Paid Detail Services

The City's rates for Paid Detail Services are considered "direct fees" used to pay the personnel staffing an event and are **not** able to be reduced or waived for non-profits or other applicants.

NOPD Services

Whenever a street is being closed, a major traffic impact is anticipated, or a City-owned facility is being used, the applicant may be required to hire NOPD officers to work the event. The number and ranks of officers will be set by the NOPD District Commander. The minimum number of officers used to close a single block is 2 officers. If your event application is submitted through One Stop, your application will be routed to the District Commander and the Office of Police Secondary Employment for detail requirements and staffing. Please visit <http://nola.gov/police-secondary-employment/pricing/> for information on pricing as you plan your event budget.

NOFD Services

Depending on the circumstances of the event location and its components, the New Orleans Fire Department may require a Fire Watch. Circumstances include but are not limited to inoperable fire protection systems, pyrotechnic displays, usage of open flames within an assembly, operation/storage of vehicles within an assembly, and certain activities not expressly stated in the "Code" but when in the opinion of the Fire Official a fire watch may be required.
