The member responsible for the safety and security of the facility where the PDDB are housed is responsible for the security of the boxes.

### **RESPONSIBILITIES FOR ACCESS AND DISPOSAL**

9. All keys to access the PDDB shall be maintained by the Commander of Central Property and Evidence.
10. Once monthly, during the first week of the month, a supervisor from Central Evidence & Property and a member of the Sensitive Evidence Section of CE&P shall unlock, inspect and empty all Departmental PDDB of their contents. The Commander of the facility where the PDDB is housed and the Commander of PIB shall be notified of the schedule for emptying of the PDDB.
11. The Commander of PIB may choose to have someone from PIB observe the process.
12. A supervisor from the command of the facility where the PDDB is located shall be present for the entire process from the time the PDDB is opened until the PDDB is re-locked and the CE&P members have left.
13. The members from CE&P and the supervisor of the facility where the PDDB is housed shall conduct a gross inventory of the items removed and list them in an NOPD EPR under a "Signal 21 – Request for Destruction." A separate EPR shall be written for each location where a PDDB is housed and emptied.
14. The items removed from the PDDB shall be packaged, sealed and labeled appropriately, and all required information and initials placed on the label(s) at the time of emptying and in the presence of the observing supervisor.
15. The EPR shall note the date, time, location, persons present and the listing from the gross inspection. A copy of the approved EPR shall be maintained by CE&P for one calendar year. If there is any damage or indications of attempts to breach security of the PDDB, it shall be noted in the EPR and the respective Bureau Chiefs notified by the Commander of CE&P.
16. The CE&P members participating in the inspection and emptying of the PDDB shall wear personal protective equipment at all times during the process.
17. The items recovered from the PDDB shall be placed on the books under the EPR's item number and marked for disposal at the next scheduled narcotics disposal burn.

### **ITEMS FOUND IN PDDB OTHER THAN DRUGS**

18. During the inspection and disposal process, if any item contained within a PDDB is determined to be other than a drug which is covered under this Chapter, it shall be processed as "Found Property" or "Evidence" as appropriate to its nature and a separate EPR written by the facility supervisor who is acting as a witness to the process. The item and report shall be handled, tested and placed on the books at CE&P in the same manner as "Found Property" or "Evidence" in the field. Proper personal protective equipment (PPE) and packaging guidelines shall be followed at all times.

**UNSCHEDULED INSPECTION AND EMPTYING OF PDDB**

19. If the Commander of the unit where the PDDB is housed believes that the PDDB requires inspection and emptying prior to the monthly scheduled dates, he/she shall contact the Commander of CE&P and advise him/her of the need. The Commander of CE&P will schedule an inspection and emptying the next business day, at the latest.

## **Child Abuse Unit Standard Operating Guidelines**

Effective April 2, 2017

### **PURPOSE**

The purpose of these standard operating guidelines is to provide Child Abuse Unit detectives and supervisors, or Sex Crimes detectives and supervisors in those cases in which Child Abuse detectives are not available, with guidelines for investigating reports of child abuse.

### **DEFINITIONS AND ACRONYMS**

**Abuse**—Any one of the following acts that seriously endanger the physical, mental or emotional health and safety of a child:

- (a) The infliction of physical or mental injury upon the child by a parent or any other person;
- (b) The attempted infliction of physical or mental injury upon a child by any person;
- (c) Allowing, as a result of inadequate supervision, the affliction or attempted infliction of physical or mental injury upon a child by any person;
- (d) The exploitation or overwork of a child by a parent or any other person; or
- (e) The involvement of the child in any sexual activity constituting a crime under the laws of this state.

**Adult collateral**—An adult family member or a caretaker of a child who is the subject of a child abuse investigation or a witness to the alleged child abuse.

**Audrey Hepburn Care Center (CARE Center)**—A child abuse center that provides pediatric forensic medical evaluations. Its operating hours are 8 am–5 pm, Monday through Friday..

**Child**—A person under 17 years of age who, prior to juvenile proceedings, has not been judicially emancipated or emancipated by marriage (La. Ch.C. art.728; definition changed from 18 to 17 years for purposes of this Chapter).

**CODIS**—Combined DNA Index System.

**Cold case**—Any investigation that is not active and has remained unsolved for over a year from the date of initial report.

**CCMS**—Criminal Case Management System.

**Commercial Sexual Exploitation of Children (CSEC), also known as Domestic Minor Sex Trafficking (DMST)**—To recruit, harbor, transport, provide, sell, purchase, receive, isolate, entice, obtain, or maintain the use of a person under the age of eighteen years for the purpose of engaging in commercial sexual activity. Commercial sex act means any sexual act performed or conducted when any thing of value has been given, promised, or received by any person. Refer to La. R.S. 14:46.3.

**Developmental disability**—A severe chronic disability that can be cognitive or physical or both. Developmental disabilities appear before the age of 22 and are likely to be lifelong. Some developmental disabilities are largely physical issues, such as cerebral palsy or epilepsy. Some individuals may have a condition that includes a physical and intellectual disability, for example Down syndrome or fetal alcohol syndrome. Refer to La. R.S. 28:451.2(12) for the state definition.

**Forensic interview**—A semi-structured interview conducted by a trained forensic interviewer with all protected persons, defined as under age 17 or adults with disabilities, intended to elicit detailed information in a non-leading, non-suggestive, and non-blaming manner about a possible event that the individual may have experienced or witnessed. Refer to La. C.Ch.511

**Multidisciplinary Team (MDT)**—The MDT is responsible for the investigation of all child abuse cases and is comprised of NOPD detectives and supervisors, Orleans Parish Department of Children and Family Services (DCFS) investigators and supervisors, Orleans Parish District Attorney Office Assistant District Attorneys, Orleans Parish Victim Witness advocates, Audrey Hepburn CARE medical providers or staff, NOCAC Forensic Interviewers and staff, and/or other professionals involved in case. Refer to La. C.Ch.508

**Neglect**—The refusal or unreasonable failure of a parent or caretaker to supply the child with necessary food, clothing, shelter, care, treatment, or counseling for any injury, illness or condition of the child. Neglect includes prenatal neglect (See La. Ch.C. art. 502).

**NCAttrak**—A web-based system, maintained by the CARE Center, for entering, organizing, retrieving, aggregating, and protecting information about each child abuse case.

**New Orleans Children's Advocacy Center (NOCAC)**—A program within the Audrey Hepburn CARE Center at Children's Hospital that provides a coordinated, multi-agency approach to the investigation, intervention, and treatment of child sexual and physical abuse. The NOCAC coordinates forensic interviews and multidisciplinary team reviews.

**Protective custody**—Taking a child into custody without a court order based on reasonable grounds to believe that the child's surroundings are such as to endanger the child's welfare and immediate removal appears to be necessary for the child's protection (La. Ch.C. art. 621).

**SAK**—Sexual assault kit.

## **CHILD ABUSE UNIT CASES**

1. Child Abuse Unit detectives shall investigate all child abuse related incidents involving victims under the age of 17 years at the time the incident is reported, including the following signals:
  - (a) 29 (death);
  - (b) 30 (homicide) at the behest of the Criminal Investigations Division Commander;
  - (c) 42 (first-degree rape);
  - (d) 42-B (oral sexual battery);
  - (e) 42-M (first-degree rape, male victim);
  - (f) 42-U (unfounded first-degree rape);
  - (g) 43 (second-degree rape);

- (h) 43-B (sexual battery);
  - (i) 43-M (second degree rape, male victim);
  - (j) 43-MB (misdemeanor sexual battery);
  - (k) 43-U (unfounded second-degree rape);
  - (l) 46-C (Trafficking of Children for Sexual Purposes);
  - (m) 80 (carnal knowledge of a juvenile);
  - (n) 81 (indecent behavior);
  - (o) 81S (sexting);
  - (p) 89 (crime against nature);
  - (q) 92 (contributing to the delinquency of a juvenile);
  - (r) 93 (cruelty to a juvenile);
  - (s) 283 (video voyeurism); and
  - (t) 27 (attempted crime) related to any of the above signals.
2. For purposes of these standard operating guidelines, the phrase “child abuse” refers to all incidents identified in the preceding paragraph.
  3. When directed by a supervisor to handle a case with a victim under 17 years of age at the time of the incident, Sex Crimes detectives shall handle the case in accordance with the **Child Abuse Unit Standard Operating Guidelines**.
  4. Detectives may also follow the **Child Abuse Unit Standard Operating Guidelines** for incidents involving an adult victim or witness with developmental disabilities as defined by La. R.S. 28:451.2 and conduct forensic interviews at the Children's Advocacy Center.
  5. The Sex Crimes Unit shall handle all sex-related incidents with victims 17 years of age and older per the **Sex Crimes Unit Operating Guidelines** unless otherwise directed by a supervisor.

#### **ADDRESSING MEDICAL NEEDS & NOTIFYING AUDREY HEPBURN CARE CENTER**

6. Upon receiving a report of possible child abuse, the detective shall immediately determine the appropriate medical response to the alleged mistreatment based on the level or urgency:
  - (a) **Emergency**: alleged abuse or contact with suspected perpetrator may have occurred within 72 hours of the report or when there are current symptoms, such as stomachaches, headaches, or vomiting, or injuries such as active pain or bleeding;
  - (b) **Urgent**: alleged contact and sexual abuse occurred more than 72 hours but less than two weeks from the report or physical abuse where marks on the skin are present, but no pain, bleeding, or medical symptoms such as stomachaches, headaches, or vomiting are present; or
  - (c) **Non-urgent**: alleged contact or abuse occurred more than two weeks prior to the report, and no identifiable signs or symptoms of abuse are present.
7. In **emergency situations**:
  - (a) During the hours of 8 am – 5 pm from Monday to Saturday, detectives shall immediately contact the CARE Center. Emergency patients shall be seen in the CARE Center for an emergency forensic examination if at all possible.
  - (b) When the CARE Center is not available, detectives shall refer the victim and family to the Children's Hospital Emergency Department. Detectives shall explain

to families that a follow-up appointment will be conducted with the CARE Center within 2 weeks of the initial visit. The CARE Center shall review the emergency department findings and photos during the follow-up forensic evaluation and relay relevant findings to the detectives.

8. In **urgent situations**, the detective shall contact the CARE Center to schedule an appointment with the child no later than the next business day.
9. In **non-urgent situations**, the detective shall refer victims and families to the CARE Center where they will be scheduled for the next available appointment.
10. In all cases, the detective shall explain to victims and their families that the CARE Center examination is child-friendly. Detectives shall also state that no out-of-pocket expenses will be incurred as a result of the CARE Center examination.

### **NOTIFYING THE DEPARTMENT OF CHILDREN AND FAMILY SERVICES**

11. NOPD shall immediately notify the Department of Child and Family Services (DCFS) of any report of child abuse or neglect, including incidents contributing to a child's death, involving a parent, caretaker, a person who maintains an interpersonal dating or engagement relationship with the parent or caretaker, or a person living in the same residence with the parent or caretaker, regardless of the signal or disposition of the investigation by NOPD.
12. Notification to the DCFS should occur as follows (see La. Ch.C. art. 610(B)):
  - (a) The report shall contain the following information, if known:
    - i. The name, address, age, sex and race of the child;
    - ii. The nature, extent, and cause of the child's injuries or endangered condition including any previous known or suspected abuse to the child or the child's siblings;
    - iii. The name and address of the child's parent(s) or other caretaker;
    - iv. The names and ages of all other members of the child's household;
    - v. The name and address of the reporter;
    - vi. An account of how this child came to the reporter's attention;
    - vii. Any explanation of the cause of the child's injury or condition offered by the child, the caretaker, or any other person;
    - viii. The number of times the reporter has filed a report on the child or the child's siblings;
    - ix. Any other information which the reporter believes might be important or relevant;
    - x. The name of the person or persons who are thought to have caused or contributed to the child's condition; and
    - xi. If reported by the child, the name of such person or persons.
  - (b) If the initial report was made orally by a mandatory reporter, it shall be followed by a written report to the local child protection unit of the DCFS either by secure fax or e-mail within five days.
  - (c) Written reports are to be made using the DCFS Written Report Form for Mandated Reporters of Child Abuse/Neglect available electronically under the Resources folder on [nopd.org](http://nopd.org).

13. The assigned Child Abuse Unit detectives shall ensure the mandated notification to DCFS is performed.
14. If DCFS is not cooperating with the NOPD investigation, detectives shall immediately notify their supervisor and remind DCFS that it may not knowingly and willfully obstruct the procedures for receiving and investigating reports of child abuse or neglect (La. R.S. 14:403).

### **COLLABORATING WITH DCFS**

15. When necessary, NOPD shall conduct parallel and collaborative investigations of child abuse and neglect with DCFS. NOPD will notify DCFS if a detective has been assigned and inquire about any DCFS involvement.
16. If a DCFS investigator has been assigned, the NOPD detective will request assistance in conducting a joint investigation.
17. When requested, NOPD shall send a uniformed patrol unit with the DCFS investigator when reports of abuse/neglect are received, even when an NOPD detective has not been assigned to conduct a parallel and collaborative investigation.

### **NOTIFYING THE DISTRICT ATTORNEY'S OFFICE**

18. The District Attorney's Office shall be notified via telephone immediately on all rapes:
  - (a) When a report of rape is made within 24 hours of the occurrence of the event;
  - (b) When the victim and perpetrator have no known prior relationship; or
  - (c) When the safety of the victim or witness may be in jeopardy and relocation of the victim or witness may be necessary.
19. In all cases investigated by Child Abuse, detectives shall forward a Major Offense Report Form (MORF) to the District Attorney's Office within 24 hours of an NOPD item number's issuance. The MORF shall include the names and dates of birth of all children residing in the abusive environment.
20. In all child sexual abuse cases, detectives shall submit a supplemental report to the District Attorney's office within 20 days of receiving the allegation.
21. Detectives shall forward **all** child sexual abuse case files to the District Attorney's office (La. Ch.C. art. 615.1).

### **HOLDING SUSPECTED VICTIMS FOR INTERVIEWS**

22. An NOPD member should not detain a child involuntarily who is suspected of being a victim of child abuse solely for the purpose of a forensic interview or physical exam without the consent of a parent or guardian unless one of the following applies:
  - (a) Exigent circumstances exist, such as:
    - i. A reasonable belief that medical issues of the child need to be addressed immediately;
    - ii. A reasonable belief that the child is or will be in danger of harm if the interview or physical exam is not immediately completed; or

- iii. The alleged offender is the custodial parent or guardian, and there is reason to believe the child may be in continued danger.
- (b) A court order or warrant has been issued.

### PRELIMINARY VICTIM INTERVIEWS

- 23. Detectives shall follow the guidelines under **Scheduling Victim Forensic Interviews** to schedule an interview for the victim.
- 24. Every attempt shall be made to obtain information necessary for a probable cause determination from the adult reporters and collaterals.
- 25. No interviews of child victims shall be conducted on scene absent exigent circumstances. All child interviews shall be conducted by a qualified forensic interviewer at the NOCAC or approved satellite NOCAC locations. In urgent cases under exigent circumstances in which the detective requires specific information to move forward, the detective may obtain permission from a supervisor to attempt to obtain only the specific information required. In such cases, detectives shall be supportive and should consider utilizing the following questions and statements:
  - (a) "I know this is hard, but right now I need a little bit of information."
  - (b) "Tell me about where this happened" to establish **jurisdiction**.
  - (c) "Tell me about who did this" to **identify the suspect**.
  - (d) "You are so brave to have told someone. That takes courage."
  - (e) "What happened is not your fault. I am sorry that this happened to you."
  - (f) "Your (protective caregiver) called us to make sure that you are safe."
  - (g) "Your (protective caregiver) called (other supportive adult) to help keep you safe too."
  - (h) "Your (protective caregiver) is not going to let (the perpetrator) come around you right now to make sure that you stay safe."
  - (i) "You will need to talk to someone at the Children's Advocacy Center about what happened. The people there are very nice, and it is their job to listen to you."
- 26. All exigent circumstances that warrant the immediate interview of a child shall be documented in a supplemental report. The interview shall be documented in detail in the supplemental report, and the interview shall be recorded whenever feasible. This documentation shall be provided to the multidisciplinary team.

### IDENTIFY AND LOCATE WITNESSES AND SUSPECTS

- 27. Detectives should identify and interview any potential witnesses, bearing in mind that multiple crime scenes may exist. It is especially important that the detective identify and interview the first person the victim told about the abuse.

### WITNESS INTERVIEWS

- 28. Detectives should interview any person who might have seen or spoken with the victim about the reported incident.
- 29. Child witnesses shall receive a forensic interview in the same manner as child victims. Absent exigent circumstances, detectives shall not interview child witnesses. See

**Scheduling Victim Forensic Interviews** for more information.

## **SUSPECT INTERVIEWS**

30. Suspects should be interviewed only by the detective but can be detained by the responding officer.

## **EVIDENCE COLLECTION**

31. Detectives should ensure that all evidence is collected, including but not limited to:
  - (a) Clothing worn at the time of the abuse and immediately afterward, especially the clothing worn closest to the genitals (such as undergarments, pants, and shorts) if the incident may be sexual in nature. The detective should place the clothes in separate paper bags to prevent cross-contamination and follow procedures regarding chain of custody for evidence;
  - (b) Bed sheets and condoms;
  - (c) Drawings, writings, tape recordings, or e-mails made by the victim regarding the allegation;
  - (d) Photographs of the crime scene prior to processing if necessary; and
  - (e) Evidence collected by medical professionals.
32. In addition, in cases of sexual exploitation, other potential evidence can include:
  - (a) Hotel worker statements and hotel records;
  - (b) Photographs of the victim, scene, and locations where the child was seen;
  - (c) Cell phones and other electronic devices from the victim and accused and relevant records contained within;
  - (d) Anything bought by the accused for the victim;
  - (e) Online advertisements;
  - (f) Social media posts and personal messages; and
  - (g) Photographs of the suspect's tattoos.
33. Detectives should protect the integrity of evidence and request the assistance or direction of the Scientific Criminal Investigations Section (SCIS – Crime Lab) regarding the collection or preservation of evidence. Detectives should secure the crime scene to ensure that evidence is not lost, changed, or contaminated. In addition, detectives should follow these guidelines:
  - (a) Use gloves whenever handling evidence and change gloves after every contact to prevent cross-contamination.
  - (b) Evidence should be handled by as few people as possible.
  - (c) In cases when a sexual assault has occurred within the past 72 hours, the detective should encourage the victim not to change clothing, smoke, eat, drink, shower, urinate, or defecate by explaining that those activities could destroy evidence.
  - (d) Detectives should carry receptacles for urine samples to be used when necessary.
  - (e) If a drug-facilitated sexual assault is suspected, preserve drinks to allow the crime lab to test for the presence of drugs.
34. The detective should encourage the custodian of the child victim to contact the detective or the NOCAC to take photos of injuries if they change over time. It is preferable for the NOCAC to take the photos.

35. Supervisory approval is required before taking photographs of genitals or breasts.

### **ALCOHOL/DRUG-FACILITATED SEXUAL ASSAULT CONSIDERATIONS**

36. Whether ingested voluntarily or without the knowledge of the victim, if a drug-facilitated sexual assault is suspected, special attention should be given to collecting perishable evidence of drug and/or alcohol use by suspects or victims as soon as practical (i.e. urine samples or BAC readings) and alcohol use by witnesses (i.e. BAC readings) whenever possible.
37. Signs of drug-facilitated sexual assault include:
  - (a) The victim reports being under the influence of a drug during the sexual assault;
  - (b) The victim experiences vaginal soreness or other signs of sexual activities and cannot remember the entire incident;
  - (c) The victim reports becoming heavily intoxicated very rapidly; and/or
  - (d) The victim reports symptoms of amnesia.

### **PROTOCOL FOR SUSPECT EXAMINATION**

38. This protocol is an exception to the body cavity searches section of **Chapter 1.2.4 – Search and Seizure**. If the suspect is a juvenile, detectives shall ensure that a responsible adult who represents the interests of the juvenile suspect and is the same gender as the suspect is present for the examination.
39. Immediately after the preliminary suspect interview, the detective should determine whether a forensic sexual assault examination of the suspect should be conducted. Factors to consider in that decision include:
  - (a) The length of time since the assault occurred;
  - (b) The nature of the assault;
  - (c) Whether the victim believes he or she injured/marked the suspect;
  - (d) The likelihood that cells, fluid, or other types of biological or trace evidence were transferred from the victim to the suspect; and
  - (e) Unusual or highly distinctive physical characteristics of the suspect's body that are normally not visible due to clothing.
40. Detectives must obtain a search warrant prior to conducting the exam. Detectives should keep in mind that the items or evidence explicitly identified on the search warrant are the only items or samples that can be obtained during the suspect's examination, including photographs of the suspect's body. The detective should clearly articulate the type and number of samples needed that can be supported by the description of probable cause alleged in the search warrant application.
41. Only detectives trained in conducting sensitive suspect examinations may conduct these suspect examinations. Detectives shall conduct the exam with a supervisor present in a private room that cannot be viewed from the outside. The detective and supervisor present shall be of the same gender of the suspect (Refer to **Chapter 41.14 – Discriminatory and Bias-Based Policing, LGBT Community** for searches of transgender individuals). The detective shall first explain what will be taking place, advise the suspect that the exam is pursuant to a signed search warrant, and offer the suspect the opportunity to cooperate and voluntarily swab the necessary areas of the

body. If the suspect refuses, the detective shall consult with the supervisor present as to the method to be used, the number of additional detectives or officers required, and the amount of force to be used to execute the actions that are necessary and reasonable to recover the evidence.

42. If detectives collect clothing or footwear as evidence, they will provide the suspect with replacement clothing or footwear. All evidence collection procedures to prevent cross-contamination or spoilage of evidence shall be followed. Each recovered item shall be packaged and tagged immediately.
43. While executing the search warrant and conducting the forensic sexual assault exam, the detective shall document all evidence and take photographs as necessary.
44. The detective shall document any spontaneous statements made by the suspect during the exam.
45. It is critically important to note that the victim's and suspect's examinations must take place in **different locations**. It is important that every effort be made to avoid cross-contamination of evidence from the victim and suspect.

#### **STORING EVIDENCE**

46. The sexual assault kit (SAK) should not be accepted from the medical staff until it has been properly sealed and labeled. The detective should transport the kit directly to Central Evidence and Property, and it should be stored according to the Louisiana State Crime Lab's recommended practices.
47. The Investigation and Support Bureau (ISB) shall track evidence that has been submitted to the Louisiana State Police for testing.
48. The decision not to submit evidence for testing shall be documented in a supplemental report.

#### **PROTECTIVE CUSTODY**

49. When officers consult a Child Abuse Unit detective concerning protective custody in a child abuse related case, the detective may:
  - (a) Take a child into temporary protective custody without a court order if there are reasonable grounds to believe that the child's surroundings endanger his/her welfare and immediate removal appears necessary (La. Ch.C. art. 621).
    - i. Prior to taking a child into temporary protective custody, the detective should take reasonable steps to deliver the child to another qualified parent or legal guardian unless it reasonably appears that the release would endanger the minor or result in abduction. In such circumstances, the detective should advise the qualified parent or legal guardian that he/she may petition the court for either a temporary restraining order or a protective order (La. Ch.C. arts. 617-618). If this is not a reasonable option, the detective shall promptly notify and release the child to the DCFS.

- (b) File a complaint with the court alleging that there are reasonable grounds to believe that the child is in need of care and that emergency removal is necessary to secure the child's protection (La. Ch.C. art. 619(A)).
  - i. If the detective believes the danger is imminent, he/she shall relay the facts supporting the issuance of the order orally or by telephone to the judge and submit an affidavit of the information to the court within 24 hours (La. Ch.C. art. 620).
- 50. If the detective determines protective custody is warranted, the detective shall contact DCFS, and NOPD shall provide the best provisions for transport of the child to the NOCAC (available 8 AM - 5 PM, Monday through Saturday) or, when NOCAC is unavailable, an alternative location identified by DCFS. When possible, NOPD shall contact DCFS to remove a child from his/her family, guardian, or other responsible adult.
- 51. The detective must complete a face sheet in the EPR system with the Signal 78 - Protective Custody unless the platoon officer has done so already.

#### **DRUG-ENDANGERED CHILDREN**

- 52. Detectives shall notify a Child Abuse supervisor when they discover children exposed to the manufacturing, trafficking, or use of narcotics.
- 53. The Child Abuse supervisor shall work with the appropriate agencies, including the Louisiana Department of Children and Family Services (DCFS), other law enforcement agencies, medical service providers, and local prosecutors, to determine the appropriate response.

#### **CASES INVOLVING CHILD FATALITIES**

- 54. The Child Abuse Unit shall handle all child death cases unless otherwise directed by the Criminal Investigations Division Commander.
- 55. The Child Abuse Unit shall notify NOCAC to schedule case review with the multidisciplinary team (MDT).
- 56. If the designated lead investigator has determined the circumstances surrounding the child's death are suspicious of abuse and/or neglect, the lead investigator will report his or her determination to DCFS.
- 57. The Child Abuse Unit shall cooperate with any investigations by the Louisiana State Child Death Review Panel (R.S. 40:2019(D)).

#### **CASES INVOLVING COMMERCIAL SEXUAL EXPLOITATION OF CHILDREN**

- 58. Detectives shall notify a Child Abuse supervisor when they discover children who are being sexually exploited.
- 59. Indicators of sexual exploitation may include:

- (a) Child has run away from home;
  - (b) Inappropriate dress, including overtly sexual clothing or oversized clothing;
  - (c) Child has unexplained bruises or injuries;
  - (d) Child is in possession of large amounts of money, more than one cell phone, or hotel keys;
  - (e) Child has a boyfriend, girlfriend, or friend more than 5 years older than the child;
  - (f) The child is not enrolled in school or is missing large amounts of school;
  - (g) The child has fake identification or someone else is in control of their documentation
  - (h) The child was arrested or spotted in an area known for prostitution, such as an adult entertainment venue, strip club, massage parlor, adult video shop, and/ or hotel.
58. The Child Abuse detective and supervisor shall work with the appropriate agencies, including the Louisiana Department of Children and Family Services (DCFS) and, as appropriate, other law enforcement agencies, medical service providers, and local prosecutors to determine the appropriate response.
59. In accordance with La. R.S. 14:46.3, no victim of trafficking shall be prosecuted for unlawful acts committed as a direct result of being trafficked. Consent of a minor is not a defense and shall not be relevant to the investigation. No victim of trafficking shall be arrested, investigated, or referenced in terms of La. R.S. 14:82 Prostitution.

#### **SCHEDULING VICTIM FORENSIC INTERVIEWS**

60. The detective or his/her designee shall contact the NOCAC during NOCAC operating hours to schedule a forensic interview for the involved children. If outside NOCAC operating hours, the detective or his/her designee shall contact the NOCAC within the next business day's operating hours to schedule a forensic interview.
61. When the offender has been instructed to have no contact with the involved children, detectives shall instruct caregivers to not bring the offender for appointments at the NOCAC.
62. NOPD will notify NOCAC and the CARE staff if any juvenile attending an appointment has been identified as possibly acting inappropriately in response to exposure to sexual abuse. The NOCAC and CARE team can take necessary precautions to provide a private contained space or close supervision.
63. NOPD shall notify the NOCAC of cases involving potential limited English language proficiency, disabilities, or special needs.
64. In exceptional cases, and with the approval of a supervisor, the detective may contact the list of NOCAC forensic interviewers to determine possible availability to conduct an after-hours emergency forensic interview. Detectives shall consider the child's ability to stay alert when requesting an after-hours interview. Forensic interviews yield better outcomes if conducted during a child's usual awake moments and after the initial crisis and shock has been addressed.
65. After the initial forensic interview, the involved members of the MDT may elect to conduct extended forensic interviews.

## RESPONDING TO DELAYED REPORTS

66. In cases of delayed reporting (more than 24 hours since the incident), the detective shall contact the reporting individual immediately and coordinate a forensic interview with the NOCAC on the next business day.

## MONITORING VICTIM FORENSIC INTERVIEWS

67. The detective should arrive prior to the scheduled forensic interview to assist with welcoming the family and obtaining intake information and consents.
68. The detective shall monitor the forensic interview with DCFS and will be given opportunities to have investigative questions addressed through the forensic interviewer.
69. With approval of a supervisor, the detective can arrange for the forensic interview to be monitored by a member who is a licensed or credentialed physician, social worker, psychologist, medical psychologist, professional counselor, or a representative of Department of Social Services in accordance with La R.S. 15:440.4.
70. The detective shall sign the NOCAC's forensic interview DVD release form. NOPD is entitled to receive three DVDs of the interviews in cases under investigation. NOPD shall forward one of these DVDs along with its report to the Orleans Parish District Attorney's Office if the case involves a possible sex crime. A copy of the DVD shall be placed in evidence.

## DOCUMENTATION

71. Detectives shall submit an incident report in EPR which protects the confidentiality of the victim per **Chapter 42.19 – Child Abuse**.
72. The detective should include in the case file the Major Crime Scene Officer Statements completed by other responding officers.
73. Detectives shall provide an overview of the investigation in the gist section of CCMS to produce the Major Offense Reporting Form.
74. Detectives shall document the investigation of reported child abuse by completing a supplemental report. Supplemental reports are not required for child abuse items marked gone on arrival or void. If SVS is eventually able to contact the complainant of a gone on arrival call, the investigating detective shall initiate a new item number and follow all provisions of these standard operating guidelines.
75. Supplemental reports shall include all information obtained during the investigation, including all contacts with the victim and caregivers.
76. Detectives shall document every contact with the victim and caregivers in the work log section of CCMS.
77. Detectives should use the victim's own words in written reports and utilize quotation marks for exact quotations.

## CASE FILE

78. Detectives shall use the SVS Investigative Case File Index, located in the resources folder on nopd.org, to assist in conducting and documenting a complete investigation.
79. **The entirety of the case file** in all cases investigated by the Child Abuse Unit shall be submitted to the District Attorney's Office within 20 calendar days of the arrest of the perpetrator. In all child sexual abuse cases, detectives shall submit the case file to the District Attorney's Office within 20 days of receiving the allegation of sexual abuse. The case file shall include:
- (a) Incident recall and 911 audio recording;
  - (b) Incident report (EPR);
  - (c) Major Crime Scene Officer Statements;
  - (d) All related supplemental police reports;
  - (e) All photographs related to the case;
  - (f) Medical and/or SANE reports;
  - (g) EMS run sheets;
  - (h) All victim and witness interviews (video, audio, or transcribed);
  - (i) Suspect statements (video, audio, or transcribed);
  - (j) All surveillance video;
  - (k) All body worn camera video applicable to the case;
  - (l) All related crime scene tech reports;
  - (m) All crime lab submittal forms;
  - (n) All crime lab reports;
  - (o) Central Evidence and Property receipts;
  - (p) All search warrants, including application, order, and return;
  - (q) Arrest warrants applicable to the case;
  - (r) All electronic evidence;
  - (s) All composite sketches applicable to the case; and
  - (t) All Crimestoppers tips applicable to the case.

Any of the above items that are unavailable or inapplicable shall be specifically noted as such on the Investigative Case File Index.

80. Supplemental reports shall detail any pending investigation. Once the pending investigation has been completed, an additional supplemental report shall be submitted indicating that fact.

## CASE SIGNAL

81. Detectives shall document in a supplemental report any decision to classify a reported sexual assault as a Signal 21 (miscellaneous complaint). A Child Abuse Unit supervisor and the Criminal Investigations Division (CID) Commander must approve this decision in writing.
82. To change the signal from a child abuse signal to any other signal, the detective must:
- (a) Mark up the original signal as Unfounded unless the original signal is a 42 or 43 in which case the detective shall change the original signal to 42-U or 43-U (unfounded).
  - (b) Generate a new item number with the new, non-child abuse signal;

- (c) Receive written confirmation for the signal change from a Child Abuse Unit supervisor and the Special Victims Section Commander.
- (d) A copy of the written confirmation shall be maintained in the case file.

## **CASE STATUS**

83. Detectives should utilize the following case statuses:
- (a) Open
  - (b) Cleared by arrest
  - (c) Cleared by warrant
  - (d) Cleared by exception: No formal charges are issued due to elements beyond law enforcement control (i.e. death of offender, prosecutor declines to take the case after an offender has been identified, offender is arrested but will be prosecuted in a different jurisdiction). For the case to be cleared by exception, NOPD must have:
    - i. Identified the offender;
    - ii. Gathered enough evidence to support an arrest on a sexual assault charge and turned over the offender to the court for prosecution;
    - iii. Identified the offender's location so that the suspect could be taken into custody; and
    - iv. Encountered a circumstance outside the control of law enforcement that prohibits the agency from arresting, charging, and prosecuting the offender.
  - (e) Unfounded: False or baseless complaint.
    - i. Unfounded, false: Evidence obtained through an investigation shows that a crime was not committed or attempted.
    - ii. Unfounded, baseless: A case does not possess all necessary elements of the crime or was improperly classified as child abuse.
84. Detectives must file a supplemental report for all unfounded cases to explain the disposition decision.
85. A Child Abuse Unit supervisor and the Special Victims Section Commander shall review and approve in writing on the Investigative Case File Index any decision to classify a case as "unfounded."
86. A Child Abuse Unit supervisor and the Special Victims Section Commander shall review and approve in writing on the Investigative Case File Checklist all dispositions of cleared by exception.

## **CODIS HITS**

87. In all cases wherein a Combined DNA Index System (CODIS) Match Notification is received regarding a sex crime, the Child Abuse Unit shall:
- (a) Attempt to locate and conduct interviews with all relevant victims and witnesses in accordance with the interview procedures outlined herein;
  - (b) Apply for a search warrant for the buccal swab of the suspect; and
  - (c) Submit the case file including the receipt of any DNA confirmation to the District Attorney's Office.
88. The Child Abuse Unit shall track all CODIS hits in the CODIS Hit Outcome Program

(CHOPs).

## **COLD CASE**

89. A cold case is any investigation that is not active and has remained unsolved for over a year since the date of report. Cold cases shall be handled by a cold case detective unless the SVS Commander decides that the original detective or another detective should handle the case. Before deeming the investigation a cold case, the original detective shall conduct a Case Summary Meeting.
90. When new developments prompt a re-examination of a cold case, a Child Abuse Unit supervisor shall determine if the investigation shall remain with the cold case detective or be reassigned to the original detective. If the original detective is no longer with Child Abuse or otherwise unavailable, the Child Abuse supervisor shall determine if the investigation shall remain with the cold case detective or be reassigned to a new detective.

## **CASE SUMMARY MEETINGS**

When a detective has exhausted all available leads and still does not have sufficient information to establish probable cause, the detective shall conduct a case summary meeting with a representative of the victim. At the case summary meeting, the detective shall:

- (a) Meet in person with the representative if possible;
- (b) Summarize the investigation;
- (c) Provide the contact information of the cold case detective to the representative as the new primary contact;
- (d) Document the representative's contact preferences and information on the Victim Contact Form (Form # 347), noting that the individual is a representative of the victim, and store this form in the case file; and
- (e) Document the occurrence of the case summary meeting in the work log section of CCMS.

## **CONTACTING COLD CASE VICTIMS**

91. Detectives shall consult with the multidisciplinary team (MDT) before contacting any cold case victims.
92. The detective shall contact the victim of a cold case only if he/she is now 17 years of age or older. If the victim is under the age of 17, the detective shall contact an adult representative of the victim.
93. If the status of a cold case changes, the detective shall contact the victim or the victim's representative in person or over the phone in a timely manner unless the victim or victim's representative previously requested not to be contacted further about the investigation or contacting the victim or victim's representative could harm the investigation. All attempts and contacts shall be documented in the work log section of CCMS.

## **CONTACTING COLD CASE VICTIMS THROUGH SOCIAL MEDIA**

94. Detectives shall not disclose confidential information or the nature of the investigation through social media. Detectives shall not indicate that they work on special victims cases in public social media messages.
95. If a victim or the victim's representative cannot be reached over the phone or in person, the detective may contact the victim or the victim's representative through a private social media message sent from an NOPD social media account. A detective shall not contact a victim or a victim's representative via a non-NOPD social media or e-mail account.
96. When contacting the victim or the victim's representative through social media, a detective should:
  - (a) Introduce himself/herself.
  - (b) Inform the victim or the victim's representative that this contact is not an emergency.
  - (c) Explain why the contact is being made without compromising the confidentiality of the case.
  - (d) Request an alternative, secure way to contact the victim or victim's representative in the future.

## **FALSE REPORTS**

97. In the event that the detective has found evidence establishing probable cause that a false report of a crime has been made, the SVS Commander and the CID Commander shall determine whether an arrest should be made after consultation with the MDT and District Attorney's Office.

## **CHILD ABUSE SUPERVISORS**

98. Child Abuse supervisors shall:
  - (a) Set clear expectations for the treatment of victims;
  - (b) Respond to the scene to assist detectives on all felony child abuse investigations;
  - (c) Review investigative reports and case dispositions;
  - (d) Ensure thorough, timely investigations and document supervision on the SVS Investigative Case File Index;
  - (e) Review and approve all dispositions of "cleared by exception";
  - (f) Review and approve all dispositions of "unfounded" with the SVS Commander;
  - (g) Ensure detectives follow up on all CODIS hits;
  - (h) Build relationships and enhance cooperation with victim advocates and forensic examination programs to respond to and reduce the risk of child abuse;
  - (i) Seek and create opportunities for ongoing training to improve the skills needed to properly respond to and investigate child abuse;
  - (j) Incorporate interactions with partner agencies into member performance evaluations; and
  - (k) Recognize officers for rendering effective services.

## **CASE ASSIGNMENT**

99. Child Abuse supervisors shall promptly review reports of child abuse and assign cases to detectives. Cases with the following factors will receive the highest priority in case assignment:
- (a) An imminent time deadline before which the suspect must be charged or released (701 release);
  - (b) Significant injury or impairment of the victim;
  - (c) A weapon is involved;
  - (d) Allegations of witness tampering, strangulation, or stalking behavior; and/or
  - (e) A victim expresses a fear or risk of imminent bodily harm by the perpetrator.

## **SVS COMMANDER**

100. The SVS Commander and the CID Commander must both sign to indicate their review and approval on the SVS Investigative Case File Index for any case with an unfounded or closed by exception disposition.
101. This review shall emphasize proper investigation and documentation to accurately charge a case. In addition to the responsibility of supervising Child Abuse detectives, the SVS Commander shall assist platoon supervisors in maintaining the quality of platoon officer reports and help promote and maintain connections between the Department and responsible agencies.
102. The SVS Commander should demonstrate a detailed understanding of victim issues and proper response by detectives and responding officers.
103. The SVS Commander, in conjunction with a supervisor in the Child Abuse Unit, shall closely review and approve in writing on the Investigative Case File Index any decision to classify a report as "unfounded."
104. The SVS Commander shall provide the Deputy Chief of ISB and the Superintendent of Police with a summary report of all "unfounded" cases on a semi-annual basis.

## **DETECTIVE OVERSIGHT**

105. The SVS Commander shall:
- (a) Ensure and document that every Child Abuse detective is familiar with the Department's policies, Child Abuse Unit Standard Operating Guidelines and monitor compliance with policies, including the Sex Crimes Unit Standard Operating Guidelines;
  - (b) Respond to the scene when required or requested;
  - (c) Monitor investigative files to determine if all necessary actions were taken in the investigation and direct any necessary follow-up;
  - (d) Ensure thorough, timely investigations and document supervision on the SVS Investigative Case File Index;
  - (e) Return incomplete investigation files to the detective with specific instructions on actions to take; and
  - (f) Provide consultation on cases as needed and monitor investigations to determine if additional training may be necessary. If additional training is warranted, the SVS Commander shall direct the detective to appropriate training and monitor

the detectives' investigations to determine the effectiveness of their training.

#### TRAINING & POLICY MAINTENANCE

106. The SVS Commander shall review **Chapter 42.19 – Child Abuse** and the **Child Abuse Unit Standard Operating Guidelines** with newly assigned members within 30 days of their assignment and prior to their handling of any cases.
107. The SVS Commander shall provide Child Abuse detectives with training in accordance with the **Training** section of these guidelines.
108. The SVS Commander shall review **Chapter 42.19 – Child Abuse** and the **Child Abuse Unit Standard Operating Guidelines** annually and notify Policy Standards Section of the need to update the regulations with changes in policy, law, and best practices.

