Hagan-Lafitte Drainage Upgrades and Green Infrastructure Project

Design Review Committee April 27, 2017

Agenda

- Project Goals and Benefits
- 2 Changes from last DRC Meeting
- 3 Project Progress
- 4 Schedule

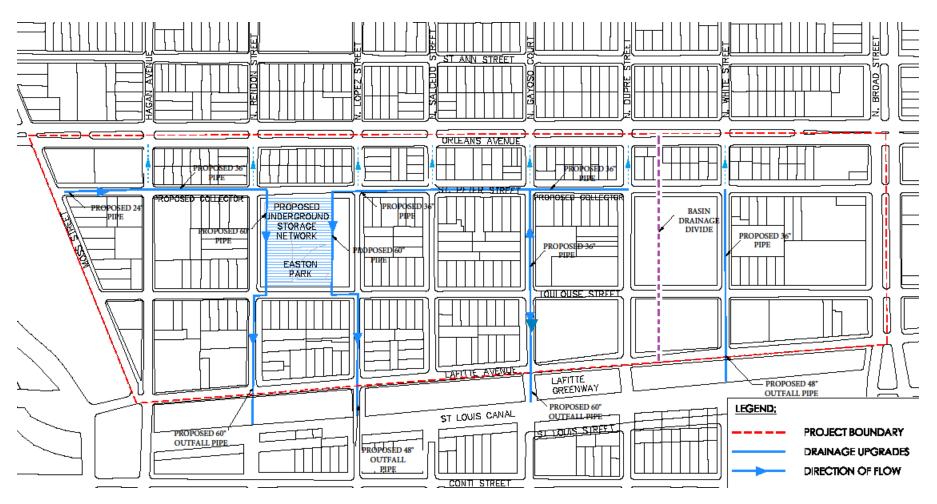

Project Budget and Goals Neighborhood Resiliency

- HMGP funded \$5.35 million
- Benefit/Cost Analysis of 1.67 (1.0 Req'd)
- Reduce flooding
- Utilize Green Infrastructure to slow, retain, and absorb storm water
- Improve resident's quality of life

Grey Infrastructure Improvements

Redirect flow toward St. Louis Canal

Green Infrastructure Goals

- Increase pervious area Pervious sidewalk and Rain Gardens
- Recharge aquifer
- Add Underground storage

