

PROJECT SUMMARY: Paris Avenue

The City of New Orleans is moving forward on safety and complete streets improvements along Paris Avenue between I-610 and Filmore Avenue. Funding for this project is available from the 2016 bond program as part of the Moving New Orleans initiative.

The Paris Avenue project is approximately 1.4 miles long and is a lakebound-riverbound street in Gentilly. The land use along the majority of Paris Avenue is residential. Paris Avenue is also a route for the No. 52 St. Bernard-Paris bus.

Paris Avenue Traffic Safety Snapshot (2014 – 2018)

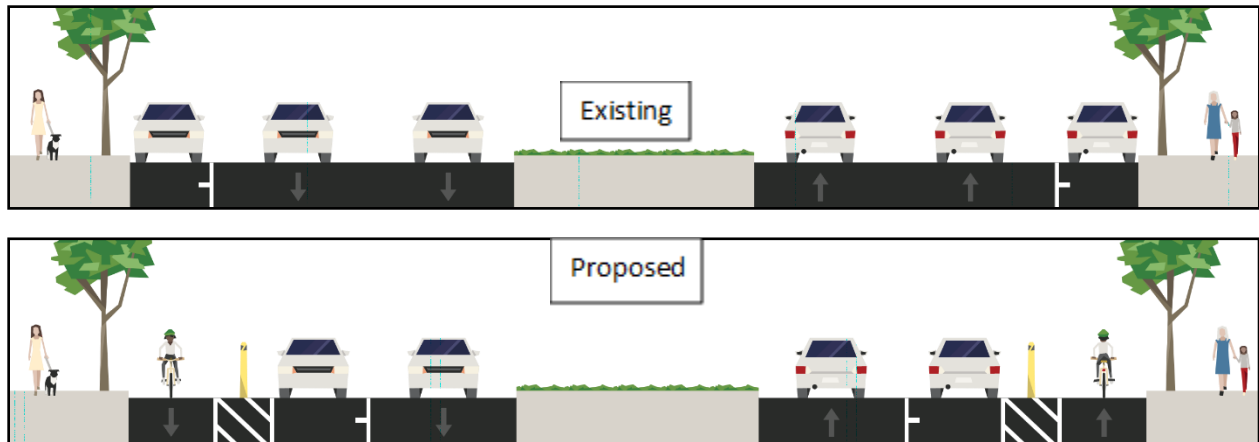

A total of 252 crashes were recorded on Paris Avenue over the five-year period (2014-2018), resulting in one fatality and the injury of 181 people. Most crashes occurred at Mirabeau Avenue (43) followed by I-610/Pleasure Street (33) and Sere Street (32). There were six crashes involving pedestrians and three crashes involving bicyclists.

Proposed Improvements

This project seeks to balance the needs of all roadway users, consistent with the City's Complete Streets Policy. Improvements include adding protected bike lanes, installing marked crosswalks, improving intersection geometry and sight distances at driveways. Between I-610 and Filmore Avenue, the roadway will be reconfigured as a protected bike lane, parking lane, and general travel lane on both sides of the neutral ground. The proposed improvements are designed to address pavement quality issues, improve overall safety, connect to existing bikeways, and make Paris Avenue a more comfortable place to walk, bike, drive and use transit.

Public Outreach

- April 2019 - Eight meetings were held to gather public input for a citywide bicycle network in each of the five City Council Districts (340 attendees).
- July – August 2019 – Three meetings were organized to present a draft of the network plan.
- November 2020 – 7th Ward Area community meeting to discuss upcoming proposed roadway projects including bikeway implementation.

In addition to public meetings, input was received online between April and June 2019 through an online interactive bike network planning map. A total of 2,288 people commented and made recommendations.

What is Moving New Orleans?

As an initiative of Mayor LaToya Cantrell, **Moving New Orleans** is a multi-modal strategy that is focused on improving the safety, equity, efficiency and connectivity of the City's transportation network. **Moving New Orleans Bikes (MNOB)** is the first of several focused strategies to be implemented under this framework. MNOB is a joint initiative of the Mayor's Office of Transportation and Department of Public Works that is designed to accelerate the construction of a 75-mile connected low-stress bikeway network.