#### **CID COMMANDER**

109. The SVS Commander and the CID Commander must both sign to indicate their review and approval on the SVS Investigative Case File Index for any case with an unfounded or closed by exception disposition.
110. The CID Commander, in conjunction with a Child Abuse Unit supervisor, **must approve in writing** any decision by a detective to classify a reported sexual assault as a Signal 21 (miscellaneous complaint).
111. The CID Commander, with the SVS Commander, the MDT, and District Attorney's Office, will determine whether filing a false police report should result in an arrest.

#### **CASE TRACKING**

112. Child Abuse Unit supervisors shall utilize a case-tracking database to ensure thorough and timely investigations.
113. This system shall separately track all reports of child abuse, including drug-facilitated sexual assault, sexual assaults involving persons with disabilities, sodomy, and male victims of sexual assault.
114. This system shall also track the final disposition of child abuse investigations, including whether an arrest was made and whether the DA charged the suspect or rejected the case and, if so, the reason for the rejection if the DA provides a reason.
115. An ISB member not assigned to SVS, and appointed by the Deputy Chief of ISB, shall perform a quarterly review of every case to ensure the accuracy of the information in the tracking system.
116. The Compliance Bureau shall monitor and audit the tracking system as necessary.
117. SVS must appoint a person(s) to enter and access information using the NCAtrak system. These details include the type of abuse investigated, relationship of the alleged offender to the child victim and alleged offender's demographics, charges filed and case dispositions, as well as any other relevant information regarding NOPD's contact with

the investigation.

### **MULTIDISCIPLINARY TEAM CASE REVIEW**

118. The Child Abuse Unit shall participate in multidisciplinary teams for the investigation of child abuse or neglect cases in order to coordinate efforts and make informed case decisions.
119. NOPD shall bring all relevant reports and information to team reviews. NOPD shall be prepared to discuss, plan, and monitor the progress of the investigation, discuss child protection and other safety issues, and discuss issues relevant to the case.
120. NOPD shall review all child sexual assault cases marked unfounded or miscellaneous with the MDT.

### **STAFFING**

121. When possible, NOPD should staff Child Abuse with sufficient detectives to limit the workload to 26 cases per detective per year.
122. NOPD should refrain from assigning Child Abuse detectives to special events when possible.
123. Whenever the Department cannot provide adequate staffing, Sex Crimes detectives shall assist in investigations involving victims over the age of twelve when ordered by a Special Victims Section supervisor.

### **TRAINING**

124. All Child Abuse detectives shall receive a minimum of three hours of training from the NOCAC before handling a case.
125. All Child Abuse detectives shall receive 32 hours of initial training as soon as possible, including at least eight hours of training from the NOCAC. Training topics shall include:
  - a) Realistic dynamics of child abuse, including issues related to response to trauma and delayed reporting;
  - b) Overcoming the perception of false/unfounded allegations to successfully investigate non-stranger child abuse;
  - c) Drug and alcohol facilitated sexual assault;
  - d) Skills-based training on interviewing;
  - e) Child abuse report writing;
  - f) Discovery, collection, preservation, and submission of evidence;
  - g) Addressing concerns of non-offending parents; and
  - h) Other topics.
126. All Child Abuse detectives shall receive 8 hours of in-service training from the NOCAC annually.

# DOMESTIC VIOLENCE UNIT

## STANDARD OPERATING GUIDELINES

### I. PURPOSE AND SCOPE

The purpose of this policy is to provide the guidelines necessary to deter, prevent and reduce domestic violence through vigorous enforcement of this serious crime.

The Domestic Violence Unit Policy shall apply to the respective duties of Domestic Violence Unit detectives and supervisors in conducting follow-up investigations and Department oversight of cases that involve intimate partners, family or household members. Domestic Violence Unit staff and supervisors shall access the Department's domestic violence policies and procedures for Communications Services, platoon officers and supervisors and the Training Academy in the online resource folder.

### A. FOUNDATIONAL PRINCIPLES

The collaboration of criminal justice agencies within New Orleans to develop a coordinated criminal justice response to domestic violence is the City's *Blueprint for Safety*. The New Orleans Police Department, along with the city's other *Blueprint for Safety* agencies, is committed to a set of shared foundational principles that maximize safety for victims of domestic violence and holds offenders accountable while offering them opportunities to change.

NOPD shall ensure supervisors participate in ongoing interagency *Blueprint* monitoring, evaluation and maintenance.

### B. DEFINITIONS

Definitions related to this policy include:

**Battering** – An ongoing pattern of coercion, intimidation, and emotional abuse, reinforced by the use and threat of physical or sexual violence. Battering can include a range of tactics including:

- **Cyberstalking** (La. R.S. 14:40.3)
- **Bodily injury or threat of bodily injury**, including, but not limited to domestic abuse aggravated assault (La. R.S. 14:37.7) and domestic abuse battery (La. R.S. 14:35.3).
- **Harassing telephone calls** (La. R.S. 14:285)
- **Sexual abuse or assault**
- **Property crime directed against the victim** (La. R.S. 14:56)
- **Stalking** (La. R.S. 14:40.2 (A))
- **Strangulation** (La. R.S. 14:35 B. (3))
- **Violation of a court order of protection or similar injunction** (La. R.S. 14:79)
- **Death threats or death (including a third party)**

**Community stakeholder** – Entities in the community that have joined together to foster effective intervention in and prevention of domestic violence. Community stakeholders can include but are not limited to, *Blueprint for Safety* partners, the Domestic Violence Advisory Committee (DVAC), the New Orleans Family Justice Center, law enforcement agencies, prosecutors, parole and probation officers, advocacy organizations, social service agencies,

adult and child protective services, clergy, educators, government agencies, animal welfare organizations, businesses and employers.

**Court order** – All forms of court orders related to domestic violence, both civil and criminal, whether issued by a court of this state or another and regardless of whether service has been made.

**Cyberstalking** – The action of any person to accomplish any of the following (R.S. 14:40.3):

- Use in electronic mail or electronic communication of any words or language threatening to inflict bodily harm to any person or to a person's family member or physical injury to the property of any person, or for the purpose of extorting money or other things of value from any person.
- Electronically mail or electronically communicate to another repeatedly, whether or not conversation ensues, for the purpose of threatening, terrifying or harassing any person.

**Domestic abuse aggravated assault** – An assault with a dangerous weapon committed by one household member upon another household member (R.S. 14:37.7).

**Domestic abuse battery** – The intentional use of force or violence committed by one household member upon another household member (R.S. 14:35.3).

**Domestic violence** – Used to refer to battering between intimate partners, family or household members. Intimate partner, family and household relationships include (R.S. 46:2132, R.S. 46:2151, OPC 54-525):

1. Adults or minors who are current or former spouses;
2. Adults or minors who live together or who have lived together;
3. Adults or minors who are dating or who have dated;
4. Adults or minors who are engaged in or who have engaged in any type of consensual sex act;
5. Adults or minors who are related by blood or adoption (i.e. parents, children, foster parents, foster children, siblings);
6. Adults or minors who are related or formerly related by marriage (i.e. stepparents, stepchildren);
7. Persons who have a child in common or whose relationship resulted in a current pregnancy; or
8. Minor children resulting from the offender having any of the relationships listed in sections (1) through (6) of this definition.

**Electronic communication** – The transfer of signs, signals, writing, images, sounds, data or intelligence of any nature, transmitted in whole or in part by wire, radio, computer, electromagnetic, photoelectronic or photo-optical system.

**Electronic mail** – the transmission of information or communication by the use of the Internet, a computer, a facsimile machine, a pager, a cellular telephone, a video recorder, or other electronic means sent to a person that is identified by a unique address or address number and received by that person (R.S. 14:40.3 (A)).

**Full faith and credit** – The requirement by the U.S. Code title 18 section 2265 that jurisdictions honor the terms and conditions of a protective order issued by another jurisdiction.

**Harassing telephone calls** – The use of a telephone call, conversation or conference with another person, anonymously or otherwise, and therein use obscene, profane, vulgar, lewd, lascivious or indecent language; making any suggestion or proposal of an obscene nature; threatening any illegal or immoral act with the intent to coerce, intimidate or harass another person; making repeated telephone communications anonymously or otherwise in a manner that is reasonably expected to annoy, abuse, torment, harass, embarrass or offend another, person, whether or not conversation ensues (R.S. 14:285).

**Household member** – A household member is (R.S. 14:35.3(B)(3)):

- A person of the opposite sex who is presently living with the offender “as a spouse” (whether married or not).
- A person of the opposite sex who lived with the offender “as a spouse” (whether married or not) within the past five years.
- A child who presently lives with the offender, or has lived with the offender during the previous five years
- Any child of the offender, regardless of where the child resides.

This definition relates specifically to charges of domestic abuse battery and domestic abuse aggravated assault. See the Domestic Violence definition for other relationships covered by this policy and procedure.

**Petitioner** – The person alleging abuse in a petition for an order of protection.

**Predominant aggressor** – The person who poses the most serious ongoing threat. *Note:* An injury resulting from a person acting in self-defense is neither abuse nor a crime.

**Proarrest response** – The expectation that officers shall arrest a person for committing domestic violence, unless there is a clear and compelling reason not to arrest (such as a lack of probable cause).

**Protective order** – *Any civil or criminal restraining order, injunction, bail or release order, probation condition and all other orders for protection issued to protect victims of domestic violence, sexual assault, dating violence or stalking or to deter offenders from further violence or abuse [ . . .including] protections contained in support, child custody, and visitation orders and protective directives in other court orders. 18 U.S.C. § 2266(5). Emergency, ex parte, temporary, and final orders are subject to full faith and credit under VAWA.*

**Public figure** – An elected official, sports figure, television or radio personality, celebrity, or other well-known person.

**Respondent** – The person alleged in a petition for a protective order to have abused another.

**Self-Defense** – The use of force or violence in defense. If force has been legally used in self-defense, there is an absolution of guilt or culpability. Officers shall apply laws regarding self-defense (La. R.S.14:19).

**Stalking** – The intentional and repeated following or harassing of another person that would cause a reasonable person to feel alarmed or to suffer emotional distress.

Stalking shall include but not be limited to (R.S. 14:40.2 (A)) the intentional and repeated uninvited presence of the perpetrator at a person's home, workplace, school or any place that would cause a reasonable person to be alarmed or to suffer emotional distress as a result of verbal or behaviorally implied threats of:

- Death
- Bodily injury.
- Sexual assault.
- Kidnapping.
- Any other statutorily criminal act to him/herself or any member of his/her family or any person with whom he/she is acquainted.

**Strangulation** – Intentionally impeding the normal breathing or circulation of the blood by applying pressure on the throat or neck or by blocking the nose or mouth of the victim (R.S. 14:35 B. (3)).

**Violation of Protection Order** – Violation of a protective order is the willful disobedience of a preliminary or permanent injunction issued after a contradictory court hearing, or any ex parte protective order if the defendant has been given notice of the order through a contradictory hearing or service of process. (La. R.S. 14:79)

## **C. PREVENTION THROUGH COLLABORATION**

The NOPD shall maintain ongoing partnerships with community stakeholders in general and victim advocacy organizations in particular to develop domestic violence curricula and train officers to enhance their abilities. The department shall provide local community stakeholders with copies of all domestic violence curricula, procedures and policies for review and feedback.

### **II. DETECTIVE POLICY**

Detectives build upon the initial information on risk and danger and evidence collected by platoon officers. The subsequent investigation can be a critical factor in determining whether a prosecutor can take action in ways that minimize the victim's direct participation in the prosecution and need to confront the offender. Evidence developed by the detective can make it possible to pursue charges related to witness tampering and to actions of violence that are associated with increased risk and lethality, such as stalking, strangulation and sexual coercion and aggression.

#### **A. DISTRICT DETECTIVE PROCEDURE**

In addition to adhering to general department policy, district level detectives conducting a supplemental investigation in a domestic violence related case shall follow the Domestic Violence Unit Detective policy and procedures.

#### **B. INVESTIGATOR PROCEDURE**

In addition to adhering to general department policy, any officer conducting a supplemental investigation in a domestic violence related case shall follow the Domestic Violence Unit Detective policy and procedures.

#### **C. DOMESTIC VIOLENCE DYNAMICS**

All NOPD officers shall work in collaboration with victims, cognizant of the principles of "continuing engagement." Officers shall be aware that a single incident of domestic violence is usually part of a patterned use of coercion, intimidation and the use or threat of violence –

namely battering. As such, the relationship is characterized by a “continuing” set of actions committed over time and in countless situations. Officers shall respond to domestic violence incidents in a manner that confronts the pattern of ongoing abuse and violence. Officers shall:

- Minimize the victim’s need to confront the offender whenever possible.
- Advise the victim that the officer will not share information obtained with the suspect.
- Treat each interaction with the victim as an attempt to build collaboration over multiple interventions.
- Be mindful of the complex and often dangerous implications of a victim’s cooperation with the legal system.
- Be aware that the fundamental purpose of battering is to control what the victim says, thinks, feels and does.
- Engage in dialogue with the victim, thereby avoiding inadvertently treating her or him simply as an information source.
- Offer a clear alternative to messages from the batterer that the victim is crazy, at fault, unbelievable and unable to make decisions and that the abuser is unstoppable.

#### **D. OFFICER LIABILITY**

An officer exercising due care and good faith making an arrest and/or report while responding to a domestic violence call pursuant to La. R.S. 46:2140 and La. R.S. 46:2141 shall be immune from any civil liability that may arise as a result of the action (La. R.S. 46:2142).

#### **E. OFFICER AND PARTY SAFETY**

The investigation of domestic violence cases often places officers in emotionally charged and sometimes highly dangerous environments. No provision of this policy is intended to supersede the responsibility of all officers to exercise due caution and reasonable care in providing for the safety of any officers and parties involved.

#### **F. INVESTIGATION**

Detectives shall conduct investigations to thoroughly capture evidence crucial to the successful prosecution of domestic violence cases. Detectives shall evaluate cases for all possible charges.

Detectives shall incorporate the following into their investigations:

- Take appropriate action for violation of protection orders.
- Prioritize safety and protection for adult and child victims of domestic violence.
- Promote the safety of law enforcement personnel responding to incidents of domestic violence.
- Provide victims or witnesses of domestic violence with support and assistance through cooperative efforts with community stakeholders in order to prevent further abuse and harassment or both. Respond to and investigate reports of domestic violence professionally, effectively and in a manner without bias based on race, color, ethnicity, national origin, religion, gender, disability, sexual orientation or gender identity, in accordance with the rights secured or protected by the Constitution and laws of the United States.  
Appropriately classify and investigate reports of domestic violence, collaborate closely with the DA and community partners, including the NOFJC, and apply a victim-centered approach at every stage of the response.

In cases where a primary investigation centers on a non-domestic crime but a domestic violence–related crime was also involved in the case, detectives shall fully investigate the domestic-related crime.

**G. RESPONDING WHEN A SUSPECT IS NOT ON SCENE**

Detectives shall prioritize investigation of cases where the suspect is gone-on-arrival in the same manner as in-custody cases and take victim safety into account.

**H. VICTIM ENGAGEMENT**

Detectives shall engage with the victim or victims in a way that prioritizes safety, offers resources, builds collaboration over time and increases access to services and protection.

**I. SPECIAL DOMESTIC VIOLENCE CRIMES**

Detectives shall be alert for crimes that often occur in domestic violence situations and investigate according to the Domestic Violence Unit Procedure. Such crimes include:

- Stalking/harassment
- Strangulation
- Sexual coercion and sexual aggression
- Witness tampering

**J. INCIDENTS INVOLVING LAW ENFORCEMENT OFFICERS OR PUBLIC FIGURES**

Detectives shall:

- Conduct all investigations involving department employees and law enforcement personnel as suspects jointly with the Public Integrity Bureau, in accordance with department policy and procedure.
- Conduct all investigations involving a public figure in accordance with department policy and procedure.

**III. DOMESTIC VIOLENCE UNIT SUPERVISOR POLICY**

Supervisory oversight of the Domestic Violence Unit shall reinforce thorough evidence collection, attention to risk and danger and strategies that minimize the need for a victim to confront the offender. Oversight shall emphasize proper investigation and documentation to accurately charge a case. In addition to the responsibility of supervising Domestic Violence Unit detectives, the supervisor of the Domestic Violence Unit also assists platoon supervisors in maintaining the quality of platoon officer reports and helps maintain connections between the department and other intervening agencies.

**A. CASE INVESTIGATION ASSIGNMENT**

The Domestic Violence Unit supervisor shall promptly review every domestic violence–related report where an officer has determined that probable cause exists that a crime was committed and assign cases to a detective for a supplemental investigation as necessary.

Case assignments shall be prioritized based on danger to the victim, the severity of that danger and the need to secure additional evidence. Felony cases shall be prioritized over misdemeanor cases.

## **B. LIAISON TO DISTRICT ATTORNEY'S OFFICE & NEW ORLEANS FAMILY JUSTICE CENTER**

Upon completion of a supplemental investigation, the Domestic Violence Unit supervisor shall send the report to the appropriate domestic violence prosecutor.

The Domestic Violence Unit supervisor shall meet quarterly and as needed with representatives from the District Attorney's office to discuss and review problematic cases.

The Domestic Violence Unit supervisor shall ensure that the unit participates in the operation, development and sustainability of the New Orleans Family Justice Center; works in co-location with other civil and criminal agencies and community-based organizations; and supports a centralized, multi-agency Family Justice Center model in the handling of domestic violence cases in New Orleans.

## **C. DETECTIVE OVERSIGHT**

The supervisor of the Domestic Violence Unit shall:

- Ensure and document that every Domestic Violence Unit detective is familiar with the department's domestic violence policies and procedures.
- Monitor investigative files to determine if all necessary actions were taken in the investigation and direct any necessary follow-up.

## **D. REPORT COMPLIANCE**

The Domestic Violence Unit supervisor shall take the following actions to ensure platoon officer reports and investigative reports are compliant with department policy and procedure:

- Complete the *Supervising the Platoon Officer Response to Domestic Violence: Platoon Officer Report Checklist*, located in the Resource Folder on [nopd.org](http://nopd.org), when reviewing platoon officer reports for compliance with policy and protocol.
- Hold district roll-call trainings when additional training is required.

## **E. CASE TRACKING**

The Domestic Violence Unit supervisor shall prepare a quarterly case tracking report to be presented at COMSTAT.

The Domestic Violence Unit supervisor shall prepare a weekly report tracking reports on domestic violence incidents, including by gender and race, and publically report on this data on at least an annual basis.

## **F. TRAINING & POLICY MANTAINENCE**

The Domestic Violence Unit supervisor shall review the department's domestic violence policies and procedures with new detectives assigned to the unit within 30 days of their assignment.

The Domestic Violence Unit supervisor shall provide domestic violence detectives initial training of no fewer than 32 hours and ongoing annual in-service training. This training shall include advanced, skills-based instruction in evidence collections; victim assistance; interviewing, including taped mock victim interviews; and other topics. The Domestic Violence Unit supervisor shall be responsible for identifying additional training needs with respect to NOPD Domestic Violence Policy and Procedure 320.

The Domestic Violence Unit supervisor shall work with *Blueprint for Safety* partners and the Domestic Violence Advisory Committee (DVAC) annually to update Policy and Procedure 320 to reflect changes in policy, law and developments in research on best practice and to maintain consistency with the *Blueprint for Safety*.

#### **G. VICTIM ENGAGEMENT**

The supervisor of the Domestic Violence Unit shall regularly meet with the District Attorney's Victim Witness Domestic Violence Unit Supervisor to ensure that victims are receiving follow-up contact, and that any additional information gathered by the victim witness advocates is communicated to NOPD as necessary. Per the *Blueprint for Safety*, the District Attorney Victim Witness unit will attempt to make follow-up contact with all victims of domestic violence, inquire about subsequent violence or intimidation and notify victims of bail conditions. Per the *Blueprint for Safety*, the District Attorney Victim Witness Unit will share this information with the NOPD, as appropriate.

# PROCEDURE

## I. DOMESTIC VIOLENCE UNIT PROCEDURES

In addition to adhering to general department policy, the Domestic Violence Unit will take the following actions in conducting investigations in domestic violence–related cases.

### A. INVESTIGATIONS

If there is the possibility of multiple charges in a case, the detective will thoroughly investigate all crimes.

#### 1. CONDUCT FOLLOW-UP INTERVIEWS

The assigned detective shall:

- Identify and obtain contact information for witnesses if not included in the incident report.
- Conduct follow-up interviews with and obtain statements from witnesses, including the person who called 911 and children, if the initial interview was incomplete or missing important information.

Detectives shall apply the following considerations in determining whether to conduct follow-up interviews with children:

- The child's physical, emotional or psychological ability to give a statement.
- The child's age and ability to understand questions and formulate responses.
- The non-offending parent or guardian's preferences as to whether and how to talk with the children.

When the detective conducts an interview of a suspect in custody, follow the department's custodial interrogation policy and procedure.

#### 2. INTERVIEW THE VICTIM

Detectives shall conduct a thorough interview with the victim that includes attention to:

- Her or his account of events surrounding the incident
- The extent to which the victim feels uneasy about providing information to law enforcement and if so, why
- The extent to which the suspect has ever warned the victim about talking with law enforcement or outsiders for help, now or in the past, and the specifics of any threats or warnings
- Initial and continuing treatment of injuries
- Indicators of stalking

If the victim and/or witnesses do not speak English, arrange for an interpreter or interpreter service in accordance with NOPD Policy 368. Do not use neighbors or family members to provide interpretation.

#### 3. CONDUCT RISK ASSESSMENT

Detectives shall conduct the following domestic violence risk assessment with the victim:

- Review the victim's response to the four risk questions included in the platoon officer's report.
- If it appears there is a history of violence, ask follow-up risk questions. Cover the following risk factors and as time allows probe for what the victim thinks are the risks associated with each factor. The risk factors listed below are a guide and not an exclusive list; follow up with additional questions based on the victim's answers.

#### Weapons

- Does he/she own a gun?
- Has he/she ever used a weapon against you or threatened you with a weapon?

#### Lethality

- Does he/she ever try to strangle you?
- Has he/she ever forced you to have sex when you didn't want to?
- Has he/she threatened to kill you or himself/herself?
- Has he/she ever threatened or tried to commit suicide?

#### Previous attempts to leave or seek help

- Have you ever left after living together?
- Has he/she avoided arrest for domestic violence?
- Have you ever been threatened for leaving or seeking help from law enforcement?

#### Control/Stalking

- Does he/she control many of your daily activities (e.g., friendships, whether or when your family can visit, travel)?
- Is he/she jealous of you?
- Does he/she follow or spy on you or leave threatening notes or messages?

#### Children

- Do you have a child that is not his/hers?
- Has he/she beaten you when you were pregnant?

#### Social Factors

- Is he/she working?
- Does he/she use drugs? If so, what kind and with what effect?
- Is he/she an alcoholic or problem-drinker?

In the victim interview and risk assessment, probe for details related to:

- Severity and frequency of abuse
- Victim's level of fear
- Isolation
- History of violence (whether or not it resulted in law enforcement contact)

Detectives shall follow up on any indications or suspicions of strangulation, stalking, witness tampering or sexual coercion or aggression. Detectives shall document all answers from the victim interview in the incident report.

#### 4. COLLECT ADDITIONAL EVIDENCE

The assigned detective shall:

- Obtain a medical release from the victim and information about where medical treatment will be or was sought when applicable. Seek the victim's authorization for release of records regarding follow-up treatment. Obtain all medical reports after receiving the release.
- Run a criminal history check, including NCIC to determine the suspect's arrest and conviction history, warrants and indications of stalking.
- Document all history of abuse by obtaining:
  - Past law enforcement reports on the offender.
  - Past and current protective orders including the petition and affidavit and any existing stay away orders issued by criminal court.
  - In cases of stalking or increased risk of harm, attempt to locate law enforcement reports from other jurisdictions within and outside of the state.

Collect all evidence related to the case, when possible, including:

- Follow-up photographs of injuries in cases where bruises may develop after the initial response.
- Physical evidence not collected by the responding platoon officers .
- Any weapons used in the incident.
  - NOTE: If the incident included threats to kill, highlight those threats for prosecution.
- Recordings/printouts of relevant voice mail, e-mail, text messages, etc.

#### 5. INVESTIGATING DECLINED CASES

If a case that the detective believes has strong merit is declined by the prosecuting authority, request the specific reason for the decision to decline and explore the possibility of further investigation to support prosecution. If the prosecutor remains reluctant to proceed with the case, discuss it with the Domestic Violence Unit supervisor for further follow-up.

In cases where the prosecutor has insufficient evidence to charge the case but believes that further investigation would likely produce enough evidence to charge, the prosecutor will specify what additional investigation actions should be taken and designate a time period in which to gather the information.

If there is still insufficient evidence to charge at the end of the additional investigation period, the prosecutor will decline the case and promptly inform the detective.

#### **B. NOTIFY PROBATION AND PAROLE**

Detectives shall determine if the suspect is on probation; if so, notify probation of the circumstances of the case, including any offenses where the suspect left the scene and has not been located.

#### **C. IDENTIFY INCOMPLETE PLATOON OFFICER REPORTS**

Detectives shall make note of information missing from the platoon officer reports and convey incomplete reports to the Domestic Violence Unit supervisor. The Domestic Violence Unit supervisor will return incomplete reports to the appropriate platoon supervisor or District Commander for review and a supplement, if necessary.

#### **D. RESPONDING WHEN A SUSPECT IS NOT ON SCENE**

Conduct investigations where the suspect was not on the scene according to the same procedure as when the suspect was present. Before interviewing the victim, determine if the victim is safe and able to speak freely.

##### **1. INTERVIEWING A SUSPECT WHO IS OUT OF CUSTODY**

Detectives shall take the following actions when interviewing a suspect who is out of custody:

- Inform the victim that the detective will attempt to interview the suspect.
- Attempt to locate and obtain a statement from the suspect.

Notify the victim if the detective assesses increased risk of harm and assist the victim in relocating to a safe location. Ensure that the victim has information regarding the Family Justice Center and civil protective orders. Encourage the victim to call law enforcement again if new incidents occur.

#### **E. VICTIM ENGAGEMENT**

In conducting the investigation and interacting with victims and suspects, detectives shall take the following specific actions, as appropriate to the circumstances of the case and victim safety.

##### **1. BUILD A FOUNDATION FOR A CONTINUING RELATIONSHIP**

- Treat each contact with the victim as an opportunity to build a continuing relationship.
- Be patient with victims who may be hostile.
- Ask open-ended questions.
- Ensure that the victim knows who you are and how to contact you.

##### **2. COMMUNICATE SAFELY**

- Do not tell the suspect what the victim has told you.
- Inquire about her/his welfare and safety and determine if it is safe for the victim to speak freely.
- If circumstances allow, do not tell the suspect you have spoken to the victim.

##### **3. COLLECT EVIDENCE SPECIFIC TO DOMESTIC VIOLENCE**

- Encourage the victim to report contact, abusive behavior and/or violations by the suspect.
- Request that the victim report any threats made by the offender for cooperating with the investigation.
- Inform the victim of the importance of keeping a record of mail, voice mail, e-mail, text messages and other communication and contact from the suspect or others acting on the suspect's behalf.
- If the victim is willing to talk about the full scope of abuse and violence, ask for details and record all credible reports of violence, stalking, coercion, intimidation and related acts of abuse

##### **4. PROVIDE REFERRALS TO SERVICES**

- Inform victim of the availability of "welfare" checks at her or his residence by officers.
- Provide referral information regarding advocacy support, restraining orders and other community resources.
- Refer all victims to the New Orleans Family Justice Center.

## **F. RESPONDING TO INCIDENTS INVOLVING DEPARTMENT EMPLOYEES**

Detectives shall refer all incidents involving NOPD law enforcement personnel to the Public Integrity Bureau.

Detectives shall:

- Conduct the investigation following general department policies and procedures and policy and procedure 320.
- When desired by the victim, contact the New Orleans Family Justice Center for assistance in referring the victim for safety planning and services.

## **G. RESPONDING TO INCIDENTS INVOLVING PUBLIC FIGURES**

Detectives shall:

- Conduct the investigation following general department policies and procedures and policy and procedure 320.
- Coordinate with and refer media inquiries to the department's public information officer.
- When desired by the victim, contact the New Orleans Family Justice Center for assistance in referring the victim for safety planning and services.

## **H. NOTIFICATION TO VOWS**

Detectives shall notify the Violent Offender Warrant Squad when a victim, complainant or officer informs the detective that there is an outstanding warrant in a high risk case involving a dangerous situation.

## **I. TRAINING**

Domestic violence detectives shall receive, at least annually, comprehensive mandatory instruction on this policy and responding to domestic violence calls. Trainings will reflect changes in policy, law and developments in best practices over time.

## **II. DOMESTIC VIOLENCE UNIT SUPERVISOR PROCEDURE**

In addition to following general department procedures covering supervisory oversight of investigations, the Domestic Violence Unit supervisor will take the following actions in providing supervisory oversight of investigations in domestic violence cases.

### **A. CASE INVESTIGATION ASSIGNMENT**

The domestic violence unit supervisor shall read every domestic violence-related report where an officer has determined that probable cause exists that a crime was committed and assign the case for follow-up investigation as needed. The supervisor shall evaluate cases for multiple charges, both domestic-related and non-domestic-related. Regardless of whether the offender is in custody or out of custody, the Domestic Violence Unit supervisor shall prioritize cases based on the following:

- All felonies shall be prioritized for assignment to a detective over misdemeanors. Among felonies, cases with the following factors will receive the highest priority in case assignment:
  - An imminent time deadline before which the suspect must be charged or released
  - Significant injury or impairment
  - Weapon is involved

- Strangulation or stalking behavior has been alleged
- A victim's response to risk questions indicates significant risk of harm
- A victim expresses fear of imminent bodily harm
- As resources permit, if all felony cases have been assigned, misdemeanor cases with the following factors will receive the highest priority in case assignment:
  - Protective order violation
  - Significant injury or impairment
  - Weapon is involved
  - Strangulation or stalking behavior has been alleged
  - A victim's response to risk questions indicates significant risk of harm
  - A victim expresses fear of imminent bodily harm
- In cases where the offender was not arrested at the scene, cases with one or more of the following factors will receive the highest priority for assignment to a detective:
  - Significant injury or impairment
  - Witness tampering, strangulation or stalking behavior has been alleged
  - A victim's response to risk questions indicates high risk of harm
  - A victim expresses fear of imminent bodily harm
- If it appears that the suspect in the case appears to be a victim of battering, assign the case to a detective with instructions to ask the suspect the four risk questions and document the answers in the supplemental report.

## **B. DETECTIVE OVERSIGHT**

The domestic violence unit supervisor shall review investigation files for thoroughness. If a file is unsatisfactory, the supervisor shall return it to the detective with specific instructions on actions to take.

The Domestic Violence Unit Supervisor shall provide consultation to detectives on cases as needed and monitor investigations to determine if additional training is necessary. In reviewing cases, the Domestic Violence Unit Supervisor shall pay particular attention to investigative techniques and skills specific to domestic violence cases (e.g., interviewing, self-defense, victim engagement and predominant aggressor evaluation).

If additional training is warranted, the Domestic Violence Unit Supervisor shall direct the detective to appropriate training and continue monitoring to determine effectiveness of training.

### **1. REPORT COMPLIANCE**

On a quarterly basis, the Domestic Violence Unit Supervisor shall review one random report from each district, using the *Supervising the Platoon Officer Response to Domestic Violence: Platoon Officer Report Checklist*. The Domestic Violence Unit Supervisor will discuss any problems with reports with platoon supervisors and District Commanders as needed.

## **C. CASE TRACKING**

The Domestic Violence Unit Supervisor shall compile and submit a case tracking report to COMSTAT on a quarterly basis, in accordance with general department policy and procedure that includes:

- Number of cases investigated
- Number of cases not investigated
- Number of felonies investigated
- Number of misdemeanors investigated
- Concerns that need to be resolved and anticipated challenges

## Sex Crimes Unit Standard Operating Guidelines

Effective January 3, 2016

### **PURPOSE**

The purpose of these standard operating guidelines is to provide Sex Crimes detectives and supervisors with guidelines for investigating reports of sexual assault.

### **DEFINITIONS AND ACRONYMS**

- (a) **CODIS**—Combined DNA Index System
- (b) **Cold case**—Any investigation that is not active and has remained unsolved for over a year since the date of report
- (c) **CCMS**—Criminal Case Management System
- (d) **NOFJC**—New Orleans Family Justice Center
- (e) **SAK**—Sexual assault kit
- (f) **SANE**—Sexual Assault Nurse Examiner
- (g) **SART**—Sexual Assault Response Team
- (h) **Unreported SAKs (SAKUs)**—Sexual assault kits for which no report of an incident has been made by a victim

### **SEX CRIMES UNIT CASES**

Sex Crimes Unit detectives should investigate all sexually related incidents with victims 17 years of age and older, including the following signals:

- (a) 24-K (unreported sexual assault kit);
- (b) 42 (first degree rape);
- (c) 43 (second degree rape);
- (d) 43-B (sexual battery);
- (e) 81S (sexting);
- (f) 89 (crime against nature);
- (g) 283 (video voyeurism);
- (h) 542 (sex offender check); and
- (i) 27 (attempted crime) related to any of the above signals.

The Child Abuse Unit shall handle all sex-related incidents with victims under 17 years of age unless otherwise directed by a supervisor. When directed by a supervisor to handle a case with a victim under 17 years of age, Sex Crimes detectives shall handle the case in accordance with the **Child Abuse Unit Standard Operating Guidelines**.

### **SEXUAL ASSAULT DYNAMICS**

Based on the length of time between the assault and the report of the crime as well as the individual's history, the victim may be in crisis and experiencing acute stress disorder, post-traumatic stress disorder (PTSD), or rape-trauma syndrome and exhibiting a range of behaviors that will likely change over time. Detectives should use the strategies outlined herein to respond to the trauma.

## **INCIDENTS INVOLVING CHILDREN/ADOLESCENTS OR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES**

All cases with victims under the age of 17 shall be handled in accordance with the **Child Abuse Unit Standard Operating Guidelines**.

Detectives shall not interview victims or witnesses under the age of 17. In exigent circumstances after consulting a Child Abuse Unit supervisor, only the minimum information necessary to stabilize the situation and secure evidence may be obtained from a child.

Detectives shall immediately make a forensic medical referral and contact the Audrey Hepburn CARE Center (available from 7 a.m. – 5 p.m. Monday through Saturday). When the CARE Center is not available to address an acute incident that occurred within 72 hours, detectives shall direct the victim's caretaker to Children's Hospital or, if the victim is an older adolescent, University Hospital for physical evidence recovery and to schedule a subsequent appointment with the CARE Center.

Detectives may also follow the **Child Abuse Unit Standard Operating Guidelines** for incidents involving an adult victim or witness with developmental disabilities as defined by La. R.S. 28:451.2 and conduct forensic interviews at the Children's Advocacy Center.

## **SUPPORTING VICTIMS**

A supportive and compassionate response decreases the likelihood of a victim experiencing PTSD and *increases the likelihood of successful prosecution*. To provide the victim with assistance and support, detectives should:

- (a) Utilize interview techniques appropriate to victims who have experienced trauma;
- (b) Offer victims assistance as outlined herein; and
- (c) Follow up with the victim throughout the investigative process. The detective shall contact the victim at least once per month, whether or not any new information is discovered during the investigation and document these contacts in the work log section of the Criminal Case Management System (CCMS).

NOPD prioritizes conducting a thorough investigation of sexual assault claims over prosecuting victims for minor offenses. Illegal activity on the part of the victim should never be used to discredit or discourage the victim from reporting the assault. Detectives shall consult with their supervisor(s) before any charges are brought against the victim and document this consultation in the work log section of CCMS.

## **VICTIM ASSISTANCE**

To support the victim throughout the investigation, detectives should:

- (a) Show understanding, patience, and respect for the victim and attempt to establish trust and rapport;
- (b) Avoid having any conversations or phone calls that may be overheard by other persons not a part of the investigation;
- (c) Commend the victim for coming forward to the police;
- (d) Explain the investigative process and the next steps in the criminal justice process;
- (e) Inform the victim that victim advocacy services are available. If the victim would like an advocate, contact a victim advocate as soon as possible to provide assistance throughout the reporting and investigative process:

- i. If an arrest has been made, an advocate will be provided by the Orleans Parish District Attorney's Victim Witness Assistance program (see below).
  - ii. If the victim is at University Medical Center for a forensic exam, the detective should contact the Sexual Assault Nurse Examiner (SANE) nurse to ensure a medical advocate is available. The hospital will contact a medical advocate for the victim. If no medical advocate is available, the detective should contact the Orleans Parish District Attorney's Victim Witness Advocate, who may be able to provide on scene response at University Medical Center.
  - iii. If no arrest is made, an advocate is available by phone through the New Orleans Family Justice Center's 24-hour crisis line; and
- (f) Arrange to transport or escort the victim to the University Medical Center or New Orleans Family Justice Center (NOFJC), if desired by the victim.

### **NOTIFYING THE DISTRICT ATTORNEY'S OFFICE**

The District Attorney's Office shall be notified via telephone immediately on all rapes:

- (a) When a report of rape is made within 24 hours of the occurrence of the event;
- (b) When the victim and perpetrator have no known prior relationship; or
- (c) When the safety of the victim or witness may be in jeopardy and relocation of the victim or witness may be necessary.

In all cases investigated by Sex Crimes, detectives shall forward a Major Offense Report Form (MORF) to the District Attorney's Office within 24 hours of an item number's issuance.

### **BEFORE AN INTERVIEW**

Before beginning an interview, the detective should establish a supportive environment. The detective should work with a victim to:

- (a) Identify barriers by asking questions such as:
  - i. "Coming forward isn't easy. What are the main things concerning you?"; and
  - ii. "How can we help you get through this process?"
- (b) Identify and address personal needs whenever possible and give the victim as much control as possible over the location and timing of the interview;
- (c) Establish an understanding of the ground rules with other professionals, such as:
  - i. Who will be present?;
  - ii. What will the role of the victim advocate be?; and
  - iii. How will the victim advocate indicate concerns or interrupt the interview?
- (d) Secure a private location, acceptable to the victim, for the interview that is free from distractions. If possible, detectives should conduct interviews at the New Orleans Family Justice Center.

### **VICTIM INTERVIEWS**

Sexual assault investigations typically include both a preliminary and follow-up, in-depth interview with the victim.

The detective may request, and the victim may choose, to volunteer general information about the incident, or the situation may require that the officer seek immediate information, before an advocate is available. However, the preferred response is to introduce an advocate to the victim as soon as possible and allow the victim to decide if an advocate should be present at the preliminary interview.

### **PRELIMINARY INTERVIEW**

In the preliminary interview, the detective should establish the elements of the crime and identify all witnesses, suspects, evidence, and crime scenes.

The preliminary interview is intended to:

- (a) Identify and locate the suspect;
- (b) Establish jurisdiction;
- (c) Establish the elements of the crime;
- (d) Collect evidence;
- (e) Identify the need for additional resources;
- (f) Determine crime scene considerations, including perishable evidence and exigent circumstances;
- (g) Identify follow-up leads, including potential witnesses; and
- (h) Obtain contact information for the victim, including temporary accommodations and information about the victim's preferred means of communication with detectives.

At the conclusion of the preliminary interview, the detective should:

- (a) Explain the nature of the preliminary interview and the need for follow-up contacts;
- (b) Give the victim the Department's item number sheet (Form #26) with the contact information of the detective and Special Victims Section (SVS) Commander;
- (c) Inform the victim that a detective or supervisor will contact him or her to schedule a follow-up interview if needed;
- (d) Encourage the victim to contact the detective with any additional information or evidence;
- (e) Remind the victim that visible evidence of injury may appear later and to contact the detective for additional photographs or other documentation; and
- (f) Provide transportation if requested.

### **FOLLOW-UP INTERVIEW**

When needed, an in-depth, follow-up interview should be conducted after the victim has been medically examined and treated, and the victim's personal needs have been met. When possible, detectives should wait one sleep cycle before performing the follow-up interview.

Prior to a follow-up interview, the detective should:

- (a) Interview agency personnel who responded to the scene, retrieve communications tapes and printouts, and review all related reports;
- (b) Coordinate with relevant agencies, assistance organizations, service providers, and sexual assault response professionals to address the needs of the victim and discuss the best means for keeping the victim informed;
- (c) Ask the victim if he/she would like an advocate present at the follow-up interview. If so, contact the NOFJC to schedule an advocate;
- (d) Secure a location that is convenient, accessible, and comfortable for the victim. The detective should provide or arrange transportation for the victim when requested. When possible and desired by the victim, conduct the follow-up interview at the New Orleans Family Justice center. When interviewing at the NOFJC, inform the NOFJC front desk that an interview has been scheduled and whether the victim is interested in receiving other services at that time; and
- (e) Arrange for equipment to record the interview, so the officer can focus on listening.