Louisiana Iris

Dwarf Palmetto

Gulf Muhly

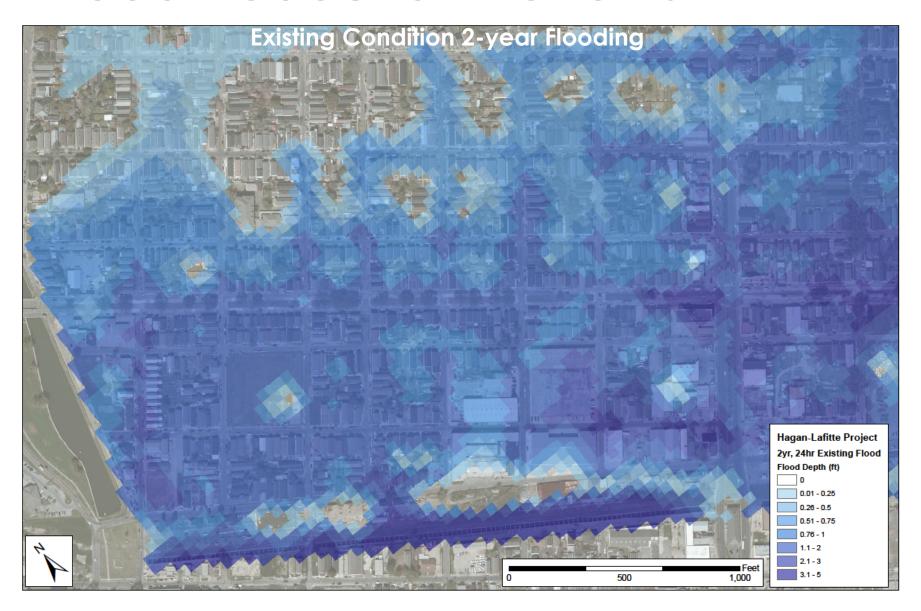

Flood Reduction Benefits

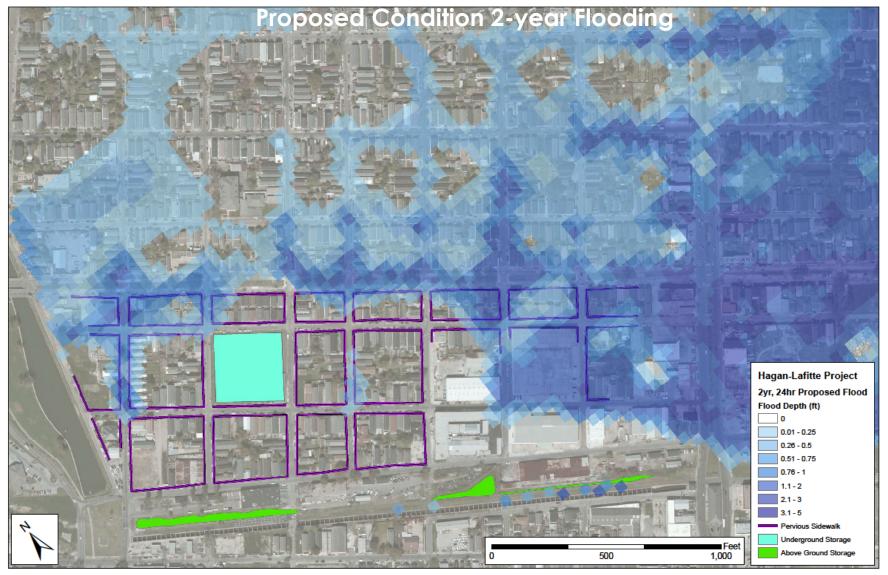

- Average peak flood elevation reduction of 14" in project area for 2-year storm
- Average flood duration reduction of 2.6 hours for 2-year storm
- Underground storage provides for 3.75" of rainfall over the site

Flood Reduction Benefits

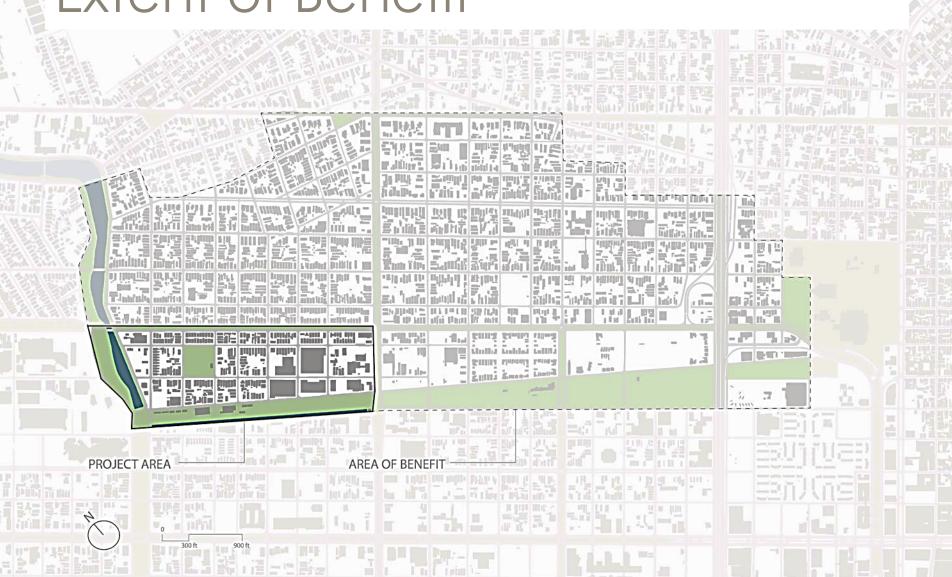

Flood Reduction Benefits

Extent of Benefit

Notable Changes

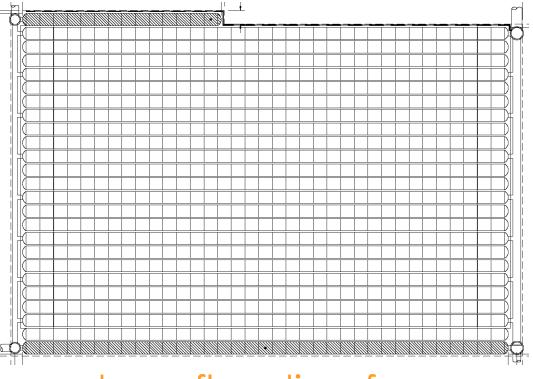

Underground Storage at Easton Park

- Removed the sump pumps from the underground storage
- Underground storage changed to open bottomed chambers to increase infiltration
- Added field grading and new turf