At the start of the follow-up interview, the detective should:

- (a) Discuss the purpose and scope of the follow-up interview;

- (b) Review contact information for both the victim and detective that may need to be updated;
- (c) Explain the victim's rights, including confidentiality;
- (d) Explain the need to tape record and/or videotape the interview and request the victim's consent. If the victim does not consent to be recorded, the detective shall note that refusal in CCMS; and
- (e) Explain the status of the case.

While conducting the follow-up interview, the detective should:

- (a) First allow the victim to describe what occurred without interruption, using the Forensic Experiential Trauma Interview techniques described below;
- (b) Confirm what he or she heard for accuracy, identify new information or developments, and ask clarifying questions;
- (c) Clarify any inconsistencies with earlier accounts of the sexual assault in a nonjudgmental manner;
- (d) Document:
  - i. The victim's actions in response to the attack;
  - ii. The victim's state of mind during the attack;
  - iii. Specific statements made by the perpetrator; and
  - iv. The nature of any relationship with the suspect;
- (e) Inquire about any circumstances that may indicate the use of drugs to facilitate the sexual assault (such as whether the victim experienced any loss of memory, disorientation, severe illness, or hallucinations);
- (f) Explain the importance of these questions and responses from the prosecutorial standpoint; and
- (g) Assist the victim in developing a plan if he or she has safety concerns, and encourage the victim to call police if the suspect violates any existing court orders or if the suspect contacts the victim or members of the victim's family.

## **CONDUCTING VICTIM INTERVIEWS**

### **FACILITATING THE INTERVIEW**

Because of the way the brain reacts during trauma, individuals do not record traumatic memories in the same way as non-traumatic memories. A person experiencing trauma may not be thinking logically, be able to recall the incident in a linear manner, be able to override emotional reflexes or habits, or control his/her attention. A successful interview technique will be based upon an understanding of how trauma affects the brain and will allow the victim to tell the story in his/her own words at his/her own pace.

### **FORENSIC EXPERIENTIAL TRAUMA INTERVIEW (FETI) TECHNIQUE**

When conducting interviews, detectives should use the Forensic Experiential Trauma Interview technique, focusing on what victims are able to recall about traumatic memories. Generally, detectives should:

- (a) Use open-ended prompts and avoid interrupting;
- (b) Avoid asking sequential questions (e.g., "What happened next?");
- (c) Engage in active listening;
- (d) Ask for clarification when needed and take responsibility for getting the account right; and
- (e) Understand that a victim may have gaps in memory.

### **BEGINNING AN INTERVIEW**

Detectives should start each victim interview by:

- (a) Expressing empathy;
- (b) Assuring the victim he/she will not be judged; and
- (c) Explaining the interview process and asking if the victim has any questions.

Detectives should be aware the victim does not have to answer any question. The detective may inform the victim that cooperation is essential for the investigation to achieve the correct outcome.

#### BEGIN WITH AN UNINTERRUPTED NARRATIVE

The detective should begin by allowing the victim to relate, in his/her own words and without interruption, what took place. Since the victim may not be able to recall the incident in an organized, linear way, detectives can use the phrase "What **are you able** to tell me about your experience?"

#### USE OPEN-ENDED FOLLOW-UP QUESTIONS

After the victim has provided an uninterrupted narrative, the detective should then follow up with clarifying, **open-ended** questions about what the victim **is able to remember** such as:

- (a) "Tell me more about..."
- (b) "What was your thought process during this experience?"
- (c) "What are you able to remember about..."
  - i. Victims who have experienced trauma may be better able to remember sensory details such as sight, sound, smell, touch, or taste.
  - ii. This phrase is preferable to questioning the victim as one might question a witness by asking "What happened first?"

#### CLARIFY AFTER THE VICTIM HAS FINISHED TALKING ABOUT THE EXPERIENCE

After the victim has been able to tell his/her narrative, the detective should attempt to clarify details of the experience through questions about what the victim is able to remember (rather than focusing on pieces the victim may not be able to remember). Clarifying questions may include:

- (a) "What were your reactions to this experience?"
- (b) "What was your reaction when. . .?"
- (c) "What was the most difficult part of this experience?"
- (d) "What, if anything, can't you forget about your experience?"

#### MAKE THE VICTIM COMFORTABLE THROUGHOUT THE INTERVIEW

Detectives should provide a comfortable environment throughout the interview. Detectives should:

- (a) Avoid touching the victim;
- (b) Monitor the victim's body language;
- (c) Offer breaks frequently;
- (d) Avoid victim-blaming questions;
- (e) Avoid using jargon or police, medical, or legal terms;
- (f) Conclude by asking the victim if there is anything he/she would like to add;
- (g) **Never** ask the victim if he/she wants the assailant prosecuted in the immediate aftermath of a sexual assault; and
- (h) **Never** ask the victim to submit to a lie-detector test.

### **INVESTIGATIVE STRATEGY**

The detective should develop an investigative strategy based on the nature of the assault and the possible defenses available to the suspect (such as denial, mistaken identity, or consent). This strategy can guide interview questions and other evidence collection efforts. Critical evidence collection efforts include evaluating whether a pretext phone call is appropriate and re-photographing injuries to document changes in visible injuries.

### **KNOWLEDGE OF SEXUAL ASSAULT DEFENSE CLAIMS**

Detectives should be familiar with common defenses to charges of sexual assault.

#### *Non-Stranger Assault*

The majority of non-stranger sexual assaults result in a "consent" defense.

Evidence of particular importance in a "consent" defense includes:

- (a) Evidence of physical or verbal resistance on the part of the victim.
- (b) Evidence of genital or non-genital injury.
- (c) A detailed account of the victim's thoughts and feelings during the assault.
- (d) Information regarding the suspect's size and strength in comparison to the victim's.
- (e) Information regarding the environment in which the assault took place (such as isolation or soundproofing).
- (f) Information regarding the victim's behavior after the assault, including common traumatic responses.
- (g) People the victim may have told about the assault.
- (h) Evidence that the perpetrator is a serial offender.

#### *Stranger Assault*

Evidence in stranger sexual assaults more often centers on a question of identification pending the processing of collected evidence such as biological evidence for DNA, latent fingerprints, lineups, and trace evidence. Therefore, investigative strategies must remain flexible.

### **IDENTIFY AND LOCATE WITNESSES AND SUSPECTS**

Detectives should identify and interview any potential witnesses, bearing in mind that there may be multiple crime scenes. It is especially important that the detective identify and interview the first person the victim told about the sexual assault.

### **WITNESS INTERVIEWS**

Detectives should interview any witness who might have seen or spoken with the victim before, during, or after the assault.

### **SUSPECT INTERVIEWS**

Suspects should be interviewed only by the detective but can be detained by the responding officer.

### **PRETEXT PHONE CALLS**

Pretext phone calls are an important investigative tool that detectives may consider using in all non-stranger sexual assault cases. Although some pretext phone calls result in an admission by the suspect, a suspect's lack of denial or partial admission can also support a detective's investigation. Involvement of a victim in a pretext phone call to the suspect should take into consideration the victim's emotional and physical state. Pretext phone calls should be conducted with a victim advocate present, unless a victim prefers that a victim advocate not be present or it is impossible to arrange for the presence of an advocate due to exigent circumstances.

## **EVIDENCE COLLECTION**

Detectives should ensure that available evidence is collected, including but not limited to:

- (a) Clothing worn at the time of the assault and immediately afterward, especially the clothing worn closest to the genitals (such as undergarments, pants, and shorts). The detective should explain to the victim the benefits of preserving evidence by remaining in the clothes he or she wore during the assault. If the victim chooses to change clothes, the detective should place the clothes in separate paper bags to prevent cross-contamination and follow procedures regarding chain of custody for evidence;
- (b) Photographs of the victim's injuries if necessary, preferably by the SANE nurse;
- (c) Photographs of the suspect's injuries if necessary; and
- (d) Photographs of the crime scene prior to processing if necessary.

The detective should encourage the victim to contact the detective or the SANE nurse to take photos of injuries if they change over time. The detective can contact the SANE Program Director to arrange for follow-up photos.

Detectives should protect the integrity of evidence and request the assistance or direction of the Scientific Criminal Investigations Section (SCIS – Crime Lab) regarding the collection or preservation of evidence. Detectives should secure the crime scene to ensure that evidence is not lost, changed, or contaminated. In addition, detectives should follow these guidelines:

- (a) Use gloves whenever handling evidence and change gloves after every contact to prevent cross-contamination.
- (b) Evidence should be handled by as few people as possible.
- (c) The detective should encourage the victim not to change clothing, smoke, eat, drink, shower, urinate, or defecate by explaining that those activities could destroy evidence.
- (d) Detectives should carry receptacles for urine samples to be used when necessary.
- (e) If a drug-facilitated sexual assault is suspected, preserve drinks to allow the crime lab to test for the presence of drugs.

## **ALCOHOL/DRUG-FACILITATED SEXUAL ASSAULT CONSIDERATIONS**

Whether ingested voluntarily or without the knowledge of the victim, if a drug-facilitated sexual assault is suspected, special attention should be given to collecting perishable evidence of drug and/or alcohol use by suspects or victims as soon as practical (i.e. urine samples or BAC readings) and alcohol use by witnesses (i.e. BAC readings) whenever possible.

Signs of drug-facilitated sexual assault include:

- (a) The victim reports being under the influence of a drug during the sexual assault;
- (b) The victim experiences vaginal soreness or other signs of sexual activities and cannot remember the entire incident;
- (c) The victim reports becoming heavily intoxicated very rapidly; and/or
- (d) The victim reports symptoms of amnesia.

## **FORENSIC EXAM**

Detectives should explain the benefits of a medical examination to the victim and its importance to investigative and apprehension efforts as well as for the victim's well-being. Although important to the case, examinations are voluntary, and detectives should not coerce victims to go to the hospital or to provide samples for drug screening.

The detective should:

- (a) Ask the victim whether there is anyone who should be called or notified and facilitate this contact;

- (b) Address any special needs of the victim, such as communication or mobility, and notify the victim advocate of the special need;
- (c) Inform the victim of the right to decline any or all parts of the examination;
- (d) Inform the victim that he/she will not be charged for a forensic exam;
- (e) Transport the victim to the University Medical Center if a forensic examination is warranted and the victim consents;
- (f) Advise the victim that the forensic examiner may collect clothing worn during or immediately after the sexual assault;
- (g) Inform the victim that clothing will be provided after the examination if necessary but that he/she may bring personal clothing if preferred;
- (h) If drug-facilitated sexual assault is suspected, transport the victim as soon as possible to University Medical Center for a forensic exam and treatment. If transport is not possible, or if the victim declines a forensic exam, seek permission from the victim to collect a urine sample for drug screening; and
- (i) Encourage a victim who is unwilling to undergo a forensic exam to get medical attention as soon as possible, including testing for pregnancy and sexually transmitted diseases.

### **COORDINATION WITH FORENSIC EXAMINER**

When a victim decides to undergo a forensic examination, the detective should brief the examining nurse or physician about the details of the sexual assault to facilitate the collection of evidence.

Detectives need not be present in the examining room because the forensic examiner will testify about collection of evidence and the chain of custody.

The detective should obtain a copy of the forensic exam report from the SANE nurse and include it in the case file.

### **PROTOCOL FOR SUSPECT EXAMINATION**

This protocol is an exception to the body cavity searches section of **Chapter 1.2.4 – Search and Seizure**.

Immediately after the preliminary suspect interview, the detective should determine whether a forensic sexual assault examination of the suspect should be conducted. Factors to consider in that decision include:

- (a) The length of time since the assault occurred;
- (b) The nature of the assault;
- (c) Whether the victim believes he or she injured/marked the suspect;
- (d) The likelihood that cells, fluid, or other types of biological or trace evidence were transferred from the victim to the suspect; and
- (e) Unusual or highly distinctive physical characteristics of the suspect's body that are normally not visible due to clothing.

Detectives must obtain a search warrant prior to conducting the exam. Detectives should keep in mind that the items or evidence explicitly identified on the search warrant are the only items or samples that can be obtained during the suspect's examination, including photographs of the suspect's body. The detective should clearly articulate the type and number of samples needed that can be supported by the probable cause alleged in the search warrant application.

Detectives shall conduct the exam with a supervisor present in a private room that cannot be viewed from the outside. The detective and supervisor present shall be of the same sex of the suspect (Refer to **Chapter 41.14 –Discriminatory and Bias-Based Policing, LGBT Community** for transgendered searches). The detective shall first explain what will be taking place, advise the suspect that the exam is pursuant to a signed search warrant, and offer the suspect the opportunity to cooperate and voluntarily swab the necessary areas of the body. If the suspect refuses, the detective shall consult with the supervisor present as to the method to be used, the number of additional detectives or officers required, and the amount of force to be used to execute the actions that are necessary and reasonable to recover the evidence.

If detectives collect clothing or footwear as evidence, they will provide the suspect with replacement clothing or footwear. All evidence collection procedures to prevent cross-contamination or spoilage of evidence shall be followed. Each recovered item shall be packaged and tagged immediately.

While executing the search warrant and conducting the forensic sexual assault exam, the detective shall document all evidence and take photographs as necessary.

The detective shall document any spontaneous statements made by the suspect during the exam.

It is critically important to note that the victim's and suspect's examinations must take place in different locations. It is important that every effort be made to avoid cross-contamination of evidence from the victim and suspect.

### **STORING EVIDENCE**

The sexual assault kit (SAK) should not be accepted from the medical staff until it has been properly sealed and labeled. The detective should transport the kit directly to Central Evidence and Property, and it should be stored according to the Louisiana State Crime Lab's recommended practices.

The Investigation and Support Bureau (ISB) shall track evidence that has been submitted to the Louisiana State Police for testing.

The decision not to submit evidence for testing shall be documented in a supplemental report.

### **DOCUMENTATION**

Detectives shall submit an incident report in EPR which protects the confidentiality of the victim to the maximum extent possible per **Chapter 42.2 – Sexual Assault**.

Detectives shall provide an overview of the investigation in the gist section of CCMS to produce the Major Offense Reporting Form.

Detectives shall document every investigation of a reported sexual assault by completing a supplemental report. The detective should compile the Major Crime Scene Officer Statements completed by other responding officers.

Detectives will utilize the Supplemental Report Form to document any information obtained during the investigation, including all contact with the victim. Detectives shall use the SVS Investigative Case File Index, located in the resources folder on nopd.org, to ensure that they have performed a complete investigation.

Detectives should, as accurately as possible, use the victim's own words in written reports and utilize quotation marks for exact quotations. Be careful not to substitute language inadvertently suggesting consent for the victim's own description. For example, avoid writing that the suspect and victim "had intercourse" when the victim claims that he or she was raped.

Detectives shall document every contact with the victim in the work log section of CCMS.

### **CASE FILE**

**The entirety of the case file** on all cases investigated by the Sex Crimes Unit shall be submitted to the District Attorney's Office within 20 calendar days of the arrest of the perpetrator. In sexual abuse cases with victims under the age of 18, detectives shall submit the case file to the District Attorney's Office within 20 days of receiving the allegation of sexual abuse. This case file shall include, but is not limited to the following:

- (a) Incident recall and 911 audio recording;
- (b) Incident report (EPR);
- (c) Major Crime Scene Officer Statements;
- (d) All related supplemental police reports;
- (e) All photographs related to the case;
- (f) Medical and/or SANE reports;
- (g) EMS run sheets;
- (h) All victim and witness interviews (video, audio, or transcribed);
- (i) Perpetrator statements (video, audio, or transcribed);
- (j) All surveillance video;
- (k) All body camera video applicable to the case;
- (l) All crime scene tech reports;
- (m) All crime lab submittal forms;
- (n) All crime lab reports;
- (o) Central Evidence and Property receipts;
- (p) All search warrants, including application, order, and return;
- (q) Arrest warrants applicable to the case;
- (r) All electronic evidence;
- (s) All composite sketches applicable to the case; and
- (t) All Crimestoppers tips applicable to the case.

The supplemental report shall detail any pending investigation. Once the pending investigation has been completed, an additional supplemental report shall be submitted.

Detectives shall utilize the SVS Investigative Case File Index, located in the resources folder on [nopa.org](http://nopa.org), to ensure complete case files.

### **CASE SIGNAL**

Detectives shall document in a supplemental report any decision to classify a reported sexual assault as a Signal 21 (miscellaneous complaint). A Sex Crimes Unit supervisor **and** the Criminal Investigations Division (CID) Commander **must approve this decision in writing**.

To change the signal from a sexual assault to any other criminal signal, the detective must:

- (a) Mark up the original signal as unfounded;
  - i. If the original signal is a 42 or 43, the detective shall change the original signal to 42-U or 43-U (unfounded).

- (b) Generate a new item number with the new signal;
- (c) Receive written authorization for the signal change from a Sex Crimes Unit supervisor and the Special Victims Section Commander.

### **UNREPORTED KITS**

Unreported SAKs (SAKs for which no report of an incident has been made by a victim) that have been collected shall be reported and classified as a Signal 24-K, and an incident report (EPR) shall be written documenting the collection of evidence.

Signal 24-K shall be used only for unreported kits.

### **CASE STATUS**

Detectives should utilize the following case statuses:

- (a) Open
- (b) Cleared by arrest
- (c) Cleared by warrant
- (d) Cleared by exception: No formal charges are issued due to elements beyond law enforcement control (i.e. death of offender, prosecutor declines to take the case after an offender has been identified, offender is arrested but will be prosecuted in a different jurisdiction). To be cleared by exception, NOPD must have:
  - i. Identified the offender.
  - ii. Gathered enough evidence to support an arrest on a sexual assault charge and turned over the offender to the court for prosecution.
  - iii. Identified the offender's location so that the suspect could be taken into custody.
  - iv. Encountered a circumstance outside the control of law enforcement that prohibits the agency from arresting, charging, and prosecuting the offender.
- (e) Unfounded: False or baseless complaint.
  - i. Unfounded, false: Evidence obtained through an investigation shows that a crime was not committed or attempted.
  - ii. Unfounded, baseless: A case does not possess all necessary elements of the crime or was improperly classified as a sexual assault.

A Sex Crimes Unit supervisor and the Special Victims Section Commander should closely review and approve in writing any decision to classify a report as "unfounded."

Detectives must file a supplemental report for all unfounded cases to explain the disposition decision.

A Sex Crimes Unit supervisor and the Special Victims Section Commander shall review all dispositions of cleared by exception.

### **CODIS HITS**

In all cases wherein a Combined DNA Index System (CODIS) Match Notification is received from the Louisiana State Police Crime Laboratory regarding a sex crime, the Sex Crimes Unit shall:

- a) Attempt to locate and conduct substantive interviews with all relevant victims and witnesses;
- b) Apply for a search warrant for the buccal swab of the potential perpetrator; and
- c) Submit to the District Attorney's Office the entirety of the case file including any Supplemental Reports relative to the receipt of any DNA confirmation.

Sex Crimes shall track all CODIS hits in the CODIS Hit Outcome Program (CHOPs).

### **PROCEEDING WITHOUT THE VICTIM'S INVOLVEMENT**

Detectives shall respect a victim's inability or decision not to be involved in criminal justice proceedings and always be willing to offer continued assistance and referrals.

The decision whether or not to proceed with the investigation shall be made by a Sex Crimes Unit supervisor after consultation with a victim advocate or social worker who has spoken or attempted to speak with the victim. This decision shall be documented in writing in the case file.

### **CASE SUMMARY MEETINGS**

When a detective has exhausted all available leads and still does not have sufficient information to establish probable cause, the detective shall conduct a case summary meeting with the victim. At the case summary meeting, the detective shall:

- (a) Meet in person with the victim if possible;
- (b) Summarize the investigation;
- (c) Provide the contact information of the cold case detective to the victim as the new primary contact;
- (d) Document the victim's contact preferences and information on the Victim Contact Form (Form # 347) and store this form in the case file; and
- (e) Document the occurrence of the case summary meeting in the work log section of CCMS.

### **COLD CASE**

A cold case is any investigation that is not active and has remained unsolved for over a year since the date of report. Cold cases will be handled by a cold case detective unless the SVS Commander decides that the original detective or another detective should handle the case. Before deeming the investigation a cold case, the original detective shall conduct a Case Summary Meeting.

When new developments prompt a re-examination of a cold case, a Sex Crime Unit supervisor shall determine if the investigation shall remain with the cold case detective or be reassigned to the original detective. If the original detective is no longer with Sex Crimes or otherwise unavailable, the Sex Crimes supervisor shall determine if the investigation shall remain with the cold case detective or be reassigned to a new detective.

### **CONTACTING COLD CASE VICTIMS**

If the status of a cold case changes, the detective shall attempt to contact the victim in person or over the phone in a timely manner unless the victim previously requested to not be contacted further about the investigation or contacting the victim could harm the investigation. All attempts and contacts shall be documented in the work log section of CCMS.

### **CONTACTING COLD CASE VICTIMS THROUGH SOCIAL MEDIA**

If a victim cannot be reached over the phone or in person, the detective may contact the victim through a private social media message sent from an NOPD social media account. An officer shall not contact a victim via a private social media or e-mail account.

Detectives shall not disclose confidential information or the nature of the investigation through social media.

When contacting victims through social media, detectives should:

- a) Introduce him/herself.
- b) Inform the victim that this contact is not an emergency.
- c) Explain why the contact is being made without compromising the confidentiality of the case.
- d) Request an alternative, safe way to contact the victim in the future.

### **FALSE REPORTS**

In the event that the detective has found evidence establishing probable cause that a false report has been made, the SVS Commander and the CID Commander will determine whether an arrest should be made.

### **SEX CRIMES SUPERVISORS**

Sex Crimes supervisors shall:

- (a) Set clear expectations for the treatment of victims;
- (b) Respond to the scene to assist detectives on all felony sexual assault investigations;
- (c) Closely review investigative reports and case dispositions;
- (d) Ensure thorough, timely investigations and document supervision on the SVS Investigative Case File Index;
- (e) Review all dispositions of "cleared by exception";
- (f) Review all dispositions of "unfounded" with the SVS Commander;
- (g) Ensure detectives follow up on all CODIS hits;
- (h) Build relationships and enhance cooperation with victim advocates and forensic examination programs to respond to and reduce the risk of sexual assault;
- (i) Seek and create opportunities for ongoing training to improve the skills needed to properly respond to and investigate sexual assault;
- (j) Provide feedback based on the NOFJC's anonymous, aggregated victim surveys;
- (k) Incorporate victim interactions and services into member performance evaluations; and
- (l) Recognize and reward officers for rendering effective victim services.

### **SVS COMMANDER**

The SVS Commander and the CID Commander must both sign to indicate approval on the SVS Investigative Case File Index for each case.

This oversight shall emphasize proper investigation and documentation to accurately charge a case. In addition to the responsibility of supervising Sex Crimes detectives, the SVS Commander also shall assist platoon supervisors in maintaining the quality of platoon officer reports and help promote and maintain connections between the Department and responsible agencies.

The SVS Commander should demonstrate a detailed understanding of victim issues and proper response by detectives and responding officers.

The SVS Commander, in conjunction with a supervisor in the Sex Crimes Unit, shall closely review and approve in writing any decision to classify a report as "unfounded."

The SVS Commander shall provide the Superintendent of Police with a summary report of all "unfounded" cases on a semi-annual basis.

### CASE ASSIGNMENT

The SVS Commander shall promptly review every report of sexual assault and assign cases to detectives. Cases with the following factors will receive the highest priority in case assignment:

- (a) An imminent time deadline before which the suspect must be charged or released (701 release);
- (b) Significant injury or impairment of the victim;
- (c) A weapon is involved;
- (d) Allegations of witness tampering, strangulation, or stalking behavior; and/or
- (e) A victim expresses a fear or risk of imminent bodily harm by the perpetrator.

### DETECTIVE OVERSIGHT

The SVS Commander shall:

- (a) Ensure and document that every Sex Crimes detective is familiar with the Department's policies, Sex Crimes Unit Standard Operating Guidelines and monitor compliance with policies, including the Child Abuse Unit Standard Operating Guidelines;
- (b) Respond to the scene when required or requested;
- (c) Monitor investigative files to determine if all necessary actions were taken in the investigation and direct any necessary follow-up;
- (d) Ensure thorough, timely investigations and document supervision on the SVS Investigative Case File Index;
- (e) Return unsatisfactory investigation files to the detective with specific instructions on actions to take;
- (f) Provide consultation on cases as needed and monitor investigations to determine if additional training may be necessary. If additional training is warranted, the SVS Commander shall direct the detective to appropriate training and monitor the detectives' investigations to determine the effectiveness of their training;
- (g) Review at least one taped interview with a victim for each detective each month for consistency with Department standards for engaging with victims, using the Interview Skills Evaluation, located under resources on nopd.org, to document the review.

### TRAINING & POLICY MAINTENANCE

The SVS Commander shall review the Department's sexual assault policies and procedures with new detectives assigned to the unit within 30 days of their assignment and prior to their handling of any cases.

The SVS Commander shall provide Sex Crimes detectives initial training of no fewer than 32 hours and ongoing annual in-service training. This training shall include realistic dynamics of sexual assault, including issues related to response to trauma and delayed reporting; overcoming the perception of false/unfounded allegations to successfully investigate non-stranger sexual assault; drug and alcohol facilitated sexual assault; skills-based training on interviewing, including taped mock victim interviews; sexual assault report writing; discovery, collection, preservation, and submission of evidence; and other related topics. The SVS Commander shall be responsible for identifying any additional training needs that will improve the performance of the detectives.

The SVS Commander shall update **Chapter 42.2 – Sexual Assault** and the Sex Crimes Unit Standard Operating Guidelines annually to reflect changes in policy, law, and best practices.

### VICTIM ENGAGEMENT

The SVS Commander shall meet regularly with the District Attorney's Victim Witness to ensure that victims are receiving follow-up contact and that any additional information gathered by victim witness advocates is communicated to NOPD as necessary.

### LIAISON TO DISTRICT ATTORNEY'S OFFICE & NEW ORLEANS FAMILY JUSTICE CENTER

The SVS Commander shall:

- (a) Meet as needed with representatives from the District Attorney's office to discuss and review problematic cases;
- (b) Work to increase interagency communication between law enforcement and prosecutors to ease the transition for victims moving from the investigation phase to prosecution;
- (c) Coordinate with the New Orleans Family Justice Center in handling sexual assault cases in New Orleans; and
- (d) Participate in Sexual Assault Response Team (SART) meetings to help maintain a coordinated and victim-centered approach to sexual violence.

### **CID COMMANDER**

The SVS Commander and the CID Commander must both sign to indicate approval on the SVS Investigative Case File Index for each case.

The CID Commander, in conjunction with a Sex Crimes Unit supervisor, **must approve in writing** any decision by a detective to classify a reported sexual assault as a Signal 21 (miscellaneous complaint).

The CID Commander, with the SVS Commander, will determine whether filing a false police report should result in an arrest.

### **CASE TRACKING**

Sex Crimes Unit supervisors shall utilize a case-tracking database to ensure thorough and timely investigations.

This system shall separately track all reports of sexual assault, including drug-facilitated sexual assault, sexual assaults involving persons with disabilities rendering them unable to consent, sodomy, and male victims of sexual assault.

This system shall also track the final disposition of sexual assault investigations, including whether an arrest was made and whether the DA charged the suspect or rejected the case and, if so, the reason for the rejection if the DA provides a reason.

An ISB member not assigned to SVS, and appointed by the Deputy Chief of ISB, shall perform a quarterly review of every case to ensure the accuracy of the information in the tracking system.

The Compliance Bureau shall monitor and audit the tracking system as necessary.

### **STAFFING**

When possible, NOPD should staff Sex Crimes with sufficient detectives to limit the workload to 26 cases per detective per year.

NOPD should refrain from pulling Sex Crimes detectives for special events when possible.

**SEXUAL ASSAULT RESPONSE TEAM & CASE REVIEW**

The NOPD shall participate in monthly SART meetings to provide a coordinated, victim-centered approach to sexual assault.

In addition, NOPD will perform case reviews with the SART Case Review Committee on an at least semi-annual basis. The SART Case Review Committee shall be composed of rape crisis advocates, service providers, and/or legal providers selected by the SART and NOFJC in collaboration with NOPD. Participation in the Committee will be formalized in a cooperative endeavor agreement (CEA).

The SART Case Review Committee shall review:

- (a) Sexual assault investigations disposed of as "unfounded";
- (b) A random sample of open sexual assault investigations with victim information redacted with the approval of the DA; and
- (c) Reported sexual assaults placed in a miscellaneous or non-criminal category.

This Committee may offer written recommendations on policies, general training, remedial training for specific officers or detectives, as well as recommendations to re-examine and re-open investigations, if warranted, and with the approval of the DA. The ISB Chief shall respond in writing within 30 days of receiving these recommendations outlining its decision on how to proceed.

**This process shall include appropriate safeguards to protect ongoing criminal or administrative investigations, confidential or privileged information, and personal information that is protected from disclosure by applicable laws.**

“Restoring trust and relationship-  
building, one interaction at a time.”

## Message from Superintendent Shaun D. Ferguson

To the NOPD: *“We are going to keep our commitment and our dedication to our citizens as we press forward to make this the best police department in the United States.”*

To Our Citizens: *“We are in this together. We could not be here without you, and I thank you for everything that you have done thus far to support us, and we will continue this journey together to make this the best city in the United States of America.”*

## Charter Initiative: Implementation of NOPD Community Engagement Plan

<b>Description:</b>	Community engagement and community policing are core, foundational principles for the NOPD; the implementation of a Community Engagement Plan will be utilized in the training, documenting and evaluating of the NOPD’s community engagement practices and policies.
<b>Impact:</b>	The impact is far-reaching; as the ultimate goal is to enhance the public’s trust in the NOPD through transparency, legitimacy, procedural justice, problem-solving and partnerships.
<b>Outputs:</b>	<ul style="list-style-type: none"> <li>• Better understanding of community policing by officers</li> <li>• Better relationships between community and NOPD</li> </ul>
<b>Implementation and Key Activities:</b>	<ul style="list-style-type: none"> <li>• Assess NOPD’s current community engagement efforts</li> <li>• Organizational transformation towards community oriented policing strategies</li> <li>• Ensuring community engagement and community policing activities</li> <li>• Documentation of community policing, community engagement and problem-oriented policing</li> <li>• Standardized tracking of community policing and community engagement</li> <li>• Accountability measurements</li> </ul>
<b>Interdependencies:</b>	Development of the plan is dependent on the document reflecting best practices that are within the scope of the NOPD, with its current staffing and constraints, yet still maximizing the NOPD’s potential to significantly impact the public’s perception of the NOPD and enhance the public’s trust in the NOPD.

# **NEW ORLEANS POLICE DEPARTMENT’S**

## **Community Engagement Manual**

---

### **POLICY STATEMENT**

The New Orleans Police Department (NOPD) shall promote and strengthen community partnerships, work constructively with the community, ensure collaborative problem solving, ensure ethical and bias-free policing, and work to increase community confidence in the Department. The NOPD will effectively engage the community in collaborative problem solving. NOPD will partner with residents and stakeholders to identify and solve problems that contribute to crime, fear of crime and quality of life problems in communities. The Department is committed to proactively solving problems as well as reacting to their harmful consequences.<sup>1</sup>

### **MISSION STATEMENT**

The mission of the NOPD is to provide professional police services to the public in order to maintain order and protect life and property. In order to accomplish our mission, we are committed to the philosophy of Community Oriented Policing and Problem Oriented Policing (“CPOP”) as a means of informing our organizational decisions and prioritizing our crime fighting and quality of life initiatives by engaging each neighborhood and community organization in collaborative problem-solving partnerships. Community problem-oriented policing, and community policing & engagement are critical methods toward achieving NOPD’s mission.

### **BACKGROUND**

On July 24, 2012, the City of New Orleans, the NOPD and the Department of Justice entered into a Consent Decree which, at that time, was the nation’s most expansive. The Consent Decree is a broad, extensive blueprint for positive change, and it encompasses sweeping, Department-wide reforms. The Consent Decree contains a broad array of separate tasks and goals detailed in more than 490 paragraphs and 129 pages; it reflects a shared commitment to effective, constitutional, and professional law enforcement. The Honorable Susie Morgan, United States District Court for the Eastern District of Louisiana, approved the Consent Decree on January 11, 2013.

---

<sup>1</sup> Chapter 10.0 Community Policing and Engagement

Community engagement is one of the most important elements of the Consent Decree, because it is the cornerstone of enhancing the public’s trust in the NOPD. Every person, from recruit to Superintendent of Police, must understand the importance of community engagement and how to utilize community policing ideals, on a daily basis. It is everyone’s job to advance the NOPD’s community engagement ideals because each officer represents the NOPD, as a whole, during each and every interaction with the public. Those efforts are reflected in the positive balance of the NOPD’s “community bank account”, whereas the public makes “deposits” into that account, as well as officers, a sentiment noted in the City of Columbia’s Implementation Plan for the President’s Task Force on 21st Century Policing.<sup>2</sup>

“The police are the public and the public are police.” Sir Robert Peel<sup>3</sup>

Community policing is a core philosophy and approach to everyday policing that must be recognized and understood by every member of the NOPD. It is more than simply attending community meetings. While attending and participating in community meetings is important, essentially, many of the same people attend most community meetings and officers begin to “sing to the choir”. Employing problem-solving methods with the community and engaging with the community in non-traditional roles are ways the public can see officers outside of the normal, enforcement capacity; to see that officers are people, just like them, who happen to wear a different uniform. Finally, enhancing officers’ everyday interactions with the public is essential to the overall goal of enhancing the public’s trust in the NOPD.

This concept can be likened to NOPD’s crime-fighting concepts. If officers observe a traffic violation, they know the proper procedure is to conduct a traffic stop and all the protocols that coincide with that traffic stop, such as entering a field interview card (FIC) into the database, issuing a citation or warning, etc. Proper education on the strategies around community policing and problem-solving allows officers to utilize those skills, strategies, and terms with the same ease as they do on that traffic stop.

---

<sup>2</sup> *City of Columbia’s Implementation Plan*, p.4

<sup>3</sup> *Community Policing: The Past, Present and Future*, p. 4

In *The Collaboration Toolkit: For Community Organizations*<sup>4</sup>, authors note that officers solve problems every day, but best practices show that there is a need for a strong, well-articulated role for community members in solving neighborhood problems to make their communities safer. The police alone cannot substantially affect crime. Community involvement is an integral part of any long-term problem-solving strategy. At the most basic level, the community provides the police with invaluable information on problems that concern them. Community involvement also guides officers in concentrating on appropriate issues that will create support. This collaborative work also gives the community insight into the police perspective on crime, etc. Traditionally, law enforcement has called upon the community to act as their “eyes and ears”, but collaboration allows for the community to participate in various roles of the problem-solving process.

### Why Collaborate?

- Provide a more systematic, comprehensive approach to addressing crime and disorder problems
- Accomplish what individuals cannot alone
- Prevent duplication of individual or organizational efforts
- Enhance the power of advocacy and resource development for the initiative
- Create more public recognition and visibility for the power of community-police cooperation

If someone were to poll a group of NOPD officers and supervisors and ask them “what is a body worn camera(BWC)<sup>5</sup> or Conducted Energy Weapon (CEW)?”, commonly known as Taser,<sup>6</sup> the overwhelming majority would be able to accurately answer all of the above.

NOPD officers and supervisors understand documentation requirements and the importance of the tools. The reason that they can answer these questions is because NOPD policies have been constantly reinforced through training and have become ingrained in officers’ daily routines. While community engagement is not a physical item, like a BWC or Taser, the same message holds true. In order for officers to become familiar with terms like problem-solving, SARA (Scanning, Analysis, Response and Assessment), partnerships, community policing, etc., and use those ideals in their daily

---

<sup>4</sup> *The Collaboration Toolkit for Community Organizations: Effective Strategies to Partner with Law Enforcement*, pp. 11-13, available at: <https://www.ojp.gov/ncjrs/virtual-library/abstracts/collaboration-toolkit-community-organizations>.

<sup>5</sup> Body-Worn Camera (“BWC”)—Equipment worn by a Department member that captures audio/video signals and includes, at a minimum, a camera, microphone, and recorder. Chapter 41.3.2 Body Worn Camera (BWC) Inadvertent Misuse and Non-use

<sup>6</sup> Conducted Energy Weapon (CEW)—A weapon designed primarily to discharge electrical impulses to a subject causing involuntary muscle contractions and overriding the subject’s voluntary motor responses. Chapter 1.7.1 Conducted Energy Weapon (CEW)

interactions with the public as well as in police reports, field interview cards and other documents, those ideals must be reinforced on a regular basis through training as well as close and effective supervision. We describe below the various tools the Department uses to ensure Community Engagement principles are integrated and reinforced at every level.

### **A New Professionalism in Policing**

New Professionalism is a conceptual framework that can assist chiefs, front-line officers, and members of the public alike in understanding and molding the work of police departments today and in the future. On the front lines, the New Professionalism can help police officers work together effectively, connect their daily work to the larger goal of building a better society as well as share their successes and frustrations with the community they serve. The New Professionalism can help the public understand individual police actions as part of broader strategies.

Each of the four elements of the New Professionalism, accountability, legitimacy, innovation, and national coherence, has something to offer police and the community. The New Professionalism also embraces and extends the best of community policing. The NOPD is embracing accountability through the body worn camera program and other initiatives. The Department is becoming a leader in transparency and accountability. Legitimacy is conferred by law and earned by adhering to professional standards and winning the trust and confidence of the community. Innovation is essential at every level of a police agency.<sup>7</sup>

---

<sup>7</sup> New Perspectives in Policing: Toward a New Professionalism in Policing, pp.2-3; 14

## Building Trust and Legitimacy<sup>8</sup>

Building trust and nurturing legitimacy on both sides of the police/citizen divide is the foundational principle underlying the nature of relations between law enforcement agencies and the communities they serve. Decades of research and practice support the premise that people are more likely to obey the law when they believe that those who are enforcing it have authority that is perceived as legitimate by those subject to the authority. The public confers legitimacy only on those whom they believe are acting in procedurally just ways. In addition, law enforcement cannot build community trust if it is seen as an occupying force coming in from outside to impose control on the community.

Law enforcement culture should embrace a guardian—rather than a warrior—mindset to build trust and legitimacy both within agencies and with the public. Toward that end, law enforcement agencies should adopt procedural justice as the guiding principle for internal and external policies and practices to guide their interactions with rank-and-file officers and with the citizens they serve. Law enforcement agencies should also establish a culture of transparency and accountability to build public trust and legitimacy. This is critical to ensuring decision making is understood and in accord with stated policy.

### Procedural Justice

The Task Force also states that the public confers legitimacy only on those they believe are acting in procedurally just ways. Procedurally just behavior is based on four central principles:

- Treating people with dignity and respect
- Giving individuals “voice” during encounters
- Being neutral and transparent in decision making
- Conveying trustworthy motives

The Task Force goes on to say research demonstrates that these principles lead to relationships in which the community trusts that officers are honest, unbiased, benevolent, and lawful. The community therefore feels obligated to follow the law and the dictates of legal authorities and is more willing to cooperate with and engage those authorities because it believes that it shares a common set of interests and values with the police. Officers should take these principles with them in every interaction with the community. The collaboration between the community and police during Mardi Gras is an excellent example of this concept.

<sup>8</sup> The Pillars of 21st Century Youth-Focused Policing - [https://cops.usdoj.gov/html/dispatch/04-2016/pillars\\_of\\_21st\\_century.asp](https://cops.usdoj.gov/html/dispatch/04-2016/pillars_of_21st_century.asp)

## Community Policing and Crime Reduction<sup>9</sup>

Community policing is a philosophy that promotes organizational strategies that support the systematic use of partnerships and problem-solving techniques to proactively address the immediate conditions that give rise to public safety issues such as crime, social disorder, and fear of crime.

Yet mutual trust and cooperation, two key elements of community policing, are vital to protecting residents of these communities from the crime that plagues them. Community policing combines a focus on intervention and prevention through problem solving with building collaborative partnerships between law enforcement agencies and schools, social services, and other stakeholders. In this way, community policing not only improves public safety but also enhances social connectivity and economic strength, which increases community resilience to crime. And, as noted by one speaker, it improves job satisfaction for line officers, too. In fact, it is important that not all interactions be based on emergency calls or crime investigations.

Community policing requires the active building of positive relationships with members of the community—on an agency as well as on a personal basis. To be most effective, community policing also requires collaborative partnerships with agencies beyond law enforcement.

Problem solving, another key element of community policing, is critical to prevention. And problems must be solved in partnership with the community in order to effectively address chronic crime and disorder problems.

It must also be stressed that the absence of crime is not the final goal of law enforcement. Rather, it is the promotion and protection of public safety while respecting the dignity and rights of all. And public safety and well-being cannot be attained without the community's belief that their well-being is at the heart of all law enforcement activities. It is critical to help community members see police as allies rather than as an occupying force and to work in concert with other community stakeholders to create more economically and socially stable neighborhoods.

---

<sup>9</sup> The Pillars of 21st Century Youth-focused Policing - [https://cops.usdoj.gov/html/dispatch/04-2016/pillars\\_of\\_21st\\_century.asp](https://cops.usdoj.gov/html/dispatch/04-2016/pillars_of_21st_century.asp)

# UNDERSTANDING COMMUNITY ENGAGEMENT AND COMMUNITY POLICING

## Building relationships before an incident or crime occurs

Community engagement and community policing sound like the same thing, but actually, the ideals are different. Community engagement is an all-encompassing term for how police interact with the public. For example, it includes the way officers explain police actions to a citizen, how they personalize their interactions with the public and humanize themselves, while still maintaining the highest level of professionalism and safety.

Do officers sometimes ride with the windows down to “hear” what’s going on in the community they serve? Do they get out of the car and stop to talk with the church group that’s cleaning up the neutral ground or the kids selling lemonade? De-escalation tactics include community engagement strategies as well.

Community policing is a philosophy that promotes organizational strategies, which support the systematic use of partnerships and problem-solving techniques, to proactively address the immediate conditions that give rise to public-safety issues such as crime, social disorder, and fear of crime.

## Ten Principles of Community Policing

- Change
- Leadership
- Vision
- Partnership
- Problem Solving
- Equity
- Trust
- Empowerment
- Service
- Accountability

<b>COMMUNITY POLICING IS NOT....</b>	
A tactic, technique, or program.	Community policing is not a limited effort to be tried and then withdrawn, but instead a new philosophy of delivering public service to the community.
“Soft” on Crime	Community policing addresses the entire matrix of problems that result in crime, fear of crime and disorder.
Paternalistic	Community policing shifts the role of police from “expert” to “partner.”
Cosmetic	Community policing addresses the entire range of dynamics that allow problems to fester and grow.
Just Another Name for Business as Usual	If there is no substantive change, then it is not community policing.

*Both graphs are from Community Policing, How to Get Started by Robert Trojanowicz and Bonnie Bucquerou<sup>10</sup>*

Problem-solving orientation towards policing, rather than the incident-oriented approach is recommended. Whenever possible, officers should search for underlying conditions that give rise to

---

<sup>10</sup> Community Policing: How to Get Started, 2nd Edition, pp. 8-9, 10-12

single and multiple incidents. Once identified, officers should try to affect them as a means of controlling and preventing future incidents.<sup>11</sup>

For example: After Hurricane Katrina many homes were left abandoned and vulnerable for criminal activity. In the 5th District, specifically the 1300 block of France St., NOPD received many calls regarding drug related criminal activity, visual nuisance, murders, and health concerns at the location. Officers were assigned tasks that potentially resolved the larger issue of narcotics sells and usage and other criminal activities in the neighborhood to increase the quality of life in the community until a permanent solution could be obtained. Tasks included:

1. contacting Code Enforcement to assess the overgrown lot on the property, and
2. boarding up entry points of the home and contacting the homeowner to establish plans on how to revitalize the property for redevelopment.

As a result of these and other tasks, criminal activity decreased on the property until the home was demolished on November 12, 2020, and the lot was cleared. Currently this location is no longer being used as a hub for criminal activity and the quality of life for the residents in that area has increased.

[Report from WWLTV](#)

Most police officers will say that they became a police officer to help people. Even though the average day of a police officer is quite busy, he or she can still find the time to utilize community policing and problem-solving strategies. Officers can efficiently move through their day, respond to calls for service effectively and still have time to include these ideals in their daily interactions with the public.

---

<sup>11</sup> Community Policing: Principles and Elements, pp.6-8

## Police Perspective: Rules for Community Engagement

*Building Trust in a Diverse Nation, How to Increase Cultural Understanding, COPS/Vera<sup>12</sup>*

1. Police officers must understand that they are public servants charged with helping the community solve its problems.
2. Officers must recognize that crime prevention is part of their job and in order to do this, they must connect with community service providers and help those who need services, get access to them. This will prevent an unnecessary reliance on the justice system for their wellbeing.
3. Police must stop assuming that they know what the community wants and needs. Instead, they should go to the community often and ask what it wants and needs from them. This is a building block of community trust and departmental transparency.
4. Officers must engage with the community and discuss their planned approach to enforcing the law and ensuring community safety. If the majority of the neighborhood does not support this approach, police must adjust their plan. Targeted enforcement must always be coupled with a focused community relationship-building campaign.
5. Officers must behave and communicate with decency. A positive attitude is everything. Behaving this way attracts people and enables them to begin trusting you.
6. Officers must admit when they get it wrong. Community members understand that police are human and make mistakes. If an officer treats someone badly or makes a mistake, he or she must admit the errors and ask for help from fellow officers.
7. Police officers must meet with community members in the community.

## Supervisor Buy-In

In the DOJ/COPS manual, *Reaching Out to the Private Sector: Building Partnerships and Managing Your Workforce*, authors note that first-line supervisors play an integral role in fostering and identifying effective community engagement skills in their officers. The leadership, or lack thereof, exhibited by a sergeant can have an extreme effect on how an agency is perceived by the public. Officers want leadership and empowerment; first-line supervisors must find the balance.<sup>13</sup>

A COPS article by Chris Cognac noted that support and encouragement from command staff and supervisors make a huge difference in an individual officer's ability and willingness to go above and beyond, to truly become community police officers. But to get proactively involved in the community

---

<sup>12</sup> *Building Trust in a Diverse Nation: How to Increase Cultural Understanding*, p. 21

<sup>13</sup> *Reaching Out to the Private Sector: Building Partnerships and Managing Your Workforce*, p.33

they serve; officers must also have the capacity to identify a need and find a solution by being given the time and opportunity to do so.<sup>14</sup>

Supervisor buy-in on community engagement is essential. Supervisors must recognize that community engagement is important, they must understand what community policing looks like and they must ensure that officers are positively engaging with the community on a daily basis. It is as simple as a supervisor recognizing an officer in roll call who received a letter of recognition from a member of the public for positive community engagement or submitting a commendation for an officer who has gone over and above in the area of community engagement. It may also involve providing more guidance or training to an officer who is struggling with integrating problem-oriented policing in their daily activities. Mechanisms that ensure supervisors track community engagement in a qualitative manner, in addition to a quantitative manner are important also.

### Guiding Principles for Supervisors

- Supervisors will recognize positive community engagement strategies and activities by officers in the Districts' and departmental MAX<sup>15</sup> meetings.
- While completing performance evaluations, supervisors will critique and assess officers' community policing and community engagement efforts.
- Supervisors will monitor and instill community policing ideals within the officers they supervise.
- Supervisors will regularly communicate with the Community Engagement Section and Community Engagement Section Manager about the activities in their district and collaborate on new, innovative strategies to promote community engagement and community policing in their districts.

---

<sup>14</sup> Ready, Set, Engage! Ideas and Options for Community Engagement and Partnership Building, p. 2

<sup>15</sup> The Management Analytics for Excellence meeting was formerly known as the Comstat meeting.

## EFFECTIVE TRAINING IS ESSENTIAL

In the Vera Institute’s<sup>16</sup> *How to Support Trust Building in Your Agency* document, authors suggest that while police agencies may be increasingly turning to community policing to improve every manner of operation within their jurisdictions, they require more concerted and innovative training strategies to ensure that agencies have a rank and file that can support such undertakings. Police training should be comprehensive and continuous: from training recruits on cultural awareness to training patrol officers on effective communication practices to training supervisors on identifying and responding to bias. Investing in continuous training at all levels allows for the fostering and development of a more skilled, community-centered police agency.

### Field Training Officers

NOPD recruits undergo a rigorous training curriculum—a mix of classroom, scenario-based and physical training for 26 weeks at the Training Academy. Once they graduate, they’re paired with a veteran officer known as an FTO, or Field Training Officer, who serves as a mentor through the recruit’s 16 weeks of field training. FTO’s serve as a liaison between classroom learning and street smarts. For recruits fresh out of the Training Academy, FTO’s are a lifeline with years of experience and have the institutional knowledge that only comes with being on the job. FTO’s participate in a separate in-service training every year, in addition to their core in-service training<sup>18</sup>, as well.

---

<sup>16</sup> Vera Institute of Justice works in partnership with local, state and national government officials to create change from within.

## Education and Training: Annual Master Training Plan

The Annual Master Training Plan (AMTP) supports the Department’s mission by identifying a comprehensive set of educational goals and objectives that fosters professional development and provides the skills training necessary for officers to perform their duties in an unbiased, safe and proficient manner. The 2021 Annual Master Training Plan will differ from that of the past years both in its content and design. This training continues to reflect the community expectations that officers’ police diligently in a professional manner; have an understanding of and commitment to the constitutional rights of the individuals they encounter; and employ strategies to build community partnerships that sustain public trust, peace and safety. However, there has been a complete shift to using the Problem-Based Learning instructional strategy rather than a combination of Problem-Based-Learning and Lecture-based presentations.

Problem-Based-Learning (PBL) is a “learner-centered” teaching model that creates an opportunity for problem-solving according to individual learning styles and the development of critical thinking skills.<sup>17</sup>

Traditionally, learning has involved a teacher or instructor delivering information as content to the learner. PBL, however, begins with presentation of a *real life* problem that the trainee must attempt to solve. The trainee follows a pattern of discovery whereby officers express ideas about resolving the problem, lists known facts, decides what information to use, and develops an action plan.<sup>18</sup>

Consent Decree Paragraph 226 requires structured training in community policing and problem-oriented policing for all officers, supervisors, managers and executives. Listed below are the training courses provided related to community policing<sup>19</sup>:

### **Community policing training shall include: (Respective course titles follow each requirement)**

- **Applied Problem-Oriented Policing:** This course will include a PBL activity that requires the formulation of an action plan targeting the Department’s #1 strategic goal for a reduction in violent crime categories. The groups will be challenged to mobilize community involvement, develop data driven strategies, and improve investigative methods. Solutions must also consider any potential negative effects of aggressive patrol, thus maintaining community support through fair and impartial policing while building relationships of trust.
- **Establishing Community:** This course will utilize a series of activities and interactive discussion in how to foster relationship-based policing in this community. The City of New Orleans is a cultural gumbo that incorporates many diverse neighborhoods, all of which are prime candidates for enhanced police and citizen partnerships.
- **Crisis Intervention Decision Making:** This course will utilize body worn camera videos of mental health encounters to stimulate classroom discussion. These will lead into a PBL activity designed to evaluate key crisis intervention decisions. The situation will challenge

<sup>18</sup> A Problem-Based Learning Manual for Training and Evaluating Police Trainees pp. 15, [https://popcenter.asu.edu/sites/default/files/pto\\_trainee\\_manual.pdf](https://popcenter.asu.edu/sites/default/files/pto_trainee_manual.pdf)

<sup>19</sup> 2021 Annual Master Training Plan

when to transfer from continued de-escalation negotiation strategies to a hands-on submission.

- **Domestic Violence:** This course will utilize a PBL Exercise to examine an officer's ability to complete an accurate DV Risk Assessment to identify the "predominant aggressor" in a domestic violence incident. The situation will include aspects of a mental health encounter requiring de-escalation. An EPIC moment will also be identified in this incident. A component will include a review of the NOPD Language Assistance Plan and how officers should interact with Limited English Proficiency citizens. This same DV incident scenario will lead into the Day 3 course for CEW scenario deployment.
- **Performance Evaluation Process:** This course will review the setting of applicable performance-oriented goals, including community policing metrics, and the monitoring of employee performance throughout the evaluation year.
- **Procedural Justice Solutions:** This course will begin with a review of the problem-oriented policing methodology offered in 2019, reinforcing the process for solving community concerns and Department priorities. Officers will participate in a PBL activity that will require community participation in an action plan featuring the deployment of proactive patrol strategies. The teams will review the "Procedural Justice" audit scorecard and its application towards planned aggressive enforcement solutions. The scorecard provides guidance for the proper method of interacting with suspects in vehicle and pedestrian stops. A focus on constitutional policing procedures that reinforce the core principles of procedural justice, bias-free policing, police legitimacy, and community policing will be addressed.
- **Command Staff Problem-Oriented Policing:** This course will include a PBL activity that requires the formulation of an action plan targeting the Department's #1 strategic goal for a reduction in violent crime categories. The groups will be challenged to mobilize community involvement, develop data driven strategies, and improve investigative methods. Solutions must also consider any potential negative effects of aggressive patrol, and to maintain community support through fair and impartial policing while building relationships of trust.
- **Establishing Community Connections for Supervisors:** This course will utilize a series of activities and interactive discussion to demonstrate to supervisors how they can stimulate their officers to foster relationship-based policing in this community. The City of New Orleans is a cultural gumbo that incorporates many diverse neighborhoods, all of which are prime candidates for enhanced police and citizen partnerships.
- **NOPD Mission, Vision and Values:** This course will address NOPD Mission Statement, NOPD Core Beliefs, the Education and Training Division Mission Statement and the Importance of Community Policing.
- **Police Role in the Community:** This course will assist each recruit in understanding their obligation to society, their role in the community, and their place in the criminal justice system. The training will also identify ways in which officers can influence and affect the community's attitude toward the police, and emotional temptations that lead to unethical behavior.

- **Community Policing - Foundations:** This course will familiarize participants with the development of community policing both as an overall philosophy and as a problem-solving method. The training will enable participants to distinguish differences between traditional law enforcement and community policing.
- **The Cultural Gumbo of New Orleans:** This course will identify the distinct cultural differences in the New Orleans neighborhoods and community make-up of the city. The training will also expose recruits to some of the most common street language.
- **Diversity in the Community:** This course will aid the recruit in understanding and identifying unique factors when communicating with minority citizens.
- **Attaining Respect for the Peace Officer:** This course will address each recruit's collective role in gaining respect for the peace officer, and ensure they are aware that their actions often influence the public's attitude toward the law enforcement community. The training will also identify the standards by which citizens evaluate a police department and what the community expects from their officers.
- **Standards of Conduct:** This course will define the standards of conduct expected of a professional police officer. The training will explain ethics, areas of service, and the elements of integrity. Discussions on off-duty professionalism, social media, life-style choices, and common neglect of duty violations will also be emphasized.
- **Community Policing – Relationship Based Policing:** This course is a program that refocuses building trust and public confidence while sustaining crime fighting partnerships with the community. In this version of community policing revisited, officers will participate in scenario-based training to apply methods to develop partnerships and engage in community problem solving and collaboration. Components will include the outreach to limited English proficient citizens and an introduction to violence reduction strategies.
- **Bias Policing Recognition:** This course will introduce the fundamental principles that policing based on bias can be unsafe, ineffective and unjust. It is necessary that police officers understand how their own implicit biases can impact their perception, decisions, and actions.
- **EPIC:** This course will introduce the Department's EPIC Peer Intervention program which provides officers with the tools to intervene successfully when confronted with the mistakes of their peers. The training will identify program components– addressing inhibitors, critical loyalty & active bystanders. This course will engage officers in reviewing videos from negative police/citizen encounters from cities across the nation. The officers will be assembled in problem-based learning pods and each group will be required to discuss the negative outcomes, while providing a presentation to the class detailing how a peer intervention would have benefited the officers and citizens.
- **LGBTQ Awareness Training:** This course will discuss terms used in the LGBTQ

community and identify positive police interactions. The training will propose methods of cooperation and community impact and how the Department and the LGBTQ community can make the City a safer, more accepting place to live.

- **Crime Prevention:** This course will identify crime prevention concepts and examine a set of theories regarding the police-citizen cooperation roles in the prevention of crime. The training will also discuss the operational aspects of crime prevention programs and the basic steps necessary in assessing a crime problem.
- **Encountering the Hearing Impaired:** This course will describe the actions that can be undertaken for an officer to communicate with a person who is hearing impaired. The training will identify the support resources that are available to assist and what materials may be utilized until the arrival of an interpreter.
- **Language Assistance Plan and LEP Protocol:** This course will present the protocol and procedures for communicating with Limited English Proficiency individuals and the support services available.
- **Police and the Media:** This course outlines the responsibilities of the Public Information Office and Department guidelines for officers dealing with the media in the performance of their duties.
- **Community Policing - Problem Solving the Challenge of Opiate Abuse:** This course will apply the principles of community policing and developing partnerships with public health agencies to address a major issue confronting the nation's police departments, the opioid addiction epidemic. Proactive enforcement strategies for patrol officers and detectives will be discussed. Officers will understand the officer safety issues from the threat of exposure to Fentanyl, a dangerous synthetic opioid. As first responders, officers on the scene of an opioid overdose can prevent fatalities with training in the deployment of Naloxone (Narcan).
- **Community Policing - Procedural Justice:** This course will identify the core concepts and principles of procedural justice and how each relates to the Department and the community. The training will present the four pillars of procedural justice, define how to increase legitimacy with the community, and discuss how procedural justice relates to the use of force.
- **Survival Spanish:** This course employs a variety of self-instructional techniques that provide a law enforcement officer with immediate access to practical Spanish that can be deployed in policing activities. An officer typically uses only a small number of phrases, questions and commands in order to do his job. These very limited survival language items form the basis of this program.
- **Victim Assistance and Notification:** This course will provide an overview of victim assistance, including the law that governs basic rights for crime victims & witnesses. The training will describe the advantages of the victim assistance program and define the purpose of the Louisiana Victim Notice & Registration forms

- **Law Enforcement and the Elderly:** This course will provide a description of the crimes associated with elder abuse. The training will review the Louisiana Law that governs abuse of elderly/disabled adult victims and propose investigative and notification requirements.
- **Verbal Communication as a Force Option:** This course shall develop tactical communication strategies for officer safety and enhanced professionalism. The training will deploy the principles of verbal judo which incorporates words as a force option and a valuable tool in de-escalation strategies. The overall goal of tactical communication and verbal judo is to generate voluntary compliance from a compliant or non-compliant violator(s).
- **De-Escalation:** This course will review the principles of de-escalation in the handling of crisis events and critical incidents involving use of force. The training will include a review of the Departmental guidance and feature role play scenarios that evaluate an officer's decision making towards force options.

### Problem-Oriented Policing

Problem-Oriented Policing is a proactive problem-solving approach that uses the SARA model to focus on proactive solutions, specific crime problems and achieving crime reduction results. The problems must be those that the community recognizes as important. The NOPD is already doing this work with the creation of the District Community Policing Plans, the hiring of Community Liaison officers, the domestic violence policy/Blueprint for Safety, and the Crisis Intervention Team.

Lord Stevens, a previous commissioner of the London Metropolitan Police Service once described the fundamental challenge of policing with an analogy. He asked his audience to visualize a fast-flowing river, sweeping hundreds of people away in its current. He contended that the traditional police response is to jump into the river and try to help as many people as possible, rather than to move upstream to figure out why and how people are falling into the river in the first place. He went on to say, "And so begins a reactive cycle of uncontrolled demand and equally uncoordinated response. The police become like lifeguards frantically swimming against the tide from one incident to another, employing different tactics in a disjointed and unfocused manner with little or nothing to

show for it at the end of the day.” The use of POP offers an option for police to have something sustainable to show for their efforts at the end of the day.<sup>20</sup>

### The SARA Model

A commonly used problem-solving method is the SARA model (Scanning, Analysis, Response and Assessment). The SARA model, as defined by the Center for Problem Oriented Policing,<sup>21</sup> contains the following elements:

SCANNING	ANALYSIS	RESPONSE	ASSESSMENT
Identifying recurring problems of concern to the public and police.	Identifying and understanding the events and conditions that precede and accompany the problem.	Brainstorming for new interventions.	Determining whether the plan was implemented (a process evaluation).
Identifying the consequences of the problem for the community and the police.	Identifying relevant data to be collected.	Searching for what other communities with similar problems have done.	Collecting pre and post response qualitative and quantitative data.
Prioritizing those problems.	Researching what is known about the problem type.	Choosing among the alternative interventions.	Determining whether broad goals and specific objectives were attained.
Developing broad goals.	Taking inventory of how the problem is currently addressed and the strengths and limitations of the current response.	Outlining a response plan and identifying responsible parties.	Identifying any new strategies needed to augment the original plan.
Confirming that the problem exists.	Narrowing the scope of the problem as specifically as possible.	Stating the specific objectives for the response plan.	Conducting ongoing assessment to ensure continued effectiveness.
Determining how frequently the problem occurs and how long it has been taking place.	Identifying a variety of resources that may be of assistance in developing a deeper understanding of the problem.	Carrying out the planned activities.	
Selecting problems for close examination.	Developing a working hypothesis about why the problem is occurring.		

<sup>20</sup> Implementing POP: Leading, Structuring and Managing a Problem-Oriented Police Agency, p.3

<sup>21</sup> <http://www.popcenter.org/about/?p=sara>

	<b>Problem Oriented Policing</b>	<b>Community Policing</b>
<b>Primary emphasis</b>	Improving response to public safety problems falling within police mandate	Engaging the community in the policing process
<b>When police and community collaborate</b>	Determined on a problem-by-problem basis	Always or nearly always
<b>Emphasis on problem analysis</b>	Highest priority given to thorough analysis	Encouraged, but less important than community collaboration
<b>Preference for responses</b>	Strong preference that alternatives to criminal law enforcement be explored and that preventative responses be preferred over merely reactive ones	Preference for collaborative responses with community
<b>Role for police in organizing and mobilizing the community</b>	Advocated only if warranted within the context of the specific problem being addressed	Emphasizes strong role for the police
<b>Degree to which police share decision-making authority with community</b>	Strongly encourages input from community while preserving police's ultimate decision-making authority	Emphasizes sharing decision-making authority with the community

Implementing POP: Leading, Structuring and Managing a POP Agency by Michael Scott and Stuart Kirby<sup>22</sup>

### **Using SARA and Problem-Oriented Policing**

Charlotte-Mecklenburg noted in its Advancing Community Policing Grant that most officers did a quick scan of a problem and then moved immediately to the response phase, whereby officers missed the opportunity to use the power of available data to understand the true nature of the problem, who was affected, what the consequences were and how to shape a response based on the results of data analysis.<sup>23</sup>

The DOJ/COPS Guide to Reducing Crime and Disorder Through Problem Solving Partnerships suggests that comprehensively analyzing a problem is critical to the success of the problem-solving effort. Effective tailor-made responses cannot be created unless the officer knows what is causing the

<sup>22</sup> Implementing POP: Leading, Structuring and Managing a Problem-Oriented Police Agency, p.9

<sup>23</sup> Community Policing in Action; A Practitioner's Eye View of Organizational Change, pp. 23-24

problem. Skipping analysis also runs the risk of addressing a problem that does not exist and/or implementing solutions that are ineffective in the long run. The reasons for skipping the analysis process include the nature of the problem sometimes falsely appears obvious at first glance and investigating or researching the problem does not appear as “real” police work.<sup>24</sup>

Consider the application of the SARA model to the follow example: A group of citizens report illegal dumping of tires at a particular location.

**Scanning:** Ask the group do they regularly see tires being dumped at this location or is it the first time they have seen tires dumped there? Does anyone in the group know who owns the property, as it may be a neighbor that currently resides within or outside of New Orleans. How big of an issue is this for their neighborhood?

**Analysis:** Visually inspecting the location to determine, is this an abandoned property, occupied home or vacant lot adjacent to a neighboring property. Does the group have a time frame that the tires were most likely dumped? Have they seen any large trucks with tires in the neighborhood recently, if so, was it a commercial vehicle? Are there any visible surveillance cameras in the area?

**Response:** Initiate a Signal 21Q, quality of life complaint, (if the officer hasn’t already done so) (signals discussed more in depth below). Advise the group of the process to report illegal dumping to the City’s 311 system and that they will receive a work order number to find out the status of progress. Let the group know that you will share this information with your supervisor; that supervisor will then share that information to the particular platoon supervisor that is designated as the time frame that the dumping has occurred, to include random patrols as a deterrent. Provide the group with the number to the Sanitation Department. Relay to the group that they should call 911 if they observe any suspicious activity in the neighborhood, like someone actively engaged in illegally dumping tires at the location.

**Assessment:** Providing the group with the district’s email address and next NONPACC<sup>25</sup> meeting, if they have additional information to share as it relates to law enforcement’s role in the matter. The notified supervisor will then share that information to the particular platoon supervisor that is designated as the time frame that the dumping has occurred to incorporate random patrols as a deterrent.

---

<sup>24</sup> Guide to Reducing Crime and Disorder Through Problem Solving Partnerships, p.11

<sup>25</sup> New Orleans Neighborhood Police Anti-Crime Council meeting, held monthly, in each police district, which is attended by district leadership, to address community concerns and share crime-fighting strategies with the public.

## Every Officer Is a Quality of Life Officer

*“Empowering residents to take responsibility for their neighborhoods” “Fostering the development of NOPD neighborhood ambassadors” “Challenging officers to proactively engage with the community”*

The Department is continually building mechanisms whereby every member of the NOPD seizes the opportunity to actively engage the community and proactively engage in problem-solving strategies. Each officer should take ownership for more than what occurs on his/her platoon; everyone should own the community’s problems. A simple example is notifying the next watch, at shift change, of a particular community problem or concern that needs to be addressed during that time frame.

Every officer, whether on the platoon or assigned to any other unit outside of the eight police districts, needs a working knowledge of how to positively engage with the community, because the primary focus is enhancing every officer’s daily interactions with the public, not just how officers engage with those that they meet through calls for service.

As stated by Gary W. Cordner in *Reducing Fear of Crime: Strategies for Police*, to increase the degree of familiarity between residents and the police, which he called personalized policing, officers must know the people who live in their beats and have a degree of responsibility for protecting them; residents should be able to identify the officers and supervisors that work in their neighborhood. Ideally, these interactions become personal and less bureaucratic, which heightens the public’s sense that the police care and can be counted on to protect their community.<sup>26</sup>

The New Orleans Police Department created a community engagement officer position, called Community Liaison Officer (CLO), specifically to address community quality of life issues and build trusting relationships with the residents and stakeholders in each district. The CLO is selected by each district Captain and is tasked with establishing and fostering meaningful relationships and

<sup>26</sup> Reducing Fear of Crime: Strategies for Police, p. 45

connections with the community. The CLO engages in problem identification and problem-solving activities with community members around the community's priorities and works proactively with other city departments to address quality of life issues. CLOs also work with platoon officers in problem identification and problem-solving. CLOs primary function is to focus on problem orientated policing and resolution in the communities.

## **GEOGRAPHICAL DEPLOYMENT**

### **Providing More Time to Engage in Problem-Solving Strategies**

NOPD's new geographical deployment (Geo-Deployment) plan is a fundamental component of the Department's Community Policing strategy. Having the SAME officers assigned to the SAME "area" (Car Sector), on every shift, ensures that they take ownership of their assigned area and learn the area, the people and the issues. Geo-Deployment also affords the officers and the community an opportunity to know one another and build trust. NOPD's strategy aims to build more unstructured time into officers' schedules for community policing activities. The NOPD has enacted several initiatives to remove duties from platoon officers. This, paired with the continual hiring of new officers, will assist in allowing officers more time to engage in problem-solving strategies. Recent initiatives include:

- A major restructuring effort that increases police presence and reduces violent crime in neighborhoods with creating sectors in each district.
- Implemented an Alternative Police Response Unit (APR)<sup>27</sup> to handle non-violent property crime reports via telephone.
- Shifting non-essential duties (administrative and mechanical tasks) away from commissioned officers by establishing the APR Unit.
- Updating the City's False Alarm Ordinance to reduce time responding to false alarms.
- Established an on-line reporting system to report non-violent property crimes to police, available at <https://nola.gov/nopd/nopdonline/>
- Continuing an aggressive recruiting and hiring campaign
- Removal of Desk Officers on Third Watch Burden Reduction Working Groups
- Utilize Electronic Warrants (CloudGavel) to expedite the warrant process

As a fundamental component of the Department's Community Policing strategy, geographical deployment helps facilitate more contact between the police and the community stakeholders within a particular area. Geographical Deployment is defined as the assignment of the same officers to specified areas of land or Car Sectors across all shifts.<sup>28</sup>

To successfully implement the Department's geographical deployment strategy, a platoon must have the same officers, assigned to the same "area" (Car Sector), on every shift, to ensure they take ownership of their assigned area, i.e. learn the area, the people, and the issues. This also affords the officers and the community the chance to know one another and build trust.

In implementing the community policing philosophy, Districts may deploy officers and detectives in specific geographical areas where a problem is occurring. The assigned officers will work with residents and stakeholders, where possible, to seek solutions and create a safe environment. Officers

---

<sup>27</sup> [NOPD Policy Chapter 41.4.2: Alternative Police Response](#)

<sup>28</sup> Please see Field Operations Bureau Directive #50 – Geo Deployment in the appendix of this document for more information.

should also remember that communities arise not only from shared geography but also social ties, common perspectives, and shared circumstances (for example, the LGBTQ+ or LEP community). NOPD shall seek to engage all communities in its community policing and engagement efforts.

Officers should utilize Community Liaison Officers, the Police Activities League Coordinator, LGBTQ+ liaison, and the Language Access Coordinator to assist with building relationships within sectors.

**Geographical Deployment: Building Trust & Relationships**

Building relationships within an officer’s assigned geographic area (Sector) also builds trust in the police department over time. In addition to patrolling the geographic area, NOPD officers also learn the issues and concerns of its community by engaging in all of the community policing activities described in this Manual *within* their police sector.

Officers should also be utilizing the SARA model to address quality of life concerns as well as other problems caused by increases in crime. Community Liaison Officers are a great resource to ensure that quality of life issues can be adequately addressed through partnerships with city non-profits or government agencies. Please refer to the *SARA Model* and the *Using SARA and Problem-Oriented Policing* sections of this Manual for more information.

**Geographic Sectors**

Under NOPD’s geo-deployment plan, officers are assigned to specific Sectors (beats) within their district to engage in Community Oriented Policing and Problem Solving (COPPS) initiatives. Officers, through frequent and consistent engagement activities within a defined Sector, develop a greater sense of local concerns, build stronger ties within the community, and take ownership of problems within their assigned beat.

Districts 1-7 have each been divided into 4 (four) Car Sectors; Sectors 1, 2, 3 and 4. The 8th District, which encompasses a smaller geographical footprint, has been divided into 3 (three) Car Sectors and walking beats (Bourbon Promenade); District Car Sector Maps are attached as addendums to this manual for reference. These sectors came into effect mid-June of 2020.

The first digit of the three-digit number, is the District The second digit of the three-digit unit number indicates the officers’ Car Sector assignments. The last digit of the three digit number (1-9) indicates the possible units that could be identified and assigned to the Sector if resources allow.

	<b>SECTOR 1</b>	<b>SECTOR 2</b>	<b>SECTOR 3</b>	<b>SECTOR 4</b>
1ST DISTRICT	111-119	121-129	131-139	141-148
2ND DISTRICT	211-219	221-229	231-239	241-248
3RD DISTRICT	311-319	321-329	331-339	341-348

4TH DISTRICT	411-419	421-429	431-439	441-448
5TH DISTRICT	511-519	521-529	531-539	541-548
6TH DISTRICT	611-619	621-629	631-639	641-648
7TH DISTRICT	711-719	721-729	731-739	741-748
8TH DISTRICT	811-819	821-829	831-839	_____

This numbering system shall be applied consistently, across all three platoons, in each of the eight Districts. For example, Unit 211 indicates the officer is assigned to Sector 1 of the Second District, Unit 635 indicates the officer is assigned to Sector 3 of the Sixth District, etc.

### **Deviation from Geographic Area**

There are times when a supervisor will determine that it is necessary for an officer to deviate from his or her assigned Sector. When a given unit number assignment is out of the Sector for 4 (four) hours or more of a shift, or when a unit initiates a deviation which lasts for 4 (four) hours or more, one of the following justifications must be documented on a deviation form:

1. Staffing level is below the minimum to support all Sector assignments.
2. Backlog of Code 1 or 2 call for service.
3. Occurrence of a major scene, such as a homicide requiring additional resources.
4. Some other compelling reason, such as a spontaneous demonstration, prisoner guard detail at hospital, station assignment.

Supervisors are encouraged to limit the negative impact of events and maintain geo-deployment in as many Sectors as possible, for as long as possible. A return to geo-deployment as quickly as possible after a deviation is strongly encouraged. Geo-deployment assignments take precedence over other specific unit assignments (i.e. Traffic Car or District wide coverage assignments).

### **Documentation**

Geographic Deployment is tracked through Computer-Aided Dispatch (CAD) data by identifying what calls are answered by officers outside of their Sector and the amount of time officers spend on those calls.

When a deviation from the sector is necessary, supervisors must submit a Geo-Deployment Deviation Form to PSAB. The Deviation Form documents when a platoon supervisor has designated a deviation from the District/Platoon geo-deployment assignments for 4 (four) hours or more of a shift or when a unit initiates a deviation which lasts for 4 (four) hours or more and the reason for the deviation.<sup>29</sup> Officers should initiate a Signal 10-18 (Return for additional information) as soon as possible to

---

<sup>29</sup> Please see Field Operations Bureau Directive #50 – Geo Deployment in the appendix of this document for more information about deviation forms.

ensure that the time spent on a call for service outside of the assigned sector is accurately measured. Officers should aim to spend at least 50% of their time within their sectors.

## **LIMITED ENGLISH PROFICIENCY SPEAKING COMMUNITIES**

New Orleans has long been an international locale, rich with a diverse population of residents hailing from around the globe. The NOPD is continually building mechanisms and training opportunities to enhance engagement with all segments of the community, including limited English communities. NOPD's efforts model the Vera Institute practices. The Vera Institute notes cultural competency training exposes officers to cultural differences and language barriers they may encounter when interacting with limited English communities. Developing this knowledge is essential for officers seeking to foster trust and effectively respond to the community's public safety needs. Policing in the 21st century means preparing police departments to serve increasingly diverse multicultural populations and furnishing police officers with the tools and resources necessary to serve all members of their communities.<sup>30</sup>

As part of an on-going effort to build trust between the community and the police, the NOPD is:

- Building a team of bilingual officers to improve communication with limited English-speaking communities
- Equipping officers with translation devices in the field
- Translating public information in other languages at NOPD facilities
- Training new recruits on interacting with the Spanish-speaking community
- Aggressively recruiting bilingual police officers
- And has selected a Language Access Coordinator (commissioned officer) to facilitate, monitor, oversee, and track language interpretation and translation services to LEP individuals encountered by department employees.

---

<sup>30</sup> Building Trust in a Diverse Nation: How to Serve Diverse Communities, pp. 6, 32

For the first time in the history of the Department, the NOPD is building a team of certified bilingual officers. Their mission is simple but incredibly important to the overall community policing strategy: improve the way NOPD communicates with limited English-speaking members of the community to build trust and strengthen relationships. While the NOPD always had officers who had bilingual abilities, this is the first time the NOPD has put together a comprehensive Language Assistance Plan, that includes a pay incentive, that brings a team of officers together to use their skills on patrol. The Language Assistance Plan can be reviewed at <https://nola.gov/nopd/policies/>. In 2016, the Civil Service Department partnered with a local registered interpreter to hold the first certification exam for Spanish-speaking officers. To date, 28 officers and two civilian employees have been certified as bilingual and are being called upon every day to communicate in the field with limited English-speaking residents and visitors who interact with police. The Vera Institute noted when officers are working to build trust and collaboration with Latino victims of crime, a best practice is to use Spanish-speaking officers or telephonic interpreters, when Spanish-speaking officers are unavailable.<sup>31</sup>

The same initiative will soon be launched for Vietnamese-speaking officers. Additionally, participation in cultural celebrations and events, such as the Lunar New Year, are also important ways to overcome cultural differences and build relationships.

The Vera Institute’s *Engaging Police in Immigrant Communities: Promising Practices from the Field* noted that the Storm Lake Police Department analyzed calls for service data that revealed the largest number of calls came from the four neighborhoods in which the majority of the city’s Laotian and Latino immigrants live. The SLPD decided to expand the use of the mobile command unit by dispatching it to Laotian and Latino neighborhoods, where it could serve as a temporary substation. They piloted the program over the course of a summer, alternately parking the mobile command unit in each of the four communities for 2 to 3 hours during the evening when the department typically received the largest number of calls for service.

Each evening, the temporary substation attracted about 50 to 150 citizens. Police department personnel were present at the temporary substation, as well as government agencies, such as the fire department and social service agencies that provide additional services or community outreach. By working out of this neighborhood-based substation, officers are able to respond quickly to emerging

---

<sup>31</sup> Building Trust in a Diverse Nation: How to Serve Diverse Communities, p. 8

issues and make face-to-face contact with many more citizens. As a result of this increased contact, some residents came forward to report crimes and public safety concerns that they would never have reported by calling 911 or traveling to police headquarters. By utilizing data to prioritize the allocation of finite resources, the SLPD has been able to respond to a larger number of the city's crimes and public safety threats in an efficient and responsive manner.<sup>32</sup> This initiative could not only be used in the Hispanic and Vietnamese communities, but across the City, in various neighborhoods, as a proactive outreach strategy to build relationships with the community.

The New Orleans Police Department has revised its Language Assistance Plan (LAP) to ensure the Department is providing adequate services to LEP individuals. Please click the link to view the [Language Assistance Plan](#).

## **OPERATIONALIZING COMMUNITY ENGAGEMENT AND COMMUNITY POLICING**

*Visible actions resulting in invisible reactions (enhancing trust in the NOPD)*

The NOPD invests in continuous training at all levels of the NOPD; which includes Recruit Training, Core In-Service Training, Supervisor In-Service Training, Daily Training Bulletins and resources on SharePoint.<sup>33</sup> The NOPD has established the Community Engagement Manual to guide the Department forward with its Community Policing and Engagement initiatives. The Community Engagement Section shall endeavor to increase the public's knowledge and understanding of the philosophy of community policing. The section aims to share best practices, and correct assumptions of traditional policing to improve law enforcement delivery.<sup>34</sup> The Community Engagement Section *is not* solely responsible for enhancing the department's community policing philosophy, but rather to assist the police districts with reducing crime through partnerships, problem-solving, and improving the community's quality of life.

Key ideals that are at the core of the NOPD's community policing plan include:

1. ***Substantive Engagement with the Community*** (whereby officers give citizens a voice during interactions at meetings and events, by allowing them to first share their experiences, thoughts and values, which results in buy-in, even if officers can't solve their problem.)
2. ***Substantive Collaboration with the Community*** (whereby officers partner with the community in problem-solving, as done through Police Community Advisory Board (PCAB) and New Orleans Neighborhood Police Anti-Crime Council (NONPACC))
3. ***Civic Engagement*** (police-initiated actions that give back to the community, such as district toy giveaways at Christmas, mentoring, coaching, etc.)<sup>35</sup>

---

<sup>32</sup> Engaging Police in Immigrant Communities: Promising Practices from the Field, pp.38-39

<sup>33</sup> Intranet site for NOPD personnel

<sup>34</sup> Community Engagement Section Operation Plan

<sup>35</sup> These three ideals were presented during the 2016 COPS Building Trust Cohort quarterly conference call, by presenter Matthew Barge, Vice President and Deputy Director of the Police Assessment Resource Center.

## Recognizing Procedural Justice Tenets

The NOPD has various policies<sup>36</sup> that instruct officers on how to act in a procedurally just manner and address the four areas listed below, as noted in The Final Report of the President’s Task Force for 21st Century Policing. Policies are included in roll call trainings, Academy training and daily training bulletins.

- Treating people with dignity and respect (professionalism, courtesy, etc.)
- Giving individuals “voice” during encounters (letting citizens be heard and allowing them to speak/ask questions).
- Being neutral and transparent in decision-making (officer explaining all actions taken and explaining why the actions were taken, as well as using tools such as the BWC, which further adds to neutrality and transparency).
- Conveying trustworthy motives (officers introducing themselves and explaining the reason for the stop as soon as practical, unless providing the information could compromise the investigation, safety of officers or other persons).