Underground Storage

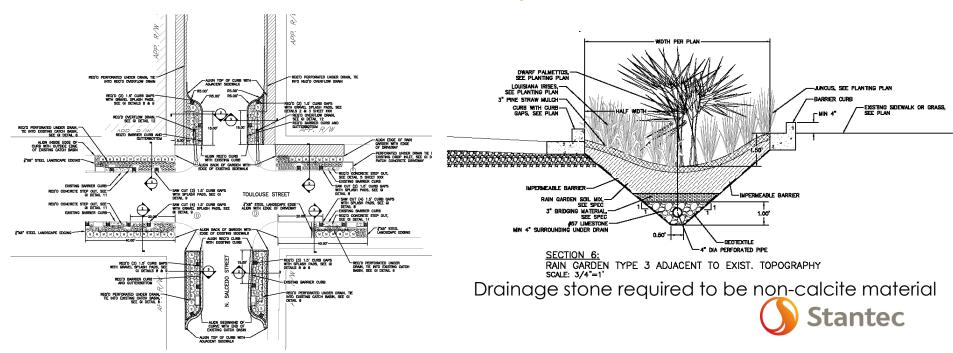

- Storage Volume to reduce flooding for the neighborhood
- Park gains new turf and sloped to drain to underground storage maximizing use of fields after storms.

Notable Changes to the Plans – Green Infrastructure

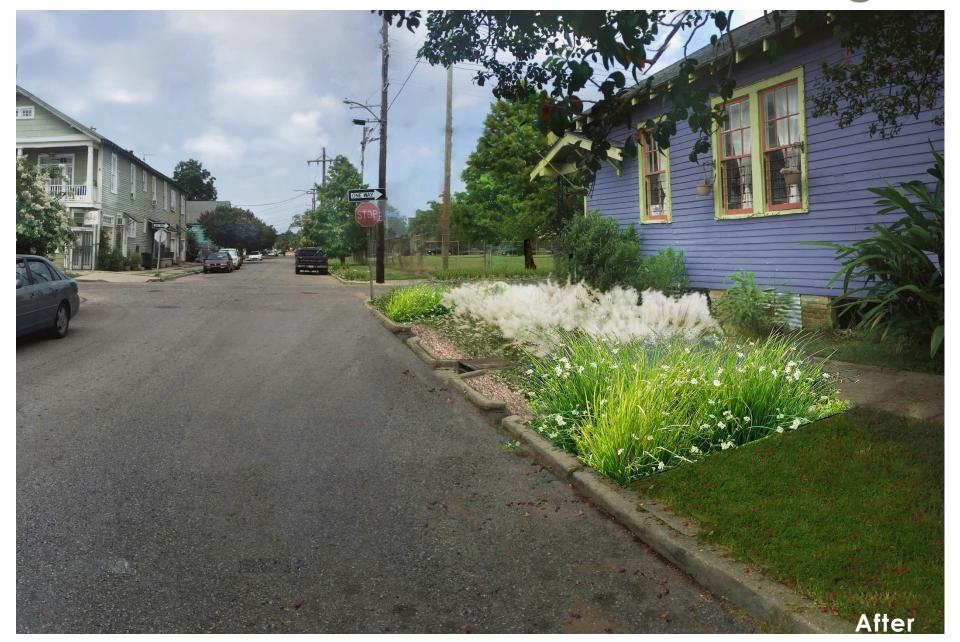

- Refined design for rain gardens
- Added more pervious sidewalk to increase connectivity

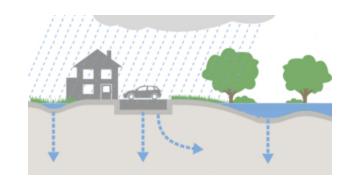

Green Infrastructure Rendering

Project Progress

- Plan-in-Hand meeting on February 2nd
 - DPW, NORDC, Parks and Parkways, Entergy, Cox, SWBNO, CIP
- Environmental Site Assessment meeting on April 24th – plan in process
- Review Meeting with SWBNO April 26th
- DRC meeting on April 27th

Status of Project Review

- Coordinating with Parks & Parkway, NORDC and SWBNO
- Advance Check Print submitted on March 8th
- GOHSEP/FEMA review scheduled for completion May 7th
- Final Plan Submittal due May 28th

We are on Schedule!

Discussion

Thank You!