When supervisors are made aware of situations where citizens are not treated in a procedurally just manner, they are required to take corrective action via the following mechanisms.

- Training
- Redirection (via the standard form in use)
- Documented Counseling
- Formal Investigation

## Organizational Transformation towards Community Policing

NOPD has made several changes to its policies, procedures, and activities to foster an environment that promotes community policing and community engagement. These changes include:

- **Instituting a Mission Statement** that reflects community policing ideals.
- **Quality of Life Training:** All officers received training on how to address the most common Quality of Life complaints; resource documents are available on SharePoint, as well.
- **Performance Evaluations:** The NOPD currently promotes community policing by requiring supervisors to evaluate subordinates in the area of community policing and employing

---

<sup>36</sup> NOPD policies are available for public viewing on [www.nola.gov/nopd](http://www.nola.gov/nopd)

problem-solving strategies, including procedural justice requirements for citizen engagement.

- **Commendations:** Recognizing officers who employ outstanding community engagement/community policing tactics. Additionally, the INSIGHT program will include the ability for supervisors to document commendations that citizens relay to them.
- **Strategies for Interaction with Limited English Proficiency Speaking Communities** includes building a team of bilingual officers to improve communication with limited English speaking communities, equipping officers with translation resources and interpretation devices in the field, translating public information in other languages at NOPD facilities, training new recruits on interacting with the Spanish-speaking community and aggressively recruiting bilingual police officers.
- **Public Release of Critical Incident Video:** In an effort to continue to increase police transparency and accountability, the NOPD implemented a new process that outlines when and how the Department will release its own audio and video recordings of critical incidents involving NOPD officers to the public. The new process, which has been approved by the Office of the Consent Decree Monitor and the Department of Justice, allows for the public release of recordings that capture critical incidents, such as officer-involved shootings, based on a clear set of guidelines that include collaboration with local and federal criminal justice agencies.
- **Consistent and Comprehensive Roll Out of Data to the Public:** The NOPD is one of numerous police departments participating in the White House Police Data Initiative that aims to better use data and technology in ways that will build community trust. It is all part of the Department's goal to improve the quality of the police data available and to do a better job of using it to analyze crime trends and management practices. Combining the Department's work with the White House Police Data Initiative and the Federal Consent Decree, more areas of new police data are now available at [NOPD News](#).
  1. **Calls for Service Data** - All calls for service made to the NOPD are available for review. This summer, the Department added more fields to help individuals conduct deeper analysis of the data, including the initial call type and priority.
  2. **Stop and Search Data (Field Interview Cards)** - Raw data collected anytime an individual is stopped and interviewed by a NOPD officer is available for review. Annual reports and high-level interactive analysis are included.
  3. **Metadata for Body Worn Cameras** - Raw data on when and where footage was recorded, how long it was recorded and what item number it corresponds.
  4. **Public Reports** - Comprehensive reports on major aspects of the Consent Decree on Bias-Free Policing, Sexual Assault, Domestic Violence, Community Engagement, Limited English Proficiency, Crisis Intervention Team and the Public Integrity Bureau.
  5. **Use of Force Data** - The NOPD published officer use of force data on the Department's website for the first time ever. This dataset, which is updated daily, includes use of force incidents reported by the NOPD in accordance with Departmental policy. Publishing this information allows the community to monitor and hold the Department accountable for how it handles uses of force investigations.
  6. **Police Report Data** - Raw data from all police reports filed by NOPD officers from 2010 to present is now available on the City's open data web portal. The data includes the item number, location, disposition, signal, charges, offender

race, offender gender, offender age, victim age, victim gender, and victim race. The information is updated in real-time when subsequent information is determined as a result of an investigation.

7. **Misconduct Complaint Data** - The NOPD published misconduct complaint data on the Department's website for the first time ever as well. This dataset, which is updated daily, includes all misconduct complaints to the NOPD in accordance with Departmental policy. Releasing this information to the public allows the community to monitor and hold the Department accountable for how it handles misconduct complaint investigations.

- **Leadership in Police Organizations:** Delivering on a commitment to provide quality training and career development to all officers, the NOPD offers LPO training, which is designed to provide officers at every level of the Department with the skills necessary to become a successful leader. The intensive, three-week program was developed by the International Association of Chiefs of Police (IACP) and centers on the systematic development of leaders at all levels of an organization—the concept of “every officer a leader.”
- **Officer Assistance Program:** The NOPD has developed and implemented a comprehensive, confidential counseling program for officers, civilian members and their families. The program has been designed to promote mental health wellness for all employees and their families with direct intervention and immediate availability. The program offers individual, couple and family counseling services, along with outside referrals, if the need arises.
- **Crisis Intervention Training:** Crisis intervention trained officers receive 40 hours of specialized training from mental health experts focused on techniques and best practices for minimizing the use of force against individuals in crisis due to mental illness or a behavioral disorder. CIT officers are assigned to each police district and are trained to respond to and de-escalate mental health crises. The NOPD has trained 20% of its patrol officers in this specialized Crisis Intervention Training.
- **Department Wide Officer of the Month Program:** Beginning in Fall 2016, one officer will be selected for the entire Department each month; the selection criteria will be broad and include community policing.
- **Blueprint for Safety:** The New Orleans Blueprint for Safety provides complete agency guidelines that prioritize victim engagement and holds offenders accountable at each point in the criminal justice response: 911 Communications, NOPD patrol and investigation, Orleans Parish Sheriff's Office, the Orleans Parish District Attorney's Office, Domestic Violence Monitoring Court, Municipal Court, and the Louisiana Department of Corrections.
- **Body Worn Camera Program:** NOPD launched one of the nation's largest body worn camera programs in the country in 2014 and now has more than 800 cameras for a force of fewer than 1200 officers. Program statistics indicate that officers are consistently using the cameras in 100% of all incidents and these videos are being used to assist with criminal investigations as well as internal investigations.
- **Safe Cams Nola/Adopt-A-Block:** This initiative to increase the number of private security cameras in New Orleans neighborhoods has led to the registering of private security cameras by the community and the installation of nearly 200 high-definition security cameras across the City in its first year. The NOPD and the New Orleans Police and Justice Foundation (NOPJF) first launched the program, known as Adopt-A-Block, in 2015 with a goal of purchasing and installing security cameras in crime hotspots. Residents, businesses, schools, and churches have all been participants and recipients of the public safety program.
- **Ethical Policing Is Courageous:** NOPD recently launched one of the first peer intervention

programs in the nation. This program, called EPIC, empowers officers on the streets to intervene when they see a colleague doing something wrong or unethical.

- **Promotions:** Community policing ideals will be embedded in the promotional exam process.
- **Civic Engagement:** The NOPD continues to seek opportunities for personnel to civically engage with the community; a recent example includes officers serving as assistant basketball coaches with the New Orleans Recreation Development Commission (NORDC).
- **VOCAL (Volunteers Can Lead):** The VOCAL program offers volunteer residents training and the opportunity to assist NOPD by providing clerical duties in district stations and participating in community engagement strategies.
- **Email Blasts:** Citizens can sign up on the City of New Orleans' website to receive email blasts from NOPD regarding crime, community events and other notices.
- **District Email Addresses:** In an effort to encourage strong community engagement between residents and the officers who serve in their neighborhoods, the NOPD has created email addresses for each of the eight police districts that citizens can use to notify the district leadership team of community concerns, community meetings and community events.
- **Coffee with Cops:** The NOPD and local McDonald's restaurant owners teamed up to connect police officers with members of the community through a new and innovative event called "Coffee with Cops". Residents and visitors are invited to come out to participating McDonald's restaurant locations to meet with neighborhood patrol officers and enjoy a free cup of coffee.
- **Social Media:** Social media provides opportunities for law enforcement to proactively reach out to and connect with citizens, as well as promote crime prevention in the community. Aside from posting crime news and promoting crime prevention, podcasts are suggested,<sup>37</sup> similar to the community engagement videos currently put on the NOPD Facebook. Photos and videos of officers interacting with the public are extremely important. Those photos can be used on the Department's Facebook, Twitter, LinkedIn and YouTube channel, so that the NOPD can share its message, unfiltered, to the community. Social media allows the NOPD to reach another group of citizens, who can then access that information at a time and place that is convenient to them. It is also useful for individuals who may be homebound. It's cost effective and reaches large numbers of people.<sup>38</sup>
- **Community Events:** The NOPD must continue to seek opportunities to positively interact with the community in circumstances that are not related to an investigation or enforcement; community events provide a great opportunity to do so. The community all too often sees officers in the enforcement/security capacity at community events. It is for this reason that officers have been called to step out of those traditional roles and into more non-traditional roles. If an officer observes some kids playing basketball while on routine patrol, officers could step out the car, greet them and maybe join in the game for a few minutes; this simple action humanizes law enforcement to the public.
- **NOPD News Website:** The NOPD launched a new website that will serve as a 24/7 online source for news and information from and about the police department. NOPDNews.com was developed by the City's Office of Information Technology & Innovation in collaboration with the NOPD Public Affairs Division. The website provides a more prominent platform for the NOPD to post important public safety information and surveillance videos as well as blogs covering positive news from inside the department and policing data. It is also the host for the

---

<sup>37</sup> IACP Social Media and Crime Prevention Fact Sheet

<sup>38</sup> Community Planning Toolkit: Community Engagement, p. 15

NOPD's interactive open data portal, links to open policing data and analysis, and Electronic Police Reports.

- **National Public Safety Partnership:** PSP provides an innovative framework for the DOJ to enhance its support of state, tribal and local law enforcement officers and prosecutors in the investigation, prosecution, and deterrence of violent crime. This approach serves as a platform for the DOJ to directly engage with cities to identify and prioritize resources that will help local communities address their violent crime crises. PSP builds on lessons learned from a pilot concept known as the Violence Reduction Network (VRN) and serves as a DOJ-wide program that enables cities to consult with and receive coordinated training and technical assistance and an array of resources from DOJ to enhance local violence reduction strategies. PSP comprises two distinct levels of engagement: Diagnostic and Operations. These two complementary levels of engagement are offered based on the needs of the jurisdiction. This model enables DOJ to provide American cities of different sizes and diverse needs with data-driven, evidence-based strategies tailored to the unique local needs of participating cities to address serious violent crime challenges tailored to their unique local needs.<sup>39</sup> Community policing plays an essential role in the strategy.
- **Resource Tools:** An informational brochure template (located in the Appendix section), with community engagement information such as PCAB, NONPACC, Safe Cams NOLA, social media, email blasts, 311, etc., was created for each district, as a resource, to educate officers on the NOPD's current community engagement strategies. Additionally, a standardized, two-sided hot sheet (located in the Appendix section), was created, which can be used at the District Captain's discretion, to document issues that must be addressed by police, with resource information on the back.

### Problem-Oriented Policing Strategies

- **Police Community Advisory Boards:** A board consisting of five to seven community volunteers from their respective police districts. PCAB members serve a two-year term and meet quarterly to address community issues. The City's Office of Neighborhood Engagement coordinates the application and selection process for PCAB volunteers. The Superintendent has final approval on the selection of members to serve on PCABs. The PCAB mission is to develop and maintain a partnership with each of the eight police districts for the purpose of engaging in a collaborative, problem-solving process that supports both the community and NOPD's desire to enhance public safety. Each district PCAB gives community recommendations to the District Command Staff to incorporate in the District Community Policing Plans.

PCAB recommendations and progress will be incorporated into NOPD Quarterly and Annual Reports.

- **New Orleans Neighborhood Police Anti-Crime Council Meetings:** NONPACC meetings occur monthly in each district and are attended by the District Captain and other district personnel. These meetings provide community members with an opportunity to voice their concerns directly to the District Captain. The goal is to foster meaningful dialogue and education on procedural justice and community oriented policing initiatives.
- **Community Meetings:** The purpose of participating in community meetings, hosted by community groups other than those directly associated with NOPD, is for the officer to introduce himself/herself and meet some of the citizens that he/she serves. It allows officers

---

<sup>39</sup> Retrieved from: <https://www.nationalpublicsafetypartnership.org/#about>

to put a name and face with their community and the community to put a face and name with the officers that serve their area. Officers should be listening for what the community deems to be a problem or an issue that is police-related and be prepared to relay that information back to their supervisors and perhaps, assist in addressing those problems and issues. They should also be prepared to educate the participants on the City's 311 quality of life complaint process.

- **Citizens Academy:** The eight-week program is an interactive learning experience for New Orleans residents that, gives participants a closer look at the NOPD and the New Orleans criminal justice system in an informal setting. During their time in the program, participants receive a comprehensive overview of the Department's work, including patrol duties and specialized training programs.
- **Safety Presentations:** The NOPD provides safety presentations to community groups and citizens, regarding various ways to prevent crime and promote safety.
- **School Resource Officer Program:** It is extremely important for officers to build positive relationships with youth. Young people are the future and law enforcement must nurture and cultivate constructive interactions with them. The NOPD is consistently moving towards becoming a community policing focused department that encourages youth engagement beyond the traditional roles of law enforcement. The goal is for youth to see NOPD officers beyond the uniform, to humanize them and make them more relatable, and essentially, help them understand that officers are here to assist them. School Resource Officers are assigned to schools to provide guidance to students and assistance to school staff members. School Resource Officers provide counseling and mentorships to students, participate in youth engagement activities, and assist school faculty and staff as necessary to solve school related matters with students and their guardians. A person's interaction with the police, whether positive or negative, has a lasting effect that can influence the way he or she views police in the future. In order to build stronger and safer communities, police must work to increase the number of positive contacts with young people.<sup>40</sup> A full description of this role is located in **CHAPTER: 1.20 TITLE: SCHOOL INCIDENTS, SCHOOL RESOURCE OFFICERS.**

**Youth and Police Dialogues:** One new initiative, the youth-police dialogue, launched in 2016, serves as part of an effort to engage with youth on violence prevention and help young people understand the role of NOPD in their communities. Youth-police dialogues provide participating students with an opportunity to break down stereotypes; remove communication barriers and build mutual respect and understanding. The first youth-police dialogue brought together over 60 students and 10 NOPD officers aimed at breaking down stereotypes while building mutual respect and understanding. Youth-Police Dialogue sessions will be scheduled regularly, in particular schools, for participation by School Resource Officers (SRO) and district platoon officers, which will consist of multiple facilitated sessions, and SRO follow up with youth (which will show consistency and that NOPD cares).

**The Police Activities League (PAL)** program assists with building relationships with youth. The NOPD's Police Activity League serves youth by providing recreational programs in several areas of the city. The uniqueness of this program is that it will be staffed by police officers and several civilian volunteers. Tutoring services will be designed to enhance the New Orleans Police Activity/Athletic League participant's academic performance.<sup>41</sup> Sports is a legitimate trust building exercise recognized to increase not only trust between youth and police, but the outcomes of the positive influences have also been linked to increased school

---

<sup>40</sup> Building Trust in a Diverse Nation: How to Serve Diverse Communities, p. 26

<sup>41</sup> [NOPD - Police Athletic-Activities League \(PAL\) - City of New Orleans \(nola.gov\)](http://nola.gov)

attendance among other positive outcomes.

- **LGBTQ+ Liaison Officers:** NOPD has sworn officers as liaisons who work to improve relationships between the NOPD and the LGBTQ+ community.
- **Homeless Assistance Unit:** Connects homeless individuals with services and resources in the 8<sup>th</sup> police district where homeless encampments are prevalent throughout the district.
- **Community Policing Plans:** As will be discussed in more detail below, in 2016, the Department developed District-specific policing plans based on extensive community feedback and input. The goal of these plans was to identify the unique needs of the community serviced in each district. The officers in each district used the plans to help guide their community policing efforts and each district reported their progress on the plans at monthly MAX meetings. To view the current Community Policing Plans, please visit: <https://www.nola.gov/nopd/nopd-consent-decree/>.

### **Role of Captain, Lieutenant, Sergeant, Officer, SRO, CLO, and LAC**

Each officer in the NOPD has a unique role to play in effectuating NOPD's Community Policing Strategy.

#### **District Captain's Role**

- Ensure that community policing ideals are upheld by district personnel.
- Recognize compliance with procedural justice requirements as a component of evaluation at the District level, via training, redirection, documented counseling and formal investigations.
- Ensure district emails have a proper triage system.
- Ensure the limited English communities within their respective district (if applicable), are included in proactive, community policing initiatives.
- Participate in annual Consent Decree meetings.
- Participate in the development of the district Community Outreach and Public Information Plan.
- Regularly strategize and communicate with the Community Engagement Section about innovative community policing strategies that can be implemented in their districts.
- Report on community engagement in Headquarters MAX meeting and ensure meaningful dialogue on the topic is done at weekly, district MAX meetings.
- Receive recommendation from PCAB members involving quality of life concerns and community engagement from the District.
- Formulate strategies to resolve community matters.
- Recognize officers who employ outstanding community policing tactics.

#### **District Lieutenant's Role**

- Lieutenants must recognize that community engagement is important, they must understand what community policing looks like and they must ensure that sergeants and his/her subordinates are positively engaging with the community on a daily basis.
- Lieutenants should know how to create and sustain community policing ideals in their respective unit, as well as be able to articulate such in MAX settings, if asked.
- Lieutenants should take ownership for their sergeants' and officers' participation in community meetings and events by obtaining event schedules from schools, churches, playgrounds, etc., assess the listing and strategically plan who will attend and participate, as staffing permits.

- Expressly instruct officers/sergeants what they are to do/not do at community meetings/events and what's expected of them.
- Assigning targeted neighborhood walks, as time and staffing permits, whereby officers will knock on doors or visit businesses, proactively, and ask the community if they have any issues or concerns, which are to then be triaged as needed (such as educating the citizen on 311 or sharing the concern with their supervisor who will then properly triage the request) and have officers provide follow-up to citizens in a timely fashion. The area can be as small as one block, so as to not take up too much time, but allow for proactive community engagement during the officers' tours of duty, as staffing permits.
- Identify compliance or non-compliance with procedural justice requirements in random reviews of BWC footage as a component of evaluating supervisors' responsiveness to procedural justice requirements.
- Recognize officers who employ outstanding community policing tactics.
- Ensure follow-up on community issues brought to his or her attention has been completed.

### **District Sergeant's Role**

- Require compliance with procedural justice dictates for interactions with citizens.
- Sergeants must recognize that community engagement is important, they must understand what community policing looks like and they must ensure that officers are positively engaging with the community on a daily basis.
- Expressly instruct officers what they are to do/not do at community meetings/events and what's expected of them.
- Identify compliance or non-compliance with procedural justice requirements in random reviews of BWC footage as a component of evaluating supervisors' responsiveness to procedural justice requirements.
- Recognize officers who employ outstanding community policing tactics.
- Ensure follow-up on community issues brought to his or her attention has been completed.
- Review Community Policing Forms (described below) for follow-up tasks and approval.

### **Officer's Role**

- Utilize procedural justice principles in all applicable interactions with citizens.
- Actively participate in community meetings and community events: At community meetings, the officer should introduce himself/herself to the meeting attendees, which allows officers to put a name and face with the community they serve and the community to put a face and name with the officers that serve their area. Officers should be listening for what the community deems to be a problem or an issue that is police-related and be prepared to relay that information back to their supervisors and perhaps, assist in addressing those problems and issues. They should also be prepared to educate the participants on the 311 process, when necessary.
- Recognize opportunities to positively engage with the community in daily interactions.
- Knowledgeable of the routing of common QOL issues.
- Document community concerns and QOL matters in a CPF.
- Formulate strategies to improve community quality of life in the District.
- If possible, resolve community related issues.

### **School Resource Officers' Role**

SROs are certified via a nationally recognized training, which enables them to hold the title of School Resource Officer. It is through this program that the SRO learns best practices in the field. SROs

should ensure non-enforcement activity, such as community policing, community engagement and proactive, positive youth engagement, regularly occur; immediate supervisor(s) shall ensure this is done. District Captains shall designate the immediate supervisor(s) for the SRO, who will be responsible for random, direct observation of SRO's interaction with students and school administrators (via calls for service, community engagement activities, etc.). Upon completion of EPIC (Ethical Policing Is Courageous) training, SROs should incorporate de-escalation skills learned, while conducting youth engagement in schools, which will ultimately enhance the students' ability to help one another in making better decisions and supporting one another. SROs complete monthly activity reports to be monitored and review by the Community Engagement Section Manager. The SROs attend monthly meetings with the Community Engagement Manager to discuss upcoming school related community events and discuss problem solving recommendations to be implemented by the Department. A full review of the School Resource Officer's duties and responsibilities can be found in NOPD Policy **Chapter 1.20: School Resource Officer**.

### **Community Liaison Officers' Role**

Each district has a Community Liaison Officer (CLO). One of the main roles of the CLO is to interact and collaborate with the community. This position shall be occupied by a non- probationary patrol officer in the district who shall act as the designated community-oriented liaison for the district. The CLO engages in problem identification and problem-solving activities with community members around the community's priorities; works proactively with other City departments to address quality of life issues; and will work with platoon officers in problem identification and problem-solving. CLOs will not be assigned to answer calls for service absent exigent circumstances.

Key Competencies: Problem-solving ability, generally, requires more than technical skills and knowledge; it calls for creativity, curiosity, persistence, and adaptability. Although problem-solving skills and aptitude are not the only desirable traits in a CLO, officers who are unable to think analytically about crime and disorder problems or who are only interested in the law enforcement dimension of policing will almost assuredly struggle with in the role of CLO. The ideal candidate for the position of CLO should have demonstrated a problem-solving interest and aptitude.

CLO Supervisor: District Captain shall designate a supervisor (the District Systems Administrator Sergeant is preferred), who will be responsible for the supervision of the CLO, as well as responsible for completing the performance evaluation of the CLO.

Major Duties and Responsibilities shall include but not limited to:

- CLOs report to and are supervised by their designated supervisor. CLOs will maintain communication with the Professional Standards and Accountability Bureau's Community Engagement Section and keep them apprised of information regarding community coordinated events and community concerns in their respective districts.
- CLOs meet with the Community Engagement Section Manager to inform the Department of any technological issues they may face with the reporting data base and instructions on how to maintain a reporting structure.
- CLOs will maintain contact with the various community groups/neighborhood associations of the geographic area served.
- CLOs will host and attend community meetings to maintain and build relationships with community members and exchange ideas to improve community concerns in specific areas
- CLOs will provide businesses with information on crime prevention and conduct follow-up visits with victims of business and residential burglaries to help them strategically identify

ways to secure their establishments.

- CLOs will share crime prevention information in various ways in various settings, including in presentations with residents, neighborhood watch groups, business owners, homeowner's associations, and other public gatherings. CLOs will deliver crime prevention literature at festivals and fairs.
- CLOs will coordinate events with community groups in their respective district and maintain an active dialogue with the community groups and neighborhood associations in their district.
- CLOs will maintain communication with the Neighborhood Engagement Office and other City agencies to foster a unified response to issues adversely affecting quality of life.
- CLOs will partner with City agencies to address nuisance and quality of life issues such as neighborhood blighted property, trash removal, illegal dumping, etc. Calls of that nature will also be entered into the City's 311 system, for proper follow-up by the responsible agencies.
- CLOs will work with the community to identify and solve problems that contribute to crime and disorder, as well as those issues that adversely affect quality of life.
- CLOs will work with their respective district's personnel to identify and solve problems that contribute to crime and disorder, as well as those issues that adversely affect quality of life.
- CLOs will monitor the progress on their districts' Community Policing Plan and are responsible for updating and creating new plans when required.

### **Language Access Coordinator's Role**

The Language Access Coordinator (LAC) will be responsible for coordinating, implementing, and monitoring the [Language Assistance Plan](#). To ensure that the Community Engagement Section and the NOPD considers the Limited English Proficiency (LEP) community within its activities, policies, plans, and procedures, the LAC responsibilities include, but are not limited to the following:

- The Language Access Coordinator shall ensure free language access services to all LEP individuals encountered by members of the Department, consistent with Policy **Chapter 55.4: LIMITED ENGLISH PROFICIENCY SERVICES**.<sup>42</sup>
- The LAC will be responsible for annually reviewing all new documents, forms, or communications made available to the public by the NOPD to assess whether they should be considered vital materials requiring translation.
- In cooperation with the Performance Standards Section, the LAC shall annually assess demographic data, review language access services utilization data, and consult with representatives of the LEP community and District Captains to ensure that the Department is providing the services and benefits the department provides in all NOPD-conducted programs or activities to LEP persons. The Language Access Coordinator shall use this review to determine whether vital documents or communications should be translated into additional languages and whether other related changes to the Department's LEP program are necessary.
- The LAC shall distribute the Language Assistance Plan and policy to a variety of community organizations serving LEP communities encountered by NOPD.
- At each NOPD building entry point or lobby open to public access, the LAC shall ensure signage in the most commonly spoken languages stating that interpreters are available free of charge to LEP individuals.
- The LAC shall ensure a notification listing the available translated forms and documents is posted in the lobby of NOPD Police Headquarters, the Public Integrity Bureau, and each

---

<sup>42</sup> [Chapter 55.4: Limited English Proficiency Services](#)

District station.

- The LAC shall ensure that, at a minimum, the placard and following vital documents are readily available at NOPD Headquarters (lobby); all Police District Stations (front desk); City Hall (front desk), Municipal/Traffic, Criminal and Civil District Courts (location at direction of Clerk of Courts); and all city libraries (checkout desk bulletin boards):
  - How to file a complaint brochure (in English, Spanish, and Vietnamese).
  - The PIB Complaint Form.
  - The Language Assistance Plan and policy; and
  - The LEP Policy.
- The LAC, or his/her designee, shall attend and represent the New Orleans Police Department at LEP social and community advocacy functions in a professional and courteous manner.
- The LAC will provide the Community Engagement Section Manager, or designee, the information for LEP related events. LAC or a designee shall make arrangements to attend these functions.
- The LAC, or designee, shall conduct crime prevention and business safety presentations on behalf of the City of New Orleans, particularly in neighborhoods where LEP businesses and residents are concentrated.
- The LAC, or a designee, shall provide bilingual crime-prevention information and programs to the LGBTQ+ community, District NONPACC meetings, PSAB Meetings, Neighborhood Watch, Community Outreach, and Social Services.
- The LAC shall be responsible for creating and maintaining the NOPDAI list on the NOPD's intranet web applications under "Resources", which will include each interpreter's language(s) of proficiency, when language skills were assessed for each language, and if any complaints have been filed against them regarding their language translation skills, creating an active spreadsheet of all certified AIs, tracking yearly certifications and renewals, and communicating with district supervisors. The LAC shall provide this listing to the executive director of the Orleans Parish Communications District (OPCD) for the use of dispatchers.
- The LAC will monitor availability and quality of services provided to populations with Limited English Proficiency.
- The LAC will provide oversight and support to Spanish-Speaking and Vietnamese-Speaking Community Liaisons and ensure their time is spent appropriately on building relationships of trust with the community and addressing areas of concern.
- The LAC will work with Community Liaisons to review all body-worn camera footage of NOPDAIs delivering interpretation services to monitor quality and accuracy of services. Report any issues to the Professional Standards & Accountability Bureau for corrective action and/or training updates.
- The LAC will collaborate with CLOs to develop and implement a comprehensive community outreach plan, including the following actions:
  - Identify and contact all major organizations serving the LEP community;
  - Collaborate with organizations and individuals to identify areas for potential growth and additional training for all officers;

- Coordinate regular (at least quarterly) public meetings, hosted by Community Liaisons, to solicit feedback from community members;
- Solicit ongoing recommendations for improved LEP services from the Community Liaisons.
- The LAC shall identify, through crime data and patrol efforts, areas where bias and hate crimes against the LEP community have occurred and inform the LEP community through awareness seminars.
- The LAC shall monitor statistical and reporting data regarding bias and hate crimes against the LEP community and relay significant changes to the District Captains and the LEP community.
- The LAC, or his or her designee, shall host meetings to allow business owners, residents, and community activists to meet with officials from their neighborhood precincts.

A full and complete list of the roles and responsibilities of the Language Access Coordinator can be found in the *NOPD Language Assistance Plan* and the Language Access Coordinator KSA provided in the Appendix.

## DOCUMENTATION STRATEGIES

*Involving the community in policy decisions to garner buy-in*

*Actively engaging in problem solving with the community*

*Community Policing Defined* notes that community policing encourages agencies to designate safeguards to ensure that information from various sources is collected in a systematic manner and entered into central systems that are interconnected to one another and checked for accuracy so that it can be effectively used for strategic planning, problem-solving and performance measurement.<sup>43</sup>

### **1. Community Policing Signals**

NOPD's community policing signals are utilized to capture proactive problem-solving activities, as well as quality of life activities, in an efficient, geo-coded, time-stamped manner that does not slow officers down. NOPD can map officers' community policing activities and analyze the impacts of those efforts. The new signals differentiate the officer's status in the Computer-Aided Dispatch (CAD) system so that the officer, District and Department have clearer information on the officer's activity and other relevant metrics. These new signals allow CAD information to be utilized to automatically document community policing. When an officer uses a Community Policing Signal the Department can readily identify the actions of the officer and determine those actions were intended

---

<sup>43</sup> Community Policing Defined, p. 9

for Community Policing and Engagement to further the Department's Community Policing, Engagement, and Outreach initiative. By using the Community Policing Signals, the department can analyze crime trends, or quality of life concerns, and document the efforts of officers using these signals

- **Quality of Life (21Q)** - Officers utilize the quality of life signal when they respond to quality of life issues identified by the community or the Department.
- **Area Check (22A)** - Officers utilize the area check signal when patrolling an area within the district that has been pre-determined as an important patrol area either by the community or the Department.
- **Business Check (22B)** - Officers utilize the business check signal when they engage occupants at a business within the district.
- **Directed Patrol (22D)** - Officers utilize the directed patrol signal when they execute a specific mission in targeted area.
- **Residence Check (22R)** - Officers utilize the residence check signal when they physically exit the patrol car and engage occupants at the residence, absent a call-for-service.
- **Walking Beat (22W)** - Officers utilize the walking beat signal while executing a defined and assigned walking beat.

## 2. **BWC Supervisory Reviews**

Both scheduled and random audits of BWCs are an essential tool of close and effective supervision. Supervisors should use these audits to monitor and assess the community policing and engagement activities of the officers under their command. NOPD Operations Manual, Chapter 41.3.10, Body Worn Camera outlines the following goals for discretionary review of Body Worn Cameras:

- Ensuring supervisors conduct timely, accurate and complete performance evaluations of their subordinates;
- Making sure officers “are working actively to engage the community and increase public trust and safety”; and
- Ensuring supervisors “review recordings regularly... to incorporate the knowledge gained from this review into their ongoing evaluation and supervision of officers”
- Quality of officer interaction with persons during non-enforcement related contacts;
- Constitutionality of and tactics used during Terry Stops/Investigatory Stops;
- Victim centered approach and asking risk questions during Domestic Violence call;
- Recognizing signs of person in crisis and treating them with dignity during Crisis Intervention incidents;
- Constitutionality of and tactics used during Searches, and Arrests; and
- Showing respect toward and acting professionally in dealing with the public (General Officer Performance).

The results of the supervisors' observations during their review should be aggregated at the shift and district level for the purpose of evaluating CLOs, patrol officers, sergeants', and lieutenants', commitment to community oriented policing. Supervisors should take corrective action for any problems identified during these reviews, including additional training or referral to PIB, and should also note behavior worthy of commendation during their review.

### **3. District Community Policing Plans** <sup>44</sup>

The Community Policing Plans address the unique needs of the communities serviced in each District. In 2016, each district developed a plan that identified three policing priorities its community wanted NOPD to focus on. NOPD used these plans to guide its community policing activities within each district. In 2021, NOPD will follow the processes below to create new community policing and engagement plans for each district.

The process will include the following:

1. NOPD District Captains will distribute surveys at PCAB and NONPACC meetings to obtain feedback regarding community concerns and police involvement.
2. NOPD District Captains will coordinate with NOPD Public Information Office to live stream NONPACC and PCAB meetings during which they solicit feedback on the priorities of the communities within their districts.
3. NOPD District Captains will evaluate and consider 311 data, PCAB Surveys, and NONPACC feedback obtained at meetings to identify trending concerns.
4. CLOs will work with District Captains to draft the new community policing plans, which should prioritize the responses received into 3-5 community policing priorities for each plan. There must be one problem chosen that emphasizes youth outreach and engagement.
5. CLOs and PSAB will collaborate with District supervisors to develop strategies on solving the identified priorities. The strategies must include Problem Oriented Policing (POP) projects and include a process to track monthly tasks coordinated by the district to solve the problem.

The new plans will be published on NOPD's website and members of the public will be able to view the monthly progress of each Plan online through MAX dashboard. These dashboards are currently being developed and should be publicly available by the end of 2021.

#### **4. Utilize NOPD News website and/or social media to document pre-planned community engagement activities.**

The New Orleans Police Department Public Information Office is responsible for creating, updating and disseminating all pre-planned Community Engagement Activities via all social media platforms.

#### **5. Community Policing Forms**

Community Policing Forms were created to track various community policing efforts in each district. In addition to community policing signals, officers complete Community Policing Forms to document Community Policing and Engagement activities, such as events, meetings, quality of life concerns, and problem-solving initiatives and conduct. By using Community Policing Forms, the Department can monitor officer community engagement and assess the effect Community Policing to crime reduction and community quality of life improvements. Please see Community Policing Forms Guidance in the Appendix below for more information on CPFs.

#### **6. School Resource Officer Monthly Reports**

---

<sup>44</sup> See the Appendix for a Community Policing Plan template

School Resource Officers (SROs) are specifically assigned by the Department to provide security, educational training, and relationship building services in assigned schools. SROs handle incidents occurring on school property, incidents involving truant students, refer students to the school counselor, conduct structured youth engagement activities and collaborate with school staff, students, and parents. When handling school incidents, officers will be mindful of the school administrator's responsibility for student discipline separate and apart from the responsibility of officers for the investigation of crime and law enforcement. SROs complete monthly activity reports to document their work at their respective assignments. These monthly activity reports are submitted to their immediate supervisor and the Community Engagement Section Manager to review and monitor the activities of the SROs. The Community Engagement Section Manager ensures the SROs are compliant with department policies, procedures and Consent Decree mandates as it relates to Community Engagement. These tasks are carried out by conducting scheduled and random reviews and inspections to evaluate compliance.

## ACCOUNTABILITY MEASUREMENTS

### MAX: Management Analytics for Excellence

On October 5, 2016, the Department launched their new, holistic, data-driven approach to police management known as MAX, or Management Analysis for Excellence. MAX replaces the department COMSTAT meetings which were mainly focused on information sharing regarding crime trends. The new program, which was available to the public online, takes that approach even further by focusing not only on crime, but on all other topics for which a Police Captain has responsibility. In addition, MAX has a greater focus on supervisor accountability through a stronger data-driven management. The new MAX data is available online, broken down by police district. The public posting of this management information further demonstrates the Department's commitment to transparency.

MAX measures community policing on a macro-level and allows NOPD leadership to monitor and direct community policing and engagement initiatives. NOPD leadership discusses community policing approaches at weekly MAX meetings, where community policing is emphasized as a core tenet of NOPD's operations and a key component in implementing organizational change.

As noted above, the District Community Outreach and Public Information Plans will be publicly available on MAX. For each plan, the Department will determine a baseline measurement of the problem, where the problem is currently and the goal for complete implementation. Each plan will include an estimated time to complete the project and convey the expected completion date to the public. This could include having CLOs or district platoons assigned to particular duties/tasks for each problem. The data will be updated monthly before each District's NONPACC meeting. The

project description and project update fields provide details for each community priority. The data is presented both in time spent and the number of calls for service for the project. Time Spent is measured as the number of minutes on the project spent in the specified locations. Number of items refers to the number of "dispatched or officer self-initiated" calls for service on the project in the specified location.

## Milestones for Achievement

The NOPD is continuing to create meaningful community partnerships and initiatives to build trusting relationships with the citizens and advance its overall Community Policing strategy. The NOPD has developed the below programs and continued the efforts of current Community Engagement initiatives that have shown great progress in establishing and maintaining bonds with community stakeholders:

1. Conduct Community Engagement Night Out in every police district, to develop the Community Outreach and Public Information Plans (Field Operations Bureau and PSAB)<sup>45</sup>
2. Create District Community Outreach and Public Information Plans (FOB and PSAB).
3. Incorporate community priorities and progress into Management Dashboard (FOB).
4. Conduct PCAB, NONPACC, and MAX district meetings.
5. Collaboration with the Police Academy to ensure current training includes all elements of the Community Policing Manual (FOB and PSAB).
6. Drafted resource documents for SARA, POP, community policing, procedural justice, etc. (FOB and PSAB).
7. Development of training for PCAB's, to be included in their orientation classes, regarding community policing, problem-oriented policing and procedural justice (FOB). (Conducted every two years)
8. Superintendent's message to all personnel on community policing directives. Message should pair all current programs in a comprehensive manner, so that personnel understand how this fit into their duties, aside from calls for service.
9. On a quarterly basis, PSAB audits the Department's community policing activities and drafts a report on its findings.
10. Faith and Blue Weekend. A weekend of festivities with the fundamental premise of creating a coalition with local clergy to establish a more productive community which is one of your tenets to community policing. Working together, the paired officer and faith leader address mutually held biases and work collectively to improve and strengthen relationships between officers and the citizens.
11. Uncomfortable Conversation - Members of the city of New Orleans Pastoral Community and Citizens, meet and have an open dialogue with police regarding civil unrest, how to work effectively together to address needs and concerns of community.
12. Humanizing the Badge – A forum geared to developing opening dialogue between the police and the youth within the community and to show the human side of the men and women behind the badge.
13. Police Activity League (PAL) / Voices of Youth - Bringing to light via discussion youth feelings and sentiments of Racism, Equality, Social Justice, Educational Reform, Law Enforcement Relations and Community Advocacy.

---

<sup>45</sup> Notation of units in parenthesis delineates who will be responsible for each task

## THRESHOLDS

This Community Policing Manual is designed to be a long-term, aspirational document that will enhance the NOPD's community engagement, community policing and problem-oriented policing procedures. The following foundational thresholds will be utilized to measure community engagement and the implementation of this plan.

- Inclusion of meaningful community engagement-focused dialogue in the Headquarters MAX meeting and weekly, district MAX meetings.
- Conduct quarterly and annuals reviews of the Department's community engagement activities using the scorecards and processes developed by PSAB.
- Conduct performance evaluation audits, to determine the extent to which NOPD personnel at all levels, embrace community-oriented policing as both a core value and practical strategy for crime prevention and public safety.
- Conduct audits to determine compliance with procedural justice principles, via FIC review, supervisory, random review of BWC footage and/or direct observation, which is to be done on a regular basis, to determine the effectiveness of supervision, relative to community-oriented policing.
- District Community Outreach and Public Information Plans (Community Policing Plans) will be revisited and updated every two years.
- Review of the SROs monthly reports to determine compliance with policy and NOPD priorities.
- Annual community policing in-service and recruit training updated and completed.

- Community Policing Form Guidance
- Community Engagement Daily Training Bulletin
- District Community Outreach and Public Information Plan Template
- LGBTQ+ Liaison KSA
- Language Access Coordinator KSA
- District Community Engagement Brochure (front and back)
- “Hot Sheet”

## **CHAPTER: 10.0 TITLE: COMMUNITY POLICING AND ENGAGEMENT**

EFFECTIVE: 11/11/2018

### **PURPOSE**

The purpose of this Chapter is to outline the community policing and engagement program of the New Orleans Police Department.

### **POLICY STATEMENT**

1. The New Orleans Police Department (NOPD) shall promote and strengthen community partnerships, work constructively with the community, ensure collaborative problem solving, ensure ethical and bias-free policing, and work to increase community confidence in the Department.
2. The New Orleans Police Department will effectively engage the community in collaborative problem solving. NOPD will partner with residents and stakeholders to identify and solve problems that contribute to crime, fear of crime and quality of life problems in communities. The Department is committed to proactively solving problems as well as reacting to their harmful consequences.
3. The mission of the New Orleans Police Department is to provide professional police services to the public to prevent crime, maintain order and protect life and property. NOPD is committed to the philosophy and practice of community problem-oriented policing as a means to inform organizational decisions, shape policies, identify training needs, and prioritize crime fighting by engaging each neighborhood and community organization in collaborative problem-solving partnerships. Community problem-oriented policing, and community policing and engagement are critical methods toward achieving NOPD's mission.
4. The New Orleans Police Department will collaborate with community stakeholders and partners on policing and engagement efforts. The Department encourages its members to develop problem solving partnerships with community residents.
5. NOPD recognizes that it serves many diverse communities. Communities arise not only from shared geography but also social ties, common perspectives, and shared circumstances (for example, the LGBTQ or LEP community). NOPD shall seek to engage all communities in its community policing and engagement efforts.
6. NOPD's recruitment efforts shall focus on hiring officers who can build relationships and work collaboratively with all communities.
7. This Chapter operates in tandem with many programs and policies focused on properly serving and collaborating with a variety of communities, including but not limited to Chapter 41.13 – Bias-Free Policing, **Chapter 41.13.1 – Interactions with LGBTQ Persons, and Chapter 55.4 – Limited-English Proficiency Services.**
8. The Department sets forth its community policing vision in its **Community Policing and Engagement Manual**. The Department shall review the Manual annually and update the manual as necessary.

### **DEFINITIONS**

- **Community Engagement**—Activities that foster positive interactions between citizens and

officers, employ community policing ideals, create opportunities for constructive exchanges, and foster substantive collaboration with the community, while enhancing trust and legitimacy.

- Community Policing—A philosophy and operational strategy that promotes organizational practices that support the systematic use of partnerships and problem-solving techniques to work with the community to address the immediate conditions that give rise to public-safety issues such as crime, social disorder and fear of crime.
- Community Policing Plan—A district-specific blueprint of collaborative partnerships with the community. The Community Policing Plan address the unique needs of the communities serviced in each District. Each district’s Captain is responsible for the development of the plan.
- Community Policing Signals—Community policing signals allow the Department to document specific tasks for proactive and community policing. The signals are Area Check, Business Check, Directed Patrol, Residence Check, Quality of Life, and Walking Beats. When dispatched on community policing signals, officers will employ procedural justice techniques.
  - Area Check—Officers will utilize the area check signal when patrolling an area within the District that has been pre-determined as an important area either by the community or the Department.
  - Business Check—Officers will utilize the business check signal to engage occupants at a business within the District.
  - Directed Patrol—Officers will utilize the directed patrol signal to execute a focused collaborative problem-solving, departmental problem-solving, or community policing and engagement in the targeted area.
  - Residence Check—Officers will utilize the residence check signal when the officers physically exit the patrol car and engage occupants at a specific residence absent a call for-service.
  - Quality of Life—Officers will utilize the quality of life signal when responding to any type of quality of life problem.
  - Walking Beat—Officers will utilize the walking beat signal while executing a defined and assigned walking beat.
- New Orleans Neighborhood Police Anti-Crime Council (NONPACC)—NONPACC is a partnership amongst the community, district Captains, and officers to create conversations, identify problems, and devise solutions. Members of the public voice their concerns directly to the District Captain during face-to-face meetings.
- Police Community Advisory Board (PCAB)—A board consisting of five to seven citizen volunteers from their respective police districts. PCAB members serve a two-year term and meet quarterly to address community issues. The City’s Office of Neighborhood Engagement coordinates the application and selection process for PCAB volunteers. The Superintendent has final approval on the selection of members to serve on PCABs.
- Problem—Something that concerns or causes harm to citizens, not just the police. A problem generally involves repeat incidents occurring in a community with related characteristics (time, place, behavior, victim(s), offender(s)) that concern the community.
- Problem-Oriented Policing—A proactive problem-solving approach that uses the SARA model to focus on proactive solutions, specific crime problems and achieving crime and fear reduction results. The problems should be those that the community recognizes as important.
- Procedural Justice—Procedural justice refers to the idea of fairness in the processes that resolve disputes and allocate resources and specifically how the characteristics of police community interactions shape the public’s trust of the police. Procedural justice speaks to four principles, often referred to as the four pillars: (a) Fairness in the processes (b)

- Transparency in actions (c) Opportunities for voice (d) Impartiality in decision making.
- Scanning, Analysis, Response, Assessment (SARA) Model—An approach wherein the community and the department work together to scan for problems, analyze information, respond through implemented strategies, and assess the effectiveness of implemented strategies.

## **COMMUNITY POLICING AND ENGAGEMENT**

9. NOPD shall solicit community input regarding public safety and quality of life priorities to tailor policies and operations to addressing those priorities. NOPD shall continually seek methods of collaborating with the public to improve operations and ensure Constitutional, community-oriented policing.

10. Officers shall participate, when applicable, in the community policing and engagement programs and initiatives outlined in this Chapter. Community policing is the responsibility of the entire Department and not just officers specifically assigned to roles that frequently interact with the public. The NOPD community policing and engagement program includes but is not limited to the activities listed in Appendix A – Community Policing and Engagement Programs.

11. Members of the New Orleans Police Department should initiate partnerships and programs with the community while utilizing problem-oriented policing, procedural justice, and collaborative approaches.

12. Members are encouraged to engage with communities who may be distrustful of NOPD in an effort to build relationships and enhance community problem solving.

## **COMMUNITY POLICING PLANS**

13. Each district shall update its Community Policing Plan semi-annually by doing the following:

(a) Each District shall gather feedback from the community through surveys and meetings to identify community priorities and quality of life issues.

(b) Each District shall then create a plan for addressing the priorities and establish methods of documenting the response to the priorities through community policing signals and/or other methods.

(c) The District shall include the identified priorities, planned response, and documentation methods in the updated Community Policing Plan and input this information into MAX with the assistance of the Analytics Unit.

14. Implementation of Community Policing Plans shall focus on prevention and not solely on enforcement whenever possible. Districts shall utilize available resources and coordinate with City agencies to address current problems and attempt to prevent future problems from arising.

15. In implementing the Community Policing Plans, Districts may deploy officers and detectives in specific geographical areas where a problem is occurring. The assigned officers will work with residents and stakeholders, where possible, to seek solutions and create a safe environment.

16. District Captains shall continually evaluate the effectiveness of their Community Policing Plans and assess whether the identified priorities are still relevant based on crime and quality of life trends provided by the Analytics Unit and MAX system and input from community partners and stakeholders relevant to the identified priority.

## **PROACTIVE PROBLEM-SOLVING**

17. In addition to implementing the Community Policing Plan, each District Captain, working with officers and community partners, will be responsible for identifying problems in the district and working proactively to solve them.

18. Problem-solving projects will be prioritized by the Captain and assigned to officers within the District.

19. Officers should proactively look for problems in the communities they serve. When an officer becomes aware of a problem, he/she should notify his/her supervisor of the problem, who will consider whether to elevate the problem to the District command staff and Community Liaison Officer. The District command staff may decide to allocate time for problem-solving apart from responding to calls for service and/or handling regularly assigned duties.

20. Problem-solving shall include identifying community members who are critical of the NOPD, listening to and working to understand their concerns, and working collaboratively to resolve issues identified.

## **REPORTING**

21. When an officer makes contact with a stakeholder in the assigned area, or conducts any community policing activity, he/she shall utilize the relevant community policing signal to document the stakeholder contact.

22. District Captains are responsible for ensuring that data concerning the following is documented in the MAX system on a District basis:

- (a) Implementation of Community Policing Plans;
- (b) Community policing activities documented through community policing signals; and
- (c) Collaborative problem-solving efforts.

## **ASSESSMENTS**

23. Surveys may be utilized as an outcome measure to determine the effectiveness of Community Policing Plans and other programs. NOPD may also utilize surveys to assess procedural justice within police-community contacts.

24. Community policing and engagement activities shall be incorporated into each District Captain's annual performance evaluations.

25. Community policing and engagement activities shall be incorporated into each officers' annual performance evaluations as appropriate to his/her assignment.

26. Supervisors shall review recordings regularly in accordance with **Chapter 41.3.10 - Body Worn Camera** and to evaluate whether officers are working actively to engage the community and increase public trust and safety. Supervisors shall evaluate how officers perform in accordance with the principles of procedural justice. Supervisors shall incorporate the knowledge gained from the reviews into the ongoing evaluation and supervision of officers.

27. The Audit and Review Unit shall conduct at least quarterly reviews of procedural justice in interactions with the public by viewing body-worn camera footage.

## **TRAINING**

28. Every commissioned member of the New Orleans Police Department will receive at least eight hours of training annually on community policing, community engagement, relationship building, procedural justice and problem-solving techniques, involving the SARA model

## **APPENDIX A - COMMUNITY POLICING AND ENGAGEMENT PROGRAMS**

NOPD's community policing and engagement programs include but are not limited to:

1. Community Policing Plan—A district-specific blueprint of collaborative partnerships with the community. The Community Policing Plan address the unique needs of the communities serviced in each District.
  2. Community Policing and Engagement Manual—A long term, aspirational document that will enhance the NOPD's community engagement and community problem-oriented policing activities. The Manual will guide officers on how to reach out to the community and productively engage citizens to create opportunities for substantive community problem solving.
  3. Community Meetings—The Department seeks opportunities to positively interact with the community in circumstances that are not related to an investigation or enforcement. Community meetings and events provide non-enforcement opportunities to proactively engage and build trusting relationships with the community.
  4. Centralized Community Coordinator—An internal position that serves as a resource for community engagement and policing coordination, literature, training, and tools, with the goal of making a community engagement and policing efforts a success. The Centralized Community Coordinator is also responsible for initiating and maintaining partnerships with other departments and community groups.
  5. Beat Profile—Beat specific information gathered by officers, in collaboration with the community, to serve as a guide to officers and community members engaged in problem solving. Among the information included in the profile is information on organizations and services available within the beat, including entity contact information. The guide should be updated at least annually and be readily available to all who may engage in problem solving.
  6. Body Worn Camera Program—Promotes transparency and trust building between NOPD and the community by accomplishing the following objectives:
    - (a) To enhance transparency and public trust by preserving factual representations of officer-citizen interactions in the form of audio/video recordings.
    - (b) To promote officer safety.
    - (c) To document statements and events during the course of an incident.
    - (d) To enhance the law enforcement operator's ability to document and review statements and actions for internal reporting requirements as well as for courtroom preparation and presentation.
    - (e) To preserve audio/video information for use in current and future investigations.
-

(f) To provide an impartial measurement for self-critique and field evaluation during officer training.

7. Citizen’s Police Academy—An eight-week program, which is an interactive learning experience for New Orleans residents. Participants receive a closer look at the NOPD and the New Orleans criminal justice system in an informal setting. During their time in the program, participants receive a comprehensive overview of the Department's work, including patrol duties and specialized training programs.

8. Community-Police Mediation Program (CPMP)—The CPMP, administered and led by the Independent Police Monitor, aims to build understanding and improve relationships between NOPD and the community. The program provides opportunities for officers and community members to have a face-to-face conversation, facilitated by neutral community mediators, to share their perspectives, be heard and understood, and come to mutually-agreeable solutions. The program is an alternative to the traditional complaint investigation process and is available for eligible complaints. Eligibility criteria are described in detail in **Chapter 24.2 - Community-Police Mediation**.

9. Police-Community Advisory Board (PCAB)—The PCAB serves an advisory role and is an authorized space for establishing community buy-in, consensus and priorities on public safety issues/concerns for recommendation to NOPD. Each District’s PCAB consists of a minimum of five volunteer community members and holds a public meeting at least four times per year.

NOPD works collaboratively with PCABs to develop and implement public safety strategies that reflect each community’s public safety priorities and concerns about particular police tactics. To the extent specified below, NOPD agrees to seek PCAB’s assistance, counsel, and input to build community consensus on potential recommendations in areas including the following:

- (a) Community policing strategies;
- (b) Accountability for professional/ethical behavior by individual police officers;
- (c) Special task forces that meet high priority community need;
- (d) Central policy changes, where applicable, that improve quality of life;
- (e) Resource allocations to meet high priority, difficult issues;
- (f) Strategies for a qualified and diverse workforce;
- (g) Providing information to the community and conveying feedback from the community to NOPD; and
- (h) Ways to provide data and information.

10. New Orleans Neighborhood-Police Anti-Crime Council (NONPACC)—These meetings provide community members with an opportunity to voice their concerns directly to the District Captain. These meetings occur monthly and are attended by the District Captain and other district personnel. Progress on implementation of the Community Policing Plans will be discussed at monthly NONPACC meetings.

11. Neighborhood Watch—A program that enlists the active participation of residents, in cooperation with law enforcement, to reduce crime in communities throughout the city.

12. School Resource Officer (SRO) Program—SROs are assigned to provide police services to area public high schools and to serve as resources to teachers and staff. The SRO helps school officials cope with school violence and assists in creating a safe and conducive learning environment in public schools. SROs are responsible for conducting youth police dialogues. Specific SRO’s responsibilities are set out in **Chapter 1.20 – School Incidents, School Resource Officers.**

13. Victim-Witness Program—Provides many resources and services, including referrals to outside social services agencies and contacts community members involved in serious crimes, providing information about the various services available to the community. The Victim/Witness Assistance Program, handled thru the Victim Witness Unit, provides the following assistance to citizens:

- (a) Safety planning;
- (b) Victim advocacy;
- (c) Crisis intervention;
- (d) Crime victim reparations;
- (e) Counseling referrals;
- (f) Community resource;
- (g) Referrals;
- (h) Case update information; and
- (i) Information on the criminal justice process

## Community Policing Forms Guidance

The Community Policing Form (CPF) is used to measure and track officer outreach to a broad cross-section of community members, to document extensive problem-solving partnerships and initiatives, and illustrate the implementation of cooperative strategies that build mutual respect and trusting relationships with stakeholders and the NOPD. All community policing activities, events, initiatives, collaborations, and resolutions must be documented in a Community Policing Form. The CPF is housed on a secured internal network drive accessible to all NOPD personnel (NOPD Web Applications).

All commissioned personnel will complete a CPF when he/she is engaging with the community or conducting community policing in a **single event** and not when taking an action that will be documented by using a Community Policing Signal.<sup>46</sup> For example: an officer responding to a complaint of an abandoned vehicle in front of a residence. The officer then takes the necessary action to notify city towing and get the car removed. The single event would require a CPF and not the use of a community policing signal.

### Form Completion

When department personnel open the Community Policing Form homepage on NOPD Web Applications under the Forms tab, they will access the home screen for Community Policing Forms and will complete the form using the following steps:

1. At the top of the homepage the officer will select “Officer’s Activity” to open a blank CPF.
2. The officer’s name, district and assignment will automatically populate on the form.
3. The officer will enter the citizen stakeholder’s name, address, and organization, if applicable.
4. The officer will enter the date of activity and activity type.
5. The officer shall select one of the following activities:
  - a. Strengthening Relationship
  - b. Crime Prevention
  - c. Problem Solving (SARA)
  - d. Crime Trends
  - e. Residence Business Security Evaluation
  - f. Event Coordination
  - g. Meeting
  - h. Community Policing Plan (CLOs only)
  - i. Other. If other is selected, the officer will describe the interaction in the narrative box labeled ‘Other’.
6. The officer will not select the Community Policing Plan as the CLO completes this update for the entire police District. See *Community Policing Form Activities* section below for more information.
7. The officer will select the check box to document if he/she is a CLO or not.

---

<sup>46</sup> Community policing signals allow the Department to document specific tasks for proactive and community policing that follow each District’s Community Policing Plans and Initiatives. The Community Policing Signals are 22A - Area Check, 22B - Business Check, 22D - Directed Patrol, 22R - Residence Check, 21Q - Quality of Life, and 22W - Walking Beats.

8. The officer must contact OPCD (Orleans Parish Communication District) and request an item number for the interaction and document the given item number in the “Item Number” field box and any other referenced item numbers associated with the current interaction or matter.
9. The officer will clearly describe the activity, complaint, or interaction in the comment box and submit the form. In the comment box, the officer will note if a follow-up is needed and if the resolution must be referred and completed by an outside agency.
10. If the follow-up can be completed within 24 hours, the initial officer may use his/her discretion to complete the follow-up tasks before submitting the form for supervisor review.
11. Once the form is submitted, the officer’s direct supervisor will receive an email alert to review and approve the submitted form.
12. If the interaction or matter requires a follow-up initiative, the supervisor will select “Yes” in the “Follow-up” section within 5 business days of receiving the email notification,<sup>47</sup> and the form will be directed to the District CLO for follow-up completion.
13. The CLO will go to the location of the issue/matter and assess whether the concern is current and/or what steps will be necessary to resolve the matter.
14. After the CLO’s assessment, he/she will search for the form entry by item number and select the form to document edits and completion tasks.
15. The CLO will document that the follow-up was complete and select “Yes” under “Problem Solved?” If an outside agency must conduct any actions to resolve the matter, the CLO will select “No” under “Problem Solved” but will still document the follow-up he or she conducted and note that the outside agency was notified for their assessment of the matter.
16. The CLO will submit his/her documentations and the form will be directed to the District DSA for approval.
17. After the DSA’s approval of the form, the form is tagged completed in the system and will be reviewed and audited by the Community Engagement Section Manager during the quarterly audit.
18. If the DSA or Supervisor selects “Requested for Resubmit” the form will be redirected to the CLO, and the officer will complete the recommended tasks of the DSA or Supervisor until the form can be approved and submitted as a completed form.

### Community Policing Form Activities

As stated above, officers can select the following form activities:

- a. Strengthening Relationship
- b. Crime Prevention
- c. Problem Solving (SARA)
- d. Crime Trends
- e. Residence/Business Security Evaluation
- f. Event Coordination
- g. Meeting

---

<sup>47</sup> This is a separate process from the 30-day form approval requirement. Follow-up forms do not get approved until the problem is resolved or reduced and deemed resolved.

- h. Community Policing Plan (CLOs only)
- i. Other. If other is selected, the officer will describe the interaction in the narrative box labeled 'Other'.

Strengthening Relationships: Officers should describe any interaction that builds trust and legitimacy and any efforts put forth to create lasting relationships with community members. Examples include presentations at community meetings, constant communication with community members to provide information when requested, Police Activities League events with youth, or any interactions where a relationship or partnership is established.

Crime Prevention: Officers should describe any crime prevention strategies presented to community members and any applicable updates. For example, if a Real Time Crime Center camera was positioned at a location with prolonged violent criminal activity.

Problem-Solving (SARA): When writing a Problem-Solving entry, officers shall utilize the SARA method in the form narrative box. If the narrative section does not break down the problem that was addressed via the SARA model, the form entry will be redirected to the officer to resubmit. Officers should specifically document activities in the form following the prompts below:

**Scanning:** This first step requires police to recognize recurring issues and their respective outcomes within their communities. Officer must then prioritize these issues and develop goals to resolve the issue at hand. Officers must then further examine problems within the larger issue.

**Analysis:** To analyze a problem, officers need to identify and understand the causes and entailments of an issue as well as collect data on the problem. The analysis step makes officers specify current responses to an issue, the scope of an issue, resources, and potential reasons for the issue's occurrence.

**Response:** Officers use their research from the analysis step to brainstorm ideas for intervention, select intervention options, outline plans and objectives, and implement proposed plans.

**Assessment:** The final step of the SARA model takes place after officers have tried to solve a problem. Assessment requires officers to evaluate the success of their plan and collect data regarding its outcomes. During this step, officers also determine whether their initial goals were met and make an effort to better ensure continued success.

**\*\*Refer to *The SARA Model* section of this report for more information on documenting SARA\*\***

Keep in mind that if the "Follow-Up" box is checked, the officer only needs to enter the SARA steps taken. For example, if you responded to the problem, but need the CLO to assess the impact, only document how you scanned, analyzed, and responded to the problem.

Crime Trends: Officers should describe any reoccurring crime trends in certain locations, times of day, or any other applicable information. This information assists with analyzing potential problems and issues within the District and allows for better follow-up in the future.

Residence/Business Security Evaluation: Officers should describe any information provided to a community member during a business check or residence check. If there is a situation that requires the officer to provide valuable information on protecting citizens or valuables, the information should be included in the form. For example, if an officer conducts a business check and provides the business owner or employees with information on how to reduce crime or quality of life issues at the business, the officer should document the information in the narrative.

Event Coordination: Officers should document any events they are planning or coordinating in partnership with stakeholders. Engaging the community is an important step in building lasting relationships. Officers are encouraged to assist with coordinating community events.

Meetings: Officers should document community meetings they are attending. Engaging the community is an important step in building lasting relationships. Officers are encouraged to attend and document attendance at community meetings or any other meetings that advance community interests.

#### Community Policing Plan Entries

“Community Policing Plan” activity is only entered into the CPF by CLOs. If a non-CLO officer performed some activity in service of the Community Policing Plan in his/her/their district, the officer should provide an update for the CLO either during roll call, phone, email, or any other feasible mode of communication.

Officers may also need to document in a Community Policing Form the activities they performed in service of one (or more) of the priorities in their districts’ Community Policing Plan. For example, if an officer may have engaged in a “Crime Prevention” activity that addressed one of the priorities in the Community Policy, this activity would be documented using the “Crime Prevention” drop down in the CPF (not using the “Community Policing Plan” drop down since that drop down can only be used by CLOs). CLOs should review the CPFs of the officers in their district when completing the monthly Community Policing Plan reports.

CLOs are required to complete monthly activity reports that summarize the activities performed in service of their district’s Community Policing Plan. In order to do so, the CLO must do the following:

1. Select the activity “Community Policing Plan”. This will populate the specified district’s Community Policing priorities.
2. The CLO will select which project is the target project to update. Once selected, the tasks for the projects will populate along with a blank comment box.

The CLO will clearly describe the updated activity or interaction completed for the month in the comment box relating to the District’s Community Policing Plan and submit the Community Policing

Form. All officers must document relevant interactions within one week of the occurrence and Supervisors must review community policing forms entries within 30 days of submission.

\*The Community Policing Forms will be audited based on form completion and accuracy and not to show compliance of Community Policing or Engagement performed tasks and/or services to the community. The scorecard will track the increases in compliant entries compared to historical data. The Department will be compliant with Community Policing Forms by demonstrating a trend over time to embrace the use of the Community Policing Forms through increased compliance with form entries over time.

**Community Engagement Daily Training Bulletin**

This page is intentionally blank to include the Community Engagement DTB once it is approved.

## **District Community Policing Plan Template**

The Community Policing Plans address the unique needs of the communities serviced in each District. Every 2 years, each District develops a plan that identifies three policing priorities. Below is a template that can be used as a guide in drafting plans.

## **NEW ORLEANS POLICE DEPARTMENT**

**First District**

**[INSERT TABLE OF CONTENTS]**

### **COMMUNITY POLICING AND ENGAGEMENT PROGRAM OVERVIEW**

The New Orleans Police Department's Community Engagement Program consists of a Community Engagement Policy, Community Engagement Plan and Community Outreach and Public Information Plans.

Community Policing and Engagement Policy

The New Orleans Police Department shall promote and strengthen community partnerships, engage constructively with the community, ensure collaborative problem solving, ensure ethical and bias-free policing, and increase community confidence in the Department.

## Community Policing and Engagement Manual

The Community Engagement Plan is designed to be a long term, aspirational document that will enhance the NOPD's community engagement, community policing and problem-oriented policing procedures. The objectives of this manual are meant to guide officers on how to foster positive community engagement interactions between citizens and NOPD, utilize community policing ideals, create opportunities for substantive engagement with the community, substantive collaboration with the community as well as civic engagement.

### Community Policing Plan

A district-specific collaborative partnership with the community. The Community Outreach and Public Information Plans will be specific to each District and address the unique needs of the community serviced in each District.

On [insert date] the NOPD hosted a forum with the [insert District] Police Community Advisory Board (PCAB) via [insert location]. The purpose of this event was to identify and prioritize public safety concerns voiced by community members. PCAB members reviewed 311 data collected year-to-date- in the Sixth District and reviewed New Orleans Neighborhood-Police Anti-Crime Coalition (NONPACC) citizen concerns to form a list of issues that the Sixth District should address. The Community Liaison Officers collected feedback from the PCAB Members and analyzed the feedback to identify trending problems that could be developed into robust problem-oriented policing plans.

We continue to survey the community every 2 years to update and prioritize these issues. Thus, we continue to establish transparent, actionable items and update them monthly to show community members the district's efforts in resolving community concerns.

### [Insert District] DISTRICT

The [Insert District] District is in the [describe location (i.e. Central City)] located at [physical address].

The[ ] District currently serves a population of approximately [number of residents] residents. Included in the Sixth District are several diverse neighborhoods such as [list at least 3-5 neighborhoods] , to name a few. The area also has [insert notable locations or landmarks, etc. (i.e. one college, shopping on the Magazine Corridor, several shopping centers, and eateries)].

The District has [how many officers] officers as of [INSERT DATE]. The District phone number is \_\_\_\_\_. The District can be contacted by email at [EMAIL]. For more information about the work of these officers, please follow the Facebook page account: [INSERT LINK TO FACEBOOK]

**[INSERT CAPTAIN, SECOND IN COMMAND, CLO AND SRO BIOGRAPHIES]**

During the above listed events citizens are asked the following questions to incorporate their concerns and recommendations into the District Community Policing Plans:

- “In your opinion, what are the greatest problems in your District and how can police help?”
- “How can the community collaborate with the police department to address these issues?”
- “What does the police department do well in terms of community engagement?”
- “What could the police department do better in terms of community engagement?”
- “What activities should the Department undertake to improve relationships with youth?”

- “How can we reach out to individuals not present to engage them in improving the police department?”

## DISTRICT COMMUNITY POLICING PLAN PRIORITIES

Given the issues raised by the community, the primary area of focus in the \_\_\_District Community Policing Plan, drafted for [DATE], will be to do the following:

[LIST AT LEAST THREE PRIORITIES]

## ACTIONABLE ITEMS

Actionable items are specific steps the District will take to implement the District Community Policing Plan. Actionable items will be quantified or qualified through data analytics. The actionable items are transparent and will be updated monthly to allow the community to verify the actions of the District. Actionable items are given via tasks.

[BREAK OUT ACTIONABLE ITEMS BY “TASK #1, TASK #2, ETC.]

## APPENDIX

## LGBTQ+ Community Liaison KSA

### **Position:**

- LGBTQ+ Community Liaison

### **Bureau/ Division/Unit:**

- Open to all bureaus and units

### **Job Description/Position:**

The LGBTQ+ community liaisons will act as a conduit between community members and the Department, including senior leadership. Liaisons will be expected to build strong relationships with community members and to participate in community outreach and recruitment programs citywide. Liaisons will meet with the superintendent or his/her designee at least monthly to share information and feedback and to shape strategies to continually improve services to, and relationships with, members of the community who identify as LGBTQ+. Communication will be clear, direct, and transparent, with an emphasis on community input and accountability. Liaisons will be required to attend specialized training on cultural competency and policing best practices regarding the LGBTQ+ community.

This role will be a coequal part of an officer or civilian employee's duties. While acting in the liaison capacity, individuals will report to the Deputy Superintendent of the Professional Standards & Accountability Bureau or his/her designee.

### **Key responsibilities include:**

- Build strong relationships with individuals and community organizations and attend key community events with the approval of event organizers.
- Convene regular community forums (at least twice per year) to learn about and address current issues affecting the community.
- Provide specific support to LGBTQ+ victims of crime, and/or witnesses, as requested.
- Monitor a dedicated email address, [LGBTQNOPD@nola.gov](mailto:LGBTQNOPD@nola.gov), which will serve as an additional venue for community members to ask questions, raise issues, and provide feedback; respond to messages and follow up as appropriate.
- Review any potential changes to bias-free policies and procedures, soliciting feedback from the community.
- Collaborate with the Education and Training Division and the Professional Standards & Accountability Bureau to ensure proper training on Chapters 41.13 and 41.13.1.
- Facilitate annual community review of Chapters 41.13 and 41.13.1, with a key focus on ensuring that feedback on policies and training is received from marginalized populations within the LGBTQ+ community, including people of color (with an emphasis on the experiences of black transgender women), young people, and individuals experiencing homelessness.
- Work with the Department's language access coordinator to collect feedback regarding LGBTQ+ issues from immigrant communities and others with limited English proficiency.

- Conduct formal trainings to educate community members on their rights and on Departmental policies and processes, and ensure community members have the knowledge, tools, and resources they need to hold officers accountable.
- Treat all community feedback seriously and keep community members informed of any actions taken to address questions or concerns. Guide community members through the complaint process as necessary and ensure that complaints are appropriately followed up on and that the result of the complaint is clearly communicated to the complainant. Work with the Public Integrity Bureau (PIB) to identify and address any relevant trends in complaints regarding treatment of the LGBTQ+ community.
- Maintain familiarity with established and emerging best practices regarding policing and the LGBTQ+ community.

**Minimum Qualifications:**

- Excellent writing skills, oral communication, and interpersonal skills
- Excellent computer skills
- No Sustained misconduct complaints within a 24-month period

**Requirements:**

- Exceptional writing and verbal communication skills
- Strong interpersonal and relationship-building skills
- Ability to meet deadlines
- Strong Moral Character

**Selection Method:**

- Interested candidates should send resume and a 2-3 writing sample (such as a report) to the Professional Standards & Accountability Bureau at [PSAB@nola.gov](mailto:PSAB@nola.gov) no later than Friday, August 16, 2019.
- Letter of recommendation from the candidate's current supervisor.
- PIB history, INSIGHT and last annual evaluation will be reviewed by the Captain of the Professional Standards & Accountability Bureau.
- Final approval recommendation to Deputy Superintendent of Professional Standards & Accountability Bureau for written approval.

## Language Access Coordinator KSA

### **Position:**

- Language Access Coordinator

### **Bureau/ Division/Unit:**

- Professional Standards & Accountability Bureau/Crime Prevention/Community Engagement

### **Job Description/Position:**

Per NOPD Chapter 55.4 Limited English Proficiency Services, the Language Access Coordinator “shall be responsible for coordinating, implementing, and monitoring compliance with all aspects of the NOPD’s services to LEP individuals with the assistance of the Policy Standards Section. This includes ensuring free language access services to all LEP individuals encountered by members of the Department, consistent with this Chapter and the Department’s **Language Assistance Plan.**”

This is a permanent, full-time position.

### **Key responsibilities include:**

- Monitor availability and quality of services provided to populations with Limited English Proficiency:
  - Annually review all new documents, forms, or communications issued by the NOPD to assess whether they should be considered vital materials requiring translation. Work with Community Liaisons and NOPDAIs to have documents and communications translated and distributed to LEP communities.
  - Provide oversight and support to Spanish-Speaking and Vietnamese-Speaking Community Liaisons and ensure their time is spent appropriately on building relationships of trust with the community and addressing areas of concern.
  - At least monthly, review body-worn camera footage of officers interacting with LEP individuals. Complete audit reports detailing need for, and delivery of, services.
  - Work with Community Liaisons to review all body-worn camera footage of NOPDAIs delivering interpretation services to monitor quality and accuracy of services. Report any issues to the Professional Standards & Accountability Bureau for corrective action and/or training updates.
- Collaborate with Community Liaison Officers (CLOs) to develop and implement a comprehensive community outreach plan, including the following actions:
  - Identify and contact all major organizations serving the LEP community.
  - Collaborate with organizations and individuals to identify areas for potential growth and additional training for all officers.
  - Coordinate regular (at least quarterly) public meetings, hosted by Community Liaisons, to solicit feedback from community members.
  - Solicit ongoing recommendations for improved LEP services from the Community Liaisons.

- Annually prepare a report to the Superintendent assessing the language assistance services provided to LEP individuals, the effectiveness of those services, language assistance service complaints that have been received and the complaints' resolution, and any recommendations to improve language access policies and procedures. As part of this report, track and analyze the following information:
  - The number of LEP individuals NOPD staff has encountered in person, by telephone, in written or electronic communications, and on the NOPD website.
  - For each encounter in (a), the number of LEP persons that requested services and the number who were provided services.
  - The primary spoken and written language of the LEP persons provided services.
  - For each encounter described in (a), whether an in-person, remote, or other interpreter service was provided.
  - Number of bilingual staff who have been evaluated for language proficiency including their level of proficiency.
  - Use of document translators by number of documents or communications translated and non-English language.
- Review all community recommendations and implement as appropriate, working with the Education & Training Division and with the Professional Standards & Accountability Bureau as appropriate.
- Work with the Professional Standards & Accountability Bureau to annually assess demographic data, review language access services utilization data, and consult with representatives of the LEP community and District Captains to ensure that the Department is providing the services and benefits the Department provides in all NOPD-conducted programs or activities to LEP persons. Use this review to determine whether vital documents or communications should be translated into additional languages and whether other related changes to the Department's LEP program are necessary.
- Collect and track calls for service data about LEP contacts with NOPD. Prepare monthly reports to the Deputy Superintendent of the Performance Standards & Accountability Bureau outlining LEP services coordinated through OPCD. Incorporate this information into the annual report provided to the Superintendent.
- Regularly attend community events as a representative of the NOPD.
- Coordinate and deliver training to NOPDAIs, other officers, and recruits as needed. This includes the 8-hour Interpreter Skills training required, in addition to Civil Service bilingual certification, to become an NOPDAI.
- Assess the effectiveness and efficiency of the Department's Language Assistance Plan on an ongoing basis and report to the Superintendent or his/her designee regarding needed improvements and any accountability concerns.
- Ensure that English, Spanish, and Vietnamese translations of the current Language Assistance Plan and policy (Chapter 55.4) remain posted in a public area of the police department building, District police stations, and the PIB building, as well as online, and in any other locations throughout the City where individuals go to seek police assistance.
- Distribute the Language Assistance Plan and policy to a variety of community organizations serving LEP communities encountered by NOPD.
- Maintain the NOPD Authorized Interpreter (NOPDAI) list that will include each interpreter's language(s) of proficiency, when language skills were assessed for each language, and if any complaints have been filed against them regarding their language

skills.

- Provide this listing to the executive director of the Orleans Parish Communications District (OPCD) for the use of dispatchers.
- Make this list available on NOPD's intranet.
- Review the list for accuracy at least every six months and provide updates as appropriate.
- Provide quarterly status reports to the Deputy Chief of the Professional Standards & Accountability Bureau or his/her designee detailing the strategies that have been implemented along with any additional recommendations.

**Minimum Qualifications:**

- Four years of NOPD experience as a Commissioned member
- Excellent writing skills, oral communication, and interpersonal skills
- Excellent computer skills
- No Sustained misconduct complaints within a 24-month period

**Requirements:**

- Exceptional writing and verbal communication skills
- Strong interpersonal and relationship-building skills
- Strong managerial skills
- Ability to meet deadlines
- Strong Moral Character
- Preference will be given to NOPDAIs (with fluency in Spanish or Vietnamese)

**Selection Method:**

- Interested candidates should send resume and a 2–3-page writing sample (such as a report) to the Professional Standards & Accountability Bureau at PSAB@nola.gov.
- Letter of recommendation from the candidate's current supervisor.
- PIB history, INSIGHT and last annual evaluation will be reviewed by the Captain of the Professional Standards & Accountability Bureau.
- Final approval recommendation to Deputy Chief of Professional Standards & Accountability Bureau for written approval.

## District Community Engagement Brochure

### SafeCam NOLA

Citizen-provided security camera footage is increasingly becoming an invaluable tool to solve crimes. By voluntarily registering your cameras and contact information with NOPD, detectives will know how to reach you if a crime occurs in the vicinity of your property. For more info, visit <http://www.safecamnola.com/>

### NONPACC Meeting

The # District's monthly NON-PACC (New Orleans Neighborhood Police Anti-Crime Council) meeting is held on the #### of each month at #pm at ####. NON-PACC meetings give citizens the opportunity to meet the # District's leadership team, learn about crime fighting strategies and upcoming events.

### #th District Email Address

*NOPD#DISTRICT@NOLA.GOV*

As the NOPD moves toward becoming a strong community policing focused department, every officer is being trained to provide these services to citizens. We are continually building mechanisms whereby every member of the NOPD has the opportunity to actively engage with the community in various community settings. The NOPD has a dedicated email address for each of the eight police districts, that citizens can use to notify the district's leadership team of community events, community meetings, etc., that they would like the NOPD to actively participate in. Citizens may also email specific quality of life concerns that require a response from law enforcement.

### Get "NOLA Ready", Report QOL Concerns to 311, Sign Up for Email Alerts and Facebook

The City of New Orleans is always on alert, ready to respond to any situation. Do you have a plan of action? How can you be warned and informed? Sign up for NOLA Ready, the City's emergency alert system, at <http://new.nola.gov/ready>.

The City of New Orleans also has a call line designated for citizens to report concerns and quality of life issues. NOLA 311 agents are available to take your calls about roads, drainage, street lights/signs/signals, code enforcement violations, trash, recycling, abandoned vehicles, blight, grass and many more City services and issues. You can also call 311 to register

for the City's Assisted Evacuation, request information about a City service, as well as referrals to City services. For more info, visit <http://www.nola.gov/>.

If you utilize social networking sites, follow us on Facebook by visiting our page, NOPD ### District, at #####.

Sign up for email alerts from the # District at: <http://www.nola.gov/subscribe/>.

### NOPD Citizens Academy

The NOPD Citizens Academy provides citizens with an opportunity to gain a better understanding of the NOPD and other parts of the criminal justice system, in a fun and interactive setting. Participants learn about aspects of the criminal justice system and how they can work with law enforcement to address community problems. This class meets on Wednesday evenings from 6:00 PM to 9:00 PM and lasts for 8 weeks. For more information on the next Citizens Academy, contact the Community Engagement Unit at 504-658-5590.

### Police Community Advisory Board

The mission of the # District's PCAB is to develop and maintain a partnership with the NOPD # District for the purpose of engaging in a collaborative problem-solving process that supports both the community and NOPD's desire to enhance public safety. The PCAB is a district-based participation structure, comprised of seven (7) volunteer community members. Established to encourage police and community collaboration, the PCAB's provide a framework for community members to give feedback and recommendations to each of the eight police districts in New Orleans. While the PCAB's provide recommendations to the NOPD, they do not have any decision making authority over NOPD finances, policies, or practices. For more information on the PCAB's, visit the "Get Involved" section on the NOPD website: <http://www.nola.gov/nopd/>.

### Volunteers Can Lead Program

The VoCal program offers residents who would like to volunteer their time and skills, the training and opportunity to assist NOPD by providing clerical duties in district stations, providing tourist information for visitors at the 8th District Station, and participating in community engagement strategies. For more information on the VoCal program, visit the "Get Involved" section on the NOPD website: <http://www.nola.gov/nopd/>.

The New Orleans Police Department, under the leadership of Superintendent Shaun D. Ferguson, is engaged in a complete transformation in its approach to ensuring that New Orleans is a safer place to live, work and visit. The NOPD is committed to transparency, accountability, collaboration and integrity.

COMMANDER ###  
# DISTRICT

# **CONSENT DECREE**

## COMMUNITY ENGAGEMENT

NOPD agrees to promote and strengthen partnerships within the community, and to engage constructively with the community, to ensure collaborative problem-solving and ethical and bias-free policing, and to increase community confidence in the Department. To achieve these outcomes, NOPD agrees to implement the requirements set out below.

### **A. Community and Problem Oriented Policing**

**223.** Within 180 days of the Effective Date, NOPD agrees to reassess its staffing allocation and personnel deployment, including its use of specialized units and deployment by geographic area, to ensure that core operations support community policing and problem-solving initiatives, and shall agree to modify any deployment strategy found to be incompatible with effective and community-oriented policing.

**224.** NOPD agrees to deploy an adequate number and distribution of officers to ensure that all neighborhoods have a regularly assigned officer who is familiar with the geographic area, its issues, problems, and community leaders; engages in problem identification and solving activities with the community members around the community's priorities; works proactively with other city departments to address quality of life issues; and is not assigned to answer calls to service absent exigent circumstances.

**225.** NOPD agrees to ensure its mission statement reflects its commitment to community-oriented policing and agrees to integrate community and problem-oriented policing principles into its management, policies and procedures, recruitment, training, personnel evaluations, resource deployment, tactics, and accountability systems.

**226.** Within 365 days of the Effective Date and annually thereafter, NOPD agrees to provide eight hours of structured annual in-service training on community policing and problem-oriented policing methods and skills for all officers, including supervisors, managers, and executives.

This training shall include:

- a) methods and strategies to improve public safety and crime prevention through community engagement;
- b) scenario-based training that promotes the development of new partnerships between the police and community, targeting problem solving and prevention;

- c) leadership, ethics, and interpersonal skills;
- d) community engagement, including how to establish formal partnerships and actively engage community organizations, including youth, immigrant, and LGBT communities;
- e) problem-oriented policing tactics, including a review of the principles behind the problem solving framework developed under the “SARA Model” (Scanning, Analysis, Response, Assessment), which promotes a collaborative, systematic process to address issues of the community, including safety and quality of life;
- f) conflict resolution and verbal de-escalation of conflict; and
- g) cultural awareness and sensitivity training. Cultural awareness training shall be designed and delivered in cooperation with City Human Relations Commission staff and community representatives selected by the Commission.

**227.** NOPD agrees to continue to support community groups in each District (e.g., NONPACC) and to meet regularly with the communities each District serves. In addition, within 240 days of the Effective Date, NOPD agrees to develop and implement mechanisms to measure officer outreach to a broad cross-section of community members, with an emphasis on youth outreach, to establish extensive problem-solving partnerships and develop and implement cooperative strategies that build mutual respect and trusting relationships with this broader cross-section of stakeholders. NOPD agrees to develop and implement partnerships to provide immediate and ongoing support to families of victims of homicides and other serious crimes.

**228.** Within 240 days of the Effective Date, NOPD agrees to develop measurements to assess the effectiveness of its community partnerships and problem-solving strategies, including the effectiveness of the Community Coordinating Sergeant program. NOPD agrees to prepare a publicly available report on at least a quarterly basis detailing its community policing efforts in each District, including developing community partnerships and participating in public meetings, and its problem-solving activities, including specific problems addressed and steps taken by NOPD and the community toward their resolution. This report also shall identify obstacles faced and recommendations for future improvement. At least annually, NOPD agrees to issue a publicly available report that summarizes these problem-solving and community policing activities.

**229.** Within 180 days of the Effective Date, NOPD agrees to remake the COMSTAT meeting. The COMSTAT meeting will use the underlying collection and reporting of accurate and meaningful data regarding crime trends and other public safety measures to drive discussion of community-policing successes and challenges. NOPD agrees to ensure the COMSTAT meeting includes discussion and analysis of trends in misconduct complaints and community priorities to identify areas of concern, and to better develop interventions to address them. NOPD agrees to use techniques such as spatial mapping and scientific deployment analysis to enable COMSTAT to better support and measure community and problem-solving policing efforts.

## **B. Biennial Community Survey**

**230.** Within 180 days of the Effective Date, and every two years thereafter, NOPD and the City agree to conduct a reliable, comprehensive, and representative survey of members of the New Orleans community regarding their experiences with and perceptions of NOPD and of public safety.

**231.** To conduct the biennial community survey, the Monitor shall retain an individual or entity, to be approved by DOJ, that shall:

- a) develop a baseline of measures on public satisfaction with policing, attitudes among police personnel, and the quality of police-citizen encounters;
- b) design, conduct, and analyze baseline and subsequent biennial surveys of a representative sample of City residents, police personnel, and detained arrestees;
- c) review and consider prior law enforcement surveys in New Orleans and other cities, as well as current or recent concerns in New Orleans, in designing the survey;
- d) engage in informal conversations with New Orleans residents, NOPD officers and command staff, and DOJ representatives, and observe community meetings;
- e) ensure that the resident and arrestee surveys are designed to capture a representative sample of New Orleans residents, including members of each demographic category;
- f) conduct the survey in English, Spanish, and Vietnamese, as necessary, to ensure representation of the entire New Orleans community; and
- g) formally discuss the survey methodology with NOPD supervisors and DOJ and consider these opinions in the development of the initial survey and in making improvements to subsequent surveys.

**232.** NOPD and the City agree to cooperate with the design and conduct of the survey by, for example, helping to organize focus groups of officers and obtaining and providing previous survey instruments and data.

**233.** The report of the baseline survey and subsequent biennial surveys shall be publicly distributed and available.

## **District Community Outreach Programs and Meetings**

**432.** Within 180 days of the Effective Date, NOPD agrees to develop and implement a Community Outreach and Public Information program in each NOPD District.

**433.** The Community Outreach and Public Information program shall include at least one semi-annual open meeting in each of NOPD's eight Districts for the first year of this Agreement, and one meeting in each District annually thereafter. These open meetings shall be led by the Superintendent or Deputy Superintendent and shall inform the public about the requirements of this Agreement; NOPD's progress toward meeting these requirements; and address areas of community concern related to public trust and constitutional policing. At least one week before such meetings, the City shall widely publicize the meetings using earned media opportunities. In determining the locations of the meetings, NOPD shall consider factors such as easy access to public transportation and child care.

**434.** The Community Outreach and Public Information meetings shall include summaries of all pertinent audits and reports completed pursuant to this Agreement and inform the public of any policy changes or other significant actions taken as a result of this Agreement.

**435.** For at least the first two years of this Agreement, every NOPD officer and supervisor assigned to a District shall attend at least two community meetings (e.g., NONPACC and other meetings with residents, and business and religious groups) per year in the geographic area to which the officer is assigned.

#### **D. Police-Community Advisory Board**

**436.** DOJ acknowledges that NOPD and community representatives have acted jointly to create a PCAB to facilitate regular communication and cooperation between the Department, the City, and community leaders, including youth leaders, such as through the development of a community advisory panel and the collaborative development of policing strategies and priorities.

**437.** NOPD agrees to work collaboratively with PCAB to develop and implement public safety strategies that respect and reflect each community's public safety priorities and concerns about particular police tactics. To the extent specified below, NOPD agrees to seek PCAB's assistance, counsel, and input to build community consensus on potential recommendations in areas including the following:

- a) community policing strategies;
- b) accountability for professional/ethical behavior by individual police officers;
- c) special task forces that meet high priority community need;
- d) central policy changes, where applicable, that improve quality of life;
- e) resource allocations to meet high priority, difficult issues;
- f) strategies for a qualified and diverse workforce;

g) providing information to the community and conveying feedback from the community to NOPD; and

h) ways to provide data and information, including information about NOPD's compliance with this Agreement, to the public in a transparent and public-friendly format, to the greatest extent allowable by law.

**438.** NOPD further agrees to participate in quarterly meetings scheduled by PCAB; to allow the meeting agenda to be determined by the PCAB; and to have command/executive level staff representation present at all regularly scheduled meetings.

# Public Release of Critical Incident Recordings

## Policy Statement

The City of New Orleans recognizes transparency facilitates increased trust between the New Orleans Police Department (“NOPD”) and the New Orleans community. Consistent with this recognition, it is the policy of the City and the NOPD to facilitate the prompt release of audio and video recordings of critical incidents involving the NOPD so long as the release is consistent with the legitimate needs of ongoing law enforcement operations. All releases of such recordings shall be made in accordance with the provisions of federal, state, and local laws.

- 1) **Definitions.** For purposes of this policy, these terms have the following meanings.
  - a) A “Recording” includes audio and/or video recordings of a Critical Incident in the possession of NOPD.
  - b) A “Critical Incident” is an event in which: an officer uses force resulting in hospitalization or death; an officer intentionally shoots his or her gun at a person(s); an officer strikes someone in the head with an impact weapon, whether intentional or not; a police vehicle pursuit results in death or an injury of a person(s) requiring hospitalization; or an arrested or detained subject dies while in the custody of an officer.
  - c) “Interested Parties” are (1) the Orleans Parish District Attorney’s Office; (2) the New Orleans City Attorney’s Office; (3) the NOPD Compliance Bureau; and (4) the United States Attorney’s Office.
- 2) **Ownership and Custody Of Recordings.** All Recordings made by the NOPD are the property of and in the custody of the City of New Orleans.
- 3) **Recommendation.**
  - a) Within 48 hours of a Critical Incident, the NOPD Public Integrity Bureau shall provide the Interested Parties access to the Recording(s).
  - b) As soon as practicable thereafter, the Deputy Chief of the NOPD Public Integrity Bureau shall confer with the Interested Parties for the purpose of obtaining their input regarding the public release of a Critical Incident Recording.
  - c) No longer than seven (7) days after a Critical Incident, the Deputy Chief of NOPD Public Integrity Bureau shall make a written recommendation to the Superintendent of the NOPD, with a copy to the Interested Parties, setting forth her recommendation regarding release of the Recording. The Interested Parties may submit their written objections to her recommendation, if any, to the Superintendent within 24 hours.

- d) The Deputy Chief of NOPD Public Integrity Bureau shall include in her recommendation reasons the Recording should or should not be released to the public. If she/he recommends release of the Recording, she/he shall identify the Recording(s) or portions of Recording(s) which she/he believes should be released to accurately and sufficiently display the Critical Incident and identify any recommended redactions or blurring.
- 4) **Considerations for Disclosure.** The Deputy Chief of the Public Integrity Bureau and the Interested Parties shall consider the following non-exclusive factors when conferring regarding release of a Recording:
- a) The nature of the incident/crime.
  - b) The location of the incident/crime, in a public or private space.
  - c) The safety or contamination of witnesses to the Critical Incident, including officers.
  - d) The public interest in protecting juveniles, the privacy rights of victims, witnesses, officers and other individuals with a reasonable expectation of privacy, to the extent blurring or redactions will not provide adequate protection.
  - e) The privacy protections afforded pursuant to Louisiana Revised Statute 40:2532 and whether redaction/blurring of identity adequately addresses any privacy concerns
  - f) The contribution release will make to building public trust by facilitating transparency.
  - g) The needs of law enforcement officials in the course of an ongoing investigation and whether release of the Recording would interfere with an ongoing investigation or where it could adversely affect the prosecution of an ongoing criminal matter or reasonably anticipated criminal litigation.
  - h) The input of the recipient of force at issue in the Critical Incident, witness, or, if warranted, the family members of the recipient of force at issue in the Critical Incident
- 5) **Determination.** Within 48 hours of receiving a written recommendation regarding release of the Recording(s), the NOPD Superintendent, on behalf of the City, shall determine whether the Recording(s) shall be released to the public under this Directive or withheld, subject to the Court's review as set forth in section 9.
- 6) **Domestic Violence or Sexual Assault.** No Recording, whether from public or private locations, will be released to the public in cases of domestic violence or sexual assault.
- 7) **Confidential Sources.** No Recording, whether from public or private locations, that may impart the identity of any confidential source will be released to the public.

**8) Release and Redactions or Blurring.**

- a) Recordings of Critical Incidents to be released shall be made available to the public as soon as practicable following the determination of release.
- b) NOPD may redact or blur portions of a released Recording as necessary to a) protect juveniles; b) protect the reasonable expectations of privacy of victims, witnesses, or suspects if applicable; and c) ensure the safety and security of all involved in the Critical Incident. NOPD shall ensure that the released Recording adequately and sufficiently reveals the Critical Incident. NOPD shall identify redacted or blurred portions of a released Recording.

**9) Review.**

- a) During the duration of the NOPD Federal Consent Decree entered in *United States of America v. The City of New Orleans*, Eastern District of Louisiana, CV 12-1924, any determination by the City not to release a Recording of a Critical Incident shall be reported by the City or NOPD to the Court, the Department of Justice, and the Consent Decree Monitor within 24 hours after the date of determination. The City and NOPD will request that the Court confer with the City, Interested Parties and the Department of Justice prior to entering any order reversing a decision regarding release. Nothing in this policy shall be construed as restricting the City or the Orleans Parish District Attorney's Office from appealing a decision of the Court. The Court's decision will not be stayed unless stayed by the District Court or by the U.S. Court of Appeals at the request of the City or DOJ.

- 10) No Third Party Rights Created.** This policy establishes no new rights in any third party with respect to the release of a Recording. Public requests for the release of a Recording are governed by the Louisiana Public Records Act. Nothing in this policy shall be construed to affect the rights of the City under La. R.S. 44:3.

# NEW ORLEANS POLICE DEPARTMENT

## LANGUAGE ASSISTANCE PLAN

---

Providing Police Services to Individuals with Limited English Proficiency (LEP)

June 2021

*Shaun D. Ferguson*  
*Superintendent*

New Orleans Police Department  
715 S. Broad Street  
New Orleans, LA 70119

## I. Introduction

The New Orleans Police Department (NOPD) is committed to providing high quality policing services to all members of the New Orleans community, including those with Limited English Proficiency (LEP). An individual is considered to be LEP if they speak, read, write, or understand the English language “less than very well.” In accordance with NOPD’s dedication to bias-free policing, and with Title VI of the Civil Rights Act of 1964, this document outlines the Department’s plan to provide policing services and necessary accommodations to LEP individuals.

NOPD’s approach to bias-free policing is codified in policy and practice. Chapter 41.13 Bias Free Policing establishes a clear policy directive to “provide police services that are equitable, respectful, and bias-free in a way that helps promote broad-based community engagement and bolsters confidence in the Department.”<sup>1</sup> Chapter 55.4 Limited English Proficiency Services specifies that:

“The New Orleans Police Department will take prompt and reasonable steps to provide LEP individuals timely, meaningful access to services and benefits the Department provides in all sponsored programs or activities. All NOPD personnel shall provide free language assistance services, including oral interpreter services and translated communications, to LEP individuals whom they encounter or whenever an LEP individual needs or requests language assistance services. Department personnel who interact with LEP individuals will inform those individuals that language assistance services are available free of charge to LEP persons and that NOPD personnel will provide these services to them.”<sup>2</sup>

The purpose of this plan is to provide information about the language assistance services offered by NOPD to both the community and NOPD. The plan sets forth: (1) an assessment of need for LEP services in New Orleans; (2) the NOPD LEP services available and the roles of NOPD members in providing those services, and (3) NOPD’s obligations to track and analyze data on the use of LEP services to ensure their adequacy.

NOPD released its initial Language Access Plan in November 2016 and updated the plan in November 2020. This plan shall be available in English, Spanish, and Vietnamese at <https://nola.gov/nopd/policies/>, at district stations, at Public Integrity Bureau headquarters, at NOPD headquarters, and at other public meeting places. The plan will also be distributed to local community groups serving LEP communities. It will be housed on Nola.gov under [New Orleans Police Department](#).

---

<sup>1</sup> NOPD Chapter 41.13 Bias Free Policing. <https://nola.gov/getattachment/NOPD/Policies/Bias-Free.pdf/>

<sup>2</sup> NOPD Chapter 55.4 Limited English Proficiency Services, paragraph 1. <https://nola.gov/getattachment/NOPD/NOPD-Consent-Decree/Chapter-55-4-Limited-English-Proficiency-Services.pdf/>

In 2016 NOPD launched its first ever certified interpreter program, which provides an additional 5% pay to NOPD officers who are certified as fluent in Spanish or Vietnamese and are willing to serve as interpreters for the department. This has given the department a new tool for recruiting individuals with foreign language skills.

## II. LEP Population in New Orleans

New Orleans has a current estimated population of 359,236 residents, according to a recent U.S. Census Bureau report.<sup>3</sup> Of those residents, approximately 9 percent speak a language other than English, and 3.6 percent speak English less than very well, meaning they are considered LEP. *Figure A* below shows the percentage of the population speaking the most common languages in Orleans Parish, which is co-extensive with the City of New Orleans. Spanish and Vietnamese are the most prevalent languages among LEP individuals, with approximately 6,800 LEP Spanish speakers and 3,600 LEP Vietnamese speakers. While there is a sizable population of French speakers, the majority speak English “very well” and, therefore, are not considered LEP.

*Figure A: Population by Language(s) Spoken<sup>4</sup>*

---

<sup>3</sup> Data are summarized from information found at the U.S. Census Bureau’s American Fact Finder website. The consulted table is titled “Language Spoken at Home by Ability to Speak English for the Population 5 Years and Over.” Data are from the 2011-2015 American Community Survey 5-Year Estimates.

[https://factfinder.census.gov/faces/tableservices/jsf/pages/productview.xhtml?pid=ACS\\_15\\_5YR\\_B16001&prodType=table](https://factfinder.census.gov/faces/tableservices/jsf/pages/productview.xhtml?pid=ACS_15_5YR_B16001&prodType=table)

<sup>4</sup> Ibid.

	Orleans Parish, Louisiana	
	Number of Individuals	Percentage of Population
<b>Total:</b>	359,236	
<b>Speak only English</b>	326,528	90.9%
<b>Spanish or Spanish Creole:</b>	15,561	4.3%
<b>Speak English "very well"</b>	8,764	2.4%
<b>Speak English less than "very well"</b>	6,797	1.9%
<b>French (incl. Patois, Cajun):</b>	4,027	1.1%
<b>Speak English "very well"</b>	3,475	1.0%
<b>Speak English less than "very well"</b>	552	0.2%
<b>Vietnamese:</b>	6,411	1.8%
<b>Speak English "very well"</b>	2,797	0.8%
<b>Speak English less than "very well"</b>	3,614	1.0%
<b>All Other Languages:</b>	6,709	1.9%
<b>Speak English "very well"</b>	4,918	1.4%
<b>Speak English less than "very well"</b>	1,791	0.5%

While LEP individuals reside in every police district throughout New Orleans, geographic data show that certain districts are home to larger LEP populations. The 1<sup>st</sup> district, which comprises Mid-City neighborhoods, has the largest population of LEP Spanish speakers. Sizable Spanish-speaking LEP populations are found in nearly every police district, which suggests that the need for NOPDAIs and other language services is diffuse throughout the city.

Vietnamese speakers, by contrast, seem to be more localized in the 7<sup>th</sup> district. This district, which includes New Orleans East and Village De l'Est, has the largest population of LEP speakers of other languages (primarily Vietnamese). Neighborhood-level data suggest that Vietnamese-speaking residents are clustered in the neighborhoods of Little Woods and Village De l'Est.<sup>5</sup> NOPD's Vietnamese language resources, therefore, should be primarily deployed in the 7<sup>th</sup> district, although there are populations of LEP speakers of other languages in smaller numbers throughout the city.

---

<sup>5</sup> Data are summarized and analyzed from information found at the Data Center's website, which utilizes information from Census 2000 and 2010, American Community Survey 2012-2016, and 2015 Local Employment Dynamics to provide statistics by neighborhood. Neighborhood data were then mapped onto police district boundaries to determine statistics by police district.  
<https://www.datacenterresearch.org/data-resources/neighborhood-data/>

Vietnamese officers only make up .33% of the commissioned workforce at NOPD and Hispanic account for 5.66%. The push to hire Spanish and Vietnamese-speaking officers continues to present as a challenge. Recruitment team members have established initial relationships with members of the Vietnamese community in eastern New Orleans as a means to build trust and recruit prospective Vietnamese officers to aide in our service to a community that has traditionally taken care of their own. We are hopeful that an increase in Vietnamese-speaking officers will help the community to become more trusting of the police.

The New Orleans Police Department is committed to understanding and moving past the language barriers and promoting understanding of cultural sensitivities that can contribute to our ability to provide quality service to the community. NOPD aims to maintain consistent participation in events such as, but not limited to those sponsored by the Hispanic Chamber of Commerce of Louisiana, Mary Queen of Vietnam Church, Crescent Care, Metropolitan Community Church of New Orleans and St. Agnes Le Thi Than Church. NOPD utilizing annual community events in its recruitment efforts such as:

- Tet Trung Thu (February)
- Kenner Hispanic Festival (March)
- Audubon Zoological Gardens’ Asian Heritage Festival (April)

*Figure B: Languages Spoken Less Than “Very Well” by Police District<sup>6</sup>*

District	Total Population	Number of individuals who speak Spanish at home and speak English "not well" or "not at all"	Percentage of individuals who speak Spanish at home and speak English "not well" or "not at all"	Number of individuals who speak other languages at home and speak English "not well" or "not at all"	Percentage of individuals who speak other languages at home and speak English "not well" or "not at all"
1st	31,520	2,152	6.8%	214	0.7%

8th	5,965	143	2.4%	28	0.5%

### III. Accessibility of Policing Services

<sup>6</sup> *Ibid.*

NOPD provides a variety of resources to make policing services and information more accessible to the general public and special needs groups including LEP individuals. The Department recognizes that building awareness of these services is key to improving relationships with LEP communities and to ensuring all members of the community feel that the police are responsive to, and respectful of, their needs.

All NOPD officers interacting with LEP individuals are instructed to assess the need for language access services. They are provided with “I Speak” language identification cards to facilitate this process. The “I Speak” Flashcards are in Appendix A of NOPD Chapter 55.4, Limited English Proficiency. The assessment may also be made via self-identification of the LEP individual, or by the officer’s inquiry as to the individual’s primary language. When the primary language has been identified, the officer is to request an NOPDAI or utilize an ELECTRONIC TRANSLATION DEVICE to provide the needed language access services when a NOPDAI is unavailable. The ELECTRONIC TRANSLATION DEVICE will also provide officers video translation for sign language.

### **Language Access Coordinator**

Implementation of the Language Access Plan falls under the purview of the Language Access Coordinator (LAC). The LAC’s responsibilities include coordinating and monitoring the Department’s compliance with its language assistance plan, assessing the effectiveness and efficiency of the plan on an ongoing basis, and reporting to the Superintendent’s office regarding needed improvements and any accountability concerns.<sup>7</sup> The LAC is tasked with developing and implementing a comprehensive community outreach plan, working with the Spanish-speaking and Vietnamese-speaking Community Liaisons to collaborate with individuals and organizations to solicit feedback and identify areas for growth.

The LAC reports to the commander of the Community Engagement unit, which falls under the Performance Standards & Accountability Bureau. This bureau also houses the Policy Standards Section, which develops and implements all department regulations, orders, policies, and rules. Pursuant to NOPD Chapter 55.4 -, Limited English Proficiency Services, the Language Access Coordinator “shall be responsible for coordinating, implementing, and monitoring compliance with all aspects of the NOPD’s services to LEP individuals with the assistance of the Performance Standards Section. This includes ensuring free language access services to all LEP individuals encountered by members of the Department, consistent with this Chapter and the Department’s Language Access Plan.”

For a full description of the LAC’s roles and responsibilities, please see Appendix A.

### **Spanish-speaking and Vietnamese-speaking Community Liaisons**

In May 2019, the Department solicited applications from officers to fill the roles of a Spanish-speaking Community Liaison and a Vietnamese-speaking Community Liaison. These positions will be filled by full-time officers; the appointees will be designated by the

---

<sup>7</sup> Consent Decree Paragraph 192. <https://www.nola.gov/getattachment/NOPD/NOPD-Consent-Decree/Consent-Decree.pdf/>

Deputy Superintendent of the Professional Standards & Accountability Bureau. The Community Liaisons must be authorized interpreters certified by Civil Service as fluent in their respective languages. They are responsible for regularly attending and presenting at community events for the Spanish-speaking and Vietnamese-speaking populations. They also perform other duties as directed by the LAC and as part of their responsibilities as authorized interpreters.

For a full description of the Community Liaisons' roles and responsibilities, please see Appendix A.

### **New Orleans Police Department Authorized Interpreters (NOPDAI)**

An NOPD Authorized Interpreter, or NOPDAI, is a civilian or commissioned employee who has been certified by Civil Service as bilingual and has undergone training in interpretation and translation ethics and protocols. NOPD began certifying employees as bilingual in Spanish or Vietnamese in 2016, and in April 2019 certified the first set of NOPDAIs. These individuals are authorized to interpret for others in certain situations, such as interviews, interrogations, or taking and responding to citizen complaints. They also assist with translating and reviewing documents to be published in Spanish and in Vietnamese. NOPDAIs must be recertified every three years.

A list of NOPDAIs has been circulated to all personnel at NOPD and at the Orleans Parish Communications District (OPCD) 911 Communications Center. Updated lists will be provided to OPCD any time an NOPDAI is newly certified or is removed from the list. OPCD employees have been trained to recognize when an incident involves an LEP individual, and to dispatch an NOPDAI or to inform the responding officer that an NOPDAI or ELECTRONIC TRANSLATION DEVICE (see information below) will be needed, and to record information on all LEP callers and their language. The 911 call data is recorded in the Computer Aided Dispatch (CAD) system. The LAC will collect data from this system as well as from the Electronic Police Report (EPR) and Field Interview Card (FIC) systems to analyze data pertaining to LEP calls in order to monitor trends and to ensure that appropriate services are provided.

In situations where an LEP individual is interviewed or interrogated, or a formal statement is taken, an NOPDAI will be called to provide interpretation services. Pursuant to Chapter 55.1, Limited English Proficiency, "An authorized interpreter shall be used for any interrogation or taking of a formal statement when the suspect's or witness's legal rights could be adversely impacted .... Because of the dual role a NOPDAI may have when conducting interrogations and acting as an interpreter, all NOPDAI interrogations shall be video and/or audio recorded."

When an LEP individual wishes to file a complaint, they may call, write, or visit the Public Integrity Bureau (PIB). PIB staff have been instructed to contact an NOPDAI to assist in the taking of and responding to any complaints by individuals who are LEP, as well as the interview of LEP complainants or witnesses. The Language Access Coordinator is

responsible for working with PIB to track complaints and resolutions of complaints filed by LEP individuals, per Chapter 55.4, Limited English Proficiency Services.

NOPD employees with Spanish and/or Vietnamese language skills are incentivized to become NOPDAIs via a pay differential. To maintain NOPDAI status after their initial qualification, they must complete a yearly refresher assessment regarding their language proficiency, and adhere to professional standards and ethics for interpreters and translators. NOPDAIs are required to complete a standard form documenting all interpretation and translation work.

Individuals requesting interpretation and translation work are encouraged to report any concerns or commendations to the Language Access Coordinator. The Spanish-speaking and Vietnamese-speaking liaisons will regularly review body worn camera footage of NOPDAI interpretations to ensure the quality of the services provided. An NOPDAI who regularly refuses interpretation or translation work, or whose work is deemed to be sub-par, will lose their NOPDAI status and will have their pay differential revoked. This determination will be made by the Language Access Coordinator in collaboration with the Deputy Superintendent of the Professional Standards & Accountability Bureau.

For a full description of the NOPDAIs' roles and responsibilities, please see Appendix A.

### **ELECTRONIC TRANSLATION DEVICE**

ELECTRONIC TRANSLATION DEVICE shall be available at each District station. These devices allow officers to connect to a certified interpreter who is fluent in both English and the required target language. ELECTRONIC TRANSLATION DEVICE application will translate multiple languages, including Spanish and Vietnamese. Officers interacting with LEP individuals are directed to use an ELECTRONIC TRANSLATION DEVICE when an NOPDAI is not available or when immediate interpretation services are needed. Officers' body worn cameras shall be in use during ELECTRONIC TRANSLATION DEVICE interpretation; the Spanish-Speaking and Vietnamese-Speaking Community Liaisons shall regularly review these videos to ensure high-quality interpretation services are provided.

### **Translation of Public Website and Available Forms**

The City of New Orleans' official website, nola.gov, has an embedded translation function provided by Google for forwarding facing translating of information. Visitors to the website, including to pages pertaining to NOPD, can select their language from a menu of more than 100 languages. Translated documents shall be added to NOLA.GOV, so visitors can find information about policing services. The documents to fill out complaint or commendation forms in their chosen language shall be embedded in the website.

Key documents and forms, including the Language Assistance Plan, are translated by NOPDAIs or by professional translation services. Policies that have been translated are available here: <https://nola.gov/nopd/policies/>. Key documents are identified by the LAC based on: an annual review of newly created documents and forms; input from officers regarding regularly used forms; requests from individuals (officers or community members);

and feedback from biannual community meetings. PIB complaint forms and information can be found at PIB headquarters, NOPD headquarters, District stations, NOPD and City websites, City Hall, courthouses within New Orleans, all public libraries, the IPM, the Orleans Public Defenders, and at the offices or gathering places of community groups, or online here: <https://nola.gov/nopd/about-us/bureaus/public-integrity/>. Key forms used by police officers in interactions with the public are available via the Department’s intranet. Officers have been educated about the documents’ availability and directed to offer translated forms to LEP individuals whenever applicable.

**Measuring and Assessing Policing Services to LEP Communities**

NOPD has determined that it will record the need for interpretation services by using the NOPDAI form. The responding NOPDAI, or the responding member when no NOPDAI is available, will complete the NOPDAI Form indicating what interpretation services occurred or if no interpretation was available. The LAC will compile the data from these forms to assess the policing services NOPD provides to LEP communities.

Although New Orleans is home to a sizable LEP population, NOPD encounters involving LEP individuals remain relatively infrequent. Calls for service involving LEP individuals account for a small fraction of all calls, and deployment rates of ELECTRONIC TRANSLATION DEVICE interpretation devices are low. While there may be a variety of causes for the relative rarity of police interactions with LEP individuals, anecdotal evidence suggests that reasons may include a lack of awareness regarding available language access services, and a lack of trust in the Department. NOPD is committed to raising awareness through the activities of the Language Access Coordinator, Spanish-Speaking and Vietnamese-Speaking Community Liaisons, and NOPDAIs. These individuals will also work to build strong relationships within the communities they serve, which should engender trust and encourage positive contact with police officers.

**Calls for Service Involving LEP Individuals**

*Figure B* below shows historical data relating to calls for service, which are instances when someone requests police assistance. The table also shows the number of calls for service where the requester had Limited English Proficiency (LEP Calls). From 2015 to 2020, the percentage of calls that involved LEP requesters shows a relative average of 0.21% over the years

*Figure B: Calls for Service by Year*

<b>Year</b>	<b>Total Calls</b>	<b>LEP Calls</b>	<b>Percentage of Total Calls that are LEP</b>
2014	402,012	111	0.03%
2015	382,592	805	0.21%
2016	356,996	738	0.21%
2017	390,633	726	0.19%
2018	405,115	714	0.18%

2019	429,779	655	0.15%
2020	368,590	759	0.21%

### **ELECTRONIC TRANSLATION DEVICE Usage**

Per Chapter 55.4- Limited English Proficiency Services, officers responding to a call for service involving a known LEP individual are directed to “use an approved interpretation service.” The preference is for using an NOPDAI, or New Orleans Police Department Authorized Interpreter, when available. When an NOPDAI is not available, or when immediate interpretation services are required, officers may use an ELECTRONIC TRANSLATION DEVICE. ELECTRONIC TRANSLATION DEVICE is a mobile interpretation device that provides 24-hour access translation to communicate in multiple languages, including Spanish and Vietnamese. ELECTRONIC TRANSLATION DEVICE shall be housed at every District station, and officers are instructed to request one from a supervisor before responding to a call for service involving an individual who is known to be LEP. Officers arriving on a scene who discover that an LEP individual is involved may also request an ELECTRONIC TRANSLATION DEVICE if an AI is not available.

Basic Fact and Use sheets are attached as links to this Plan for the electronic translation devices and services in use by NOPD.

NOPD will track whether or not Vietnamese interpretation is available when needed through the ETD company, Voiance in the invoices. Voiance invoices will include all requests for Vietnamese translations not received. If no services were available, there will be a line item on the invoice indicting no services, at \$0 charge.

*Figure C: Usage of ELECTRONIC TRANSLATION DEVICE for 2013-2018 (Note NOPD discontinued use of the device listed in the below chart due to substandard performance. NOPD has since acquired an ETD for future use and translation.)*

<b>Year</b>	<b># of TOTAL ELSA Uses</b>	<b># of Spanish Uses</b>	<b># of Other Uses</b>
2013	65	60	5
2014	69	65	4
2015	73	71	2
2016	183	146	37
2017	154	132	22
2018	214	199	15
<b>Total</b>	<b>973</b>	<b>873</b>	<b>100</b>

### **NOPDAI Translation and Interpretation**

With the certification of the first class of NOPDAIs, the Department introduced a mechanism to allow for tracking of translation and interpretation services provided by NOPDAIs. Upon completing an interpretation or translation assignment, NOPDAIs are expected to complete a secure online form logging the activity they have performed. Any NOPD or OPCD employees requesting interpretation or translation services who receive a negative response or no response from an NOPDAI are asked to inform the Language Access Coordinator (LAC). The LAC will be expected to regularly review these forms and to compile information regarding any instances where NOPDAIs were non-responsive or failed to complete a requested assignment. NOPDAIs who do not regularly provide interpretation or translation services will be at risk of losing their pay differential, subject to final review by the superintendent's office.

Information about the frequency and type of interpretation and translation services performed by NODPAIs will be made available in future updates to the Language Assistance Plan.

### **Spanish-speaking and Vietnamese-speaking Community Feedback**

In order to open a dialogue with the Spanish-speaking and Vietnamese-speaking communities, and to solicit feedback regarding policing services, NOPD will host Vietnamese-language community meetings and Spanish-language community meetings on an annual basis. Both meetings will be conducted by an NOPD officer who speaks the appropriate language and active in the community. The Department will present information regarding available language access services, and ask the community to provide feedback. Follow-up surveys will be circulated to collect anonymous responses in individuals' chosen language (Spanish or Vietnamese).

Any feedback, comments and or issues noted by these communities will be key in shaping the scope of the work done by the Language Access Coordinator and the Community

Liaisons to address concerns. They will work hand-in-hand with community members and with Department leadership to ensure all LEP individuals feel their voices are heard and their needs are met. NOPD will continue to seek regular feedback from the community during biannual community meetings, annual surveys, and regular contact between the LAC and community organizations to monitor progress and to adjust course as necessary.

The language access coordinator shall assess the effectiveness and efficiency of the language access plan on an ongoing basis and shall report to the Superintendent or their designee regarding needed improvements and any accountability concerns. The Superintendent or their designee shall consider the information provided by the coordinator and respond as necessary to ensure that NOPD's language assistance plan is effective. The LAC will also provide feedback to Policy Standards for annual policy review of the Chapter 55.4, Limited English Proficiency. The LAC will consult with representatives of the LEP community to review, at least annually: implementation of the language assistance plan, including areas of possible collaboration to ensure its effectiveness; identification of additional languages that would be appropriate for translation of materials; accuracy and quality of NOPD language assistance services; and concerns, ideas, and strategies for ensuring language access.

#### **IV. Conclusion**

The New Orleans Police Department's mission is to provide professional police services to all members of the community, regardless of their ability to speak, read, write, or understand English. This plan will serve as the blueprint for NOPD's ongoing work to build community engagement, to bolster public confidence in the Department, and to make all police services accessible to individuals with Limited English Proficiency. The plan will be updated annually based on feedback from the community as well as analysis of trends regarding population data and language access needs. For additional information, please reach out to the NOPD's Professional Standards & Accountability Bureau at [PSAB@nola.gov](mailto:PSAB@nola.gov).

## Appendix B

### Language Access Coordinator Roles and Responsibilities

The Language Access Coordinator (LAC) “shall be responsible for coordinating, implementing, and monitoring compliance with all aspects of the NOPD’s services to LEP (Limited English Proficiency) individuals with the assistance of the Policy Standards Section. This includes ensuring free language access services to all LEP individuals encountered by members of the Department, consistent with Policy **Chapter 55.4: LIMITED ENGLISH PROFICIENCY SERVICES** and the Department’s **Language Access Plan**. The Language Access Coordinator shall be responsible for having documents and communications translated and distributed to LEP communities. The Policy Standards Section (PSS) will serve as the central repository of all translated documents (other than investigative case file related translations) and make them available to NOPD personnel and members of the public via NOPD’s intranet website, [www.nopd.org](http://www.nopd.org).

Responsibilities Shall Include but Not Limited to:

1. The Language Access Coordinator will be responsible for annually reviewing all new documents, forms, or communications made available to the public by the NOPD to assess whether they should be considered vital materials requiring translation.
2. In cooperation with the Performance Standards Section, the LAC shall annually assess demographic data, review language access services utilization data, and consult with representatives of the LEP community and District commanders to ensure that the Department is providing the services and benefits the department provides in all NOPD-conducted programs or activities to LEP persons. The Language Access Coordinator shall use this review to determine whether vital documents or communications should be translated into additional languages and whether other related changes to the Department’s LEP program are necessary.
3. The LAC shall prepare an annual report to the Superintendent of Police assessing the language assistance services they provide to LEP individuals, the effectiveness of those services, language assistance service complaints that have been received and the complaints’ resolution, and any recommendations to improve language access policies and procedures.
4. The LAC shall be responsible for creating and maintaining the NOPDAI list that will include each interpreter’s language(s) of proficiency, when language skills were assessed for each language, and if any complaints have been filed against them regarding their language skills.
5. The LAC shall provide the NOPDAI list to the executive director of the Orleans Parish Communications District (OPCD) for the use of dispatchers. This list will also be available

- on the NOPD's intranet web applications under "Resources", and it shall be reviewed for accuracy, at a minimum, every six (6) months with updates provided as appropriate.
6. The LAC shall assess the effectiveness and efficiency of the Department's Language Access Plan on an ongoing basis and shall report to the Superintendent or his/her designee regarding needed improvements and any accountability concerns.
  7. The LAC shall be responsible for collecting and tracking calls for service data about LEP contacts with NOPD.
  8. The LAC shall monitor and collect data from internal systems to track interpretation services rendered by the use of Authorized Interpreters and/or Electronic Interpretation Devices.
  9. The LAC shall monitor and collect data from internal systems and CAD for those incidents where a request for interpretation services were requested / needed and not provided. The focus shall be on "why" the interpretation service was not available and recommendations as to corrective actions that can be taken to prevent the failure to provide services in the future.
  10. The LAC shall prepare monthly reports to his/her respective Deputy Superintendent outlining LEP services. The Language Access Coordinator shall incorporate this information into the annual report to the Superintendent of Police.
  11. At each NOPD building entry point or lobby open to public access, the LAC shall ensure signage in the most commonly spoken languages stating that interpreters are available free of charge to LEP individuals.
  12. The LAC shall ensure a notification listing the available translated forms and documents is posted in the lobby of NOPD Police Headquarters, the Public Integrity Bureau, and each District station.
  13. The LAC shall ensure that the available translated forms and documents, along with the available languages, are posted on the [www.NOPD.org](http://www.NOPD.org) website and available to all personnel under the "Resources" tab of the NOPD web applications in either the Spanish or Vietnamese forms folder. In the case of illiteracy or languages into which written materials have not been translated, such forms and documents will be read to LEP individuals in their primary languages using interpreter assistance procedures previously described in this policy.
  14. The LAC shall coordinate with the Deputy Superintendent of the Management Services Bureau for reproduction of LEP signage developed through the Policy Standards Section for display at NOPD Police Headquarters, the Public Integrity Bureau, and each District station.
  15. The LAC shall ensure that, at a minimum, the placard and following vital documents are readily available at NOPD Headquarters (lobby); all Police District Stations (front desk); City Hall (front desk), Municipal/Traffic, Criminal and Civil District Courts (location at direction of Clerk of Courts); and all city libraries (checkout desk bulletin boards):
    - How to file a complaint brochure (in English, Spanish, and Vietnamese).
    - The PIB Complaint Form.
    - The Language Assistance Plan and policy; and
    - The LEP Policy.
  16. The Language Access Coordinator shall develop a monthly schedule of inspections of all non-NOPD locations listed herein to ensure the placards, signage and materials listed in this

Chapter are posted and available. Any depleted stocks of forms and signage shall be replaced. The schedule, facility location, inspection and noted deficiencies shall be kept in a log. Each logbook entry shall be maintained for three years after it is filed.

17. The LAC will be responsible for implementing the **Language Access Plan**. To ensure that the Community Engagement Section considers the LEP community within its activities.
18. The LAC, or his/her designee, shall attend and represent the New Orleans Police Department at LEP social and community advocacy functions in a professional and courteous manner.
19. The LAC will provide the Community Engagement Section Manager, or designee, the information for LEP related events. LAC or a designee shall make arrangements to attend these functions.
20. The LAC, or designee, shall conduct crime prevention and business safety presentations on behalf of the City of New Orleans, particularly in neighborhoods where LEP businesses and residents are concentrated.
21. The LAC, or a designee, shall provide bilingual crime-prevention information and programs to the LGBTQ+ community, District NONPACC meetings, PSAB Meetings, Neighborhood Watch, Community Outreach, and Social Services [office, admins, meetings? Social services is not defined.]
22. The LAC shall be responsible for creating and maintaining the NOPDAI list on the NOPD's intranet web applications under "Resources", which will include each interpreter's language(s) of proficiency, when language skills were assessed for each language, and if any complaints have been filed against them regarding their language translation skills, creating an active spreadsheet of all certified AIs, tracking yearly certifications and renewals, and communicating with district supervisors.
23. The LAC will monitor availability and quality of services provided to populations with Limited English Proficiency.
24. The LAC will provide oversight and support to Spanish-Speaking and Vietnamese-Speaking Community Liaisons and ensure their time is spent appropriately on building relationships of trust with the community and addressing areas of concern.
25. The LAC will, at least monthly, review body-worn camera footage of officers interacting with LEP individuals. Complete audit reports detailing need for, and delivery of, services.
26. The LAC will work with Community Liaisons to review all body-worn camera footage of NOPDAIs delivering interpretation services to monitor quality and accuracy of services. Report any issues to the Professional Standards & Accountability Bureau for corrective action and/or training updates.
27. The LAC will collaborate with Community Liaisons Officers (CLOs) to develop and implement a comprehensive community outreach plan, including the following actions:
  - Identify and contact all major organizations serving the LEP community;
  - Collaborate with organizations and individuals to identify areas for potential growth and additional training for all officers;
  - Coordinate regular (at least quarterly) public meetings, hosted by Community Liaisons, to solicit feedback from community members;
  - Solicit ongoing recommendations for improved LEP services from the Community Liaisons.

28. The LAC will review all LEP related community recommendations and implement as appropriate, working with the Education & Training Division and with the Professional Standards & Accountability Bureau as appropriate.
29. The LAC will regularly attend community events as a representative of the NOPD.
30. The LAC will coordinate and ensure training is delivered to NOPDAIs, other officers, and recruits as needed. This includes the 8-hour Interpreter Skills recertification training required, in addition to Civil Service bilingual certification, to become an NOPDAI.
31. The LAC, or his or her designee, shall represent the New Orleans Police Department at LEP social and community advocacy functions in a professional and courteous manner.
32. The LAC shall identify, through crime data and patrol efforts, areas where bias and hate crimes against the LEP community have occurred and inform the LEP community through awareness seminars.
33. The LAC shall monitor statistical and reporting data regarding bias and hate crimes against the LEP community and relay significant changes to the District Captains and the LEP community.
34. The LAC, or his or her designee, shall conduct crime prevention and business safety seminars within the City of New Orleans, particularly in neighborhoods where LEP businesses and residents are concentrated.
35. The LAC, or his or her designee, shall provide bilingual crime-prevention information and programs to the LGBTQ community.
36. The LAC, or his or her designee, shall host meetings to allow business owners, residents, and community activists to meet with officials from their neighborhood precincts.

## Appendix C

### New Orleans Police Department Authorized Interpreter Roles and Responsibilities

A NOPD authorized interpreter (NOPDAI) is a bilingual NOPD employee who has been assessed, tested, and demonstrated their competency in English and a second language using the terminology, phrases, vocabulary, and phrases needed. Once an interpreter establishes competence and receives training on ethical and professional conduct as an interpreter, the officer will be certified and NOPD may authorize him or her to interpret for others in certain situations, such as interviews, interrogations, or talking and responding to citizen complaints. NOPD Authorized Interpreters (NOPDAIs) are available to provide written translation and oral interpretation services in Spanish and Vietnamese. A list of NOPDAIs can be found in the Resources folder on NOPD.org. Members requiring a translation or interpretation should contact an NOPDAI and should include the NOPDAIs supervisor in all communication. NOPDAIs are expected to perform requested duties during his/her regular working hours.

Responsibilities Shall Include but Not Limited to:

1. NOPDAIs shall complete the NOPDAI Form upon performing any translation or interpretation duties. Department members may access the NOPDAI Form in the Online Forms folder on NOPD.org. Use of this form will enable the Department to document the need for, and use of, services for populations with Limited English Proficiency.
2. NOPDAIs shall be available to provide written translation and oral interpretation services in their specified language during his or her regular working hours.
3. NOPDAIs shall inform their direct supervisor when an incident requires their translation or interpretation services.
4. NOPDAIs shall represent the New Orleans Police Department at Limited English Proficiency (LEP) social and community advocacy functions in a professional and courteous manner.
5. NOPDAIs shall attend meetings coordinated by the Community Engagement Section Manager, or his/her designee, for the purposes of training, updates, and trends on LEP issues.
6. NOPDAIs shall assist in providing bilingual crime prevention information and programs to the LGBTQ community.
7. NOPDAIs shall attend the required annual recertification training of skills and abilities to interpret and translate.
8. NOPDAIs shall work with other members of the Community Engagement team to identify community issues, develop strategies, and implement innovative policing solutions within the numerous neighborhoods throughout the community.

## Appendix D

### Community Liaison Officer Roles and Responsibilities

Each district will have a Community Liaison Officer (CLO). One of the main roles of the CLO is to interact and collaborate with the community. This position shall be occupied by a non-probationary patrol officer in the district who shall act as the designated community-oriented liaison for the district. The CLO engages in problem identification and problem-solving activities with community members according to the community's priorities; works proactively with other City departments to address quality of life issues; and will work with platoon officers in problem identification and problem-solving. CLOs will not be assigned to answer calls for service absent exigent circumstances.

Responsibilities Shall Include but Not Limited to:

1. CLOs report to and are supervised by their designated supervisor. CLOs will maintain communication with the Professional Standards and Accountability Bureau's Community Engagement Section and keep them apprised of information regarding community coordinated events and community concerns in their respective districts.
2. CLOs meet with the Community Engagement Section Manager to inform the Department of any technological issues they may face with the reporting database and instructions on how to maintain a reporting structure.
3. CLOs will maintain contact with the various community groups/neighborhood associations of the geographic area served.
4. CLOs will provide businesses with information on crime prevention and conduct follow-up visits with victims of business and residential burglaries to help them strategically identify ways to secure their establishments.
5. CLOs will share crime prevention information in various ways in various settings, including in presentations with residents, neighborhood watch groups, business owners, homeowner's associations, and other public gatherings. CLOs will deliver crime prevention literature at festivals and fairs.
6. CLOs will coordinate events with community groups in their respective district and maintain an active dialogue with the community groups and neighborhood associations in their district.
7. CLOs will maintain communication with the Neighborhood Engagement Office and other City agencies to foster a unified response to issues adversely affecting quality of life.
8. CLOs will partner with City agencies to address nuisance and quality of life issues such as neighborhood blighted property, trash removal, illegal dumping, etc. Calls of that nature will also be entered into the City's 311 system, for proper follow-up by the responsible agencies.
9. CLOs will work with the community to identify and solve problems that contribute to crime and disorder, as well as those issues that adversely affect quality of life.
10. CLOs will work with their respective district's personnel to identify and solve problems that contribute to crime and disorder, as well as those issues that adversely affect quality of life.

11. CLOs will establish and foster partnerships within the community.
12. CLOs will develop and implement proactive and preventative law enforcement strategies.
13. CLOs will increase the public's knowledge and understanding of community policing through educational and training initiatives regarding community-oriented policing strategies.
14. CLOs will build collaborative partnerships between the Police Department and the citizens within the community.
15. CLOs will encourage citizen participation in crime prevention programs including Neighborhood Watch Groups and Meetings.
16. CLOs will attend community "Neighborhood Watch" meetings to address community safety issues.
17. CLOs will collaborate with other government agencies, departmental units, community organizations, the faith-based community, and other appropriate groups to address community concerns.
18. CLOs will interact with other Community Liaison Officers, beat officers, crime analysts and serve as liaisons between the department and the community to prevent crime.
19. CLOs will contact victims of property crimes to offer assistance with security surveys and other programs.
20. CLOs will review and track problem-solving strategies from Neighborhood Watch and Business Watch programs.
21. CLOs will complete other functions as directed by his or her immediate supervisor when not engaged in their primary CLO responsibilities.
22. All mandated Community Policing Forms and/or other documents initiated by CLOs will be submitted to their immediate supervisors in their primary districts of assignment for review and approval. These forms will then be forwarded to the Community Engagement Section Sergeant for review, tracking and monitoring.
23. CLOs will attend all meetings coordinated by the Community Engagement Section Manager for the purposes of training and updates on Community Engagement issues, trend, etc.
24. CLOs will coordinate with the Neighborhood Engagement Office to facilitate district PCAB Meetings.
25. CLOs will consider and incorporate community/citizen interests and concerns in the compilation of the District Community Policing Plans.
26. CLOs will maintain the District Community Policing Plans and recommend initiatives to ensure officers are taking action to work towards district goals and tasks.

## Appendix E

### Limited English Proficiency 2020 DATA

Consent Decree Paragraph 194. Within 270 days of the Effective Date, NOPD agrees to develop a process for determining, on an ongoing basis, whether new documents, programs, services, and activities need to be made accessible for LEP individuals. As part of this process NOPD shall: a) document the number of LEP persons requiring NOPD services and their primary language; b) collect data regarding the number of times an interpreter has been used, listed by language and type of interpreter (telephonic or in-person); c) document the number of bilingual staff who have been evaluated for language proficiency, by language, job title, and level of proficiency; and d) document use of translators, vital documents translated, and languages into which vital documents are translated.

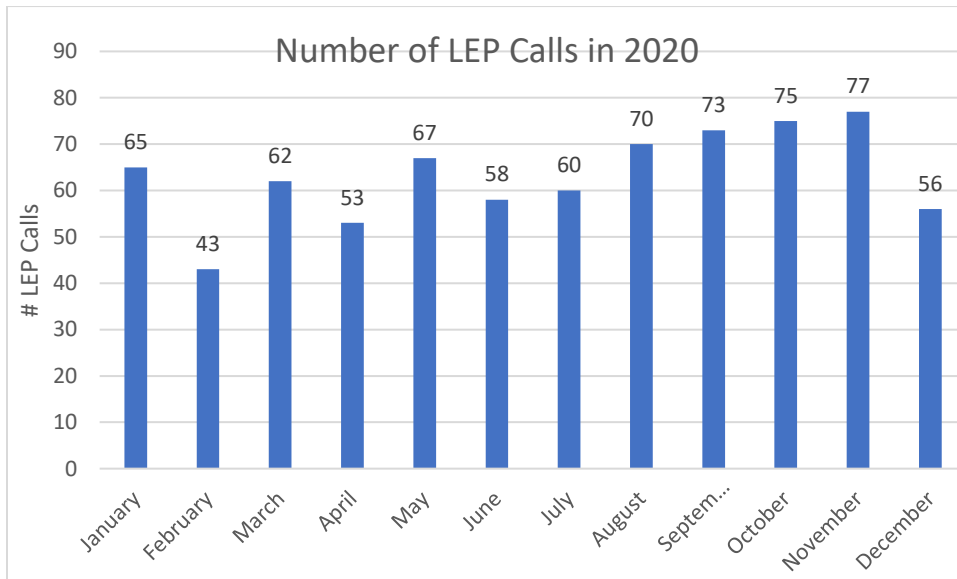

On Friday December 13, 2019, the City of New Orleans experienced a Cyber Attack which compromised integral components of its online systems. The New Orleans Police Department (NOPD) was gravely affected by the loss of use of these systems and was forced to reconstruct the database which collected most of its data. In March of 2020, a Global Pandemic engulfed the World and effected how NOPD was able to service the community. According to CAD data, the NOPD answered 759 Limited English Proficiency (LEP) calls and recorded 282 incidents via the NOPDAI Activity Form. The NOPDAI Activity Forms were not available for use until March 26, 2020. The NOPDAI Activity Form is used to as a centralized location to document the incidents and encounters with LEP individuals who required or requested translation or interpretation services. All police encounters do not always require an Electronic Police Report or Field Interview Card. By using the NOPDAI Activity Forms, NOPD is able to account for all interactions with LEP individuals.

The NOPD has translated the following documents in Spanish and Vietnamese:

- Form 045- Official Notice to Adult Victims of Family Violence Form
- Form 116- Victim/Witness Statement Form
- Form 146- Consent to Search Form
- Form 197- PIB Intro Ltr to Complaint Form
- Form 198- PIB Status Update Ltr to Complaint Form
- Form 199- PIB Ltr to Complaint for Contact Revision
- Form 230- PIB Initial Intake Form/ Commendation Complaint or Documentation of Minor Violation Cantrell
- Form 007- Missing Person Affidavit
- Form 026- Item Number Form

- Form 046- Domestic Violence Patrol Report Checklist
- Form 153- Miranda Rights Form
- Form 208- Auto Theft Affidavit
- Form 212- Missing Person Entry Form
- Form 222- Theft -Burglary Affidavit
- Form 260- Driver Information Exchange Form
- Form 277- Eyewitness Identification Form
- NOPD C.I.T. Resource Sheet
- N.C.I.C. Information Bulletin on Amber Alert Form
- DWI Arrestee’s Rights Form
- Standardized Field Sobriety Test (SFST) Form

On a yearly basis, the LAC will review and assess documents and forms used by NOPD and determine if any additional forms and documents need to be translated to service the LEP community.

Of the 282 documented incidents using the NOPDAI Activity Forms, Authorized Interpreters captured the following data:

11 Vietnamese – 1 document translation, 1 public service announcement, 3 telephone interpretation, and 6 in-person interpretation.

271 Spanish – 1 document translation, 1 self-initiated community engagement speaking with children, 2 TV/News Reports, 3 facetime/video interpretation, 66 telephone interpretation, and 197 in-person interpretations.

# New Orleans Police Department

## Policy Manual

### **Rule 1: Operation Manuals**

#### **1. RULES OF PROCEDURES**

Employees shall not commit any act or omit any act which constitutes a violation of any of the rules, policies, procedures, or orders of the Department, whether stated in this manual or elsewhere.

#### **2. EFFECTIVE**

An employee is deemed to have knowledge of these rules, policies and procedures from their effective date. Rules, policies and procedures shall not pertain to a situation or act which existed or occurred before the effective date of these rules, policies and procedures, but such a case shall be governed by the applicable instructions prevailing at the time.

#### **3. VIOLATIONS**

The rules, policies and procedures shall be known as Rules, Policies and Procedures of the New Orleans Police Department. Employees who violate these rules, policies and procedures shall be cited by the appropriate Rule , Policy , Procedure , etc. followed by the rule, policy or procedure number and paragraph. Example: Violation of this paragraph would be cited as Rule 1, para. 3.

# New Orleans Police Department

## Policy Manual

### **Rule 2: Moral Conduct**

#### **1. ADHERENCE TO LAW**

Employees shall act in accordance with the constitutions, statutes, ordinances, administrative regulations, and the official interpretations thereof, of the United States, the State of Louisiana, and the City of New Orleans, but when in another jurisdiction shall obey the applicable laws. Neither ignorance of the law, its interpretations, nor failure to be physically arrested and charged, shall be regarded as a valid defense against the requirements to this rule.

#### **2. COURTESY**

Employees shall be courteous, civil and respectful in their conduct toward all persons. The use of profane, vulgar or discourteous gestures or language to or in the presence of any citizen is prohibited. The use of profane, vulgar or discourteous gestures or language either verbal or written by one employee to another employee is prohibited.

#### **3. HONESTY AND TRUTHFULNESS**

Employees are required to be honest and truthful at all times, in their spoken, written, or electronic communications. Truthfulness shall apply when an employee makes a materially false statement with the intent to deceive. A statement is material when, irrespective of its admissibility under the rules of evidence, it could have affected the course or outcome of an investigation or an official proceeding, whether under oath or not, in all matters and official investigations relating to the scope of their employment and operations of the Department, as follows:

- (a) employees shall truthfully state the facts in any oral, written, or electronic communication;
- (b) employees shall not willfully or negligently make any false, misleading, or incorrect oral, written, or electronic communication;
- (c) employees shall not willfully or negligently withhold relevant information of which they have knowledge, from any oral, written, or electronic communication;
- (d) employees shall truthfully answer all questions directed to them on the order of the Superintendent of Police, the Superintendent's designee, a superior officer, or any judicial, departmental, or other official investigative body.

This regulation does not prohibit using accepted practices in interrogation techniques governed by Federal and/or State Court rulings.

#### **4. DISCRIMINATION**

# New Orleans Police Department

## Policy Manual

Employees shall not discriminate against or show partiality to any person because of racial, ethnic, religious, political, sexual, or personal prejudice.

### **5. VERBAL INTIMIDATION**

An employee shall not use or direct unjustifiable verbal abuse, threats or intimidation against any person.

### **6. UNAUTHORIZED FORCE**

Employees shall not use or direct unjustifiable physical abuse, violence, force or intimidation against any person.

### **7. COURAGE**

An employee shall act with courage and confidence and shall not fail to perform any duty because of the danger involved, but shall, however, exercise due care for the safety of his person and that of others, and the security of property commensurate with the circumstances.

### **8. FAILURE TO REPORT MISCONDUCT**

Any department employee who observes or becomes aware of any act of misconduct by another employee of the government shall immediately report the incident to their immediate supervisor or the most appropriate New Orleans Police Department (NOPD) supervisor (Violation of this provision may be charged up to and including the category of the underlying offense not reported).

### **9. FAILURE TO COOPERATE/WITHHOLDING INFORMATION**

In accordance with established rights under law, employees shall not withhold any information, acts, or omissions known to the employee that purposefully interfere or disrupt an authorized investigation, whether internally or externally, investigated by any official entity. Additionally, any employee who withholds information or fails to cooperate with any internal investigation may be disciplined in addition to any other disciplinary action based upon conduct disclosed by the primary investigation.

New Orleans Police Department  
Policy Manual

## **RULE 3: PROFESSIONAL CONDUCT**

### **DEFINITION OF PROFESSIONALISM:**

*Professionalism is both an individual characteristic and an ideological position. The primary definition is that of individual professionalism: the idea that membership of a profession carries with it a set of internalized values that will be reflected in the way in which work is carried out and the ethical standards that are adhered to.*

*John Quiggin: Commentary on Australian & world events from a social-democratic perspective*

### **PROFESSIONALISM**

1. Employees shall conduct themselves in a professional manner with the utmost concern for the dignity of the individual with whom they are interacting. Employees shall not unnecessarily inconvenience or demean any individual or otherwise act in a manner which brings discredit to the employee or the New Orleans Police Department.

### **ABUSE OF POSITION**

2. Employees shall not use their position, official identification cards or badges for personal or financial gain, obtaining privileges, or for avoiding consequences of illegal acts. Employees shall not lend to another person their identification cards, badges, or uniform parts identifying the wearer as a police officer, or permit them to be photographed or reproduced without the approval of the Superintendent of Police.

### **NEATNESS AND ATTIRE**

3. Employees shall, except under circumstances which are duty related, be neat and clean in person and dress, and shall be attired and equipped in accordance with the Department's Operation Manuals, General Orders, Special Orders, and/or from a supervisor. Hair and moustaches shall be trimmed according to the Department's Operations Manuals.

### **ACCEPTING, GIVING ANYTHING OF VALUE**

4. Members, in their official capacity as employee(s) of the City of New Orleans, shall not solicit or accept from any person(s), business(es), organization(s), or court(s) any gift, donation, good, money, property (tangible, intangible, real

# New Orleans Police Department

## Policy Manual

or personal), loan, promise, service, or entertainment for the benefit of the employee(s) or the Department without the expressed written approval of the Superintendent of Police. Requests for such approval shall be forwarded to the Superintendent of Police through the employee's chain of command using a NEW ORLEANS POLICE DEPARTMENT form 105 (Interoffice Correspondence).

Under no circumstances shall a gift, donation, good, money, property (tangible, intangible, immovable or movable), loan, promise, service, or entertainment be solicited or accepted by any members of the Department if it is reasonable to infer the person, business, or organization:

- seeks to influence action of an official nature or seeks to affect the performance or non-performance of an official duty, or
- has an interest which may be substantially affected directly or indirectly by the performance or non-performance of an official duty.

### **REFERRALS**

5. Members shall not recommend or suggest in any manner, except in the transaction of personal business, the employment or procurement of a particular product, professional service, or commercial service (such as an attorney, doctor, ambulance service, towing service, bondsman, mortician, etc.). In the case of an ambulance or towing service, when such service is necessary and the person needing the service is unable or unwilling to procure it or requests assistance, employees shall proceed in accordance with established department policies and procedures contained in the Operation Manuals, General Orders and Special Orders.

### **COMMERCIAL ENDORSEMENT**

6. Employees shall not permit or authorize the use of their names, photographs, or official titles identifying them as employees, in connection with a testimonial or advertisement of any commodity or commercial enterprise, without the written approval of the Superintendent of Police.

### **USE OF DRUGS/SUBSTANCE ABUSE TESTING**

7. Employees shall be guided by the City's substance abuse policy as defined under Rule V, Section 9 of Civil Service Rules and C.A.O. Policy Memorandum # 89 (Revised) dated 9/99. An employee shall not report to duty under the influence of any drug, medication or other substance impairing his/her normal sensory and/or motor body functions.

### **USE OF ALCOHOL/DRUGS ON DUTY**

# New Orleans Police Department

## Policy Manual

8. Members shall not drink intoxicating beverages or consume Schedule I, II, III, IV or V, legal or illegal drugs, while on duty, except in the performance of duty and while acting under proper and specific orders from a superior officer. Members shall not appear for duty, or be on duty, while under the influence of intoxicants or drugs to any degree whatsoever, or with an odor of alcoholic beverage on their breath.

### **USE OF ALCOHOL/DRUGS OFF-DUTY**

9. An employee while off duty, shall refrain from consuming intoxicating beverages and Schedule I, II, III, IV, or V drugs to the extent it results in impairment, intoxication, obnoxious or offensive behavior that discredits him/her, the Department, or render the employee(s) unfit to report for his/her next regular tour of duty. Commissioned employees of the Police Department shall refrain from carrying a firearm while in an alcoholic beverage outlet (R.S. 14:95.5 Possession of firearm on premises of alcoholic beverage outlet), consuming alcohol, or while under its influence.

### **ALCOHOL/DRUG INFLUENCE TEST**

10. Any employee in violation of the rules pertaining to the use of alcohol and/or prohibited drugs on-duty and off-duty, shall submit to a test, as ordered by a supervisor. Under orders from the Superintendent of Police, or the Superintendent's designee, an employee shall submit to other additional tests such as saliva, urine, hair, and/or blood test.

### **USE OF TOBACCO**

11. Members, while in uniform, may use tobacco as long as they are not in formation for inspection; leave their assignment or post for the sole purpose of smoking, and/or are not engaged in traffic control. When an employee is in direct contact with the public, he/she shall first obtain permission to use tobacco from the citizen with whom he/she is in direct contact with.

All employees of the New Orleans Police Department are prohibited from smoking any type of hand rolled cigarette/cigar or machine rolled cigarette/cigar, which appears to be hand rolled while:

- on duty;
- off duty in uniform, including paid details;
- in a city owned/leased vehicle, marked or unmarked;
- appearing as a representative of the New Orleans Police Department including but not limited to, meetings, court appearances.

### **RETALIATION**

# New Orleans Police Department

## Policy Manual

12. Retaliation for reporting misconduct or for cooperating with an investigation of misconduct is an egregious offense and shall be grounds for discipline, up to and including termination of employment.

### **SOCIAL NETWORKING WEBSITES, FACEBOOK, MYSPACE, PRINT OR TRANSMITTED MEDIA, ETC.**

13. Employees shall not post any material on the internet including but not limited to photos, videos, word documents, etc. that violates any local, state or federal law, and/or embarrasses, humiliates, discredits or harms the operations and reputation of the Police Department or any of its members.

# New Orleans Police Department

## Policy Manual

### **RULE 4: PERFORMANCE OF DUTY**

#### **1. REPORTING FOR DUTY**

A member shall promptly report for duty at the time and place required by assignment or orders. In the event of inability to perform or to begin punctually, he/she shall notify his/her commanding officer or a member of his/her unit authorized to receive such information before the designated time for commencement.

#### **2. INSTRUCTIONS FROM AN AUTHORITATIVE SOURCE**

An employee shall professionally, promptly, and fully abide by or execute instructions issued from any authoritative source, including any order relayed from a superior by an employee of the same or lesser rank. If the instructions are reasonably believed to be in conflict with the Rules, Policies and Procedures of the Department or other issued instructions, this fact shall respectfully be made known to the issuing authority. If the issuing authority elects to insist upon execution of the instructions which are reasonably believed to be in conflict with Department Rules, Policies and Procedures, the employee receiving the instructions shall have the right to request and is entitled to receive, IMMEDIATELY, said instructions in writing, except in cases of emergency as determined by the supervisor. The issuing authority shall be held responsible should any conflict materialize; however, no instructions shall be issued or executed which are in violation of law.

#### **3. DEVOTING ENTIRE TIME TO DUTY**

Employees shall not read, play games, watch television/movies, or otherwise engage in entertainment while on duty, except as may be required in the performance of duty, or by authority of their respective Bureau Chief. They shall not engage in activities or personal business which would cause them to neglect or be inattentive to duty.

#### **4. NEGLIGENCE OF DUTY**

- (a) Each employee, because of his grade and assignment, is required to perform certain duties and assume certain responsibilities. An employee's failure to properly function in either or both of those areas constitutes a neglect of duty.
- (b) An employee with supervisory responsibility shall be in neglect of duty whenever he fails to properly supervise subordinates, or when his actions in matters relating to discipline fail to conform with the dictates of Departmental Rules, Policies and Procedures.
- (c) The following acts or omissions to act, although not exhaustive, are considered neglect of duty:

# New Orleans Police Department

## Policy Manual

1. Failing to take appropriate and necessary police action;
2. Failing to respond to all assignments promptly and failing to report dispositions of assignments to the dispatcher immediately upon completion;
3. Failing to advise the dispatcher on each occasion of his absence from the patrol vehicle (except for signal 10-42 and the reason therefore; and failing to report his/her return to his vehicles;
4. Failing to make a written report when such is indicated;
5. Unauthorized sleeping on duty;
6. Failing to comply with instructions, oral or written, from any authoritative source;
7. Failing to take necessary actions so as to ensure that a prisoner shall not escape as a result of carelessness or neglect;
8. Failing to thoroughly search for, collect, preserve, and identify evidence in an arrest or investigative situation;
9. Failing to ensure that the health, welfare, and property of a prisoner is properly maintained while in individual custody;
10. Failing to properly care for vehicles and other equipment used wherein damage results from carelessness or neglect;
11. Failing to take appropriate action as to illegal activity, including vice and gambling violations, and/or to make a written report of the same to his/her commanding officer.

### **5. CEASING TO PERFORM BEFORE END OF PERIOD OF DUTY**

An employee shall be allowed to end his/her period of duty only with prior approval of his/her Supervisor.

### **6. LEAVING ASSIGNED AREA**

Employees shall remain within the boundaries of their assignment except when specifically authorized by their supervisor, radio dispatcher, or in hot pursuit.

### **7. LEAVING CITY ON DUTY**

Employees shall not go beyond the city limits while on duty unless directed by their Supervisor, radio dispatcher, or in hot pursuit.

### **8. HOURS OF DUTY**

Employees of the Department shall have, as scheduled, regular hours assigned to them for active duty each day, and when not on active duty, shall be considered OFF-DUTY. The fact that commissioned members may be technically OFF-DUTY shall not relieve them from the responsibility of taking the appropriate police action on any serious police matter coming to their attention at any time, providing for the circumstances and the reasonable safety of the off-duty employee and the public.

# New Orleans Police Department

## Policy Manual

### **9. SAFEKEEPING OF VALUABLES BY POLICE DEPARTMENT**

Employees of the Department shall not accept valuables for safekeeping from individuals who merely desire to check them in for that purpose. This does not apply to valuables that have been received as evidence or property in connection with an investigation, or property which is found and relinquished to police.

### **10. ESCORT FOR VALUABLES OR MONEY**

Employees of the Department on duty shall not furnish escort services for transporting of money or valuables unless authorized by a Supervisor.

# New Orleans Police Department

## Policy Manual

### **Rule 5: Restricted Activities**

#### **1. FICTITIOUS ILLNESS OR INJURY**

Members shall not feign illness or injury; falsely report themselves ill or injured, or otherwise deceive or attempt to deceive any official of the Department as to the condition of their health.

#### **2. ASSOCIATIONS**

Members shall avoid regular or continuous associations or dealings with persons whom they know, or should know, are racketeers, sexual offenders, suspected felons, persons under criminal investigation or indictment, or who have a reputation in the community for present involvement in felonious or criminal behavior, except as necessary in the performance of official duties, or where unavoidable because of family relationships.

#### **3. VISITING PROHIBITED ESTABLISHMENTS**

Members shall not knowingly visit, enter, or frequent a house of prostitution, or establishment wherein the laws of the United States, the state, or the local jurisdiction are regularly violated except in the performance of duty, or while acting under proper specific orders from a supervisor.

#### **4. SUBVERSIVE ACTIVITIES**

Members shall not commit, attempt to commit, aid in the commission of, or advocate, abet, advise, or teach by any means any person to commit, attempt to commit, or aid in the commission of any act intended to overthrow, destroy, or assist in the overthrow or destruction of the constitutional form of government in the United States, any State, or any political subdivision thereof, by revolution, force, violence, or other unlawful means. Members shall not be allied with any group of persons whose individual or collective actions or purpose of action is prohibited by this rule, except in the performance of duty as directed by the Superintendent of Police.

#### **5. LABOR ACTIVITY**

Members shall have the right to join labor organizations, but nothing shall compel the Department to recognize or to engage in collective bargaining with any such labor organizations, except as provided by law.

Members shall not engage in any strike or other concerted effort to adversely affect the Department productivity. Strike includes the concerted failure to report for duty, willful absence from one's position, unauthorized holidays, sickness unsubstantiated by a physician's statement, the stoppage of work, or the abstinence in whole or in part from the full, faithful and proper performance of the duties of employment for the purpose of inducing, influencing or coercing a change in conditions, compensation, rights, privileges or obligations of employment.

#### **6. ACTING IN CIVIL MATTERS**

Members shall not give legal advice or express a legal opinion in civil matters beyond that which is necessary to prevent a breach of the peace or violation of law, but shall instead suggest that inquirer seek such information from another source of the inquirer's choosing.

#### **7. ACTING IMPARTIALLY**

# New Orleans Police Department

## Policy Manual

Members shall take no action in a matter normally within the scope of their duties to which they are an interested or involved party, or make arrest in controversies arising between their relatives; nor make any arrest in their own quarrels, or between themselves and their relatives, friends and/or neighbors, except to prevent injury to another, or when a felony has been committed. Such circumstances shall be called to the attention of a Supervisor, who shall take the required action. Members may detain offender until intervention of proper authority.

### 8. CIVIL ACTIONS INVOLVING MEMBERS

Members involved in civil litigation or orders of protection as a plaintiff, defendant, petitioner, or respondent, or members involved in civil litigation as a plaintiff, defendant, or witness for actions arising out of the performance of their duty, or their role as a police officer, shall notify the Public Integrity Bureau via **Form 349**. The member shall deliver to PIB, by hand, all Petitions, Complaints, Citations, Summonses or Orders pertaining to the actions no later than the next working day after receipt. **Form 349**, and all required documents shall be routed to the Office of the Superintendent and the Office of the City Attorney by PIB.

When appearing as a plaintiff, defendant, or witness in any civil litigation, the member shall not be attired in his/her Departmental uniform, except when the employee is appearing as a representative of the New Orleans Police Department. (ADDITIONALLY: SEE C.A.O. POLICY MEMORANDUM 47 DATED SEPTEMBER 24, 1987 RE: INDEMNIFICATION FOR CITY OFFICERS AND EMPLOYEES.)

### 9. CRIMINAL PROCEEDING AGAINST MEMBER

A member shall immediately report to the Public Integrity Bureau via **Form 349**, information concerning any:

- Arrest or summons as a defendant in a criminal matter;
- Criminal Federal, State, Parish, Municipal or Traffic Court proceeding wherein a member is named a defendant;
- Grand jury proceeding in which the member will be or may be indicted;
- Target letter or any other action instituted against him/her in any criminal investigation.

**Form 349** shall contain the alleged offense, date, if the member was incarcerated, and the name of the agency conducting the investigation in the Gist section. The member shall deliver to PIB, by hand, all affidavits, summonses, indictments, bills of information, grand jury summonses or target letters pertaining to the proceeding no later than the next working day after receipt and prior to the date of the proceeding. Copies of the Form and all required documents shall be routed to the Office of the Superintendent and the Office of the City Attorney by PIB.

The member shall not be attired in his/her Department uniform when required to appear in any court action instituted against him/her in any criminal investigation.

### 10. TESTIFYING ON BEHALF OF DEFENDANT(S)

Members of the New Orleans Police Department, testifying on behalf of any individual or entity in criminal or civil proceedings, where the testimony is not arising out of the proper performance of their duties, shall not be attired in their NEW ORLEANS POLICE DEPARTMENT uniform, or any part thereof, unless authorized by the Superintendent of Police.

Civil proceedings are defined as, but not limited to, any hearing, meeting, or assembly of any governmental board or commission, civil court, revocation board, licensing authority, or any process thereof, where testimony is given and/or judgments or decisions rendered.

# New Orleans Police Department

## Policy Manual

A criminal proceeding is any phase of a court or court-related process involving the prosecution of a person charged or to be charged with a crime, and testimony is taken to determine the guilt or innocence of the person. For purposes of this Rule, criminal proceedings include, but are not limited to, federal, state, municipal court and traffic court proceedings and parole board hearings.

Testify on behalf of individuals in civil proceedings is defined as the giving of any oral or written statements, and depositions, in any civil proceeding where the individual giving the testimony seeks to influence the decision of the adjudicator in favor of the person he or she testifies for.

When testifying on behalf of any individual in civil proceedings, when such testimony is not arising out of the proper performance of duty, Department employees shall notify the Public Integrity Bureau, via **Form 349**, and deliver to PIB, by hand, a copy of the subpoena pertaining to the litigation no later than the next working day after receipt, if the City of New Orleans or any agency or department thereof, is a party to the proceedings. Notification shall take place no later than the next working day after receipt and prior to the date of the proceeding. The Form and all required documents shall be routed to the Office of the Superintendent and the Office of the City Attorney by PIB.

Testifying on behalf of individuals in criminal proceedings is defined as the giving of any oral or written statements in any criminal proceeding, where the individual has been subpoenaed by an individual other than the prosecutor.

Members testifying on behalf of a defendant in any criminal proceeding, regardless of the jurisdiction, shall notify the appropriate prosecutorial authority in the jurisdiction where the case is adjudicated, and the Public Integrity Bureau via **Form 349** and deliver to PIB, by hand, a copy of the subpoena pertaining to the proceeding no later than the next working day after receipt, and prior to the trial date. The Form and all required documents shall be routed to the Office of the Superintendent and the Office of the City Attorney by PIB.

Members testifying on behalf of defendants, other than the City of New Orleans, shall not be attired in their departmental uniform except when on duty and testifying in a matter before the Civil Service Commission.

### **11. TRACKING OF ACTIONS BY PIB**

The Public Integrity Bureau is responsible for entering and tracking all reported actions under this Rule into the INSIGHT System once notified by a member on **Form 349** and/or the receipt of documentation of actions covered by this Rule from any other source until the action(s) have reached a legal conclusion or disposition. This will be accomplished by use of written instructions to the involved member(s) to provide timely updates after initial notification.

### **12. DISPOSITION DOCUMENTATION**

In any civil or criminal proceeding covered under this Rule, in which a member is a named defendant or respondent, the member shall deliver to PIB, the final judgment(s) in the actions no later than the next working day following receipt. This includes, but is not limited to final judgments, orders of dismissal or judgments of conviction or acquittal. The final disposition (judgment, settlement, order of dismissal, conviction, acquittal, etc.) and documents shall be entered into the appropriate database from **Form 349** upon receipt by PIB.

### **13. INTERFERING WITH INVESTIGATIONS**

# New Orleans Police Department

## Policy Manual

Members shall not divulge official information to any other person or agency which he/she knows, or should know, would possibly impede, obstruct or otherwise compromise any criminal or administrative investigation being conducted by a member of this Department, by a member of any other local, State or Federal investigative organization, or law enforcement agency.

Such prohibited activity shall include, but not be limited to, the release, disclosure or communications by any means, of any information to any suspect in an investigation, or to any unauthorized person, which would tend to identify any officers acting in an undercover capacity, the identity of confidential sources, informers, or witnesses, and any investigative methods and techniques utilized in a particular investigation.

Such prohibited activity shall also include the release, disclosure or communication of descriptions of any vehicles or specialized equipment utilized in any investigation, suspects in or targets of any particular investigation, the existence of or description of any evidence or possible evidence, or any official data, computerized or conventional, either directly or indirectly related to or resulting from any criminal or administrative investigation.

It is understood that it will routinely be necessary to share such investigative information with members of other investigative or law enforcement agencies. Prior to the disclosure of such information or data to any person authorized by law and departmental policy to receive such data, the member shall obtain the express authorization of his/her commanding officer.

### **14. UNDERCOVER INVESTIGATIONS**

Members shall not, in the course of their official duties, engage in any undercover or covert activities without the prior written authorization of their respective Bureau Deputy Chief.

The prior written authorization of the Superintendent of Police shall be required in all undercover or covert activities in which a member is required or intends to engage in corrupt practices, including but not limited to, accepting bribes, the purchase of or possession of any controlled dangerous substance, or direct or indirect involvement in any criminal violence.

Physical surveillance of a suspect or target of any official investigation or activities of confidential informers shall not be considered undercover or covert activities for the purpose of this rule.

### **15. REWARDS**

Only upon written approval of the Superintendent of Police, shall an employee be allowed to accept any reward resulting from, or connected in any way with, his/her performance or responsibilities as a Police Officer. Request for such approval shall be forwarded to the Superintendent through the member's unit chain of command.

# New Orleans Police Department

## Policy Manual

### **Rule 6: Official Information**

#### **1. SECURITY OF RECORDS**

An employee shall not impart to any person or remove from any files the content of any record or report, except as provided by law.

#### **2. FALSE OR INACCURATE REPORTS**

An employee shall not knowingly make, or cause or allow to be made, a false or inaccurate oral or written record or report of an official nature, or intentionally withhold material matter from such report or statement.

#### **3. PUBLIC STATEMENTS AND APPEARANCES**

- (a) Employees shall not publicly criticize or ridicule the Department, its policies, procedures, orders or other members by speech, writing, or other expression, where such speech, writing, or other expression is defamatory, obscene, unlawful, undermines the effectiveness of the Department, interferes with the maintenance of discipline, or is made with reckless disregard for truth or falsity.
- (b) Employees shall not address public gatherings, appear on radio or television, prepare any articles for publication, act as correspondents to a newspaper or a periodical, release or divulge investigative information, or any other matters of the Department without official sanction or proper authority. Employees may lecture on police or other related subjects only with the prior approval of the Superintendent of Police.

#### **4. CITIZENS REPORT COMPLAINT**

Citizens applying to members for assistance or advice, or for the purpose of entering a report or a complaint, shall be given every possible consideration consistent with the circumstances. This is a duty incumbent on all members being contacted, and members shall not refer citizens to another officer or Division unless circumstances necessitate such action.

#### **5. INFORMANTS**

Employees shall not be compelled to reveal the identity of a confidential informant except as required by the Superintendent of Police, or by the Deputy Superintendent of the Public Integrity Bureau in matters relating to known or possible misconduct of a Department employee.

#### **6. CONFIDENTIALITY OF INTERNAL INVESTIGATIONS**

# New Orleans Police Department

## Policy Manual

All files concerning Departmental administrative reports and investigations shall be confidential.

# New Orleans Police Department

## Policy Manual

### **Rule 7: Department Property**

#### **1. USE OF DEPARTMENT PROPERTY**

Employees shall use Department property only for the purpose for which it is intended and in accordance with the Department policies, rules, procedures, and orders. Employees shall exercise care in the use of all Department property and equipment and shall promptly report any theft, loss or damage of department property.

#### **2. AUTHORIZED OPERATOR OF DEPARTMENT VEHICLE**

Only licensed members who are authorized by their supervisor shall operate police vehicles.

#### **3. CLEANLINESS OF DEPARTMENTAL VEHICLES**

Employees assigned to operate police vehicles shall be responsible for the cleanliness of such vehicles during their tour of duty.

#### **4. USE OF EMERGENCY EQUIPMENT**

Employees shall not sound the siren or activate the blue light or other emergency device unless responding to an emergency assignment or when required in the actual and proper performance of a police duty or when so directed by the radio dispatcher or a Superior officer.

#### **5. STATEMENT OF RESPONSIBILITY**

Employees who become involved in an accident (while operating a Department vehicle) shall make no statement as to responsibility and shall not advise other parties involved that the City will pay for the damages resulting from said accidents even through they may be at fault.

#### **6. OPERATION MANUALS**

Employees shall be personally responsible for maintaining and updating their individual copies of the Department's Operation Manuals.

#### **7. SURRENDERING DEPARTMENT PROPERTY**

# New Orleans Police Department

## Policy Manual

When an employee resigns, is discharged, or ordered by his Commanding Officer, he shall surrender all departmental owned property and equipment.
